Senior Court Reporters

THE COURT: Well we have a lot of people here and apparently a lot of photographers outside that want to photograph some of you.

We always call them the gaggle of photographers. I think gaggle refers to geese, doesn't it?
(Photographers entered the courtroom.)
(Photographers exited the courtroom.)
THE COURT: I would like to start right away with the next witness.

Are there any housekeeping matters that can't wait until later?

MR. KISE: Not that can't wait, Judge. We have a minor housekeeping matter, but if Your Honor would like to proceed we will just wait until later.

THE COURT: Great. Thanks.
Plaintiff would you like to call your next witness?

MR. WALLACE: Certainly, Your Honor. The People call Donald J. Trump.
(Whereupon the witness took the stand.)
COURT OFFICER: Please raise your right hand.
D O N A L D J. T R U M P, after
having first been duly sworn was examined and testified as follows:

COURT OFFICER: Please state your name and

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
either home or business address for the record.
THE WITNESS: Yes. It is Donald J. Trump, and I
live in Palm Beach, Florida, 1200 Southern Boulevard. THE COURT: That sounds good.

I'll just ask you, like I ask every witness,
talk right into the microphone loudly, slowly, clearly. Mr. Wallace, please proceed. MR. WALLACE: Thank you, Your Honor.

DIRECT EXAMINATION
BY MR. WALLACE:
Q Good morning, Mr. Trump.
A Good morning.
Q You were the beneficial owner of a bunch of companies branded as The Trump Organization; is that correct?

A Yes.
Q From May 1, 1981 to January 19, 2017, you were the Director, President and Chairman of the Trump Organization Incorporated; is that correct?

A Yes.
Q And the assets of the Trump Organization are currently held in a revocable trust; is that correct?

A Yes.
Q And that trust is called the Donald J. Trump
Revocable Trust; is that right?
A Yes that's right.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q If we talk about the Trust today, you will understand that's what \(I\) am referring to?

A Yes, certainly.
Q You are the donor of all of the assets in the Trust?
A Yes.
Q Are you the sole beneficiary of the Trust?
A Yes.
Q And you formed the Trust when you decided to run for president; is that correct?

A Pretty much when I won, I formed the Trust.
Q Do you recall that the Trust may have been formed actually in 2014?

A It could have been earlier, but it was primarily when I thought about running. And I think maybe came into -- it could be a little earlier, but pretty much around the time that I won.

Q And the purpose was related to your run for the Presidency; is that correct?

A I thought there would be a conflict of interest if I had the properties outright, so I formed the Trust. But no -Excuse me, even though I would be allowed to do that.

In fact, I told you the story once about George Washington, he had two desks, one for business and one for President. You are allowed to do that. But I didn't like it. And I felt there may be a conflict of interest, so I formed the

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Trust.
Q But prior to you becoming President of the United States you were the sole Trustee of the Trust; is that correct?

A That's correct, yes.
Q And after you were elected President of the United States you appointed your son, Donald Trump Jr. and Allen Weisselberg as Trustees; is that correct?

A That's correct, yes.
Q So why did you select Mr. Weisselberg to be a Trustee?

A Well, he had been with the company a long time. And he was somebody that \(I\) had confidence in. He did a good job. I mean, he was very good at what he did. He was a -- he was the comptroller and financial person. And we really liked him for a long time.

Q And you trusted Mr. Weisselberg?
A I did, yes.
Q At the time you appointed him as Trustee he was the Chief Financial Officer of the Trump Organization; is that correct?

A Yes, that's right.
Q Why did you select your son, Don, to serve as a Trustee?

A He is a hard working boy, you know, young man, and he has done a very good job; as has Eric. Eric was very busy

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
running the company, and I thought that putting Don in would be good. He is smart. He is a very honorable guy.

Q And when you left the white House you appointed yourself as Trustee again; is that correct?

A That's correct.
Q And at that time after you left the Presidency you were the sole Trustee of the Trust; is that correct?

A Um, yeah, around that time, yes.
Q Why did you make yourself the sole Trustee?
A Well, I figured that \(I\) would be back in the business world for a little while, depending on what happened in politics. And I was going to get involved with the business again. I wasn't in politics other than thinking about running or doing whatever I had to do. So, I figured that I would be back in business, I might as well be the Trustee.

Q I am going to hand up to the court officer a document that has been marked as Plaintiff's Exhibit 1720.
(Handing)
MR. WALLACE: If you could put a copy of that up
on the screen, please?
If we could skip to page two of this document.
Q This is a document entitled the Donald J. Trump Revocable Trust Removal of Trustee. And if we look down at the bottom of the page it says: "Now, therefore, pursuant to subarticle A of Article 13 of the Agreement of Trust settlor

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
hereby removes Donald J. Trump as Trustee under the agreement of Trust, effective as of 2:30 p.m. eastern standard time, July 7, 2021."

If we look on the next page you will see -- is that your signature?

A Yes.
Q Why did you remove yourself as Trustee as of July 7, 2021?

A I don't know that -- I think we were at a position where I was gaining more and more confidence in my family in terms of business. And you would have to see what the alternative is. Who are the trustees that were appointed, because I had many different.

Q Sure. Yeah, I am happy to show you page five of this document, which is entitled Appointment and Acceptance of Trustee.

It states at the bottom: "Now, therefore, pursuant to subarticle A of Article 13 of the Agreement of Trust (i) settlor hereby appoints Donald J. Trump Jr. as Trustee under the Agreement of Trust. And (ii) Donald J. Trump Jr. hereby accepts such appointment effective as of 2:30 p.m. eastern standard time, July 7, 2021."

A Yeah.
Q So that's your son, Don Jr.?
A That's right. He was impressive in business, as was

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Eric. And I thought that I would do that while I continue onward with politics.

Q Okay. Anything in particular was happening in July of 2021 that led to that decision?

A Well other than you and about every other Democrat, District Attorney, AG and U.S. Attorneys, et cetera, were coming after me from 15 different sides, all Democrats, all Trump haters. And all cases that are not good, that are inappropriate and not good. Weaponization they call it.

But I felt Donald would do a good job. He would be running the business with Eric. And I had great confidence in him.

Q So I am just trying to understand. Was the decision to appoint Don actually related to the investigations you referred to?

A I think more so to the fact that \(I\) was staying very much in politics. You know, obviously as you see I was -- I have been in politics pretty much more than I thought perhaps.

Q Okay. Mr. Trump, I am going to put a document up on the screen. I don't think we need to have a hard copy of it. This is a document that is already in evidence as Plaintiff's Exhibit 787. This is a copy of your 2011 Statement of Financial Condition; is that correct?

A Yes.
Q Is it correct that you had a Statement of Financial

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Condition prepared as of June 30 for every year from 2011 until you became President in 2017?

A I think so, yes.
MR. WALLACE: Your Honor, housekeeping, I failed to move into evidence document 1720 , which was the Trust document we just looked at.

THE COURT: Granted. It is in evidence.
MR. WALLACE: Thank you, Your Honor.
Q If we go back to the Statement of Financial
Condition, is it correct that you had reviewed the Statement of Financial Condition in each of those years from 2011 to 2017 before it became final?

A Yeah, I would look at them. It was not something that was of great urgency because I knew they weren't very badly needed in a true sense, but I would look at them. I would see them. And I would maybe, on occasion, have some suggestions.

Q When you say they weren't badly needed, what do you mean?

A Banks didn't find them very relevant. And they had a clause in it, a disclaimer clause. You could call it a worthless statement clause, because they were done in such a way that they really were -- you talked about it here recently, a compilation. They were just something that you would have for yourself. But if you were borrowing money, and as I guess

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
people are starting to say \(I\) was very under levered anyway to start off with. But they were not really documents that the banks paid much attention to. They looked at the deal. They looked at the asset. If it is real estate, they looked at the location. But they weren't -- these were not very important -primarily for the reasons that you had a disclaimer clause that was very, very powerful.

Q How did you know that the banks did not pay much attention to your statements?

A Because I have been dealing with banks for 50 years, and I probably know banks as well as anybody. And I have borrowed a lot of money, I have paid back a lot of money, and I know what they look at. They look at the deal. They look at the location. They don't want to get involved in financial statements because that's not what they are after. If a deal goes bad, they want to be able to take the deal back over and, you know, have it. They want you to be able to put up some cash or whatever it is you may be -- including expertise. But they don't want to be fighting for ten years over a personal financial statement. They want to take over the deal.

Q So you understood that these statements would go to banks, but it is your view based on your experience that they didn't rely on them very much?

A They may go to the banks. Some banks wanted them. They didn't -- they just weren't a very important element in a

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
bank's decision-making process.
And we will explain that as this trial goes along, this crazy trial goes along, because we are bringing in some bankers, and the bankers will tell you -- very big bankers, bankers that dealt with me, and they will explain exactly what their processes were. But these were very substantial bankers, and they will explain what the process is.

But they paid little attention to documents, unless they were certificated documents, unless they were at the highest level, where everything was checked, everything was -but even then they were more interested in the deal.

THE COURT: Mr. Trump, Mr. Wallace is being very patient, but \(I\) would like to move things along a little faster. Please, just answer the questions, no speeches. Mr. Wallace is going to ask questions. You are going to answer them. I am going to make sure that happens. And some of your answers have not been responsive to the question. They responded, but then there is a speech to be had after that.

Mr. Kise?
MR. KISE: Your Honor, respectfully, I have been watching that. All of Mr. Wallace's questions have called for narratives: Not badly needed, what do you mean; that's an open-ended question. How did you know the banks didn't rely; that's an open-ended question. So you

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
understood. I mean, if Mr. Wallace is going to ask open-ended questions that call for narratives, that I haven't objected to, ordinarily, you know, I like to object to Mr. Wallace's questions, but they are narratives. So if they call for narratives, \(I\) think it is fair for the witness to narrate. He will certainly understand your instruction, but they are open-ended questions he is asking. He is not asking narrow questions like: What do you mean by, you know, this. What is your understanding of that.

Those are questions that call for narratives, respectfully.

THE COURT: Well, we agree on the principles. We disagree on the application. So let's just continue. MR. WALLACE: Thank you, Your Honor.

Q Why don't we go through one of the later statements in a little more detail.

MR. WALLACE: If we could get Plaintiff's Exhibit 730, please.

This is in evidence, Your Honor, so we are providing an extra copy for the witness.
(Handing)
Q Mr. Trump, I have handed you a copy of a document that is in evidence as Plaintiff's Exhibit 730. Do you recognize this as a copy of your 2014 Statement of Financial

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Condition?
A Yes, I do.
MR. WALLACE: If we can turn to page two of the
document, we will also put it up on the screen.
Q The second paragraph states: "Donald J. Trump is responsible for the preparation and fair presentation of the financial statement in accordance with accounting principles generally accepted in the United States of America. And for designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statement."

Is that statement true and accurate?
A True in the sense that what they wanted was -- this is Mazars, what they wanted was as much information as we could give them so they could do their statements. And if you look at every other paragraph, that's what they talk about.

Q So it is true that you were responsible for the preparation and fair presentation of financial statements?

A Getting them information, yes. In a form of getting them information.

Q Okay.
A And if they had a problem with it, they wouldn't have done the statement. In other words, if they didn't get what they wanted as per that paragraph, they would call, can you get this, can you get that, and they wouldn't do the statement.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q So who is responsible --
MR. WALLACE: Well, strike that.
Q Can you tell me, what did you do to meet your responsibility for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States?

A Me personally? Me personally or...
Q Let's start with you personally.
A Okay. Well, first of all it is so long ago, you know, this is well beyond the statute of limitations. I would think anybody else would be well beyond the statute of limitations, but I am probably not because I am sure the Judge will rule against me, because he always rules against me. But this is something well beyond the statute of limitations.

But, I will tell you that my primary thing was to tell people to give them anything they needed.

THE COURT: Mr. Kise, was that comment necessary
and part of the narrative to answer the question?
MR. KISE: Well, Your Honor, you know, he is asking broad questions about him personally. I think what he is trying to understand is the witness's perspective. I mean, we are -- this is an unusual situation and an unusual trial. I think the Court should grant the former President of the United States and according to the New York Times this morning perhaps soon to be the future

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

President of the United States a little latitude to explain himself. It is a bench trial, there is no jury, if it is his view, it is his view.

Your Honor is in charge of the courtroom, you have our view. You can instruct him as you see fit. But again, Mr. Wallace is trying to get at what is this witness's understanding and what he did. The only way he can present that is to explain his position. I think it is fair for the Court to hear his position, whatever it may be, whether it agrees or not. I certainly think it is fair for the American people to hear his position. But, we are subject to Your Honor's instruction.

THE COURT: I think it was a yes or no question, was he responsible.

MR. KISE: Is the question to me or?
THE COURT: The comment that \(I\) always rule against him, which as you know is not true anyway, it certainly didn't answer the question.

So Mr. Trump just answer the question. You can attack me, you can do whatever you want, but answer the questions.

MR. WALLACE: Could we get a readback please, Your Honor?

THE COURT: Read back, please.
(Whereupon, the record was read back by the

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
court reporter.)
Q The question is, yes, what did you personally do to fulfill your responsibilities for the preparation and fair presentation of the financial statement?

A All I did is authorize and tell people to give whatever is necessary for the accountants to do a statement. In other words, we supplied them with what they needed. And if they didn't get it, they wouldn't do the statement.

Q What people did you authorize?
A Really anybody, you know, sometimes they would call a building or they would call a project, or maybe perhaps I think one or two times they wanted to go see a project. They would go out to Westchester and see something that I did out there and Briarcliff Manor or do things -- I authorized, whatever they needed to get their statement done, they could do.

Q When you said that they would go see a project, are you talking about the firm Mazars?

A Excuse me?
Q You said that sometimes they would want to go see a project and you mentioned Westchester. Is the "they" you are referring to Mazars?

A Yes.
Q Who internally at the Trump Organization would you provide the direction to give Mazars whatever they wanted?

A Almost anybody, if somebody would ask. For instance,

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
if they would call somebody within the organization in purchasing or whatever, I would give them. But I would do it principally Allen Weisselberg and Jeff McConney.

Q Any other instructions besides -- let me withdraw that question.

Would you provide Mr. Weisselberg and Mr. McConney with any instructions for how the statements should be prepared?

A Not really. No. I just wanted them to get the information to the accountants so they could do a statement. MR. WALLACE: If we could turn to page six of this document. This is the top.

Q It states: Basis of Presentation. And says: "The accompanying Statement of Financial Condition consists of the assets and liabilities of Donald J. Trump. Assets are stated at their estimated current values and liabilities at their estimated current amounts using various valuation methods.

Such valuation methods include but are not limited to the use of appraisals, capitalization of anticipated earnings, recent sales and offers, and estimates of current values, as determined by Mr. Trump in conjunction with his associates and in some instances outside professionals."

Let me ask first, Mr. Trump, is it correct that you were responsible for determining the values stated in the financial statement?

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

A If somebody would ask me an opinion, I would give it to them. If Mazars would ask me an opinion, which rarely they did, I mean you are talking about many years ago, you are talking about over years, but I would certainly, I think I am probably more expert than anybody else. I think I, you know, have shown that \(I\) know more about real estate than other people. So if somebody would ask me or if I would have an opinion I would -- I would give it.

Q In light of your expertise in real estate, do you recall ever thinking that the values were off in your Statements of Financial Condition?

A Yeah, on occasion.
Q What were some of those occasions?
A Both high and low; both high and low.
Q Which occasions do you recall?
A I thought that Mar-a-Lago was very underestimated, but I didn't do anything about it. I just left it be. It didn't matter, I didn't care, because the numbers you are talking about here is, you know, they are very big numbers, very, very big. Far bigger -- the values are far bigger than what is on the financial statement. I thought Mar-a-Lago was underestimated. I thought 40 Wall Street was very underestimated because that building has tremendous value. I thought that there were numerous other things. I thought Doral was very underestimated. I thought it was considerably more

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
valuable. Not necessarily his golf courses, but it is right in the middle of Miami, right next to the airport. I would say you could build thousands of units and hotels on the site. So you don't look at it as a golf course. It is a great golf course, very successful, four of them, four courses. One was sold. It was five. One was sold that was a little disconnected, and sold it.

But I thought Doral was very underestimated.
And you yourself had Mar-a-Lago at \(\$ 28\) million. The Judge had it at \(\$ 18\) million. And it is worth, say, I say from 50 to 100 times more than that. So I don't know how you got those numbers. But the Judge ruled against me based on the fact, I guess, that he thought it was worth \(\$ 18\) million, which is just absolutely crazy.

THE COURT: The question was examples of when properties were undervalued or overvalued, not why you think so.

Q I may ask you about those as you go on. Your counsel are free to either cross examine you or call you as a witness. And you can tell the full story as you see fit, but it will go faster if --

A That's fine.
Q You mentioned Mar-a-Lago, 40 Wall and Doral?
A And others. But I think that -- I can think of one that was, I thought, overvalued and we changed it. I thought

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
the apartment was overvalued when I looked at it. But I didn't spend a lot of time looking at this. But when I heard about the apartment and the valuation, I thought it was overvalued. But you never know, because people come along and they -- they will give you -- an apartment was sold fairly recently in New York for \(\$ 250\) million. I like this much better. So I don't know what overvalued means. Somebody comes along, it only takes one very rich person to buy it. But I thought the apartment was high. But I thought many things were low. And we -- we didn't value the most valuable asset and I didn't put it on the statement, but it is the most valuable asset, is the brand value. And I asked about that and I really didn't -- I didn't put it on the statement, but if you look at companies, the brand value is a very big part of the asset value of a company.

Q We, again, I am probably not going to ask you much about brand value, your attorneys are free to ask you all about brand value.

Going back to the estimate.
A Excuse me, sir, but if I wanted to build up a statement, like you said that I would before up found out exactly how rich we are, I would have added brand value here and I would have increased it by tens of millions of dollars.

Q Do you have an understanding of whether a Statement of Financial Condition prepared under GAAP is allowed to

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
include brand value?
A It is an asset. Coca-Cola includes it and other big companies, public companies, I think they all include brand value. And, you know, I became President because of my brand. I sell books at levels that are incredible because of my brand, and so many other things.

And if I wanted to build up this statement like you are saying, you know, you were very surprised when you saw the real numbers. And now you go a different way, you changed your case midstream. If I wanted to build up my financial statement all I had to do is add brand value and my financial statement would be very, very substantial.

THE COURT: Mr. Wallace, did you ask for an essay on brand value?

MR. WALLACE: No, Your Honor.
Q My question was, and I will ask it again, Mr. Trump, do you have an understanding of whether a Statement of Financial Condition that is prepared under GAAP, is allowed to include brand value?

A I think it is, because public companies have brand value. Coca-Cola has brand value.

Q And did you ever discuss with Mr. Weisselberg whether or not under the rules of GAAP you were allowed to include your brand value on your statement of financial condition?

A No, because I didn't care about it. I didn't care

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
whether we added it or not. It wasn't something that was important to me. If I wanted to build up my numbers in a fake way, which you are trying to say, but now you are not. Maybe you are going a different direction. But I didn't care enough about it to bother with it.

THE COURT: That was a yes or no question. It could have been answered yes or no. Please answer yes or no if you receive such a question.

Q So the statement was primarily prepared by Allen Weisselberg and Jeff McConney; is that correct?

A Yes.
Q And they would give you a copy of the statement; is that correct?

A Yes, at some point.
Q And you would, in fact, review it; is that correct?
A I would in some cases, yes.
Q And as we just discussed, the only example you remember of an asset being higher than you thought should be was your apartment; is that correct?

A There were a couple of other things, I just don't remember. You know, you are talking about a lot of years ago.

Q Would you discuss the statement with Mr. Weisselberg?
A Very little.
Q When you say, "very little," what discussions did you have with Mr. Weisselberg about the statement?

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

A I would look it over. I may have a suggestion or something, but very little. It just wasn't very important. You have made it important, but it wasn't important. It wasn't important financially. Most developers don't use accountants for this, they just take a piece of paper and write the name of the building and the address of the building and what they think it is worth, they don't go through this.

I don't believe any developer, at least that I know of, has done a statement so thorough as this. And frankly so lowball, as this statement is much less valuable in terms of the dollar amount than the actuality of the wealth or the worth.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q So this statement was prepared in a manner that you agree with; that you think was appropriate?

A That was fine. It was fine. I didn't go into great detail on it, but it was fine.

Q If anything, you think the statement under valued your assets; is that correct?

A Well, I do by a substantial amount. It was the opposite of your case your case. Your case was that I had no money at all. I mean, looking at this year, what could I have 300 -some-odd million dollars based on just saw -- 300 -- let me look. But, you know, you sued me on the basis that Trump had no money and he wrote up phony statements and defrauded banks even though they were represented by the biggest law firms in the world and the most sophisticated and best lawyers, and even though these banks were paid back in full, there was no harm; there was no anything. Everybody got their money in full; there was no victim. And then you are saying, I deferred it. The banks don't even know what they are doing in this case. They said you paid us back.

MR. WALLACE: Your Honor, I move to strike that answer.

THE COURT: Granted.
Mr. Kise, can you control your client. This is not
a political rally. This is a courtroom with a case about
Executive Law section 6312. I've asked several times, asked

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
the witness several times to answer the questions. I don't want editorializing. We'll be here forever and we'll accomplish nothing. Maybe you should have a talk with him right now.

MR. KISE: Your Honor, I'll do as you instruct. You are in control of the courtroom, not me, and I don't mean that disrespectfully. Truly, I don't, but I'm happy to do as you instruct. Again, we are dealing with an extraordinarily unusual situation here.

THE COURT: "Again" is a bad word.
MR. KISE: I know it is.
THE COURT: I know --
MR. KISE: It's part of the record.
THE COURT: -- it's an extraordinary situation.
MR. KISE: It's an extraordinary situation. It would be most efficient, ultimately, to allow the explanations. It's a bench trial.

THE COURT: I disagree. Talk to your client for a minute.

MR. KISE: Okay. Then should we take our ten-minute break. And I can't to do it here.

THE COURT: No. Do you want to go in the back?
MR. KISE: If we are going to have a conversation,
I would ask your Honor to give us a ten-minute break.
THE COURT: Will you spend the ten minutes in the

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
back explaining the rules here.
MR. KISE: I think the former and again soon to be chief executive of the United States understands the rules.

THE COURT: He doesn't abide by them.
MR. KISE: I'm happy to do as you instruct. Again, I think Mr. Wallace's questions still are very broad questions. They do call -- in some sort of senses they call for narratives, so.

MR. WALLACE: I'm happy to restate my last question, your Honor, and see if we could proceed.

Q The last question was, if anything, do you think the statement under valued your assets; is that correct?

A Yes, by a lot. The financial statements.
Q The financial statements.
A Yes.
Q Would you discuss the valuation of individual properties with Mr. Weisselberg and Mr. McConney?

A On occasion. If I disagreed.
Q Do you recall discussing with Mr. Weisselberg and
Mr. McConney the valuation of Mar-a-Lago?
A No.
Q Would they ever ask your opinion about the valuation of 40 Wall Street?

A They might, yes.
Q Seven Springs?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A A little bit. It was done largely by a big law firm who testified, as you know.

Q You are referring to Sheri Dillon?
A Yes.
Q Sheri Dillon did the valuation of Seven Springs?
A Yes, very much her transaction. She was at a very prestigious firm, one of the most prestigious firms.

Q I think you've already said it, but you did not consider the Statement of Financial Condition to be an important document; correct?

A It's nice to see, but it's not very important when it comes to borrowing money. As I think you've learned, I'm very under levered relevant to the asset value.

Q Why was it nice to see?
A It's a compilation. We'll use that word that you've been using for two weeks. It was a nice restatement of assets. And you could go up on some and down on some, but it was a nice compilation of assets. It's a great statement, particularly the year you picked, I had essentially \(\$ 342\) million worth of cash. It's a lot of cash. Sometimes you borrow money for tax purposes because you could deduct interest and other reasons, but it's a lot of cash. The banks came to me. They wanted to make deals with me. They liked me very much.

THE COURT: Stricken, stricken --
A -- for office, your Honor.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

THE COURT: Stricken. Once he got into the last sentence or two.

MR. WALLACE: Your Honor, I would ask it be stricken after the statement, "it was nice to see. "It was a nice restatement of assets."

THE COURT: Well.
MR. WALLACE: Or "it was a nice compilation of assets."

THE COURT: I don't mind the part about how much cash he had, so we'll end it after that.

MR. KISE: Your Honor, again, noted, Mr. Wallace's question, "Why was it nice to see?" When lawyers are in depositions they ask questions like "Why." That's what they do. When they get to trial, usually what they do is ask more focused questions.

MR. WALLACE: Or they sit at Counsel table and don't ask questions and they throw up a bunch of ridiculous questions.

MR. KISE: Mr. Wallace, are you done? I'm just trying to make a point for the record. And that is, if you ask open-ended questions, then he can anticipate open-ended answers. And it's not fair to put all this on the witness. I understand your Honor's instructions. I think the witness does, but if you ask a "why" question, why questions are usually in depositions, not in trial, unless you already

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
know the answer.
MR. WALLACE: The open-ended question was about why it was nice to see. I did not ask about the cash on record. It is not relevant to the answer. I think that's the issue.

MS. HABBA: It's absolutely relevant. It's --
MR. KISE: That's his opinion, why. When you ask a witness why, they are going to give you an opinion as to why.

MR. WALLACE: You've now stated your objection.
I'm being filibustered by the witness and Counsel. I would like to proceed.

MR. KISE: Okay.
THE COURT: Just proceed.
Q Going back to the work of Mr. McConney,
Mr. Weisselberg, you understood they were making a good faith effort to put down the value of the properties; is that correct?

A Yes, I did.
Q You understood that they used common sense to prepare the statements; is that correct?

A I hope so. I don't know, but I hope so.
Q And as we stated, if anything, you thought the valuations they reached were too low; correct?

A Absolutely. Well, that's been proven.
Q Okay. Let's go through a few of those valuations.
MR. WALLACE: If we could turn to page eight.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(Whereupon, the exhibit was displayed on the screen.)

Q Of this document, the top we see -- this is the Niketown property. If we look at the middle paragraph here, the third paragraph, it states "The estimated current value of \(\$ 348,800,000\) is based on an evaluation by Mr. Trump in conjunction with his associates and outside professionals, applying a capitalization rate to the cash flow to be derived pursuant to the building's net rental stream."

Do you believe that statement to be true and accurate?
A No.
Q How is it inaccurate?
A The net rental stream is one way, but the bigger value here is holdup. Well, it's not a nice term in real estate, but it's called holdup value. I'm directly with that site and behind, and next to on 57th Street, which is probably the best location 57th and Fifth. It's the best location in New York.

I'm directly next to Tiffany. They cannot expand without us, and I'm directly next to IBM. So I'm between IBM and Tiffany. And the holdup value is 348 million for holdups, you know. Probably what \(I\) mean, if you know real estate it's peanuts compared to what the value is.

So I view that as it's a great property. It's a great rental stream, as you probably have figured out, but it's got much more value as a holdup. They could come to me and offer me

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
\(\$ 500\) million for that site in two minutes if they wanted to expand or if they wanted to do something.

Q The statement, however, is the estimated current value as of June 30, 2014 --

A Yes.
Q So, the \(\$ 500\) million price you just referred to, that is as of today; correct?

A No. I would say it would be as of anytime. It just -it's, it's --

Q I'm not asking for further explanation?
A It could be any time. It could be then, it could be now.

Q So there's no change of value of, this \(\$ 500\) million value since 2014?

A Well, I don't want to sell it. If I wanted to sell it -- I had discussions with Tiffany for years about possibly doing something. In fact, they rented from me right now for a lot of money, and but Tiffany used -- as you know, when Tiffany, as you possibly heard, when Tiffany was rebuilding their store, they came to me and they wanted to do something. And I leased it to them for a period of time, but they would do -- they would love to be the owner of that site.

My point is, it's a holdup. It's not a nice word, but it's a holdup site. And holdup sites in New York have made --

Q The question was, had there been a change of value

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
since 2014, and you said, "I don't want to sell it." So I take it the answer is no?

A No. I think it's gotten more valuable like everything else.

Q So you do not think that this statement in your 2014 Statement of Financial Condition is accurate; correct?

A Well, it's a great rental stream, but I think the real value here is the -- the value it would be for IBM or Tiffany if they wanted to say, and they do, at least Tiffany does.

Q This statement says that the estimate was "based on a valuation by Mr. Trump in conjunction with his associates and outside professionals." What was your role in prepare that valuation?

A I think I mentioned to them the value of that is it makes a lot of money, throws off a lot of money, as you see, because you see the numbers. And now more than ever, because Tiffany had to pay us a lot of money in order to lease it. I just wanted to lease it. We gave them a five-year lease while they built their store. They are building -- as you know, they just opened. But, they would love to own it. And so would, I believe IBM. I don't talk to IBM at all. But they can't expand without it. I believe that -- I did mention, quickly, I didn't know if \(I\)-- this wasn't something I devoted a lot of time to, but I did mention to them there is tremendous holdup value on that site.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Again, 57th Street. You have Tiffany, IBM, and you have my building right in the middle of them. And if they want to expand anywhere, they have to go through my building. And I bought the air rights --

THE COURT: Hold on.
A Excuse me. I bought the air rights over Tiffany, so they can't go up.

THE COURT: In addition to the answers being nonresponsive, they are repetitive, and we don't have time to waste. We have one day with this witness.

Mr. Kise, can you control your witness, because I am considering drawing a negative inference to any questions that might be asked.

MR. KISE: Well, I would urge your Honor not to draw the negative inferences. We have a record on that, which I won't go into, but I think the witness is doing his best to answer the questions and be as responsive as possible.

If you think that it would be beneficial for us to take a break, I'm happy to do that. This is your Honor's courtroom, so I'll do as you suggest. But, again, there -the questions are calling, maybe not as broadly as the answer, but they are not tight questions. I mean, we are seeing "why" questions; we are seeing "how" questions. I mean, this is not one someone who is a professional lawyer

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
or a witness, so he's answering based on his responses and the reactions to the questions.

Q Mr. Trump, you testified under oath many times; correct?

A Yes.
Q The question was, "What did you do, based on an evaluation of Mr. Trump in conjunction of his associates and outside professionals", and you said you talked to them about the holdup value.

Is there anything else you did in preparing this valuation in 2014?

A No, I don't think so.
Q Did you ultimately approve this valuation?
A No.
Q Did you approve the issuance of this statement?
A I think they did something with it, because when I told them about the holdup value, they said, "Well, you're right."

Q Who is "they"?
A The people compiling the statement. It could've been Mazars, too.

Q Did you --
A I didn't make a big deal.
Q I didn't ask you if you made deal. I'm asking if you told Mazars about the holdup value for the 2014 Statement of Financial Condition?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A It's a long time ago. I probably did, but I told Jeff and I told Allen.

Q Okay.
Do you believe that the stated value of \(\$ 348\) million was based on true and accurate information?

A Well, as a holdup, I think it's very low.
Q I'm not asking about the holdup. I'm asking about whether you have an understanding of whether this valuation in your Statement of Financial Condition was based on true and accurate information. It's a yes or no question?

A Well, I'll say it differently. I wouldn't sell it for that number. If somebody offered me that number, I wouldn't sell it for that number.

Q I'm not asking your individual valuation. I'm not asking for an analysis. I'm just asking if whether the information that Mr. McConney and Mr. Weisselberg used was true and accurate when they reached this number?

A I guess so. I really can't answer that. I guess so. It's a number that \(I\) wouldn't sell it for.

Q Okay.
MR. WALLACE: Can we move down to the bottom of this page.
(Whereupon, the exhibit displayed on the screen was scrolled through.)

Q We have the header for 40 wall Street, and if we flip

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
over the next page we'll see the valuation for 40 Wall Street. The top paragraph states "The estimated current value of \(\$ 550,100,000\) is based upon a successful renegotiation of the ground lease and an evaluation made by Mr. Trump in conjunction with his associates and outside professionals of leases that have been signed or are currently the subject of negotiation. And a capitalization rate applied to the resultant cash flow to be derived from the building's operations."

Do you believe that statement \(I\) just read is true and accurate?

A I don't believe -- it depends on how you look at it, but I don't believe it talks about the making of the building the condominium, a residential condominium, which is absolutely a perfect use for that building.

Q My question is --
A Even though it's full.
Q -- is this statement true and accurate?
A Well, let's see. So number one, you -- again, you go back a long time. Are you still in 2014.

Q We are still on the 2014 statement.
A Five-year statute of limitations. You are still in 2014. So, it says here based upon successful renegotiation of the ground lease. Well, that was done. I did that. I made a new 100-year lease, and a very good lease, and long term, very long term. I got a "lollipop" in the lease. It's a legal term,
believe it or not, but it's a lollipop, which allows you to build condominiums because you own the land. You own a piece of land. That gives you the right to build condominiums. So this would be a low number, because the highest and best use for that building is the -- it's -- I think it's the tallest building in downtown after the World Trade Center, but there's a dispute about 60 Pine Street, but, whatever.

The tower is of perfect measurement for turning them into condos. And I have the right to do that, and at some point we, or somebody, will do that. That's the highest and best use. In which case, \(\$ 550\) million is a very low number. All you have do is look at a picture of the building and say "That building" -- you just look at it and you say that's worth a lot more than \(\$ 550\) million. If you want to put up the picture. Q My question is --

THE COURT: Mr. Kise, that was a simple yes or no question. I don't have it right in front of me, but the question was whether he believed that was an accurate number. We got another speech. I would beseech you to control him if you can. If you can't, I will. I will excuse him and draw every negative inference that I can. Do you understand that?

MR. KISE: I certainly understand, your Honor. But I will say this: The purpose of this trial is to determine the veracity of the Statement of Financial Condition, in

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
part, to figure out whether there is intent, so I would think, respectfully, your Honor, of all witnesses, would want to hear everything that this witness has to say by way --

THE COURT: No, I do not want to hear everything this witness has to say. He has a lot to say that has nothing to do with the case or the questions.

MR. KISE: Again, your Honor, I will -- I have to say that you're determining what's going to happen here. So I would urge the Court to take in all the information possible, including what this witness has to say about the numbers on the statement, what he did, why he did it. I mean, all of those circumstances. Do we really want to come back here in a few weeks and go through it that way?

I mean, with this witness I would suggest it's far more efficient to listen to what he has to say and take it in, and then you have an understanding of what he has to say. And I don't think it's fair to draw a negative inference based on his explanations simply because he wants to explain why he got to where he was. We are talking about ten years ago.

And so I, ordinarily with a witness, you might think differently, but this is a situation where you have, on the stand, a candidate for presidency of the United States. Having him here takes away from that effort. And

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
so the most efficient way, I would submit to the Court, to get through this is to listen to what he has to say, and then you weigh it one way or the other.

I don't think you should respectfully draw a negative inference. And, again, I'm happy to discuss this and take a break. More than happy to do that. I'm not saying not to do that.

But I just would like the Court to take in that perspective, because this is a different situation. It's unusual situation, and it would be most efficient. The Court needs to hear what he has to say about what happened with the statements and why he thinks they are viable, and why there is no intent.

He's describing to you why there's no intent to mislead anyone with his answers. That's what he's doing. And so I would think that's highly relevant and highly probative. If you want to do it the way where we have yes or no questions and then we go back and do it that -- it's subject to your direction, but I think the most efficient way is to listen to what he has to say. I'm happy to talk to him about making the answers more contained. We certainly don't want to waste anymore time than necessary, and spend anymore time than necessary, but this is, as you've acknowledged this a unique situation.

MS. HABBA: If I may also add, your Honor. I had

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
to cross examine Mr . Cohen. If I could get him to answer the questions in yes or no, I advise Mr. Wallace to look at that cross examination. It was far more succinct.

The reality of the situation is, he put up two paragraphs which talk about interest rates, the current value, as well as tenants, and et cetera, et cetera, et cetera. If he would like to narrow it, then you narrow it, but President Trump is answering about 40 Wall Street and the values, the interest rates, the purpose of the SOFC; that is absolutely relevant.

So I'm going to push back and say it is time to start pushing pack on the AG. Kevin can try to ask better questions, and then we'll move on. But he is relevant. He is talking about two paragraphs of information, and he's explaining them. Ask succinct questions you'll get SUCCINCT answers.

THE COURT: Well, Mr. Kise, I think you said several times we should hear what he did, what the witness has to say. No, I am not here, and these people are not here, and the Attorney General is not here to hear what he has to say. We are here to hear him answer questions, and most of the time he's not. He goes into speeches. It's very simple. Is this an accurate number? We don't need a whole speech.

MS. HABBA: It's not that simple. I apologize.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

It's not that simple, and you are here to hear what he has to say.

THE COURT: No, I'm not here to hear what he has to say.

MS. HABBA: Thank you.
THE COURT: I'm here to hear him answer questions.
Sit down already. Mr. Kise, Mrs. Habba, sit down.
Mr. Wallace, continue.
THE WITNESS: This is a very unfair trial, very, very. And I hope the public is watching it.

Q Mr. Trump, was the valuation presented here based on leases and capitalization rates true and accurate to your belief?

A It could be, but again, what I told you is a building has many different forms of value. And this building, the most valuable -- the most valuable asset here is making it into condominiums. That would be -- it will happen as soon as interest rates go down and as soon as the City maybe comes back. It would be nice if it came back; wouldn't it?

But the value of this is -- the big value of this is making it into a condominium, residential condominium.

Q Could we put up --
A It would be one of the biggest jobs in the City.
MR. WALLACE: Could we put up Plaintiff's
Exhibit 635. It's already in evidence, but \(I\) have an extra

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
copy for the witness.
(Whereupon, the exhibit was displayed on the screen.)

Q There is a very thick document. I'm not going to ask you to go through all of it, but it is an e-mail from Jeff McConney to Jack Weisselberg, Ladder Capital, attaching a modification of the ground lease. The e-mail is dated April 10, 2015. If you go to page three of this document.
(Whereupon, the exhibit displayed on the screen was scrolled through.)

Q I'll put it up on the screen for you. You could see at the top. Title says -- this is a resume of the fourth modification of the ground lease on 40 Wall Street, NYC. We flip over to page four.
(Whereupon, the exhibit on the screen was scrolled through.)

MR. KISE: Do we have a copy of this document for the witness?

MR. WALLACE: He has a copy.
MR. KISE: I'm sorry?
MR. WALLACE: It's already in evidence.
Q If we look at the header. "Condominium conversion right." It states "Paragraph four eliminates the tenant's condominium conversion rights which it had under Section 2709."

Do you recall that in this amendment to the ground

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
lease your condominium conversion rights were eliminated?
A No, because I have a right to do a co-op. You could do condo -- you could do a condo, but I have the right to do a co-op. I believe I have a right to do condo, because we have a lollipop clause, but I have a right to do a co-op.

Q If we go back to the Statement of Financial Condition; that's Exhibit 730.
(Whereupon, the exhibit was displayed on the
screen.)
Q We were on page nine?
(Whereupon, the exhibit displayed on the screen was
scrolled through.)
Q Did this valuation include the lollipop conversion that you were talking about?

A Um, I don't know. It was around that time. I renegotiated the lease and got a new lease, and one of the things in the lease was a lollipop conversion.

Q My question is about this statement though, which says "That the valuation is based on leases that have been signed and capitalization rate." There is no mention here of converging to condos, is there?

A Well, I know you are asking -- you are talking about the estimated current value. And the estimated current value would be co-op, condo.

Q I'm not asking about what you could do. I'm asking

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
about what was actually prepared?
A I don't know because I didn't do it.
Q Okay.
Was the stated value -- let me ask, did you approve of this valuation?

A I accepted it. It was just one of many -- this is a very big statement. I have many different things, and this is one of many values. I accepted it. I didn't say, oh, gee, it should be higher or lower.

Q And you approved the statement's issuance?
A Yeah, I accepted it. Other people did it, but I didn't say make it higher or make it lower.

Q Was the \(\$ 550\) million valuation here based on true and accurate information?

A I assume so.
MR. WALLACE: If we could move on to page 20 of 26
here.
(Whereupon, the exhibit was displayed on the screen.)

Q And if we see at the bottom of the page is the listing for the mansion at seven Springs. I'll direct your attention to the paragraph -- first sentence in this listing that says "An entity wholly owned by Mr. Trump acquired a property known as "The Mansion" at Seven Springs in Bedford, New York, which consists of over 200 acres of land, a mansion and other

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
buildings. This property is zoned for nine luxurious homes. It has been valued at \(\$ 291\) million based on an assessment made by Mr. Trump in conjunction with his associates of the projected net cash flow, which either derived as those units are constructed and sold, and the estimated fair value of the existing mansion and other buildings."

Do you have an understanding of whether that \(\$ 291\) million valuation is true and accurate?

A I thought it was too high, and we lowered it. I guess the next statement or sometime, but I thought it was too high. This is the equivalent of Mar-a-Lago in New York, and I think it sells for -- I think it's valued -- I think the value is higher if you don't build additional housing. This is the kind of -it's a magnificent place. This is the kind of place that somebody will pay a lot of money for, I think more money than if you build nine, or 16 , or 20 units of other homes on the site.

I think the site, as I remember, is 213 acres, and I think it's much more valuable, actually, without the building. I think it's more valuable the way it is.

MR. WALLACE: Your Honor, I think maybe we may need
to take our break now, and if Mr. Kise could talk to the witness, I think I would appreciate it.

THE COURT: Let's take -- how long a break would you suggest? Make it 15 minutes so it's easy. A 15-minute break.
\begin{tabular}{|c|c|}
\hline & 3515 \\
\hline 1 & THE WITNESS: Thank you. \\
\hline 2 & THE COURT: I'll direct the witness not to talk \\
\hline 3 & about the case or his testimony other than in the ways that \\
\hline 4 & I've asked. \\
\hline 5 & (Continued on the next page.) \\
\hline 6 & \\
\hline 7 & \\
\hline 8 & \\
\hline 9 & \\
\hline 10 & \\
\hline 11 & \\
\hline 12 & \\
\hline 13 & \\
\hline 14 & \\
\hline 15 & \\
\hline 16 & \\
\hline 17 & \\
\hline 18 & \\
\hline 19 & \\
\hline 20 & \\
\hline 21 & \\
\hline 22 & \\
\hline 23 & \\
\hline 24 & \\
\hline 25 & \\

\end{tabular}

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

THE COURT: Mr. Wallace, please continue.
MR. WALLACE: Thank you, Your Honor.
Q Mr. Trump, when we broke we were looking at the valuation for Seven Springs in your 2014 Statement of Financial Condition. I believe you said that that valuation, you said, eventually dropped that valuation; is that correct?

A Yes.
Q Did you eventually take a tax deduction based on easement donation for Seven Springs?

A I believe so, yes.
Q You recall receiving appraisals showing that the total value of the Seven Springs before the easement was \$56 million?

A No, I don't know. It could have happened, but I don't remember.

Q Do you remember if the easement appraisal was the reason for dropping the value of Seven Springs?

A No. The person that did that, I believe, was Sheri Dillon. That was the law firm that we mentioned, and a very good one, very prestigious. And she really was responsible for doing it. It was sort of, I think, her idea to do it.

Q So when you say the person that did "that" the "that" that you are referring to --

A Easement.
Q -- is the easement donation itself?

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

A Yes.
Q So if you did not decide to lower the value of Seven Springs based on the appraisal from the easement donation, what was the basis upon which you decided to drop the value?

A Well, I thought it was high. I mean, I saw that. When I saw it the statement was done, and I said I thought that was high. That was one of the ones that was high. That doesn't mean it is not going to get that kind of money, because that's the kind of a place that would get that kind from the right person. But I thought it was high. And they dropped -they dropped the value.

Q And so in your view, the estimated current value of Seven Springs as of June 30, 2014 was not \(\$ 291\) million; is that correct?

A I thought it was high. Maybe I'll sell it for more than that, you don't know. With that kind of a property, you never know, but I thought it was high.

Q Is the Seven Springs easement donation under review by the IRS?

A Not that I know of. It might be.
Q Was it at any point under review by the IRS?
A I don't know. I don't know.
Q Do you remember when you decided to lower the value of Seven Springs?

A Well, I guess probably when I looked, I don't know if

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

I looked immediately upon -- because again, I haven't spent a lot of time on these statements, because I realize the value of these statements is not that important. But when I looked at it, I thought it was high and I said, you have to lower it.

Q So the answer is, no, you don't remember when you decided to lower the value?

A I don't remember. It might not have been immediately, but it was, you know, within a period of time. MR. WALLACE: If we could turn to page 21 of 26.

Q This is a section of your Statement of Financial Condition entitled Partnerships and Joint Ventures. And there is a reference to a joint venture that is 1290 Avenue of the Americas in New York, New York; and 555 California Street in San Francisco, California.

Are you familiar with those properties?
A Yes.
Q Underneath that it states: "In May 2007 Mr. Trump and Vornado Realty Trust became partners in two properties; 1290 Avenue of the Americas located in New York City and 555 California Street (formerly known as Bank of America Center) located in San Francisco, California."

A \(\quad \mathrm{Mm}-\mathrm{Hm}\).
Q If we look down a few more paragraphs it states:
"Mr. Trump owns 30 percent of these properties."
Is that accurate?

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

A Yes.
Q And so you do not control the partnership with Vornado; is that correct?

A In many ways it is better, because I have no liability. I am a limited partner, that's limited liability. I have a 30 percent interest, but my interest I don't have to put up any money. I didn't put up any money and don't have to. I have a very good relationship with them. They are great, and very professional. But it is also a limited -- it was limited. I had no liability for what I own. So, it was a lot of people don't understand that. They think that a limited partnership gives you limited rights. In this case it gives me limited liability.

Q The question was: So you do not control the partnership with Vornado; is that correct?

A I have 30 percent of the partnership, yes.
Q And so you do not control the partnership?
A In the true sense, no. I will say this, we have a very good relationship and --

THE COURT: No. No. You answered the question.
A -- never had a problem.
THE COURT: And we appreciate that it is the
true answer. Thank you.
Q The next paragraph states: "The estimated current value net of debt of \(\$ 816,900,000\) is based on an evaluation

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
made by Mr. Trump in conjunction with his associates and outside professionals."

Is that a true and accurate statement that you valued the property based in conjunction with your associates and outside professionals?

A I don't know, because I am not familiar with the number.

But I do know that, as you know, the one building is the Bank of America building, one of the most, \(I\) think, one of the, I think, the best building on the west coast. And the other is a very great building in Manhattan on Sixth Avenue, Avenue of the Americas. We refinanced that building about two and a half, three years ago at a very, very low rate. And there were valuations placed on it then, and if you want I can get you that information, but the valuations were very high.

Q The question was whether you made an evaluation in conjunction with your associates and outside professionals of the value of those two properties?

A I don't know. It doesn't sound high to me. Not for these two buildings, so I don't know.

Q I am going to ask it again.
The question is whether or not you made an evaluation of the property value.

A Is that a double property right there? Is that both properties?

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Q Both properties.
A It doesn't sound high. I don't know if \(I\) was involved in that. I remember looking at it, but it didn't get my attention. I think it is worth more than that.

Q Do you remember playing any role in evaluating the estimated current value of these two properties for any years between 2011 and 2021?

A 2021?
Q Correct.
A You mean bringing it back to two --
Q All the way, for the last ten years. That ten-year period.

A By the way, that was the hottest period ever for office properties. So I think you should know that. And you don't want me to talk much, but I think you should know that. No, I think the value sounds very reasonable. I don't know. I don't know. I doubt it. I don't know that I would sell my interest for that, actually.

MR. WALLACE: I am going to hand the witness a
document or ask the officer.
THE WITNESS: And excuse me, the buildings have
been refinanced, two years ago.
MR. WALLACE: There is no question pending.
Q Mr. Trump, I have handed you a document that has been marked as Plaintiff's Exhibit 3344. This is an e-mail from

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Jeff McConney to Donald Bender entitled Ferry Point. It is dated October 1, 2012.

Your Honor, \(I\) ask this document be entered into evidence.

MS. HABBA: Objection, statute of limitations.
THE COURT: Overruled. It is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 3344 by the Court.)

Q At the top there is an e-mail from Mr. McConney to Mr. Bender, it says: "Doc, I am almost done revising last year's footnotes. Allen wants \(S\) to speak to DJT tomorrow about the Vornado buildings. I am going to send you a few e-mails with some info on new properties, Doral and Charlotte, and an update to the Scotland footnote."

I want to ask if this refreshes your recollection about whether you had any conversations with Mr. McConney and Mr. Weisselberg about the value of the Vornado properties?

A About the Vornado buildings?
Q Correct.
A No, but I probably did.
MR. WALLACE: If we can go back to the Statement
of Financial Condition; and if we could blow up the section with the valuation there, the estimated current value and amount of debt.

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Q Mr. Trump, do you believe that the stated value here of \(\$ 816\) million was based on true and accurate information?

A I think so. I hope so. I can say, if you go to 2021 where it is more familiar to me, because it is more updated, I think that would be a low number.

Q Were you involved in the preparation of the 2021 statement?

A No.
Q Who was responsible for the preparation?
A I don't know. That was when it was in trust, so I assume Allen and Jeff and perhaps they dealt a little bit with Don and Eric. But they were not involved with these statements very much at all, as \(I\) understand it.

Q Would you get copies of the statements in 2021?
A I hadn't seen it. I was so busy in the White House. I was really -- my threshold was China, Russia and keeping our country safe.

Q My question is actually about 2021. Did you see a copy of the 2021 statement?

A I don't believe so.
Q And just to clarify for the record, you weren't President in 2021, correct?

A No, I wasn't.
MR. WALLACE: If we could turn back, if we could
go to page 23 of 26 in this document.

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Q And if we look at the bottom of the page, on the category of other assets it says: Trump Tower. Mr. Trump owns a triplex apartment on the top three floors of Trump Tower (see note 3.\()\)

I'll just represent to you that note 3 doesn't discuss your apartment, it discusses the building.

Were you involved in the valuation of your triplex apartment for this statement of financial condition?

A No. What date is this?
Q \(\quad 2014\).
A No, I wasn't.
Q Did there come a time when you determined that the valuation for your triplex apartment was too high?

A Yes, I did.
Q After you made that determination, did
Mr. Weisselberg and Mr. McConney lower the valuation of your triplex apartment?

A I believe so, yes.
Q Did they do that at your direction?
A I told them I thought it was too high. I thought the number was too high. And I know they lowered it after that, yes.

MR. WALLACE: If we could pull up Plaintiff's Exhibit 758. This is a spreadsheet, so it is only going to be up on the screen here.

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

And if we could go to row 893.
Q This is a category Other Assets. And if we look down, if we could go down to rows 969 and 971, this shows the valuation of your apartment.

I'll represent to you that the valuation of the apartment is not actually in the Statement of Financial Condition, it is incorporated. So this is where we are going to try and find it.

A I think that's why I missed it also.
Q Okay. And if you look you can see here, I'll represent to you that column \(G\) are the values for 2013. Column H is the value for 2014. So you can see that it goes from \$116 million in 2013 to \(\$ 327\) million in 2014.

And so it is your understanding that the \(\$ 327\) million valuation is too high?

A Yeah. And the reason I didn't pick it up sooner is that I thought it was high, but it is not mentioned -- it is not broken down in the financial statement, so \(I\) wouldn't have known.

Q Okay. And I am sorry, I apparently -- this is the Statement of Financial Condition for 2017, so I misrepresented.

A That's okay.
Q The 2017 number is in G, and the 2016 number is in \(H\). So I apologize.

MS. HABBA: Sorry, just to make the record

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
clear, Kevin, this is the backup, not the SOFC? MR. WALLACE: Correct. MS. HABBA: I think you said SOFC on the record. MR. KISE: And this is the backup for 2016? MR. WALLACE: 2017. So showing a change from 2016 to 2017.

Q And this change in valuation came at your direction?
A Probably. I mean, I thought it was too high. I don't know what is too high anymore because I am seeing things being sold at numbers that are very high. But I thought it was too high, so I assumed that they didn't.

Q Do you have an understanding of why the valuation was too high?

A Well, I have heard different reasons. But one of the reasons was they did it off a broker. A broker was sending lists of apartments and they had it down at \(30--30,000\) feet. Is it 30?

And another one was that, you know, I have the roof, we have access to the roof which is very big. And when you add the roof it is not that far off.

And there are a lot of other reasons. And there is another reason, they just made a mistake. And that's why we have a disclaimer clause in case there is a mistake. There is a disclaimer clause, where you don't have to get sued by the Attorney General of New York.

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Q Mr. Trump, as you sit here today, do you know how big your triplex apartment is?

A You know, you wouldn't -- you wouldn't know. I have heard, obviously, because of the trial, they say 11 to 12 to 13,000 feet.

Q At your deposition testimony, does it sound correct that you testified that each floor of Trump Tower is about 10,000 square feet?

A As the floor. And it is a triplex, and \(I\) think they probably took 10,000 feet per floor. I could see how it was done. They took 10,000 feet per floor, because the floors are, I believe, about 10,000 feet, and they went times three. But the -- but they didn't take out, you know, elevator shafts and different things.

Q Okay.
MR. WALLACE: I would like to go back to the
2014 Statements of Financial Condition. F if could go to
page ten of 26 .
Q This is the heading for club facilities and related real estates. And if we scroll down, this is the listing for Mar-a-Lago.

If you look, I'll read it into the record, it states: "Mr. Trump acquired this property in 1985 and transferred ownership to a wholly owned limited liability company in 1995. It is now an exclusive private club which consists of 117

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
rooms.
Formerly known as the Marjory Merriweather Post Estate, it features a 20,000 square foot Louis XIV style ballroom, world class dining, tennis courts, spa, cabanas and guest cottages."

I am going to direct your attention to where it states that the property is an "exclusive private club." Is that correct?

A Yes.
Q Okay. And is it correct that the ownership of the club was transferred to a wholly owned limited liability company in 1995?

A I guess so. If you represent, I would say yes.
Q Well, I am asking if you know whether or not the representation here, which is that it was transferred to a wholly owned limited liability company in 1995; do you know if that's correct?

A No. But it is probably so because I have done that with many properties over the years.

Q Is Mar-a-Lago today still wholly owned -- is the ownership of Mar-a-Lago today still underneath a wholly owned limited liability company?

A I believe it is the same.
Q And there is no separate valuation for Mar-a-Lago on the Statement of Financial Conditions in this century, correct?

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

A You know, I have no mortgage on Mar-a-Lago, no debt. There is no debt. There was no reason to do it. So I don't know if they did it or not. But there is no debt, zero, on Mar-a-Lago.

Q My question is just that the price of Mar-a-Lago or the, I should say, estimated current value of Mar-a-Lago is not listed here, is it?

A No, it is not. It is not.
Q Okay.
MR. WALLACE: If we could pull up the supporting
data for this Statement of Financial Condition,
Plaintiff's Exhibit 719.
Q This is, I'll represent to you, the supporting spreadsheet for the 2014 --

MR. WALLACE: Do I have this wrong?
Okay. If we could go down to row 189. And
actually go down to the club facilities. Sorry 205.
Q You see the entry is at 207 for Mar-a-Lago, and underneath that it states: "Value if sold to an individual."

That is referencing to selling the property to an individual as a residence; is that correct?

A Yes, that's right.
Q Did you approve valuing Mar-a-Lago as if it could be sold to an individual as a residence?

A I personally -- well, did I approve it? On this? I

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
don't know. There are two ways you can approve it, as a club or as a residence or as both. It is most valuable as both.

Q And here it is being valued as a residence, correct?
A I guess so. What is the number?
Q We will get to the number in a minute. I was just wondering, did you at some point discuss with Mr. McConney or Mr. Weisselberg valuing Mar-a-Lago as a private home?

A I don't remember that, no. MR. WALLACE: If we go down to row -- just go to
the bottom, row 242.
Q Do you see a value listed for Mar-a-Lago --
A Yes.
Q -- is \(\$ 405,362,123\) as of June \(30,2014\).
Did you approve that valuation number?
A No. But it is a very low number.
Q So you -- do you agree with that number?
A No, it is much -- it is much more valuable than that, much, much. We are bringing in an expert so that they will explain to you what it is worth.

Q I'll ask you a question. You believe as of today Mar-a-Lago is worth at least 1.5 billion; is that correct?

A How much.
Q \(\quad 1.5\) billion?
A I think between a billion and a billion five, yes.
Q As of June 30, 2014 though, do you have a view as to

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
how much Mar-a-Lago was worth at that time?
A More than this number. I don't know, but much more than this number.

Q Mr. Trump, we are going to hand you a copy of a document that is already in evidence. This has been stamped as Plaintiff's Exhibit 1013. This is a deed of development rights for the Mar-a-Lago club. And I'll direct you to it up on the screen.

If you could turn to page two of the document just quickly. Do you see your two signatures?

A Yes.
Q There? Okay.
If we go back to the first page, under the third "Whereas" clause, and I'll read it into the record for you and highlight it here.

It states: "Whereas, the club and Trump intend to forever extinguish their right to development or use the property for any purpose other than club use."

Was it in fact your intent to forever extinguish your right to use the property for any purpose other than club use?

A Well, when you say, "intend" intend doesn't mean we will do it. That's number one. It says "intend." I intend. But we have the right to change it back to a house. I intended, I would always leave it as a club; or a club and a residence, which is really the best combination, which is what

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
it is right now. It is a residence and it is a club, and a very successful club at that.

Q I take it your answer was that, yes, you did intend to do this?

A Yeah, I intend. I intend. But I also have the right, if I wanted to, there is no reason to do that, to switch it back.

Q Switching it back would be contrary to forever extinguishing something though, wouldn't it?

A No. It says to intend. It doesn't say that. It says to intend. It doesn't say I will. It says intend.

But \(I\) don't mind leaving it as a club. In fact, if somebody actually wanted it, the smartest thing to do, because there are a lot of advantages to the club status, the smartest thing to do would be to have a club and have one member; and that would be the member that lives in the club. But it is much more valuable and we will show that in two weeks or five weeks or nine weeks or whenever this thing goes, that it is most -- its biggest value is to be able to use it as a club and residentially simultaneously.

Q If we look at the next paragraph it states: "Whereas, the National Trust for Historic Preservation in the United States (The National Trust) is the grantee of a Deed of conservation and preservation easement recorded on April 6, 1995, in official record book 8691, page 764 , of the public

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
records of Palm Beach County, Florida (The preservation easement).

As reflected here you had in fact granted a preservation easement to the National Trust for Historic Preservation in 1995; is that correct?

A That is correct.
Q If you look down at the next paragraph it states: "Whereas, the preservation easement limits changes to the property including, without limitation, the division or subdivision of the property for any purpose, including use as single family homes, the interior renovation of the mansion, which may be necessary and desirable for the sale of the property as a single-family residence estate. The construction of new buildings and the obstruction of open vistas."

A Yeah.
Q As reflected in the 1995 preservation easement then, it was prohibited to renovate the interior of the mansion in a way which may be necessary or desirable for the sale of the property as a single-family residential estate; is that correct?

A It was a single-family home. It was the home of E.F. Hutton and Marjory Merriweather Post. I don't think anybody would want to touch it. It is designed as a home. And it was converted to a club very successfully, and it does great. And that's where it is. But this is, you don't have to

\footnotetext{
mlp
}

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
do anything to convert it.
And also, the easement really talks about views. It is only a view easement. If I want to build something, I go to the National Trust. I built a ballroom as an example. I built a very big ballroom there. The ballroom you mentioned in your last page was built by me. And it is very large, beautiful. And what happens is, if I want to development other parts of the property, but not in the view corridor. It is called a view corridor. It is a certain view corridor from the main windows of the living room.

But on the side, what is called the side corridors, I have a right to develop, if \(I\) want to. But this is a little like we were talking about Seven Springs, this property is more valuable without building houses on it. It is much more valuable, actually, in this case.

Q After this Deed of Development rights, you stated publicly that Mar-a-Lago would forever be a club; didn't you?

A That is what?
Q You stated that Mar-a-Lago would forever be a club; is that correct?

A No, I don't think so. I mean it says "intends." I would personally never change it. If somebody later on, including my children, if they want to change it, I believe they would have the right to do that, if they wanted to.

Q Mr. Trump, the court officer is handing you a

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
document that has been marked Plaintiff's Exhibit 1730. (Handing)

Q This is an article from the Palm Beach Post dated August 27, 2023. And if you look at the bottom of the page there is a quote from you. It states: We waited until it became a great success, Trump said, and the Mar-a-Lago club is a great success. It will forever be a club.

That was your statement, correct?
A Yeah.
Q In 2003, that the Mar-a-Lago club would forever be a club?

A Well, I hope so. I mean, I think that was said with bravado as opposed to with legal intent. It will be for, you know, as long as I am around, it will be a club. And I live there.

Q And by making -- I apologize for interrupting.
A Yeah. Please.
Q By making sure it was forever a club, you paid less in taxes on the property; is that correct?

A A club will pay less in taxes, correct.
Q And that says that, if we look at the forth paragraph here, it states: We pay less tax, Trump said Tuesday, now we are treated like the bath and tennis and the other clubs?

A That is correct, pay less taxes. Not too many clubs, you pay much less tax.

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

MR. WALLACE: Your Honor, I ask this document be entered into evidence.

MR. KISE: For what purpose are they introducing the document?

MR. WALLACE: He has admitted these are his statements at the time.

MR. KISE: So all of his statements in here will be admitted?

MR. WALLACE: The statements of Mr. Trump only.
THE COURT: It is in evidence.
MR. KISE: The statement where it says if it didn't work out as a club it could go back to some other use, that's acceptable as well?

MS. HABBA: The one you didn't show the witness. The one on the bottom.

MR. WALLACE: I'll ask him about that then.
MS. HABBA: Yeah, you should.
Q Mr. Trump, if you look to the second to last paragraph on the page, we will highlight it for you.

It states: If it didn't work out as a club we could have gone back to some other use; is that accurate?

A I believe so, yes.
MR. WALLACE: I believe Your Honor has overruled the objection and this is in evidence; is that correct?

THE COURT: Yes, the entire document is in

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}
evidence.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1730 by the Court.)

Q Mr. Trump, I would like to hand you another document. This one is marked as Defendant's Exhibit 478.

Mr. Trump, in order to win approval to convert Mar-a-Lago to a club, you took the position that it was impractical for a single individual to continuously own Mar-a-Lago as a private estate at his or her sole expense; is that correct?

A Yeah probably in those days. That was a long time ago.

Q Well I can show you, this is -- this document is the Mar-a-Lago, if we turn to the second page, please?

A Sure.
Q It is the Mar-a-Lago club special exception use and preservation plan. Do you remember submitting this plan to Palm Beach in order to convert?

A Yes, I did.
MR. WALLACE: Your Honor, we ask that
Defendant's 478 be marked into evidence.
THE COURT: Granted it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 478 by the

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Court.)
Q If we look at page six of this document, I believe. It states at the top: As to item (1)

I'll represent to you that item 1 is private ownership of Mar-a-Lago.

It states: "It is impractical for a single
individual to continuously own Mar-a-Lago as a private estate at his or her sole expense. When the Post Foundation marketed the property after its return to the foundation from the U.S. government, it was almost impossible to sell. About 80 qualified buyers, thoroughly screened, inspected Mar-a-Lago and elected against even making an offer.
H. Ross Perot was one prospect. Although 'everything is for sale at a price' no one would step forward to make offers for this so called 'white elephant.'" And cites to articles from the Miami Herald and the Palm Beach Post Times.

Is it correct, was this statement correct at the time it was made?

A Yeah. I got luckily.
Q I take it, it is now your position that it is no longer a white elephant?

A That's true. There is a man building a house down the road spending one billion dollars to build it, and it ain't Mar-a-Lago. They are spending 1 billion down the road.

Q If we could go back to the Statement of Financial

\section*{D.J. Trump - by Plaintiff - Direct(Wallace)}

Condition, that's Exhibit 730.
Mr. Trump, I would like to focus on your Golf Club at Aberdeen. So if we could go to page 16 of 26 .

Here we see the listing for Trump International Golf Club in Scotland-Aberdeen. I am just going to read into the record the description of the club here. It states: "Mr. Trump, through wholly owned entities, acquired 500 hectares (approximately 1,236 acres of land) on the northeast coast of Aberdeenshire.

The development received outline planning permission in December of 2008 for a world class, Martin Hawtree designed championship golf links golf course, suitable for hosting major events; a second future award winning 18-hole course; a luxury clubhouse; a state-of-the-art driving range, and golf academy; a tennis center; an equestrian center; a luxury five-star 450 room hotel with associated conference and banquet facilities; an full-time spa; a residential village consisting of 950 holiday homes; and 500 single-family residences and 36 golf villas."

Start there. Was that description of the club as of June 30, 2014 true and accurate?

A Probably. But you know, we could do more or less. We could do a bigger job, a smaller job.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q Do you believe it was accurate, that's as of December 2008, you had received outline tenant permission for a residential village consisting of 950 holiday homes?

A Yeah.
Q And 500 single family golf residences and 36 villas?
A Yes, Aberdeen is the oil capital of Europe, very rich.
THE COURT: Irrelevant. Irrelevant. You answered the question.

THE WITNESS: It is.
Q There's no valuation value for the Aberdeen property listed in this paragraph; correct?

A I don't know.
Q Okay. It's not.
MR. WALLACE: So why don't we put back up Plaintiff's Exhibit 719.
(Whereupon, the exhibit was displayed on the screen.)

Q This is the supporting spreadsheet for the 2014 Statement of Financial Condition. If we could go to row 481, please.
(Whereupon, the exhibit displayed on the screen was scrolled through.)

Q 481, here we see the listing for Trump International Golf Club, Scotland. That's your club at Aberdeen; is that correct?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A Yeah, right.
Q If we look over in column \(G\), we could see the valuation for 213 -- I will rephrase that question. In column \(G\) we see the valuation, as of June 30,2013 , in column \(H\), we see the valuation as of June 30 , 2014. Do you see that? Or do you see the dates?

A Do I see what?
Q The dates at the top. G is -- I'll direct you to it.
A Yes, yes. I do.
Q June 30, 2013, H is June 30, 2014?
A Right.
Q Okay. Let's go down and take a look at those valuations, which I believe are down on 43 or 46 .
(Whereupon, the exhibit displayed on the screen was
scrolled through.)
Q No, I was wrong. If we stop here, it's in 527.
So you could see the valuation in -- as of June 30, 2013, is \(\$ 191,165,600\), and as of June 30,2014 , the valuation is \(\$ 435,562,426 ?\)

A Yeah.
Q Do you see that difference?
A Yes, I do.
Q You did not build a second golf course at Aberdeen between June 2013 and June 2014?

A I'm building it now.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q So you had not done it by June 2014?
A No, I didn't. The first one, it was very successful, and then the second one. And then basically you would have a thousand acres of land -- you have 1230 some-odd acres. It's lot of land on the ocean. And it was a big development job. And I could do it anytime I want. I just don't really want to do it. I don't really need to build 2,000 or 1,000 or 500 houses in Aberdeen. I don't want to do it.

This was an artistic expression. I think it's the greatest golf course ever built. I believe it is. And we've gotten reviews saying that we are close to that. It's one of the greatest pieces of land I've ever seen. And we have, now, one course, and we built a clubhouse, we built the roads, we built everything. I'm no rush to build. I'm not looking to build a lot things. I'm doing other things right now. But it's an unbelievable site. We could build more than what you showed in the plan, or less than what you showed in the plan. But I don't want to build anything. I just want to sit with it. It's called an investment.

Q So I just want to make sure I heard that last part. You are not planning to build anything as of today?

A Well, I'm building right is now.
Q Apart from the golf course, you are not planning on building any housing developments?

A I'm sort of preparing the site, because I'm putting up

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
the second course. And it's under construction. It will be done in a year. And then we have all this -- we have a thousand acres of land that we can do whatever we want with, but I'm in no hurry to do anything with it. I have enough things to do.

Q And your statement was, "I'm not looking to build a lot of other things right now"; is that correct?

A I'm not looking to -- yeah, as I said, I'm not looking to go to Scotland and build a big development, but it's got tremendous value.

Q So we got away from what the actual question was, which was, I believe that you did not build a second golf course at Aberdeen between June 2013 and June 2014; correct?

A Yeah, nor was I supposed to.
Q And you did not build a new hotel at Aberdeen between June 2013 and June 2014 did you?

A Because I didn't want to.
Q And you did not build any homes at Aberdeen between June 2013 and June 2014 did you?

A No. I have a castle that we renovated, but no. I want it just the way it is, and at some point, at some point maybe in my very old age I'll go there and do the most beautiful thing you've ever seen, but I just don't have -- I don't want to do it now. It's an unbelievable piece of property.

Q I'm focused, then, on where we get the \(\$ 245\) million increase in the value of the property from 2013 to 2014. So I

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
would like us to go back up to -- if we look at. Let's go down to see 489 at the top. I'll represent to you -- well -- no, go down a little more.
(Whereupon, the exhibit displayed on the screen was scrolled through.)

Q That's it. Right there. So you'll see the valuation for the club, the golf club, the land allocated to hotel and residential, the remaining value for the golf courses, stays about the same. It goes from \(\$ 76\) million in 2013 to 2014. The remainder of the value for 2013 comes from the line item valuation per George Sorial e-mail, 9/6/2011, in addition to DJT Capital contributions.

George Sorial was a lawyer in the Trump Organization; is that correct?

A Yes.
Q He was not a valuation professional; is that correct?
A No.
Q Okay.
And if we look at what changes in 2014, we could go down to the column starting at 508 that says "value of undeveloped land."
(Whereupon, the exhibit displayed on the screen was scrolled through.)

Q And you could see that there is a listing that says the residential parcels are 83,000 pounds each. The number of homes

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
to build at 2,500, which generates a value of 207 million pounds, which is then converted into dollars; that's the basis for the 245 some-odd million dollar increase in value; is that correct?

A I really don't know, but the job could be much bigger than that, too. It's 1200 acres, more than that, fronting the entire width -- fronting on the North Sea. It's, it's, it's like one of the easiest -- in the oil capital of Europe.

Q I'm asking, was it actually done?
A It's a very nice piece of land that everybody said I could never get zoned, and I not only got it zoned, I got it zoned for much more than anyone thought possible.

Q Let's take a look, then, if we could compare this, because 2,500 homes is not the same used in the Statement of Financial Condition, which I think --

MR. WALLACE: Please split those screens.
(Whereupon, the exhibit was displayed on the
screen.)
Q If we look, it says -- the valuation states there is 2,500 homes?

A Yes.
Q But the statement itself says that it's 950 holiday homes, 500 single family residences, and 36 golf villas?

A More luxurious, yes.
Q And I'll represent to you that that comes to 1,486

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
homes in total, with only 500 single family residences. So the Statement of Financial Condition for 2014 does not accurately disclose the number used in the calculation; is that correct?

A Those homes will sell for a tremendous amount of money; they are on the North Sea. I could also go with a much bigger job if I wanted to. The relationship is very good with Aberdeen. Aberdeen is a very rich place. It's an incredible piece of land. And again, it may be the greatest golf course ever built. And I own Turnberry and I own great ones.

The numbers there are not shocking numbers. And this is a very big job. I just don't want to build it now. You know, you're probably right, I'm doing other things right now.

THE COURT: Mr. Wallace, I'm so what following your
lead. If you want to let the witness ramble on, be unresponsive, repeat himself, go ahead.

MR. WALLACE: I might normally move to strike, but there are things I would like to preserve for the record in that answer, so I'm reluctantly allowing this to continue.

THE COURT: That's why I'm following your lead.
MR. KISE: I just want to note, I'm not really sure it's clear. Maybe this is the subject of the ambiguity. I mean, I think his answer is a brilliant answer. I just don't know if he is answering the question because he is confused as to whether or not we are talking about the Statement of Financial Condition or the backup data, which

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
he's testified -- I think Mr. Wallace has already admitted -- this witness has never seen, before, the backup data. So I'm not sure what he's answering, whether he is talking about the backup data or he is talking about the Statement of Financial Condition, or if the question is both.

MR. WALLACE: I don't think my question was answered, so \(I\) was going to re-ask it, but I'm happy to have --

MR. KISE: If you could clear it up, that's fine. I just think it's not even in the record.

MR. WALLACE: I am I'm just asking that his prior statement remain on the record, even though it's nonresponsive.

Q Mr. Trump, my question is more directed. It's simply that the number of homes used in the calculation for 2014 do not actually match the number of homes disclosed in the statement; is that correct?

A I don't know, but it could very well be. It's sort of like a painting. You could do pretty much what you want to do. The land is there. You could do what you want to do. So you could do either one of them, actually.

Q As of 2012, you had actually made a determination that you would not be developing the Aberdeen property because of Scottish plans to build a wind farm off shore; is that correct?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A Well, I was not happy because they are -- they've fought long and hard to build wind mills, I think nine of them, out in the ocean, out in the sea. And they built them.

Q Okay. "They" being Scotland?
A Scotland.
Q And because of those wind mills, you decided in 2012 that you were not going to be doing further development of the Aberdeen property?

A I told them, I don't know if it has an impact or not, I'm not a windmill person. I think I'm being proven to be right.

Q Did you testify about your unwillingness to develop the Aberdeen property for a subcommittee of the Scottish parliament in 2012?

A Yes, I did.
Q And do you believe that -- I'll see if I could skip ahead and just ask. Would it sound correct to you that Mr. Weisselberg submitted a statement to the UK regulators in September of 2014 saying that the Trump Organization did not intend to develop the Aberdeen property any further based on the wind farms?

A We had a big fight over the wind farms, but they were put in years ago. They've been there for many years now. They'll probably come down, like all the other wind farms are coming down, and I've been asked whether or not they have an

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
impact -- they are miles out in the ocean. They are not on the property. They are miles out. And most people tell me, no. Almost everybody tells me no. I don't know if that's true. But regardless, we have the right to build a very big project, if I want to build it. That was in 2014, when we were fighting the wind mills, yes.

Q And as of today, November 6th, 2023. You haven't built any homes at Aberdeen; is that correct?

A It's just a beautiful piece of property sitting there waiting for homes to be built. It will be very successful. I just don't -- you know, there's nothing wrong with sitting with property and waiting if you have the money to play that game, and I do have a lot of money, a lot more money than you thought, I guess. At some point that will be developed into a magnificent job. I just don't want to do it now.

Q Mr. Trump, apart from the Seven Springs valuation we discussed, and your apartment, do you stand by all the valuations in this Statement of Financial Condition for 2014?

A I haven't looked at it in years.
Q Do you have any reason -- so, you might not agree with the valuations in here anymore, is what you are saying?

A I think I've been proven to be right, because if you take those valuations and bring them up to 2021, a couple of years ago they are much higher than they were in that statement.

Q But the valuations were the estimated current value as

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
of June 30,2014 ; is that correct?
A Yeah, but if you carry that forward to 2021, all of those valuations were low.

Q Meaning the properties are now worth more today, November 2023, than they were --

A Much more, yeah.
Q Than they were in June of 2014.
Okay. Apart from the Seven Springs valuation we discussed and the triplex apartment, are you aware of any other properties on the Statement of Financial Condition between 2011 and 2017 that were overstated?

A Um, not that would have -- I don't know of any, but not that would have a material effect, because I'm worth billions of dollars more than the financial statements. The financial statements are just the opposite of what your Attorney General thought, and they are having a big problem with it. I'm worth billions of dollars more, so anything that would be a little bit off would be nonmaterial, nonmaterial.

Q And are you aware of any nonmaterial items that were overstated in the Statement of Financial Condition between '11 and '17?

A I haven't looked.
Q Do you still approve of the work that Mr. McConney and Mr. Weisselberg did preparing the Statements of Financial Condition between 2011 and 2017?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A Well, again, we have a disclaimer clause that tells you we are doing the work. It's not in accordance with your normal -- if you are going to do some kind of a big certified statement. You are not doing appraisals and everything else. We have a very important clause called a "disclaimer clause", and it's a 100 percent disclaim. And some people call it a "worthless statement clause." They call it lots of different things. And as you will be hearing in testimony, they always hold up in court, except maybe in this court. They always hold up in court, always. It's a disclaimer.

It says, very strongly, do your own due diligence. Do your own work. Do your own study. Don't take anything from this statement for granted. You could look at the statement, but you must do your own analysis and due diligence.

Q Do you still approve of the work that Mr. McConney and Mr. Weisselberg did in preparing the Statements of Financial Condition between 2011 and 2017?

A As far as I know I do. You haven't shown me anything that would change my mind.

Q Same thing true of the statements that came out between 2017 and 2021? You stand by that?

A I was assured of 2021, but I was President, and I was not involved in any way by that. I was doing other things.

Q You were not aware of anything that was done that you disagree with, but you are not familiar with the statements?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A Probably the statements would be -- again, if there was a mistake, it was nonmaterial, but even if it was material, and I don't see that, and we did make some changes where they found out there were mistakes, we have a disclaimer clause that says, do your own diligence -- due diligence. Don't, under any circumstances, count on anything here, because it was done -they are done quickly. They are done -- it says -- I think it says done in accordance with the owner's projections and the owners, The Trump Organization's projections and everything else.

So one of the reasons I never got too involved with these statements was -- that clause is on page one, as you know better than anybody. It's also throughout the statement. When you read the statement, everything is disclaimed. They say go out and do your own. Don't believe it. Get your own appraisers, get your own accountants, do everything. And that's why we shouldn't be having a case here, because we have a disclaimer clause which every court in this country holds up, except for this particular Judge.

Q Can I ask, then, is it your particular position that the Statements of Financial Condition are, in fact, worthless?

A No, I don't think they are worthless, but I don't think they are worthless at all. And -- but I think that they're -- I think, frankly, with the disclaimer clause, if there is any mistake, the disclaimer clause covers it. And because they

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
haven't -- they didn't devote their entire life to this. And again, most developers don't do this. They just write the name of the building and the address of the building. They put some number that they think it's worth. They don't have anything like this.

What I've done is far more -- and it's also far more conservative. You never mentioned the fact that we have 3, \(\$ 400\) million cash in these things. Very -- I mean, people don't know how good a company I built. You know why? Because people like you go around and try and demean me and try and hurt me.

Q Mr. Trump --
A Probably for political reasons. In her case, definitely for political reasons. And I think it's hurting her. MR. WALLACE: There's a lot in there that \(I\) want to
keep, your Honor, so I'm not going to move to strike that.
Q I just want to go back and clarify one thing in your last answer. You said "they did not devote their entire life to them." Who is the "they" you referred to?

A That would be Jeff and Allen. They had other things to do.

Q Does that mean that Jeff and Allen were not being careful when they prepared your statement?

A No, I think they were being careful. But, again, the disclaimer clause says if you -- if there's a mistake, if there's something, it says, "Don't rely" -- it's called a

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
non-reliance clause, also. I mean it's a very standard thing and it's allowed in every court in the United States. It's a non-reliance.

Q You stated that.
A I know I'm trying to make you understand it. It's a non -- non-reliance clause, and every court in the United States has upheld them, and every legal scholar that I've read about this case has said what's going on here? How can a thing like this being going on? It's disgraceful. And in addition to that, I'm worth more than the numbers in the statement.

MR. WALLACE: That answer I will move to strike, your Honor.

THE COURT: As repetitive?
MR. WALLACE: Repetitive, nonresponsive.
THE COURT: Nonresponsive.
MR. WALLACE: He's already made that point in the record.

MR. KISE: I'm not sure there's any basis to strike -- a valid basis to strike it. It's an answer. Mr. Wallace is satisfied with the answers. He is culling for these narratives, and he is getting answers to the questions. And this is -- this is -- this goes to the very heart of what we're here about, which is intent. I mean, if -- intent is subjective. And if this witness's intent is as stated here, I don't see how anyone could ever prove intent under these

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
circumstances. It's a brilliant answer to the question. So Mr. Wallace can't pick and choose which narratives he likes and which narratives he doesn't. We could come back here in two or three weeks and go through the same charade and ask the same question get it out, but as I said, it's far more effective to allow this witness to explain his position and explain to the court his view, what he intended, how he intended it, what was happening, and how he views the statements.

MR. WALLACE: The response is even longer than the statement \(I\) asked to strike, so at this point let's leave it in then.

THE COURT: Leave it in. There's no jury. It doesn't matter.

MR. WALLACE: We'll, leave it in.
Q Mr. Trump, I think you said this in the course of your answers. Let me just try to clarify this. You do not agree with the position of the Office of the Attorney General that the values in the Statement of Financial Condition are overstated; is that correct?

A I think she's a political hack.
Q That's not the question.
A And I think she --
Q That's not the question.
A -- used this case to try to become Governor, and she

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
successfully used it to become Attorney General. And I think she's a political hack, and this a disgrace that a case like this is going on. And all you have to do is read the legal scholars and the papers and you'll see exactly what I'm saying. And a lot of them didn't even know how valuable the properties were. You never said Trump has three and \(\$ 400\) million cash, and now more than that. This is a political witch-hunt, and I think she should be ashamed of herself.

Q You do not agree with the position of the Office of the Attorney General that the values in the Statement of Financial Condition are overstated; is that correct?

A The overall value is billions of dollars more than is in these statements. So that when a bank gets them, the bank is seeing a conservative statement, not a -- she tried to make you believe, even yesterday, she's out there saying, "Oh, fraud. Fraud. This is the opposite. Fraud."

The fraud is her where she says Mar-a-Lago -- she said it was worth \(\$ 25\) million. He said it's worth \(\$ 18\) million (indicating), \$18 million. She said it's \(\$ 25\) million. She convinced him that it was worth \(\$ 18\) million. And it's worth a billion dollars, or something like that.

Q Yes or no.
A It's a disgrace.
Q Yes or no, do you agree with the position of the Office of the Attorney General that the values in the Statement of

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Financial Condition are overstated?
MS. HABBA: Asked and answered.
MR. WALLACE: It has not.
THE COURT: No, it has not been asked and answered.
MS. HABBA: He actually did the --
THE COURT: It's been asked. He hasn't answered.
MS. HABBA: Your Honor, I'm not screaming. All do respect, your Honor, I don't appreciate when people scream.

The overall value is billions more was the answer. That's his answer. You could read it in the record.

THE COURT: It's a yes or no question.
Q Just yes or no, Mr. Trump. Do you agree with the statement, the position of the Office of the Attorney General is the values are overstated?

A The financial statements are very conservative. The overall number of value is much higher than the number in the financial statements. In addition to that, you have a hundred percent disclaimer clause that goes on for a page and a half.

THE COURT: No, no, no. We are not going to hear about the disclaimer clause. If you want to know -A It's very important.

THE COURT: -- about the disclaimer clause, read my opinion again, or for the first time, perhaps.

THE WITNESS: Well, you are wrong on the opinion.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q Mr. Trump, let's go to that then. Mr. Trump, you do not agree with the determination of the Court in its summary judgment decision that the Statements of Financial Condition were misleading; is that correct?

A He ruled against me without knowing anything about me. He ruled against me and he said I was a fraud before he knew anything about me, nothing about me.

And then he said in his statement that Mar-a-Lago is worth \(\$ 18\) million and it's worth 50 times to 100 times more than that, and everybody knows it. And everybody is watching this case. He called me a fraud and he didn't know anything about me.

Q You did not -- so I think the essence of your answer is there, but I would like to get it as a yes or no. You do not agree with the determination of this Court in its summary judgment decision that the Statements of Financial Condition were misleading; is that correct?

A I think it's fraudulent, the decision. I think it's fraudulent. The fraud is on the Court, not on me. When you rule that Mar-a-Lago is worth \(\$ 18\) million, \(I\) could give you a quarter of a tennis court would be worth that.

When you rule that Mar-a-Lago is worth \(\$ 18\) million and then she rules it's worth \(\$ 25\) million, either people are very stupid or there's a fraud. The fraud is on behalf of the Court, because when the Court does that, and then they say I didn't
value my property correct? Think of it, \(\$ 18\) million, he said. And then he -- he says that I'm a fraud because I didn't value my property correctly? He is the one that didn't value the property correctly.

Q Mr. Trump --
A And how do you do that? How do you rule against somebody and call them a fraud, as the President of the United States, who did a great job. All you have to look at is the President today. What he is doing? How do you call a man a fraud when you have a property that's a 50 to 100 times more valuable. It's a terrible thing you did. You knew nothing about me. You believed this political hack back there, and that's unfortunate.

Q Are you done?
A Done.
Q Okay. I'll take you up on one of the invitations. You are talking about the \(\$ 18\) million valuation versus the higher valuation of Mar-a-Lago. Which one are you paying taxes on down in Florida?

A Which one, what?
Q Are you paying taxes on an \(\$ 18\) million valuation of Mar-a-Lago or \(\$ 1.5\) billion?

A You know that assessments are totally different from the valuation of property. An assessment -- as an example in New York. You sell a building, a building was recently sold for

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
a billion dollars. It's assessed for a tiny fraction of that. Same thing in Florida. Same thing in other places. Other places have full assessments. Whatever you pay, that's what the assessment is, but that's not that way in Palm Beach, Florida. It's not that way in New York, and it's not that way in most cases.

Q If it was that way it would make a difference that the property has been appraised --

A Sure.
Q -- at \(\$ 18\) million in Florida?
A That would be a much different thing.
Q Mr. Trump, I would like to go back to the Statement of Financial Condition quickly. If you could put Exhibit 730 back up?
(Whereupon, the exhibit was displayed on the screen.)

Q If you could go to page two, this is a paragraph we've looked at before. It's the second paragraph which states, "Donald J. Trump is responsible for the preparation and fair presentation of the financial statements."

I would like to focus on the second half of the sentence which says, "Donald J. Trump is responsible for designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statement."

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

I will ask an open-ended question here. What did you do to meet your responsibility for designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statement?

A I gave two people total authority to work with a very expensive accounting firm, very high-priced accounting firm who charged me a lot of money for this, a lot of money. And they worked with the accounting firm and they came up with a statement.

I could've done this statement like many other developers, where I just write down the building and put a value. I didn't choose to do it that way. And I told them to work with the accounting firm and give them what they need. And that's what they did.

Q And so the two people, you are referring to, once again, that's Mr. McConney and Mr. Weisselberg; correct?

A Correct.
Q And so you directed them to prepare the statements in accordance with GAAP; is that correct?

A I don't know what it was. I said, "Prepare the statements so that the accounting firm is happy." So they gave us a statement.

Q The question is what steps you took to --
A I told you.
Q To design, implement, maintain internal control
relevant to the fair presentation of the financial statement.
A I just told you.
Q Okay.
Anything else you did to -- in connection with this obligation?

A No, but if you looked at the paragraphs, and I don't know if, your Honor, if I could do this, but I have it in my pocket (indicating). If you look at the paragraphs that follow that -- this is a total exculpation -- and if you would like to have it, I would read it, if you would like, or I don't know what the procedure is, but I have -- I've taken this right out of this, and it's very simple. And it says exactly how important that clause is. And it's been written about by legal scholars.
(Continued on the next page.)

\section*{D. J. Trump - by Plaintiff - Direct}

Q Between Mazars and the Trump Organization, who is responsible for the fair presentation of the Statements of Financial Condition?

A I think they work together.
Q Who was responsible?
A They got paid a lot of money too.
Q Who was responsible for making sure the statements were compliant with GAAP?

A I don't know. I assume -- I don't know, were they supposed to be compliant to GAAP, because I am not sure that that's true, you know, because GAAP is defined a certain way. I am not sure that's true. But certainly the accounting firm which got paid millions of dollars do this work, they had to do something.

Q Mr. Trump --
A They got paid a lot of money to do this work.
Q -- do you have an understanding of what responsibilities, if any, the Trump Organization had in connection with the preparation of the 2014 Statement of Financial Condition?

A Well, I think I have answered this question about five times.

Q What is the answer?
A I told two top people to work with the accounting firm, give them whatever they needed, anything they needed give

\section*{D. J. Trump - by Plaintiff - Direct}
them so they can come up with a statement. And if the accounting firm was unhappy, they would go back and they would say, we need this, we need that. And they were very insistent on that. Very insistent on that. But they came up with statements in each of those years, so obviously they were satisfied with that.

MR. WALLACE: Could we put up a copy of
Plaintiff's Exhibit 717? I think it is already in evidence.

Q Mr. Trump, I have been handed a document that has been marked as Plaintiff's Exhibit 717. This is the engagement letter for the preparation of your June 30, 2014 Statement of Financial Condition.

I will just direct your attention to the third page of this document, which has a heading: Management Responsibilities, and lists A through \(F\), a series of responsibilities. Do you have an understanding that the responsibilities listed here were for the Trump Organization to undertake in the preparation of the Statement of Financial Conditions?

A I don't remember this, but it looks like that, yes.
Q So to your understanding, the Trump Organization was responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America other than

\section*{D. J. Trump - by Plaintiff - Direct}
previously noted; is that correct?
A Yes, but together working with the accounting firm, the very highly paid accounting firm.

Q The next item states that management is responsible for designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements. That was a Trump Organization responsibility, correct?

A Sure.
Q Item C: Presenting and detecting fraud. That was a Trump Organization responsibility --

A Sure.
Q -- is that correct?
A I would imagine they all had to work on it. This was the accounting firm for the company, and I would imagine they all worked on that. You know you do audits and you do all of the things that you would normally do, and hopefully if something is wrong, you catch it.

Q Who within the Trump Organization was responsible for preventing and detecting fraud?

A Everybody.
Q Item D. Who within the Trump Organization was responsible for identifying and ensuring that the company complies with the laws and regulations applicable to its activities?

\section*{D. J. Trump - by Plaintiff - Direct}

A I would say, you know, sort of anybody who sees anything wrong, they should report it. Anybody.

Q Is there a formal system for reporting anything wrong, as you described it, within the Trump Organization?

A Not formal, but I say to anybody, anybody sees anything going on that is not appropriate, come see me directly, I don't care who you are.

Q Has anyone ever come to see you directly about these?
A Yeah people, people tell me things, yeah.
Q What instances do you recall?
A Things going on and I get the problem solved when I hear it.

Q But \(I\) am asking if you remember any specific instances of someone bringing improper activity to your attention.

A Over the years?
Q Yeah.
A Yeah, sure. Apartments that are rented that they say are vacant. Somebody is getting money. Other things, yeah, we hear. I hear things. It sounds like a big deal, but it goes on. Apartments empty, they put it down as empty but somebody is getting money for it. And you know, generally it is the person who runs the building or the management person, over the years that kind of thing happens. And I take care of the situation when it happens. But I want everybody to look -- I

\section*{D. J. Trump - by Plaintiff - Direct}
tell everybody if you see anything, come to see management or come to see me directly. I don't want that going on.

Q And that would have been the case up until you became President in 2017?

A That is correct.
Q That no longer happens from 2017 to present; is that correct?

A Well, present is different than it was, you know, prior to when I was President. Right now, unless you know something I don't know, I am not President.

Q No, I am just asking if people still come to you with problems that they identify.

A Yeah. Yeah.
Q What do you remember?
A I don't think they come -- I am not sure that they come. I haven't remembered a thing, like, right now. So we are a little new to the game because I haven't been doing this. I am back a little bit in the real estate business. Right?

Q If you look at item \(E\) on this chart it says: Selection and Application of Accounting Principles.

Do you know who within the Trump Organization was responsible for the selection and application of accounting principles?

A No. I would assume that the accounting firm would recommend something and we would accept it.

\section*{D. J. Trump - by Plaintiff - Direct}

Q I am just pointing out that this is under the heading management responsibilities.

A Right. But I would assume --
Q Can I finish my question?
A Yeah.
Q Do you know if anyone at the Trump Organization was responsible for this on the Trump Organization side?

A Again, I would assume that Mazars would come and recommend something and we would accept that procedure.

Q Item F is: Making all financial records and related information available to us and for the accuracy and completeness of that information.

Who within the Trump Organization was responsible for meeting that responsibility?

A That would be the staff in the back. That would be Jeff, Allen and the staff.

THE WITNESS: I would love to read this, Your
Honor, if I could. Am I allowed to do that?
THE COURT: No, not at this point.
THE WITNESS: I am shocked. I am shocked.
MR. WALLACE: Okay. We can take that down.
Q Mr. Trump, I would like to talk a little bit about your building at 40 Wall Street.

A Yeah.
Q Have you ever inflated the operating income of 40

\section*{D. J. Trump - by Plaintiff - Direct}

Wall Street in order to increase a reported valuation?
A Not that I know.
Q Can we take a quick look at Plaintiff's Exhibit 719. MR. WALLACE: Sorry, we need the native version.

I apologize.
And if we could go to row 118.
Q This is the entry for 40 wall Street. And if we scroll down to rows 137 or so, there is a valuation for 2014 and it states: NOI stabilized based on cash flow prepared July 2014 including pending leases. Green Ivy and vacant space. And it lists an NOI of \(\$ 23,873,545\).

Do you know if that is an accurate reflection of the NOI?

A I don't. It is a long time ago. But I don't.
Q Mr. Trump, I am handing up a document that has not been premarked. It is a copy of an article from Forbes magazine dated September 21, 2022. (sic.)

Now, I would just like to direct your attention to the bottom of page 11 in this article.

There is a headline that states: A couple months after securing the loan, Donald Trump was feeling good, sitting at his desk in Trump Tower, speaking openly to Forbes about his years' long quest to vault himself higher on the list of America's richest people. An audio recording of that conversation, which took place on September 21, 2015, makes it

\section*{D. J. Trump - by Plaintiff - Direct}
clear that Trump was not only involved in the effort to misinform the world about the value of his assets, he was willing to take the ruse further than anyone else, and even admit his motivation for doing so: It was good for financing he said.

I'll stop you there. Do you recall speaking to Forbes on September 21, 2015?

A No. And who would say that? I am not saying that. Forbes, they are owned by China. Now they just sold it to Russia I read yesterday.

Q Did you tell Forbes ever that a high net worth is good for financing?

A I mean, it is something that I would say. A high net worth is good for some types of financing, not for buildings and not for specific deals necessarily. But \(I\) guess having a high net worth it makes -- it would be good. Do you want me to say, oh, let's have a low net worth? Give me a low net worth and let's get financing. No. Having a solid record -- having a good net worth is a positive thing. I can't say it is not.

Q If we look down at the next paragraph. It states: "Even though he had just reworked his mortgage at 40 Wall Street, Trump couldn't resist another chance to boast about it. Its a 78-story building, Trump said. Even though his firm had previously marketed it as a 72-story building. And it's actually just 63 stories according to documents filed with the

\section*{D. J. Trump - by Plaintiff - Direct}

City. It is going to throw off, would you say, 50 million maybe this year? He asked, turning to Allen Weisselberg. Fifty million at least, Trump concluded faster than his CFO could get out of the words, "Yeah, by the end of the year." We can stop there. Do you know whether or not it was true that 40 Wall Street in September of 2015 would throw off \(\$ 50\) million by the end of that year?

A I don't know. But I have very little respect for Forbes, so, what I say to them, you know, I deal with them very quickly. And I don't even deal with them. I haven't dealt with them in years.

Q So do you believe you were misquoted?
A I think they are out of business. Aren't they?
Q Do you believe you were misquoted in this statement?
A I don't know. I don't know what I said. You are giving me this information. If you have the statement, let me see it.

Q I am going to move ahead.
A I don't think too much about what I say to Forbes.
Q We'll move ahead to page 13. The lower paragraph, we will start there.

It says: A Forbes reporter noted that the building was 1.2 million square feet rounding up from its actual square footage of \(1,165,207\). It is actually 1.3 , Trump said. By the way, it is 1.3 to be honest with you.

\section*{D. J. Trump - by Plaintiff - Direct}

The same reporter then said Forbes was estimating its net operating income at 24 million, the inflated figure that Jeff, apparently McConney, had shared the previous year. Where did you get that from? We are going to make 64 million net, net after debt service this year, at least, Trump declared. Do you recall telling Forbes that 40 Wall Street was going to make \(\$ 64\) million in 2015 net, net after debt service?

A No, I don't. When was this?
Q \(\quad 2015\).
A It is a long time ago. I don't know.
Q I believe Forbes published an audio clip with the article of this interview. I am just going to ask if we can just play that now.
(The audio clip was played in open court.)
MR. KISE: Your Honor, can anyone actually hear
that? It seemed relatively undecipherable.
THE COURT: I could not make out what was being said.

MR. WALLACE: Let me skip using the audio. I don't know if we can get it any higher.

Can we?
Q I'll just ask then generally, I know it was hard to decipher, what was on that recording, does it refresh your recollection that you may have spoken to Forbes in 2015?

\section*{D. J. Trump - by Plaintiff - Direct}

A No.
Q No.
Do you believe it would have been accurate to say that 40 Wall Street was going to make \(\$ 64\) million in 2015 net after debt service?

A I don't know. You are putting me back a long time ago, long past statute of limitations.

Q All right. Let's --
A I don't know.
Q We are going to hand you a copy of a document that is already in evidence. It is Plaintiff's Exhibit 652. It is very small print so it is going to be easier to see it up on the screen.

If we could go to page two of this document. And if we could zoom in on the far right column.

It states: 40 Wall Street income and expense statement. Cash basis. Twelve-month period ended March 31, 2015.

If you look down at the bottom of the pullout here it says: Total receipts for the building are \(\$ 29,906,711\).

Do you know if that was an accurate reflection of the total receipts for the 12 -month period of 40 Wall street as of March 31, 2015?

A I don't know. I have never seen that before. MR. WALLACE: If we scroll down to the bottom of

\section*{D. J. Trump - by Plaintiff - Direct}
this column. Actually go to the bottom of the last page, please.

Q If we look under the 2015, March 31. Underneath Debt Service In and Capital Disbursements. It states: The excess cash flow or deficit for 40 Wall Street was negative \(\$ 8,736,924\). Do you know if 40 Wall Street in fact ran a deficit of more than \(\$ 8.7\) million for the 12 -month period ended March 31, 2015?

A Well, we spent millions of dollars based on that. We spent millions of dollars on building improvements. We were fixing the building. I spent a lot of money inside the building, my own cash, to improve the building. We rebuilt the lobbies. We rebuilt the elevators. We spent a lot of money, and actually even more than that, I think. But the building has been a successful building.

Q The building improvements number we can see there under capital disbursements is listed as \(\$ 8.2\) million; is that what you are referring to?

A Yea, but we were doing a lot of work. We were doing the elevators and lobbies, doing a lot of work, and the building needed a lot of work.

Q I take it you don't know whether or not it is accurate that in March 31, 201540 Wall Street had run a deficit of \(\$ 8.7\) million?

A After spending millions of dollars on fixing the

\section*{D. J. Trump - by Plaintiff - Direct}
building, yeah, it is possible. But then you make it up in later years. You lease to good tenants and they pay you a lot of rent because they like what you have done.

MR. WALLACE: Your Honor, I am going to pass the witness a copy of the document, it is already in evidence as Plaintiff's Exhibit 636.

Q Mr. Trump, this is an e-mail from Donna Kidder to Jack Weisselberg and Allen Weisselberg with an attachment entitled 40 Wall 2012 to 2014 cash flows.

It will be easier to see it up on the screen. Again, it has very small print.

MR. WALLACE: Can we go to page three of five?
Q At the top it says 40 Wall Street LLC cash flow, year ending December 31, 2014.

And at the bottom of this section it states: Cash flow (after debt service, Capex and IT) negative \(\$ 9,904,289\).

Do you know if 40 Wall Street, in fact, ran a deficit of more than \(\$ 9.9\) million for the year ending December 31, 2014?

A That's a very small number. And it doesn't include all of the money that was spent in fixing the building, bringing it back to good health. It also doesn't show vacancies and things that are leased up. The building is now actually, \(I\) think it is pretty close to being fully leased. But it doesn't show vacancy and it doesn't show all of the

\section*{D. J. Trump - by Plaintiff - Direct}
money spent on construction.
Q Am I understanding then -- I am sorry to interrupt you. Am I understanding that this number could be correct but you think there are other expenses that aren't included in here?

A We spent a lot of money in fixing the building up, and the building is a very good building.

But this has nothing to -- I mean, you can show this de minimus stuff or non-material stuff. This has nothing to do with values. The value of 40 Wall Street is, you know, hundreds of millions of dollars more than what she says it is. She doesn't know what 40 wall Street -- she doesn't even know where 40 Wall Street is. And the value is hundreds of millions.

If \(I\) was going to sell that building, because this was a lawsuit that started off with value, now let's get into a rent-roll of one building, big deal. This is all non-material stuff. If we are fixing up a building and spending money on new elevators and new escalators and new all of the things we have in the building, it is going to do very well in the future. You have to do this stuff.

Q Mr. Trump, are you familiar with what technique Mr. Weisselberg and Mr. McConney used to value 40 Wall Street for the 2014 Statement of Financial Condition?

A No. But the value of the building I am familiar

\section*{D. J. Trump - by Plaintiff - Direct}
with, because I would say that building -- I could look at buildings and tell you what they are worth.

Q I would like to move on to page four of this document. Which lists 40 Wall Street LLC cash flow year end of December 13, 2013. We go to the bottom of this year's entry, we see cash flow (after debt service Capex and IT) negative 7 thousand 317,370 .

A \(\quad 7\) million.
THE COURT: I think you misspoke.
Q 7 million. I'll restate what it says.
Which is, negative \(\$ 7,317,370\). Mr. Trump, do you
know if 40 Wall Street in fact ran a deficit of more than \(\$ 7.3\) million for the year ending December 31, are 2013?

A I don't know, but it doesn't effect the value of the building. The building is the building. If a developer comes along they are going to know that you have to spend money to make money with a building. And they are going to know, they will either fix it or see that we are doing it. It doesn't affect the value of a building. You are talking about small money. It is not material.

And this was a lawsuit based on values. And then when they looked at my statement and when they looked at the cash they said, oh, we are going to have to go a different way, how about disgorgement. Let's take all of his properties away like they do in communist China. Let's take all of his

\section*{D. J. Trump - by Plaintiff - Direct}
properties away because, you know.
Except you have one problem, I have very little debt, and I have a lot of cash. And I have assets that are much better than you thought. So that was a little bit of a problem. But in this city today, and in this country today, maybe a certain Judge would do that.

Q Mr. Trump, I promise we will get through this particular document much more quickly if you can stop at, "I don't know." And you are repeating statements you have made before --

A I don't know.
Q -- so I am familiar with your position.
If we could go to page five of this document, please. It is the 40 Wall Street LLC cash flow year ending December 31, 2012. If we go to the bottom, it lists (cash flow after debt service Capex and IT) negative \(\$ 20,990,873\).

Do you know if 40 Wall Street, in fact, ran a deficit of more than \(\$ 20.9\) million for the year ending December 31, 2012?

A It could have been for one year it did. It could very well have been. But it makes a lot of money. And it makes a lot of money now. It depends. You have extraordinary expenses during certain periods of time with a building. You have to redo things. But I can just tell you, it makes -- 40 Wall Street obviously makes a lot of money.

\section*{D. J. Trump - by Plaintiff - Direct}

And by the way, the money we borrowed is all current or paid off. You know, we never -- no bank lost money. With all of this stuff, not one bank lost money. Not one insurance company lost money.

And by the way, the insurance company that you say lost, they are still my insurance company. It is one of the biggest, most prestigious companies in the world. They don't even know what you are talking about.

Q Mr. Trump, do you recall making misrepresentations about the appraised value of 40 Wall Street?

A No.
Q Mr. Trump, you are being handed a document that has been marked as Plaintiff's Exhibit 3341. At the top of this is an e-mail chain between Donald Trump Jr., Amanda Miller, Rhona Graff and Jeffrey Lichtenberg.

If we could go down to the bottom e-mail in this thread actually, and we will put it up on the screen so it is easier to follow.

There is an e-mail from someone named Kusisto from the Wall Street Journal to a series of e-mail addresses including DTrump@Trumporg.com; Rhona Graff; DJTJrTrumporg.com; Amanda Miller and Selma Langer. Before we get into the substance of the document, I want to first ask, do you know if the e-mail address DTrump@Trumporg.com was ever an actual e-mail address in use?

\section*{D. J. Trump - by Plaintiff - Direct}

A I don't know, no.
Q Did you ever use an e-mail address of DTrumpetrumporg.com?

A Might be, but not that \(I\) know of.
Q Go to the top. It states: "Thank you both again for chatting with me about 40 Wall Street. We are planning on running the story tomorrow, so I wanted to make sure I sent over a few facts."

Do you recall whether or not you and Donald Trump Jr. spoke to the Wall Street Journal in or around January of 2012?

A No, I don't.
Q If you look down under the headline Value, item three says: "The building is one of the Trump Organizations most significant commercial holdings in Manhattan. It is now valued at \(\$ 600\) million according to a recent appraisal."

Do you know who made the representation to the Wall Street Journal that the 40 Wall Street had been valued at \(\$ 600\) million according to a recent appraisal?

A The year is what year?
Q 2012 .
A 2012?
Q Yes.
A No. I mean, it is probably around that number. It is not that far off. I don't know. I don't know. I don't know if anybody had an appraisal. But I know that number is

\section*{D. J. Trump - by Plaintiff - Direct}
not a very far off number. If anything, it could be worth more.

Q I am asking about the existence of an appraisal. Do you know if there was, in fact, an appraisal at the Trump Organization valuing the 40 Wall Street at \(\$ 600\) million as of January 2012?

A So you are saying 12 years ago do I know whether or not there is an appraisal sitting around someplace for the building.

Q I am asking if you are aware, yes.
A I am not aware.
Q I will represent to you that we have not received an appraisal from the Trump Organization discovery valuing the building at \(\$ 600\) million as of June 2012 .

Mr. Trump, are you the one --
MR. KISE: Is Mr. Wallace testifying now?
MR. WALLACE: I said I am representing to him
what we got in discovery.
THE COURT: Is that part of a question though?
I think you can't just sort of represent.
MR. WALLACE: That's fine.
Q Mr. Trump, were you the person who told the reporter at the -- I'll strike that question and start over.

Mr. Trump --
THE COURT: It is withdrawn.

\section*{D. J. Trump - by Plaintiff - Direct}

MR. WALLACE: Withdrawn. I apologize, Your Honor.

Q Are you the one who told the reporter at the Wall Street Journal that there is a \(\$ 600\) million recent appraisal for 40 Wall Street?

MR. KISE: Objection, asked and answered.
A I don't know of any such appraisal.
THE COURT: Overruled.
A We are talking 12 years ago, I don't know.
Q If we look at the top of this e-mail chain, there is an e-mail from Donald Trump Jr. It says: Okay great, there shouldn't be much additional. I don't know where she got the 35 number in renovations, but DJT told her the 600, so he will be happy if that gets printed.

Are you the DJT that is being referenced here?
A Yes.
Q Does this refresh your recollection about whether or not you told a reporter that there had been a \(\$ 600\) million appraisal of 40 Wall Street in January 2012?

A No. But I think the building would be worth about that. I don't think \(\$ 600\) million for that very, very large building is a lot of money.

THE COURT: Five minute warning.
MR. WALLACE: Your Honor, I ask that Plaintiff's
Exhibit 3341 be entered into evidence.

\section*{D. J. Trump - by Plaintiff - Direct}

THE COURT: Granted.
MR. KISE: Objection statute of limitations and relevance. I am not sure what the relevance is of a news article. It doesn't have anything to do with the SOFCs. THE COURT: Overruled, on both grounds. (Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 3341 by the Court.)

Q So Mr. Trump, why did you have the Statement of Financial Condition prepared?

A When?
Q Let's say in the period -- the period of 2011 to 2017, why was a Statement of Financial Condition being prepared by the Trump Organization?

A I think we -- I don't know, I think in one form or another, maybe not officially, we had Statements of Financial Condition. Maybe before that, I don't know. I can't answer that question, we are doing a Statement of Financial Condition.

Q You said you were spending a lot of money to have these made, why were you spending that money?

A I think it is a positive thing to have. Even for myself, I think it is a positive thing to have.

Q Did you use them to obtain financing?
A Because of the disclaimer clause, they were almost valueless.

\section*{D. J. Trump - by Plaintiff - Direct}

Q That's not my question. My question is whether you would actually use them to obtain financing.

A I would give them, but I don't think anybody paid much attention to them because of the disclaimer clause, and because generally that's not the way to do it.

Again, I have been doing it for 50 years and they look at the property.

MR. WALLACE: I am going to hand up to the witnesses a document marked as Plaintiff's Exhibit 1433.

It is short so you can look at it on the screen.
Q This is a letter dated November 15, 2011. If you look down at the bottom; is that your signature, Mr. Trump?

A Yeah, it is.
Q Okay. And who is Mr. Richard Byrne?
A \(\quad\) He is an executive at Deutsche Bank.
Q Do you know if he is in the commercial real estate group at Deutsche Bank?

A I don't know if he is now. I think he was then.
Q Fair enough. I am asking as of this letter. As of November of 2011, was Mr. Byrne in the commercial real estate group of Deutsche Bank.

A Yeah, it is 12 years ago. This is so crazy.
Q So you sent the --
A This is a letter I sent, yes.
Q And you were interested in whether or not they might

\section*{D. J. Trump - by Plaintiff - Direct}
finance the Doral transaction; is that right?
A Right.
Q You did not finance the transaction through the commercial real estate group at Deutsche Bank, did you?

A I did it through some other group, yes.
Q Would that have been the private wealth management group at Deutsche Bank?

A Yes, very different people.
MR. WALLACE: Your Honor, I move 1433 into evidence.

MR. KISE: Statute of limitations.
THE COURT: Granted. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1433 by the Court.)

THE COURT: Two minute warning.
MR. WALLACE: We can stop here then.
THE COURT: Okay. Okay everybody, we will take a break until 2:15. Have a good lunch.

And I will order the witness not to discuss this case or his testimony with anybody during the break.
(Whereupon, a luncheon recess was taken at this time.)
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

THE COURT: Are we having a technical --
MR. KISE: Is the witness's microphone on? I wasn't sure.

THE WITNESS: Yes.
THE COURT: His is on.
MR. KISE: Okay.
THE COURT: Yours are on.
MR. KISE: Yes.
(An exhibit was handed to the witness.)
Q Mr. Trump, the court officer is handing you a document that has been marked Plaintiff's Exhibit 426. It's very extensive, so I'll just walk through it on the screen.
(Whereupon, the exhibit was displayed on the screen.)

Q The cover of the document is an e-mail dated January 12th, 2017, between two Deutsche Bank employees. I'm going to ask you about the attachments. However, if we could go to page two of Document 426?
(Whereupon, the exhibit was displayed on the screen.)

Q This is the term loan agreement dated as of June 11, 2012, by and between Trump Endeavor 12, LLC and Deutsche Bank. This is the loan agreement that relates to Doral; is that correct?

A Yes.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

MR. WALLACE: If we could go to page 80.
(Whereupon, the exhibit was displayed on the screen.)

Q Is that your signature, Mr. Trump?
A Yes.
MR. WALLACE: Your Honor, I would move Plaintiff's Exhibit 426 into evidence.

MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. Granted. It's in.
(Plaintiff's Exhibit 426 was deemed marked and admitted in evidence.)

MR. WALLACE: If we go to the next attachment on page 105, please.
(Whereupon, the exhibit was displayed on the screen.)

Q This is the guaranty that is associated with the Doral
loan. Do you recall signing a guaranty?
A I believe so, yes.
Q Let's take a look at page 124.
(Whereupon, the exhibit was displayed on the screen.)

Q Is that your signature, Mr. Trump?
A Yes.
MR. WALLACE: If we could flip back to page 113, please.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(Whereupon, the exhibit was displayed on the screen.)

Q This is -- I'm going to direct your attention to item nine on this page. It says "Certain Representations. In order to induce lender to accept this guaranty and to enter into the credit agreement and the transactions thereunder, guarantor hereby makes the following representations and warranties as of the date hereof" -- I'll -- you see that section?

A Yes, yeah.
MR. WALLACE: If we could flip down one page to page 114.
(Whereupon, the exhibit was displayed on the screen.)

Q Item little Roman (viii) under this says "Financial Statements." It states "The guarantor has furnished to lender his prior financial statements. Such prior financial statements are true and correct in all material respects." And little (i), "Guarantor's Statement of Financial Condition fairly presents guarantor's financial condition as of June 30, 2011."

Do you believe that representation was true and accurate?

A Yeah, I do.
MR. WALLACE: If we could flip ahead to page 116, please.
(Whereupon, the exhibit was displayed on the

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
screen.)
Q This is item ten. It states "Certain Financial Covenants. During the term hereunder, guarantor shall comply with the following decisional covenants:"

If we look down at number one, it talks about "unencumbered liquid assets." It states that "The guarantor shall maintain unencumbered liquid assets of not less than \$50 million, with not less than \(\$ 20\) million of such unencumbered liquid assets to be held in accounts with lenders or lender's affiliates."

Were you aware that this loan required you to maintain unencumbered liquid assets of \(\$ 50\) million?

A Yeah, cash.
Q And if we look down lower in the sentence --
(Whereupon, the exhibit displayed on the screen was scrolled through.)

MR. WALLACE: Stay on that section, sorry.
A Actually, it was not less than 20, but it didn't make any difference.

Q I believe it was 50 million --
A Correct.
Q -- in liquid assets, 20 million were to be on deposit with Deutsche Bank?

A That's correct, yes.
Q The last sentence in this paragraph states, "For

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
purposes hereof" -- no -- oh, at the end of the sentence we were just looking at it says that "The unencumbered liquid assets will be tested by lender semiannually during the renovation period" -- no I'm just totally on the wrong section.

MR. WALLACE: I'll withdraw that question if that's okay, your Honor.

THE COURT: That's the right word.
MR. WALLACE: Thank you.
Q Were you aware that the covenant was to be tested and certified each year based on your Statement of Financial Condition?

A Based on my cash.
Q Okay.
As represented in your Statement of Financial Condition?

A They want to have cash. They wanted -- weren't interested in anything but cash.

Q Do you believe you complied with this covenant?
A Yeah, I had a lot of cash.
Q If we could go down to item three. It states, "Minimum Net worth. At all times during the term hereunder, guarantor shall maintain at all times a net worth of not less than \(\$ 2,500,000,000\). This net worth covenant shall be tested and certified to on an annual basis, based upon the Statement of Financial Condition delivered to lender each year hereunder

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
pursuant to another section."
Were you aware that this loan required you to maintain a net worth of not less than \(\$ 2.5\) billion?

A Yes.
Q And were you aware that this covenant was to be tested and certified each year based upon your Statement of Financial Condition?

A Yeah. They would look at -- they would actually come in and check, not so much even the financial condition. They would check the cash and what kind of cash is available. And I guess at that point I had -- I think I had between three and \(\$ 400\) million in cash, which is more than I needed for the whole job.

Q And --
A That was what they were concerned with. They always wanted to make -- not because of me, because of other people. They always wanted to make sure the cash was substantial, because in this deal I agreed to put up the money necessary above what they were putting up, the cash necessary to complete the job. And I did that very easily.

Q When you said, "I guess at that point I had, I think, between three and \(\$ 400\) million", are you speaking of the time of the origination of this loan in 2005?

A I don't know. Just around that period, over the period of a year or two I had -- it goes up and down depending on

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
whether or not you are doing a development, or whether or not you maybe want to pay off debt, or whatever, but I had -- I've had a lot of cash for a long time.

Q If we go to the next item on this page, it's item 11?
(Whereupon, the exhibit was displayed on the
screen.)
Q It's headed Financial Reporting and Certain Other Additional Covenants. It says that "The guarantor shall comply with the following additional covenants: Number one, financial reporting", and it lists documents that's the guarantor shall deliver to the lender or permit lender to review, and item \(A\) is, "Annual Statement of Financial Condition, as soon as reasonably available. And in any event, within 120 days following each June 30th, guarantor's Statement of Financial Condition as of June 30th, 20" -- I'll stop there.

Were you aware that this loan required you to submit your Statement of Financial Condition on an annual basis?

A Yes, or a guaranty of cash.
Q That's not in this term, is it?
A Maybe not, but that's all they cared about.
Q Do you believe that you complied with this covenant?
A Yes, I did.
MR. WALLACE: Let me get 312.
Q Mr. Trump, we are handing up another lengthy document, but I'll show it to you on the screen again.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(An exhibit was handed to the witness.)
Q I mostly want to verify your signature. This is a document that has been marked as Plaintiff's Exhibit 312?
(Whereupon, the exhibit was displayed on the screen.)

Q Mr. Trump, this is the hotel term loan agreement with Deutsche Bank for 401 North Wabash Venture LLC. Do you see that?

A Yes, I do.
Q Is this the loan that relates to the Trump Chicago Hotel?

A Yes.
MR. WALLACE: If we could take a look at page 86 of this document.
(Whereupon, the exhibit was displayed on the screen.)

Q Mr. Trump, is that your signature?
A Yes.
MR. WALLACE: Your Honor, we would ask this
document be entered into evidence.
MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. It's in evidence.
(Plaintiff's Exhibit 312 was deemed marked and
admitted in evidence.)
MR. WALLACE: I'll ask defendants, are you okay

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
with me doing this on the screen? Do you want me to handout the --

MR. KISE: Sure.
MR. WALLACE: All right.
MR. KISE: You know I'm old school like that.
(An exhibit was handed to the witness.)
Q Mr. Trump, you've been handed a document that has been marked Plaintiff's Exhibit 310.
(Whereupon, the exhibit was displayed on the screen.)

Q This is the term loan agreement "Residential" with Deutsche Bank for the 401 North Wabash Venture LLC. Is this the loan that relates to the Trump Chicago residential development?

A I believe so, yes.
MR. WALLACE: And if we could look at page 85.
Q Is this your signature, Mr. Trump?
A Yes, it is.
MR. WALLACE: Your Honor, we would move Plaintiff's
Exhibit 310 into evidence.
MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. That's in evidence.
(Plaintiff's Exhibit 310 was deemed marked and admitted in evidence.)

Q Mr. Trump, you are being handed a document that has been marked as Plaintiff's Exhibit 367.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(An exhibit was handed to the witness.)
(Whereupon, the exhibit was displayed on the screen.)

Q The cover of this document is an e-mail dated November 8th, 2012, from Jeffrey Fried at Loeb \& Loeb, to a number of people at the Trump Organization, including Jason Greenblatt. I would like to ask you about the two attachments.

A Okay.
Q If you look at page two.
(Whereupon, the exhibit was displayed on the screen.)

Q This says it's the guaranty for the residential, dated November 9, 2012. Do you see that?

A Yes.
(Whereupon, the exhibit was displayed on the screen.)

Q If you look at page 22, is that your signature Mr. Trump?

A Yes.
MR. WALLACE: If we could turn to page 49 -actually, 26. Let's go 26 first.
(Whereupon, the exhibit was displayed on the screen.)

Q This is the guaranty for the hotel section. And if we look at page 49.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(Whereupon, the exhibit was displayed on the screen.)

Q Is that your signature, Mr. Trump?
A Yes.
MR. WALLACE: Your Honor, we would move Plaintiff's Exhibit 367 into evidence.

MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. It's in.
(Plaintiff's Exhibit 367 was deemed marked and admitted in evidence.)

Q Mr. Trump --
MR. WALLACE: If we could flip back to page ten here, please.
(Whereupon, the exhibit was displayed on the screen.)

Q Item nine on this page states certain representations. It says "In order to induce lender to accept this guaranty and to enter into the credit agreement and the transactions thereunder, guarantor hereby makes the following representations and warranties as of the date hereof."

MR. WALLACE: I would like to go down to item eight, Roman numeral (viii). If you could flip over.
(Whereupon, the exhibit was displayed on the screen.)

Q Again, it says "Financial statements" and it states

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
that "The guarantor has furnished to lender his prior financial statements. Such prior financial statements are true and correct in all material respects." And little (i), "Guarantor's Statement of Financial Condition presents fairly guarantor's financial condition as of June 30, 2012." Do you believe this representation was true and accurate?

A Yes.
MR. WALLACE: If we could flip ahead to page 13. (Whereupon, the exhibit was displayed on the screen.)

Q Here it states, number ten, certain financial covenants. "During the term hereunder, guarantor shall comply with the following additional covenants. Unencumbered liquid assets at all times during the term hereunder, guarantor shall maintain unencumbered liquid assets of not less than \(\$ 50\) million, of not less than \(\$ 20\) million of such unencumbered liquid assets to be held in accounts with lender or lender's affiliates."

Is this the same liquidity requirement we saw earlier?
A Similar, yes.
Q And were you aware this loan required you to maintain an unencumbered liquidity of \(\$ 50\) million?

A Yes.
MR. KISE: Objection.
THE COURT: Grounds?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

MR. KISE: Just, I think that there is some, because of the way the question is being asked, potential to mischaracterize the evidence, because the question is, this loan required you to maintain, but -- and that's what I've been looking for. That's why I wanted the hard copy, but I haven't looked at it.

But as we heard testimony already in the record, there's a stepdown percentage here, and at some point the guaranty goes away. So I just want to make clear that when he says "the loan required you to maintain it", I think that may mischaracterize the actual evidence. The loan requires it only to a certain point.

MR. WALLACE: This is instruction to the witness. It's an improper objection.

MR. KISE: It's not an instruction to the witness.
MR. WALLACE: I'm not disputing the loan. The agreements say what they want. If they want to ask them about other aspects of this. So I'll say at the time you signed this, were you aware of this requirement in the guaranty.

A Yes.
Q And you are aware that this covenant was to be tested and certified each year based on your Statement of Financial Condition; is that correct?

A I think so. Again, they were focused really only on

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
the cash.
Q And do you believe that you complied with this covenant?

A Yes, I do.
MR. WALLACE: If we could flip ahead to page 14.
(Whereupon, the exhibit was displayed on the
screen.)
Q Item three, "Minimum Net Worth. At all times during the term hereunder, guarantor shall maintain, at all times, a net worth of not less than \(\$ 2,500,000,000\). This net worth covenant shall be tested and certified on an annual basis as of each June 30th within 120 days following each June 30th, based upon the Statement of Financial Condition delivered to lender."

Were you aware that this loan required you to maintain a net worth of not less than \(\$ 2.5\) billion?

A Yes.
MR. KISE: Objection. Same objection.
THE COURT: Overruled.
Q Were you aware this covenant was to be tested and certified each year based upon your Statement of Financial Condition?

MR. KISE: Objection. Same objection.
THE COURT: Overruled.
(Whereupon, there is a brief pause in the
testimony.)

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q The question was, Mr. Trump, you were aware?
A I was waiting for the Judge.
Q He overruled it.
A Sorry.
THE COURT: I'll try to speak louder.
THE WITNESS: Sorry.
Q I'll restate the question.
Mr. Trump, you were aware that this covenant was to be tested and certified each year based upon your Statement of Financial Condition?

A Yes, which I could've done without a condition. I could've just shown them a couple of assets and they would have been very satisfied with that, if they wanted. They were focused on cash. I could have given them just a few assets which were worth much more than \(\$ 2.5\) billion.

Q But the terms of the contract required you to actually submit the Statement of Financial Condition, not some other information?

MR. KISE: Objection.
A I don't know, but I think possibly.
MR. KISE: It mischaracterizes the evidence.
THE COURT: Mr. Wallace, are you mischaracterizing the evidence?

MR. WALLACE: I don't think so, your Honor.
MR. KISE: Again, he is speaking of entire term of

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
the loan as opposed to when the stepdown goes in. It doesn't characterize the evidence properly.

During the term that this provision is in force, then yes. But if the stepdown, as we've heard testimony on the Chicago loan, the guaranty went away.

MR. WALLACE: The guaranty --
MR. KISE: He was here for the testimony. I'm not telling the witness anything he doesn't already know.

A This loan was paid off in full with no default -- with no problem, and the bank was thrilled. They got all their money back. There was no victim. There was no anything. This loan was paid off in full. It was a very successful loan as opposed to other people that don't do successful loans. So the bank was thrilled.

Again, the loan was paid off in full. You are talking about a loan that was paid off in full. There was no negotiation. If interest was due on a Saturday, I paid the interest on a Friday, and the bank liked me very much. But this loan is long since gone.

Q "Long since gone"? When did you pay off this loan?
A I don't know. Very recently, but I paid off part of it a long time ago, and I think over the last fairly short period of time -- the loan is paid off.

Q Mr. Trump, are you aware --
A I will check that as exactly, but \(I\) think it is paid

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
off or very close to being paid off.
Q I tell you this is why if we could just go through the questions I have. I was going to get to that at the end.

I'll ask you, are you aware that the Trump Chicago loan was paid off last week?

A I heard it was. I don't know about last week, but I know it was paid off recently; on time, on schedule. In fact, I'll go a step further. I think it was paid off ahead of schedule. You could tell me. I think it was paid off ahead of schedule. The bank was thrilled.

Q And why was it paid off ahead of schedule?
A Because we have a lot of cash.
Q Who made the decision to pay it off ahead of schedule?
A My son recommended it and I said do what you want to do. We had time left. We didn't have to pay it off. We had time left. I said, the interest rate is higher than what you get if you have your money in the bank, so.

Q Which son?
A Eric.
Q Eric. Okay.
The question I asked before we had the interruption, I believe, was the contract actually refers to your Statement of Financial Condition. You did not have an agreement with Deutsche Bank where you could establish your net worth by using some other set of documents, did you?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A I don't know. I just -- I don't remember much. I'm sure if I didn't want to put in my financial statement I could have worked out a cash transaction instead. In other words, guaranteed to keep a certain amount of cash in. But they knew I had a financial statement, so they probably just put it down. They knew I had a financial statement so they added it. I guess it's in number 11, or something, financial.

Q So is it your testimony that you made a decision to use the Statement of Financial Condition instead of a cash, additional cash requirement?

A No, I think Deutsche Bank said, "Why don't you throw it in?" I'll throw it in. It didn't mean very much to them. What meant much, a lot to them, was that I had a lot of cash. That's what meant. And they were paid off, as I said, in full. There was no victim. There was no loss of money. They made a lot of money. And everyone is trying to figure out, why are you doing this for a bank that's very rich, very big, and had the best lawyers in the world. Nobody understands it. Well, I understand it. It's called politics.

Q Mr. Trump, do you believe you complied with this covenant we are looking at on the screen right now?

A Yes.
Q If we go to the next paragraph, that's paragraph number 11. "Financial reporting and certain other additional covenants." It says that "Until the earlier satisfaction in

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
full of all guaranteed obligations and expenses are required under section 25 hereunder, or why, this guaranty is earlier terminated by lender or otherwise by its terms. Guarantor shall comply with the following additional covenant", item one, "financial reporting." (i)(A) states, "Annual Statement of Financial Condition. As soon as reasonably available and in any event within 120 days following each June 30th, guarantor's Statement of Financial Condition as of June 30th."

Do you understand that this guaranty agreement required you to provide an annual Statement of Financial Condition?

A Well, I had it, so minds well give it to them.
Q Is that a yes?
A Yeah, I had it.
Q Do you believe --
A If I didn't have it, I wouldn't have had it put in this loan agreement.

Q Do you believe you complied with this covenant?
A Yeah.
MR. WALLACE: We are going to hand up another exhibit.
(An exhibit was handed to the witness.)
Q Mr. Trump, this is the document that's been marked as Plaintiff's Exhibit 307. It's an amended and restated term loan agreement for 401 North Wabash Venture LLC as of June 2nd, 2014.

MR. WALLACE: If we could turn to page 96.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(Whereupon, the exhibit was displayed on the screen.)

Q Mr. Trump, is that your signature?
A Yes.
MR. WALLACE: Your Honor, we would ask this be moved into evidence.

MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. It's in evidence.
(Plaintiff's Exhibit 307 was deemed marked and admitted in evidence.)

Q We could put that one aside. If we could get Plaintiff's Exhibit 1844. This is already in evidence. We have a courtesy copy for the witness.
(The exhibit was handed to the witness.)
(Whereupon, the exhibit was displayed on the screen.)

Q Mr. Trump, this a document entitled "Amended and Restated Guaranty", dated June 2nd, 2014.

MR. WALLACE: If we could just go to page 27, please.
(Whereupon, the exhibit was displayed on the screen.)

Q Is that your signature, Mr. Trump?
A Yes.
MR. WALLACE: If we could go to page 13, please.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
(Whereupon, the exhibit was displayed on the screen.)

Q Again, item nine, "Certain Representations." It states that "In order to induce the lender to make the loan", there are certain reps.

MR. WALLACE: If we go to item eight, it's on page 14.
(Whereupon, the exhibit was displayed on the screen.)

Q Again, the financial statements it says, "The guarantor has furnished to lender his prior financial statements. Such prior financial statements are true and correct in all material respects." And little (i) "Guarantor's Statement of Financial Condition presents fairly guarantor's financial condition as of June 30, 2013."

Do you believe that that representation was true and accurate?

A Yes. And the loan, I believe was paid off.
Q Okay.
MR. WALLACE: If we could go to page 17, please.
(Whereupon, the exhibit was displayed on the
screen.)
Q There's, again, a listing for certain financial covenants. Again, "Unencumbered liquid assets shall be maintained if not less than \(\$ 50\) million."

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Were you aware that there was a minimum net worth requirement contained in this restated loan --

A I think so, yes.
Q Okay. And I will represent to you, if we go down a little further.
(Whereupon, the exhibit was displayed on the screen.)

Q It also contains -- the next page.
(Whereupon, the exhibit displayed was scrolled on the screen.)

Q "A minimum net worth requirement of \(\$ 2.5\) billion." Were you aware that there is a net worth guarantee in this restated guaranty?

A I think so. I'm not sure, but I think so. Obviously there was.

Q Are you aware that those amounts would be tested and certified by your annual Statement of Financial Condition?

A No. But sounds right to me.
Q Okay. Do you believe you complied with those covenants?

A Yeah, I paid off the loan.
Q If we look down item 11, little (i), the 11 is financial reporting and certain other additional covenants. Little (i) says, "Guarantor covenants and agrees that he shall keep and maintain complete and accurate books and records."

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

It then says, item (A) "Annual Statement of Financial Condition, as soon as reasonably available. And in any event within 120 days following each June 30th, guarantor's Statement of Financial Condition as of June 30th."

The first question, were you aware that you had to maintain complete and accurate books and records pursuant to this agreement?

A I don't know specifically, but it sounds right to me.
Q Do you believe you complied with that requirement?
A Yes.
Q Were you aware that under this agreement you needed to submit an annual Statement of Financial Condition?

A Not really, but it would be okay with me.
Q So you don't know if this was accurate?
A I wasn't sure. I mean, you know, I'm seeing it here, so obviously the answer to that is, yes.

Q Okay.
A No problem.
(An exhibit was handed to the witness.)
MR. WALLACE: I would like to assure everyone we
are making good time.
Q Mr. Trump, you've been handed a document that has been marked Plaintiff's Exhibit 309.
(Whereupon, the exhibit was displayed on the screen.)

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q The cover of the document indicates this is a loan agreement dated as of August 12th, 2014, with Trump Old Post Office, LLC and Deutsche Bank.

Mr. Trump, is this the loan that relates to the Old Post Office in Washington, D.C?

A Yes.
MR. WALLACE: If we could flip ahead to 108.
Q Mr. Trump, is that your signature?
A Yes.
MR. WALLACE: We ask that Plaintiff's Exhibit 309 be moved into evidence.

MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. It's in.
(Plaintiff's Exhibit 309 was deemed marked and admitted in evidence.)

Q Mr. Trump, I'm going to hand you another document.
(An exhibit was handed to the witness.)
Q This document has been marked as Plaintiff's Exhibit 305.
(Whereupon, the exhibit was displayed on the screen.)

Q This is the guaranty for the OPO loan dated August 12th, 2014.

MR. WALLACE: If we could flip ahead to page 26.
Q Is that your signature, Mr. Trump?

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

A Yes.
MR. WALLACE: Your Honor, we move Plaintiff's Exhibit 305 into evidence.

MR. KISE: Objection. Statute of limitations.
THE COURT: Overruled. It's in.
(Plaintiff's Exhibit 305 was deemed marked and admitted in evidence.)

MR. WALLACE: If we could go back to page 12, please.
(Whereupon, the exhibit was displayed on the screen.)

Q Once again, we see item nine, "Certain
Representations." It states that "In order to induce lender to accept this guaranty and to enter into the loan agreement and the transactions thereunder, guarantor hereby makes the following representations and warranties as of the date hereof."

MR. WALLACE: If we flip ahead two pages to page 14.
(Whereupon, the exhibit was displayed on the screen.)

Q Again, item nine, "Financial Statements", it states
"The guarantor has furnished to lender his prior financial statements. Such prior financial statements are true and correct in all material respects." And little (i) "Guarantor's Statement of Financial Condition presents fairly guarantor's

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
financial condition as of June 30, 2013."
Do you believe this representation is true and accurate?

A Yes, I think so.
MR. KISE: Which one? Both of them? The financial
-- you asked that question -- I think you skipped from page
-- just to make sure the record is clear, you went from page 12, then over to page 14 without asking a question.

MR. WALLACE: I'm asking him about the passage I just read.

MR. KISE: Just that provision, not the other? Not that the answer would be different. I just want to make sure the record is clear.

THE COURT: All right. I think it's clear, now, you are asking him about little (ix).

MR. WALLACE: I thought I was clear the first time. We could keep moving. Let's turn to page 16 ?
(Whereupon, the exhibit was displayed on the screen.)

Q It's item ten, little Roman (i) "Unencumbered liquid assets."

Mr. Trump, were you aware that this loan required you to maintain unencumbered liquid assets of \(\$ 50 \mathrm{million}\) ?

A Yes.
Q Were you aware that this covenant is to be tested and

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}
certified each year based upon your Statement of Financial Condition?

A I think so, yes.
Q Do you believe you complied with this covenant?
A Yes, absolutely.
MR. WALLACE: If we could move on to page 17.
Q Little Roman (iii), "Minimum net worth." Again, it says, "At all times during the term hereunder, guarantor shall maintain a net worth of not less than \(\$ 2,500,000,000\). This net worth covenant shall be tested and certified on an annual basis as of each June 30th, within 120 days following each June 30th, based upon the Statement of Financial Condition delivered to lender during each year hereunder pursuant to section 11 (i)(A) hereof."

Were you aware that this loan required you to maintain a net worth not less than 2.5 billion?

A Yes.
Q Were you aware that this covenant was to be tested and certified each year based upon your Statement of Financial Condition?

A No, but it would look like it would be. It's fine.
Q It looks like it is based on --
A Yeah.
Q -- the contract language you just read?
A Yes.

\section*{D. J. Trump - by Plaintiff - Direct (Mr. Wallace)}

Q Do you believe you complied with this covenant?
A Oh, yes, absolutely.
Q Let's look at the next paragraph.
A Again, the net worth of me was far greater than the financial statements, far greater. So I don't know what you are getting at, but keep going.

Q When you say "far greater", are you referring to the brand value that you have?

A I'm talking about -- no, but we can add that, too. If you add the brand value, which I didn't even put down on my financial statements, then you are talking about a tremendous difference, tremendous difference. But, no, just even without it. But with it, and it should be a part of it -- brand value should be a part of it. It's -- in either event, it's more.

Q Just --
A The brand value is a very substantial value.
Q I just want --
A And I didn't even include that in the financial statements, but I could've if I wanted to. If I was looking to build up a financial statement, I would have put it in, but I wasn't looking to do that.

Q I'm just trying to make sure I understand that. Your position is that the assets listed on your Statement of Financial Condition were worth more than the prices that were on those statements; is that what you are saying?

A As a -- yes. As a total, some are much more, some may have made a mistake and it was corrected. Like on the apartment if they made a mistake, and of course this is way before that, because you are going back into ancient history. I don't know how it doesn't involve a five-year statute of limitations. It seems ridiculous to me. It seems extremely unfair to me, but that's okay; that's the way it's been working in this one.

I will tell you that the numbers are far greater than the two and a half billion dollars. And if I add brand value, then it's different from a different -- but in any event, the numbers of my net worth are substantially more than the numbers reflected on the financial statements, therefore, you have no case.

Q Um --
A In addition to that -- no. In addition to that, in addition to that, you have a clause that goes on forever, I think a page and a half, and all throughout, and that clause, as we've discussed quite a bit, tells the lender of this money to go out and do your own work, do your own statement, do everything your own. Go out and hire your own analysts, and all of the things that, you know, that you didn't read today. You read one part of it, but you didn't read the part that supersedes everything else. But it says, "Do your own due diligence." And I think a lot of people have figured that out today.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q Well, that clause isn't the only thing goes on forever.

Next paragraph, number 11, Financial Reporting and Certain Other Additional Covenants. It says: The guarantor shall comply with the following additional covenants. Financial reporting.

It says: Guarantor covenants and agrees he shall keep and maintain complete and accurate books and records.

Did you comply with this covenant?
A I assume so. I mean, the bank was very happy. They got their money back. They were paid off. I assume so.

Did you get any questions from the bank? I don't think so.

Q Do you know if --
A The bank was extremely happy.
Q This is from August 12, 2014. Do you know whether or not you maintained complete and accurate books and records of the Trump Organization from August 2014 forward?

A I hope so. I didn't keep them myself. I hope so. But again, the bank was paid off. There was no victim.

Q When you say, "I hope so," you don't know one way or the other?

A I assume so. Who knows. Do I know? I have people. I pay them a lot of money. They are accountants. I assume they keep good records. The bank can't be upset and the bank

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
isn't upset, because they got their money back in full. No victim.

Q Who was responsible for making sure that the Trump Organization maintained complete and accurate books and records?

A Primarily Mr. Weisselberg and Jeff McConney.
Q Item A underneath this says --
A And the accounting firm. And the accounting firm.
Q I want to make sure you are finished.
A I paid a lot of money to.
Q Item \(A\) underneath the financial reporting states: Annual Statement of Financial Condition. As soon as reasonably available, and in any event within 120 days following each June 30, guarantor's Statement of Financial Condition as of June 30.

A Yes.
Q Do you believe you complied with this covenant?
A Yes.
Q Okay. Mr. Trump, you are being handed a document marked as Plaintiff's Exhibit 394. This is a certification in your name dated November 11, 2014. And if we flip over to the second page is that -- is that your signature, Mr. Trump?

A Yes.
MR. WALLACE: Your Honor, we move Plaintiff's
Exhibit 394 into evidence.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

MR. KISE: Objection, statute of limitations. THE COURT: Overruled, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 394 by the Court.)

Q Mr. Trump, if you look on page one, it says: The undersigned guarantor hereby certifies to lender as of the date hereof that as of June 30, 2014 (the reporting date) One. Financial Information. And it lists attached hereto is guarantor's Statement of Financial Condition as of June 30, 2014.

I am going then if you look at the bottom underneath the section of financial statements it says: "The foregoing presents fairly in all material respects the financial condition of guarantor at the period presented."

So by this document you are certifying that your Statement of Financial Condition as of June 30, 2014 presents your financial condition fairly in all material respects. Is that correct?

A No.
Q What are you -- so what are you certifying here?
A Because we didn't put the brand value down, and that's a bigger number than any of these numbers, and they are very big. But I didn't put the brand value down, so, you know, so I don't know. I think that the statement could have put it

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
down, didn't put it down. But \(I\) don't know if you consider that to be a material respect. It would increase the number beyond even what it is.

Q So is it your position that this certification is not accurate?

A No, I think it is accurate as it is. But the only thing is that we didn't include brand value. And you could include it or you don't have to include it.

Q Setting aside the brand value issue, are you certifying that the June 30, 2014 Statement of Financial Condition fairly presented in all material respects your financial condition as of that date?

A Yes.
Q But the 2014 statements contained an inflated value for your triplex apartment; is that correct?

A Yeah, they -- that's right. If this is the one where that's started. We reduced that substantially later.

Q And the statement contained an inflated valuation for Seven Springs; is that correct?

A Seven -- I don't know. I don't know if this is the one. If this is the statement. Is that the statement that we discussed before?

Q Yes, that has Seven Springs.
A Then we had those and we made adjustments to them. Again, compared to the overall worth or net worth,

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
they were not material. But certainly I could say that we have asked -- I asked to have them reduced and they were reduced.

Q You were required to submit the certificate under the terms of the Doral loan agreement; is that correct?

A I guess so. I would think so.
Q And you knew that Deutsche Bank would rely on this certification to determine compliance with the loan companies; is that correct?

A Well, they have that in there, yeah. I could have negotiated it out. But it didn't matter to me because we had a financial statement, so I figured why not put it in.

Q You intended to meet your obligations under the Doral loan agreement by submitting this document; is that correct?

A Yeah.
Q Mr. Trump, we are going to hand you a new document. (Handing)

Q This document has been marked as Plaintiff's Exhibit 503.

Mr. Trump, this is an internal Deutsche Bank e-mail dated May 10, 2016, but I would like to ask you about the attachments. The attachment is a certification in your name dated May 10, 2016.

And if we could flip ahead to the third page of this document, is that your signature, Mr. Trump?

A Yes.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

MR. WALLACE: Your Honor, we move Plaintiff's Exhibit 503 into evidence.

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 503 by the Court.)

MR. WALLACE: I am sorry, I didn't realize there was no objection. Is this in?

THE COURT: Yes.
MR. WALLACE: I apologize everyone.
Q If we look back at the first page of this document, again, under the heading Financial Information. Mr. Trump, are you certifying that your Statement of Financial Condition as of June 30, 2015 presents your financial condition fairly in all material respects?

A If this is the one we discussed before, then we told them a couple of the assets you could reduce.

Q This is actually a different one.
A A different one? Then it would be fine, yeah.
Q Do you recall whether or not the 2015 statement had corrected the valuation for your triplex apartment?

A I don't know. I don't know.
Q Do you recall whether the 2015 statement had corrected the value for Seven Springs?

A I don't know. But it really wasn't material compared

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
to the overall net worth. It was a rather -- it was a small amount of money in comparison to the overall net worth.

Q Okay.
A I don't think it would be considered material at all.
Q If we could go to the top page of the document again, I just want to highlight one thing for you.

Do you see the borrowers listed here are Trump
Endeavor 12 LLC; 401 North Wabash Venture LLC; and Trump Old Post Office LLC. So you were required to submit this certificate under the terms of all three loan agreements; is that correct?

A I guess, yeah.
Q And you knew that Deutsche Bank would rely on this certification to determine compliance with the covenants of those loans; is that correct?

A No, I don't know. I don't know what they would have done if I had a statement or not, but I had no problem because we had a statement.

Q If Deutsche Bank wasn't requiring this to be submitted, why would you have submitted this?

A No, I would have negotiated that out. They would have taken cash instead.

Q But you did, in fact, have an obligation under those loan agreements to submit this certification?

A Yeah, I have no problem with that.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q And you intended for the bank to rely upon this certification to meet those loan requirements; isn't that right?

A Well, it is what it says. If I didn't have the statement I would have done something else. I would have given them cash instead, or not borrowed the money.

Q Mr. Trump, we have now seen multiple loan agreements requiring the submission of your Statement of Financial Condition. We have seen multiple certifications that the Statements of Financial Condition were accurate. Is it still your position that the bank would not have considered this to be an important document?

A I could have done different things other than a financial statement.

Q I am actually asking under the loan agreements you actually signed though, was this an important document?

A Yeah, because we had the document done, so we used it.

Q Mr. Trump, we talked about this a little, not in response to a question, but you have now paid off all three loans to Deutsche Bank; is that correct?

A I think so.
Q You financed the Doral loan with an Axos Bank; is that correct?

A I believe so, yes.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q And you paid off the Chicago loan recently, maybe last week?

A With cash, yes.
Q And you paid off the OPO loan and you sold that hotel; is that correct?

A Yes, we paid that off with cash.
Q Mr. Trump, you are being handed a document that has been marked Plaintiff's Exhibit 1373. This is an e-mail from Jeff McConney to Elizabeth Pettijohn and Whitley Penn with the subject line: OPO proceeds spreadsheet.

Whitley Penn are the accountants who replaced Mazars;
is that correct?
A Yes.
MR. WALLACE: Your Honor, we would move this document into evidence.

MR. KISE: Objection, relevance.
THE COURT: What's the relevance?
MR. WALLACE: The relevance it has the distribution amounts for the OPO loan.

MR. KISE: What is the relevance of that?
MR. WALLACE: I think it is subject to disgorgement potentially.

THE COURT: Overruled. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1373 by

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

\section*{the Court.)}

Q Mr. Trump, if you look down at the bottom half of the first page, there is an e-mail from Patrick Birney to Donna Kidder and others that says: Mark, Mike, Donna, see attached updated spreadsheet. Assuming we get to the \(\$ 139,404,324\) from the title company today, and combine it with the \(\$ 3,823\) of interest on the deposits that is already in the bank account, the amount of the distributions should be in the amounts below (listed in row 31 of the second tab).

MR. WALLACE: Actually, could we pull up the other attachment to this, just to -- it is 1373 native.

I apologize.
Q I just wanted to state for the record, Mr. Trump, this is the attachment that Mr. Birney is referring to. It is a native.

MR. WALLACE: And just to clarify for the record, we have moved in both the cover e-mail and the native attachment. I just want to make sure that is clear. I want to see if there is any further objection from the defense.

THE COURT: They are both in.
MR. WALLACE: Thank you, Your Honor.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1373 Native by the Court.)

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q If we can go back to the cover e-mail. The amounts listed are: DJT \(\$ 126,828,600\).

DJT Jr. \$4,013,024.
IT \$4,013,024.
ET \$4,013,024.
Member Corp. \$540,475.
Total \(\$ 139,408,146\).
Mr. Trump, do you know if \(\$ 126\) million represents your full profit on the OPO transaction?

A No, I don't know that.
Q Do you know how much profit you did earn on the OPO transaction?

A No. Something, I don't know. Something above that I think. But around. I would have to find out. I would have to go check.

Q So you think above but around this number?
A Above but around that number, yes.
Q And do you know if one -- the \(\$ 139\) million listed here reflects the full profits of all of the participants in the OPO sale?

A I don't know exactly, but it would be something perhaps above that number.

Q Again, but around that number?
A Correct, yes.
Q Mr. Trump, I think we have covered some of this but I

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
would like to go through it one more time. Do you believe any of the Statements of Financial Condition that have been prepared in your name inflated your net worth?

A So --
MS. HABBA: I am sorry, I couldn't hear you.
A Again, we have a very complicated, many transaction, many, many, many-pages document. The overall number is somewhere much higher. And some are a little bit lower or not materially lower. But the overall net is that we are much, much higher, much, much higher than the document -- the document submitted.

When you add the net worth you are talking about many, many millions of dollars more than that. And we didn't do that. If we wanted to build up a net worth all I would have had to do is add that, because that number would be very substantial, very, very substantial. So I don't believe that --

I think this case is a disgrace. I think it is a disgrace for people looking to move their business into New York or out of New York. Many people are leaving New York because of exactly this kind of a thing. We had banks that got their money back. We had insurance companies that got their money back. We had no complaints. The only complainant is you. And with everybody being killed on the streets and murdered on the streets of New York and you have an Attorney

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

General sitting here all day long watching every little move, \(I\) think it is a disgrace. And people are leaving New York. And they are fleeing the City. And it is a shame what is going on. And we sit here all day, and it is election interference because you want to keep me in this courthouse all day long, and let's keep going.

And we have a very hostile Judge, extremely hostile Judge, and it is sad.

I don't have a jury and I want a jury. And I don't have a jury because she sued me under a statute that doesn't allow a jury, and I think it is a disgrace. And other people are saying the same thing. Legal scholars are saying it is the most unfair witch hunt they have ever seen.

And you should be ashamed of yourself.
Go ahead.
Q I promise you, Mr. Trump, I am trying to get you off the stand.

A That's great. I am sure you are.
THE COURT: Mr. Wallace, this morning I said I am following your lead in terms of how much you want to put up with this stuff.

MR. WALLACE: I promise you, Your Honor, we are very close to the end.

Q And we almost got there, Mr. Trump.
But I believe your position is that you do not

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
believe that any of the Statements of Financial Condition inflated your net worth; is that right?

A I think that the Statements of Financial Condition were very good, were actually somewhat conservative and in some cases very conservative.

And they are totally protected, and so am I, and so is everything in there, by a disclaimer clause which tells lenders and insurance companies or anybody that saw it, to go out and do your own due diligence and do your own analysis. It says: Do not rely on this statement.

Q Do you believe that Mr. Weisselberg and Mr. McConney did a good job preparing your Statements of Financial Condition?

A I mean, I don't know, but I think so.
Q Did Mr. Weisselberg and Mr. McConney prepare the Statements of Financial Condition in a manner that you believe is appropriate?

A I hope so.
Q Did Mr. Weisselberg and Mr --
A Don't forget, the bank -- the banks reject them. These banks are not just people that sit back and take paper and put it into a file. When a bank gets a statement they go out and check them very carefully. They are very sophisticated. They have great lawyers, very expensive lawyers working for them. The best law firms in the country. So this

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
isn't just like, oh, here is a paper. The bank would check the work that these people did.

Q So the banks would review the Statements of Financial Condition?

A Absolutely. Absolutely.
Q Did Mr. Weisselberg and Mr. McConney prepare the Statements of Financial Condition in a manner that you agreed with?

A I guess so. I mean, I would have to say so. The banks seemed to be happy, and Mazars seemed to be happy.

I had an, again, very expensive accounting firm. They seemed to be happy. They didn't complain.

And if they did complain, they wouldn't have done the statement. They did come to me on one or two occasions and said they didn't like something or didn't like this or that, and it was corrected before the statement was done. And if they didn't like something they wouldn't have given us a statement. They gave us a statement.

THE COURT: I am going to date myself. But I
feel like it is a broken record. There are old vinyl records that go around and around.

THE WITNESS: Because he doesn't understand it, Your Honor, maybe. Because he keeps asking me the same questions, Your Honor, the same questions over and over again.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Q Let me ask you a new question then.
MR. KISE: He has asked the question about 50
different times. We sat here for almost an hour going through what appears to be a breach of contract case, going through provisions of documents that the bank and only the bank are entitled to enforce. And they didn't.

And so now when the witness has a great answer, it is a problem. So Mr. Wallace just keeps asking the same question, he is going to get the same answer.

THE COURT: Only the banks are entitled to enforce?

MR. KISE: They are. That's what a contract is all about. This is a contract, and a breach of contract is where one party to the contract gets to decide if a term was breached.

For example, the net worth covenant. If the bank determined -- it doesn't say in here that anybody else other than the bank gets to determine whether that covenant was breached.

THE COURT: It doesn't have to.
MR. KISE: If they didn't determine it was breached and you heard testimony from Mr . Haigh that indicates that, then yes, that's their right to do it.

We don't get to second guess them. The Attorney General doesn't get to come in and stand in the shoes of a

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
contractual party that isn't claiming a breach. There is no provision in the law for that.

But if Mr . Wallace wants to continue to ask the same questions in a slightly different way, he can expect to get the same answers.

THE COURT: Well, I'll leave it at that for now.
MR. WALLACE: I promise everyone here I am really getting as close to being done and we can get out of here.

Let me ask a different question then. Did the fact that Mr. Weisselberg pled guilty to tax fraud cause you to change your opinion of any of the work he performed for you?

A Well, it was a sad, very sad thing. People went after him viciously and violently because he happened to work for me. If \(I\) never ran for President and certainly if \(I\) never won, convincingly, he would have been just like a lot of other people. I mean, he did a good to job for me for a long time. I thought it was a very sad thing.

The education of his grandchildren was brought up because he paid for the education of his grandchildren in a certain way. There was some things. So I feel very badly for him.

Q Well, a certain way was you paid for the education of his grandchildren?

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

A No, the education of his grandchildren, and that is, you know, going to be some kind of a breach where they want to put a man in jail? It is a very sad thing.

Q Were you aware --
A He did a good job for me for a long time.
Q So you didn't go back and review any of the work he had performed after?

A I didn't think about it. And frankly, if you talk about these loans, there was nothing much to think about because essentially they were all paid off or soon to be paid off.

Q After Mr. Weisselberg pled guilty, did you do anything to review other work that he had performed for you outside of these financial statements?

A No, because I had no defaults. I had no problems.
Q Did you go through to see if Mr.-- any of the other documents Mr . Weisselberg had prepared at the company were accurate?

A I don't know. Perhaps somebody did. I really don't know.

MS. HABBA: Your Honor, excuse me. Sorry.
Mr. Wallace, can you just clarify, are you asking whether President Trump himself did or the company?

I want to make sure the record is clear. There is a difference.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

MR. WALLACE: I am not going back to a question I asked and was answered.

MS. HABBA: Of course not. It is inconvenient.
THE COURT: I took it to mean Mr. Trump personally.

MS. HABBA: So did I.
A Personally? Personally no, but I think maybe the company did. I don't know.

Q Were you aware that Mr. Weisselberg was being compensated with an apartment that was paid for by the company?

A You mean previously?
Q Yes.
A Yeah. I mean, is there something wrong?
Q No, I am just asking if you knew.
A I mean IBM executives get apartments that are compensated by IBM. And lots of other companies do. But people that work for me can't be so compensated? I don't know, I don't think that's a big thing. Is it? I feel very badly about that whole situation.

Q My question is just whether Mr. Weisselberg was -you ever became aware that Mr . Weisselberg was not recording transactions in the books and records of the Trump Organization in an accurate manner -- inaccurate manner.

Let me rephrase that.
MR. KISE: Are you talking about prior to his

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
guilty plea or after his guilty plea?
MR. WALLACE: I am asking if Mr. Trump ever became aware that Mr. Weisselberg was recording transactions inaccurately in the books and records of the Trump Organization.

MR. KISE: After his guilty plea I think we all did.

THE COURT: This has come up before, Chris. He is allowed to ask a question without a time limit, because then it means all times, at anytime.

MR. KISE: Okay, but it is --
THE WITNESS: He wasn't making it clear.
MR. KISE: The record is -- most of this record is very confusing, but that's particularly confusing, respectfully.

Q The question is, did you ever become aware that Mr. Weisselberg was recording transactions inaccurately in the books and records of the Trump Organization?

A Only through the trial.
Q And that's the tax fraud trial?
A Yeah.
Q You are not going to make any changes to your internal controls because of this lawsuit, are you?

MR. KISE: Objection. It is a question, number one, could call for privilege and number two subsequent

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
remedial measures.
A It depends.
THE COURT: Overruled on both grounds.
A It depends on what the accounting firm -- we have a new accounting firm, and they are doing a very good job. And it depends. If they suggest that we make changes, we would do that. We asked them if they would like us to do that.

Q That accounting firm, is that WhitleyPenn that you are referring to?

A Yes.
Q Do you think that 1 anything needs to change at the Trump Organization based on the things you have learned from this lawsuit?

MR. KISE: Same objection, Your Honor.
A I don't think so.
THE COURT: Overruled.
MR. KISE: I am assuming that his question is
not calling for him to reveal any attorney/client conversations, just asking in general.

THE COURT: He asked him what he intended to do.
MR. KISE: Certain information he may have
received from his lawyers.
MS. HABBA: Yes. I would instruct --
MR. KISE: And subsequent remedial.
THE COURT: The subsequent remedial only applies

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
in personal injury cases, tort cases.
Q My question is, regardless of who is giving the advice, is there a decision to make a change to the internal controls of the Trump Organization.

A It would depend on what the accounting firm would say, probably in conjunction with some lawyers that do this professionally. But the company has been a very, very successful company and it has had a great record.

Q Are you aware, as you sit here today, of any changes -- let me withdraw that question.

As you sit here today, are you aware of any planned changes to the financial reporting systems of the Trump Organization?

A I have not heard of any, but it is possible that they will recommend something. I have actually asked for a recommendation, if they feel it is necessary.

THE COURT: So now we are getting --
MR. WALLACE: I am going to ask this question
hopefully to clarify this.
Q You asked for a recommendation from accountants or attorneys?

MS. HABBA: Don't answer that question, sir.
Excuse me. Sorry. This is actually going to privilege.
And I am going to object and instruct my client, any
conversation where an attorney was also involved, you are

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
not to respond.
MR. WALLACE: This is the foundational question as to whether he has had conversations with attorneys or accountants.

MR. KISE: Your Honor, I have one other thing to add by way of objection. It may be overruled, but I think it is an important objection. And that is, I think the question is either unintentionally or intentionally mischaracterizing the evidence that is already in the record. They already had Mr. Hawthorn on the stand, and Mr. Hawthorn has testified about things that the company is doing.

So, I believe President Trump was here for that testimony. So again, we are not telling him anything he doesn't know. But you are not allowed to intentionally mislead or unintentionally mislead, mischaracterize the evidence in the record. The evidence in the record is such, if he already knows the answer, he doesn't have a good faith basis to ask the question.

THE COURT: I will totally disagree with that. In fact, you are generally supposed to ask questions that you do know the answer to.

MR. KISE: No. No. If you have a good faith basis to presume that the answer is something other than is already indicated in the record.

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

MR. WALLACE: I would note then, I guess if Mr. Hawthorn is recommending anything, Mr. Hawthorn is not an attorney. But I'll ask the same question.

Q As you sit here today, are you aware of any changes that are going to be made to the financial reporting system at the Trump Organization?

A There will be recommendations made, and we will perhaps let you know what those recommendations are. It wouldn't bother me to let you know about it. But we have asked and we will see whether or not anything will come of it.

Q Are the recommendations you are referring to coming from accountants or lawyers?

A I would say accountants and I would also say lawyers working with accountants, yes.

Q Have you spoken to any accountants about potential changes to the financial reporting system at the Trump Organization?

A Through the company, not me personally, but through the company.

Q Who have you spoken to at the company?
A Eric Trump.
Q Do you have any plans to hire a Chief Compliance Officer at this time at the Trump Organization?

A It hasn't been recommended.
Q Have you hired a new Chief Financial Officer at the

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}

Trump Organization?
A I don't know. I would have to ask one of my sons, one of my two sons.

Q As you sit here today, you don't know who the Chief Financial Officer is?

A We have some very good people. I don't know if we are making that permanent or not or if we are going to go outside.

MR. WALLACE: Your Honor, I have nothing further at this time for this witness.

THE COURT: Will there be any cross examination?
MR. KISE: No, Your Honor. Not at this time.
MR. WALLACE: Your Honor, the next witness we have is --

THE COURT: We will excuse this witness.
Thank you.
MR. WALLACE: I apologize, Your Honor.
(The witness stepped down from the witness
stand.)
THE COURT: We can keep going, at least for a while. Would you like to call your next witness?

MR. WALLACE: The only additional witness we have, Your Honor, is Ivanka Trump, who is appearing on Wednesday. So at this point I think that's it for us.

I don't know if Mr. Kise wanted to cover any of

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
the housekeeping items.
MR. KISE: Just briefly, Your Honor.
THE COURT: Go ahead.
MR. KISE: And I appreciate the communication over the weekend.

I just want to make sure, because the way we have operated, and I am going to take whatever direction you provide here, but the way we have operated through the course certainly of the trial are, in limine motions are either done here on the record or there is letters.

And so by way of example, an evidentiary motion wouldn't be something we would do by notice of motion and have a return date. The same would be true for any sort of mistrial motion or directed verdict motion. Mr. Robert is the CPLR expert, but certainly in my experience those wouldn't be done -- you wouldn't do a directed verdict motion by notice of motion, so that it would be heard a week later; or a mistrial motion --

THE COURT: Right.
MR. KISE: -- or evidentiary motion or those things. So I just want to comply fully with Your Honor's order. I want to make sure that I understand how we are supposed to manage that, to the extent that we have such motions.

Same would be true with respect to any appeal we

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
filed, or any other thing we filed. I assume if -- I think it is fair to presume based on the colloquy we had on Friday, that should any of the matters that have come up that are the subject of the gag order, be the -- become the subject of an appeal, that we would be free to reference them on appeal. There wouldn't be any restriction on that.

THE COURT: Yes, true, agree.
MR. KISE: And we will take your direction. I am not putting you on the spot. You can give us your direction this evening. But \(I\) just want to -- it just seemed very foreign to me, and Mr. Robert can speak to this, that if we were to have a directed verdict motion or mistrial motion or evidentiary motion or anything to do with the subject matter of the gag order that would include that, those wouldn't be by way of notice of motion ordinarily.

I just don't know how we would do that, because we would be asking the Court to rule on something days hence that are more immediate.

Mr. Robert can speak to the CPLR.
MR. ROBERT: I think Mr. Kise said it succinctly and well. When and if the plaintiff rests their case, there will be certain motions I presume we will make. And at that time there would be oral motions. And some of the

\section*{D. J. Trump - by Plaintiff - Direct(Wallace)}
issues contained within your gag order of Friday may be items that need to be referenced in that application. We just wanted to make sure under your order, since there will be no written motion papers with those, that we are free to address those on the record with the court at that time. Because there is really no -- there is no other mechanism that I am aware of in New York to be able to bring that up to you.

MR. KISE: Or would you prefer us to submit a letter and only make the oral presentation brief? Whatever Your Honor's pleasure is there. But we want to understand what the limits are because the order as written, and I appreciate the clarification over the weekend, but as written it is restrictive.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

THE COURT: Yes, I'm restricting you not bringing up my confidential communications. You could do anything else. I don't think the gag order referred to anything else.

MR. KISE: But in terms of a motion, if we file a motion that is directed to that particular relief, like, for example, a motion for reconsideration, or anything like that, we have to reference the subject matter in whatever we are filing, whether we are viewing it on the record here or whether we are submitting it by letter, but by notice of motion; there's not a procedural mechanism to do that.

THE COURT: If we are just talking about motions, requests, decisions about my confidential communications, I'm prohibiting you from mentioning that. Okay, you could appeal it, but I am 1,000 percent convinced, and you don't have any right or reason to complain about my confidential communications. You could appeal that.

MR. KISE: But, your Honor, so let me just be clear. So if we have matters that you may not be aware of that relate to that subject matter, it doesn't relate to the, necessarily, the communications themselves, it's not the notes.

MS. HABBA: Not the notes, your Honor.
MR. KISE: But to the issues surrounding that procedure, are you saying that you have already decided
before we make the motion that you will deny it without having seen it? I just -- because I can't make them -- I just need to know, because ordinarily I would either include it in some sort of motion for your Honor so that at least you could see the basis for it and then make your determination; that's all.

THE COURT: I'll take you up on your kind offer to think about this, take this under advisement. Obviously I think these other things that \(I\) think you are referring to, that's a different story.

MR. KISE: Right. It would just be with respect to the implications. It's not referring anymore to -- I understand the record that you've established, you said that we've established, and I understand your order in that regard, but with respect to appeal, I understand you clearly on that, that we have the right to do that. And with respect to anything we file here, it would only be referencing those issues in the context of a motion directed at relief with specific arguments that are related to that, not to do with the content of the notes themselves, at all.

THE COURT: No, it's not even the content. I am prohibiting you, or I have already, from referencing my confidential communications. Sorry to keep repeating that phrase. But \(I\) feel it's important for the safety of my staff and the orderly progression of this case.

MR. KISE: Of course. But if we were, for example, to move for a mistrial based on the implications of that, we would need to at least reference the subject matter in order to file that motion. There's no way to file that motion without referencing the subject matter. We don't --

THE COURT: Don't file that motion, Chris.
MR. KISE: Well, again, so we can't file the motion that you haven't seen that couldn't be considered. You may not know what it is that is our position, because I don't think our position has -- I certainly haven't said it anywhere out loud, and I don't intend to.

THE COURT: Appreciate that.
MR. KISE: But I think there's something that warrants the Court's attention with respect to the implications of these issues. And you are free, then, to adjudicate them. But \(I\) would think we can't be respectfully precluded from raising the issue in the first instance; that would seem to put us in a position where we are not entitled to advance our client's due process rights.

If there is something that we think implicates the proceeding, we have to at least put it in the record for the Court to consider. And if you consider it and reject it, that's fine. But you can't, respectfully, reject it before you've seen it. Because you haven't heard it from me either on the record or otherwise.

THE COURT: I'm, in some ways, at a disadvantage in this discussion, because \(I\) don't know what you are going to bring up.

MR. KISE: Correct.
THE COURT: I told you what not to bring up. Anything else you want to bring up.

MR. ROBERT: For clarification purposes, then, is it the direction and order of this Court that if we were to move for a mistrial based on the grounds that are subject to the gag order, that we are directed not to make such a motion.

THE COURT: Can you repeat that.
(Whereupon, the requested testimony was read back by the court reporter.)

THE COURT: Yes. I'm directing you not to make such a motion because I'm entitled to do what you're referring to, the only subject matter of the gag order.

MR. KISE: But that --
THE COURT: I'm going to protect my staff.
MS. HABBA: Your Honor --
MR. KISE: I understand that, your Honor, but that would -- the fact that it is taking place is not necessarily the subject of the motion.

MS. HABBA: Okay. I'll be more clear, if I may. I think they are being extremely careful, and it's causing
confusion, your Honor, so don't sanction me. I'm doing this in the most delicate way possible.

I personally -- we know that we, obviously, are going to be moving for a mistrial. There's no, you know, that is part of the plan. We do not want to put anyone at risk, which is what they are trying to get at.

I -- outside in the way I read your order, which is different than they do, I think that you are specifically speaking about the contents of your notes being confidential, and that is what we are not to talk about; is that correct?

THE COURT: Not just the contents of the notes, which I assume you don't know, but the fact that they exist.

MS. HABBA: Okay.
THE COURT: That's my business, not yours.
MS. HABBA: So outside of the notes, your Honor, other issues have come to our attention. Are we allowed to address anything outside of the notes? Because they haven't been addressed with the Court, and I think that's the clearest way to ask your Honor, what we are asking, which is we need to have an opportunity to be heard on those things that have not been yet heard.

THE COURT: Give me a second to have a confidential communication.

MS. HABBA: That's fine, your Honor. That's fine.
(Laughing.)
THE COURT: Okay. How's this: I think this is fair, and I understand your concerns. You can make that motion, Ms. Habba.

MS. HABBA: Thank you.
THE COURT: And I'm sorry I yelled at you before.
MS. HABBA: We will do it in a very delicate manner.

THE COURT: Okay. But it has to be in writing. I don't want to hear it in front of hundreds of people --

MS. HABBA: All right.
THE COURT: -- at this point. Later on we could see, but yeah, you could make that motion.

MS. HABBA: Thank you.
MR. KISE: So we should submit that just by letter then, because notice of motion for a mistrial doesn't function that way.

THE COURT: Yeah. Do it by order to show cause, please. You could make it as quick as you can.

MR. KISE: We could do that.
MS. HABBA: That's great.
MR. KISE: Mr. Robert --
MR. ROBERT: I've never seen an application for a mistrial done by order to show cause on paper like that, but as long as the order to show cause is signed by the Court, I
don't see a problem with it.
THE COURT: I'm not sure that that -- I guess that --
(Whereupon, there is a brief pause in the proceedings.)

THE COURT: Submit an OS -- proposed OSC. It's not an order until the judge signs it. Mr. Robert knows that. Submit a proposed OSC to me and I'll get right to it and make a quick return.

MS. HABBA: Okay.
MR. KISE: And we can include in there the rationale for the Court.

THE COURT: Yes.
MS. HABBA: Thank you.
MR. ROBERT: Thank you, Judge.
THE COURT: See. I knew it would be a lovefest.
MR. KISE: Thank you, Judge.
THE COURT: I've used that line before, but some of you haven't heard it yet.

Anything the plaintiff wants to say?
MR. WALLACE: I guess it would be helpful for the people to clarify the rest of the week. We have Ivanka Trump testifying on Tuesday -- Wednesday after the Tuesday holiday. I imagine it could be 3:00 or it could be the full day, but \(I\) imagine that means the defendants are calling
witnesses on Thursday and Friday, and so it would be helpful --

MR. KISE: We are off Friday.
THE COURT: We are off Friday.
MR. WALLACE: May I say, witnesses will be called next by the defendants starting on Thursday, and it would be helpful to know what the order would be. I understand it may be Donald Trump, Jr. and Eric Trump, but I don't know if they are going Thursday or --

MR. KISE: So we had held -- again, we'll do -I'll take the Court's direction. So we had held Thursday, as a spillover day, in the event that President Trump needed to come back, as agreed, or in the event it's possible that Ivanka Trump was hold over. We are certainly going to ask her questions, to the extent we have questions. We are trying to get that done now so as to minimize the interference in her life to not have to come back again. And then thereafter we would likely be making certain motions on Thursday.

So we had planned to -- because of that, to ask the Court that we would just -- to keep this organized, to begin our case in chief on Monday, that way we are not starting a case with an hour left on Thursday or two hours left on Thursday, to just begin our case in chief on Monday.

We do have -- this may -- it certainly was pleasant
news for me. We do have a schedule now that has us completing our case, right now, by December 15 th.

THE COURT: A week early.
MR. KISE: A week early. I don't want to hold to that, because nothing ever gets done on time here, but I'm offering that because we could still stay in the Court's parameters, if not sooner, even if we start on Monday. So that -- we can start on Thursday, but then that would be a different witness. That's likely to be a witness different than Don Jr. or Eric, and that's what I meant in my communications with Mr. Wallace over the weekend, which we had been communicating about witness order.

If we are going to start on Thursday, particularly Thursday afternoon, we are gonna to have to see availability and we could tell them. It would be certainly among the handful of witnesses that we have at the top, and I could give more clarity on that this evening, but \(I\) would just ask the Court that for efficiency purposes, and given this is a long trial, that we just start -- so we don't run into the train wreck of spillover and motions going on, that we just start on Monday.

THE COURT: You know, you said in a certain context, "nothing ever finishes on time", or something. I've been meaning to thank and congratulate all the lawyers for the fact that we managed to start this trial on

October 2nd, come hell or high water, written in stone, and you did a Herculean job to get this ready. I hope you think, although you are rushed, although you were pressed, you had enough time and there was no deprivation of due process, shall we say.

And same thing for the plaintiff's attorneys. It was an amazing job to get as far as we've gotten in the time we have.

All right. Let's try to figure out exactly what we are going to do.

MR. WALLACE: I -- your Honor, I would just ask Chris, if you could, and we won't hold you to it, but give us that lineup that gets you to the finish line of your case by December 15th.

MR. KISE: I can.
MR. WALLACE: We would appreciate that. I don't know if we are going to have a rebuttal case. I don't know what is going to go on, so do we finish by December 22nd, we do, we will, but --

MR. KISE: It would be on them, not me.
MR. WALLACE: If they could just provide us with the order of witnesses that they think gets --

MR. KISE: We could provide a tentative order, but, again, with all your case as well, witnesses change and schedules change. We could provide a tentative order that
would get us to that place, and even starting on the Monday.
THE COURT: Let's be very exact here. With basically through today, once we finish this discussion, all right, what's going to happen Wednesday morning?

MR. WALLACE: Wednesday morning the People will call Ivanka Trump.

THE COURT: Right. How long -- I'm asking both sides. How long will her total testimony, at this point, take? A day? A day and a half? Less than a day?

MR. WALLACE: Two to three in the afternoon we would expect to be completed with her examination, your Honor.

MR. KISE: If that's the case, then we will almost certainly go to at least through the morning on Thursday, on the next day.

THE COURT: Okay.
MR. KISE: At least we'll have an hour plus another two hours in the morning. So we would -- depending on what they ask it may go longer than that; it may not. But we'll at least be moving well into Thursday, as it stand now based on their representation. And then we would have motions in the afternoon.

THE COURT: And how long do you think the motions will take?

MR. KISE: That could take --

THE COURT: That could take a long time?
MR. KISE: That could take the balance of the afternoon, yes.

THE COURT: Plaintiff, does that sound reasonable to you?

MR. WALLACE: I'm having a hard time imagining meritorious motions that would require that much time to discuss.

MR. KISE: Of course.
MR. WALLACE: But that's fine, I think, from our perspective.

THE COURT: The question isn't whether they are meritorious. The question is how long they'll take.

MR. WALLACE: I know.
THE COURT: Mr. Kise, I think your schedule makes sense.

MR. KISE: Thank you, Judge.
THE COURT: Make your motions Thursday after Ivanka is finished, and you'll be ready to go the following Monday.

MR. KISE: Yes, your Honor. We'll provide them maybe as soon as this evening. In fact, probably this evening, that tentative schedule.

THE COURT: We would like a copy of that list, too.
MR. KISE: Okay, yes. We could provide that to the
court, your Honor. Again, not holding us to it, because things change and witness's schedules come and go. THE COURT: Of course.

MR. KISE: But we could at least provide something. And I would like to not file that on the record. We could provide it to the Court, but not have that out there, because this --

THE COURT: Let's assume that, but possibly revisit. I'm still waiting for you to say that your motion or motions on Thursday might be granted. You might not have to put on a defense.

MR. KISE: Well, I certainly hope so.
MS. HABBA: So do I, your Honor.
MR. KISE: I think there is a basis for it, and we would all be happier for it. Almost all of us.

MS. HABBA: I could make my application now for you to dismiss this entire case.

THE COURT: Save it for Thursday.
MR. KISE: My family certainly would be happy. I could assure you of that.

MR. WALLACE: Procedurally, we haven't rested, so they can't make the motion for a directed verdict yet.

THE COURT: Everybody have a great Election Day and don't forget to vote.

MR. KISE: Thank you, Judge.

\title{
In The Matter Of: \\ NYS Attorney General v. \\ Donald J. Trump
}

November 8, 2023

\section*{Ny Supreme Court- Civil}

Original File November 8_2023 AG v Trump.txt Min-U-Script \({ }^{\circledR}\) with Word Index

A Idid.
2 Q And did you receive a bachelor of arts in real estate and finance?

A Idid.
5 Q Do you have any postcollege formal education?
6 A I had some licensures in the real estate business, a salesperson's license. And at one point a gaming license in the state of Nevada, or in the state of New Jersey, sorry.

\section*{temperamental. You have to speak right into them loudly. I} think they probably heard everything except maybe that last answer.

THE WITNESS: Thank you.
THE COURT: Great. Please continue.
Q At some point in time did you become an executive vice president at the Trump Organization?
A Idid.
Q And did you continue working for The Trump Organization until approximately January 2017?
A That's correct, yes.
Q From let's say until 2011, until the time you left, what were your responsibilities at the Trump Organization?
A Well, they varied and evolved as my experience grew. When I first started in the company I was just shortly out of college. I had worked as, you had mentioned, for Forest City
Ratner, another developer, for a year or so, um, helping them on construction related projects, specifically a project in Yonkers.

When I joined our family business, I initially started -- probably spent most of my time under Andy Weiss, who was, then, our head of development and construction, but I moved around within the organization to cut my teeth on various elements of the business.

So over time, as I had more experience under my belt
elevated experience for the guests.

Q Do you know what the term "transitional asset" means in the real estate world?

A Um, did he have -- I can guess what it would mean, but we were -- it was transitioning from what it was under its prior ownership owned by Marriott to what our vision was for the property.

Q I was asking more generally, not necessarily specific to Doral.

Have you heard the term transitional asset in your experience?

A Yes, I have.
Q What do you understand that to be?
A What I just described we did for Doral.
Q All right.
Are you familiar with GAAP, Generally Accepted Accounting Principles?
A I'm generally familiar with GAAP, yes.
Q What is your understanding of GAAP?
A You had asked me with that when we had met a little
over a year and a half ago. What I told you then is true now, that I hadn't thought about GAAP as much since college. So, um, it's -- my understanding is very general. I'm not an accountant, but I recall being exposed to this idea when I was in university.
Q Okay.
Other than any accounting classes you may have taken back in university, had you had experience with GAAP in your professional career?

A You had showed me one document that referenced GAAP, GAAP principles, but no, not that I can recall beyond that.

Q Have you performed any work for The Trump Organization since \(2017 ?\)

A I don't believe so, no.
Q Between January 2017 and the present, did you have any financial interest in the old post office in Washington, D.C.?

A Between when?
Q January 2017 and the present?
A Yes.
Q Could you please describe that financial interest?
A I had a profit participation in the project.
Q What do you mean by "participation in the project"?
A What I just said. I had a profit participation in the project in the event of a sale, all of which was disclosed when I entered government.
I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3667
THE COURT: Hold on. I think the trick may be to move the microphone closer to you, because I know you can't get that close to the table.

THE WITNESS: I'm sorry. I wonder if I could make the cord longer. Thank you.

THE COURT: And obviously keep your voice up.
THE WITNESS: Let me know if it's better.
THE COURT: Please continue.
Q Thank you, your Honor.
Between January 2017 and present, have you had any financial interest in TTT Consulting?

A TTT? Um --
MR. KISE: Objection. Relevance.
MR. SOLOMON: Payments by the defendant
organization can go to show witness bias, your Honor. THE COURT: Overruled.
A Yeah, I had an interest in that consulting agreement, but I don't think that there have been any recent payments from it.

Q Do you recall any payments between January 2017 and the present as a result of your interest in TTT Consulting?

A I recall that when I went into government, in
consultation, at the suggestion of the Office of Government Ethics, I had to resign from many assets and entities, put others into trust, and as it pertained to that one, convert it,
um, from a variable stream of income, based on how the assets performed, to a fixed income, which I did at their suggestion. And, you know, that's the last I know.

Q Other than -- excuse me, between January 2017 and the present, have you received any other payment from The Trump Organization, other than what you've described with respect to the Old Post Office and TTT Consulting?

A No, I don't believe so.
Q I would like to talk about the Trump Organization's relationship with Deutsche Bank. Are you familiar with Deutsche Bank?

A I am, yes.
Q Prior to 2011, was Deutsche Bank a lender on any of the Trump Organization's projects?
A Yes. I believe that they had done the initial construction loan on Trump Chicago, that that predated my involvement of the company.

Q So that's the property, the Trump International Hotel and Towers in Chicago?

A Correct, yes.
Q And was that relationship through the Commercial Real Estate Group at Deutsche Bank?

A You identified for me, um, a year ago when we met that it was.

MR. KISE: Your Honor, I just want to put on the

Page 3669
record, as we do with other witnesses, a standing objection to these questions that predate the statute of limitations.

THE COURT: Understand. Overruled.
Q Okay.
When we met in August of 2022 for your testimonial session --
A Yes.
Q - I had shown you some documents. Do you recall that?
A Yes, I do.
Q Based upon those documents, did you understand that the relationship that The Trump Organization had prior to 2011 with
Deutsche Bank was through the Commercial Real Estate Group?
A I did, yes.
Q Okay.
And were those loans secured by a mortgage on the underlying real property in Chicago?

A I believe so, yes.
Q To your knowledge, was there any guaranty provided on those loans for the Chicago property?

A I don't know.
Q Are you aware of any?
A I'm not sure.
Q You are not sure if you are aware of any?
A No, I'm not sure if there was -- I was answering your question. I'm not sure if there was a guaranty that predated my
involvement in the company, those loans.
Q I understand. As you sit here today, do you have any
knowledge about any guaranty on the Chicago loan prior to 2011?
A No, I have no knowledge.
Q Did there come a time that you were introduced to
someone in the Private Wealth Management Group at Deutsche Bank?
A Yes.
Q Was that Rosemary Vrablic?
A It was, yes.
Q Who made that introduction?
A My husband, Jared.
Q When was that?
A Roughly 2010 or 2011.
Q Was that during the time that the Trump Organization was seeking financing for the Doral loan?

A It was, yes.
Q At that time, what benefit, if any, did you understand that the Private Wealth Management Group could provide to the Trump Organization as compared to its existing relationship with the Commercial Real Estate Group?
A I don't think I ever made that comparison. I didn't have an existing relationship with the Commercial Real Estate Group, and I had heard that Rosemary was a very formidable banker with a lot of experience and a great person to have a relationship with, and I was excited to show her an opportunity
I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3671
that we were very passionate about, um, to explore working together on the project.

Q Did you understand that the Private Wealth Management Group could provide different loan terms than the Commercial Real Estate Group?

A I don't know that I thought about that. This was the
first time I had been introduced with Rosemary so, I showed her
the project. I didn't make assumptions about what her terms
would be, but when she sent us her proposal we obviously decided to proceed with her moving forward.
Q Do you recall if her proposal was any different than any proposal you had received from the Commercial Real Estate Group?

A I'm not sure that we did receive a proposal from the Commercial Real Estate Group. You showed me a document, roughly a year and a half ago, that showed a proposal that I don't know if it was ever actually sent to us at the company. I was not familiar with it.
Q Okay.
Let's talk about Doral specifically. You mentioned about the bankruptcy. So let's go through that, if we can, just briefly.

A Sure.
Q Did there come a time that the Trump Organization was
selected as the stalking horse bidder for the Doral property?

\section*{ump - by Plaintiff - Direct (Mr. Solomon)}

Page 3673
under current ownership. Um, and to rebrand it, to reflag it. It was currently being run by Marriott under a management contract.

We took over the management of the hotel operations, and our goal was to reposition it as a luxury golf resort in south Florida.

Q In connection with potential financing, did you contact Andy Beal of Beal Bank?

A Yes, I recall that.
MR. SOLOMON: If I could hand up PX-1266.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
A Thank you.
Q You've been handed, and also up on the screen, is what's been marked as PX-1266 for identification. If you look at the bottom e-mail that's from you to Andy Beal. Do you see that?

A Yes, I do.
Q And further up the chain you forward it to
Mr. Weisselberg, Mr. Glick, Mr. Orowitz, and Mr. Greenblatt. Do you see that?
A Ido, yes.
Q Do you recognize this e-mail?
A I recall you having showed it to me a year ago, yes.
\begin{tabular}{|rc|r}
\hline I. Trump - by Plaintiff - Direct (Mr. Solomon) & Page 3674 & I. T \\
1 & MR. SOLOMON: We offer PX-1266 in evidence. & 1 \\
2 & MR. KISE: Objection. & 2 \\
3 & MR. ROBERT: Objection. Statute of limitations. & 3 \\
4 & THE COURT: Overruled. It's in. & 4 \\
5 & Q \(\quad\) If you look at the last sentence in the first paragraph & 5 \\
6 & of your e-mail, "My father will also send you his most recent & 6 \\
7 & financial statement by hard mail." Do you see that? & 7 \\
8 & A & I do, yes. \\
9 & Q \(\quad\) Was that a request made by Mr. Beal for the financial & 9 \\
10 & statement, or were you volunteering it? & 10 \\
11 & A I have no recollection of this e-mail beyond you having & 11 \\
12 & showed it to me last year, so I'm not sure. & 12 \\
13 & Q Putting to one side the e-mail, do you recall that & 13 \\
14 & Mr. Beal actually requested a copy of Donald Trump's financial & 14 \\
15 & statement, or did you volunteer it? & 15 \\
16 & A \(\quad\) I don't recall. & 16 \\
17 & Q \(\quad\) Do you recall that Beal Bank, in connection with any & 17 \\
18 & potential financing, had wanted an equity interest in Doral? & 18 \\
19 & A I don't remember that, no. I recall -- and these were & 19 \\
20 & very brief conversations. We never reached a term sheet stage. & 20 \\
21 & We just generally showed them the opportunity, but I think as we & 21 \\
22 & discussed last year, two names that came to mind; one was Beal & 22 \\
23 & Bank. And we knew Andy Beal quite well. And another was & 23 \\
24 & Inbursa. My recollection is Inbursa had suggested being a & 24 \\
25 & partner with us in Doral, not Beal Bank, but I may be mistaken. & 25
\end{tabular}
Trump - by Plaintiff - Direct (Mr. Solomon)
Page 3675
    There may have been -- it may have been the opposite way.
    Q Let's leave Inbursa off to the side for a moment --
    A Sure.
    Q -- and stay focused on Beal Bank.
        Are you aware of any relation -- any relationship
    between Beal Bank and CSG Investments?
    A CSG Investments? Um, that -- that acronym sounds
    familiar, but I don't recall what it is.
    Q Let me show you a document it's already in evidence, so
    I have a copy to hand up to the witness, PX-3232?
            (Whereupon, the exhibit was displayed on the
        screen.)
            (The exhibit was handed to the witness.)
            THE WITNESS: Thank you.

Q And this is an e-mail from Steve Harvey, to you, dated November 15th, 2011.

A Mm-hmm.
Q Did you receive this e-mail in or about November of 2011?

A I don't recall this e-mail, no.
Q Do you have any reason to believe you did not receive it?

A No, I don't.
MR. SOLOMON: We offer it in evidence, your Honor. MR. KISE: Objection.

MR. SOLOMON: Im sorry, it's already in evidence.
MR. KISE: I think it's already in evidence, but I just want to note, as we are going down this path, relevance again.

None of this relates to any of the claims actually at issue. There are no loans prior to 2014 that are the subject matter. This is a non-party witness. I'm not sure of the purpose of going through all of these.

What is going to be, I'm sure, a series of documents between 2011 and 2014 that predates the statute of limitations, it can't possibly have any bearing on any claim actually at issue.

THE COURT: I disagree. It remains in evidence. MR. SOLOMON: Thank you, your Honor.
Q If you take a look at Mr. Harvey's cover e-mail, he states that it is a redraft of the term sheet based on our conversation today. Do you see that?
A Ido, yes.
Q Do you have any reason to doubt that you had a conversation with him on or about November 15th, 2011 ?

A No, I don't.
Q If you look at the second page of this exhibit.
(Whereupon, the exhibit was displayed on the screen.)
Q The interest rate is LIBOR plus 5.5 percent. Do you
ump - by Plaintiff - Direct (Mr. Solomon)
Page 3677
see that?
A Ido, yes.
Q Do you recall if that was the rate you had discussed with Mr. Harvey?

A No, I don't recall.
Q Do you have any reason to believe this term sheet does not accurately reflect your conversation with Mr. Harvey?

A Well, I don't recall my conversation with Mr. Harvey, so I don't know one way or the other. I have no reason to believe it doesn't reflect it.

Q Okay.
MR. SOLOMON: I'm going to hand to the witness PX-3247, which is already in evidence.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q This is an e-mail chain between you and Ronnie Levine and Ralph Herzka. Do you see that?

A No. I think --
Q I think I may have a different exhibit. MR. SOLOMON: I'm on the wrong one.
Q You have the right one, ma'am. This is an e-mail between you, at the bottom, and Enrique E. Morelos Zaragoza
25 Borbolla. I apologize if I mangled the pronunciation.

Is this the potential transaction you were discussing with Inbursa?
A Yes. This is with Inbursa.
Q If you look at the bottom of the first page, second
paragraph, "Attached for your review is a markup of your term sheet."

Do you see that?
A Ido, yes.
Q And if you turn, beginning on the third page --
(Whereupon, the exhibit was displayed on the screen.)
Q -- there appears to be a markup of an Inbursa term sheet?

A Yes.
Q Is that your markup of his term sheet as reflected in the cover e-mail?

A I don't recall, sitting here today, any of these terms from 2011. We didn't move forward with the deal with them, so I have no reason to believe it's not. But I don't remember having these conversations other than very high level.

Q If you look on the third page of the exhibit, which is the first page of the term sheet, "Indicative Rates, one month LIBOR plus 550 basis points."

Do you see that?
A Which page were you on?
I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3679
\(1 \quad \mathrm{Q}\) The third page of the exhibit, page three of 14 ?
2 A Okay.
3 Q Under "Indicative Rates."
4 A Yes.
5 Q It's highlighted on the screen. That is something I did not strike; correct?

A It's not struck here, no.
THE COURT: Let me just suggest. It's often easier to see it on the screen because they highlight what they want you to look at.

THE WITNESS: Thank you. I appreciate it.
THE COURT: But either way. What were you -nothing. Go ahead.
Q At this time, were you also communicating with Meridian Capital as a potential broker for the financing of the Doral acquisition?

A I recall you having asked me about Meridian when we met, and I had forgotten that we had conversations with them. I don't believe we had ever engaged them. I don't recall having done that. But it wasn't uncommon for us to ask people in the market what their thoughts were as we were looking at things. But I don't recall that we actually formerly engaged them.

Q But you had conversations with them; correct?
A Yeah, you reminded me of that, yes.
Q Okay.

MR. SOLOMON: If we could hand to the witness PX-3243 which is already in evidence.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
Q And I was on the wrong page earlier, now on the right
page. This is an e-mail chain between you and Ronnie Levine and
Ralph Herzka; do you see that?
A I do, yeah.
Q They were with Meridian Capital or were with Meridian Capital at that time; correct?
A I hadn't remembered Ronnie Levine, but you had reminded me that he worked at Meridian. Ralph I remember.
Q Do you see the first sentence in your e-mail on the very top from November 1st, 2011? You state, "I actually spoke to Tom Harrison at Colony today." And then it goes on. Do you see that?
A I do, yes.
Q Do you recall speaking with anyone at Colony in potential financing for Doral?
A There was a point in time when Colony was going to be our equity partner in the project, not on the debt side, but as our partner in -- actually, you know what, that was OPO, so this was -- I don't recall, because there was also Tom Harrison, but I don't recall having spoken to him about Doral. But I do

Page 3681
recall having spoken to him about the Old Post Office, and we actually had explored it collectively for some time, so. They were happening kind of around the same time, so apologies for the confusion. But no, I didn't remember speaking to him about Doral.

\section*{Q Okay.}

Second sentence reads, "He said that we wouldn't want to do a deal with them on the debt side as they are too expensive for what we'd be looking for (low teens.)"

A \(\mathbf{M m}-\mathrm{hmm}\).
Q Do you have any reason to believe that you reported the conversation inaccurately to Mr. Levine and Mr. Herzka? A No.

MR. SOLOMON: Im going to hand up PX-1289, which is not in evidence, so it's marked for identification.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
(Continued on the next page.)
I. Trump - by Plaintiff - Direct(Solomon) Page 3682

Q This is an e-mail from Ronny Levine to you; do you see that?

A I do, yes.
Q November 7, 2011, correct?
A That's what it says, yes.
Q And it attaches a finance memo that, according to this e-mail, you discussed with him last week?

A It appears that way, yes.
MR. SOLOMON: Your Honor, we offer PX 1829 in evidence.

MR. KISE: Objection, statute of limitations, relevance. Is this going to be connected up at some point to claims that are at issue?

THE COURT: We have been battling, shall I say, over relevance in terms of the statute of limitations, for example. First of all, this is not going to be a comprehensive list:

There is no jury, so there is no prejudice.
This apparently will be the plaintiff's last witness on their case-in-chief, right?

MR. SOLOMON: I believe that to be true, Your
Honor, but depending on what happens, we reserve the right.

THE COURT: Of course.
And these documents, these discussions, I would
. Trump - by Plaintiff - Direct(Solomon)
Page 3683
just like to get the whole picture, not just blind myself.
I am very aware of the Appellate Division's statute of limitations cutoff.

And finally, I think that a lot of this is
arguably, possibly, relevant to the injunctive relief that the plaintiff is requesting.

So that's my response to both relevance and statute of limitations. So overruled.

That was a request to put this in evidence.
MR. SOLOMON: Yes, Your Honor.
THE COURT: I almost forgot after all of the talking I did.

Granted, it is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1829 by the Court.)
\(Q\) If you could turn to the financing memo?
A Yes.
Q Mr. Levine starts by telling you that they have spoken with a wide variety of lenders regarding acquisition and renovation, financing for the Doral Resort and Spa ; do you see that?

A I do, yes.
Q At the end of the first paragraph he goes on to analyze certain information from a recent Deutsche Bank

\section*{securitization; do you see that?}

A I do, yes.
Q And on the next page, based upon the information they have, towards the end of the carry-over paragraph, he notes that a 9 percent debt yield is "an aggressive assumption and the lowest indicated of the deals above." Do you see that?

A Ido, yes.
Q Do you recall in or about November of 2011 having an understanding that a 9 percent debt yield is an aggressive assumption with respect to potential Doral financing?

A No.
Q Do you have any reason to doubt, as stated by Mr. Levine, that a 9 percent debt yield was an aggressive assumption at that time?

A I think it would be hard for me to answer that question sitting here today, all of these many years removed. But just looking at the document, it appears that the example he is using is a mezzanine position. This was debt not mezz, so I am not sure if it is -- this is an apples to apple comparison. But it says what it says. I don't remember it and I don't believe we used them to secure financing.

Q I understand you didn't use them to secure financing. Let's go back though. It is the second paragraph on the first page that speaks about mezz financing, correct?

A The 92 million mezzanine position on the standard

\section*{ump - by Plaintiff - Direct(Solomon)}

Page 3685
hotel, yes.
Q Which was sold for 80 cents on the dollar, correct?
A That's what it says here, yes.
Q Is it your understanding that the securitized portion that is reflected in the chart above was also mezzanine financing?

A I don't have an understanding beyond what I am seeing here today.

Q Well, you testified that the 9 percent debt yield related to mezz financing, and I am trying to understand where you drew that from?

A I am just reading the document realtime, so I told you that I hadn't recalled seeing it prior.

Q So you don't know then if the securitized portion that is reflected in the chart on the first page is debt or mezzanine financing, do you?

A No, I don't.
Q Did there come a time that you and Donald Trump spoke with Richard Byrne, the CEO of Deutsche Bank Securities, about potentially providing a loan to purchase and renovate Doral?

A I recall you reminding me of that discussion, but I -- I didn't recall it prior.

Q Do you recall it now?
A No. I recall you showed me, I think, a letter from my father to Mr. Byrne. I don't know. You just showed me a

Page 3687
document the last time we were together.
Q I am going to show you what has been marked and
already entered into evidence as PX 1433.
A Thank you.
(Handing)
Q Is that the letter you were referring to, ma'am?
A Yes, I believe I was copied on it.
Q Okay. If you look at the first sentence there is a
reference to Donald J. Trump's recently completed financial statement. Do you see that?

A Ido, yes.
Q And you are cced on this letter, right?
A I see that, yes.
Q Any reason to believe you did not receive this in or about November -- on or about November 15, 2011?

A No.
MR. SOLOMON: I am going to ask to mark as PX
1067 for identification.
(Handing)
THE WITNESS: Thank you.
Q This is an e-mail from you to Richard Byrne the next day, November 16, 2011; do you see that?

A Ido, yes.
Q Does that refresh your recollection that you had
conversations with Mr. Byrne about potentially financing Doral?

A I remembered it when you brought it to my attention. But I think they were very high level discussions and the conversations didn't go anywhere. So, I don't remember the details of it now.

Q Okay. But you did send this e-mail to Mr. Byrne on or about November 16, 2011, correct?

A It appears that way, yes.
MR. SOLOMON: We offer this in evidence.
MR. KISE: Objection, statute of limitations and relevance.

THE COURT: Overruled on both grounds.
Now I understand, particularly from Mr. Robert, that you feel that you have to object every time there is a document introduced --

MR. KISE: We do.
THE COURT: - on statute of limitations ground. Also on relevance?

MR. KISE: Since I am going to talk about statute of limitations, I might as well just mention relevance while we are at it.

I hope that the Court when we start our case though, I will say this, next week, offers us this extraordinary latitude in the introduction of evidence. I want to put that on the record. Because this is, respectfully, an extraordinary latitude on bringing in
things from years ago.
THE COURT: What is our favorite saying: Sauce
for the goose is sauce for the gander?
Okay.
Q Do you recall that before you were dealing with Rosemary Vrablic at Deutsche Bank that the commercial real estate group had proposed certain terms for the financing of the purchase of Doral?

A I didn't recall that proposal, no.
MR. SOLOMON: I am going to mark as PX 369 for identification.
(Handing)
THE WITNESS: Thank you.
Q This is a Deutsche Bank document from November 21, 2011. If you look at page five, there is a summary of indicative terms; do you see that?
A Okay.
Q It identifies the borrowers; do you see that?
A Ido, yes.
Q Guaranties. The guaranties will be by the company and each of its direct and indirect subsidiaries; do you see that?

A Ido.
Q There is no personal guaranty indicated there, is there?
ump - by Plaintiff - Direct(Solomon)
Page 3689
A I don't see one.
Q If you look at "facility," do you understand facility to be the loan?

A Ido, yes.
Q The amount, loan amount is 130 million correct?
A I see that.
Q And the spread is \(L\) plus 800 bps; do you understand that to be LIBOR plus 800 basis points?

A Ido.
Q Does this refresh your recollection that the commercial real estate group initially proposed terms that were substantially different from those that were eventually accepted by the Trump Organization through the private wealth management group?

A No, I don't, I don't recall having seen this.
Q I understand you don't recall having seen this. My question was a little bit different. Does this refresh your recollection that the commercial real estate group had proposed terms that were different than those ultimately agreed to by the Trump Organization through the private wealth management group?

A No.
MR. SOLOMON: I am going to ask to mark PX 315 for identification.
(Handing)

THE WITNESS: Thank you.
Q This is a cover e-mail from you to Rosemary Vrablic and Dominic Scalzi with a cc to Jared Kushner, December 6, 2011. Do you see that?

A Ido, yes.
Q And it attaches what you described as: Our investment memo, as well as basic information on our golf and hotel portfolios. Do you see that?

A Ido, yes.
Q Did you send this to Ms. Vrablic and Mr. Scalzi on or about December 6, 2011?

A I don't recall it, but I have no reason to believe I didn't.

MR. SOLOMON: We offer this in evidence, Your
Honor.
MR. KISE: Objection, statute of limitations and
relevance.
THE COURT: Overruled.
Q This e-mails refers to a meeting the next day involving you, Ms. Vrablic and Donald Trump; do you see that? A Ido, yes.
Q Did you, in fact, meet with Ms. Vrablic and Mr. Scalzi the next day?

A I don't recall this particular meeting, but over the years I did meet with both Rosemary and Dominic periodically.

Q But you have no specific recollection of meeting to discuss the investment memo or the basic information on your golf and hotel portfolios?

A Not that specific meeting, but I recall more generally us meeting to discuss, whether it was in-person or telephonically, Doral.

Q Did there come a time that Ms. Vrablic provided a summary of potential loan terms for the Doral loan?

A Can you repeat the question?
Q Sure.
A Did there come a time when --
MR. SOLOMON: Your Honor, may I have a read back?

THE COURT: Read back, please.
(Whereupon, the record was read back by the court reporter.)
A Yes.
MR. SOLOMON: I am going to ask to mark for identification PX 319.
(Handing)
THE WITNESS: Thank you.
Q PX 319 is an e-mail from Ms. Vrablic to you: Ivanka, as we discussed, please find attached our summary terms for the proposed acquisition for the Doral resort. Do you see that?

A Ido, yes.

Q Did you receive this on or about December 15, 2011?
A I recall right around that time having received high level terms. But I don't recall this particular -- this particular note and e-mail. But around that time we would have received -- we would have received what their proposal was, yes.

MR. SOLOMON: Your Honor, we offer this in evidence.

MR. KISE: Objection, statute of limitations, relevance and the attachments are hearsay. For what purpose is that page being offered; it is purely hearsay?

THE COURT: Is it more than just the first page?
MS. HABBA: The document we have is three pages, Your Honor.

THE COURT: Are you asking to introduce more than the page that is on the screen here?

MR. SOLOMON: Yes, the entire exhibit, Your Honor.

THE COURT: And what is the relevance of the second and third page?

MR. SOLOMON: The relevance are the terms that were proposed by Deutsche Bank in connection with the potential loan on Doral.

MR. KISE: The document itself is hearsay. Is he proposing notice as the exception that it comes in?
I. Trump - by Plaintiff - Direct(Solomon)

Page 3693
THE COURT: I assume notice.
MR. SOLOMON: Notice and the witness's understanding of what the potential terms were with respect to the proposal from Deutsche Bank.

MR. KISE: But not for the fact of the terms themselves. This witness hasn't done anything to identify that these, in fact, were the terms that were received.

MR. SOLOMON: With respect, the witmess said she received term sheets from Deutsche Bank, this is one of the term sheets. And she stated she has reason to believe that she did not receive this particular one.

THE COURT: Also it is questionable or problematic whether an offer is being introduced to prove the truth of its contents. But anyway, it is in at least for notice.
(Whereupon, the document referred to was marked for evidence as Plaintiffs Exhibit 319 by the Court.)

THE COURT: That's not necessarily the only reason. But if you want to push, go ahead.
Q Do you see on the page two of three there is pricing, renovation period: LIBOR plus 2.25 percent over prime. And then during the amortization period: LIBOR plus 2 percent or the prime rate minus .25 percent. Do you see that?

A I see that, yes.
I. Trump - by Plaintiff - Direct(Solomon) Page 3694

Q Do you recall that Deutsche Bank had proposed different interest rates for the renovation period and the amortization period?

A I do, yes.
Q Do you have an understanding as to why those pricings are different during the two periods?

A Well, I believe that once we had invested a tremendous amount of capital into the asset, the pricing adjusted accordingly. I don't believe that this is the financial proposal though.

\section*{Q I did not represent that it was.}

A Because these terms are not consistent with my recollection.

Q But there was a negotiation back and forth with Deutsche Bank prior to signing loan agreements, correct?

A There was, yes.
Q Okay. Do you see there was a guarantor identified here? Donald J. Trump?

A I see that, yes.
Q Do you see that the guaranty is described on this sheet as a full and unconditional guaranty of (i) principal and interest due under the facility; and (ii) operating expenses of the resort? Do you see that?

A I do, yes.
Q Did you understand that at some point during the
negotiations Deutsche Bank had wanted a guaranty from Donald J. Trump of the principal and interest and operating expenses?

A Yes.
Q If you look under covenants, and I direct your attention to the bottom (ii), at the very bottom: Guarantor shall maintain a minimum net worth of 3 billion including any value related to the guarantor's brand value. Do you see that?

A I see that, yes.
Q Okay. Do you recall in the negotiations between the Trump Organization and Deutsche Bank discussions about a minimum net worth requirement for the guarantor?

A No, I don't. You had mentioned this to me. I think you had shown me one of the term sheets, I am not sure this one, but one of the term sheets that had circulated when we last met and identified that for me. But I didn't independently recall it.

Q And this doesn't refresh your recollection that a minimum net worth requirement for the guarantor was one of the terms proposed by Deutsche Bank?

A No, it doesn't.
Q You thought this was a great proposal, didn't you?
A I don't recall this proposal.
MR. SOLOMON: I am going to ask to mark PX 1251
for identification.
(Handing)

Q Keeping in mind, PX 319 was sent to you on December 15, 2011 at 11:13 a.m., in looking at this exhibit, PX1251, the second page, which is the first e-mail, is a copy of that e-mail from Ms. Vrablic, correct?

A If you stipulate that it is.
Q I am asking you, same date and time?
A It appears to be, yes.
Q Yes. And you forward that e-mail on, including the term sheet, to Mr. Weisselberg, Mr. Greenblatt and Mr. Orowitz; do you see that?

A I see that, yes.
Q And you state: "It doesn't get better than this.
Let's discuss ASAP."
Do you see that?
A I do, yes.
Q Does that refresh your recollection that you thought that was a good proposal for the Trump Organization?

A No.
Q Do you have any reason to believe you did not write that on or about December 15, 2011?

A No.
MR. SOLOMON: Your Honor, we offer this in evidence.

MS. HABBA: I am going to state an objection on the record on this. If you actually look at the e-mail,
I. Trump - by Plaintiff - Direct(Solomon)

Page 3697
it was never sent. Jason Greenblatt there is no "to."
MR. SOLOMON: The bottom of the first page, Ivanka Trump, and then carries over to Allen Weisselberg, Jason Greenblatt and David Orowitz.

MS. HABBA: Do you see the top of the first page, at least on the exhibit I have, there is no "to."

MR. KISE: Your Honor, also in addition to my initial statute and limitations and relevance objections, I don't think the witness has testified about the top portion.

MS. HABBA: That's what I am saying.
MR. KISE: I think that's what Ms. Habba is referencing. Lower portions perhaps, but the top portion here I don't think there is any testimony about that or whether she, in fact, received that at all.

The lower portions that have her in the "to" or "from" category, I believe that's where she is testifying. Mr. Solomon, I am sure, can clear that up. But the top portion is not. That would be something --

MR. SOLOMON: Your Honor, I will note --
MR. KISE: -- I don't know what that is.
THE COURT: But he is asking about the bottom portion.

MR. SOLOMON: Your Honor, I will note this was produced to us by the Trump Organization. So it is a
I. Trump - by Plaintiff - Direct(Solomon) Page 3698

1 Trump Organization document. It is an admission against
interest. It comes in on many grounds.
MS. HABBA: With all due respect, your questions to the witness are whether it was sent and whether those were sentiments. It was not sent.

And I would just say, Your Honor, this will go a lot faster and I don't think we will have as many objections if they could cut their exhibits into the portions that they would like to show, as opposed to a string of e-mails, some of which were never even sent to anybody. That's going to be my standing objection on this. I just think that is what the issue is.

MR. SOLOMON: Notwithstanding your suggestion, we are not going to alter documents before presenting them to the Court. We are going to present them as they were produced to us.

MS. HABBA: Then you should ask --
MR. SOLOMON: Please let me finish, ma'am. I didn't interrupt you.

THE COURT: Mr. Solomon, then Ms. Habba, and then let's get back to the witness.

MR. SOLOMON: Very simply, Your Honor, we can exclude the top portion. Ms. Habba keeps saying it wasn't sent, it wasn't sent, the one I am asking about, the one from Ivanka Trump was, in fact, sent.

The one from Jason Greenblatt, right above that at 11:54 a.m. does in fact indicate "to" Ivanka Trump, David Weisselberg, David Orowitz, confirming that it was sent and received. Ms. Trump responds ten minutes later at 12:04 p.m., so they were, in fact, sent. The document itself provides evidence that it was sent, received reviewed and commented upon.

THE COURT: Can we eliminate the first?
MR. SOLOMON: We would do that, yes, Your Honor. We would agree to remove the top portion for the present time with respect to Mr. Greenblatt, reserving our rights with respect to dealing with that at a later time.

THE COURT: All right. Mr. Kise's underlying objection is overruled. And everything is in except the first section, which may or may not have been sent, I don't know.

MR. KISE: I am not sure, just to clarify, because our understanding is this is their last witness, as you said, I am not sure what later time they are planning on doing that. When their case closes?

MR. WALLACE: Your Honor, sorry to interrupt Mr. Solomon. This is their document. This has been used in testimony. This now -- we will go to the metadata, but this is their document. To stand up and say it looks funny, so I don't think it was sent is - is a new
creation from defendants. But we will go back and look at the metadata.

MS. HABBA: Nobody said that. I am being very clear and we all have to make the record clear. When you show a witness a document and say, "was this sent." It was not sent. And I think you probably didn't realize that until now, which is fine. So let's just take that portion out that was not sent. That was not -- yes, it was produced, but it is irrelevant. That's not what you asked the witness about. So just I think that streamlines, Your Honor, so we don't have do this all day.

MR. SOLOMON: I asked the witness about the portion she sent, received and commented on.

MR. KISE: I think we are all in agreement, so we will just move on.

THE COURT: The record is clear. Let's move on.
Q So let's go back and reset if we can.
A Okay.
Q Your response or your reaction to the proposal on December 15 at 11:50 a.m. that you sent to Alan Weisselberg, Jason Greenblatt and David Orowitz is: "It doesn't get better than this." Do you see that?

A I do, yes.
Q Does that refresh your recollection that you thought this was a good proposal for the Trump Organization?
I. Trump - by Plaintiff - Direct(Solomon)

Page 3701
A Well, we ended up doing the deal with Deutsche Bank, so.

THE COURT: That's a yes or no question. THE WITNESS: Oh.
A Not this particular proposal, because I think what we ended up doing was slightly different. As I stated earlier, I didn't remember this particular document. But yes, I thought generally the deal terms with Deutsche Bank for Doral were positive and we proceeded forward.

Q Okay.
THE COURT: That could have been a simple "yes."
Q You see that Mr. Greenblatt responds to you only four minutes later?

A Okay.
Q Do you see that at 11:54 a.m. he wastes no time in telling you: "I will review, but not immediately, that this is a full principal and interest and operating expense personal DJT guaranty."

Is that a typo? But "note" as opposed to but "not;" is that your understanding?

A It is what it says.
Q Okay. Then it goes on, "Is DJT willing to do that? Also, the net worth covenants and DJT indebtedness limitation -- limitations would seem to me to be a problem." Do you see that?
. Trump - by Plaintiff - Direct(Solomon)
Page 3702 I. Trump - by Plaintiff - Direct(Solomon)
Page 3704

A No.
Q Let's turn back to PX-1251.
You respond to Mr. Greenblatt: "That we have known
from day one. We wanted to get a great rate and the only way to get proceeds/term and principal where we want them is guarantee the deal." Do you see that?

A I do.
Q Do you recall writing that?
A No, I don't.
Q On or about December 15, 2011?
A No.
Q Do you have any reason to believe that is not an accurate statement of your view at that time?

A No, I don't.
Q Did there come a time that you responded to Deutsche Bank and proposed different terms?

A As I said earlier, I don't believe this was the final deal we did. I think the rate was slightly different. So, there must have been subsequent discussions.

Q Okay.
MR. SOLOMON: Iam going to hand p PX-332 which
is already in evidence.
(Handing)
THE WITNESS: Thank you.

\section*{PX-787?}

Q And that is Donald J. Trump's June 30, 2011 Statement of Financial Condition. Do you see that?

A I do, yes.
MR. SOLOMON: Can we go to page five of the
document?
Q Liabilities and net worth.
MR. SOLOMON: If you scroll down.
Q Net worth. \$4,261,590,000. Do you see that?
A I see that is what it says, yes.
Q Were you aware that in his Statement of Financial
Condition as of June 30, 2011, Donald Trump had represented
A Ido, yes.
Q When you received this, did you have an understanding as to why the net worth covenant would be a problem?

A I don't remember having received this.
Q Do you recall the net worth covenant was 3 billion?
A No, I think I said earlier that I didn't recall that there was a net worth.

Q In the term sheet that you forwarded on?
A Yes.
Q The net worth covenant was 3 billion?
A Yes. And what is here I see that it says 3 billion, or in the earlier exhibit.

MR. SOLOMON: Could we show on the screen2462

Q This is an e-mail from you to Ms. Vrablic and Mr. Scalzi with a copy to Mr. Weisselberg and Mr. Orowitz: "Greetings from Florida. Attached is a clean version of our marked up LOI." Do you see that?

A Yes, if you don't mind just giving me a moment to read it?

Q Please.
A Thank you.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
.Trum

A Okay. Thank you.
Q Do you see that the first paragraph states, "Attached is a clean version of our marked up LOI"?
A Yes, I do see that.
Q Is LOI short for letter of intent?
A It is.
Q If you look at the third page of the exhibit.
(Whereupon, the exhibit was displayed on the screen.)
Q The very bottom, "Guarantor shall maintain a minimum net worth of 2 billion, excluding any value related to the guarantor's brand value, as reflected in the Statement of Financial Condition."

Do you see that?
A Ido, yes.
Q So at this time, although Mr. Trump's prior Statement of Financial Condition represented a purported net worth of more than \(\$ 4\) million, you rejected a net worth covenant of 3 billion and proposed a covenant of only 2 billion; correct?
A Well, it says what it says here in the term sheet. I didn't, um --
Q Well, the other term sheet we saw this had they 3 billion?
A Yes.
Q Your proposal rejects that an counteroffers 2 billion;

Page 3707
A No, I don't.
Q If you turn to page four of the exhibit --
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q - do you recognize Donald J. Trump's signature? A Ido, yes. Q If you turn to page nine of the exhibit --
(Whereupon, the exhibit was displayed on the screen.)
Q - do you recognize Donald J. Trump's signature? A I believe so, yes.

MR. SOLOMON: Your Honor, we offer this in evidence.

MR. KISE: Objection. Statute of limitations, relevance, and one other thing, your Honor. This witness has been subpoenaed here on behalf of, I believe, three corporate entities, so I just want to note a standing objection, as well, that none of this has anything to do with those three corporate entities.

THE COURT: I don't think that matters.
MR. KISE: It does, because that is ostensibly, ostensibly the basis upon which this non-party non-resident witness was summoned here to testify. That's the reason that she was summoned here to testify. That's the reason we dragged her from her home here to testify.

So we are not asking her about things that are within the parameters of those entities. The argument from the Attorney General was we must have her here because only she can speak for those corporate entities, and so we haven't had any questions about those corporate entities, or even about the OPO loan which, maybe theoretically, or arguably, would have something to do with one of those three entities. None of this has to do with any of that.

So it's just a standing objection. That's all, your Honor.

THE COURT: Well it's an interesting question. To what extent the questioning has to be limited to the grounds of the subpoena. They would have to list every single thing that they might want to ask. Also, the law is entitled to every person's evidence.

Mr. Robert, what is your opinion on that interesting question?

MR. ROBERT: They clearly are limited to the corporate representative of those three entities. We had a whole debate two weeks ago as to they didn't have the ability to serve a personal subpoena, so they did it under the guise of these corporate entities.

So so far -- typically you would actually have the topic attached to it, which they didn't. So so far in the last hour, none of these questions come even close to the

Page 3709
basis of those three subpoenas.
THE COURT: Plaintiff, would you like to respond?
MR. SOLOMON: We would disagree, your Honor. The witness is -- obviously. The witness is here. She could testify about these transactions she was involved in. She is receiving e-mails. She is sending e-mails. She is commenting upon term sheets. She is negotiating the deal from top to bottom, from interest rates to amounts of a net worth covenant, which is one of the critical issues in this case, as your Honor knows and already ruled upon.

MS. HABBA: Your Honor, briefly --
MR. KISE: Your Honor, none of that has anything to do with those corporate entities.

THE COURT: And you see that point.
MS. HABBA: She is no longer a defendant in this case, so you cannot take full range just because she's here.

MR. WALLACE: I'm not aware of that.
THE COURT: You know, the subpoena - the ruling on enforcing the subpoena was minimum, not a maximum. So, anyway, overruled.

Let's continue.
MR. SOLOMON: Your Honor, we had offered this in evidence. I don't know if there was a ruling.

THE COURT: There wasn't. Granted.
(Plaintiffs Exhibit 320 was deemed marked and

1 admitted in evidence.)
2 Q If you could turn to page 15 of 26.

Organization sought to increase the loan on Doral through Deutsche Bank?
A There may have been, but I don't specifically recall that. You may have mentioned something to that effect to me when we were together last, but --

MR. SOLOMON: I'm going to ask to mark as PX-352 for identification.
(Plaintiff's Exhibit 352 was deemed marked for identification.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
(Whereupon, the exhibit was displayed on the screen.)

THE COURT: While we have a moment, I'm trying to remember back to first year civil procedure. Basically, I think that the three corporations were necessary for the power to bring her here. I don't think that limited the testimony. And that's my ruling anyway.

MR. KISE: Again, for the record, I would respectfully disagree, because all the corporate subpoenas are limited in scope to particular testimony when you bring in a corporate representative.

This isn't a question of whether or not there is sufficient minimum context jurisdiction to add someone as a party to the case. That's an entirely and extraordinarily
different analysis.
MR. SOLOMON: We are not talking about adding Ms. Trump to the case, your Honor. That's not the standard that applies in this context.
Q Ms. Trump, PX-352 had been put in front of you. You see this is an e-mail from Ms. Vrablic to you, February 11, 2016, subject "Doral. Hi, it was great speaking to you today. I spoke to the credit team on the \(\$ 50\) million request, and we are thrilled to consider it for you."

Does that refresh your recollection that you sought, on behalf of The Trump Organization, to increase the loan with Doral by \(\$ 50\) million in 2016 ?

A No.
Q Any reason to believe that this is inaccurate?
A I just don't recall this.
Q Is that a no?
A That's a no.
Q Okay.
MR. SOLOMON: Your Honor, we offer PX-352.
MR. KISE: Objection. Statute of limitations, relevance and hearsay.

THE COURT: Overruled.
(Plaintiff's Exhibit 352 was deemed marked and admitted in evidence.)
Q Did you also explore, in 2016, the possibility of an

Page 3713
unsecured loan for Donald Trump from Deutsche Bank? A I don't recall.

MR. SOLOMON: I'm going to ask to mark as PX-355 for identification.
(Whereupon, Plaintiff's Exhibit 355 was deemed marked for identification.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q For the record, this is an e-mail from Ms. Vrablic to
you from February 16, 2016. Did you receive this on or about February 16, 2016?

A Sorry. Just give me a moment to read it so I could have some context.
(Whereupon, there is a brief pause in the testimony.)
A Okay. Thank you.
MR. SOLOMON: May I ask for a read back of my question, your Honor.

THE COURT: Can we have a read back of the last question.
Q Does this refresh your recollection that you were seeking an unsecured loan on behalf of Donald Trump in or about February of \(2016 ?\)

A No.
Q Do you recall receiving this e-mail, the top one, from
the purpose or use of the proceeds of any potential loan in \(2016 ?\)

A No, I don't. I don't think this transpired, so I have no recollection of this discussion or this e-mail.

\section*{Q Okay.}

And do you recall that it did not transpire because Deutsche Bank refused to do this transaction?

\section*{A No.}

MR. SOLOMON: Mark as PX-558 for identification. (Plaintiff's Exhibit 558 was deemed marked for identification.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q This is an e-mail from Ms. Vrablic to you on April 8th, 2016. Do you see that?

A Ido.
Q She's giving you an update, correct?
A It appears that way, yes.
Q Did you receive it on or about April 8th, 2016?
A I don't recall this e-mail, but I -- if I may just have a moment to read it.

THE COURT: I'll give you a five-minute warning at 11:25.
A Okay. Thank you.
Q Do you have you any reason to believe you did not
. Vrablic, on or about February 16, 2016.
ont recall.
Q If you turn to the second page, the very top, it's an
e-mail from you to Ms. Vrablic. "Thank you, Rosemary. Just to
be clear, based on the note from Dave Williams below, an unsecured facility would not require an appraisal."

Do you see that?
A I do see that.
Q Does that refresh your recollection that you were
seeking an unsecured loan on behalf of Donald Trump in or about February of 2016?

\section*{A No.}

Q Do you have any reason to believe that you did not send and receive these e-mails on PX-355?
A No.
MR. SOLOMON: Your Honor, we offer it in evidence.
MR. KISE: Objection. Relevance.
I think we are passed the statute of limitations,
so we'll give you that one.
THE COURT: I'll take what I can get. Overruled.
(Plaintiff's Exhibit 355 was deemed marked and admitted in evidence.)
Q Do you recall, if you don't necessarily recall the discussions relating to the amount of either the secured or unsecured facility here, questions raised by Deutsche Bank as to

Page 3717
A No.
Q Do you recall entering into a lease for unit Penthouse 28 at Trump Park Avenue?
A Yes.
Q Is that also a street address of 502 Park Avenue?
A It is, yes.
Q Did that lease have an option for you to purchase Penthouse 28 for \(\$ 8.5\) million?

A It did.
Q To your knowledge, did Donald Trump's Statements of Financial Condition take into account this option in valuing this unit?

A As I had told you a year and a half ago when we spoke, I wasn't involved in his Statement of Financial Condition, so I can't say what it took into account or did take into account.

Q Did there come a time that you entered into a lease for Penthouse 20 at Trump Park Avenue?

A Yes.
MR. SOLOMON: Im going to ask to mark, as PX-623, a series of documents, including lease, second amendment, assignment and assumption, and first amendment.
(Plaintiff's Exhibit 623 was deemed marked for identification.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
I. Trump - by Plaintiff - Direct (Mr. Solomon) Page 3718
I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3719
document?
(Whereupon, the exhibit was displayed on the screen.)
A It is, yes.
Q And is that your signature on page 22 of this document?
(Whereupon, the exhibit was displayed on the screen.)
A It is, yes.
MR. SOLOMON: Your Honor, we offer this in evidence.

THE COURT: Granted. It's in.
(Plaintiff's Exhibit 623 was deemed marked and admitted in evidence.)
Q If you turn to page 14.
(Whereupon, the exhibit was displayed on the screen.)
Q Paragraph 49(d), did you understand that you had the exclusive right to purchase the unit, Penthouse 20, for \(\$ 14,264,000\) during the term of this lease?

A That's consistent with my memory of our -- of the option price, yes.

Q Do you know if any filings that were required under the
23 Martin Act or New York Condominium Law disclosed the existence 24 of this option?
25 A I don't know.

Q So, then, is it fair to say that you had no role in preparing any of Donald Trump's Statements of Financial Condition?

MS. HABBA: Your Honor, asked and answered.
THE COURT: You used different language before, so I'll allow it.

Let's, again, be clear between the generic
financial statements and the specific Statements of Financial Condition, so.

MR. SOLOMON: I'll rephrase my question, your Honor.
Q Did you have any role in preparing Donald J. Trump's Statements of Financial Condition?
A Not that I'm aware of, no.
Q To your knowledge, did you ever provide valuations for any of the assets reflected on Donald J. Trump's Statements of Financial Condition?

A Not that I can recall, no.
Q Did you ever review any of Donald J. Trump's Statements of Financial Condition before they were finalized?

A I don't recall that, no.
THE COURT: Six-minute warning.
MR. SOLOMON: I can go onto another area or --
```

    THE COURT: Break now?
    MR. SOLOMON: Whatever the Court's preference.
    THE COURT: We could take a vote, but let's take a
    break now. So 15 minutes. So be back here at 11:40.
    MR. SOLOMON: Your Honor, an admonition to the
    witness, please.
    THE COURT: I will direct the witness not to
    discuss your testimony or this case, or anything about them,
while you are still a witness.
THE WITNESS: Thank you.
THE COURT: Sure.
(Whereupon, a 15-minute break was agreed upon and
taken by all parties.)
(Continued on the next page.)

```

MR. KISE: Your Honor, can we approach for one second?

THE COURT: Yes. I go up the stairs faster after a day off. So come on up.
(Whereupon, there was an off the record discussion at the bench between the Court and counsels.)

THE COURT: Mr. Solomon, go ahead.
MR. SOLOMON: Before we bring the witness in I have one housekeeping matter to bring up on a document.

Can we please pull up 3226, which has already been admitted into evidence.

And just so the Court is aware, this is the same e-mail chain we were arguing about earlier. And if you see the top, it is from Jason Greenblatt, and it has "to Ivanka Trump, Allen Weisselberg David Orowitz," so I think that removes any objection defense counsel may have had.

MR. KISE: It removes that objection.
MS. HABBA: Not the other objections.
THE COURT: The other objections are overruled. That objection is withdrawn, since it is from or to Ivanka.

COURT OFFICER: Ready for the witness? THE COURT: Yes, ready.
(Whereupon the witness resumed the stand.)

THE COURT: Mr. Solomon, please proceed
MR. SOLOMON: Thank you, Your Honor.
Q Let's talk about the Trump Hotel Tower in Chicago.
A Okay.
Q Did there come a time that the Trump Organization sought to refinance the debt on that property?

A Yes. Prior to my leaving the company, yes.
Q Yes, prior to your leaving the Trump Organization, did there come a time that the Trump Organization sought to refinance the debt on the Chicago property?

A Yes.
Q Okay. Did you reach out to CSG Investments to gauge their interest in refinancing the debt?

A I don't recall whether I did or didn't.
Q Sure.
MR. SOLOMON: I am going to ask to hand to the witness PX-3236, which is already in evidence. (Handing) THE WITNESS: Thank you.
Q And this is an e-mail chain. The top is you forwarding to David Orowitz an e-mail you received from Jacob Cherner at CSG Investments. Do you see that?

A I do, yes.
Q If you look at the e-mail you received from Mr. Cherner, did you understand that for refinancing Chicago,

Page 3725
in or about 2012, the baseline rate would be around LIBOR plus 500 basis points?

A I don't recall the specifics of the transaction. I don't remember this e-mail.

Q Do you have any reason to believe it is not accurate?
A No.
MR. SOLOMON: I am going to ask to be handed to
the witness PX-3239, which is already in evidence.
(Handing)
THE WITNESS: Thank you.
Q This is an e-mail chain, the top one is from you to Jared Kushner@observer.com, TIHT Chicago Refi. Do you see that?

A Ido, yes.
Q And you are forwarding on an e-mail you had received from David Goodman, correct?

A It appears that way, yes.
Q And Mr. Goodman is at Deutsche Bank or was at Deutsche Bank at that time, correct?

A I don't remember David Goodman. I recall Rosemary, obviously, we spoke about her earlier. And she is, I see that she is copied on this e-mail.

Q But you don't recall David Goodman at all?
A Only, I think, in documents you have shown me. But I don't think I worked extensively with David.
\(1 \quad\) Q David -- was David in the commercial real estate group?

A I don't -- I don't recall.
Q You will see on this e-mail, excuse me.
You will see on this e-mail Mr. Goodman attaches term sheets for hotel and condo financing. Do you see that?

A It appears that way, yes.
Q And so we all understand, the Chicago property had two parts to it, correct?

A Could you be more specific?
Q Sure. It had a commercial portion, yes?
A There was a hotel, hotel condo, residences, and a retail component.

Q Retail component being commercial?
A Sure.
Q Or do you refer to that as a retail component?
A You can refer to it as either.
Q So it had two components, correct?
A Sure.
Q Okay. If you look at the first term sheet which starts on page two, term sheet which starts on page two, Trump International Hotel and Tower, and it uses the term commercial; do you see that?

A Yes, I do.
Q If you turn to the tenth page of this document, the

Page 3727
proposed interest rate.
A Which page?
Q Page ten of 27, which is schedule A for the commercial refi term sheet. Do you see that?

A I do, yes.
Q And the interest, the proposed interest rate is 345 basis points above the yield on the ten year on-the-run swap rate. But in no event less than 5.28 percent. Do you see that?

A I do, yes.
Q Now let's turn to the condo term sheet. That's the hotel and condo portion that you were referring to, right? You will see that begins on page 15 of 27 . It says "condo" across the top.

A I see that.
Q Okay. Turn to page 22.
The interest the proposed interest rate for this portion of the refi is the sum of the benchmark and the spread. Do you see that?

A Yes.
Q And the spread is 800 basis points, do you see that?
A I do, yes.
Q And the benchmark is the one month LIBOR as reflected on telerate or in certain instances an average of London Interbank Offered Rates ("LIBOR") for dollar deposits in an
. Trump - by Plaintiff - Direct(Solomon)
amount equal to \(\$ 1\) million offered in the London Interbank Euro-dollar market for a term of one month. Do you see that?

A Ido.
Q Did the Trump Organization go forward with the refinancing of the Chicago property on these terms?

A I don't believe so.
Q I am going to hand up what we have marked PX-477 for identification.
(Handing)
Q You will see this is an e-mail from Emily Schroeder to you and others at the Trump Organization with ccs to people at Deutsche Bank and Loeb and Loeb. Do you see that?

A I do, yes.
Q "Ivanka, we are pleased to present you with the agreed upon summary of terms and expense coverage letter for the refinancing of the Trump --

THE COURT: It doesn't say "refinancing" it says
"financing."
MR. SOLOMON: Excuse me, you are right, Your Honor.
Q "For the financing," excuse me, of the Trump International Hotel and Tower in Chicago. Do you see that?

A Ido.
Q Who is Emily Schroeder?
A I recall her having worked with Rosemary on her team,

1 Q And facility note \(\mathbf{A}\) is for the residential component, if you look to the right of where it says property.

A I see that, yes.
Q So note \(A\) is for the residential portion; and note \(B\) is for the commercial component if you go further over to the right. Do you see that?

A I see that, yes.
Q And so the residential component would be the condos we had talked about earlier, correct?

A I am reviewing this for the first time in years. It appears to say that. I haven't read the whole document, of course.

Q Under property, the residential component ("residential come point incident") of the property consisting of unsold (a) residential condominium units (b) deeded parking spaces (c) storage spaces and (d) associated common areas.

A That's what it says, yes.
Q And facility note B is the commercial component. Do you see that?

A \(\mathbf{M m}-\mathrm{Hm}\).
Q Okay.
THE COURT: You can't say mm-hm, you have to say
yes or no.
THE WITNESS: Yes. Yes. Sorry.
Q If you look at pricing spread for the residential

Page 3731
component it is L plus 3.35 percent. Do you see that?
A I do, yes.
Q And do you understand that to be LIBOR plus 3.35 percent?

A Yes.
Q And the pricing for note \(B\) is LIBOR plus 2.5 percent with a note underneath. "Borrower will have a fixed rate option through the execution of a five-year swap with indicative fixed rate of 3.42 percent as of September 4, 2012. Do you see that?

A I do, yes.
Q If you look under guarantor, note A has Donald J. Trump 100 percent of principal interest and operating expenses of facility note A's collateral. Do you see that?

A Ido.
Q And it also has Donald J. Trump guaranteeing under note \(B, 100\) percent of principal interest and operating expenses of facility note B's collateral. Do you see that?

A Ido.
MR. SOLOMON: I am going to ask to mark as
PX-365 for identification.
(Handing)
THE WITNESS: Thank you.
Q This is an e-mail chain between you and Rosemary
Vrablic. Subject is: Pricing update.

A Give me one moment to review this document. Thank you.
(Pause)
A Thank you.
Q This is an e-mail chain between you and Ms. Vrablic, correct?

A Yes.
Q And on the first e-mail, which if you turn to page two of three, Ms. Vrablic advises you that given the facts that you had discussed with her at that morning's meeting, she is offering revised pricing. Do you see that?

A I don't recall this e-mail, but I see what it says here.

Q Do you have any reason to believe Ms. Vrablic misstated your meeting or discussions in any way, shape or form?

A No.
Q She offers revised pricing for the hotel, the original rate was LIBOR plus 2.5. She can drop it to LIBOR plus 2.25. Do you see that?

A Ido.
Q She is able to drop the origination fee by a quarter of a point. Do you see that?

A Ido.
Q For the condos, with the assumption of a \(\$ 62\) million
I. Trump - by Plaintiff - Direct(Solomon)

Page 3733
loan, she is able to drop the origination fee by one eighth of a point. Do you see that? .75 to .625 ?

A Yes, I see that.
Q And you respond, if we go further up on page two, you respond: "You are the best, Rosemary. Thank you." And you ask for a clarification. Do you see that?

A Ido.
Q And if you turn to the first page, Ms. Vrablic tells you that your clarification is correct. And you respond to her: "Thanks Rosemary, we all appreciate it." Do you see that?

A I do.
MR. SOLOMON: Your Honor we offer PX-365 in evidence.

MR. KISE: Objection, statute of limitations and relevance.

THE COURT: Overruled. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 365 by the Court.)
Q Did you understand that in dealing with the private wealth management group at Deutsche Bank you were able to save -- withdrawn.

Did you understand that the Trump Organization, by dealing with the private equity management group at Deutsche
I. Trump - by Plaintiff - Direct(Solomon) Page 3734

Bank was able to obtain a lower interest rate and lower origination fees than if they had dealt with the commercial real estate group?

A I don't think I ever thought about it in that context. I dealt with Rosemary on a couple of deals, tangentially Chicago, but really more Doral and the Old Post Office. So it was, to the best of my recollection, those were the only financings I had done involving the company. So those were the deals that I had worked on.

MR. SOLOMON: Your Honor, could I have a read
back of my question? I thought it was a yes or no.
THE COURT: I think so to.
(Whereupon, the record was read back by the court reporter.)

THE COURT: That's a yes or no question.
A Well, I had contextualized it only to the extent that I don't think I ever thought about it in comparison to another. I had only dealt with Rosemary and her group in any substantive way.

THE COURT: Is the answer yes or no? THE WITNESS: No.
Q Let's talk about the Old Post Office in Washington DC.

Did there come a time that the Trump Organization
submitted a proposal in response to a request for proposal from

Page 3735
the General Services Administration?
A Yes.
Q Can we refer to Request for Proposal as RFP; and General Service Administration as GSA?

A Yes.
MR. SOLOMON: I am going to ask to hand to the
witness PX-1164, which is already in evidence.
(Handing)
THE WITNESS: Thank you.
Q It is a long document. Take your time if you need to look at it.

A Thank you.
Q Do you recognize --
A This brings back a lot of memories.
Q I think you said that to me a year and a half ago as well.

A Yeah.
Q Do you recognize that document?
A I believe this is our response to the request for proposal from the GSA.

Q If you look at the second page of the exhibit, is that your signature on the cover letter?

A Yes, it is.
Q If you could turn to page 144, it is Section III of the Trump Organization's proposal: Developers financial
capacity and capability. Do you see that?
Let me know when you get to the page.
A Yes, I see that.
Q Do you understand that the developers financial capacity and capability was a required section in responding to the RFP?

A Yes.
Q Do you see there is an asterisk at the end of the title for that section?

A Ido, yes.
Q And if you go to the bottom it states: "Trump's financial statements have been provided under separate cover, along with each binder." Do you see that?

A Ido.
Q Was that an accurate statement?
A That Trump's financial statements had been provided under separate cover along with each --I have no reason to believe not. I assume so.

Q You don't have any?
A I don't remember.
Q You don't have a recollection?
A No, I don't remember every word of the document, no, of course not. I assume everything is accurate.

Q Because you were very careful not to submit inaccurate information to the GSA, right?

A I always endeavor to be careful.
Q At the time of submission of this proposal, was the Trump Organization contemplating partnering with Colony Capital on this deal?

A We were, yes.
Q And at the time of submission of this proposal, had the Trump --

A I believe -- I believe it -- at some point we proceeded forward without Colony. But I believe they were still our partner at the time we submitted the original proposal. So, yes, I think so.

Q Okay.
Had the Trump Organization at the time of submission of the proposal executed a letter of intent with Colony Capital for this project? And when I say, "this project," I am referring to the Old Post Office or OPO project.

A Understood.
I can't recall if we had done that prior.
Q Okay. Please turn to page 185.
A Okay.
Q Letter of interest from equity partner. Do you see that?

A I do, yes.
Q "Trump has executed a detail LOI with Colony Capital to provide equity financing for the redevelopment of the Old
                Trump - by Plaintiff - Direct(Solomon)
                    Page 3739
    the courtroom.
            (Whereupon, the witness stepped down from the
        stand and exited the courtroom.)
            THE COURT: Let me just add, I think
        significantly, I hope significantly, to my reasonings for
        overruling the statute of limitations objections to
        pre-2014 and/or pre-2016 deals. Because these deals, I
        don't think all of them necessarily, but at least some of
        them had requirements for updated financials year after
        year after year. And although defendants seem to want to
        discount them or ignore them or something, to me they are
        very much a part of this case. So it doesn't make sense
        to talk about the follow-up documentation without
        establishing the original loan.
            Go ahead.
            MR. KISE: I would respectfully disagree
        entirely with that, Your Honor. Because the only thing
        that is at issue now, according to the government, are the
        actual certifications themselves. Those certifications
        could not have -- those are the wrongful acts. I mean
        other than the things that are within the statute of
        limitations. If there are things that are post-2014 or
        post-2016. But seven of the ten transactions, including
        this transaction, fall well outside of limitations period.
        So nothing that was done by way of a certification, to the

Trump - by Plaintiff - Direct(Solomon)
Page 3739
the courtroom.
(Whereupon, the witness stepped down from the stand and exited the courtroom.)

THE COURT: Let me just add, I think
```

Post Office building." Do you see that?
A I do. Yes.
Q Does that refresh your recollection that there was a
letter of interest, at least, between the Trump Organization
and Colony Capital at the time of submission of the proposal?
A It doesn't reflect -- refresh my recollection. I
have no reason to believe it is not accurate.
MR. KISE: Your Honor --
THE COURT: Yes, go ahead.
MR. KISE: Is there some point at which there is
a limit on where we are headed here today?
THE COURT: Yes, 4:30 today.
MR. KISE: But this is, like, Colony Capital
2011, it is just highly irrelevant. Did we really call
this witness here to waste this time; dragged her all of
the way from Florida to talk about Colony Capital from
2011, on a deal that is clearly and obviously outside of
the statute of limitations? This contract was awarded
years before the limitations period.
THE COURT: Mr. Solomon, do we need to excuse
the witness for you to explain the relevance, or no?
MR. SOLOMON: If we can, Your Honor, I would
appreciate that, that we not have this in front of the
witness.
THE COURT: May I ask the witness to step behind
Post Office building." Do you see that?
A Ido. Yes.
Q Does that refresh your recollection that there was a letter of interest, at least, between the Trump Organization

THE COURT: May I ask the witness to step behind

```
extent even one was required here in \(2015,16, ' 17, ' 18\), would have any impact whatsoever on a decision that was made years before the statute of limitations period expired. I mean, there is no possible connectivity between a decision that was made in 2011 or ' 12 and a certification later. If they want to contend that the certification in 2016 was false in some way, okay, contend that. But it is not going to alter. It is theoretically impossible -- it is beyond implausible to argue that some event that took place in 2016 would have changed the course of events in 2011 or 2012 or 2013. The individuals in 2011, 2012, 2013 and all the way up to 2014, middle of 2014, could not possibly have been impacted by a certification that was submitted in 2015, 2016 or 2017.

So while there is some contextual latitude, I just would, again, submit we got this witness here, we are asking about things that are well far afield. If there is some specific issue with respect to OPO that falls within the limitations period, then okay. But I just -- I am just noting for the record, and I didn't mean to tie up this much time, but you asked. I don't see the connectivity here.

This is true of all of these loans other than the ones that are actually within the limitations period. Because the certifications for the loans, it is the same
issue. A certification to Deutsche Bank in 2015 or ' 16 or ' 17 could not possibly, even theoretically, arguably, plausibly, have any impact on a decision that bankers made in 2011 or 2012 or 2013 or up to '14. It is just not possible.

So while I get that there has to be some context, we are spending an awful lot of time with a witness who has come an awful long way, who is a non-party, going over what appears to be context.

THE COURT: Well, I agree with your logic that a certification, we will agree to that term, in 2017, doesn't affect the - anything directly about the original loan, how it was negotiated, how it was finalized. However, just to be clear to everybody, these loans some of the loans at issue here, and I believe this one, I could be wrong, but I am speaking generically, required, as a condition of the loan for the Trump Organization or whomever, perhaps one of the individual defendants, certify certain things in the future. I believe that those certifications are at issue.

Let me ask directly. Are those certifications at issue?
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

MR. SOLOMON: Yes, your Honor.
THE COURT: Is that something that was in the complaint?

MR. SOLOMON: Yes, your Honor.
THE COURT: Do you want to say anything else?
MR. SOLOMON: I want to be guided by the Court. I learned that if the Court is about to rule in my favor, to sit down and be quiet, so. Let us know if you need to hear from us further, but there are many reasons why this is relevant, and that's why we excused the witness. The deal with Colony Capital is relevant. If you look at the document and understand the document in detail, Colony Capital goes through a description of what an appropriate interest rate would be for this type of project based upon their financing and 25 years in the business. And Colony Capital, according it this submission, is one of top equity partners in the country. And it goes on and on, your Honor, as compared to the financing that they did obtain at a lower rate by using false and fraudulent financial statements to induce Deutsche Bank to make loans that they should not have made at those rates.

THE COURT: Well, I'll give Mr. Kise the last word, but you are misquoting me a little bit. It's not if I'm about to rule in your favor, be quiet. It's if I'm arguing for you, you don't have to argue for you. \begin{tabular}{c|r}

1 or 2016, or 2017, but you can't unring the bell with a subsequent certification. You can't say, in 2017, if I submitted a piece of paper in 2017 that was false, that somehow or another that impacted a decision that was made in 2012. That's --

THE COURT: They are not arguing that.
MR. KISE: Well, that's what Mr. McCarty -- that's what you let him testify to. Respectfully, that's exactly what he is arguing, those, the interest rates carry forward. Those decisions were made before the statute of limitations.

Now, if your Honor, if you are clear with us that in fact those calculations are baseless because of that, that's fine. But I haven't heard that. They certainly not conceding that.

So here we are arguing about, and going over issues -- this isn't even the loan document. Let's remember, we are looking at GSA documents. The GSA decision was made years before the statute of limitations ran.

The GSA is thrilled with the Old Post Office renovation. There's no question here that they transformed a hulking relic into a world class facility.

THE COURT: You are starting to sound like your client.

MR. KISE: He makes a point on this, that that's what happened. So I'm not sure why we are debating -- I'm
I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3745
not sure of a lot of things here, certainly, but this one goes really steps well beyond. We are talking about the underlying contract and whether or not prevailing interest rates in 2011 or 2012 has no bearing on whether a certification in \(2016-\) - '15, '16, '17, and going forward, was false or fraudulent, or what impact or conclusion is to be drawn from that.

THE COURT: I know I keep adding other reasons why I'm making the relevancy rulings I am. It may also be relevant to disgorgement. It may. I haven't decided the case.

MR. KISE: It can't be. That's exactly our point, because --

THE COURT: Put it in your posttrial brief.
MR. KISE: The die was cast when the loans were made; that we believe was the point of the First Department and why they considered these to be continuing effects as opposed to be continuing wrongs, but that's for another day.

But certainly, even under the Attorney General's current theory of the case, you can't go backwards in time and suggest that a certification that occurred years subsequent to a decision had some impact on that prior decision.

THE COURT: Okay. So, Plaintiff, don't do that. MR. SOLOMON: Your Honor, may I make just two quick
I. Trump - by Plaintiff - Direct (Mr. Solomon) Page 3746
points? First, so the record is clear, the Attorney General takes no position with respect to Colony Capital. My description is what is contained in the response to the request for proposal about Colony.

Second, the OPO loan is within the statute of limitations as determined by the Appellate Division, so it's relevant.

MR. KISE: The loan, the loan is within 2014, was a month past the 2014 cut off. I mean, we still have a debate over the other issue --

THE COURT: I understand.
MR. KISE: -- but this isn't a loan document. This is a procurement document. That's why we are having this discussion; two completely disconnected points. The only way -- I'm just going to explain to your Honor. The only reason they want this in is because they are going to argue, that's the reason they asked President Trump on Monday about the distributions from The Old Post Office sale transaction. They are going to argue to you that somehow or another those distributions should be disgorged, because the contract itself was procured using some false financial statement; that's clearly where they are headed. I mean, I'm not telegraphing anything that they haven't already thought of, and so they can't do that. I mean, it's just no room for even making that argument in a case where this decision was

Page 3747
. Trump - by Plaintiff - Direct (Mr. Solomon)
made in 2011, '12 or '13. It's just not - it's not even possible to make that argument.

THE COURT: I disagree. Overruled.
Let's get the witness back and not spend more time.
(Whereupon, the witness stepped into the witness stand.)

THE COURT: Sorry to sort of kept you in the dark. Let's continue.

THE WITNESS: Thank you.
MR. SOLOMON: Your Honor, I guess it would be improper for me to ask for my last question and answer, so I think I'll start a new.

THE COURT: Good idea.
MR. SOLOMON: If I repeat a question, I do apologize.
(Whereupon, the exhibit was displayed on the screen.)
Q I think we were talking about the letter of interest with Colony Capital. If you look at page 185 of 204 I think that's where we were. Do you see that?

A That's this document (indicating).
THE COURT: I think it was Monday I complimented all the attorneys for getting us where we are and in a reasonable time. Today I'm going to compliment the technical people on both sides, right and left. It's just
amazing. It's like they could read his mind, read the attorney's mind when they get these documents up and highlight things.

I'll just suggest one more time, it's so easy to follow on the screen, and you have two, one right in front of you. And then you could see all the highlighting.

As far as I know, they've never misrepresented what the larger document is, so you could trust them. But if you show -- if you feel --

THE WITNESS: I compliment them as well. It's very impressive. Thank you.

THE COURT: This is not your first rodeo, I realize.

THE WITNESS: Like this, yes.
Q Does this refresh your recollection that there was a letter of interest between The Trump Organization and Colony Capital?

A I believe I had said before that at some point there was some form of letter of interest between us. I haven't recalled the timing of it though.

Q Okay.
MR. SOLOMON: If you could turn to page 193. (Whereupon, the exhibit was displayed on the screen.)
A Okay.
I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3749

Q Second sentence of this paragraph -- if you need to turn back to see where this is from, this is a description of central financing. "Through daily participation in the capital markets, Trump and Colony know that construction financing is currently available in top ten coastal MSA's (NYC, DC, San Francisco, Los Angeles) for strong sponsorship, at approximately six percent to seven percent (L plus 500 BPS to plus 600 BPS, with a one percent LIBOR floor) for approximately 55 to 65 percent LTC financing."

Do you see that?
A I see that, yes.
Q When you submitted this, what did you understand "LTC financing" to mean?
A I would be guessing, now, what I understood that to be. I don't normally use that acronym. It seems a little further down it was a reference to construction financing, loan to construction. I'm not sure.
Q You just don't know?
A I can't recall.
Q But the interest rate is approximately six percent to seven percent; correct?
A That's what it says here, yes.
Q In the document that you submitted to the GSA?
A That's what it says, yes.
Q Did you believe that was an accurate statement at the
time of submission of proposal?
A I don't recall this section of the document, so I can't say with clarity, but certainly I wouldn't submit something inaccurate.

Q Did there come a time that the GSA identified certain deficiencies in the Trump Organization's proposal?
A I recall you having shown me a document asking for clarifications, and -- I think it was just a general GSA document with questions relating to the proposal. Yes, I recall that.

MR. SOLOMON: Im going to ask to put in front of the witness PX-1288, which is already in evidence.
(Whereupon, the exhibit was displayed on the screen.)

THE COURT: Music to my ears.
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q This exhibit is a cover e-mail from Mr. Orowitz to Patricia Moore, with cc's including you. And attached beginning on page three is a letter from the GSA dated December 13th, 2011. Do you see that?

A Ido, yes.
Q And there appears to be a letter dated September 21st, 2011, beginning on page eight, addressed to Mr. Kevin Terry. He is the senior contracting officer on the OPO transaction;

Page 3751
correct?
A He was, yes.
Q And on page 14 of 19 , is that your signature on that letter?
(Whereupon, the exhibit was displayed on the screen.)
A It is, yes.
Q And then at the end, beginning on page 15 is the draft
of a proposed response circulated by Mr. Orowitz. Do you see that?
(Whereupon, the exhibit was displayed on the screen.)
A Ido, yes.
Q Let's focus, if we can, on the GSA letter from
December 13th, because that appears to be what Mr. Orowitz is proposing to respond to. Do you see that?
(Whereupon, the exhibit was displayed on the screen.)
A Yes.
Q Mr. Terry is raising certain questions on factor three about Donald J. Trump's financial statements; correct?
A Which -- which page are you on?
Q Sure. Page four of 19 , factor three?
A Thank you. Yes, I see that.
Q Financial statements appear to have multiple GAAP
departures, including but not limited to, not including
separately held entity financials, no provisions for income tax, and the PV of the deposits not reflected." Did you understand "PV" to mean present value?

MR. KISE: Objection. Foundation.
MR. SOLOMON: I'm asking the witness's understanding on a letter she received and was proposing to respond to the GSA on a deal that she had a primary responsibility.

MR. KISE: That wasn't the question, but in all events.

THE COURT: Withdrawn or overruled?
MR. KISE: It's up to you.
THE COURT: Overruled. Only you could withdraw. Only I could overrule.

MR. KISE: I thought you were asking him if he was going to withdraw the question.

THE COURT: I was asking if you wanted to withdraw the objection.

Overruled.
Q Did you have an understanding that "PV" meant present value when you received this letter?
A I can deduce that sitting here today, but I don't recall my understanding of what it was back then, or the specifics of this letter, no.

THE COURT: Please remember to speak close to the microphone.

THE WITNESS: Sorry. Thank you.
\(Q\) If you turn to page 18 ?
(Whereupon, the exhibit was displayed on the screen.)
Q Did you understand that this is Mr. Orowitz's proposed response to the issue we just looked at relating to the financial statements?

A You said that it was, but I don't -- I don't know.
Q Well, let's look at the cover e-mail. David Orowitz
states "All, I have started brain storming how we can approach the letter."
A Okay.
Q "In preparation for our call. Please try to review the letter from the GSA thoroughly." That's the letter attached dated December 13th; correct?
A Yes.
Q "In addition, read what I have attached and come prepared with viewpoints on how we can create the content that we need and how it should be incorporated into the 30 page presentation, slides, and our verbal scripts."

Do you see that?
A Ido, yes.
Q So if you go through this e-mail and the attachments,

\section*{beginning on page 15 .}
(Whereupon, the exhibit was displayed on the screen.)
Q Do you understand that to be Mr. Orowitz's proposed
responses for discussion among The Trump Organization group?
MR. KISE: Objection. Then or now? Same
foundation. Objection.
A It appears to be --
THE COURT: It looks like she could answer it.
Overruled.
A No, I.
MR. KISE: She is answering, "it appears to be", exactly the point. Then or now? She knew it then, and that's what she understood it to be then, or is she saying that's what it looks like now? If that's the case, then there's no foundation.

THE COURT: I'm not sure I agree, there's no
foundation. Are you asking her knowledge then or now? MR. SOLOMON: I'll ask both, your Honor. THE COURT: Okay.
Q At the time you received this e-mail, did you understand that Mr. Orowitz was proposing potential responses to the GSA deficiency letter?

A I don't recall having received Dave Orowitz's e-mail on this topic.
. Trump - by Plaintiff - Direct (Mr. Solomon)
Page 3755
Q Do you recall having received any -- in any e-mail from anyone on this topic?

A Well, I mean, we spent years working on the response to the request for proposals, so there were many, many e-mails, many conversations, many of them with Dave. So I just don't -I don't have a recollection, sitting here all these years later, over a decade, of this particular e-mail.

Q But this is not - I didn't ask about this particular e-mail. That's why I made it broader. This is not a response to a request for proposal. This is in response to a deficiency letter received by The Trump Organization after the proposal was submitted; correct?

A That's what it appears to be.
Q Okay.
And even with that information, you have no
recollection of working with The Trump Organization people to try and respond to the deficiencies raised by the GSA?
A I didn't say that. I generally remember that the GSA came back to us and asked for clarification on several items, and we endeavored to get them answers. So they had construction related questions. They had operations related questions. They had all sorts of questions. And I would speak to the various department heads in charge of those elements, or more often I would speak to Dave, and he would speak to those individuals, and, um, endeavor to provide them with the information they were

1 seeking on any points of clarification.
Q And do you recall that one of the deficiencies related to Donald J. Trump's financial statements that were submitted in connection with the original response to the request for proposal?

A I don't recall that independent of sitting here today or -- I believe you may have asked me about this a year ago. So, no, independently -- independent of that, no.

Q Okay. Other than what we may have discussed when we took your testimony in August of 2022. You have no recollection, as you sit here today, of any questions raised by the GSA in connection with the proposal relating to your -Donald J. Trump's Statement of Financial Condition; is that your testimony?

\section*{MR. KISE: Objection. Argumentative. \\ MS. HABBA: Objection. \\ MR. KISE: Mischaracterizes the testimony. \\ THE COURT: Overruled. Her answer is what her} answer is.
A I think I answered that already. I don't recall that specifically. I recall them coming back to us with a series of questions on all sorts of elements relating to our proposal. And I recall going to Washington, and there was a presentation, and we endeavored to respond to those questions. Whether we did so in writing prior, or in person in Washington, I don't know.
ump - by Plaintiff - Direct (Mr. Solomon)
Page 3757

\section*{Q Okay.}

In your answer you said you don't recall specifically. How about generally?

A No, just -- I recall them asking questions many months. It could've been longer than months. After we submitted our RFP about the RFP, about different components of it.

Q But you don't recall that one of components related to
Donald J. Trump's Statements of Financial Condition?
MS. HABBA: Objection. Asked and answered.
THE COURT: Overruled.
A Outside of what you've shown me, um, in a year and a half ago, and now, no.
Q Okay.
MR. SOLOMON: Could we mark as PX-1431. Im not sure if it's for identification or evidence -- it's in evidence.
(The exhibit was handed to the witness.)
A Thank you.
(Whereupon, the exhibit was displayed on the screen.)
Q This document is an e-mail from Mr. Orowitz to you, dated December 17, 2011, attaching "2011 1217 OPO presentation handout-final-small size.pdf." Do you see that?
A Yes, I do.
Q Did you receive this on or about December 17, 2011?

1 A I don't recall having received this specific e-mail, no.

Q Do you have any reason to believe you did not receive it?
A No.
Q Did you understand that -- I'm sorry, have you had a chance to review the handout?

A It's many pages, so. Would you like -- maybe why don't you ask your question and then I'll see if I need more time to review it.

Q Did you understand that this handout was intended to respond to the issues raised in Mr. Terry's December 13th deficiency letter?
A As I mentioned, I don't recall this e-mail, so I can only see what it says here. Which I'm happy to read for you, but I don't have an independent recollection of it from Dave to me.

Q As you sit here today, do you understand that this handout was intended to respond to the December 13th deficiency letter?
A I don't have an understanding either way. I don't recall it.

Q Do you recall attending a meeting in Washington, D.C. with Mr. Terry in December of 2011?
25 A I don't remember what the date was, but, um, that
. Trump - by Plaintiff - Direct (Mr. Solomon)
Page 3759
sounds about -- that sounds about right. It would have been roughly that time frame.

Q Okay.
And was there a presentation made to the GSA at this meeting by The Trump Organization?

A There was, yes.
Q And your -- and Mr. Trump, Donald J. Trump attended that meeting?

A He did.
Q And he spoke at that meeting?
A I believe he spoke at that meeting.
Q You spoke at that meeting?
A I did, yes.
Q As did other representatives of the Trump Organization?
A Correct.
Q And one of the items they discussed was Donald J. Trump's financial statements; correct?
A I don't recall them having discussed financial statements specifically. I recall that it was -- the whole meeting was mainly about our vision for the project, and presenting it. We had or architect, Arthur Cotton Moore, who was present with us, um, he presented. Andy Weiss, on construction, presented. We talked about our vision for the redevelopment of the project. And I recall spending a good amount of time talking about our experience developing, or
redeveloping, I should say, historic assets, many of them during a time that preceded my involvement at the company. And I believe that's what my father spoke about as well. Specifically, I remember him talking about redeveloping the iconic Plaza Hotel, which was quite similar to this asset, um, in its scale and in its, quite frankly, even in the time frame in which it was built.

So it was a general presentation. So I don't recall, with specificity, any discussion over financial statements.

MR. SOLOMON: Your Honor, I would move to strike any portion of that answer other than the last sentence, which related to financial statements, which was my question.

MR. KISE: Your Honor, I think the witness is just trying to move this along, as I have been trying to, because he's asking a bunch of questions about what you remember from 12 years ago.

She's testified repeatedly she doesn't have a present recollection. He's not satisfied with that --

THE COURT: Wait, she remembers the meeting.
MR. SOLOMON: Your Honor, she doesn't have a present recollection? She just spent three minutes describing the Plaza Hotel and how it's similar to this -MR. KISE: He --
MR. SOLOMON: May I finish?

THE COURT: Mr. Kise, overruled. I don't think it's good to discuss this with the witness here.

MR. KISE: Fair enough. Fair enough.
THE COURT: Why don't you --
MR. SOLOMON: Your Honor, I'm moving to strike the portion --

THE COURT: Granted, because it was not responsive.
Q The question was just simply, do you recall, at that meeting, discussing Donald J. Trump's financial statements in any way, shape or form?

MR. KISE: Are we still arguing?
A I don't recall that.
THE COURT: We are not still arguing.
MS. HABBA: She did answer that.
THE COURT: After she gave a whole speech.
MS. HABBA: It was in the beginning.
A The caveat would be the intention of the meeting was to talk about our vision for the project, so that's what I recall
I. Trump - by Plaintiff - Direct (Mr. Solomon) Page 3762 I.
having worked so hard on and having brought to light in that conversation.

Q Are you conflating the initial meeting with the GSA with the meeting that occurred in December of 2011?

A I believe there was only one meeting. I don't recall there being two separate meetings. I recall it was -- we were called once to share our vision for the property. I don't recall there being two separate meetings.

THE COURT: Can you represent, as an officer of the court, that there were two meetings.

MR. SOLOMON: I cannot, your Honor; that's why I was asking.

THE COURT: Okay.
MR. SOLOMON: Because the way the witness described, it was the vision for the entire project, yet the December 13th meeting in this handout that the witness doesn't recall, even though she received it, describes responses to the deficiency letter from the contracting officer.

MR. KISE: But, your Honor, there were lots of people at the meeting. It may not have been this witness' role to discuss the things that Mr. Solomon is interested in, and I don't know why he is getting so frustrated when the witness tells him that. Like, okay, this is what I remember about the meeting. I remember our vision, I

Page 3763
remember these things. I don't remember the --
MR. SOLOMON: My question --
THE COURT: He didn't ask that.
MR. SOLOMON: Thank you.
THE COURT: He asked whether she remembered the discussion of financials, not what happened at the meeting, because -- would you like to clarify the situation, witness?

THE WITNESS: No. Just like I said, I only recall
one in-person meeting. Everything had been done -- our requests for proposal, everything had been done via paper. I recall one in-person meeting that I remember the intention was prior to selection of bringing the project to life and sharing -- that's why -- that was the purpose of the meeting, as I remember it, not financial statements or anything granular like that, but a big picture discussion of the vision and, um, our experience from a construction perspective; that's why I mentioned The Plaza.
(Continued on the next page.) 

Q Did there come a time that the Trump Organization was awarded the contract for the Old Post Office?

A Yes.
Q At that point in time had Colony dropped out as a partner in the deal?

A I can't recall when Colony dropped out, but I believe it was prior to us being awarded the project.

Q Did you then attempt to obtain financing for the project?

A Yes.
MR. SOLOMON: I am going to mark as PX 1302 for identification.
(Handing)
THE WITNESS: Thank you.
THE COURT: We will break at ten of. MR. SOLOMON: Okay.
THE COURT: That clock is a minute or two fast by my phone, so we will call this the eight minute warning.
Q Have you had a chance to review the exhibit?
A I have, yeah. Thank you.
Q This is a series of e-mails, the top is from you to Jared Kushner, correct?

A Yes, I see that.
MR. KISE: Your Honor, before the witness
answers, and we may need to have her step out, but this is bordering on marital privilege, which I know Your Honor is aware of from the other witnesses. This is communications between a husband and a wife.

THE COURT: I think we call it spousal privilege, but same deal.

Mr. Solomon, I Trust you recognize that as well. You must have gone to law school.

MR. SOLOMON: I do, Your Honor. These are business terms. This is nothing private between a --

THE COURT: I don't think there is an exception for that.

MR. KISE: There is no business term exception to the spousal privilege. They can bring their expert, Mr. Cohen, back on that issue.

MR. SOLOMON: Your Honor, this has been produced by the Trump Organization. It was given to the Trump Organization, it was in their files, so any privilege that might have attached was waived years ago and was clearly waived when it was produced to us.

THE COURT: I am more interested in the former than the latter.

Just for the edification, Mr. Robert, is there an exception to the spousal privilege just for business information?
I. Trump - by Plaintiff - Direct(Solomon) Page 3766

MR. ROBERT: I am not aware of it.
THE COURT: I am not aware of it either. But waived, overruled. And there are third parties on the string.

MR. SOLOMON: I was going to point out that later down on the stream, not necessarily the top two e-mails, but the parties on the stream later down would waive any further privilege

MR. KISE: To the extent of Your Honor's ruling, we note an exception to it. But then this document is waived, the privilege as to this document. That doesn't waive the actual communications. He can't ask the witness about communications she had with her husband at this time contemporaneously. You can't go there. You may be able to ask, okay, the document is waived but.

MR. SOLOMON: With all due respect, that's as to the subject matter of the document.

MR. KISE: No.
MR. SOLOMON: I am not asking about other communications between Ms. Trump and Mr. Kushner. I am focusing solely on the document, the information in the document, and that's what has been waived.

MS. HABBA: No.
MR. KISE: Does Mr. Solomon have a case that supports the subject matter waiver for spousal privilege?
. Trump - by Plaintiff - Direct(Solomon)
Page 3767

I don't believe there is one.
THE COURT: Give me one second.
MR. SOLOMON: Your Honor, I have a suggestion that may address this. If we go question by question I think this may actually not necessarily impact what counsel was concerned about.

THE COURT: All right. Let's do that.
MR. SOLOMON: Because Your Honor has ruled that
its been waived based upon the document.
THE COURT: Okay. We have a couple of minutes let's make use of it.
Q Let's look at the subject on the bottom of page one from Mr. Orowitz to you and Mr. Kushner.

So we can avoid any issue there. Bottom of page one subject: Cap One feedback re OPO. Do you see that? A Ido, yes.
Q Is that the Capital One feedback concerning the potential Old Post Office loan?

A It appears that way. I don't recall Capital One's involvement in the Old Post Office.

Q Okay. If you look on page two of three at the bottom ending e-mail on June 17 of 2013. Jim Petrus to Mr. Weisselberg and Mr. Greenblatt. Do you see that? A Ido.
Q Who is Mr. Petrus?

A Jim Petrus. (Peetrus ph.)
Q Petrus?
A He was the head of the hotel collection.
Q You stated you had a call with Peter over at Capital
One and his initial thoughts right now on the loan are as below.

Does that refresh your recollection that you spoke with Capital One about potential financing for the OPO transaction?

A I have a vague recollection, but I think you may have mentioned this to me a year and a half ago. Because I --

THE COURT: Closer to the mic, please.
A I don't recall having spoken to Capital One about it.
Q Do you have any reason to believe the information you put in your e-mail is inaccurate in any way?

A No.
Q Okay. Principal amount is identified as 110 million. Do you see that?
A Ido, yes.
Q Term three plus one plus one, what did you mean or what do you understand that to mean?
A I would be speculating sitting here today as I don't recall this, but probably years, three years plus an additional two.

Q Right. Three year term for the loan plus two

Page 3769
potential one year extensions?
A It seems that way, yes.
Q Rate probably L plus 3.75-4 percent. Is that LIBOR plus 3.75 to 4 percent?

A I see that, yes.
Q Is that what you meant there?
A Same as before, I -- I don't recall this e-mail so I would be guessing as to what I meant --

Q You cite her --
A -- over a decade ago. But that sounds reasonable.
Q Okay. If you go further up, while the next e-mail is from Mr. Kushner to you, it is on a chain that you forward on to Mr. Orowitz. Do you see that?

A Ido, yes.
Q Okay. So let's talk about that. Mr. Kushner says: "You can get better pricing for such low LTV." Did you understand LTV to be loan to value?

A Yes. That makes sense.
Q "Natixis will give you 140 million at that rate most likely. Should I show it to them?"

Do you see that?
A I do see that, yes.
Q Why were you showing a Trump Organization potential transaction to Mr. Kushner?

MR. KISE: Objection. This is getting into the
I.Trump - by Plaintiff - Direct(Solomon) Page 3770 I.
I.Trump - by Plaintiff - Direct(Solomon) Page 3771

Page 3771

Cassandra, blah blah blah, versus Petal. 565 F.Supp 557.
And the basic point is, if you use a work e-mail that is subject to being seen by other people, you waive the confidentiality. The e-mail here was from a work e-mail to a work e-mail. I'll call B to B, business to business.

So I'll let the defendants make a statement or argue this if they want.

And then also the question: Why did you send this -- or ask Jared, her husband, about this, to me that doesn't disclose a confidential communication between spouses. It is a question that is basically a business question. What was the business purpose.

Why don't I hear from Mr. Solomon for 30 seconds and the defendants, if they want, for two or three minutes.

MR. SOLOMON: Your Honor, I would also note, picking up your point beyond the business e-mail, when there is a business communication, another First Department case Security Settlement Corporation v. John Paul 128 AD2d 429, 1987. The application was also properly denied on the merits, in as much as no marital privilege would attach to the ordinary business records sought here. And testimony as to "ordinary business matters" of a spouse, citing People v. Melski 10 NY2d 78, 80. And then there is a jump site.

THE COURT: I totally adopt that also.
That's completely relevant here.
MR. SOLOMON: Right. Which goes to the point I raise, Your Honor, about it being a purely business communication, which is an exception to the privilege.

THE COURT: Did you know about that case beforehand or you found it during lunch?

MR. SOLOMON: I will indicate that our strong bench was responsible for that.

THE COURT: Okay. Let's hear from the other strong bench.

MR. KISE: So, Your Honor, without reading your cases, I would -- I'll just say for the record, because I already know where we are going to wind up, the Melski case that they cite is contextually different. I am not going to debate it. There is no point. The document itself -- that speaks to the document itself. As well, everything that you and counsel have put on the record speaks to the document itself, not to the communications they may have had. I would disagree that the
conversations they had would now be opened up under some sort of subject matter waiver.

Finally, I think one thing to keep in mind is that the privilege really belongs to the spouse, who isn't here. So Mr. Kushner is not here. It doesn't necessarily
belong to the witness. The privilege belongs not to the witness, but to the spouse against whom the testimony is offered. And so that is the -- I have to find the cites because my handwriting is not what it used to be, my ability to --

THE COURT: Well --
MR. KISE: The Prink case 48 NY2d 309. And the Fediuk, I think that's how you pronounce it, 66 NY2d 881.

But to the extent the Court is ruling that the document comes in, which we will take exception to, for the reasons stated, certainly any communications other than the document, if the document comes in they can ask, did you send this, did you not send this, is this what it says here, is this what it says here. But going behind that would invade the privilege, particularly as it relates to Mr. Kushner, who isn't here to invoke the privilege. So she cannot be compelled, the witness cannot be compelled to answer questions about her communications with her spouse, when her spouse, who also retains the privilege, isn't even in the courtroom.

THE COURT: Well, we will address the particular questions as they arise. But the question why did you send this or communicate, that's clearly not privileged. So let's get the witness.
MR. SOLOMON: Thank you, Your Honor.
I.Trump - by Plaintiff - Direct(Solomon) Page 3774

COURT OFFICER: Witness entering.
(Whereupon the witness resumed the stand.)
THE COURT: Mr. Solomon, let's continue. MR. SOLOMON: Thank you.
Q Before the lunch break we were looking at PX-1302.
The court officer has put it in front of you.
(Handing.)
THE WITNESS: Thank you.
Q And we were on page two of three. We had talked about your e-mail to Mr. Petrus -- did I get that right this time?

A Yes.
Q Okay. And Mr. Orowitz?
A That's correct.
Q And then you had forwarded onto Mr. Kushner right above that. Do you see that?

A Yes, I see that.
Q And the question I had for you is, why did you send this to Mr. Kushner?

\section*{THE COURT: Please answer.}

THE WITNESS: Thank you.
A My husband also was in real estate and would have perspective for me. And so periodically we would discuss what we were working on specific to real estate and more generally speaking.

\section*{Q Speaking?}

A Well, you asked me why I would forward something to him, and that's why I would forward something to him. I recall telling him, I don't remember this exact exchange, but it was not uncommon that I would ask my husband's perspective on something that I was working on.

Q And after forwarding it on to him, you then asked Mr.-- well, you asked Dave, I assume that's Mr. Orowitz on the e-mail above; do you see that?

A Ido.
Q To send Jared, that's Mr. Kushner, correct?
A Yes.
Q The latest OM, as well as the THC presentation. Is OM offering memorandum?

A That would be my best guess, yes.
Q And THC is the Trump Hotel Chicago?
A No, probably the Trump Hotel Collection. I believe that's the anacronym we used.(sic.)

Q Mr. Orowitz then responds to you and Mr. Kushner, with cc to Mr. Flores on the bottom, page one of three: "Hope all is well, see attached for both presentations." So he followed your instructions, right?

A It appears that way, yes.
Q "I wanted to get to you right away, but - before we sent out again -- we are going to remove management fees from
the income statement." Do you see that?
A Ido.
THE COURT: Please speak closer and maybe a little louder too.

THE WITNESS: My apologies, sorry.
A Ido, yes.
Q Did you have a view at that time as to whether it was appropriate to remove management fees from the income statement?

A I don't know. I think that was Dave that was saying that.

Q I understand it was Mr. Orowitz that was saying that. And I am asking, did you have a view at that time as to whether it was appropriate to remove management fees from the income statement?

A Not as I sit here today remembering -- having a perspective on that, no.

Q As you sit here today, do you believe it was appropriate to remove management fees from the income statement?

A I don't know that I have thought about it. I guess it depends, were we managing the hotel? I would need more context to understand if it is appropriate or not appropriate.

Q As you sit here today you don't have a view if it was appropriate or not; is that correct?

Trump - by Plaintiff - Direct(Solomon)
Page 3777
A That's correct, yes.
Q Before we go on to the next document in this series, I want to go back for a moment. We were talking about your recollection or lack of recollection with respect to the response submitted to the GSA for the December 13 efficiency letter; do you recall that?

A Ido.
Q And do you recall -- withdrawn.
I am going to ask the court officer to put in front of you PX-1429, which is already in evidence.
(Handing)
THE WITNESS: Thank you.
Q Now, this document is an e-mail from Mr. Orowitz to Mr. Weisselberg, December 16, 2011. Beginning: "Allen, Ivanka wanted me to change the language in the GAAP section. She asked that I review with you."

Does this document refresh your recollection that you had conversations about the GAAP section in the Trump Organization's response to the December 13 deficiency letter?

A No, it doesn't. I don't believe I am on this e-mail. Unless I am.

Q I didn't say you were on the e-mail. I am asking if this letter refreshes your recollection, however --

A No.
Q Please let me finish my question.
-- as to whether you had any role in responding to the GAAP deficiencies noted in the December 13 letter from the GSA?

A No.
Q Do you have any reason to believe Mr. Orowitz was inaccurate in any way when he said you wanted him to change the language in the GAAP section?

A Well, it is a long section. So I don't know which language it is referring to. There is language --

Q Do you have any reason to believe Mr. Orowitz was inaccurate that you wanted any changes in the GAAP section?

A I don't know. You would have to ask Mr. Orowitz.
Q As you sit here today do you have any reason to believe he was inaccurate?

A No.
Q He goes on to state that she -- and I assume that refers to you -- ask that I review it with you, meaning Mr. Weisselberg.

Do you have any reason to believe Mr. Orowitz was inaccurate when he reported that you wanted Mr. Orowitz to review it with Mr. Weisselberg?

A No.
Q Okay.
MR. SOLOMON: If we could mark PX-327. It is
already in evidence.
(Handing)
THE WITNESS: Thank you.
\(Q \quad\) This is an e-mail from Mr. Sullivan to you and
Mr. Orowitz attaching a draft term sheet. Do you see that?
A I do, yes.
Q And the reference is the Old Post Office, correct?
A I see that, yes.
Q Do you recall receiving this document?
A Nope.
Q Do you have any reason to believe you did not receive this document?
A No, I don't.
MR. SOLOMON: We offer it in evidence, Your
Honor - I am sorry, it is already in.
Withdrawn, Your Honor, it is already in.
Q If you look at the third page of this document, start with Facility Type.

A I see that, yes.
Q \(\$ 160\) million. Facility Type is the loan amount in this context?

A Yes.
Q Among other things?
A Yes.
Q And if you turn to page four. Interest costs, top of the page. Do you see that? brokerage statement to verify liquidity, real estate portfolio summary, schedule of contingent liabilities, cash flow statement and limited review of most recent tax returns. Do you see that?

A I do.
Q Were you aware that that was a condition precedent to Deutsche Bank making the loan on the Old Post Office?

MR. KISE: Objection. Calls for legal conclusion.

THE COURT: Overruled. That's not a legal conclusion. That's common sense.

MR. KISE: Condition precedent? That's definitely a legal conclusion.

THE COURT: If the bank says you have to do \(X\), \(Y, Z\) to get this loan, to ask the witness does she understand that guarantor had to do X or Y or Z , that doesn't take a legal conclusion. I understand condition precedent would tend to be a legal word.

Is there some way you can change that? Necessary condition? Pre condition?

MR. SOLOMON: Is Your Honor sustaining the objection?

THE COURT: Well I am trying to -- yes.
Q Did you understand that based upon this term sheet,
I.Trump - by Plaintiff - Direct(Solomon) Page 3782
that this term sheet recited a condition precedent to making the loan was or were all of the items in bullet point that I just read, the fourth one from the bottom?

THE COURT: All right. Just rephrase it without using the term "condition precedent."

MR. SOLOMON: That's the language -- Your Honor that's the language used in the document. That's what I am asking.

THE COURT: But that's not a layperson's, a non-lawyer's understanding.
Q Did you understand that before making this loan, Deutsche Bank required the guarantor to provide the information contained in the fourth bullet point from the bottom with respect to financial information as previously delivered and all of the other items identified therein?

THE COURT: Thank you.
A Not with that specificity, no. I generally understood that there was a personal guarantee that was a condition of the loan. And then there was a series of other requirements that were fulfilled by the team in accordance with the terms of the loan. But this level of granularity was not -- was not something I could sit here today and say that I recall.

Q At some point in time did your company, Ivanka OPO LLC, become a member of Trump Old Post Office LLC?

Page 3783
A I don't recall what the entity names are, but that sounds reasonable that it would be one of my entities relating to the Old Post Office.

MR. SOLOMON: Could we have PX-1333.
I am going to ask to hand up what I have marked
for identification as PX-1333.
(Handing)
THE WITNESS: Thank you.
Q While you are looking at it, I will identify that it is a document Trump Old Post Office Member Corp., Exhibit D. Second Amended and Restated Limited Liability Company Agreement.

And the second page is the Second Amended and
Restated Limited Liability Company Agreement of Trump Old Post Office LLC (a Delaware Limited Liability Company)?

A \(\mathbf{M m}-\mathrm{Hm}\).
Q Do you see that?
A Yes, I do.
Q And if you look on page 37 of 42 , is that your signature under Ivanka OPO LLC?

A For page?
Q Thirty-seven of 42.
A That is my signature, yes.
Q Okay. Do you recognize your father's signature on behalf of DJT Holdings LLC?

A I do, yes.
Q Do you recognize Donald J. Trump Jr.'s signature on behalf of Don OPO LLC?

A I believe so, yes.
Q Do you recognize Eric Trump's signature on behalf of Eric OPO LLC?

A I believe so, yes.
MR. SOLOMON: Your Honor, we offer this in evidence.

MR. KISE: Objection, statute of limitations and relevance.

THE COURT: Overruled. It is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1333 by the Court.)
Q If you look on the page three of 42, please.
A Okay.
Q And the fifth whereas clause. Does that refresh your recollection along with the signature blocks as to the entity known as Ivanka OPO LLC?

A As I said to you, it sounded like a reasonable entity name for the Old Post Office and my interest in it.

Q Was it your understanding by entering into this agreement that you, through Ivanka OPO LLC, obtained an interest in the entity known as Trump Old Post Office LLC?

Trump - by Plaintiff - Direct(Solomon)
Page 3785
A Yes, I don't know how the interest was structured, I think it was a profit participation, and that interest was disclosed to the GSA. But I don't -- I don't recall exactly how it was structured.

Q You have no reason to doubt that you had an interest in --

A No.
Q -- the entity known as Trump Old Post Office LLC, do you?

A No, I don't.
Q Did there come a time -- withdrawn.
Do you have a revocable trust?
MR. SOLOMON: Is that the pronunciation we all agreed upon?

THE COURT: I think we like that one better, yes, revoc-able versus re-vocable, (ph.) are we doing revoc-able?

Let's ask the witness.
How would you pronounce it?
THE WITNESS: I am going to go with revoc-able, but re-vocable sounds great. I think it is re-vocable.

THE COURT: I think you just changed your mind there.
Q Do you have one of those trusts?
A I don't know if it is active, but I believe -- I

I. Trump - by Plaintiff - Direct (Mr. Solomon)

Page 3791
THE COURT: Overruled.
A I believe you said "since January 2017."
Q Between January 17 and present.
A Yes, I believe we discussed it this morning. I
received a payment upon the sale of the asset.
Q Did you receive any other payments on behalf of -- or
in respect of your interest in the OPO Hotel?
A I don't believe so.
Q Okay.
Do you recall the approximate amount of the payment you received upon the sale?
A Not the exact amount, no.
THE COURT: He didn't ask for an exact amount, or
he didn't mean exact amount.
MR. SOLOMON: I have a document, your Honor. I
think we could move forward more quickly this way.
I'm going to ask to hand to the witness PX-1373, which is already in evidence.
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
(Whereupon, the exhibit was displayed on the screen.)
Q I understand you are not on this e-mail chain, but I
would direct your attention to the bottom e-mail from Patrick
Birney, with Donna Kidder, with the cc to Mark Hawthorn and

\section*{Michael Levchuck?}

A I see that yes.
Q You see distributions based upon a sale proceeds from OPO; correct?

A I see that, yes.
THE COURT: Please, a little louder and/or a little closer, or a lot louder and a lot closer.
A I see that yes.
Q I believe this has previously been identified as the distribution from the proceeds from the OPO sale. Do you have any reason to doubt that?
A I'm not, as you noted, copied on this chain, but I've
-- it - so I don't know one way or another if this is the waterfall.
Q Did you receive approximately \(\$ 4\) million from the proceeds of the OPO sale?
A That's consistent with my recollection, yes.
MR. SOLOMON: We have nothing further at this time, your Honor.

THE COURT: Okay.
Will there be any cross examination of the witness at this point?
(Whereupon, there is a brief pause in the testimony.)

MS. HABBA: Yes.

THE COURT: I was going to say, I gather that is a yes.

MR. SUAREZ: Yes.

\section*{CROSS EXAMINATION}

\section*{BY MR. SUAREZ:}

Q Good afternoon, Ms. Trump.
A Hello.
Q My name is Jesus Suarez. I represent certain of the defendants in this case.

Ms. Trump, what role did you have, if any, in creating Statements of Financial Condition for your father?

A None, that I'm aware of.
Q Were you responsible for preparing Statements of Financial Condition for your father?
A No, I don't believe so.
Q Were you responsible for reviewing Statements of Financial Condition for your father?
A No.
Q Were you responsible for approving Statements of Financial Condition for your father?
A No.
THE COURT: Well, she said she had no role, so you really didn't have to ask those questions, but let's just move on.

MR. KISE: So we are getting -- your Honor, I'm

Page 3793
1 just going to note that we haven't even been at it one
2 minute and we are already getting a "hurry up" after they
3 spent hours going over clearly irrelevant documents. I'm
4 just going to note that on the record. Your Honor, that is
grossly unfair, respectfully.
THE COURT: Okay. I disagree.
Q Were you responsible, personally, for submitting the
Statements of Financial Condition to anyone?
A No.
Q Were you responsible for assigning asset values that
were assigned to specific assets in the Statements of Financial Condition?

A I don't believe so.
Q Were you responsible for developing the methodologies used to value specific assets in the Statements of Financial Condition?
A Could you repeat that last one.
Q Were you responsible for developing the methodologies used to value specific assets in your father's Statements of Financial Condition?

A No.
Q Are you familiar with the Private Wealth Management Group at Deutsche Bank?
A Yes.
Q Earlier in your testimony you described Rosemary
and there, I really -- that was my experience, was dealing with
Rosemary and her team predominantly.

Q Would it be fair to say you developed a professional working relationship with Ms. Vrablic?

\section*{A Yes.}

Q She was the banker assigned to Deutsche Bank to manage the relationship with your family and its businesses; correct?
A She was one of the bankers. She had a team alongside of her. She was my primary point of contact though.
Q And her job, together with her team, was to help develop the relationship between Deutsche Bank and your family; correct?
A That is correct, yes.
Q In fact, it was her job to help the bank make money by
developing its relationship with your family; correct?
. Trump - by Plaintiff - Cross (Mr. Suarez)
Page 3795

\section*{A Presumably.}

MR. SOLOMON: Your Honor, how would this witness know what her responsibility -- Ms. Vrablic's responsibilities were internally at the bank?

THE COURT: I see the point but, I'll allow the question. And she answered it.
Q Did Ms. Vrablic do a good job?
A Yes. We were very pleased with the relationship from when it was initiated to at least what I could speak to, which is up until the time I left the company.

Q She introduced different products that the Private Wealth Management Division offered to your family and its business; correct?
A Periodically.
Q She explained products that were available to members of the Private Wealth Management Division?

A Correct, yes.
Q And those products included loans; correct?
A Correct.
Q And Ms. Vrablic would have explained to you and to your family's business the benefits of banking through the Private Wealth Group; correct?

A Yes, she was -- expressed tremendous excitement to have our account.

Q And Ms. Vrablic would have served as a conduit between

Deutsche Bank and your family's business for purposes of explaining what those opportunities were?
A She may have. My relationship with Rosemary was pretty high level, as I testified earlier. We would have preliminary discussions typically focused on an asset where I would describe, um, the property, the opportunity, what we envisioned for its development potential. And then she would have a team behind her who would dig into the details.

Q And from time to time, Deutsche Bank would present you with other investment opportunities?

\section*{A Periodically.}

MR. SUAREZ: Could we pull up Defendant's Exhibit 307, please.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And zoom in.
(Whereupon, the exhibit displayed on the screen was enlarged.)
Q Ms. Trump, if you could please take a second to review this document.
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q Do you recall receiving this document?
A I don't recall receiving this document, no.
Q Refreshing your recollection with the document, does

Trump - by Plaintiff - Cross (Mr. Suarez)
Page 3797
this document remind you of any instances in which the bank would have presented other investment opportunities to you?

A Only in that it seems consistent with them periodically sending us opportunities for investment, but I don't remember this specific example, no.
\(Q\) And would this have been consistent with the bank's practice of developing its relationship with you and your family's business?

A Yes, if they were looking to grow the relationship and expand it.

MR. SUAREZ: Your Honor, we move to admit Defendant's Exhibit 307.

\section*{THE COURT: Granted. It's in.}
(Defendant's Exhibit 307 was deemed marked and admitted in evidence.)
Q Deutsche Bank was excited about the relationship it had with your family; correct?

A Yes, they were.
Q And, in fact, Deutsche Bank sought to showcase the relationship that it was developing with your family's business; correct?
A That's a characterization of it that I don't know. All I know is what was expressed to me, which was a level of excitement for the relationship and positive feelings about how it was going throughout the arc of the time that I was there.
(Whereupon, the exhibit displayed on the screen was taken down.)
Q Was it the case of Deutsche Bank wanted to showcase your family's relationship with the bank in a promotional video?

A That's quite possible. I don't remember that, but it's quite possible.

MR. SUAREZ: If we could please pull up Defendant's 295, pre-marked for identification.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q Ms. Trump, if I could please ask you to review this exhibit.

A I see it. Yes, thank you.
Q Is this your e-mail address at the top of this exhibit?
A It was, yes.
Q And would this e-mail refresh your recollection as to a time Deutsche Bank asked you to participate in a promotional video for the bank?
A Vague recollection, but not -- not -- I don't -- I don't recall if I did the video or not.

MR. SUAREZ: Your Honor, we would move to admit this exhibit into evidence.

THE COURT: Granted. It's in.
. Trump - by Plaintiff - Cross (Mr. Suarez)
Page 3799
(Defendant's Exhibit 295 was deemed marked and admitted in evidence.)
Q Do you recall any discussion with the bank or Ms. Vrablic concerning the different subject areas that they wanted you to speak about in the video?

A I think more generally, like I -- it's a long time ago now, but like I said, I was constantly told by Rosemary and members of her team how much they appreciated the relationship and were seeking to grow it.

I'm seeing on this chain a reference to the cochairman Jain, which makes me recall a request from, I believe, Rosemary, or her partner, Dominic, to meet with them as one of their top clients, as he was coming to America and wanted to meet with individuals that bank with them in New York. So that -- that refreshes my memory on that front, but I don't remember the specific video, no.

Q That's the cochairman of the bank, Anshu Jain?
A Yes.
Q Do you see it says "What was the key differentiator that DB brought to the table versus other competitors?" Do you see that?
A I do, yes.
Q Did you ever provide any feedback to Deutsche Bank as to why you had chosen -- excuse me, why your family's business had chosen to do business with them?

Page 3800
A I think I testified earlier that, you know, at one point in time my father was considering building the two projects we spoke most extensively about today, Doral and the Old Post Office, in cash, but we had met with Rosemary. We liked the team. We had heard great things about them. We were excited to work with them. We liked their proposal. And so I think if I were asked that question, I would probably say the relationship was a huge point of differentiation.
Q Were you present at a meeting between Anshu Jain and your father?
A I was, yes.
Q Do you recall when that meeting took place?
A I do not.
MR. SUAREZ: Can we please pull up Defendant's Exhibit 223.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q If you could please take a second to review this letter.
(Whereupon, there is a brief pause in the testimony.)
Q Do you see the date of this letter March 14, 2023?
A I see that.
I. Trump - by Plaintiff - Cross (Mr. Suarez)

Page 3801

1 A Yes, it was -- I recall it being a very, very friendly meeting and him encouraging us to do more business with Deutsche Bank. I think it was a little bit of a sales call, stopping by, talking about the different deals we had pending, um, that I'm assuming Rosemary had briefed him on, and suggesting that we do additional business with the bank.

Q And how did your father respond to the meeting between Mr. Jain and himself?
A It was very positive. There was a very nice -- it was a very nice meeting.

Q Who was present at this meeting?
A I recall my father, of course, being there, um, and myself. Allen Weisselberg may have been present as well.

Q And after this meeting --
A And Rosemary.
Q Ms. Vrablic?
A Potentially Dominic as well, but I don't think so.
Q Who is Dominic?
A Rosemary's partner.
Q Is that Dominic Scalzi?
A Yes.
Q And after this meeting, your family's business continued to do business with Deutsche Bank; is that correct?

A Yes.
Q And that included making deposits at Deutsche Bank?

Page 3803
. Trump - by Plaintiff - Cross (Mr. Suarez)

A I believe so.
Q And that included the family business engaging in loan transactions with Deutsche Bank; correct?
A Yes.
Q And that included those loans resulting in interest being paid to Deutsche Bank; is that correct?
A Yes.
Q Was there competition within Deutsche Bank for your family's business?
A I don't know how I would characterize that. I think we discussed before my experience was with the private bank. I viewed it as a team. I'm assuming, at a big multinational bank there would be many such teams, but Rosemary was the one that I was familiar with and established a relationship with.
Q Did your family's business have an existing relationship with Deutsche Bank before you were introduced to Ms. Vrablic?
A Yes.
Q And was it the case that within Deutsche Bank, the relationship shifted over to the Private Wealth Management Group?
A I don't know if it shifted, but that's where my
relationship was, and the loans that I worked on were with Rosemary and her team.

Q And was that because Ms. Vrablic, Rosemary, courted

\section*{your family's business?}

A Yes, in part.
Q Were other business sectors inside of the bank also courting your family's business?
A I can't speak to -- I can't speak to that, but only to the outreach from, from Rosemary and the -- and I guess her boss, the cochairman, and their interest in doing relation -doing business with us.
Q What was your individual role in acquiring withdrawn.

What was your individual role in your family's decision to acquire the Doral property?
(Whereupon, the exhibit displayed on the screen was taken down.)
A Initially, it was being marketed by a brokerage company, um, as part of the bankruptcy reorganization we had discussed a little bit earlier, and we had looked at the project, um, had ended up, I believe, not initially submitting a bid.

There were several people that I recall that were involved at that point in the bidding process, but I remember, then, Michael Asher, who is helping spearhead the process on behalf of -- on behalf of the sellers, reaching out and re-engaging us in the bid process.

Um, and I remember the very inconvenient timing of his

\section*{ump - by Plaintiff - Cross (Mr. Suarez)}

Page 3805
phone call, because I think I may have been in the hospital, or about to go to the hospital with my first child. And he called and he said -- I may have actually been in the hospital -- that if we were interested, um, we had the opportunity to be the stalking horse bidder for the project. And it was pursued from that point forward, and multi-year multi-million dollar renovation, soup to nuts, of the property was embarked on, and a redevelopment.

Q Why was Deutsche Bank selected as the lender in that project?

A Well, I spoke before about the relationship, and they had a stellar one, and one that was directly told to me was excellent. And it was a whole multitude of factors, obviously. They gave us a firm sheet with terms that we were interested in pursuing.

So there was a whole series of reasons why we chose to do a deal with them. I don't think it's one thing sitting here today.

Q Was the development of the relationship by Ms. Vrablic a factor in that decision?
A Oh, of course, yeah.
Q And, of course, there were other options to finance that acquisition; correct?
A There were. I think we spoke about a few of them today. I'm sure there were more that I can't recall, um, over

\section*{12 years out.}

Q It certainly would have been possible for your family's business to self-finance the acquisition; correct?

\section*{A We discussed it.}

Q And it would have been possible to talk to any number of different lenders who could have provided financing for the acquisition; correct?

\section*{A Yes.}

Q It would have been possible to sell and asset and use the proceeds to finance the acquisition; correct?

\section*{A Yes.}

Q How was the Doral property identified as an asset that your family's business was interested in investing in?
A Through the public process I mentioned earlier, but my father had a deep and nostalgic love for that particular property. He used to tell us stories about having gone there as a child with his own father, um, when it was owned by the Kaskel family.

So he told me he took my mother there. They had, at one time, the greatest spa in the world, um, and they had gone there as a couple. I believe I may have even gone there as a child with him as well. So between him being there with his father, on a golf trip with my mother, and I believe me as a small child, he had a lot of, um, sentimental affection for the property, and also a strong feeling that it was not being --

Page 3807
that it was not living up to its potential, physically, in terms of what the asset had become under the then current ownership, or operationally, based on the operating performance of the management team in place.
(Continued on the next page.)

Q And what was your vision for redeveloping that property?

A Ooh, it was a huge project and Herculian because of the size and scale and enormity and the sheer number of acres, number of rooms. Most of my attention was focused on the actual redevelopment of this asset and OPO. You know, once I had worked with the team and there was high level agreement around the terms of the financing, my attention really went on to the redevelopment of the actual asset, and repositioning it for success, and overseeing the construction and the design of that. So we renovated all 700 plus rooms, ballrooms, meeting spaces, common areas.

I was less involved in the golf component. My father has a particular affinity for golf and a particular vision for that. So typically he would focus on the golf and I would focus on the resort itself.

But it was a -- it was a big project. It was a lot of work, a lot of time, and a lot of energy applied towards an end result that I feel very proud of. And still now that I live in Florida, have the good pleasure of visiting periodically.

THE COURT: Five minute warning.
Q Was that vision for the property conveyed to Deutsche Bank?

A Of course, yes. They were quite excited by it. They

Trump - by Plaintiff - Cross (Suarez)
Page 3809
sent teams of people down to tour the property, to visit the property, and to, you know, experience it in advance of our purchase.

Q What impressions did Deutsche Bank have after the project had been successfully repositioned?

A They were very happy.
MR. SUAREZ: Please pull up Defendant's Exhibit
324.
(Handing)
THE WITNESS: Thank you.
Q Ms. Trump, do you recognize this e-mail?
A I don't remember the e-mail. But I do remember, as I think I just stated, that they were really impressed by what we had done over the course of several years in terms of upgrading and refurbishing the property. As I mentioned, Rosemary and her team had been at the property as we were acquiring it, so prior to the renovations. So they saw firsthand the extraordinary change in what the asset had become.

Q Would you agree with me that this is an e-mail that Rosemary Vrablic sent to you on March 8, 2013?

A It appears that way, yes.
Q And do you see where it says: "Ivanka, I am so glad we got to see you and have you show us the new rooms"?

A Yes.
Q Is that a reference to the renovated rooms at the

\section*{Trump Doral?}

A I assume so, yes.
Q It says: "They look amazing. I have had a wonderful time here and it is really impressive to see what you have accomplished so quickly." Do you see that?

A Ido.
Q And that, again, would have been a reference to the Trump Doral, correct?

A I assume so.
Q Which was the collateral for the loan that Deutsche
Bank made to the -- to your family's business, correct?
A Correct.
MR. SUAREZ: Your Honor, we move to admit this exhibit into evidence.

THE COURT: Granted. It is in evidence. (Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 324 by the Court.)

THE COURT: Another two minutes, if you want.
Q And in fact, were they so pleased with the manner that the asset had been repositioned that they agreed to an amendment of the loan terms to let the guaranty on it burn off?

A There was a step down of the guaranty, if I recall, once the property was operational. And they could see that we invested -- what we had invested and obviously verified that

Page 3811
into the collateral to enhance it and to make it what it now -what it now is.

MR. SUAREZ: We are at a good breaking point.
THE COURT: Okay. A ten-minute break over the next 15 minutes. See you all soon.
(Pause in the proceeding.)
THE COURT: Let's get the witness.
(Whereupon the witness resumed the stand.)
THE COURT: Mr. Suarez, please continue.
MR. SUAREZ: Thank you.
Q Ms. Trump, I understand you weren't really involved in the Trump Chicago project, correct?

A Yeah, just only tangentially.
Q But you are aware that the private wealth group of Deutsche Bank facilitated a loan on that property, correct?

A Yes.
Q And in fact, earlier the government showed you Plaintiff's Exhibit 3239.

MR. SUAREZ: Can we pull that up, please? And if we could turn to the first page.
Q Dave Goodman. We can go to the following page from Deutsche Bank. I believe you testified earlier today, correct?

A Yes. I don't really recall David, but it sounds vaguely familiar.

Q All right. Let's keep going.

All the way at the top, you see says: "It is not a commitment, it is for discussion purposes only"?

A Ido.
Q Would you have understood these terms and conditions that were presented on this document to be something that could be further negotiated?

A I think that's reasonable. I don't recall this.
Q It could have been further discussed?
A Sure.
Q It was for discussion purposes only?
A That's what it says.
Q It wasn't actually an offer?
A That's what it says.
Q And again, when it came to the Trump Chicago property, there would have been many different financing options that would have been on the table to your family's business, correct?

A I believe so, yes.
Q They could have self-financed, correct?
A I believe so.
Q They could have talked to any number of different lenders, correct?

A Yes. I was less involved in Trump Chicago. But it was a very iconic asset on Michigan Avenue in the heart of Chicago.

Q And the private wealth management group was very interested in doing that transaction as well, correct?

A That's what I remember.
Q Turning to the Trump Old Post Office, how did you learn about the opportunity to redevelop the Old Post Office property in Washington DC?

A The General Services Administration put the project out for an RFP as we discussed earlier. And I don't recall exactly how I first saw it, but I believe that I read about it. And it was obviously such an historically significant building, such a beautiful building. I was very, very excited about the opportunity to participate in a process with the hope that it would culminate with us being the developers. Which it did.

Q And what role did you play in the acquisition and development of that project?

A I spearheaded the acquisition and redevelopment, so I wore a lot of different hats, at a high level. But I was most focused on the actual vision for the project and overseeing its design, construction, redevelopment. But also shepherding it through the full process.

It was a very, very complicated project. There was an extended lease negotiation with the GSA, in addition to the RFP process, followed by the redevelopment itself. And since it is an historic building there are many, many different agencies. I feel that I remember there were 20-plus different
agencies we had to work with for various approvals. So the vast majority of my time as it related to the Old Post Office was spent on the actual design and development side of the project.

Q What was your vision for the Old Post Office project?
A Well, when we took over the building it was completely dilapidated. It was a government owned and managed project with a food court in the basement and some commercial office around the perimeter. And we envisioned and then went on to execute redeveloping it into a super luxury hotel.

And I believe we are very successful in that goal, as evidenced by how it looks today and ultimately the purchase price that it sold for, that it was -- it was a labor of love. It was a lot of work to bring that vision to fruition.

We also created a museum honoring the history of the building in the context of the greater Washington DC urban plan, and that was part of our submission. And worked with a renowned \(D C\) architect who had been involved in many historic projects to bring it to fruition.

Q Was this vision that you had for the Old Post Office conveyed to Deutsche Bank?

A Yes, of course.
Q And was Deutsche Bank excited about being the lender on this project?

A Yes. Absolutely.
.Trump - by Plaintiff - Cross (Suarez)
Page 3815
Q Was Deutsche Bank's decision to participate in this project part of its ongoing effort to develop a relationship with your family and its business?

MR. SOLOMON: Objection. Use of the word "participate." They were a lender on this project, they weren't a participant.

THE COURT: I assume he means participant in a generic sense, so overruled.

You can answer the question.
THE WITNESS: Thank you.
A I recall Rosemary referring to it, I believe, as the crown jewel of their real estate portfolio. It was, and is, an incredibly special, iconic building that I am really proud to have had the opportunity to work on and dedicate a lot of years of my life to redeveloping.

Q Did Deutsche Bank send representatives to visit the project?

A Oh, yes.
Q What were the representatives -- withdrawn.
How frequently would the representatives of Deutsche Bank visit the project?

A That I am not sure. Like I said, you know, my relationship with Rosemary was quite high level. And once there was general consensus around the terms of the loan, I was more involved in focusing on the asset and the redevelopment of
the asset itself, and other people managed the relationship with Deutsche Bank. And on an ongoing basis the hotel operating team, the construction team, the accounting team, would be in contact, as needed.

So, but it definitely, prior to the loan was made,
Rosemary and/or her team would have visited any of the projects
that I talked with them about. And I am assuming on an ongoing basis, but at that point I was less involved.

Q And the private wealth group team would have visited before they made the loan?

A Yes, they did.
Q They would have toured the property?
A They toured the property. And they, for at least Doral and OPO, I can't recall on Chicago, but required independent appraisals of the assets.

Q Earlier today you discussed with the government a meeting between the team at the Trump Organization and the folks over at the GSA; do you recall?

A Ido, yes.
MR. SUAREZ: If we could pull up Defendant's
431?
Q Do you recall what date that meeting took place?
A I do not.
Q Do you recognize this document, Ms. Trump?

A I believe this was shown to me this morning. I don't

Page 3817
know if it is the same one.
Q Do you see that it is the Source Selection Evaluation Report and Recommendation for the Old Post Office?

A I see that's what it says, yes.
Q Do you see on page three of this document it has a schedule, and the schedule includes in the middle of the page development team presentations. Do you see that?

A Yes, I see that.
Q Do you see there it says the RFP date had a TBD, and the actual date for those meetings was December 19, 20 and 21 of 2011?

A I see that.
Q Does that refresh your recollection as to when the meeting with the GSA group would have taken place?

A I think I said earlier it sounds about right, that December timeframe.

We definitely were not there three days. So I -- but I recall that many groups were brought in to present. I assume the finalists in the process.

Q And at the meeting, I would assume the presentation was made by the Trump Organization, correct?

A Correct.
Q And that the GSA had questions, correct?
A Yeah, I don't recall any -- what those specific questions are. I recall that this was our first and I believe

\section*{Page 3819}
and see it through to completion.
Q You were not the person who was responsible for answering questions about the company's financial condition, correct?

A I don't recall those questions having been asked at that meeting.

Q Do you recall if all of the questions that were asked were answered to the satisfaction of the GSA?

MR. SOLOMON: Objection. The witness just
indicated she didn't recall any questions being asked.
A I can't speculate, but we were awarded the project subsequent to this meeting, so I would assume so.

MR. SUAREZ: If we could turn to page 14.
Q Do you see there where it says notable weaknesses and it reads: "Financial statements provided by Mr. Trump were qualified by his accountants as not complying with GAAP"?

MR. SOLOMON: Your Honor, we are going to object to the use of this document or reading in anything from this document. This witness has never seen this document. She hasn't identified it. It appears to be an internal GSA document. It is classic hearsay.

MR. KISE: So like this morning when they did the exact same thing and you allowed them continuously to read from documents that she couldn't authenticate, didn't have a foundation. This is the document that the GSA
only opportunity to articulate what our vision for the redevelopment was, and to do so in-person. Because the RFP was submitted as a binder to the location, the GSA said to send it to. So this was our, as I recall, our only opportunity to describe our vision for the redevelopment of this iconic asset.

Q What aspects of the presentation were you responsible for that day?

A I think I talked about this earlier, but articulating what our plans for -- at the time it was a complete re-purpose because it was a commercial office building and a food court. I think there was a little bit of retail that wasn't food related, but it was pretty much just that. And we were proposing converting it into a super luxury five-star hotel operation, with world class food, beverage.

And it was a complete -- it was a complete repositioning of the building. So we talked extensively through that. And I think as I mentioned earlier we talked about various redevelopment projects that had been done by the company successfully. So my father had redeveloped the iconic Plaza Hotel. The Commodore Hotel -- former Commodore Hotel here in New York; and 610 Park Avenue. Many others that were historic redevelopments. So we spent quite a bit of time talking about, and I don't recall who spoke about what per se, but spent a lot of time talking about the wherewithal to take on a landmarked historically significant project of this type,
provided that formed the basis for the decision. Mr. Suarez is just simply asking questions, just like Mr. Solomon did this morning, like you have allowed many, many times in this courtroom, of what was the basis for decision and exploring this witness's knowledge of.

If she doesn't have any knowledge of it, like you said, she can say I don't have any knowledge of it. But otherwise I don't see any difference, goose, gander, however you say. I don't really see any material difference here between what is going on all day and what is going on throughout this trial, and what we are doing now. It is the same. This is the foundational document which is a public record. So the Court can take it in in that regard. And there is really no reason that it can't be considered. And whatever knowledge this witness has, she can testify to.

MR. SOLOMON: Your Honor, there is no foundation that this is a public record other than Mr. Kise's representation just now. This is a document that appears to have been produced in connection with this action by the GSA to the defendant. So, that I don't know if Mr. Kise has other information to verify that it is a publicly available document.

MR. KISE: It was.
MR. SOLOMON: May I finish, please?

Number two. Number two. The questions that were asked of this witness on the document were e-mails to and from her that she may not have recalled. There is a basis for asking a witness that.

This is a document she had never seen before today. She has not testified that she ever received it; she ever looked at it; she ever did anything with it or knew of its existence. It is an internal GSA document.

THE COURT: Okay. Objection overruled.
Let's see what the question -- Can we get a readback of the question? Let me hear the readback and then I'll make a final ruling.
(Whereupon, the record was read back by the court reporter.)
Q Do you see that?
A Ido.
THE COURT: Wait. Wait. Wait. Hold on. I am still trying to figure out how to rule on the objection. I gave a preliminary ruling, this is the final ruling.

Well, you know, I never mind when someone says do you see that on the document. Yes, she sees it.

Do you see that on the document?
THE WITNESS: I do, yes.
THE COURT: All right. Let's see what the next question is.
I.Trump - by Plaintiff - Cross (Suarez) Page 3822

1
terms. And they said -- they asked whether you saw that provision; does it say that; do you have any understanding; do you have any reason to believe that is inaccurate. It is virtually identical to the line of questioning that they pursued of the documents that this witness said the same thing about. No, it doesn't refresh my recollection. Do you have any reason to believe it is inaccurate. It is the same.

Again, if we are going to operate under two sets of standards, that's fine. But I would respectfully suggest that that's incorrect, because this is the same thing that they pursued. They have been doing it the entire course of the trial. They have been showing witnesses document after document with no foundation. I have objected hundreds of times now about foundation, about whether or not they have seen the document.

And they are like, well, it is just for notice, and it is just to ask if that's what it says, and to ask if that's their understanding. So he is asking this witness's understanding. This is the foundational document that provides the basis for the GSA to have awarded the contract. It is a public record because it was received pursuant to a FOIA request. Anybody can do it. It was provided by the GSA, there is no dispute. They have had this document. They have known about it

Q Does that refresh your recollection as to any
discussion concerning the company's financial condition at that meeting?

A It does not, no.
Q Do you have any --
THE COURT: Remember, just a little louder, a little closer.
A It does not, no.
Q Do you have any reason to believe that the GSA's own internal document would be incorrect when it says that the financial statements provided by Mr. Trump were qualified by his accountants as not complying with GAAP?

MR. SOLOMON: Objection, Your Honor. I don't know how this witness would have any idea whether the GSA's own internal documents are accurate, inaccurate; relevant not relevant.

THE COURT: Sustained.
MR. KISE: Your Honor, I --
THE COURT: Let's not argue about this.
MR. KISE: We should argue about it, respectfully. Because this is exactly what they asked about the GSA bid document this morning that she hadn't seen. It is the same questions. It is a different document from the GSA, but it is the bid document, and they asked questions about Colony Capital and particular
since -- since long since the discovery period.
So I don't see any material difference. I don't see any difference, frankly, material or otherwise, between their line of questioning and our line of questioning, other than its us asking the questions.

MR. SOLOMON: Your Honor, if I may? There is an absolute distinction. It is not the same. The document that I showed the witness earlier today was the submission by the Trump Organization. And the cover letter on the submission was signed by this witness when it was submitted to the GSA. She represented that the information contained in their submission was truthful and accurate. I am entitled to ask the witness questions about her own document where she signed the cover letter and submits it to the GSA. It is completely different than an internal GSA document and asking the witness if she has a reason to believe whether the GSA was accurate or inaccurate. My questions went to the witness's own submission and whether her submission was accurate or inaccurate. So it is night and day different.

THE COURT: Mr. Kise, two things:
One, I think he has got you here, as I remember all of this.

Two, we have talked about the concept of continuing objection. I continuously object, I object now
and I continue to object, to your constant insinuations that I have some sort of double standard here. That is just not true. I don't count whether I have sustained more objections for one side or the other. I don't count, you know, the weight, the number of these things. I make every ruling the way I think is correct and fair. So, I have a continuing objection. But you can keep saying it if it makes you happy that I am favoring one side or the other. And you have said this about the rulings in this case. I make the rulings based on the facts and the law as I understand it. So to complain that, oh, my gosh, you are making more rulings in their favor than ours, I don't count them. I just make the rulings as I see them. You know, like the umpire says, call them as I see them. Go ahead.
MR. KISE: All I am going to say, Your Honor, is, as part of an Appellate record I have to make the record. I have to call it like I see it. And unfortunately what \(I\) see is exactly what \(I\) am saying. I wish it were different. I wish we were in a different situation. I respect Your Honor's position. I do, you know that. But I see these rulings constantly going in a different -- let me withdraw that. Frequently going in a different direction, particularly when it comes to issues like this.

\section*{THE COURT: Sustained.}

MR. SUAREZ: But it's not speculation. It's in the General Services Administration document right in front of us.

I'm asking her about a document that relates to the project that she spearheaded and the pitch that she was at that's memorialized in this document.

MR. SOLOMON: A document which your Honor already ruled it's inappropriate to show the witness, and if they try to enter into evidence, obviously we'll object.

So making reference to what's in a document in framing a question creates a hypothetical.

THE COURT: Well, I'm not always against hypotheticals, but I just -- how about a read back of the second time he asked the question.
(Whereupon, the requested testimony was read back by the court reporter.)

THE COURT: That's a ridiculous question. You could ask what she thinks she knows, but referring to this document that is not in evidence, no.

MR. SUAREZ: I'm not trying to move the document into evidence. I'm only trying to show her what the GSA's understanding was as reflected in the their document and asking if she has any reason to dispute it. She was at the pitch. She was a witness to the pitch.

THE COURT: I don't know if she knows anything about this document, whether it's a statement in the GSA's document. I think there's been an authentication.

MR. SUAREZ: You even heard Mr. Solomon get up and tell us it was an internal GSA document. I don't think they dispute that.

THE COURT: He may know it. It is not the same as the record in this case.

MR. KISE: It certainly can come into this case as a public record. It certainly can be admitted as a public record.

MR. SOLOMON: Mr. Kise is representing this as a public record. I think when I was asking questions of Ms. Dillon, if you recall with respect to amendments to a condo plan, there were questions about being a public record, it had to be proved up later. I don't see that Mr. Kise has made any showing sufficient for this document to be deemed to be a public record.

MR. SUAREZ: I'm not even trying to move it into evidence. I'm just trying to ask questions about it.

THE COURT: You had asked her three times, and I really don't understand the question, but you heard it three times slightly different.

I'll ask the witness, can you answer that question? MR. SOLOMON: Your Honor, just note my objection

Page 3829 based on speculation.

MR. KISE: Are you objecting to the Judge's question?

THE COURT: Well, I'm just repeating Mr. Suarez's question.

Witness, can you answer that question?
THE WITNESS: I have no reason to believe that the GSA wouldn't be accurate in that assessment.

THE COURT: That's her testimony.
MR. SUAREZ: I'm sorry, can I get a read back.
THE WITNESS: I think the question was, do I have any reason to doubt the GSA being accurate in this document. I have no reason to doubt them.

THE COURT: How about --
MR. SUAREZ: I'm moving on.
THE COURT: Instead of "in this document", if they said that somewhere. Plaintiff agrees with that framing of the question?

MR. SOLOMON: Still calls for speculation, but if your Honor has overruled that, we could move on.

THE COURT: So would you doubt it if it was said anywhere, forgetting this document?

THE WITNESS: They were very professional, I have no reason to doubt it.

THE COURT: Thank you.
\(1 \quad \mathrm{Q}\) The GSA is professional in its valuation of the bid; correct?

A Very much so.
Q It was qualified to understand the information that it was being given; correct?

A Yes.
Q And ultimately made a decision after running its selection process; correct?

A Yes.
Q And the team lead by your family's own business was the successful bidder; correct?

A That's correct.
Q And the project was redeveloped; right?
A It was.
Q And you were involved in the redevelopment of the project; right?

A Yes.
Q What was the response to the redevelopment of the project by the federal government?

A Well, I could speak I couldn't speak for the whole federal government, but I have a few specific recollections I can share with you. Congresswoman Norton, Eleanor Holmes Norton who represented the district and who had spearheaded the push to have this iconic building put out for redevelopment through an RFP process, um, I met with her at her office, at least on one
occasion. I had spoken to her on others. I believe she was there at the groundbreaking ceremony. She may have spoken at it, actually. She was -- I have recollection of her being present. But she was, in my conversations with her, um, very pleased by our plan, our proposal.

She issued some statements, I think, speaking to about me, specifically, maybe not my father, but about her appreciation for what we had done. And this was an asset that she was very, very close to because, of course, it was in her district.

I also recall, at some point, maybe in -- I don't know what year, but sometime after we had been awarded the project, um, but some -- I believe it was prior to us actually opening, I, um - there was outreach from Congressman Shuster, I believe, if -- I think it was Congressman Shuster and Congressman Nadler, Jerry Nadler, asking if I would come to Brooklyn and speak in front of an infrastructure committee meeting they were having about the redevelopment of the old post office. And I understood from the request that it was viewed as a very, very successful public/private partnership. And they wanted to encourage more RFP's of federal government buildings, of which there are many beautiful, iconic, but also underutilized buildings.

Um, in this particular case I think I remember that before we took over the old post office building, it was costing

1
taxpayers, I believe -- and this is a little bit of an estimate -- around seven-and-a-half million dollars a year in upkeep to maintain the historic building; the marble, to keep it in good shape. And because it was being utilized, and obviously when we took over the building, taxpayers stopped funding into that.

So Congressman Nadler, and I believe his counterpart was Shuster, I believe it was the transportation or infrastructure committee asked me, and I went to Brooklyn to speak about the project and what our plans were and what we had done to date, and my positive experience dealing with the federal government through the bid process.

Q And to be sure, the two congressional democrats that you just listed are members of the United States House of Representatives; correct?
A Yes, there was -- I believe --
MR. SUAREZ: You know, I'm glad that the government thinks it's funny for us to try to put on our case and to put on evidence of the great work that this family has done for the United States government, and while they are sitting here trying to destroy thousands of jobs in this state. I have to sit here and ask questions and listen to them laugh? That's insulting, your Honor, I'm sorry.

MR. SOLOMON: Your Honor, move to strike that last speech.

MR. SUAREZ: They are striking -- they are
laughing, sitting back here laughing. They think this is funny. It's not funny.

THE COURT: Well --

\section*{A One of the things, just because --}

MR. SOLOMON: First, there's no question pending.
There's also a motion to strike the last speech by Counsel.
MR. SUAREZ: I want the record to reflect that the government is sitting here laughing at their attempts to destroy this company.

THE COURT: Well, I don't think they were laughing at that. I think they are laughing at the fact that the witness testified, or said three, four, five times that these were congressional representatives.

Now you are asking if they are congressional representatives. I know Jerry Nadler, he is a congressional representative. Mr. Shuster, I know the name, I think from Pennsylvania -- does that make sense?

THE WITNESS: I think that's right. Maybe they found the question funny, but I will strike what he said. Q You can answer.
A I don't know if there was a question pending, but we were talking about congressional representatives and congresswoman Holmes Norton, and you just mentioned jobs that were created.

The number one thing she cared about was jobs,

Page 3835

\section*{reaction?" Not how proud you were of it?}

THE WITNESS: No, no, what I was saying, I believe that they thought that we had over delivered on the initial vision we had presented to them, so I think they were very, very happy.

MR. SUAREZ: Can we please pull up Defendant's Exhibit 299.
(Whereupon, the exhibit was displayed on the screen.)
Q I would ask the witness to please review this document.
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q Do you recognize this document as an e-mail sent by Rosemary Vrablic to you, Ms. Trump?
A I have a vague recollection of it, but not specifically.
Q Do you see where it says, "My direct boss, Michele Fassiola (he's Italian) would like to call you and your dad to thank you for being such great clients and for all the business we have been doing together."
A I see that, yes.
Q It says, "Your family is in the top ten revenue
generating names of Asset and Wealth Management now, and he is thrilled with how it's grown."

Do you see that?

1 A I do, yes.
2 Q Is that consistent with your understanding of Deutsche
3 Bank's reaction to its business relationship with your family and its businesses?

A It is, yes.
Q Ms. Trump, earlier the government directed your attention to your lease of a unit at the Trump Park Avenue, 8 Penthouse 20?
9 A Yes.
10 Q Do you recall that testimony?
A Ido.
Q How did you come to lease Penthouse 20?
A I had lived in the building for -- for some time, with an exception of at one point living downtown. So around the
time I was pregnant with my second child, we entered into a lease to rent the unit, Penthouse 20.
Q Did the lease come with an option to buy?
A Yes, it did.
Q How was the purchase price on that option negotiated?
A I don't recall the specifics. We never exercised the option, so I don't remember.
Q Did the lease require you to invest money in the renovation of that penthouse?

A Yes, this was refreshed for me a year and a half ago when we -- during my questioning by Mr. Solomon. The lease

Page 3837
required me to invest, I believe, six and a half-million dollars, and we ended up investing over seven and a half million dollars in the apartment.

Q What work did you do on the apartment to renovate it?
A Pretty much everything. We completely changed the floor plan. We did a new floor plan, um, to accommodate our family. It was going to be the apartment that we would live in as a family for, hopefully a long period of time, but we ended up moving to Washington, so we didn't fully move in.
Q Why did you leave the family business?
A I went to Washington.
Q You went to Washington to work in your father's presidential administration; is that correct?
A That's correct, yes.
Q Now, when you were working in the family business, were the projects that you did for the OPO and Doral the only things that you were involved with professionally?
A No. I had other roles within the organization as well, overseeing various projects, license projects. I would say that a lot of my time, those were very, very large redevelopment projects. So a lot of time in construction development of those two assets, but at the same time I had my own business. We were doing hundreds of millions of dollars in sales, um, an apparel and accessories business that I had, was totally separate and distinct with no connection to The Trump Organization. A

rump Hotel Collection, which I just mentioned generally, and these two redevelopments specifically. A lot of time, a lot of vision, a lot of hard work. And as I testified earlier, they n every me the fact that they are both flourishing today.

MR. SUAREZ: Your Honor, may I have a second to THE COURT: Sus.
: Sure
mony.)
Exhibit 299, which the witness identified earlier was an e-mail from Ms. Vrablic to Ivanka Trump, I would like to

And I have no further questions on cross
witness stand.)
THE COURT: Let's talk scheduling for tomorrow on the record.

Actually, does plaintiff rest? Let's hear what he's got to say.

MR. WALLACE: I believe we have some documents to admit.

MS. FAHERTY: Your Honor, earlier in this case we introduced two voice messages during the course of Mr. Flores's testimony. We created transcriptions of those voicemails and created them as exhibits. So first would be Plaintiff's - PX-3297A. It is the transcript for one of those voicemails.

And then we subsequently created the second voicemail transcription, PX-3298B. This has been consistent with our practice to provide a transcript to the Court of those recordings. We would ask that the Court admit these consistent with what we've done with other exhibits.

THE COURT: Defendants, would you like to at least take a quick look, or how do you want to address these?

MS. FAHERTY: They've been added. They were in the exhibit share. You've received them.

MR. KISE: I don't know that we've looked at them. To the extent they are representing true and accurate -MS. FAHERTY: Yes.

MR. KISE: -- transcriptions of the recordings, and the recordings, if your Honor has already allowed those into evidence, then we have no objection.

THE COURT: Right. Okay. They are in evidence.
(Plaintiff's Exhibits 3297A and 3298B were deemed marked and admitted in evidence.)

THE COURT: Anything else from plaintiff?
MR. KISE: Your Honor, one other thing in that regard, though. I don't believe we have - in their opening there were videos played, and I don't believe we have transcripts of those of the -- or at least even if not transcripts, just like line -- page and line references, because I think those were from - the videos they played there were from the record from the either the depositions or the EUO's, so I just don't think in the record there's a start and stop.

MR. AMER: The clip from Eric Trump's deposition was played during his testimony and was admitted as an exhibit. The transcription was admitted as an exhibit. So that one certainly you have. And I think the others -MR. WALLACE: We could go check.
MR. KISE: If you tell us the page and number, we have no objection to it at all. The page and line references -I think Michael Cohen was one of them. There may have been one from Patrick Birney. I don't remember
them all, but whatever they are.
Again, there's no objection. It's just page and line references would be good or useful to have. I'm sure they have them.

MR. AMER: That's fine. We'll provide it.
THE COURT: You'll provide -- you know what he is asking for exactly?

MR. AMER: Sure.
THE COURT: Okay. Mr. Wallace, anything else? MR. WALLACE: So --
THE COURT: Five-minute warning.
MR. WALLACE: Thank you, your Honor. We have no further witnesses to produce at this time. I will note, however, we left open the testimony of Mr. Weisselberg pending the document issues. I believe we are still waiting for production material from the defendants that raised that issue. So apart from the reserving our right to recall Mr. Weisselberg, we have nothing further.

We have nothing further on our case in chief, your Honor.

MR. KISE: So do I understand that to mean the plaintiff rests?

THE COURT: Subject to that one condition. MR. WALLACE: Subject to that condition.
MR. KISE: Well, then, we don't have to do it
resting, and if something comes to their attention that would support a reopening of the case, then they could make that function.

I don't know -- by the way, I tend to think all of this is a tempest in a teapot with respect to discovery. Nonetheless, we will continue to proceed informally without anyone waiving their rights. I just want to be clear that at this stage we are not precluded from moving for a directed verdict, for example, because the CPLR -- our expert is here, not me, but that's at the close of the case, the close of the evidence.

THE COURT: Yes, but maybe we could all agree, but this goes back about five minutes ago, that plaintiff is resting conditional, and defendant can move for a directed verdict, or whatever else you want to do. I suppose if plaintiff wants to say, but wait a minute, we can counter that with Mr. Weisselberg's e-mail, testimony, whatever, then they'll make that argument. So I agree, it's a tempest in a teapot. We don't really have an issue here.

Plaintiff would you agree?
MR. WALLACE: Yes. We will rest, and if we need to reopen due to any issues of Mr. Weisselberg, we will make an application to do that.

THE COURT: Okay. So I think that's agreed to. We have scheduling issues. I'll ask Allison to
\begin{tabular}{|cc|}
\hline Proceedings \\
\(\mathbf{1}\) & Page 3843 \\
2 & today. Since there's five minutes, we could take this up \\
3 & Meaning, that they are not entitled to it. We have \\
4 & informally, as you know, agreed to work on this. We have \\
5 & been working on it, and we can provide information in that \\
6 & regard. But I would just state on the record there are -- \\
7 & this is just Black Letter Law in the First Department, that \\
8 & there's no such thing as post NOI discovery at trial, just \\
9 & -- there's nothing of the kind. \\
10 & MR. WALLACE: If not - Chris, if we are not \\
11 & actually following the procedure you -- \\
12 & THE COURT REPORTER: Im sorry, I can't hear. \\
13 & MR. WALLACE: We're doing that. We will renew the \\
14 & letter the Judge asked us to submit and we'll do that on the \\
15 & record. If you are going to produce the e-mails, we'll take \\
16 & a look at that following the procedure. I thought we were \\
17 & agreeing to -- \\
18 & MR. KISE: We've agreed, informally, without \\
19 & waiving any rights, and I don't think they've waived any \\
20 & rights, but when it comes down to whether they rest or not, \\
21 & certainly if they are saying they rest, and that gives us \\
22 & the opportunity to put on our case and to move for directed \\
23 & verdict and do those things, um, subject to -- they could \\
24 & always ask you to reopen the case. They could do that. But \\
25 & it's not a reservation of rights. It's simply just, we are \\
\hline
\end{tabular}

1 take over.
MS. GREENFIELD: So the cross, you had initially anticipated was going to be three to four hours. That obviously is not the case. So we have time for a witness tomorrow. So who can we bring in tomorrow?

MR. KISE: We do we don't have any witness for tomorrow because we planned on Monday for the start date.

MS. GREENFIELD: Because you told us you had four hours of cross examination.

MR. KISE: Based on -- first of all, that was based on the direct -- their direct testimony. And in an effort to streamline the proceedings in accordance with the Judge's wishes, I'm certain that we could have had five hours of questioning, but given the -- given the state of the proceedings and given where they are, in the interest of efficiency, we decided to do what we did. I don't think there's a penalty associated with that.

THE COURT: All right. So I think, fine, tomorrow we'll have motions. Will you tell us what those motions will be.

MR. KISE: Directed verdict.
THE COURT: How long do you think it will take you to present that motion.

MR. KISE: I think we'll be done, maybe both sides, by the morning, unless they have motions. Although, I did
    see a motion on expert issues --
    THE COURT: Right, right.
    MR. KISE: -- that we'll need to address. I also
    don't think that will take -- I would still think we would
    be out of here by lunch break. I mean, that's certainly my
    hope, if I'm honest.
    MR. AMER: I think that's right. Certainly our
    motion on the experts shouldn't take too long.
    THE COURT: Although, it was pages and pages.
    MR. KISE: It was. There's a goose and there's a
    gander. I'm sure you'll hear that again tomorrow.
    MR. AMER: That leaves less to argue then.
    MR. KISE: There - and the directed verdict motion
    will take some time to present, but I don't anticipate that
        it will be extensive where we'll be here all day.
            THE COURT: The opposition to the motion for a
        directed verdict might take a long time.
            MR. KISE: It could. I can't control that. I will
        leave that in their hands, certainly.
            THE COURT: All right. So both side, we agree,
        will be here 10:00 tomorrow. And if plaintiff moves --
        obviously if the motion for directed verdict is granted, we
        won't have to worry about the expert.
            MR. KISE: That would be good.
            THE COURT: In the interest of judicial efficiency
the other -- it's always the defendants, say "the government." Sounds like the federal government. You don't represent the federal government, do you?

All right. So we agree tomorrow just the morning, just motions. Any other housekeeping; that way Mr. Kise can have the afternoon off.

MR. KISE: You hear them cheering outside.
THE COURT: Have a good evening, everyone.
MR. WALLACE: Thank you, your Honor.
(The case on trial was adjourned to November 9, 2023, at 10:00 a.m.)
and lawyer efficiency, I noticed that on defendant's proposed witness list you have McConney two days. I think there's at least one or two other people. Can you have witnesses ready in case it doesn't take two days?

MR. KISE: We do. We do. In the event it doesn't take that long, yes, but I think Mr. McConney, in order to go through the specifics, will take the balance of those days. And whatever cross they have. I would anticipate that they would have cross.

THE COURT: And, yeah, I understand. We are still looking at a December 15th?

MR. KISE: We are. The only reason why I haven't provided the further calendar is because we are waiting on witnesses to confirm availability on particular dates. And rather than confuse the issues with changing it, I'm going to try to get it as close as possible to where we are, but I --
(Whereupon, there is a brief pause in the proceedings.)

MR. KISE: If the government proceeds as we have proceeded, where we put on our witness that they've already crossed and doesn't spend too much time on cross, we may be out of here before December 15th. I'm not suggesting that they need or want to do that.

THE COURT: That's funny to me whenever one side or

Senior Court Reporters

THE COURT: Let me start with, plaintiff, anything to say, bring up, discuss at this point?

And then of course I'll ask defendants.
MR. WALLACE: Your Honor, I believe we have our motion on the expert witnesses, but I believe the order of operations we determined yesterday that the, if there is a motion for a directed verdict that should be the first motion heard today.

THE COURT: Will there be a motion for a directed verdict?

MR. KISE: Are you surprised, Judge?
Are you ready for me?
THE COURT: Please, yes.
MR. KISE: It may take me a second with the technology. You know how I am with the technology.

Okay. Is that working? Still? Yes. If we get any feedback I'll change it around.

Give me one second, Judge, I am sorry.
Thank you, Judge.
Okay. Thank you, Judge.
This -- I'll try and keep this concise, as I said yesterday, to move things along and have us out of here at the noon hour.

The defendants are moving, and I believe
Mr. Robert will have comments after myself. The
defendants are moving under CPLR 4401 for a directed verdict. And that provision, as you know, Your Honor, provides that any party may move for judgment with respect to a cause of action or issue upon the ground that the moving party is entitled to that judgment as a matter of law. That motion is also fully available in a non-jury trial. We cite the Court to the Eion Michael Properties case, 143 A.D.3d 622.

I'll also point out, while discussing, sort of, the background and legal standard, certainly the defense view, I think it is the correct view, that because the predicates for the \(63(12)\) violations are criminal statutes, that the civil equivalent of the criminal standard, beyond a reasonable doubt, would apply in this context, so clear and convincing evidence.

We do not believe that the Attorney General can meet that rigorous standard or frankly any legal standard. Even if that's not the standard, we don't believe that the evidence demonstrates that they can meet that standard.

So let's -- I am just going to address briefly what the evidence has established so far. The evidence has established so far that the claims of the Attorney General involve only successful and profitable loan transactions. That is undisputed. It is also undisputed that there are no late payments; no missed payments; the

1 loans were all paid back timely. 100 million plus in
interest. There is no victim. There is no complainant. There is no injury. All of that is established now by the evidence.

The evidence also establishes that the SOFCs S-O-F-C.

Sorry, I am doing that for the court reporter, because I am going to say that a lot rather than saying Statements of Financial Condition.

And the certifications were submitted in connection with certain loan transactions that are at issue. And only the specific parties involved in those transactions made those submissions. I think that's very clear from the documentary evidence in the case, that it was specific entities and specific parties that made those submissions, not the defendants at large. And that's a concept I'll come back to, Your Honor.

The certifications were true and accurate when made, and the loan covenants were not violated. There is no evidence that the loan covenants themselves were violated.

The SOFCs and certifications were accurate, and this is important, in all material respects. And that's a key concept that I'll also come back to. There is testimony in the record that the SOFC values were actually

President Trump took the Ferry Point project from a landfill, from a garbage dump where they were moving debris back and forth for 20 or 30 years. No one could do anything with the site. And has transformed it into a world class facility. Wolman Rink was revitalized. The West Side Yards, which began the revitalization of the West Side, which now includes Hudson Yards and many other things in the vicinity.

So this is an individual whose opinions aren't to be disregarded, as the Attorney General would say, or be cast aside, that there is no value to his opinion. So it is fair for this Court to conclude, based on his testimony as an expert in the industry, an established expert in the industry, that there is some deference to be accorded there.

Setting aside all of the theatrics, setting aside all of the politics, setting aside where we are, if we just look at it on its face.

THE COURT: Were there theatrics?
MR. KISE: We will get to that.
THE COURT: I just have to say one other point.
You said one of the buildings, I think Trump Tower, was in Central Park. I don't know how they do it in Florida but in New York we don't allow skyscrapers --

MR. KISE: No, No, sorry. Trump International
\begin{tabular}{|rc|r} 
Proceedings & Page 3854 & Procr \\
1 & lower than the actual values. President Trump himself & 1 \\
2 & testified that he believed the values were lower. & 2 \\
3 & And I have to pause just for a minute on that, & 3 \\
4 & because, you know, in any other context, if we were in any & 4 \\
5 & other setting, President Trump would clearly qualify in & 5 \\
6 & any court in this country as an expert on real estate, & 6 \\

\section*{Proceedings}

Page 3856
Tower on Central Park South. I believe, you are correct.
But his testimony that the values, in his view, other than as he stated, are lower than actual values, is entitled to real weight, because he is an expert.

THE COURT: But he wasn't qualified as an expert, so.

MR. KISE: He doesn't have to be qualified as an expert to be one though. That's my point. You don't have to qualify him and put him on as expert testimony for the Court to recognize and acknowledge that this individual has the requisite knowledge, training and experience to be one. I am not suggesting his testimony is expert testimony. What I am saying to the Court is that his testimony in any other forum would be credited as such. He certainly would qualify.

The SOFCs, back to our evidence, had valid and obvious disclaimers negating intent, materiality and reliance.

There is no evidence in the record of agreement, a fundamental premise to support the conspiracy claims. The evidence establishes that the banks relied on their own independent valuation analysis, not the SOFC values.

So there is no intent to defraud. There's no defaults. No breach. No reliance. No unjust profits. And no victims.

More importantly, or as importantly, there is no real world impact. As I began, there is no -- they are all profitable loan transactions. There is no record evidence that anything would have been different with respect to the loan transactions or the insurance transactions, that anything would have been materially different or different at all.

There is no party complaining or alleging fraud. Zurich Insurance, one of the alleged victims, according to the Attorney General, still does millions and millions of dollars of business with Trump. I am not sure what the Court's experience is with insurance companies, but I certainly know from many years of dealing on the regulatory side of insurance companies, that if they believe they have been defrauded by someone, they are not doing business with them in the future.

There is no fraud victim. There is just banks satisfied with profitable loans. And so the Attorney General has converted standard commercial real estate loan transactions into fraud, based not on what the bank says, but what -- on what she says.

And it is similar to the Exxon case. And I know the Attorney General's office is familiar with the Exxon case, Mr. Wallace in particular, that there was no testimony from anyone who claimed to have been misled by
the disclosure. We don't have testimony in this record, particularly from the banks, where they say something would be different; I was misled; I was defrauded. That's essential to proving intent and materiality.

As this Court has held in the summary judgment order, it is the Attorney General's burden to demonstrate a component of intent and materiality at this phase. The Attorney General has failed to introduce any evidence of materiality or intent, and instead simply relies on the Court's summary judgment decision to establish both. That decision, however, as Your Honor knows, specifically determined that intent and materiality must be established at trial. And the failure to do that entitles the defendants to a directed verdict on the remaining causes of action and as to the issue of disgorgement.

So materiality is an essential element. The statutes make this clear. The issuance of a false financial statement needs to be inaccurate in some material respect. It needs to be known to be materially inaccurate. The insurance fraud statute is the same. A written statement as part of support of the application --

COURT REPORTER: Sorry, I missed that.
MR. KISE: Sorry, I always go fast when I am reading, I'll stop that.

The insurance fraud statute requires a written

1 statement as part of or in support of an application for 2 the issuance of a commercial insurance policy, which is 3 known to contain materially false information. That's a 4 different standard than, as Your Honor knows, was applied at the first phase, at the summary judgment phase.

Now, the compliance certificates incorporate materiality.

Just bear with me one minute, Your Honor.
THE COURT: Sure.
MR. KISE: I forgot to bring this up.
Thank you, Judge.
The compliance certificates that are part of the Attorney General's claim incorporate materiality. If you look at the language: The foregoing presents fairly in all material respects, all of the representations and warranties made by guarantor remain true and correct in all material respects.

There hasn't been any evidence introduced about materiality other than just a reference back to Your Honor's opinion, which itself doesn't decide that question on its face.

The guarantor made only this representation. That's the standard and that can't simply be read out of the certificate.

That representation also, importantly, was made
as part of a contractual obligation. The bank, the contracting party, never asserted any breach claim. And so you have the additional issue that the Attorney General cannot now just step into the shoes of a private party and enforce contract terms that the private party, whose role it was, contractually, to determine issues like materiality, and breach, never claimed any violation.

The OPO loan documents contained a materiality provision together with a representation from guarantor that there has been no material change.

The 40 Wall Street loan contains materiality language. No material adverse effect or change. There has been no material adverse change. There is a definition of what material adverse effect is.

These concepts are at the core of the Attorney General's claims. And again, they have done nothing to introduce any evidence of materiality other than rely on Your Honor's opinion and their own opinion.

The 40 Wall Street loan continues with another example about material respects certified by guarantor as being true, correct and complete and fairly presenting financial condition. No material adverse change.

The Attorney General's own complaint, as you have heard me say before, 48 paragraphs reference materiality. Twenty-five of those paragraphs reference
materiality in loan covenants. This is a fundamental, core concept.

The complaint paragraphs themselves and I am just giving one example here, paragraph 589, talk about untrue statement of a material fact. A material fact necessary to make any material statements contained herein or therein not misleading.

An example of the actual -- I believe this is the 2016, it is -- certificate of compliance. You can see there in all material respects. So materiality is a core concept.

THE COURT: How would you define materiality in this context?

MR. KISE: I would define materiality and I will get there. That's a good question, Your Honor. I would define materiality in this context as through the lens of the user. It is not, respectfully, what you think. It is not what they think. It is not what I think. It is what did the bank think. They are in the role of determining materiality. There is no objective materiality. You have to look at this through the lens of the user. Because everyone's definition might be a little different. Now you heard testimony about a 5 percent standard. And that's a -- that's a fair standard. And there is testimony of that in the record. That if you have
no evidence in the record as to what that other crime was. There is a lot of discussion during the course of the case, but nobody has put any evidence in the actual record as to what that other crime was. And so for that reason alone, the count that relates to falsification of business records in the first degree is subject to directed verdict.

Issuing false financial statements also has an intent and materiality component to it. The issuance of a false financial statement occurs when an individual, with intent to defraud, knowingly makes or utters a written instrument, which is inaccurate in some material respect; represents in writing that a written instrument that he knows is materially inaccurate.

So let's look just briefly, because it is hard to prove a negative, it is hard to prove that there is no evidence of something, but let's look at what we do have. So President Trump testified, and I will point out that the Court did state that it is not here to hear what President Trump has to say. And we are not here and these people are not here and the Attorney General is not here to hear what President Trump has to say. But I would respectfully say, the Court cannot ignore President Trump's testimony.

And the fact that there was an adjudication
\begin{tabular}{|cc|}
\hline Proceedings \\
1 & someone, like you do here, where the net worth is four and \\
2 & a half or five billion dollars and there is \(\$ 100\) million \\
3 & swing or \(\$ 200\) million swing, yes, that's a lot of money in \\
4 & an abstract sense, but in the context of financial \\
5 & statements, it is not. \\
6 & THE COURT: Just one thing. There is a record \\
7 & so when you say "they" and point to someone. \\
8 & MR. KISE: I am sorry, the Attorney General. \\
9 & Fair point. \\
10 & The Court, the Attorney General, the Defendants, \\
11 & the issue of materiality must be viewed through the lens \\
12 & of the user, in this case the bank or the insurance \\
13 & company as the case may be. \\
14 & The second key component is intent. Falsifying \\
15 & business records, the statute requires an intent to \\
16 & defraud. And that intent to defraud is commonly \\
17 & understood to mean to act with intent to cheat someone out \\
18 & of money, property or something of value. \\
19 & And we have got cases cited there: \\
20 & The Saporita case 132 A.D.2d 713. \\
21 & The Jeremias case 66 A.D.2d 178. \\
22 & And the Briggins case 50 N.Y.2d 302. \\
23 & Additionally, falsification of business records \\
24 & in the first degree requires the additional element that \\
25 & the defendant intends to commit another crime. There is
\end{tabular}

Proceedings
Page 3864
earlier connected with a collateral matter, should not have any bearing on the Court's view of the witness's testimony or credibility when it comes to the substantive case. And I am not suggesting it does or doesn't, I am just pointing that out as a matter of procedure.

THE COURT: The first line on that screen: This Court stated it is "not here to hear what President Trump has to say." Do you remember what I said right after that?

MR. KISE: I don't have it in front of me. I have that --
MR. WALLACE: I believe Your Honor said you are here to hear him answer questions.

THE COURT: That's exactly what I remember. So I think it is misleading to just have the first half.

MR. KISE: Since you are the trier of fact, you will ultimately decide that. But certainly the point that I am trying to make, Your Honor, is that the Court cannot ignore President Trump's testimony. And whatever happened in the course of the proceeding before, that testimony has to be evaluated in the context of whether or not the Attorney General has sufficient evidence to prove intent.

And intent is a subjective analysis. You have to demonstrate that, in a criminal case, you have to demonstrate that the defendants had subjective intent.

And I won't go through all of the, obviously, the testimony in the record. Here is a question and answer from President Trump's testimony:
"How did you know the banks did not pay much attention to your statements?
"ANSWER: Because I have been dealing with banks for 50 years. And I probably know banks as well as anybody. And I have borrowed a lot of money. I have paid back a lot of money. And I know what they look at. They look at the deal. They look at the location. They don't want to get involved in financial statements because that's not what they are after. If a deal goes bad, they want to be able to take the deal back over and, you know, have it. They want you to be able to put up some cash, or whatever it is you may be, including expertise, but they don't want to be fighting for ten years over a personal financial statement. They want to take over the deal."

So that testimony negates subjective intent. If his view, based on 50 years of experience, is I am going to give this statement over and they are going to understand it to be my opinion, compilation statements by definition are the opinion of an owner or the person that prepared them. So there is no assurance of anything other than that. That it is, by definition, an opinion. But if subjectively based on his experience he knows doing deal
not credible and not to be believed.
In response to another question. "That's not my question," Mr. Wallace said. "My question is whether you would actually use them to obtain financing.
"ANSWER: I would give them, but I don't think anybody paid much attention to them because of the disclaimer clause."

Which I'll come back to.
"And because generally that's not the way to do it. Again, I have been doing it for 50 years and they look at the property."

There are multiple examples where he continued this testimony, despite many different ways of asking him the question. Which is fine, that's cross examination. But it negates fully any intent to mislead or defraud. The knowledge of disclaimers in 50 years of industry experience goes to the state of mind of President Trump, and the other defendants for that matter, when the statements were given over.

Additionally, President Trump testified that he "gave Mr. Weisselberg and Mr. McConney total authority to work with the very expensive accounting firm."

We heard about that a lot.
"And they worked with the accounting firm, and they came up with a statement."
after deal after deal after deal with banks, that they are not going to do anything other than say, thank you President Trump, for your opinion. We are going to go do our own homework now. And in fact, that's what the record shows.

THE COURT: I think you are assuming that I believe him.

MR. KISE: Well, I am certainly suggesting that you should, because there is no evidence to the contrary. There is certainly no evidence to the contrary is the point. I mean, they haven't introduced any evidence that you shouldn't believe him, other than them running around saying as many times as the Attorney General can possibly get it out of her mouth that he is a fraud, he is a fraud, he is a fraud, he is a fraud.

But, you know, what building has the Attorney General built in this community? What expertise does the Attorney General or any member of her staff have in the commercial real estate sector? What understanding do they have? Do they have 50 years of understanding how bank deals are done? Do they have 50 years of understanding how negotiations are handled, as to what banks rely on and what they don't? If you are trying to prove subjective intent, then you need to establish that there is a basis to say, other than just saying it, that the individual is

Page 3868
Well, New York Courts have held that plaintiffs, if there is no good faith, if there is no evidence -excuse me. If there is no evidence to suggest that a defendant's reliance on accounting professionals was other than in good faith, then there is no evidence of intent.

And I would cite the Abrahami case 224 A.D.2d at 233, I believe.

And the Dillard case 271 New York 403.
It is beyond reasonable for any CEO in a major corporate enterprise to rely on multi million-dollar accountants and staff when -- when dealing with financial matters. So again, there is no evidence of intent. The disclaimers also -- the inclusion of the disclaimers negate intent, whatever the Court may think about the disclaimers substantively, which as you know we disagree with strongly.

THE COURT: And I wrote extensively, or at least pointedly, about the disclaimer and the worthless clause, and I believe the Appellate Division affirmed me on both. They are not defenses at all. But I'll let you make your record.

MR. KISE: Whether they are substantive defenses or not, a point which we will allow the Appellate Court ultimately to decide.

THE COURT: They already did.
\begin{tabular}{|cc}
\hline Proceedings & Page 3869 \\
\(\mathbf{1}\) & \multicolumn{1}{c}{ MR. KISE: Well, I mean, again, respectfully, I } \\
2 & would disagree with that. But I -- that's why it is up on \\
3 & appeal now. \\
4 & But in all events, the inclusion of the \\
5 & disclaimer itself and the knowledge of that inclusion and \\
6 & the testimony you have heard, negates subjective intent. \\
7 & If President Trump knows that when he hands this to \\
8 & someone that it is telling them on its face, these are my \\
9 & opinions. The compilation is, by definition, a \\
10 & corroborated opinion -- an uncorroborated opinion. The \\
11 & disclaimers tell the banks what is being provided and not \\
12 & being provided. And they notify the users, like Deutsche \\
13 & Bank and Zurich, do your own analysis. If that's what is \\
14 & in his mind, it is not possible for him to form subjective \\
15 & intent to defraud. Whether you think it is a defense or \\
16 & not, is a completely separate matter. \\
17 & Whether it actually survives as a defense, which \\
18 & again, we think it is a full and complete defense, but \\
19 & whether it is or it is not, it is certainly a defense to \\
20 & intent, because it goes to the state of mind of the person \\
21 & providing the statement itself, the SOFC. I know that \\
22 & there is a disclaimer in there. \\
23 & THE COURT: Wait a minute. I am sorry to \\
24 & interrupt. And I want to give you -- \\
25 & MR. KISE: No, you can.
\end{tabular}
Proceedings Page 3870

THE COURT: I want to give you your due. But you seem to be saying the fact that somebody says don't believe me, which is not what it says anyway, but don't believe me, proves that they are not lying? Or --

MR. KISE: It proves that they have no subjective intent to defraud. Because why would you -why would you put a bank on notice to do your own homework? Why would you tell them, don't rely on me? Why would you say, hey, this is my opinion. This is what I think, you go do your own homework.

As you heard President Trump testify, in the industry, I mean, often they don't even put statements together.

THE COURT: I see your point. Okay. Thanks.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

MR. KISE: Back to materiality. As stated, the Attorney General cannot ignore materiality, and it permeates the complaint. It permeates the documents, and it permeates the governing law here. But from the opening statement the Attorney General makes clear their approach to materiality. The Court has already found that the People submitted conclusive evidence that between 2014 and 2021, the defendants overvalued the assets in the statements between 812 billion and 2.2 billion per year.

There's no world in which that an overstatement of that size -- there is a typo there. I'm sorry. There's no world in which an overstatement of that size is not material.

So, in fact, the Attorney General's position is that the ruling by this Court on summary judgment meant that what the banks thought and did, just doesn't matter. And that's just completely inaccurate. It does matter. It -the materiality must be viewed, and we are going to get there. I'm going to show the Court concrete examples of this through the Haigh testimony and the documents, that, in fact, there is a world in which a difference of that size -I'm not going to call it an overstatement -- a difference of that size is not material. And it's the world we are living in right now. It's the real world that these transactions were negotiated and consummated in.

Page 3872

And the standard under New York law for materiality is that in all probability the omitted or misrepresented facts would, in view of the circumstances, have assumed actual significance in the deliberations of, in this case, a reasonable shareholder, or a bank or investor; that's the Essner case 124 Misc., M-I-S-C \(2 d 830\).

THE COURT: Your position is that no witness testified that they would have regarded these discrepancies as material.

MR. KISE: I don't believe they did. In fact, the witness -- the bank witnesses, and I'll show you that testimony, they never asked them if they would have made any different changes. Let's look at that, because the bank employees, Mr. Haigh and Mr. Weisselberg make clear that the materiality was not demonstrated.

The Attorney General never asked Mr. Haigh if anything would have been done differently. They never asked Jack Weisselberg about if anything would have been done differently. Moreover, the bank considered many, many, many other factors, not just the SOFCs in determining loan approvals and pricing. There's testimony in the record for this. Those factors included the nature of the collateral, the quality of the collateral, the loan to value ratio, the bank's lending history, the actual lending experience with the customer, the bank's experience in a particular

1 industry, the client's experience in a particular industry, 2 the client's performance in a particular industry, the

23 approvals were based on the Deutsche Bank adjusted values.
24 And those -- and I'll show you the specifics here in a
25 moment, your Honor. And you may recall them. Those

THE COURT: I'm just asking whether any bank employee said, we would have viewed it differently if we had known B instead of A.

MR. WALLACE: Mr. Haigh said that in his deposition, but we didn't put that in front of him at the trial.

MR. KISE: It's not in the trial. Whether he said it in the deposition, it's not in the courtroom.

THE COURT: Okay.
MR. KISE: So if they are satisfied with their adjusted values, I'm not conflating the concepts of materiality and reliance, your Honor, respectfully, but they are interconnected. And I don't think there's a bank that doesn't want to have the federal regulator standing on top of them for the rest of their existence that would ever testify, we deem something to be material, but we went ahead anyway. It's not plausible to conclude that.

So there's no even theoretical argument that the approvals, the rates or terms, would have been any different because the banks own analysis and rationale demonstrates that it wouldn't. And so the Attorney General cannot simply come along an substitute her view of what's material and say it's material.

And I'm just going to use the 2014 year as, you know, we went through each year, but I'll just go with the

Proceedings
Page 3876
2014 year. You could see from the highlighted language, approval of the various credit facilities; Doral, Trump Chicago, Trump Old Post Office, are being recommended based on, we have three items listed there. The first is the financial strength of the guarantor. If you'll notice that language that is so pesky for the Attorney General that they don't want anyone to pay attention to, "on an adjusted basis" -- we're gonna flip over to the next slide so you see what that means. On an adjusted basis the financial strength of the guarantor. It doesn't say on basis that he told us. It says on our basis, on an adjusted basis. Mr. Haigh testified repeatedly, I think the Court, frankly got tired of hearing it over and over again, that yes, those are adjusted numbers.

The other two factors which are very important, particularly in this context, are the operating experience and the Deutsche Bank relationship. Remember, President Trump was brought into the private bank because as a whole -- you have his testimony -- as a whole, as a bank, as an institution, they believed that this would be a valued customer to them; this relationship would be valuable to them. And as the record reflects and as history establishes, they were right. He was a valuable customer for them. He made lots of money for them. They got deposit relationships. And it was only because he became President

1 of the United States, and that created all sorts of 2 political complications, that they ceased doing business
the 2014 credit memo. You see the Deutsche Bank valuation and the client valuation. And again, there is 1.5 to \(\$ 1.7\) billion differential -- 1.5. We'll call it 1.5 , differential between the client reported valuation and the client reported net equity, and the Deutsche Bank valuation and the Deutsche Bank adjusted net equity. And as we saw from the two slides before, and as we know from Mr. Haigh's testimony, the numbers that Deutsche Bank relied on, their numbers, their own numbers, and they were satisfied with these wide differentials.

Just briefly on materiality, two more points. William Kelly, the General Counsel of Mazars, testified that "Mazars never determined that there were any material discrepancies with respect to the Statement of Financial Condition -- Statements of Financial Condition that it prepared for President Trump from 2011 to 2018."

Mr. Larson, an appraiser from Cushman \& Wakefield, who you know I have some question as to his veracity, but nonetheless, he certainly testified, the Attorney General's own witness, that there was absolutely nothing to prohibit President Trump from conducting his own valuation of his property and the valuations never needed to be conducted by an appraiser.

So when you couple that testimony, and bear in mind that all of the witness testimony we are talking about are

1 Attorney General witnesses, they are not even our witnesses. None of them have done anything to establish materiality. And this point has been ignored by the Attorney General, because as I began, they are relying on your determination and their view that, well, the numbers are so large it must be material. But materiality is measured in the real world by reel participants. In this case the banks that came before this court. There's no evidence of materiality, and the claim, on that basis alone, fails.

I'll talk briefly on insurance fraud. First of all, in our view, there's no evidence that the SOFCs, were material to the underwriting decisions. And importantly, there's no evidence of any false written statement submitted to insurers. Ms. Markarian testified that Allen Weisselberg allegedly told her SOFC values are based on appraisals. Mr. Holl, H-O-L-L, testified about certain verbal representations during a meeting, but he couldn't attribute any statement to any specific person, and therefore, you can't hold defendants liable, in general, but there's no false written statements to insurers, so those claims fail.

Conspiracy. Conspiracy requires an agreement, most importantly. The heart of any conspiracy is agreement. An agreement between two or more parties, an overt act in furtherance of that agreement, the parties' intentional participation in the furtherance of a plan or purpose, and
resulting damage or injury. This is the Abacus Federal Savings Bank case, 75 AD3d 472. We also cite the Court to the Robinson case, 259 AD2d 280.

So here, there is no proof whatsoever of any agreement to commit a criminal act. The agreement to prepare and submit SOFCs is not an agreement in and of itself to commit a criminal act. And there's no evidence of any intentional participation in any plan/purpose in furtherance of a criminal act.

There is also no evidence of resulting damage or injury. As I began, there are no victims here. There's no fraud. There's no complaining witness. There's no defaults, there's no later missed payments. These are all profitable transactions.

There's no evidence of agreement. The Attorney General's star witness. I know that the Attorney General says, no, Michael Cohen is just a small part of our case. Really, it doesn't matter. Right on that screen, Michael Cohen was featured. They played his testimony in the openings. Donald Trump told me to do A, B, C, D, E, F G. He was showcased. Now the Attorney General, herself, retreats from his -- no other way to describe it -- pathetic performance. I mean, he is not credible. He admitted to perjury. In fact, I think -- I didn't go back and count -I think he lied, he admitted to lying in just about every

1 court he's ever appeared in.
Importantly, he finally admitted, after
Mr. Robert's cross examination, that President Trump never told him to inflate the statements. He said on redirect, and this I think is the most astonishing part of Mr. Cohen's testimony, that somehow or another President Trump speaks in code.

I mean, you saw him on the stand. I don't think when he was addressing Mr. Wallace, or talking about the Attorney General, or talking about the allegations, or anything else, this is not a man that speaks in code. I could assure you personally, this is not a man that speaks in code. Anyone that has been around President Trump for more than 15 minutes knows you will know what it is that he wants, and you will know exactly how it is that he intends for you to get there. This is not someone that speaks in code.

So the idea that Michael Cohen tried to rehabilitate himself on redirect after demonstrating he lied and lied and lied, well, he never really told me. He just speaks in code, is preposterous.

THE COURT: Can I bring up something not in the record, but a matter of public knowledge? I think the perfect call with Zelenskyy about the military aid, there might have been code rather than straightforward talk.
elements, then that statement doesn't come in.
Even if it came in, that statement, alone, is not proof of any agreement or any criminal act. The statement is purportedly, "Mr. Trump wanted his net worth to go up." Well, that, on its face, is not evidence of guilt or criminal conduct.

I think I believe President Trump himself said, "Well, who doesn't want to it go up?" I mean, you are going to tell people, "I would like it to go down." You know, I would like it to go down. The statement itself proofs nothing, even if it's admissible, which we believe that it's not.

Briefly, on two points about specificity, because we argued the criminal statutes. The Attorney General has failed to establish individual claims against each defendant. There's no specific proof of liability, specific conduct. I mean, look at Seven Springs, DJT Holdings, DJT Managing Member, Trump Organization, Inc. and LLC. The parties to the loans and the guaranty are very specific parties. They are set forth in the governing documents. So Seven Springs didn't prepare an SOFC or certification, DJT Holdings didn't, Trump Org, Inc. did not, Trump Org, LLC did not. The trust did not prepare and submit the SOFCs at the loan inception, at least. And so there's no separation of any kind. None of the defendants are specified as to the

Proceedings
Page 3884
insurance fraud claim. It's just simply insurance fraud and defendants. And the Attorney General cannot simply just conflate all of the defendants together. There's no basis in the record to disregard the corporate forum. And the Attorney General has failed completely to attribute specific criminal conduct to specific defendants, which is the statutory burden.

They've also -- the Attorney General has also failed to establish specific defects. So the Attorney General's position which, you know, we disagree with, but their position is is that each SOFC submission or certification constitutes a separate act. But there's no actual evidence specific to each act.

The Attorney General, just in the record, has conflated the 2011, 2021 period without specific proof, year by year. There's no specific delineation as to each defect year by year. So the evidence has sort of wandered, um, I think some of the media has observed this, that each day we move from the 2014 Statement of Financial Condition to the 2013 spreadsheet, to a 2016 e-mail, back to a 2012 document. There's -- it's just sort of this meandering presentation, which at least where I'm from we call it a spaghetti method. You throw it all up on the we'll and let's just see what sticks, but there's no attempt to establish the materiality of each alleged defect or each separate SOFC, or each

1 separate certification. And the Attorney General cannot

\section*{Proceedings}

Page 3886

\section*{Medical case, 106 AD3d 40.}

So here what you have is no victim, no complainant, no loss, no nothing, and a request for disgorgement based on ill-gotten gains that haven't been established to be, in the record, ill-gotten, all directed at the agency, the prosecuting agency, the Attorney General. There isn't anything to recompense.

I'll bring up briefly, for context purposes, the statute of limitations, because I think it's appropriate here in the discussion of the disgorgement.

Any transactions closed before July 13, 2014, are not subject to any sort of financial disgorgement. They cannot be included in the calculation. So the only remaining loan claims would then relate to the OPO loan and/or the 40 Wall Street loan; that setting aside the issues as to the application of the tolling agreement. But just as a broad proposition, prior to July 13th, 2014, that's a hard stop. So there cannot be any disgorgement as to transactions closed before July 13, 2014 loan transactions or otherwise.

They cannot seek disgorgement as to contracts awarded to the OPO contract, the Ferry Point contract before July 13,2014 . And this chart, which you have seen before, sort of lays that out. It lays out the relevant dates. The Seven Springs loan was in July of 2000. The Trump Park

Avenue loan was July 2010. The Ferry Point contract was 2012. The OPO bid selection approval was 2012. The Doral loan was in 2012. The Chicago loan was in 2012. The OPO contract and lease was in 2013. So all of those long well predate the 2014, July 13, 2014, date.

So then the only other transactions as I mentioned that are even theoretically viable, setting aside the tolling agreement, would be the OPO loan of August 12th, 2014, which is just across the July 13th line. And then the 40 Wall Street loan on 2015. Again, those transactions, because there hasn't been materiality, hasn't been the requisite establishment, we would say there's no basis to award any disgorgement. They are particularly based on the disgorgement case law that I referenced. There is nothing to recompense. But in all events, those transactions would be the ones only theoretically viable.

THE COURT: What if a loan was closed, money transferred prior to the statute of limitations cut off, but the loan was still outstanding and interest was affected, and let's assume that the loan was obtained through fraudulent means, or the particular interest rate was obtained through fraudulent means. Wouldn't the borrower still be benefitting after the statute of limitations bar?

MR. KISE: Um, no, because you now have to look at the certification, as the Attorney General has requested
that you do, on a free-standing basis. What were the impacts of that certification. And I have a slide on that, but I'll certainly answer your question, your Honor.

What would the impact of that certification be on the loan terms itself? What would change? What difference would there be? We can't -- we can't use the concept of, well, I could look backwards to defeat the statute of limitations. I mean, that's why, respectfully, we believe that the First Department said what it said. I know there's a disagreement; that will be the subject of later proceedings, but that's why when you are dealing with a loan transaction, a transaction of this nature, you have to look at it at the time the agreement is consummated. And all the subsequent certifications, whether they are false or not, we say they are not, but even if they are, they don't carry with them a corresponding damage component because the bank -- the die is cast. I mean, the deal is done and it's moving forward.

And to the extent that there is an opportunity to alter the trajectory, that would be pursuant to the express terms of the loan agreements, which you have in the record. The bank and the borrower contemplated expressly in that agreement the exact scenario that the Attorney General is now bringing before this Court, which is what happens if this representation isn't met? What happens if that
representation isn't met? All of that is the subject, the core of the agreement between the parties, and for the Attorney General to interject herself into the private marketplace to this degree is both startling and, and, you know, frankly, frightful, because the parties themselves are in the best position to determine how they want to proceed with one another.

And if they anticipate specific circumstances, then they anticipate those. And if the bank is defrauded, they are perfectly capable of coming to the Attorney General to affording themselves to the remedies in the documents. But we don't get to, as Attorney General, ten years later rewrite the terms of a contract and say, "Well, I know that Deutsche Bank didn't believe that this was material." "I know that Deutsche Bank didn't view this these vagaries and the statements and the valuations as material or important, but we do." That's a substitution of judgment which is based on total speculation. There's no record of any ill-gotten gains. There's no testimony or evidence the approvals, the terms or rates would have been different.

The Attorney General is ignoring the multiple factor underwriting analysis. The Attorney General is ignoring the realities of marketplace. There's not even any proof that the loans, based on their concocted theory, would have ever been agreed to higher rates, meaning, that the

MR. KISE: Well, you know our position. There is no way to unwind that analysis, particularly here where the bank itself is telling you -- well, strike that.

The bank hasn't told you that anything would have been any different. The bank hasn't said, wow, if I had known that certification wasn't accurate, I would have acted differently. Most likely what the bank would have done is they would have determined, okay, I have got performing loans. Banks don't want to foreclose on loans. Bank don't like to declare defaults. Banks like, what, making money off of performing loans, that's the business they are in. So if the loan is performing, if the collateral is otherwise secure, both things that are in the record here, if there is no risk or little risk of actual substantive default. Then it is up to the bank. It is up to the private parties to determine, I think in some years actually based on the Deutsche Bank analysis, if we were to go back and look year by year, which I won't, but I think in some years maybe even on our slide. Let's just look at that briefly.
Here. So right here in 2012 Deutsche Bank credit memo. Their own analysis, their own adjusted value has the net worth at 2.436 billion. So by their own analysis they would say, oh, well, he is not meeting the threshold. That's their own analysis. They obviously

Page 3890
parties would have come to some agreement.
THE COURT: Hold on. For present purposes, I'll agree with you, without prejudice, that the certifications, the subsequent year certifications would not change the terms of the loan. But my question is -- it's a hypothetical, almost; a rhetorical question.

If the loan was obtained pre-statute of limitations and under false pretenses, but the borrower is still benefitting post-statute of limitations based on the interest rate, I don't know, maybe disgorgement is possible for that. I'm not taking an official position. I'm just raising a question.
(Continued on the next page.)
didn't complain about it.
In fact, not only did they not complain about it, they approved the loans and the credit facilities. They continued doing business year after year after year after year.

And so again, I am back to, this is what happens in the real world, not the land of make believe, not the Attorney General's world.

THE COURT: By the way, this is sort of an offhand point. The chart that you were working with, the fact that the defendants or Trump Organization put \(X\) dollars, as claimed to have a value of X dollars, the fact is that the bank said, no, it is X minus Y , it is not 4 billion, it is 2 billion, maybe that means they don't trust him.

MR. KISE: It means what Mr. Haigh testified to, they don't trust anybody. No one trusts anybody. What bank would? They will not be in business for very long, and the regulators will be all over them. Their job is to conduct the exact analysis you see here, particularly in the commercial sector. They can't just say, oh, well, that's very nice President Trump, you are worth \(\$ 10\) billion, \(\$ 50\) billion \(\$ 5\) billion, whatever number, here, how much money do you want, let me take it out of my pocket. That's not how any commercial lender works. I

1 think we can all speak from personal experience on dealing
with borrowing for homes, cars, anything on an ordinary sense. No lender takes your word for it. That's why we have credit reports and we have all of these checks and balances. The whole purpose is to make sure that at the time the loan is consummated, whether it be a personal loan for a home or a giant commercial loan that is at issue here, that the parties have developed an understanding with each other as to the relative pros and cons of the deal, and that's what they have done here.

And Deutsche Bank, yes, they discounted it heavily. And back to where I began, they -- they determined that a \(\$ 2\) billion differential was not material to them. So it is not really a matter of not trusting President Trump or the Trump Organization, it is a -- I think if you were to look at any of the deals in the commercial real estate center, you are going to see these wide disparities. They are looking at it from a different purpose as well.

So there is no proof that the OPO would not have been made, the OPO loan. There is no proof that the OPO loan terms would have differed. There is no proof that the 40 Wall Street loan would not have been made. There is no proof that the 40 Wall Street loan terms would have differed. There is no proof in the record that the OPO or

And the guaranty is at 10 percent, so the net worth covenant was at 250 million on Doral and not 2.5 billion. And so therefore, I don't think there is any allegation, even from the Attorney General, that President Trump's net worth fell below 250 million at any point.

So there is no possible basis, even theoretical, for disgorgement on the Doral or Chicago loan after the step down or the elimination of the guaranty.

So Mr. McCarty's -- and I am closing here to be mindful of the time. Mr. McCarty's analysis is, I don't want to be pejorative and use the word comical, but it is disconnected from reality. He develops his own absurd construct. He ignores the bank officer testimony. He ignores the plain language of the loan agreements, never looks at the step downs, never looks at the elimination, never looks at the default rate. He simply substitutes his judgment for that of the sophisticated counterparties who negotiated this with high-powered counsel, lots of back and forth.

So the Attorney General is just using Mr. McCarty, and apparently he is willing to be used in this regard, to back fill a gaping hole in the case, that there is no ill gotten gain. So we can't prove it so the Attorney General decides let's just make it up.

So these cases you heard us cite before, I will
\begin{tabular}{|cc|}
\hline Proceedings \\
1 & Ferry Point contracts would not have been afforded. And \\
2 & there is no proof that any of the certifications could \\
3 & have possibly impacted these rates and terms. \\
4 & Now, you have done me the favor of foreshadowing \\
5 & exactly what I was going to put up. Which is, we had this \\
6 & colloquy, I believe it was yesterday, or Monday. \\
7 & The AG's -- the Attorney General's only \\
8 & remaining theory relates to these certifications, but \\
9 & there is no proof in the record that post-closing \\
10 & certifications could possibly impact approvals, rates or \\
11 & terms. And you yourself agreed, at least \\
12 & conversationally, you will have to make the ultimate \\
13 & determination, but I agree with your logic that a \\
14 & certification in 2017 doesn't affect anything directly \\
15 & about the original loan, how it was negotiated, how it was \\
16 & finalized. \\
17 & So the Attorney General ignores all that. The \\
18 & Attorney General also completely ignores the guaranty and \\
19 & step down -- the step downs and the guaranty and the \\
20 & elimination. You know, with Doral and Chicago loans, \\
21 & which still feature prominently in their expert's opinion, \\
22 & the evidence establishes that the Doral guaranty went down \\
23 & to 10 percent and the Chicago guaranty was eliminated. So \\
24 & at that point there is no, even, theoretical impact of the \\
25 & certifications, because there is no longer any guaranty.

The Gathers case 242 A.D. 2 d 506.
The Quinn case 203 A.D.2d 444.
The Ortiz case, which you heard about many times. And I think you probably think that's my favorite. I do like that one, because the Ortiz case frames it well. You can't have an accident reconstructionist when you have eyewitnesses to the accident testifying and saying X . The accident reconstructionist is not allowed to come in later and say no, no, no, no, this is what really happened.

The Ortiz case is found at 19 A.D.3d 239.
And then the last case I'll cite to the Court is the 91 st Street Crane Collapse Litigation. 154 A.D.3d 139.

All of these cases stand essentially for the proposition that experts opine on the evidence. They don't manufacture the evidence. They don't substitute their opinions. They can't contradict facts that are in the record.

So McCarty simply adopted this Court's position on summary judgment without -- assuming facts not in evidence. Didn't give any -- pay any heed to what the Deutsche Bank testimony was, what the Ladder Capital testimony was. Or more importantly here, what it was not, because there is no indication, as I have said, that

1 anything would have been differently. So Mr. McCarty
offers only to substitute his judgment for the judgment of the sophisticated private actors who underwrote and negotiated what, without question, are highly successful business transactions. It is not disputed.

The Frye standard and the cases that I cited simply do not permit this kind of expert by speculation. There is nothing in the record to suggest the banks would have denied approval, altered the terms of the loan based on additional information. And this is important, you heard me say this before, because the Attorney General never asked them.

And it is fair for the Court to conclude that they didn't ask because they knew they were going to get an answer they didn't want. So they decided, let's roll the dice with Mr. McCarty.

Mr. McCarty, you know one thing, it is
interesting, maybe even more than one about his testimony, is in response to, I believe it was a question from the Court, he himself testified he could not -- he couldn't state with any reasonable degree of certainty as to what the banks actually would have done. The Court, you prompted him:
"It is a yes or no question, are you certain they would or would not have, whatever, offered a loan on
certifications and the covenants themselves, I mean, with the 40 Wall Street loan, there is not even any question in the courtroom presented that President Trump always met those thresholds. Always. So there is no impact, it is not even theoretically possible that there would be -would have been any impact on the rates, the terms, the approval process, none of it.

So in sum, we submit that the Attorney General has failed to establish a prima facie case. There is no proof of intent. There is no proof of materiality. There is no specifically attributable contact to each defendant. There is no specifically identifiable conduct with respect to each SOFC and certification each year. There is no entitlement to disgorgement.

And what we have here is the Attorney General seeking to impose liability for profitable transactions, to substitute her judgment for that of the banks. And frankly, her judgment for that of a person who has been involved in the commercial real estate industry for 50 years.

I am not sure about the Court but I know if I had money to invest in commercial real estate and my choices were Donald Trump or Attorney General James, respectfully, I would certainly go with Donald Trump, because I know I am going to make money there. I don't
those terms. Are you certain?
THE WITNESS: It is a hypothetical question. I can't be certain."

That's exactly the point.
Mr. McCarty even confirmed there was no violation of the 40 Wall Street loan covenants. The colloquy that ensued on cross examination:

You would see here that the covenant that it describes is that the key principles must maintain a net worth equal to at least 160 million and a liquidity of at least 50 million.
"ANSWER: That's correct.
THE COURT: I think principals is spelled wrong.
MR. KISE: It is. It is. I think this is in the record though, sorry. It is though, I noticed that.
"QUESTION: And the key principal described in this document is Donald John Trump?
"That's correct.
"QUESTION: Do you have any reason to believe during the life of this loan Mr. Trump didn't maintain a net worth equal to at least 160 million and a liquidity of at least 15 million?
"ANSWER: No. I don't think there was any violation of this covenant."

So back to your -- the question you posed about

\section*{Proceedings}

Page 3900
know about the Attorney General. Her opinions in the real world don't matter. What matters in the commercial private sector is what do these parties have to say.

And the Attorney General is not pursuing any wrongdoer. She is pursuing a political opponent. I am not speaking out of turn or politicizing it, but he is a political opponent. There is no fraud. There is no victim. And respectfully, Your Honor, there is no liability as to counts two through seven, nor any basis for disgorgement.

> Thank you.
> I believe Mr. Robert has something.
> THE COURT: Okay, Mr. Robert.
> MR. KISE: If I have left him time.
> MR. ROBERT: Can you hear me, Your Honor? THE COURT: Yes.
> MR. ROBERT: Good morning.
> THE COURT: Good morning.
> MR. ROBERT: I will be brief, as is usually my custom here. But I don't want my brevity to be misconstrued as a lack of importance that your decision will have on the impact of my clients in particular and their future. Or any indication of a lack of how strongly we feel that directed verdict should be granted in favor of my clients.

I think it goes without saying that obviously I join in Mr. Kise's arguments on behalf of Eric Trump and Donald Trump Jr. that we request a directed verdict in this matter.

What I want to spend my few minutes discussing is, what I believe the New York Attorney General has not proven as to my clients. And since they have rested their case, therefore we believe we are entitled to a directed verdict.

What I believe is clear is that the Attorney General has not proven that my clients were involved in the creation of the Statement of Financial Conditions. They were not involved in the preparation of it; in assembling the backup to it; in reviewing the supporting data spreadsheets to it; in performing the calculations or, quite frankly, in determining the methodologies used in the Statement of Financial Condition.

I know throughout the course of the trial there were exhibits, and we are going to talk about those this morning. But respectfully, the Attorney General is so desperate to make a connection between, for example, Eric Trump and the Statements of Financial Condition, that they actually used an e-mail from 2010 that attached an NDA that wasn't signed that had a reference of a Statement of Financial Condition, I think it was in the second
would respond. I don't think it ever registered that it was for a personal Statement of Financial Condition. It was just a detail that was irrelevant to me."

Based on testimony like that, I respectfully submit that the Attorney General cannot show any intent for the remaining causes of action as relates to Eric Trump.

As to Donald Trump Jr. let's look at his testimony from November 1, 2023, page 3213 starting at line 21:
"QUESTION: Did you ever perform work on the Donald J. Trump Statement of Financial Condition for any year.
"ANSWER: Not that I recall, no.
"QUESTION: No specific knowledge, sir?
"ANSWER: No."
But obviously, parties to a case have an interest in the outcome of the case. Your Honor is able to deal with credibility issues. But let's look at what the other witnesses you heard from so far had to say about the involvement or, as I'll respectfully submit, the lack of involvement of my clients in this case. Although I know Your Honor hates arguing in the negative, but here I am going to need to do a little bit of that to show, respectfully, what it is that we believe the People have

\section*{Proceedings}

Page 3904
not been able to prove.
As to Eric Trump, let's start with one of the earlier witnesses in the case who was Camron Harris, from the Whitley Penn firm, the current accountants for the Trump Organization. And let's turn to Mr. Harris' testimony of October 4, 2023, page 455, line nine:
"QUESTION: I asked you if you had any meeting with Eric Trump that discussed the Statement of Financial Condition.
"ANSWER: No, I did not."
Mr. Harris continuing on page 458, line 19.
"So while not specifically, did you have any meetings in which the Statement of Financial Condition would be a part of the discussion?
"ANSWER: I did not have any meetings with Donald Trump Jr. or Eric Trump in regards to the Statement of Financial Condition."

We then can move to the testimony of Donald Bender, who you heard ad nauseam was the long-time accountant for the Trump Organization, had been paid to his firm millions of dollars, representing them for years and years. Let's go to Mr. Bender's from October 5, 2023. Page 526, line three:
"QUESTION: Mr. Bender you never spoke with Eric Trump about his father's Statement of Financial Condition,

1 its -- owners are a great source of information, but ultimately, you know, I have to come up with my own conclusions."

Eric Trump is not running away from the fact that this would have been a conversation he would have had with the appraiser. It doesn't mean that any of the conversations he had were nefarious or done for any ill purpose.

We can continue with Mr. McArdle on page 2034 of the same date:
"QUESTION: Would you agree that as an owner of the property Mr. Trump -- Eric Trump, is entitled to have his view?
"ANSWER: Yes. We always seek out an opinion. Its fair to obtain their input."

So here we have another witness who was an impartial witness who didn't have a problem with what Eric Trump had done.

Now, we have heard ad nauseam about Michael Cohen. And I agree with Mr. Kise that it appears that in every court he has ever testified in, he has lied. But there was actually something that even he couldn't lie about. That's on October 25, 2023, page 2328, starting at line one:
"QUESTION: And you never discussed the SOFC
\begin{tabular}{|cc|}
\hline Proceedings & Page 3906 \\
1 & October 19, 2023, starting on page 1933, line 15: \\
2 & "QUESTION: So two questions here. Toward the \\
3 & bottom of that long first paragraph it says "of course \\
4 & Eric Trump has lofty ideas on value and assumes 1,000 PSF, \\
5 & per square foot, is no problem. First, had Eric Trump \\
6 & communicated his understanding of what the values might be \\
7 & on this property? \\
8 & "ANSWER: Well during the course of this \\
9 & engagement, I did have conversations with Eric Trump. \\
10 & Some of it was about gathering the physical data that we \\
11 & just spoke to, you know, construction costs and building \\
12 & configurations and units. And he did a great job of \\
13 & describing the physical nuances of the project. And -- \\
14 & but importantly, you know, we ended up speaking about what \\
15 & they could sell for. And you know, Eric loved this \\
16 & project. He thought it was very special. I didn't \\
17 & disagree with him. I think it is a very unique project \\
18 & and it would definitely appeal to high-end buyer -- to the \\
19 & high-end buyer interested in, you know, low rise attached \\
\hline 20 & housing with the amenities that this project might offer. \\
21 & So he shared his thoughts. He thought it was \\
22 & very special and unique. And at the time that \$1,000 per \\

24 & reasonable, you know. \\
25 & "And I am perfectly willing to listen. I think
\end{tabular}

1 Trump Jr. And I'll respectfully submit to you that the

Attorney General has failed to show that Eric Trump acted in an inappropriate way, in that as a senior executive in a large company, he relied on others to assist him in understanding whether the certifications were appropriate, and as Mr. Kise set forth, the certifications said that they were true in all material respects. Let's go to Mr. Eric Trump's testimony from October 3, 2023, page 3442 , line eight.

Being questioned by Mr. Amer:
"QUESTION: Now, we have just looked at three certifications you signed stating that your father's 2021 Statement of Financial Condition presents fairly in all material respects the financial condition of your father as of June 30, 2021.

Can you tell us what, if anything, you did to ascertain that the 2021 Statement of Financial Condition in fact presents fairly all material -- in all material respects, the financial condition of your father as of June 30, 2021.
"ANSWER: I relied on a very big accounting office. I relied on one of the biggest accounting firms in the country. And I relied on a great legal team. And when they gave me comfort that the statement was perfect, I was more than happy to execute it.
"ANSWER: Not that I recall."
Moving onto Allen Weisselberg, October 10, 2023 testimony. Page 964, starting at line three:
"I believe you told me earlier Donald Trump Jr. was also a Trustee at this point in time?
"ANSWER: Yes.
"QUESTION: What, if anything, did he do, to your knowledge, to determine the estimated current value?
"ANSWER: I don't believe he did anything. It was -- it was done by the same people that did it for 25 years."

Going on to page 965 , line 20.
"QUESTION: Did you tell Donald Trump Jr. during the time that you were both trustees how the values were calculated?
"ANSWER: Not that I can remember."
We go back again to even Michael Cohen, who said the second thing that was truthful, which he could not deny. Page 2327, line two:
"QUESTION: Okay. And you never discussed the Statement of Financial Condition with Donald Trump Jr., did you?
"ANSWER: Not that I recall."
We then move to the Claudia Markarian transcript which, again, is from June 28, 2023. I don't need to read
\begin{tabular}{|cc|c} 
Proceedings & Page 3910 & Proc \\
1 & "QUESTION: Did you personally review any of the & 1 \\
2 & methodologies used to value any of the assets in the 2021 & 2 \\
3 & Statement of Financial Condition; yes or no? & 3 \\
4 & "ANSWER: No." & 4 \\
5 & I respectfully submit to this Court that there & 5 \\
6 & is no basis of which the Attorney General has laid out a & 6 \\
7 & prima facie case of remaining claims against my client, & 7 \\
8 & Eric Trump. & 8 \\
9 & Turning to Donald Trump Jr. and his involvement, & 9 \\
10 & if any, with his father's Statement of Financial & 10 \\
11 & Condition. & 11 \\

\end{tabular}

\section*{Proceedings}

Page 3912
it again to Your Honor. We dealt with it before. But it was: Did you speak to Donald Trump Jr? And the answer was "no."
So, again, moving to the certifications in Donald Trump Jr. as well. Again, these officers and directors of the company acted appropriately. And as Mr. Kise outlined in his presentation, the Attorney General has failed to show any proof of intent and/or materiality. And I think that goes, we have to look again at the testimony of both Mr. Trump -- Eric Trump and Mr. Donald Trump Jr. As the issue of reliability and what they presented to the banks and the certifications, I would refer you to page 3437 of Eric Trump's testimony, starting at line 17 :
"QUESTION: And when you executed these three certifications, you intended the bank to rely on the certifications; isn't that right?
"ANSWER: I don't know what the bank does with the certifications. I certified something that I believe was accurate, and my lawyers told me that it was accurate, and our financial people told me it was accurate. And that's absolutely accurate.

As to what Deutsche Bank does with a piece of paper like this, I have no idea."

We then have Donald Trump Jr. dealing with the
\begin{tabular}{rc|r}
\hline Proceedings & Page 3913 & Procr \\
1 & same issue. First at page 3238 of his testimony from & 1 \\
2 & November 2, 2023. & 2 \\
3 & And I apologize, Nate, I know I skipped and & 3 \\
4 & changed the order. I do that sometimes. & 4 \\
5 & So we are going to page 3238, starting at line & 5 \\
6 & 25. & 6 \\
7 & "QUESTION: Did you take any steps to assure & 7 \\
8 & yourself of this certification? & 8 \\
9 & "ANSWER: As with all of the certifications, as & 9 \\
10 & I think we discussed yesterday, I would have sat with the & 10 \\
11 & relevant parties, mainly in accounting, whether that's the & 11 \\
12 & Trump team and/or Donald Bender. I would have asked them & 12 \\
13 & if everything that is in here is correct. I would have & 13 \\
14 & likely also checked with our legal department to make sure & 14 \\
15 & that the conditions are met as it relates to anything I & 15 \\
16 & would sign for Deutsche Bank. And if they assured me in & 16 \\
17 & their expert opinion that these things were fine, I would & 17 \\
18 & have been fine with that and signed offer accordingly. & 18 \\
19 & "QUESTION: Is that specific to this particular & 19 \\
20 & certification, sir? & 20 \\
21 & "ANSWER: Well I think I probably would save us & 21 \\
22 & some time and say that's probably specific to all of these & 22 \\
23 & certifications, because I am sure I've signed dozens of & 23 \\
24 & these in my time as a trustee. & 24 \\
25 & We then also go to Mr. Trump's testimony on page & 25
\end{tabular}

1 that they had the requisite intent necessary for the claims that are still the subject of this trial.

And having now heard the testimony of witnesses, not just my clients, but also non-parties and people that have no vested interest in the outcome of this, I respectfully submit that there is no relief appropriate other than having a directed verdict in favor of my clients.

I think it is unfortunate that my clients have been dragged into what I'll say is a fight primarily between the Attorney General and their father. But nonetheless, we are where we are. But now the time has come, respectfully, that we need to put an end to it, and a directed verdict entered in favor of my clients.

Thank you, Your Honor.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
\begin{tabular}{|cc|}
\hline Proceedings & Page 3914 \\
1 & 3249, line 20: \\
2 & "QUESTION: Correct, that you signed this \\
3 & certification with the intent that the bank would rely on \\
4 & it? \\
5 & "ANSWER: I don't know that they rely on it. I \\
6 & don't. I know a lot of bankers and they do their own due \\
7 & diligence. But I was fine saying this based on \\
8 & everything -- \\
9 & THE COURT: Not "saying this" -- "signing this." \\
10 & MR. ROBERT: Thank you, Your Honor. \\
11 & "I was fine signing this based on everything I \\
12 & had been told as per everything we have discussed \\
13 & yesterday, yes. \\
14 & THE COURT: "Today." Not "yesterday." \\
15 & MR. ROBERT: Let me try it again. \\
16 & "ANSWER: I don't know what that they rely on \\
17 & it. I don't -- I know a lot of bankers and they do their \\
18 & own due diligence. But I was fine signing this based on \\
19 & everything I had been told as per everything we have \\
20 & discussed today, yes. \\
21 & So Your Honor, while the burden of proof is not \\
22 & ours, I respectfully submit to this Court that the \\
23 & evidence is clear that my clients had no real involvement \\
24 & in the preparation of the Statements of Financial \\
25 & Condition. The Attorney General cannot possibly prove
\end{tabular}

THE COURT: Thank you. Any other defendants have anything to say?

MS. HABBA: I'll be brief, your Honor. If it's okay I don't need to go up over there.

I have full confidence in my team, and \(I\) join in all of their sentiments. I think they went through, in excruciating detail, why a directed verdict is warranted. Obviously I represent different entities, different individuals. And we do join in everything that both Mr. Robert and Mr. Kise stated.

With that, I just want to highlight the fact that it is the burden of the plaintiffs to prove every element. And while there has been a tremendous amount of noise in this trial for the past few weeks, I think that the law has to be what is held and what is examined here, and just the law.

There are elements that need to be proven against clients that I represent that were not proven. There was no intent. There was no proof of materiality. They are not entitled to disgorgement. Frankly, it was more of a press claim, if you ask me, because they couldn't prove it when they came in here. There was no bank that brought any claims against anybody that is a defendant in this case because there was no damage and there was no victim.

Further, the conspiracy to commit fraud is

1 completely ridiculous, and they have no proof of it in this 2 trial. We have seen numerous people come up, but none of 3 them, none of them showed a conspiracy. And the only one 4 that did, Mr. Cohen, who claimed to say that there was some
\begin{tabular}{lc} 
Proceedings \\
1 & about Michael Cohen retracting his statements after he left \\
2 & the witness stand; is that correct? \\
3 & MS. HABBA: Michael Cohen, as we know -- he has a \\
4 & PR play. I could go on and on and on. He has gone on TV. \\
5 & He has gone on podcasts discussing his testimony here. And, \\
6 & you know, quite honestly it's irrelevant, because I believe \\
7 & what happened in court was the most relevant. He admitted \\
8 & under oath that he perjured himself, and that speaks \\
9 & volumes. \\
10 & THE COURT: My point is, if it was after he was a \\
11 & witness -- \\
12 & MS. HABBA: That's not relevant. To me what's \\
13 & relevant is what happened here, and, frankly, said it all. \\
14 & MR. KISE: As predicted, I wound up on his podcast, \\
15 & as predicted. \\
16 & MS. HABBA: I used to be the only one, but he got \\
17 & in on it. \\
18 & THE COURT: Opposition to the motion for directed \\
19 & verdict? \\
20 & MR. WALLACE: We certainly oppose the motion, your \\
21 & Honor. I really will try to be brief. \\
22 & THE COURT: This is past or normal break time. \\
23 & MR. WALLACE: Should we take a break at this time \\
24 & or just keep going? \\
25 & THE COURT: It depends on how long you are going to
\end{tabular}

MR. WALLACE: I'll try to be brief, your Honor. I will just say that the presentations we just heard sound like closing arguments. They sound actually like the presentations the defendants made at summary judgment. They are not a basis for a directed verdict. And I know that Mr. Kise, through all the legal standards he went through, failed to lay out the standard for a directed verdict, which is that when the Court is considering this motion you have to afford the Attorney General every inference which may be properly drawn from the facts presented, and the facts must be considered in a light most favorable to the plaintiff. So that's in the Szczerbiak case, 90 NY2d 553. The defendants don't even come close to meeting that burden.

I would just note that it was two weeks ago the defendants sought a directed verdict after Mr. Cohen's testimony, was denied because there was a courtroom full of evidence. We've moved on to the overflow courtrooms. The evidence has only been supplemented since then, so it is still appropriate to deny a motion for a directed verdict.

I will walk through it at a very high level, your Honor. And I guess I will start with materiality, which Mr. Kise spent a great deal of time on.

Materiality, I will just note the, false business records claim does not have a materiality standard. The
question is just whether this document is false and was done with criminal intent. So for those claims there is no materiality standard.

For the false financial statement requirement, the question is, is the financial statement on its face materially misstated. And I actually do believe that your Honor did decide that during the course of the summary judgment proceeding.

On insurance fraud, it is questions as to whether the misstatements are material to the insurance transaction. I think the evidence establishes that. I will say, though, because we are not trying to prove bank fraud. We are not -- it's not a larceny claim. It's not a federal bank fraud claim, which I will also note does not actually require a loss by the bank. It is merely based on whether false information is presented in an effort to obtain credit from the bank.

But I would still argue that these statements were material to the bank and that the evidence presented so far proves it. They are material because the banks asked for the financial statements. The banks require them to be certified by the defendants. The information was then evaluated and included in the underwriting. The fact that it was not the end of the analysis does not mean it's not material. Materiality questions whether or not it

1 influences someone's decision. I would also add there are
2 multiple statements here that are potentially false. We
3 have potentially false financial statements, the actual Statements of Financial Condition themselves. We have the false certifications. We have the false representations to Mazars. And on those, Donald Bender was very clear on the materiality of those statements. He said that the Mazars would not have issued the Statements of Financial Condition if they did not get the representation letter from The Trump Organization.

That was reiterated by Mr. Kelly who said that they decided to pull the statements when they found out that The Trump Organization had not met its requirement to provide them with all information, as had been represented in those statements.

Now, I would go beyond that, your Honor, and just add that the law allows for the creation of a false financial statement to be accomplished by having a third party create that statement in someone else's records. So that means that to the extent people are directing folks to take steps, that creates the false records that are in the Trump Organization's own files; the false records that are in the files of Mazars; the false records that are in the records of Deutsche Bank; the false records that are in the files of the City of New York.

I will also focus briefly on intent. On intent, I would just say that the defendants' position seems to be that if they get on the stand and say, "I had nothing to do with the statements", or more commonly, "I don't remember having anything to do with the statements", then intent is disproven; that's certainly not the law.

As your Honor highlighted in the Alamo decision, which Mr. Kise also flagged, a mens rea element is typically proven by reference to the facts and circumstances surrounding the case, and that's 174 Misc 2 d 501 ; that idea is repeated elsewhere in New York law.

Marine Midland, 120 AD2d 122 stands for the proposition that fraudulent intent by its very nature is rarely susceptible to direct proof, and must be established by inference from the circumstances surrounding the allegedly fraudulent act, and that's a Second Department case, but the standard is the same in the First Department as set out in Setters, which is at 139 AD3d 492 at page 493.

This is also shown in plenty of other fraudulent cases, including in the Second Circuit, in the Powers case at 57 F3d 176 at page 184, which establishes that intent can be shown through a motive to commit fraud and a clear opportunity to do so. And where the mode of evidence is not apparent, it can be demonstrated by proving circumstances indicating conscious behavior by the defendant.

Now, all of this is just to say that intent is not proven by admissions alone, and that intent is something that the Court should -- is going to infer from the evidence, which makes it a poor prospect for a decision on a directed judgment, as opposed to at the close of evidence and at the close of the trial.

I will say that here we think we have ample evidence to demonstrate the intent of the defendants. The primary argument from Mr. Kise and Mr. Robert seems to be that the individual defendants were not involved in the preparation of the Statements of Financial Condition and had no idea what they contained.

Well, first off, that's obviously not true from Mr. Weisselberg and McConney. No one's talked about them at all in these presentations. And so there's also almost no defense of their actions whatsoever in what I just heard. That, in turn, means that each of the entity defendants that they were working on ban of are also liable.

And with respect to the three Trump defendants, I will start by reminding your Honor that this is documents case, and each of the three defendants signed documents saying that they were responsible for the preparation and fair presentation of the statements.

Now, the "fair presentation of statements", that's at the heart of the case, and that's the graveyard the
defendants keep whistling past, is the finding by this Court, on summary judgment, that the Statements of Financial Condition were false and misleading.

The Court has also issued final, binding rulings that the values of individual properties were inflated, and that includes Mar-a-Lago, the triplex apartment, Seven Springs, 40 Wall Street, Aberdeen, the Vornado property and the golf clubs. Those standings -- those findings stand, and are not a basis for reargument, because we are having a trial.

THE COURT: Let me ask you a personal question.
MR. WALLACE: Sure.
THE COURT: Do you file tax returns?
MR. WALLACE: I do file tax returns.
THE COURT: Do you have an accountant to do that for you?

MR. WALLACE: I do not.
THE COURT: You're like me.
MR. WALLACE: I did when I was a partner at a law firm. Now that I work for state, I don't have an accountant.

THE COURT: Do you rely on your accountant -- did you rely on your accountant at that time?

MR. WALLACE: I did.
THE COURT: Okay. So the defendants here relied on

1 their accountants, highly paid accountants, and the highly 2 paid attorneys.

Page 3926
calculating Seven Springs, let's talk about it. Mr. Trump says, "I don't remember that", or "I can't recall", that's something for your Honor to weigh.

THE COURT: Eric. You are supposed to say Eric Trump, not Mr. Trump.

MR. WALLACE: I apologize. Because Eric Trump created that statement, was responsible and involved in the preparation of Seven Springs, which his father, Donald J. Trump, said was overstated. So I think at this point there's ample evidence within the record that if we are given, as we are entitled to assumptions in our favor, is more than sufficient for this to continue to a final verdict where the defendants can repeat these arguments, yet again, on their closing, in their posttrial brief, and your Honor will be able to make a decision with a full record.

I would also not belabor it here, but Mr. Kise is incorrect on disgorgement. The OAG does not have an obligation to prove what loans Mr. Trump would have been able to obtain if he presented an honest financial statement. He chose to obtain discounted loans by the use of a fraudulent statement.

The burden here for the government is to demonstrate the reasonable approximation of profits causally connected to the violation; that's the SEC v. Fowler case at 6 F.4th 255 that we discussed in our letter briefing over

Mr. McCarty's testimony. With that, your Honor, I really won't belabor things anymore and I'm happy to answer any questions your Honor may have, but I think there's simply no basis for a directed verdict at this point.

THE COURT: I could ask you more questions, and that would take away some ammunition for Mr. Kise about one side or the other.

MR. KISE: Five minutes.
MR. WALLACE: Your Honor, the standard is usually move for directed verdict, yes or no. But Mr. Kise --

THE COURT: I --
MR. WALLACE: He had an hour and a half.
THE COURT: Nobody else from plaintiff, I assume? I'll give him a reply.

MR. KISE: Just briefly. Is it okay if I stand here?

THE COURT: Sure.
MR. KISE: Thank you.
Could you pull up slide 13, please.
(A demonstrative aid was displayed on the screen.)
MR. KISE: So Mr. Wallace talked about the false business records statute doesn't have a materiality element to it, so facially, his argument is correct, but this is kind of part of the problem with the whole case. This is purportedly the false record, slide 13. And on slide 13 you
could see the highlighted language, all material respects. So this certification is not false. It's no at false business record unless and until they proof that it's all material respect. They have to get past that language. They can't read that language out of the document.

Mr. Wallace also mentioned that the differentials were material, but didn't offer any testimony. He just said they are not material in the view of the Attorney General, but no bank thought that these differentials were material.

Intent, he touched on, um, just two brief points there. First of all, intent cannot be inferred. I mean, in the criminal context intent has to be established. President Trump, for the record, did not say, "I don't know and I wasn't involved." He didn't say that at all. He said what I quoted, "In my 50 years of experience" and "based on the disclaimers." He took responsibility for what any CEO would take responsibility for. Yes, they are his statements. He didn't say, "I wasn't involved" and "I don't know." He testified about the things he did know.

And he testified, which hasn't been refuted in any way, other than by accusation, that he relied on accountants, like any CEO would, any accountants - any CEO is not there putting numbers together on a spreadsheet. There is no evidence he ever saw the spreadsheets; that doesn't mean that he testified that he wasn't involved;

1 that's not his defense at all. His defense is is that I 2 didn't have any subjective intent to defraud anyone, because

1 of. By communicating with someone in the finance department, in the accounting kept about valuations over a ten-year period, and simply because you don't remember that doesn't mean that you are now a fraudster. It also doesn't mean you had any material involvement, any real involvement in the preparation of the Statements of Financial Condition and the certification. This goes back to the spaghetti approach. They just want to throw it all up on the wall and say, well, the defendants are guilty.

Lastly, my comments do apply, as Ms. Habba said, with equal force to Mr. Weisselberg and Mr. McConney.

Thank you, Judge. I think I made it under five minutes.

THE COURT: You probably did. You just have to be careful talking about spaghetti around lunchtime.

MR. KISE: I know.
THE COURT: Just one question. I think you said "intent cannot be inferred." Well, I'm familiar with the doctrine in the cases that Mr. Wallace cited that fraud generally isn't, you know, done in daylight. People don't say I'm going to be committing fraud or commit to writing, this is a fraud. But you have to infer, at least in a civil case. I don't know about criminal. Don't you have to -doesn't -- I'll rephrase it. Withdrawn. Can't fraud be inferred from circumstances in a civil case.

MR. KISE: Two things on that. Number one, we are dealing with criminal statutes, and as I began, I think the civil equivalent of the criminal burden of proof, this is why we think we are entitled to a directed verdict, another reason, is clear and convincing. So even with the deference that Mr. Wallace began with being accorded, there is no clear and convincing evidence here of proof of the criminal statutes.

This isn't pre-summary judgment. This isn't 63(12) where they get all everything lined up, the deck is fully stacked in their favor, whether it be by the legislature or otherwise, and that's not our issue today, but under 63(12), as we've gone through repeatedly, you don't have to prove much of anything other than somebody in the Attorney General's Office thinks it's a false statement, no intent, no materiality, no reliance, no jury, but here, now we do. Now we have to prove those concepts. And they have not established those concepts, and frankly they haven't attempted to establish them. They are just simply relying on your judgment and this idea that well, you said on summary judgment that the statements were false. You didn't say anything about materiality. You didn't say anything about intent, and the numbers, as I began, the numbers are so great they must be material. No, they need someone to establish that, and that someone would be the bank in the
private sector who got to make that determination. As you saw from the numbers, the bank was not at all disvalued in any way, shape, form or fashion by a \(\$ 2\) billion differential.

MR. WALLACE: I'll just note my objection. That was a yes or no question.

MR. KISE: That's true.
THE COURT: I did ask him a question.
MR. KISE: Do we get our 15 minutes? You gave me five minutes.

THE COURT: You went past the five minutes.
Let's talk about burden of proof. I tend to think of them in a criminal context as beyond a reasonable doubt, 99 percent. Some other context, clear and convincing, I tend to think of 75 percent, and a preponderance of the evidence I tend to think of as 51 percent.

Let me ask the AG. What's the, in a general way, what's the standard of proof here, because defendants are saying it's clear and convincing.

MR. WALLACE: We would say it's preponderance, your Honor.

THE COURT: On all questions in front of me? MR. WALLACE: I think so, yes.
THE COURT: Mr. Kise, are you claiming clear and convincing on all questions in front of me?

MR. KISE: Certainly as to the criminal predicates, yes, which is most of the counts. I mean, disgorgement, as a lot of other things, that's a different analysis altogether; that's an equitable analysis. But in terms of the predicate counts, they are all criminal counts, and there is no -- yes, there is no 95 or 99 percent in the civil world. There's no beyond a reasonable doubt. The closest standard, the civil standard, if you will, is clear and convincing. That's our position anyway.

THE COURT: Any authority that clear and convincing would be the correct burden of proof in a 63(12) case.

MR. KISE: Well, again, it's not -- I can provide the Court with authority, but I would just draw that distinction, it's not a 63(12) when you are dealing with criminal predicates. 63(12) on count one, very different standard.

THE COURT: Okay. I understand the difference. All right. Let's take a little break.

MR. WALLACE: Can we do ten minutes?
THE COURT: Ten minutes.
(Whereupon, a 10-minute break was agreed upon and taken by all parties.)
ere sort of long-winded, plaintiff was sort of medium-winded, I'll be short-winded:

Taken under advisement.
Okay. What else do we have?
MR. AMER: Your Honor --
THE COURT: As if that wasn't enough.
And obviously the time back there was spent really hashing this out and thinking. And I appreciate the defendants' presentation, and I appreciate the plaintiff's presentation.

Okay.
MR. AMER: Your Honor, we ask for an opportunity to be heard on our in limine motion concerning four of the five expert witnesses. So I appreciate the opportunity to be heard on that now.

THE COURT: I read your five-page or four-and-a-half-page letter. Was there any written response by the defendants? There didn't have to be, I am just asking.

MR. KISE: No, Your Honor.
THE COURT: Then let's hear the in limine motion.

MR. AMER: Thank you, Your Honor.
The Court's September 26 decision and order was

1 a significant development in this case. The Court held 2 that the People prevailed on their 63(12) fraud claim based on the undisputed evidence as a matter of law.

The decision rested on predicate findings of fact by the Court that many assets in the Statements of Financial Condition for many years were fraudulently inflated to a material degree, rendering the statements false and misleading.

Now, defendants are certainly free to challenge that decision in the Appellate Division. And in fact, they filed their notice of appeal already. But they are not free to ignore the decision in this courtroom at this trial. Yet that is what they have repeatedly done.

We have just heard a lengthy hour-long argument on a motion for directed verdict that, to a significant degree, ignored the holdings that this Court issued in its summary judgment motion. So to does their intent to call the four expert witnesses that are the subject of our motion.

THE COURT: Let me stop you a second.
Do you want to withdraw your request to have these four witnesses testify? Yes or no?

MR. KISE: No. No, Your Honor.
THE COURT: Okay. Just wanted to make sure.
MR. AMER: As a result of the decision and the

Page 3936
predicate factual findings that the statements were fraudulently inflated, any expert opinions about valuation of assets or accounting standards for personal financial statements, are simply irrelevant. And allowing defendants to put on such expert evidence is, we submit, a total waste of time and resources.

In the wake of the Court's decision, this trial is now about four things:

One, whether defendants have the requisite intent to defraud.

Two, whether they engaged in a conspiracy to violate the three Penal Law provisions.

Three, what is the proper amount of disgorgement.

And four, what equitable relief should be granted in addition to the equitable relief already included in the Court's decision.

And I would like to just quickly review why the proffered expert testimony from Dr. Laposa, Mr. Witkoff and Mr. Flemmons is simply not relevant to any of these remaining issues in the case.

As to the remaining causes of action based on illegality, the predicate findings of fact made by this Court on summary judgment largely satisfy the elements of these claims, except for intent to defraud. That is,

1 whether each defendant had an intent to defraud when
preparing or using the Statements of Financial Condition in business transactions with banks and insurers. The issue of intent essentially boils down to two questions: What did the defendants know, and when did they know it.

These questions are the realm of fact witnesses. These experts have nothing to say on this issue that is the least bit relevant. They simply have no knowledge about any direct or circumstantial evidence that would bear on any witness's intent.

The same is true for the related conspiracy claims. Experts have no relevant knowledge about whether agreements were or were not made between and among the defendants to engage in the illegal conduct.

Defendants appear to argue that their experts can somehow negate an inference of an individual defendant's intent to defraud, by showing that through some valuation method that was never actually used by the defendants, one could, hypothetically, have derived a value for an asset that is higher than the value that they actually derived.

First, this is the same argument that defendants raised in support of their summary judgment motion. In fact, based on the very same expert opinions that they submitted by affidavit and through their reports that is

1 our banking expert, Michael McCarty, to provide his expert 2 opinion about how to quantify the ill-gotten gains
attributable to the defendant's use of the fraudulently inflated statements to obtain lower interest rates on loans. None of the four experts at issue on our motion are -- have anything to do with banking or disgorgement. I expect we will see defendants add a banking expert to their list for December. And to the extent their banking expert offers opinions on matters involving disgorgement, we certainly have no issue with defendants' right to present that testimony. But the issue of disgorgement does not provide any avenue for defendants to present these experts that are the subject of this motion, who are dealing with valuation and insurance and accounting principles.

Now, as to the remaining equitable relief. The remaining additional equitable relief that plaintiff is seeking, that requires the Court to consider evidence bearing principally on the scope of duties for the receiver, whether to bar individual defendants from serving in certain corporate capacities; whether to require preparation of an audited financial statement; and whether to replace the trustees of Mr. Trump's Revocable Trust.

Now, the evidence relevant to the Court's
part of the summary judgment record. And it has already been rejected by the Court in its summary judgment decision.

Second, the argument simply makes no sense. The Court has found that the statements were fraudulently inflated. The issue of intent is based on what the defendants actually did and what they actually knew when they were fraudulently inflating the values, and certifying the statements to banks and insurers. And whether what they did provides direct or circumstantial proof of intent to defraud, again, is the realm of fact testimony, not expert testimony.

It simply doesn't matter what someone else could have done to value the assets at their current estimated values, it matters what was actually done. And that's a fact question to be proven through fact witnesses and the documents in the case.

And to the extent that the defendants are really arguing that based on their expert case the values were not inflated at all, that ship has sailed. That is just a refusal to acknowledge the binding effect of this Court's decision. The Court has held that many values were fraudulently inflated, and defendants have to live with and abide by that ruling at this trial.

Now, as to the amount of disgorgement, we put on

Proceedings
Page 3940
consideration of this type of relief involves the degree of culpability that each defendant has in the preparation and dissemination of the fraudulent financial statement -statements and matters concerning existing corporate culture at the Trump Organization.

Defendants' proffered valuation and accounting experts offer no opinions that bear on these issues. A quick word about a separate argument we raised with respect to Mr. Witkoff and Mr. Miller, who is an insurance expert, both of whom were designated solely as rebuttal experts. We did not call the experts that they have been designated to rebut, because for all of the reasons I am arguing, we don't see a need for that type of expert testimony in light of the Court's summary judgment ruling. So there is simply no basis to permit these rebuttal experts to testify. They could have been designated as experts in their case-in-chief, but they weren't. Their opinions are only relevant to counter opinions from our experts that have not been offered into evidence. They should be precluded.

I would also note that Mr. Miller, who is being offered as a rebuttal insurance expert, he is not their only insurance expert. They did designate another person, Mr. Giuletti, as their insurance expert on their case-in-chief. He is also on their calendar for November,

1 and we do not seek to preclude his testimony on this

2 motion. While we certainly reserve the right to object to specific questions during his examination, we agree there is at least a basis to put him on the stand, since there is an insurance fraud claim that remains in the case. So just to be clear, our objection to Mr. Miller is that he was a rebuttal witness, and we haven't put in the witness that he is being called to rebut.

I am going to make a final point, and it is really more of a fervent plea, Your Honor. For some evidentiary objections the Court has remarked that because this is a bench trial, the Court will hear evidence now and decide what weight to give it at a later date. While that approach, and I would call it, without being pejorative, the path of least resistance, is certainly one that many judges often take when there is no jury. And it might make sense to take that approach when the issue is whether to let in a handful of documents or to listen to a few more minutes of questioning. I submit, Your Honor, that taking that approach here with respect to these expert witnesses, would be wrong and it would be inappropriate for three independent reasons:

First, this is not about adding a few more documents to the record or sitting through a few more minutes of testimony. Allowing these experts to testify
trial.
We succeeded in that effort. It would be manifestly unfair, I submit, to our side, and would deprive us of the benefit achieved by our summary judgment victory to a significant degree, to now say that despite resolving the 63 (12) fraud claim in our favor and removing that claim from the scope of the trial, we should nevertheless take the path of least resistance, act as though the issues for trial have not been narrowed, and spend at least two weeks hearing expert evidence that is not relevant to the remaining issues in the case.

Now, defendants can spin it however they want, press conferences outside of this courtroom. They can take the stand and testify about their perfect disclaimer clause, their statute of limitations theory, and they can invoke other defenses that this Court has repeatedly rejected. But none of that wipes away the court's decision that is the law of the case. Your Honor, we worked hard to achieve the substantial victory we obtained on summary judgment. We should be permitted to benefit from the more streamline trial that inevitably should flow from that victory.

Third, the Court has broad discretion to preclude expert testimony that has no relevance to the claims at issue. And more importantly, and this is the
Proceedings Page 3942will come at significant cost to the Court and the partiesin terms of time and effort. And for the plaintiff, quitefrankly, taxpayer expense.
Defendants have three additional valuation and accounting experts, in addition to the ones that are the subject of this motion: Mr. Chin, Mr. Moens and Professor Bartov, who will, no doubt, show up on their witness list for December. And allowing the valuation and accounting experts to testify will likely require us to put on a rebuttal expert case. This will add substantial time to this trial. These four experts on the current calendar for November account for a solid week of testimony. Including the other valuation and accounting experts they will likely call, our cross examination of these witnesses, and plaintiff's rebuttal experts that will likely be necessary, will add, I would estimate, two weeks of trial time at a minimum. At a minimum, Your Honor.
Second, the Office of the Attorney General and more specifically all of these people here at this table in the well behind me, expended a tremendous amount of effort in culling through a huge volume of discovery material in order to present to the Court a comprehensive summary judgment motion and record that would permit the Court to dispose of a significant portion of the case as a matter of law, and substantially narrow the issues for

\section*{Proceedings}

Page 3944
test in the case law that is clear, will offer no assistance to the Court as the trier of fact.

The Court should exercise that discretion here to preclude these experts from testifying, because this trial should not be turned into an opportunity for defendants to supplement the summary judgment record in an improper attempt to shore up their appeal from the Court's summary judgment decision. They have their opportunity to create a record in opposition to plaintiff's partial summary judgment motion. That was the record on which the Court rendered its decision, and it is the record on which the First Department will review your decision on appeal. This trial is not their opportunity to get a do-over on the summary judgment motion.

Your Honor, for all of these reasons, the Court should preclude defendants from call Dr. Laposa, Mr. Flemmons, Mr. Witkoff and Mr. Miller.

Thank you.
THE COURT: Just one second. I am wondering whether there were two intentional references there. Do-over was very big in City Slicker. Do you remember that? This is a do-over?

And "What did he know and when did he know it," that was a Watergate phrase, wasn't it? I am getting some --

MR. AMER: It was indeed. And it is phrases I use repeatedly when they are appropriate, Your Honor.

THE COURT: All right. Mr. Kise, I am sure you are anxious to talk.

By the way, now you know what it is like to listen to a long presentation.

MR. KISE: I know.
THE COURT: I am sure it is not your first rodeo.

MR. KISE: It isn't, not with Mr. Amer.
THE COURT: To start off, just as a matter of logic and common sense, do we need Witkoff and Miller to rebut testimony that is not going to exist?

MR. KISE: That is what? I am sorry?
THE COURT: Do we need them to rebut testimony that is not going to exist, that doesn't exist.

MR. KISE: So that raises an interesting point.
The first thing I want to say is, I don't know that I am shocked, because everything I have seen here from the Attorney General's office it is hard to shock me. But I suggest that Mr. Amer check the Internet, Vladimir Putin has some openings. That's where he belongs. No question that's where he belongs. This is beyond crazy.

So now they have had five weeks to put on a case, they have had an open-door policy. And he has the

1 disclose to them if these individuals take the stand and there is an issue for them to testify about, then this is what they will say. And they have had full and ample
disclosure. And these witnesses all address a key issue what they will say. And they have had full and ample
disclosure. And these witnesses all address a key issue that Mr. Amer glossed right over when he mentioned your summary judgment decision.

He stated, which is their position, that you have already determined that they were inflated to "a material degree" but your opinion doesn't say that. We are here to talk about intent and materiality. Something that I know they don't want to talk about. So these witnesses relate to that. And we should be entitled to present the evidence to the Court. It is a bench trial.

The goose gander rule, what is sauce for the goose, has been on ample display throughout the course of these proceedings. And after spending what is, no doubt, tens of millions of taxpayer dollars chasing down someone who engaged in successful business transactions that made all of the parties hundreds of millions of dollars, they are now suddenly concerned with the resources of the State. And so I think it rings hollow. We are not ignoring your decision. But we are certainly entitled to put on a case. Unless maybe not. I guess maybe we should just ask them. Should we rest now and not have any defense of any kind? That's really where He stated, which is thei
audacity to stand here, the temerity to stand here and tell this Court, oh, well, I know you have allowed evidence in on this liberal standard, and we have operated on that, that's great when it is our case for the Attorney General, but you know, you shouldn't do that now, Judge, that's a waste of time. Frankly, Your Honor, if I were Your Honor I would be insulted by that. That they don't want you to hear evidence.

To your question, how they present their case, how they call their experts, whether they call their experts, does not dictate how we present our case.

THE COURT: If you are trying to rebut testimony that doesn't exist.

MR. KISE: No. No. We put them in as rebuttal -- I am sorry. We put them in as rebuttal because that was the sequencing during the course of the pretrial preparation. But we are not locked in forever to, oh, that's a rebuttal witness, if you don't call your witness, I don't get do it. Those witnesses have things to offer. They have changed the course of their case.

The only two bases for excluding experts in the case law are, they are not qualified; and they weren't disclosed. The whole purpose of the pretrial disclosure process is not to lock someone in and say, okay plaintiff, you get to now dictate how we present our case. It is to
they want this to go.
And so these witnesses, Mr. Witkoff is a developer who will speak to how developers view assets. His testimony isn't going to take weeks. But it goes to state of mind. We are talking about intent and we are talk being materiality. Remember that slide 13 that I put up? That pesky materiality language that the government doesn't really want to focus on?

THE COURT: Mr. Kise, I hang on your every word, I am sure I remember. But let me stop you for a second.

Your opening comment about one of the plaintiff's counsels is completely uncalled for. I think you should apologize.

MR. KISE: I am not going to apologize, Your Honor. Because frankly, I am not going to. That is the most astonishing display of one-sided anti-democratic anti-rule of law principles I have ever seen in my years. And I am sorry, but that's it. There is no reason for me to apologize. I never had anyone from the government say you can't put on your case, in any case, that you can't put on your case.

And now the rule that they have benefited from, that they have benefited mightily from, the latitude that was accorded them in putting on Mr. McCarty, Mr. McCarty amended his disclosure four days before he took the stand,

1 his expert disclosure. So all of this. And now they say,
well, we shouldn't -- we shouldn't be allowed to put on our case and Your Honor should be concerned with judicial economy and Your Honor should be concerned about this goose/gander rule doesn't apply anymore. They were certainly very happy to be the recipient of it.

So I'll refrain from further pejoratives, but I will not retract. I don't think there is a reason to. I am entitled to my opinion, and I think his conduct is unfair to my client. And to me, frankly.

To say that here we are, and we are not ignoring your decision, but we have to be entitled to put on our case as to intent, as to conspiracy. These experts have nothing to do with disgorgement.

Mr. Laposa is a valuation expert.
THE COURT: Wait. Wait. Before we get to him.
I'll use another cultural political historical
reference. The Red Scare. He is a Communist, send him to Russia. Let's leave the ad homonyms out of it. You don't have to apologize. I think it was totally uncalled for, totally incorrect.

MR. KISE: Well, Your Honor, I will say that unlike everyone else in this courtroom, to date, that's the first time I have ever used an ad homonym insult. I believe other people have used them against me, in the
these positions. They have said, and continue to say, that my clients had intent. They advanced the position and said my clients, you know, that these were material departures. So we are entitled to at least demonstrate the state of mind. We are entitled to demonstrate what is the thinking of our clients.

And the discussion we had, to the extent Your Honor is not going to grant the directed verdict, then we certainly have to rebut what they are advancing as their case, whatever it may be.

They are entitled -- they are the master of their own case. And I will say for the record, Mr. Robert is the expert, as we know. I don't see how a plaintiff gets to sit back and decide, okay, I am not going to call these witnesses now and then if the defense comes along and demonstrates that there are gaping holes in their case in chief, that they get to call rebuttal experts after that. That's not how it works. They made a choice as to who they wanted to call and how to present their case. And if now there are holes in that case. And there are holes in that case. And if the defense in presenting its case, puts on a witness that demonstrates, for example, that a developer, like President Trump, would view properties differently. Mr. Laposa, the same thing. We are not challenging the underlying finding by Your Honor
\begin{tabular}{|cc|r}

Page 3952
with respect to the summary judgment motion.
THE COURT: Can you stick to these two witnesses?

MR. KISE: I am.
THE COURT: I don't think you are.
By the way, my institutional memory tells me, yes, I did read all of these affidavits, but months ago. So instead of saying I didn't read them, I'll say I didn't remember exactly what they said.

MR. KISE: I took it that way.
THE COURT: Mr. Kise, you can stay at the podium.

Plaintiffs, do you stand by the representation, as I understood your letter, to be the only reason that Witkoff and Miller were mentioned as experts or their only testimony they were going to give was rebuttal testimony to the two witnesses that didn't appear? Yes, no?

MR. AMER: Three witnesses, Your Honor.
THE COURT: Three. Okay.
MR. AMER: So Mr. Witkoff is a rebuttal to our two valuation experts Mr. Hirsh and Mr. Korologos. And Mr. Miller is a rebuttal to Professor Baker, who is our insurance expert.

I would add that both of these witnesses were designated on the schedule for rebuttal expert witnesses.

1 They were not designated in the initial round of experts.

So they are rebuttal experts.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Had I known what they were going to present, either before in pretrial, or now at trial, what the evidence would be, then I would have designated all these people as our experts on primary case.

They just -- there's no rhyme or reason. There's no designation that has a meaning because of the way it unfolded. And so these witnesses will speak to intent, materiality. In the case of Miller, reliance, which goes to disgorgement. Flemmons, as you may recall me talking about, is a former SEC enforcement chief forensic accountant. His testimony goes to materiality, and governing standards, and whether or not they met those standards with respect -whether or not they had the requisite intent to violate those standards; whether any violation of those standards was material. Those are the issues that are decidedly not part of your Honor's summary judgment, because they didn't have to be. The Attorney General argued, forcefully, at summary judgment that you don't need to consider any of this. And now we are here considering any of this, and they are saying, no, it's all subsumed by your summary judgment decision, which I think is both inaccurate and unfair.

So the fact that the Attorney General did not put on their experts doesn't -- we think should result, in part, is another basis for why we should get a directed verdict, but to the extent that we will not, and we are here to

MR. KISE: Your Honor, because of the initial round, neither side has any notion what the other side is going to present. So the only reason they are in the rebuttal --

THE COURT: You do have a - knowledge of what they are going to present.

MR. KISE: Not until we get, not until we receive it. It was simultaneous. We exchanged -- we exchanged primary experts, and rebuttal experts simultaneously. So it wasn't like we had time to figure out -- oh, no, this was all simultaneous.

THE COURT: I didn't realize that.
MR. KISE: So that's my point. Before they presented their experts, just like before we presented ours, we would have no idea, really, of the parameters an contours of their case. And so the fact that these witnesses wind up in the rebuttal bucket is simply more by the circumstances of the way the litigation unfolded pretrial, as opposed to any, like, understanding of what their case was. So that's why I'm saying, the fact that they are not calling someone in their case, that's their prerogative. If they believe, as they do, and I respect that, that they have satisfied their burden of proof, okay, they don't need an expert. But that doesn't mean that we are not entitled to present our case.
defend ourselves. Then the Court should be able to consider that evidence. The Court, I would think, would want to weigh that evidence. There's plenty of tools the Court has if it believes that it's going on to long, or it's taking too much time, but for us to say that our case is going to be completed in less trial days than, I believe, the government's case, and we've already got us ahead of schedule, I think give us -- we haven't even gotten out of the gate yet and they want to shut the door. So I just don't think all of these witnesses speak to the elements that are squarely and completely before the Court.

The degree of culpability, Mr. Amer mentioned that on the equitable side. The degree of culpability goes to state of mind, goes to intent. It goes to whether or not these individuals, you know, flagrantly violated something, or in the case of the statements under 63(12), we don't have to prove all of this if you find that they are false. As you've said before, okay, I find that they are false. That doesn't mean that they are materially false, it also doesn't mean they intended for them to be false. And then there is a whole lot of layered issues there.

THE COURT: Five-minute warning.
MR. KISE: Mr. Witkoff, Mr. Laposa -- Dr. Laposa, Mr. Flemmons, Mr. Miller, all of these witness noticed. And the goose/gander rule, however the Court wants to phrase it,

1 applies wholly here. There's no reason to close the door to
us after they had benefitted handsomely from it being opened. There was never any complaint about it before. And I will leave some time for Mr. Robert, because he is far more the experienced practitioner when it comes to the CPLR in these matters than I.

You heard me say it before, the world is watching, so the world needs to see that everyone's evidence at least gets into the courtroom at some point, respectfully.

Thank you.
THE COURT: Thank you. Mr. Robert.
MR. ROBERT: So sitting here and hearing Mr. Amer talking about wanting to -- one of the reasons to deny these experts is wanting to save money - and I'm not going to use any pejorative words -- is beyond anything I could fathom. The relief they are seeking, in particular to my two clients who are relatively young men, is to bar them from doing business in New York for the rest of their lives, and yet he is now coming in here after spending five weeks saying we really should try to short circuit this.

I'll remind the Court that at the last pretrial conference, after the summary judgment motion had been granted, you actually asked the government, well, since you already prevailed on the first cause of action, do you need to proceed on the balance? Do you want to? And in a
appropriate.
My final thing is, what I really took offense to the most of what Mr. Amer said is that there should be consideration for the efforts of the Attorney General staff in doing their summary judgment motion. All I'll say on a personal level is, they had this case over three years. This defense team, in less than a year, worked on this case, are here trying this case, and we are working \(24 / 7\) to be able to comply with what these Court's orders were. So nobody is working harden than us, nobody is putting in more energy than us. So to say we should be precluded from bringing in these experts because they are tired, is offensive.

THE COURT: Mr. Amer, you are still standing there. I assume you want to say something.

MR. AMER: I do, your Honor. A few quick points. I think Mr. Kise completely confuses fact evidence with expert evidence.

Nobody is seeking to preclude them from putting in whatever fact witnesses they want to put on the stand. This is about expert testimony. No party has an entitlement to put on an expert case if it has nothing to do with the issues in the case and will not assist the trier of fact. There's no due process right to put on expert testimony. And the cases we cite in our letter demonstrate that courts

have routinely precluded parties from putting on experts if the experts are not going to assist the trier of fact.

So the notion that we are somehow trying to preclude them from making their case is nonsense. This is about expert testimony. And our position is that in light of the Court's summary judgment decision, there are no issues left in the case that would make these experts relevant.

The goose/gander rule, I have to make a point about this. They are distorting this rule beyond all recognition. This is a very simple rule. When the Court makes a ruling on an evidentiary issue, the Court should then apply that ruling on an evenhanded manner as the same issue comes up again and again throughout the course of the trial.

It doesn't mean that for every time I sustain your objection I have to sustain the other side's objection. These evidentiary rulings are about calling balls and strikes based on how the pitches are coming over the plate. And there's no goose/gander rule that says if I sustain ten of your objections I have to sustain ten of your adversary's objections.

I would also add, the rule has no application here because the Court has not previously ruled on the question of whether expert testimony is or is not relevant to the issues in the case. There's been no ruling that the Court

1 has issued on this matter to then apply in an evenhanded 2 manner. This is a matter of a clean slate for the Court in 3 terms of whether and to what extent valuation and accounting 4 experts have a role in this truncated narrower trial as a

THE COURT: Hold on. If I can speak for Mr. Kise for a minute. His references to goose and gander are that not about expert testimony, but about the fact that you've had a long time to put on a long case, 25 witnesses in 25 days. He wants an opportunity to put on a defense.

MR. KISE: And expert as well. I mean,
Mr. McCarty -- we had that debate over McCarty, whether or not he should be permitted. You said, which is your province, particularly in a bench trial, I could hear it all and I could sort it out. Which would be the appropriate procedure here.

THE COURT: Let's break for lunch. I'll have -MR. AMER: Can I just finish two more points?
THE COURT: Quickly, and I'll probably give you a chance after lunch, because the food might regenerate the brain.

MR. AMER: I understand. This will be quick. I think I expressly said that we have no issue with the banking experts that they want to put on in their case. They could put on all the fact witnesses they want and a
> -- to hear full evidence. And yes, yes if Mr. Amer doesn't understand how the experts will shed light on the issues before the Court, it will become apparent to him, I'm sure, when they testify.

> Thank you.
> THE COURT: Who first said sun slight is the best disinfectant?

> MR. AMER: Brandeis.
> THE COURT: Brandeis. See you after lunch at 2:15.
> (Whereupon, the case on trial was adjourned until 2:15 for the luncheon recess.)
> \(\underset{*}{\text { AFTERNOON }} \underset{*}{*} \underset{*}{\text { SESSION }}\)

THE COURT OFFICER: All rise. Part 37 is back in sex. The Honorable Judge Arthur Engoron presiding. Please be seated and come to order.

MR. KISE: Your Honor --
THE COURT: Mr. Kise, when there is a three-day weekend, I go up the stairs much faster.

MR. KISE: Indeed, you were bounding. I'm glad you gave us the lunch break. I'm going to apologize to the court and apologize to Mr. Amer. You know it's not like me to be ad hominem. I shouldn't be. I wasn't raised that way. So when you are right, you are right. Mr. Amer is

working very hard. He is being a zealous advocate for his client. We are all very tired. It doesn't excuse it, but I just want to apologize on the record. I could withdraw it. You could strike it, leave it there, whatever you want, but I shouldn't have said what I said.

And I hope the apology is at least accepted, but as you know, I don't make extrajudicial statements. I don't make pejoratives, and I will go back to being my assertive, but generally affable self.

THE COURT: Mr. Amer, any response or requests.
MR. AMER: I appreciate it, and I certainly accept the apology. Thank you.

THE COURT: All right. Does either side want to say anything else about the question of whether plaintiff is entitled to preclude the four experts that their letter addressed? No? No? Oh, okay.

Well, Mr. Amer asked me not to take the path of least resistance, and I will take that to heart, generally speaking through the trial. Obviously one of my real goals here -- well, one of the real goals, which is obvious, is I don't want a retrial of this case. I don't want to be reversed. And to me, that basically speaks in favor of allowing, rather than disallowing, the questions, answers, expert testimony, et cetera; however, I'm going to let -I'm going to deny the request, without prejudice to object
to anything that they think is irrelevant, and I'll sort of explain how I see the heart of this case. And I think I made this clear in the summary judgment decision of September 26th. But let me say again, I'm not here to value these properties; I'm here to decide whether the Statements of Financial Condition and related documents were fraudulent, or whether they were correct or whether they were accurate. I'm not going to say oh, well, and I don't think I ever did, and I specifically disclaim saying it about Mar-a-Lago. I'm not going to say what a property is worth, because I don't have to. This is a case about, as we keep saying, it's a document case, or were the documents truthful, accurate, fair. And I'm going to go through some of the highlights, if you will, the greatest hits we call it, of the summary judgment decision.

What I think I was allowed to grant summary judgment was because it's -- whether the statements were true or false, it was not a question of whether they presented the correct value of the properties, but whether they were internally true and internally consistent. And here are the ways I found some, or maybe all of the ways I found they were not internally accurate or fair. I'll start with the low hanging fruit. And I never want to overemphasize this. And I'll give you the numbers.

First, the value of the triplex was fraudulently

\section*{Proceedings}

Page 3966
inflated in the SFCs from 2012 to 2016 -- this is at page 22 of the summary judgment motion -- by inflating the square footage by nearly three times it's actual size. All right, I don't want to focus on that.

Two, the value of Seven Springs was fraudulently inflated in the 2014 Statement of Financial Condition by disregarding and concealing the appraisals within its possession and reporting the value of Seven Springs to be more than 400 percent of its highest appraised value at the time.

Three, the value of the rent stabilized apartments as Trump Park Avenue was fraudulently inflated in the Statements of Financial Condition - from now on I'll say SFCs -- from 2014 to 2021 by wholly disregarding the rent stabilized status of certain units and valuing them as if they were unrestricted. You can't get a fair statement of value by pretending that rent regulated apartments are vacant. The value is completely different.

Four, the value of 40 Wall Street was fraudulently inflated in the 2011, 2012 and 2015 SFCs by disregarding and concealing appraisals within defendant's possession and reporting its value as nearly \(\$ 200\) million more than it's highest appraised value at the time.

Five, the value of Mar-a-Lago was fraudulently inflated in the SFCs from 2014 to 2021 by wholly
disregarding the land use restrictions which severely limited the ability to develop the property, and were granted in perpetuity by Donald J. Trump in exchange for tax benefits.

Six, the value of Aberdeen was fraudulently inflated in the SFCs from 2014 to 2019 by falsely indicating that defendants had legal approval to develop 2,035 private residential homes instead of the 500 for which it had actually obtained legal approval.

Seven, the value of certain golf courses was fraudulently inflated in the SFCs in 2014 to 2020 by including a brand premium and ignoring appraisals by claiming the SFCs did not include his brand value -- that was pretty black and white -- while also incorporating a brand value into its valuations.

Eight, the value of cash was fraudulently inflated on the SFCs from 2013 to 2021 by falsely claiming that Donald Trump's interest in Vornado was liquid, when, in fact, he had no right to use or withdraw any of these funds as a minority owner to.

Nine, the value of the Vornado Partnership properties was fraudulently inflated in the SFCs from 2014 to 2016, and 2021, by disregarding and concealing appraisals within its possession and reporting its interest in the property to have a value of more than \(\$ 170\) million more than
the highest appraised value at the time.
And finally, ten, the value of licensing deals was fraudulently included in the SFCs from 2014 to 2018, and 2020, by improperly reporting valuations of intra-organization deals in an asset category that purported to include only values of deals with outside third-party organizations, resulting in overvaluations each year of between 97 and \(\$ 224\) million.

So, first of all, again, sorry to repeat myself, this is common sense. You can't have a correct valid financial statement with these kinds of errors.

And secondly, if the experts try to testify otherwise, I'm going to shut them down at my discretion. And something that's bedeviled me this whole trial is the word "materiality", because as Mr. Kise was pointing out, the statutes say, well, there can't be a material misrepresentation. Well, I think I've said before, to me, if something is immaterial, it basically means de minimis. Okay, you could argue whether something is worth 200 million or 220 million, maybe arguably that's not material, but 200 million and 375 million are fraudulent. And 25 million or 500 million, that is clearly material, and I don't need an expert to tell me that.

If you want to take me up on appeal on the grounds that Judge Engoron doesn't understand material because it's
\begin{tabular}{|rl|r}
\hline Proceedings & \multicolumn{1}{c}{ Page 3969 } & \\
1 & all about how somebody views it, no, at a certain point -- I & 1 \\
2 & think these are the words I used in the summary judgment & 2 \\
3 & motion, at a certain point it's not material; it's not & 3 \\
4 & immaterial. It's fraud. & 4 \\
5 & So bottom line, I'll let all the defendants' & 5 \\
6 & proposed experts testify, but in light of what I said about & 6 \\
7 & Mr. Amer's comment, I'm not going to take the path of least & 7 \\
8 & resistance. If it's clearly irrelevant, I'm just not going & 8 \\
9 & to allow it. & 9 \\
10 & So Mr. Kise, or anyone on the defense side. & 10 \\
11 & MR. KISE: No, your Honor. I think we understand & 11 \\
12 & the Court's position. I would say, without going through & 12 \\
13 & cach category, you are going to take it on a & 13 \\
14 & category-by-category basis. I do think you will find from & 14 \\
15 & the experts that there is some intersection of issues here, & 15 \\
16 & maybe broader than you realized, but we'll take that up, as & 16 \\
17 & you say, as we go forward. & 17 \\
18 & THE COURT: You won the battle, we'll see if you & 18 \\
19 & win the war, on the experts. & 19 \\
20 & MR. AMER: I would also assume that at least on the & 20 \\
21 & rebuttal experts, one basis for objecting on relevance & 21 \\
22 & grounds is their opinion isn't addressing anything that has & 22 \\
23 & been put into evidence on our case. & 23 \\
24 & THE COURT: I think that's logical and fair, and & 24 \\
25 & we'll save the all important taxpayers' money. & 25
\end{tabular}

MR. WALLACE: Thank you.
(The case on trial was adjourned to Monday, November 13, 2023 at 10:00 a.m.)

\section*{Proceedings}

Page 3970
Changing subjects, I think I mentioned this before, and Mr. Kise and Mr. Robert, you know, newcomers let's keep things moving along. If somebody is -- if you have an expert or another witness who is not going to be all day, let's make sure you've got someone behind up.

MR. KISE: Well --
THE COURT: I'll be very harsh about that, too.
MR. KISE: -- as I've said, there's no one here that wants to be done sooner than me.

THE COURT: And there's nothing you said more often than that, and I totally believe you, of course.

MR. AMER: Some people may disagree that there's nobody who wants it to end sooner.

THE COURT: Im sure we all have our own personal stories.

MR. KISE: That's true.
THE COURT: All right. So have a great weekend. We are resuming 10:00 Monday morning; right?

MR. ROBERT: Yes, sir. Thank you.
THE COURT: The first witness will be?
MR. KISE: Donald Trump, Jr.
THE COURT: I know him.
MR. KISE: Yeah.
MR. ROBERT: Thank you.
THE COURT: Thanks a lot, everyone.

THE COURT OFFICER: All rise. Part 37 is now in session. The Honorable Judge Arthur Engoron presiding. Make sure all cell phones are on silent. Laptops and cell phones will be permitted, but only to members of the press. There is absolutely no recording or photography of any kind allowed in the courtroom. Now be seated and come to order.

THE COURT: Tommy, is your hand all right? You didn't bang that time. At least do the banging, as we call it. Pardon the expression.

I understand there are some photographers that would like to have a moment with us.
(Whereupon, there is a brief pause in the proceedings for the photographers.)

THE COURT: The defense table must be looking good today. They gave you more time than normal; right? Would you like to call your first witness, defense?

MR. ROBERT: Thank you, your Honor. Defense calls Donald J. Trump, Jr. to the stand.
(Whereupon, the witness stepped into the witness stand.)

THE COURT: I would ask who's he, but I've already used that joke.

THE WITNESS: You thought you were rid of me, your Honor.

THE COURT OFFICER: I'm going to swear you in.

| Id Trump, et. al. |
| :--- |

Page 3975
D. Trump, Jr. - Defense - Direct (Mr. Robert)
Page 3975

Remain standing. Raise your right hand.
(The witness complied.)
THE COURT OFFICER: Do you solemnly swear or affim that any testimony you give will be the truth, the whole truth and nothing but the truth?

THE WITNESS: I do.
DONALD JOHN TRUMP, JR., called by and on behalf of the Defendant, having been first duly sworn, was examined and testified as follows:

THE COURT OFFICER: Plesse have a seat. State your name and home business address for the record?

THE WITNESS: Donald John Trump, Jr., 725 Fifth Avenue, New York, New York 10022.

THE COURT: Okay. Please proceed.
MR. ROBERT: Thank you, your Honor.

## DIRECT EXAMINATION

BY MR. ROBERT:
Q Good morning, Mr. Trump.
A Good morning.
Q I want to spend, very briefly, talking about your educational background. Let us know your education from college on, sir.
A Yeah, I went to the University of Pennsylvania, graduated with a degree in economics from the Wharton School of Finance.
$1 \quad$ Q And what year did you graduate, sir?
2 A I graduated in the year 2000.

Page 3977
largest undeveloped -- it was the largest undeveloped parcel of land left in New York City. Um, started working on there, building an array of different buildings and projects from pure condominium ground-up construction, to rental apartments, commercial space, et cetera. From there, we bought an incredible asset, what was formally Delmonico Hotel on Park Avenue, in the high 50s. Wanted to learn that aspect of the game. It was an existing prewar building. It was a different kind of construction, ground-up construction, um, was one thing. You know, taking on a building, you know, 75,80 years old. And another entirely different ball game, as I found out. Um, took on all aspects of that from there. Got to work on Trump Tower Chicago.

Ultimately, that was another ground-up construction building which would have been the largest residential building in Chicago, one of the tallest buildings ever built-in America, to Trump, Las Vegas.

From there, my father saw a lot of things before other people in real estate, and so from there, going into sort of the boom of the early 2000's in real estate, there were a lot of opportunities to do licensing deals because of sort of the incredible nature over the properties that he had built for himself.

Other people saw incredible value in the Trump brand, wanted to be able to do that. Real estate is often times a

1 local's game, right? We have a lot of Huperts, but you can't 2 just necessarily jump into a new market all over the world and
assume you are going to be the guy to be able to get things done. So a lot of great real estate companies wanted to come to us, learn how to better design, build, amenitize (sic), market their projects, and so that started a whole new phase, sort of the organization, and then so on and so forth, right? We went through that, the Old Post Office, Doral.
Q We'll go through those in detail later this morning, Mr. Trump, but during your testimony least week, the week before, there was different titles. I think you said you started out as a project manager; correct?

## A Correct.

Q What would you describe as the duties of a project manager to be?
A You know, honestly, it was anything and everything. Not really - we run sort of like what is call it a large family business, like a mom and pop, so it really wasn't that I was a project manager. Certainly at Hudson Waterfront, because I didn't know anything. I was learning.

By the time I got to Trump Park Avenue, you know, it was the same thing, but that was a different kind of project. Right behind every wall was a new surprise, and the plans that you have that are with the thing, you know that are registered, don't necessarily line up to what's actually been built. You
rump, Jr. - Defense - Direct (Mr. Robert)
Page 3979
know, behind every wall was a new surprise, quite exactly. And so there were just so many unforeseen things that, for me, as sort of a young gregarious guy, I'll deal with that. I'll take on that problem. I'll take on; that problem, I'll deal with this. It created an opportunity to sort of advance, so I never really sought further title. But by the end of that project I was certainly the lead on that project, largely, because I was willing to deal with the stuff that no one else wanted to.

Q What is the general view at the Trump Organization as to titles of people and job descriptions, if anything?
A I think it's a more of a meritocracy than titles.
Q What do you mean by that, sir?
A If you get things done, if you are able to carry the ball. You know, my father has done that throughout his career. You know, there are people that, you know, didn't necessarily have the fancy degrees that he would allow to be in charge of projects, because they actually delivered results, not just on paper. And so, he gave opportunities to a lot of people that probably wouldn't have had the opportunities. And so, you know, it was really more about, you know, who could get something done than a formalized structure.
Q I know there was some discussion about at what point in time you moved from being a vice president to executive vice president. What, if any, significance was there to that change of title?

1 A Basically, ordering new business cards. Not really much significance. Didn't mean that much to me.

Q And do you remember at what point in time you did become an executive vice president?

A Not specifically.
Q There's been a lot of talk about what The Trump Organization is and what The Trump Organization isn't. How would you, as an executive vice president, describe The Trump Organization?

A Listen, it's an all encompassing real estate firm. Most real estate companies they do, you know, commercial office, or they do, you know, rental apartments, or they build condominiums, or they manage clubs, do and manage hotels, or build hotels. The two don't often -- we do all of those things, as well as retail. So I think we are one of the few companies out there that sort of does have assets, and has had, you know, world class assets in all of the buckets of what would be considered, let's say, real estate development. I think that's really unusual and sets us apart. It's from years of doing things better than others, years of experience that we've been able to do that and create a brand around it.

Q If we talk about the corporate structure, if you will, of The Trump Organization, how would you explain that? A Well, I mean, you know, certainly early on it would be, you know, my father and then everyone else. That changed when
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 3981
he assumed the role of the Presidency. It changed as my brother, sister and myself were able to take more on.

I know for myself, if there's one thing my father, often times doesn't of love to do is travel, so when we had the opportunity to start seeing these deals in emerging markets around the world, starting to build high-end real estate for the first time, say, you know, Dubai, as an example, sure, I was in my late 20 s , early 30 s . I'll hop on a plane, go a couple of times a month, if I had. Aberdeen, Scotland, I spent four, five days a month there traveling to build just an incredible golf course.

And as those international and even domestic sort of license opportunities presented themselves, you know, we spread out into other things, and that's when, you know, we created another role.

Real estate is one of those things you've got to be on the ground. You've got to be there to kick the tires. You have to understand what is going on, deal with the construction teams to really have an understanding. It's hard to do from sort of, you know, a gilded office. And so you've got to be on the ground.

As we started spreading out of New York City, that hierarchy changed a little bit, certainly for my brother, sister and myself, because we were the guys on the ground.
Q How, if in any way, would you describe the roles and
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 3982
1 responsibilities of you, and specifically Eric and Ivanka, in the period up to 2017?

A You know, up to 2017, obviously a little bit of a rolling structure. I was the oldest, came in earliest. Ivanka came in next, Eric came in next, and once things -- once they were to able understand those roles quickly, sort of spread out. You didn't need three chiefs, sort of, on a job. Often times that, you know, really had nothing to do with the real estate. It had to just deal with the personal dynamic of partners we were dealing with, and if someone was better suited to that, they would assume that role. If that was Ivanka, great. If it was Eric, just as good. It didn't really matter, but we worked collectively, but each one of us had our own sort of bucket.

Q Who, if anyone, would make a decision as to the respective autonomy that you and your siblings would have in terms of various projects?
A I think generally we would certainly -- on those deals, as you get closer to 2017, we had a lot more of that autonomy. With every passing day we delivered, we brought in great projects, generated a lot of revenue, and so the more we did that, the more flexibility we had.

Q And how would you describe the structure of the Trump Organization from the period 2017 through 2021, generally?

A You know, still a bit of an evolution. Obviously my brother and myself assumed much more of a role, you know, with
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 3983
1 that. You know, there were a lot of things changed because the 2 nature of politics. We gave up our international licensing 3 business, which was a very lucrative thing that was a big part 4 of what I had done, you know, during that. I spent a lot of 5 time abroad doing that. My father decided for, you know, 6 really, I mean, we could've legally done it. We weren't dealing with governmental entities, really, but just chose, for the sake of optics, to not do those things going forward. In retrospect, that was probably -- probably a mistake because, you know, according to everything else and everyone, we were still doing those things and didn't really matter; got almost no credit for it. So -- but that was a big part of what I did. So those things changed.

My father, obviously, was not involved anymore. We weren't going to bring business to him. It wasn't worth it, and it would have been very apparent very quickly if he was involved. And it was just not worth that. So my brother and I assumed a lot more responsibility, Ivanka went down to Washington, so she was also uninvolved. And, you know, we ran the business. So it was during that time, because of the nature of it, the roles changed a lot in that we were much more, at that time, as you know -- let's call it an asset manager. We weren't going to be doing new deals. It wasn't worth the headache. It would not have made sense, so we protected the incredible assets that we had. We continued the projects that
were under way. You know, real estate development is not buying stock. You buy stock and then you are done. You get involved with a project, you sign a deal, this could be five, six. In the case of the West Side Yards, 15, 20-year deal by the time you see sort of the vision, aggregate the land, amass, you know, the entitlements, et cetera, et cetera, that you have to do to get through a process.

Q And how would you describe the structure of the company from 2021 to present, sir?
A You know, again, I think my father could be back involved. He could get back involved, if he chooses to on certain things, but, you know, for the most part, it would be, you know, my brother and I still, you know, much more active or much more responsible than prior -- than prior to 2017. You know, Eric is definitely more involved in a lot of the day-to-day operations of the business; that's sort of his bailiwick. I was more bigger picture deal guy. And so, you know, we do that as we see fit.
Q And you obviously know the name Allen Weisselberg; correct?

A I do.
Q Who was -- who is Allen Weisselberg?
A Allen Weisselberg was a former CFO, accountant at the organization, been with us for pushing 50 years. Is no longer there, but someone who worked with us during, certainly, our

1 contract was a small thing, because we ran those buildings well.
2 We had sort of a bucket, you know, let's say of what The Trump Organization would do.

Most developers, they build and sell a building. They want out of it. They don't want to deal with a headache of dealing with a unit owner, or a unit owner that they never sold to. They don't want to deal with that. For us, the nature of the buildings, because of the value of our brand, we would actually, you know, continue to stay on and manage those buildings, because we could preserve that better than anyone and run it better than anyone, so that whole team had been there for a very long period of time.

Q For the period of 2017 through 2021 when you and Mr. Weisselberg were co-trustees, what, if anything, changed in terms of your interaction with him at the company?

A Not really -- I mean, not much. The reality is, like I said, we worked sort of like a large family business, and so, you know, I had my buckets. He didn't get involved in doing the licensing deals and he wasn't involved in architectural decisions. And, you know, if there were numbers or things, that I would rely on them to give me that, because that's what they do. And that's what they worked on.

Q Who --
THE COURT: Hold on, the person who has the most difficult job in the whole courtroom is sitting in front of
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 3985
coming of age period of time from, you know, from me when I entered in 2021, and someone, you know, who is very involved throughout, let's call it, 2021.

Q And who is Jeff McConney?
A Jeff McConney would have been our controller. Similar, 35-year plus employee, someone who had been there for a very long time. Worked in the accounting department, um, intimately involved in all aspects of accounting, and had been there for a very long period of time, but is no longer there.

Q How would you generally describe your relationship with Mr. Weisselberg through 2017?

A Very positive.
Q And what, if any, interaction or role did you have in doing business with him?

A I would have had a lot. I mean, that was, you know, our in-house, you know, numbers guy, financial guy. Obviously he worked very close with our outside accounting firms. We talked about, you know, Donald Bender at Mazars, who was, you know, another -- while he was outside, was another, you know, 30-plus year guy who had intimately worked with that accounting team, who amassed, assembled everything that we had put together, who had -- and continued to. I mean, they would do the tax returns on a condominium that maybe we managed, but we literally sold off all of the units years before. They still stayed involved because we managed it, even if that management

Page 3987
me to the left. Apparently, you are going a little too fast for him, so slow down a little bit.

THE WITNESS: I'll do my best.
THE COURT: Welcome back.
THE WITNESS: I would say it's good to be here, your Honor, but I have the feeling the Attorney General would sue me for perjury if I said that seriously.

MS. HABBA: Your Honor, my realtime is not working. I wanted to alert them. We could deal with it at the break. THE COURT: Well, everything is relative, I guess. THE WITNESS: Yes, it is, sir.
THE COURT: Can we proceed? okay, next question.
Q Who is Mark Hawthorn?
A Mark Hawthorn came in for the hotel, Trump Hotel Collection, do all the accounting functions there. You know, I guess chief operating officer, and has really assumed -- sort of called -- assumed the role, now, of CFO at the Trump Organization, dealing with all things financial.

Q So when you testified a week or two ago, you mentioned that Mark Hawthorn was the CFO of The Trump Organization. Is that actually his official title?

A I think he's still chief operating officer. He -- he's assumed that role, I guess I just said, sort of. So he is the, you know, the finance guy within Trump, Trump world now and has taken on all those decisional responsibilities, he is an actual

There's hotels, and hotel management. I could group

Page 3989
that into one bucket, but again in a typical hotel company, you know, the vast majority of hotel companies almost don't own any real estate. They manage for other people and they are very happy clipping four, five percent coupons, plus, plus, plus extras, and not having to own that real estate. For us, in some cases we will build them, we will own them, we will development them, we will manage them and continue.

So, you know, the buckets, we can group it into three or four buckets, or we can really take it down to a base level of having numerous. So I'm not sure I have a specific answer. It just depends on how much we want to generalize.

MR. WALLACE: We want to interjection an objection to the answers to the extent they are going to what other developers or other hotel operators might do.

We have no objection to Mr. Trump discussing their own operations, but we object to the speculation.

THE COURT: On the grounds of relevance or on the grounds of how would he know?

MR. WALLACE: I would say relevance and foundation.
THE COURT: "Foundation", that's the word I was looking for.

Mr. Robert.
MR. ROBERT: I'll rephrase the question. I mean, I think we are moving on to another topic anyway. I'm trying to lay a baseline of what it is, the different buckets, and
then we are going to get into them.
So based on your Honor's ruling, I don't think a further foundation needs to be laid other than one of their buckets is development, one is of their buckets is hotels, and I'm about to get into the third bucket.

MR. WALLACE: As I said, we had no objection to the discussion of the Trump Organization's operations.

THE COURT: Let's keep it to the Trump Organization.

MR. ROBERT: Understood, your Honor. Understood, your Honor.
Q Is there a third bucket you had discussed, Mr. Trump?
A I would say sort of, you know, the licensing model that I brought up before. My father's been, throughout his career, been very good about finding value, doing something differently, pushing the envelope in terms of, let's call it, sexiness within a real estate project, um, seeing things that other people didn't see or wouldn't be able to envision. And because of that he built just some of the most incredible assets in the world. It was really the leading edge of development. And, again, that started off -- you know, for the most part people would think of it in terms of, you know, condominium development, but, you know, some his projects were actually hotels that he redeveloped.

So because of the image that he was able to create,
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 3991
because of the boundaries he was able to push, because of the brand that he created around himself, it allowed for him to get to a point where a lot of other, in many cases, very successful developers, in their own right, would come to him for that expertise, for that brand, for that understanding, um, and allowed him to be able to brand other people's real estate deals for -- for fees, obviously, fairly significant fees, and, you know, throughout the world and throughout the United States.

We were able to do and create that business model that was really unique at the time, that has since been emulated by some of the finest luxury brands anywhere in the world.

Q This is going to sound very basic, but to lay a foundation for this, when you say "development", what is it that a developer does?
A You know, well, again, it can vary a lot, but development could be everything from envisioning a project, buying the land, coming up with the architectural -- building a building, but for some it's buying a building and making a couple of changes; that person could still be a developer. So you know there are levels of detail in terms of how detailed the developer, you know, will or will not get into a project.

I mean, say for us, again, we've covered the full gamut from, again, land, acquisition to, you know, decades long plays figuring out how to intrinsically find the value and create, you know, create value from real estate projects.

## D. Trump, Jr. - Defense - Direct (Mr. Robert) <br> Page 3992

1 Q Again, we'll get into detail in a moment, but how would you then draw a distinction for the Court between a development deal and a licensing deal in real estate?

A I would say, for us, a development deal would -- would generally be an equity type deal where you are putting a lot of money into the deal itself.

What was unique about the license model, and, you know, again, I don't want -- I don't want to speak to other developers, but it has, again, since been emulated a lot, because by being able to do the license deal, you are able to forgo having to put in a lot of that up-front equity, which is something that, again, most would love not to do.

The biggest limitations for a lot of development companies would be having to lay out all that initial capital, that time, that money. You know, for us to be able to do that, we could have -- and I still think of it almost as a development role, even thought we a licensor, because we are creating value. We are doing the marketing. We are working with them and our construction teams on the value engineering aspects of these projects, because when you've built dozens, dozens of projects all over the world, you understand how those things work. And so a developer that is say, perhaps -- again, most are a little bit more provincial. They are doing stuff in their local market. They may not have thought about taking things to the next level.
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 3993

1

When places like Dubai started up, they didn't have a luxury real estate market prior to you know '06, '07; that didn't exist. So we had sort of the best amenities. My father pushed those boundaries. He created things that, now, are commonplace in every luxury development around the world, but 20 years ago when he started doing those things, was unheard of. You wouldn't put a gym in a building; that's space that you can sell, and we are not going to do that. He was really a visionary when it came to those things. Again, that translated into the value attributed to the brand which allowed him to do the projects where other people would pay him very significant funds to come in and help them make their projects better.

Q From The Trump Organization's perspective, what, if any, distinction is there with risk in regard to a licensing deal in actually pouring concrete and putting up a building, if any?
A There's a lot of difference in the risk that you are not coming out with that up-front capital. All right? There's still risk, your a brand, the thing he spent so much time, decades, creating. You know the only - certainly at the time the only true, you know, for residential building, you know, hotels had done a little bit in the past, but for residential, he was the only brand really out there that people around the world knew. You know, so there's always still risk, which is why we still took great pride in those projects, we worked
tirelessly to deliver, you know, while we were able to do some pretty incredible things and out perform, you know, other projects in so many markets around the world.

Q What about from the Trump Organization's perspective of profitability and from resource issues?

A Well, that's, I mean, that's where the model was great. So many people would love to have a model where they didn't have to have that up-front capital where they could do that. Right? If you have it, in terms of overhead, you know, you sort of have a development team, you could have them overview a project for cents on the dollar relative to actually developing it yourself where you are sitting and worrying about every screw in a HVAC system. It's very different. So one team could handle one project, but one team could also handle 25 projects.

So from a scaleability standpoint, it was an incredible model. From a profitability standpoint, from a cost perspective, you know, I don't want to say it was free revenue. There's no such thing. But from a risk mitigation standpoint, it was a pretty spectacular system that we were able to create.

Q Prior to 2017, how much involvement did you personally have in the licensing deals?

A I would have done the vast majority of them.
Q When we talk about the point person, you had certain functions, your sister had some, your brother had some. Would this be one that would have fallen within your silo or your

Trump, Jr. - Defense - Direct (Mr. Robert)
Page 3995
bucket?
A Again, there would be -- if Ivanka got along better with a certain partner as we were doing a deal, she could be the point person. But I would say, round numbers of the license deals, you know, I probably controlled 75 percent of them.

Q Okay.
MR. ROBERT: Your Honor, I would like to hand to the witness, and to the Court, and to plaintiff's Counsel, defense Exhibit 1019, and I'll take the witness through a chronology of some of the projects of The Trump Organization. And I have a Power Point that goes with it. (The exhibit was handed to the witness.) (Whereupon, the exhibit was displayed on the screen.)

THE WITNESS: Thank you.
Q Do you have it in front of you, Mr. Trump?
A Ido.
Q Okay. I'm going to move to the first slide.
(Whereupon, the exhibit was displayed on the screen.)
Q Generally, what was the history of The Trump Organization?

A Um, well, it started off as a development company, and my --

MS. FAHERTY: Your Honor, can I just put on the
D. J. Trump Jr. - by Defendant - Direct(Robert) Page 3997
record an objection here.
I think one, this "Trump story", this is -- I don't know what this document is, and it appears to be a hearsay document that we are now trying to get in through this witness. And this multiple page document, I'm just curious, what even it is, and where this line of testimony is going.

And an additional concern about the extensive narratives that we've been getting, they are unfocused to anything relevant here, in particular.

So a couple of objections that I'm just putting on right now to start what $I$ think is probably going to be a lengthy, I don't know, line of examination.

MR. ROBERT: Im happy to address them, your Honor.
THE COURT: Go ahead.
(Continued on the next page.)

MR. ROBERT: As to the open-ended nature of it, it is my witness. I am not going to ask leading questions, I am going to ask open-ended questions so we can get a narrative from the witness.

Secondarily, this is extraordinarily relevant because there is equitable relief that the Attorney General is seeking basically to put the Trump Organization out of business, and the Court needs to understand where the company came from, where it is, and where it is going.

To that point as well, issues of intent need to be determined by this Court in this course of the trial. And as witnesses will go throughout the next few weeks, the intent of the parties and the valuations and the numbers become more and more relevant. So it is important for this Court to understand and have a baseline understanding of how it is we view what we do, what it is we do, and exactly how the company operates.

As far as the Attorney General not knowing what this is, I think that's pretty disingenuous, because they actually sent to us a more abbreviated version of this presentation in the exhibits that they plan to use. So they know exactly what this is. So I see no problem with taking the witness through it.

MS. FAHERTY: Your Honor, he is an executive vice president of the company. Whereas last week, his
testimony -- his memory seemed to be fleeting, we don't need to put an outline in front of him for him to testify about what the Trump Organization is or its history. So again, I don't see the basis for this document coming in to guide him through his responses, as to what the Trump Organization is, what it has done and its chronology over the years.

And I apologize for not standing, Your Honor.
THE COURT: You don't have to stand.
MR. ROBERT: If you look, there are very few snippets, mostly it is photographs. We would have asked the Court to take a site visit, but it is a little aggressive to say we are going to go to Scotland and Ireland and Mar-a-Lago.

THE WITNESS: I wouldn't recommend Scotland this time of year. Let's do that one in July.

THE COURT: I would love to.
I disagree with the plaintiff's take on this. I think the nature of the organization is important. However, let's establish what this is, who wrote it, before we -MR. ROBERT: Sure. THE COURT: -- get further answer.
Q Mr. Trump, I am handing you Exhibit 1019. Do you see this?

D

Page 3999
A Ido.
Q Do you have an understanding of who put this together?

A I believe you put it together. But it is basically, you know, a snapshot of our corporate website taking you through the history of the Trump Organization; the things that we do; the projects we work on; where we are today, et cetera.

Q If you look through this quickly, and we will go through it in detail, these are, in fact, pictures from the Trump Organization's website and descriptions from the Trump Organization's website, correct?

A That's correct.
MR. ROBERT: I move the admissibility of
Defendant's 1019.
MR. WALLACE: Objection. It is hearsay what he just described.

MR. ROBERT: He is an executive vice president and a defendant in the case.
Q Mr. Trump, do you stand by the representations and statements contained in this document?

A 100 percent.
MR. WALLACE: Agreeing with hearsay, it is still hearsay.

MR. ROBERT: It is not hearsay. If anything it is an admission of a party because they are a party to the
D. J. Trump Jr. - by Defendant - Direct(Robert) Page 4000

## 1 case.

MR. WALLACE: Party opponent. It is admissible as a party opponent. The party does not get to put in their website as advertising.

MR. ROBERT: The photographs here, he will authenticate the photographs. If you want to fight over the descriptions, I can go through this, does that refresh your recollection what the history of the company is, does this refresh your recollection as to that. There are many ways to do this. I am trying to be efficient with time to move things along.

MR. WALLACE: If it is going to refresh his recollection or demonstrative, it is fine. But it doesn't come into evidence. It is hearsay.

THE COURT: It doesn't come into evidence.
MR. ROBERT: If we can agree the photographs can come into evidence, the rest can be for demonstrative purposes, that's fine, I'll accept that.

THE COURT: Okay. You have to accept it. That's my ruling.

MR. ROBERT: I accepted that before I knew it was your ruling, but I accept that now, sir.

THE COURT: Let me just say.
MR. ROBERT: Yes, sir?
THE COURT: It is basic evidence and you are

Page 4001
very good at evidence, the fact that he can say it in court now, doesn't mean that the fact that it is written, even if it is the exact same words.

MR. ROBERT: I get it. I was afraid if we didn't have the storyboard, I would be told it wasn't a complete set of what was on the web. But I hear Your Honor's ruling and we will deal with it.
Q The history of the Trump Organization you were about to say how it started and the origins.

A For decades the Trump Organization set new standards.
Q Put it in your own words, please.
A I am just kidding.
THE COURT: I think the objection is going to be the one I just overruled on your behalf, but if you have a different objection or want to put it a different way?

MS. FAHERTY: I have asserted my objection. I am going to make it a standing objection, please.

THE COURT: All right. I didn't understand the first couple of words.

MS. FAHERTY: I said I have asserted my objection, Your Honor, and I am going to make it a standing objection, please.

THE COURT: Okay. It is standing. But it is overruled at this point. I think Mr. Robert eloquently explained why this is relevant in terms of the big

## picture.

All right. Let's find out what the Trump Organization is all about by someone that would tend to know it. Let's hear it.

MR. ROBERT: If it makes everyone feel better, I will take that screen off so he is not looking at the screen.
Q The history of the Trump Organization, Mr. Trump?
A My father started off working with his father, my grandfather, in Queens.

My grandfather had an incredible, sort of, let's call it, Horatio Alger story. He was the son of immigrants. My great grandfather was a developer in his own right. Went to the Yukon during the gold rush. Started developing hotels, quite literally hotels, to deal with the miners in the Yukon territories in Canada. Came back. Had my grandfather in the early 1900s. He passed away when my grandfather was, he was 12 or 13 years old. And as the oldest son, my grandfather became the man of the house.

It was a little different then. There was no support structure or systems, and so he went to work. He started working on job sites, you know, around Queens. Learned the trades. Became, you know, figured out, you know, you can save this nail and that was a cent, or whatever it cost at the time. And eventually people saw his skill set, asked him to build

Trump Jr. - by Defendant - Direct(Robert)
Page 4003
them a garage. Then another. And he did it better, cheaper, faster than others. He started building things for himself, created an incredible portfolio.

By the time of his passing of rental apartments around Brooklyn and Queens my father, you know, learned a lot of the business from him. But also had -- had some flare, wanted to do something differently. And so he saw New York City and Manhattan as, you know, the ultimate frontier to do that. And he came here from the, you know, late '70s, early '80s and, you know, started an organization that would ultimately change the skyline of New York.

## Q And Mr. Trump?

MR. AMER: Your Honor, since we have gone back to the early 1900 s, is Mr. Kise waiving the statute of limitations defense?

MR. ROBERT: No. But I want to put things in perspective, otherwise you will say it is shot out of a canon.

MR. KISE: As we have said many times, since they have gone back that far we have to go back just as far.

THE COURT: Mr. Amer, I see you believe in miracles.

MR. ROBERT: I won't ask if they built anything by candlelight, don't worry.

Q Mr. Trump, who is depicted in this photograph?
A That's my grandfather, Fred Trump.
Q What about this picture?
A Same thing.
Q What are they overlooking, if you know?
A Honestly --
Q If you don't know, you don't know.
A I don't know exactly, but I imagine it is one of my
grandfather's places in Brooklyn and/or Queens. And I see my
father's hair and I say that was probably, probably prior to my
birth or around -- I have some pictures of myself as an infant where he looked, sort of, similar.

Q So Mr. Trump, you testified that at some point your dad took the family business and came to Manhattan, correct?

A Correct.
Q And was that in or around 1976 ?
A Yes, you know, about 18 months prior to my birth.
Q And what project was that that was the first project of the Trump Organization in Manhattan?

A That was the Grand Hyatt Hotel. You know that hotel was getting a little bit delapidated. My father had a vision to, you know, to change that. And he worked with the Hyatt family and the people who owned that at the time to create something that was incredibly rundown and turned it into something spectacular.

Page 4005
Q What, if any, impact did that have on the City of New York at the time?

A I think it was significant. And I think it really, you know, allowed him to grab a foothold as an outsider in a city that was, sort of, dominated by very Manhattan specific real estate families. That was, sort of, the first big project. He took something that was a disaster and turned it into something incredible. And that's no easy feat at anytime in Manhattan, and certainly probably not in the late '70s.

MR. WALLACE: I am going to object at this point. I don't know if he has done academic studies that the situation in New York found itself in 1976 and is offering expert testimony, but this is all hearsay. This is not the witness's firsthand experiences of anything.

MR. ROBERT: Mr. Trump is a sophisticated developer in the New York marketplace. It is his understanding of what his company's history has been and the benefit the company had to New York City and New York State as a whole. I see it for his opinion, not as an expert for the history of New York City.

THE COURT: That's the problem, it is sort of expert testimony.

Look, plaintiff, how many weeks did you put on your case?

MR. WALLACE: I am trying to remember. Six.

## THE COURT: Six.

MR. WALLACE: If the answer is they can do anything they want in six weeks, I don't know what we are going to do when we object. We are objecting to specific testimony coming in, not to the time anyone is taking.

THE COURT: I know, but having given you six weeks, you are going to get me in trouble with Mr. Kise. He is going to talk about how I always rule against him. No, let this stuff come in. Again, it has been 45 minutes or less. I also find it interesting, but that's -- you know.

MR. WALLACE: If we can get to an understanding that Your Honor --

THE COURT: I think it is relevant to get the historical perspective. Let's not have anymore objections on this particular ground. Something else, fine.

THE WITNESS: I promise I will keep it less than six weeks.

MR. WALLACE: Your Honor, if you are telling us you will take all of this testimony for what it is worth, that this is Mr. Trump's perspective on historical events, I am happy to end my objection.

MR. AMER: I would ask that can we not have text on the screen, that basically acts as a script for the witness. I understand they want to get him to comment on
pictures, I think that's fine. But we have a document that the attorneys prepared.

MR. ROBERT: This is from the Trump -- point of clarification, this is from the website and in the demonstratives you sent us.

MS. FAHERTY: This is a DX Exhibit, Mr. Robert.
MR. ROBERT: I'll pull yours out of my briefcase. Hold on.

MR. AMER: I don't think it is appropriate to put a hearsay document on the screen without using it.

THE WITNESS: I assure you, I don't need the text to tell you about these projects. I instructed my marketing teams to create this stuff throughout my tenure in the Trump Organization, so it is certainly not a script.

MR. KISE: The witness just said what I was going to say. This is the product of his instruction. This is on the website. This isn't something that the lawyers prepared. It is simply, he is a corporate officer, he is a corporate representative, it provides the context and background.

THE COURT: Mr. Kise, don't you remember my first rule?

MR. ROBERT: When things are going your way.
THE COURT: If I am arguing for you, you don't
have to argue for you.
MR. KISE: Fair enough.
THE COURT: Objection is overuled. Let him go ahead and talk about how great the Trump Organization is.
Q So I am going to now move us ahead eight years to 1983. What was the second major project that the Trump Organization did in New York City, sir?

A That would have been Trump Tower. And that was just, you know, really -- that was the first time he changed the skyline, because -- over the height. I think it was the tallest residential building in Manhattan at the time.

It also, for my father, created a distinction between him and so many other developers. You had Tiffany's next door. There was an incredibly intricate negotiation for the air rights. Right? Sort of a relatively new concept, certainly for developers.

These days, and for the last few years in New York, air rights has allowed people to build some of the most spectacular buildings anywhere in the world, creating view corridors that were unheard of. You see that going on with some of the tall buildings that have gone up over Central Park. My father was doing that 40 -something years before everyone else figured it out. So he was able to amass the air rights.

And if you look at the building, you can see unique things. It wasn't just taking, sort of, the square footage he
you can take that residential apartment and put it on the 68th floor, that changes things. You have that view.

You know, that said, for retail to have, you know, that area on Fifth Avenue. It is great to have office in-between, again, lifting up the residential component, creating height, creating views.

You know, my father was able to maximize that FAR, floor area ratio, deemed by the City, what was allowable to be built, and really maximize each aspect of it, not give up a single square foot, and create a lot of value in the process.

Q At the time, are you aware if there was anything similar to this in or around that area on Fifth Avenue?

A You know, I was about five so I am not sure. But I know other buildings of the era, and this was certainly certainly unique. And it was a project by which, you know, I know from conversations of some of the others throughout my career, you know, great developers really looked at it like that was genius, that play was incredible, that was unique. And really set the stage for my father in his further developments.

MR. WALLACE: I want to go back to note the objection of hearsay, what he was told by other developers.

THE COURT: Okay. It is stricken, the hearsay part of it, what other developers said.
was able to purchase from Tiffany's and adding it to the top of his tower. If you look at the way the building, sort of, has a saw cut in it, he took a project and gave, you know, every bedroom a corner window. He was able to do that even on the lower portion. Give balconies to people. Take those air rights and not just, again, stack them into a square building that would have been, you know, X number of feet tall, but by doing the wedding caking, taking the building taller, giving everyone that corner view and really doing something truly special, I think it would be one of the first, perhaps great examples of, you know, ultra luxury real estate emerging in Manhattan. It was the, you know, sort of the -- the project by which all future high-end luxury residential condominiums would have been judged.

Q What, if any, significance was there to the mixed use of it at the time?

A Well, the way FAR, you know, works --
$Q$ Can you explain what FAR is?
A Floor area ratio. You know, buildings can be deemed to have a certain amount of this, but you may not be able to build all of that square footage as residential.

So this, as a mixed use building, the first few, you know, floors, you know, high-end luxury retail, having an apartment on the second floor of Fifth Avenue doesn't add all of that much value. Is it a prestigious address? Yes. But if

## Trump Jr. - by Defendant - Direct(Robert)

MR. ROBERT: Fair point, Your Honor.
Q Mr. Trump, what are we looking at here in slide seven?

A It is the view of Central Park and the Plaza Hotel, another one of the projects that we, you know, had in our portfolio and developed and created at some stage in our life.
And that's the view from -- actually it is the view outside of my office.

Q And this is how it looks today?
A It is.
Q And the next slide, slide eight, what are we looking at here, Mr. Trump?

A That's the atrium of Trump Tower, the same building we were just looking at, with sort of, you know, signage from Gucci, one of the great retail tenants of the world who occupies the retail space, the base level of the building.

And yeah, that's basically as it is for the most part today.

Q What are we looking at here in slide nine?
A The elevator lobby of the same space.
Q And slide ten, give us a perspective of what this is.
A That was the retail, you know, component of Trump Tower when it was originally built, having that, sort of, internal vertical retail, something very unique that had not really been done. It allowed you to work within the space.

Some of that actually, you know, as public space still deemed by the City, again, allowed by having it be public space, it allowed you to do certain things within it. So I think the whole project really shows the forethought, the, you know, genius of what my father was able to do; the vision that he was able to have to do things differently, to think outside of the box, to create and ultimately add value in ways that other people had never thought of before.

Q So earlier you testified that your first job at the Trump Organization was, and I use the word "project manager" on the West Side Yards, correct, sir?

A Yes.
Q I realize you were still very young, 1984 you were eight -- six?

A Yeah, New Year's Eve '77, so I guess six.
$Q$ What are we looking at here in this slide?
A That is a -- that is $240,220,200,180,160,140$ and it seems like the corner of 120 Riverside Boulevard. That is -- when I said I worked for Hudson Waterfront Associates, that was the organization that ended up owning and developing this project. It was the largest piece of undeveloped land in New York. It was the former west side railway yards, and you know, it was to most people, for decades, you know, an eyesore of undeveloped land in New York. My father saw what it was. He saw the potential for that. He had numerous iterations.

Page 4013
And perhaps it goes to show the nature of real estate development and how things change over time.

At one point he was going to build the tallest building in the world there, as he built one of the tallest residential towers ever in Manhattan on the opposite side, across from the UN on the east side at Trump World Tower.

Here you had a project that the evolution changed over 25 years to being, you know, one of the, really, one of the largest developments amassed in New York City that I can think of for the last two decades.

Q From the time the Trump Organization acquired this property in 1984 to the time you joined the project and the company in 2001, what, if anything, had happened to the property during that period?

A A lot of different changes, a lot of different ideas. A lot of time spent on zoning and entitlement and what you could actually do there. And it ended up -- it ended up turning into a spectacular residential project. Again, unique in that the first two buildings, really the first three buildings there are condominium. The next buildings were rental apartments. And so you had a diversification in the way in what you were building. Just keeping in touch with, as you built one building, if the markets changed in the timeframe that we talked about, we said from inception to completion on a real estate project, it could be two, it could be ten, it could
be 25 years. As the market in New York changed, so did what those projects and buildings were, to be able to suit the market and actually, you know, maximize value, you know, of the project.

Q Slide 12, what are we looking at here?
A It looks like one of the lobbies of one of the buildings. That could be 200, if I remember correctly, but I don't want to place a bet.

Q Slide 13?
A I believe that's 240 Riverside Boulevard lobby. And I think it should be noted that, again, at this time or at the time that these were being built, you didn't have projects like this being built. You didn't have luxury projects being built like that in those locations. You had older brick buildings. You had, you know, dated co-ops. They really -- the organization really brought a whole new level of luxury to that market. It really created something special in an area that was otherwise left for dead for a long time.

Q And this is just another view of the project?
A That's correct.
Q So --
A By the way, that's literally the north third, maybe the north quarter of the project. This went all the way down to approximately 59th Street, and that corner there is 72nd. So this was a very large tract along the Hudson River.

## D

Page 4015
And again, that was left for dead for so long.
Really saw some value and created something special. It is one of the, really, the most luxury, even today, projects in that market.

Q You mentioned earlier this morning this notion about the amenity space in the building. Do you remember that, sir?

A Ido.
Q What if anything was significant about the way the Trump Organization viewed amenity spaces? And I will ask you now about residential and later on about commercial space.

A It was a very big deal. It was something, as I stated that, forever, you know, most real estate developers want to build and sell every single piece of real estate you get away from the projects. But to maximize, you know, the price per square foot you were able to sell.

Eventually you had to give something more. My father was on the leading edge of creating that value in things, again, that are commonplace today in ultra luxury real estate are there because my father, in my opinion, was the first guy to do that. Maybe someone put a gym in a building somewhere, but no one had done it at the scale of what my father had done.

You know, so that notion of using what could have been otherwise saleable space to add value and create amenities for people, he was really on the leading edge of all of that. And again, it allowed his and his projects to out perform
others in the market throughout most of his career.
Q We are going to move on to a property, Mar-a-Lago.
A Yes.
Q What, if anything, happened in 1985 with the Trump Organization in Mar-a-Lago?

A Well, my father -- my father purchased, you know, what I would say is one of the finest estates anywhere in the world, certainly, certainly in America. I guess maybe there is a couple, but I would look at it as one of the few -- one of the few, sort of, American castles, if you would. America, it is not the same as Europe or, you know, older parts of the world. This is one of the most spectacular estates anywhere in the world.

My father was able to come up with some very creative ways to be able to purchase this estate. Has had it as his residence ever since. Certainly a home away from home for all of his career. It is big and my father likes to play and create and do things. And my father turned it into a club at the same time, and it has just been an amazing -- an amazing place.

Q What, if anything, do you understand the history of Mar-a-Lago to be?

A Well, it was a -- originally built by Marjory
Merriweather Post, let's call it really maybe one of the first female industrialists in America. Someone who was really,

Page 4017
maybe in the world, ahead of her time. This was her private estate. This is where she entertained titans of industry, leaders from all over the world. It was the crown jewel of Palm Beach. One of, you know, the world's leading luxury, let's call it, you know, vacation places, as well as just residences these days. And it continues to be that today.

Q Do you have an understanding of how it is the Trump Organization acquired Mar-a-Lago?

A Well, you know, it was pretty early, I know there was some interesting land right plays. My father, I think he bought the ocean component of Mar-a-Lago. You know, Mar-a-Lago is: From the sea to the lake. That's the intercoastal waterway in Palm Beach.

If you are on the ocean, that's incredible value. If you are on the lake or the intercoastal that's incredible value. If you are on both, that's virtually unheard of. But what he was able to do is buy the ocean component, to my recollection. And basically said, hey, I am going to build a house here and block off those views. Having Mar-a-Lago without the Mar, or at least without views of the Mar, the ocean, it was not quite the same. And so it put him in a position to leverage what he had done to be able to buy the rest of the property, you know, for rather an incredible price. I think it was 7 or $\$ 8$ million.

Q Look at slide 16.

A You can see the beach component, you see the pool on the upper end there. So it was a small component of Mar-a-Lago, but, you know, by controlling that it gave him significant control of the rest of the property.

Q And what are we looking at here in slide 17?
A That's the primary atrium. It is -- when you see that, you know, and again, the detail of which is just incredible, you see what that is. You understand you can't build that today. It doesn't exist.

So that's why perhaps I may have taken some umbrage when the stories were out about Mar-a-Lago being worth $\$ 18$ million. You couldn't build that atrium for $\$ 18$ million today. But again, you need to understand it and see it to actually fully grasp the spectacular nature of this property.

Q And this picture, sir?
A Just the opposite angle, you know, of that same shot. And again, that's where Marjory Merriweather Post entertained the biggest people in the world in the early 1900s.

Q And slide 19, sir, what are we looking at here?
A That's the ballroom that is for the club component. That's where we host our weddings. And my father built that, spent a lot of money building a contemporary version of what would have been, you know, the lobby and the atrium, you know, that you just saw. But to be able to have, you know, what is called the wing span, the ceiling span, to be able to host

## Trump Jr. - by Defendant - Direct(Robert) <br> Page 4019

weddings, to not have columns, to not have this, to be able to host some of the finest events anywhere in the world.

Q Do you have an understanding as to when this ballroom was built?

A That was built in the early, let's call it, early 2000's.

Q And do you have an understanding of how much money was spent to build this?

A A little approximately $15, \$ 16$ million then.
Q This is just another one of the ballrooms, right?
A That was actually, sort of, the original ballroom that was actually part of the estates when we did it. Significantly smaller than the one we built. That's, sort of, the breakout room ballroom; is what we would use it as now.

Q Slide 21, what is this perspective we are looking at?
A I imagine that's, if you are the camera guy you are at the edge of the waterfront. So you are on the Atlantic Ocean taking a picture to the west. That's the beach club component. That's the portion of land that I was talking about in terms of my father, my understanding is, got controlling interest of that to be able to leverage to buy the rest of the property.

Q And this is just another view of that beach area?
A Correct.
Q Moving to slide 23, sir; do you see that?

A Ido.
Q And the house that is all the way down here on the right; do you recognize that house, sir?

A Ido.
Q What is that house?
A That, I forget the exact address, but that's -that's the house next door to the beach club that was actually my aunt's residence for a while. We purchased it for a while. It is a, you know, beautiful house that is very nice, but probably under an acre in size. And you know, has been on the market for approximately $\$ 50$ million.

Just, you know, so for perspective Mar-a-Lago being just under 20 acres, to understand just the size and scope of what all of this is.

Q And that's just one acre on the beach itself, correct?

A Correct.
Q Okay. Moving ahead.
Do you remember a project involving the Wolman Rink from the Trump Organization?

A I do. I used to skate there a lot on the weekends.
Q What was your understanding of that project, sir?
A It was a project -- it was run by the City. It was rundown and, sort of, fell apart, delapidated. In the early '80s, I remember my father used to, sort of, see it from -- you

Q And this was, to your knowledge, the first time the Trump Organization did a City work type project?
A To my knowledge, yes, I believe it was.
Q Okay. And we are going to talk about others later this morning.

I want to talk to you about the Plaza Hotel. What if any involvement did the Trump Organization have with the Plaza Hotel?
A Similar thing. My father saw an opportunity to buy what was one of the great, you know, iconic projects in New York City. He got involved. He got involved with it at a time, took it over, ran it, operated it. Um, you know, sold it again. But it was a project that he saw as, you know, as a crown jewel asset in New York. He wanted to make sure that, you know, it did not fall apart and did not get there. And it was, you know, it - it, again, a crown jewel of his portfolio for some period of time.
(Whereupon, the slide was displayed on the screen.)
Q Now I'm going to move to a property we heard about in this case called Seven Springs. And your brother is going to testify in a little more detail about that later on in the trial.

But generally, what, if anything, did The Trump Organization do in 1994 with a property called Seven Springs?
A I believe it was really the largest -- one of the
could see Trump Tower there in the background. And it was one of those projects that just -- the City couldn't run it. It fell apart. My father literally offered to come in and fix it, because he was sick of looking at the eyesore that was there. He didn't want to see that in Central Park. It wasn't good for New York City. It wasn't good for what he was trying to do in New York, creating that, you know, luxury environment. And so he got involved with it. Took it over from the City. And within a few months it was up and running and he managed it. And it was spectacular for quite sometime.

I think, if I remember correctly, he may have -- the City decided it wanted to do it itself, and it could do it, they took it back over. And within a short period of time the chillers for the ice were no longer working, and it fell back into disarray. My father took it back over, fixed it again. Got it up and running. And, you know, then managed it for the next, you know, 25 years, whatever it was. I don't know the exact timing, but for a very long period of time.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Trump, Jr. - Defense - Direct (Mr. Robert)
Page 4023
largest contiguous undeveloped parcels of land in Westchester County. Obviously, you know, incredibly luxurious, a suburb of Manhattan, 200-something acres with an incredible, you know, estate home on it.

My father took that over. It was -- they -- it really was in a trust. Just, you know, sort of falling apart sitting there. He saw the potential of this estate, just said it was too nice just to let really fall apart and sit there, so he bought this. And again, just as a vision, could it be something else? Could he go through zoning; was more intimate on details of the project. So he could take you through what it was. But, again, at the time, you know, 200-something acres in Westchester County that, you know, with this kind of spectacular home on it, and others, was just amazing.

For me, I personally loved it because I would take my kids up there on the weekends and I got to let, you know, kids that were otherwise raised in New York City, ride ATVs, play in the woods and have a great time. So it was always a property near and dear to my heart, but mostly as a playground, but not as the, let's call it potential canvass for my father's art, which is development.

Q What do you mean by that? Your dad's canvass is development?

A I look at him -- he is an artist with real estate. He sees the things that other people don't. He creates the things
that other people would never envision. He plays the long game in many cases in that. He, honestly, very rarely does he sell assets. Obviously, realty is cyclical. Sometimes it make sense that you have to, sometimes there's decisions that you can't say no, or you have the opportunity to sell one thing which allows you to buy three, four, five others. But, you know, that is -that is his canvass that he creates. He is a creative guy. He's also good at building, so that makes it even easier. You know, there are artists in real estate, as we've seen around the world, that, you know, they want to build a ski resort in the Middle East. It's wonderful, but it's not exactly efficient or makes sense. He understands and has incredible vision that other people don't, and so I think he saw that for this property. And again, it is that special.
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at, slide 29?
A That's the main house. Although, even some of the secondary housing, you know, the Heinz estate, the Heinz ketchup, that was another house. It was their residence there. That's the main house, and it's a spectacular example of a home that built -- each one of the blocks came from literally its own quarry, hand carved, and it's this big. You have to sort of see it to understand the level of quality that was built around the time that this was put together. It's just an amazing estate.
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4025
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at in slide 30?
A That's the -- really like one third of the primary entrance foyer. It's really the back end of it. It's quite a bit bigger than that.
(Whereupon, the next slide was displayed on the screen.)
A That is a full picture there of what happens when you walk in that primary front door.
(Whereupon, the next slide was displayed on the screen.)
Q And 32?
A The library of that building.
(Whereupon, the next slide was displayed on the screen.)
Q And 33?
A Indoor pool. Really unique at that time. I forget the exact year that it was built, but quite sometime ago. Um, you know, early mid 1900s. You know, indoor pools to be done so that, you know, again perhaps that was one of the original unique amenities, spaces in an estate, but, um, a pretty spectacular space.
(Whereupon, the next slide was displayed on the screen.)

Page 4026

1

Q Finally, this is?
A That is the Heinz estate. That just another one of the homes on that property.
Q Okay.
(Whereupon, the next slide was displayed on the screen.)
Q Now, turning to another property that we all know, in this case, which is 40 W all Street. Are you familiar with that property?
A I am.
Q What, if anything, did The Trump Organization do with that in 1995?
A Well, you know, my father bought it, um, in a very rough real estate cycle in New York. The market was a disaster. It was falling apart. The people who had bought it didn't really know or understand real estate. They were putting, you know, dropping ceilings in it. It was, at one point in time, it was the tallest building in the world, actually. It was then displaced later on by the Empire State Building, but only slightly. And it's a commercial office building. My father, you know, took it over at a very rough time, understood, again, how to maximize the potential of this. Over a million square feet of office space in New York that was going to be largely vacant and unoccupied. And so it was a risk in a rough time, but, you know, he understood how to maximize that, how to fix it

Page 4027
up, how to bring out the potential of the asset, and he's done that. And it's been an outstanding landmark in our portfolio ever since.
Q Before we show more pictures of this, what was your involvement with 40 Wall, and I know we are little bit fast forwarding, and I'll come back in a second.

Once you were in The Trump Organization, what was your involvement?
A I got involved in leasing probably, you know, 2011, 2012, you know, I got involved in leasing of the building. Obviously coming out of a very rough real estate market, um, when you have a million and change square feet of a property, if all of those -- in this case it's commercial real estate. If all of your leases come due at a certain period of time, but that happens to be within a bad market, that changes things. So I got involved in leasing that building, you know, let's call it diversifying the time line of the rent roles, and the expiration, you know, really trying to stabilize that, and that's been great.
Q Putting a little more meat on those bones, what does that exactly mean in terms of what your function was in, let's say, dealing with the lease terminations and things like that?
A Took charge of the leasing of the building. So if you had, you know, any one of the dozens of tenants that occupied space within the building, I would work with them to either
renew their lease. I would work with them, and/or, you know, the brokers to find someone else to fill a vacant space to try to maximize value, to make sure that you could stagger the expiration of those leases to kind of stabilize cash flows over time there. And it's been great.
Q For example, using 40 Wall, how does cash flow change year to year, generally, with regard to a property like that for
The Trump Organization, specifically?
A I mean, it depends, right. Generally, a commercial lease, ten plus years, if you take over a building, as my father did, and it's vacant, you fill it all up. If all of those rents and all of those leases come due at a certain time, that's great if you are in a boom time; it's a disaster if you are not. And that's the way the nature and the cyclical nature of the real estate market works. There's a lot of luck to that. But you can find times and you could do things to be able to, you know, it's called spread some of that risk out.
You know, so for that building, you know, in 2012, you had a large chunk of space coming due, you were coming out of the ' 08 , ' 10 sort of disaster. I don't think it's hearsay to say that the real estate in New York, and frankly America, was a disaster in ' 08 coming out of, you know, that crisis. So you are spreading those out, renewing things, making sure to stabilize cash flows to keep those things going, um, for the project became a very important part of the job, and we did

## Page 4029

that. That's not a two-week, you know, wave a magic wand type of thing. That took a lot of time, and, you know, we did a great job of that building. The last time I checked, it was leased into the tune of 90 -something percent. Mid 90 s, very good for downtown. And so we did a great job sort of just stabilizing that asset and creating value.

Q What is the Trump Organization's philosophy in a down time when you have vacant space in a building? Do you automatically immediately want to have a tenant come in and sign a lease?
A Not necessarily. There are times you see that potential for the market to come, you want to hold it, or maybe you would lease it, but you wouldn't lease it for ten years; you would lease it for five. You stabilize that.

A big part of leasing, if you get -- maybe renew an existing tenant, but you wouldn't put in the same TI packages, tenant improvements. You don't want to spend you know, 60, 70 $\$ 80$ a foot that may take three, four, five years before they start actually returning, because you are getting the rent, but you have to pay yourself back, essentially, for building out the space for the tenant. So if I could renew a tenant rather than putting a new one in there, I'm incentivized to do that because I'm not necessarily spending that money on moment one.

So, you know, there's any number of things that you would do as a real estate developer or operator, professional,
in this case to secure that. I mean these are the gambles that you take as part of real estate, but, again, you wouldn't want to necessarily, at an all time low, you wouldn't want to renew for ten years, but you may want to renew for five, stretch people out, get them into a new market, and then hopefully you end up in a boom time that that's where you do the ten-year lease, the ten-year plus lease.

THE COURT: You are using very frequently a banned word in my courtroom. Mr. Kise, what is the banned word? MR. KISE: Again.
THE COURT: Again.
THE WITNESS: I apologize.
THE COURT: Try not to repeat yourself. That's all. If you are going to say something again, maybe just leave out the "again", because otherwise you'll get me all upset.

MR. KISE: I thought you were giving me a ten-minute warning when I saw your eyes.
A It's my component in my general vernacular. I'll do my best.

THE COURT: Im giving you a five-minute warning later.
Q Moving back to the presentation.
(Whereupon, the next slide was displayed on the screen.)
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4031

Q What are we looking at here in slide 36 ?
A That is the lobby of 40 Wall Street.
(Whereupon, the next slide was displayed on the screen.)
Q And slide 37.
A Actually, that's the safe -- that's one of four, or five -- it's not even the big one, the vaults at 40 Wall Street. What was interesting, when the building was built it was actually used by the Federal Reserve to store, across the street, to store some of America's gold currency there. There's safes that the vault doors are nine feet wide, actually spectacular. It's -- to me it's maybe -- as one of these guys that's in into that stuff, it's truly like a mechanical work of art. And that one doesn't even do it justice because there's bigger ones, but we since turned these vaults that you don't necessarily need in a world of digital banking, and whatnot, we've turned it into an amenity space for the building.

But at one point in time, you know, that was used by the Federal Reserve to safeguard gold. And let's just say it would probably be easier to take down the building to remove those safes than it would be to get them out any other way. So we figured out the way to utilize them and allow other people to see the nature of them.
(Whereupon, the next slide was displayed on the screen.)

1 Q And 38, is that one of those amenity spaces?
2 A Yes.
(Whereupon, the next slide was displayed on the screen.)
Q Same with 39?
A Correct.
Q So we talked earlier about the Trump Organization being in the forefront of amenity space in residential. What about with regard to commercial space?
A Similar. Similar. Doing something like this would not necessarily be heard of. Someone would usually lease it for two bucks a foot to, you know, put a storage unit there for someone.

For us, it was about creating value for the other tenants in the building, and if we can do that, ultimately that ends up into creating value for us in the rents that you are able to afford.
(Whereupon, the next slide was displayed on the screen.)
Q And what are we looking at here?
A It looks like one of the views from one of the upper tiers of the building overlooking the Brooklyn Bridge, et cetera.
(Whereupon, the next slide was displayed on the screen.)
$Q$ And finally this picture of $\mathbf{4 0}$ Wall?
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4033
1 A That's the tower.
2 Q We are now going to move into a different topic and the next slide.
(Whereupon, the next slide was displayed on the screen.)
Q Which is in 1997, the Trump International Hotel and
Tower, before we talk about this. I want to talk to you about
the hotel division of the Trump Organization, okay, Mr. Trump.
A Yes.
Q So building hotels is something The Trump Organization did in the past; correct?

A Correct.
Q What, if anything, was different in the way that The
Trump Organization dealt with the building of hotels as opposed to others?
A We would also have been on the forefront of doing it, you know, under a condominium style, right, hotel condominium had never really been done in luxury hotels prior to my father, that I could think of.

Q I'm going to break it down, because this is important. Mr. Trump, forgive me for being so simplistic; a condominium is?

A A "condominium" would be when you sell the real estate.
23 Let's say you build a building, it has 500 units, unit number
24 one is sold to John Smith. Unit number two gets sold to
25 Samantha S, whatever it may be. We actually did that with
hotels.
Q Explain.
A So this was the former Gulf and Western building. It was a commercial building. When my father bought it and he worked with the General Electric Pension Trust, I believe it was, but certainly General Electric, generally, to redevelop this project, our forte, while he dabbled in hotels, the Hyatt Hotel earlier, it wasn't necessarily part of our general portfolio.

The problem with it was the zoning in the building forced you to maintain a commercial component to maximize that. So you could build residential, but to build residential, if you only did residential, you would literally have to lop off a few stories of the upper portion of the project. So that didn't make any sense. You wouldn't want to lose the value. But, what could you do? You could leave it commercial or you could create something that makes more sense. Just create a hotel component, that way if you have amenities, again, like a gym, you could amortize them over the entire building rather than just, you know, just the residences.

And so, what they did was they, let's call it, you know, bottom, bottom third of that building is a hotel, and it functions that way today. We manage it, but it was a hotel/condominium whereby unit 3A of the hotel is, again, sold like you would a residential component. So a buyer can actually
rump, Jr. - Defense - Direct (Mr. Robert)
Page 4035
own, um, let's call it a one-bedroom hotel, that we manage for them. They use it as a pied-à-terre when they are in New York City, if they choose to do that. They have a lock out closet and kitchen they could use when they are in New York City, and when they are not there, it's generating income for them.

Again, we manage it, so Joe Q public coming off the street staying at the Trump Hotel may not realize if they stayed in unit 301, that's owned by someone different than if they stayed in unit 1503. To them, the hotel experience is seamless, but it was a unique way of doing hotel, because by, A, selling it up front, it was a unique way of financing a property.

In this case it was a unique way of maximizing the saleable square footage of the building. It was just another example of my father being on the leading edge of that creativity.

Someone else would have lopped it off or kept it as commercial, and this building achieves, even to this day, the highest price per square foot anywhere in the world, really, but certainly in New York City as well, but it has that hotel component in it, but that hotel component has really been sold off to individuals.

## Q Why did that make financing easier?

A Because you didn't just have to sort of lock in a financing for a portion of the building that you were buying, that you were spending incredible amounts of money renovating.
D. Trump, Jr. - Defense - Direct (Mr. Robert) Page 4036

You were actually able to sell that as you were selling the rest of the building and pay down your investment costs on day one, not stretched out over time. So that could end, as I mentioned, for a hotel company, and certainly the way the business works.
You want that management contract. For us we have the management company. We were able to actually sell the real estate on moment number one. Um, that's a no brainer. And you are not carrying that debt the same way as you would for a long period of time, which, again, could be, you know, problematic again depending on the debt market at the time.

Q We'll see some other examples later on. Is this something that The Trump Organization has continued to do?

A Yeah, we did it. We did it very effectively. We did this here, in this case, in the late ' 90 s , but also did it during sort of the early 2000's boom in the real estate markets. We did it in Trump Chicago. We did it in Las Vegas. We've done it in a few other projects. We were the leading -- I mean, honestly, it's one of these things that we were doing it, it was so good that everyone then tried to emulate it, and then you had a flood, sort of, in the real estate market of these products when everyone figured out, this is a great way to finance a hotel, or a great way to get a hotel built, or great way to actually end up securing, ultimately, for a hotel company, that management agreement, you know, that they want to rack up. That's the long term annuity, you know, for the hotel company.

1 component of the building up high, overlooking Central Park.
Q What is it looking at here?
A That looks like a room from one of the hotels. That's not residential. That is one of the hotels used -- that's probably the northeast corner of the building.
(Whereupon, the next slide was displayed on the screen.)
Q And finally what is this?
A That is the upper component of the building as looked at from, I guess, the northwest. So that would have been -that's the view of the -- let's call it the condominium component of the building.

MR. ROBERT: Your Honor, we are going to move onto another property. It may make most sense, with the Court's permission, to take the morning break now rather than two minutes from now when I'm in the middle of the property.

THE COURT: Of course. A ten-minute break, but it will take us 15 minutes. Let's just say we'll be back at quarter to 12 , sharp.

MS. FAHERTY: Please provide an admonition to the witness. Thank you.

THE COURT: I would direct the witness, as I've always done, not to discuss this case, or your testimony, or anything related to it, while you are still a witness, meaning during this break.
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4037
So, you know we were just, again, ahead of the curve.
(Whereupon, the exhibit was displayed on the screen.)

THE COURT: Five-minute warning. He talks so long
I might have to give you a ten-minute warning.
MR. ROBERT: Not as long as some other people. THE COURT: I'll buy that.
A See, I only got half the genes, so I give you half the time.
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at here, Mr. Trump?
A That's the the entrance of the Trump International Hotel and Tower. To the right -- they are separated, so the middle is the hotel lobby. The left is actually jEAN-Georges, one of the finest restaurants anywhere in the world; that's their entrance. They occupy the restaurant area. That's who does the room service for the hotel. The middle lobby, again, is the hotel. I apologize. I used the " A " word again.

THE COURT: At least you caught yourself.
A Yet another time, and then to the right, you have the residential lobby of the building. And so that is separated -that is the upper tranche of the building, and that would be like any other ultra-luxury residential, except you don't start your floors on the second floor, you start the residential
D. Trump, Jr. - Defense - Direct (Mr. Robert) THE WITNESS: Yes, sir. THE COURT: Thank you.
(Whereupon, a 15-minute break was agreed upon and taken by all parties.)

THE COURT OFFICER: All rise. Part 37 is back in session. Please be seated and come to order.

THE COURT: Mr. Robert, please continue. MR. ROBERT: Thank you.
Q So, Mr. Trump, I'm now going to draw your attention to 1999 and talk about the first of several golf courses owned by the company. Okay, sir?

A Sure.
Q Are you familiar with the 1999 acquisition of Trump National Golf in West Palm Beach?
A Iam.
Q What was this before it became Trump International Golf Club in West Palm Beach?

A Literally, a flat swamp in West Palm Beach, Florida. It's almost hard to believe you have an undeveloped tract of land with nothing on it in that location.

Q And where exactly in West Palm Beach is it?
A This is really across from the International airport right there, so five minutes from Palm Beach Island proper.

Q What were the circumstances surrounding The Trump 25 Organization's interests in acquiring this piece of land?

## THE WITNESS: Yes, sir.

A That is the artistry that comes to fruition over and over. But he took raw swampland that no one, for decades, had seen any value in and turned it into an area that's one of the most prestigious clubs in South Florida; one of the finest golf courses in the world. It's a who's who of membership because of the proximity to Palm Beach Island. There's not land there to do this on anymore. And truly, created something special from swampland.

Q And was this the first time that the Trump Organization had been getting into the golf business?

A On or about.
Q Okay.
A His passion for that sort of happened. At that time he had a lot of fun working on this one. They moved so much earth and he said, "Wait a minute. I could actually do this very well." And then it went into Westchester and others, and Bedminster, and really started sort of with the golf portfolio. But, yes, this would have been, I think, the earliest, to my recollection, in terms of ground-up construction there.
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at here in slide 47, Mr. Trump?
A That is a view of the 18 th fairway to the clubhouse.
Q Is that the topography you were talking about? Explain
a little bit about that.
A That literally would have been flat, water level, and not grass, just palm jungly Florida swamp, like you'd see, I guess, way further inland.

But that's not -- if you have the flip side view -- I'm not sure what slide is next, but if you have the flip side, you could see some true topography.
(Whereupon, the next slide was displayed on the screen.)
A This an example of even when we started, the original clubhouse was a double-wide trailer to get things going and have people playing, and has developed into this.
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at here, sir, in slide 46 ?
A That is the top of the topography that is, I believe, the 17 th green, and so they created, you know, a jungle environment, um, a river into the water system. All the water systems are linked to be able to transfer water to where you need it. In Florida you get a lot of rain, so that's generally good. If you don't, you have to deal with a lot of heat, so to be able to manage and maintain the course to the highest luxury standards, it required a lot of irrigation, and so while it's beautiful it also has a functional purpose.
(Whereupon, the next slide was displayed on the

## Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4043

## screen.)

Q What are we looking at here in slide 49?
A There was another component -- that's the island green on what we call the new nine. There's actually three nine hole golf courses on the -- sort of the original 18 holes, and this was another one of those areas that was underdeveloped until more recently. I forget the exact year, but that, too, was swampland. And the membership, the city, "Hey, can we make this better? Do what you do best." And turned it into an entirely new nine. Allowed us to bring in more members because you could spread play out over a greater number of holes. And that's just one of the greens. The tee boxes would be over there on the right. So you are trying to hit the ball on a floating island green.

MR. ROBERT: His honor will be happy. I'm not going to take you through the other 16 holes on this course. Q But I want to ask you. This attention to detail, how would you describe it on the other holes on this course?

A All the same. I mean, it's, you know, that's his passion project. So when we talk about his involvement, the golf courses, he wants to be involved because he loves it. He'll sit there and tinker with a green and move a tree. And you'd think -- and trust, me I know. And I'm - I'm like the non-golfer in the family, which has relegated me to the children's table in perpetuity, but his attention to detail for
that, you think it's nothing. And then you see the move, it's oh, like, you get it. All of a sudden he just sees stuff that other people don't.
(Whereupon, the next slide was displayed on the
screen.)
Q And I think you said earlier you have it from the other angle. What are we looking at here?
A Another view of the clubhouse. A partial view of the clubhouse. You have a dining area. The ballroom. It wasn't just about, then, golf, but this golf course, because of the views, the spectacular nature, you saw the waterfall. The bird's-eye view, the bird's-eye view the other way, it's a pretty magical place, from Florida swampland to this. They'll use that ballroom and do super high-end weddings there as well. Another way to generate cash flow for the course beyond the play of golf.
(Continued on the next page.)

Q What is the significance of the clock?
A It became a marketing standard. My father put one in one of the courses, everyone commented to him on it. So it has become a fixture of all of the golf courses.
$Q$ There is one in front of Trump Tower here?
A There is.
Q Moving back to New York City, 2001. Explain to us a little bit about World Trump Tower and how that came about.

A That was an incredible site. We obviously -- right across the street from the United Nations, an undeveloped parcel of land. And my father was able to aggregate the air rights to be able to build, I think at that time it was the tallest residential building in the world. And so for him, that is the artistry, how do we make it special. You are surrounded. There is other nice residential buildings. If you notice, it really stands out, relative to some of the other, you know, at least reasonably popular condominiums and co-ops in the area at the time. So he did something unique, something different, became a very popular building, Derek Jeter lived there for years. Just a sexy place in an area -- I guess really created a market for, we have a sexy condominium, that actually would not have been considered, sort of, an ultra-luxury real estate market at the time. He created that market by building something befitting that level of quality.
$Q$ In this picture what are we looking at?

A The entrance.
Q Sorry.
A Yep.
Q The entrance on?
A That's actually -- that's the entrance across -facing either the UN. There is another one, sort of, that allowed, similar look, little flatter without the stairs, from the other side, so you can avoid the traffic on the main corridor there on First Avenue.

Q What are we looking at here, Mr. Trump?
A That's the lobby.
Q And in this picture?
A That's a little perspective, I guess, of the building, the way it stands out in there obviously. You see the UN building to the side there. The height allows you to get views of the East River, as well as the Hudson, certainly for the upper levels of the building.

But again, I think it just makes the point of the stature of that building and that is not a simple, oh, we are going to build a building. It was an amalgamation of era and rules and this to try to create something special and unique in an area where that had not really been done before.

Q Continuing in 2001. And if you want we will keep this picture up so the sketch artist gets a really good picture.

## Trump Jr. - by Defendant - Direct(Robert)

Page 4047
A We already had a talk. I want the AI version with the jaw and the shoulders.

Q So again, we know you started, you joined the company in 2001, and now we will talk about projects you were actually involved, and the Trump Organization, as we go through.

2002, we now have a golf course called Trump National Golf Course of Westchester. Are you familiar with that, sir?

A Iam.
Q What was there before this golf course when Trump was there?

A Sort of a dilapidated municipal course. This is one of those, started working on it a little bit in the summers, sort of summer internship jobs when I was still in college. And but the reality - we turned it, what was a falling apart municipal course, into an incredible, you know, private club.

Q And what kind of challenges, if any, existed in creating this, similar to the one in West Palm, or anything different?

A I wasn't as involved in the zoning and the dealing of it because that was going on, sort of, right as I was coming in. For me I jumped in and worked almost exclusively on the Hudson waterfront. I didn't have, sort of, the, frankly, the knowledge base at the time to be able to work on all of these. But this was going on while I was there, but I was, sort of, cutting my teeth elsewhere.

Q What are we looking at here in slide 57?
A The view from the golf course side of that clubhouse.
Q Okay. And slide 58?
A That was a unique one. That's the 13th hole. Dealing with the topography, there was, sort of, an actual stone wall that, sort of, created something. But we were able to create this incredible waterfall facade there. So right in front of the waterfall, you can't see it all that well right now, but it is actually that green. So you are hitting into that with that wall of water in the background. It wasn't there, but we saw it and figured it out and created that. And it has just become, sort of, the standout amenity of that course.

Q And what are we looking at here in slide 59?
A A view of the clubhouse from, let's call it the middle of the golf course. You can see the waterfall, that's the 13th green. So you are basically center of the course looking towards the clubhouse and the Hudson River.

Q What, if any, portion of this existed before the Trump Organization got involved in this project?

A None. I mean, it was, again, a rundown municipal golf course. But we didn't -- we didn't attempt to salvage anything from that. It just wasn't -- it wasn't the level of quality for us. Right? It may be fine for someone, but we had to change the entire dynamic of what that was to bring in the
thing where you didn't have to -- maybe you didn't want to go through a co-op board or weren't able to go through a co-op board, whatever it may be, it created a unique opportunity to do something like that.

Q I think you testified earlier you were a project manager, knowing titles didn't mean a heck of a lot. Fair enough?

A Yes.
Q What were some of the jobs you did with regard to Trump Park Avenue, before we get into more pictures of it? And you can take us through that.

A Again, I started off as a project manager. I was the low end on the totem pole. But, I guess I was ambitious enough I wanted to learn, and maybe stupid enough to take on every crazy project. Whether that is: You had some hotel stabilized tenants in there. That's essentially like a rent controlled apartment within a hotel, even stricter rules. How do you build and redevelop an entire building that needed everything from start to finish into a new project, while dealing with, let's call it, mid-teens number of people living within the building and occupying it. So behind every wall was a new surprise. There were all sorts of unforeseen things. So I was willing to, okay, I will do that. I'll deal with that headache. I'll figure it out.

Also, the first time really for me working with the
D. J. Trump Jr. - by Defendant - Direct(Robert)

Page 4049
people to allow it to actually succeed and be successful.
Q So you testified earlier this morning, it is one minute from afternoon, but earlier this morning, about your second major project after the Hudson Yards, which was Trump Park Avenue. Do you remember that, sir?

A Ido.
Q So we are now going to move to 2004 and Trump Park Avenue. What was Trump Park Avenue before it became Trump Park Avenue?

A It was the former Delmonico Hotel. It was in a major state of disrepair, falling apart, you know, incredible location there at 502 Park Avenue.

Everyone talks about "prewar-like." It was actually a true prewar building, built prior to the war. And it had so much potential, but was really falling apart. It was in disrepair. Prior owners had some, you know, just done a very poor job keeping it up. So you had this amazing location with this incredible facade and, you know, what we would call bones, the potential. And we brought it out and turned it into, sort of, one of the highest price-per-square-foot developments in terms of real estate. So we changed it from a hotel use to a condominium and, you know, created a new prewar condominium. That was also unique. Most prewar buildings were co-ops in New York. They were set up that way.

This was set up as a condominium and created a unique

Trump Jr. - by Defendant - Direct(Robert)
Page 4051
banks, General Electric Pension Trust, again similar to the Gulf and Western Building, Trump International. But it was my first time working with them.

So I am the new guy. And a pension fund, you know, every day: What is going on at the building?

Literally nothing has changed since you asked me six hours ago.

But I am not of the position to be able to tell them that. And eventually took on enough of a role that I could say, I promise you are better off if I just build the project, try to sell it, than me update a spreadsheet every six minutes.

Q What are we looking at here, slide 61?
A That's the lobby of the building. That's a unique one in that salvaged some components of the existing, truly special, prewar building. But bringing in and bringing out some of the - we had to redo a lot of the paneling. But we did it in the way of the original building. Very expensive, very unusual, but also allowed you to maintain, sort of, the true nature of the intimate character of the original building.

Obviously very different than, you know, a ground-up construction with massive lobbies and gilded. We really kept the heart of the building there.

Q From a developer's standpoint is that more challenging having to deal with those circumstances, or not?

A Oh, without question.

A That's the view from inside one of the penthouse suites. And I think what was unique for Trump Park Avenue there was, there was some of the unused FAR area we discussed earlier. And we were actually able to add -- pretty cool, because it is almost like the Louvre - we were able to add two boxes on the side of the building for the Penthouse units. I don't remember the exact dimensions now, but 30 by 30 , that were just pure glass, floor to ceiling, at the top of the building. Which allowed the penthouse units to have this, sort of, extra thing that you wouldn't get in a prewar building where you would have smaller windows because you were relegated to the construction methodologies of the 1920s.

Here we were able to add a structural component. It was eight floors or so of floor-to-ceiling glass, two squares on two corners, the north facing side and the west facing side of the building, which allowed for this great blend of old and new. And again, something that most wouldn't have thought of. My father, in going through the docs, recognized this void. What if we did this. I am saying, wait, we are going to build a structure on top of a 70, 80 year-old building? And the answer is, yes, we are. And we are going to figure out how do that structurally and make it happen. And it was a very special extra something to do on that building.

## Q And why?

A Because it is, you are working with the existing stuff and trying to preserve something that, in this case, is 75 years old, you know, every nick, every chip.

We had a similar, actually, thing with the Old Post Office, the hotel in Washington DC. Where it was even though the government wanted to rip it down at three or four different times throughout its career, once we got it -- which took a literal act of Congress actually, it was kind of interesting to get the project -- no, you have to maintain that door. That door is 75 years old. But you had to figure out how to maintain it and bring it out. And it is a lot more work and a lot more expensive. But if done right, it is a lot more incredible.

Q Turning to slide 62.
MR. ROBERT: I am going to check with someone
smarter than me, Your Honor.
Maybe this is a battery issue?
THE COURT: Is there anyone smarter than you?
Not about the CPLR.
MR. ROBERT: Thank you.
Just one second, Your Honor.
(Pause in the proceeding.)
MR. ROBERT: We will do it the old fashioned
way.

Q How old is this project?
MR. ROBERT: And I caught the, "again," Your
Honor. I did catch it. So did he I think.
Q How long did this project take?
A For the most part I guess it would have been a three, four year deal. We maintained, you know, this was early enough going into, sort of, the downturn. We talked about the real estate cycle earlier. So when I started in this, by the time we got zoning, by the time we got financing and entitlements, and this, and started construction and selling, you are going into some of the bad real estate market times, it is called, the 2006 through ' 09 generalized period of time.

And so we had sold off a lot of components of the building. We maintained some units. We maintain some to this date.

MR. ROBERT: Next slide, Nate.
THE COURT: Wasn't that the period called the Great Recession? As opposed to the Great Depression, it was the Great Recession?

THE WITNESS: It has been referred to as some of that, yes. That's how I refer to it. Certainly for -- as well honestly for the whole country.
Q What are we looking at here in slide 63 ?
A That is the roof for the 31-32. The top penthouse is a two-floor penthouse. This is the roof. So if you are

Page 4055
actually standing, let's say, where the photographer is, right there, you are at the top of one of the cubes, the floor-to-ceiling glass cubes that we built. So that space and the floors below it literally never existed prior to -- prior to that. So we incorporated them into the building.

And for the ultimate penthouse, because look - they were really old penthouses, once you get to that high 20s and above. But this was the penthouse penthouse. It also generated an incredible balcony space, as well as an outdoor amenity area, both here as well as the west comer. This would believe the north facing facade of the building. So you had the same thing going on the west side.

Q I am now going to move on to Trump Golf Club. MR. ROBERT: Next slide, Nate.
Q What, if anything - are you familiar with the Trump National Golf Club in Bedminister, sir?

A Iam.
Q What, if anything, was there before Trump Organization acquired it?

A It was virtually John DeLorean, like from "Back to the Future," it was his personal estate. A group came in. They saw the topography. This is Bedminister, New Jersey. It is, sort of, not everyone thinks of New Jersey this way, but it is sort of horse country New Jersey. I can't help myself, as a New Yorker we have to throw in the Jersey dig every once in a
D.
while.
But, you know, this was a spectacular estate. A group that came in tried doing the golf development. Everyone wants to do those things, not everyone can do it well, effectively. Not everyone can sell the memberships needed to do it. Or frankly, just because you see the land and you see maybe it could be a golf course, not everyone has the vision to actual deliver it.

My father saw it, fell in love. It was spectacular. And he turned it into, you know, one of the finest golf courses, again, anywhere in the world. This held a U.S. Women's Open championship. It will host the PGA championship. It is a spectacular two 18 -hole golf courses.

And that's where he spends summers when not at Mar-a-Lago.

Q Slide 65. What are we looking at here, Mr. Trump?
A It's a view from the side of the clubhouse overlooking some of the holes.

Q And again, if you could describe what this looked like before Trump Organization constructed this?

A Basically, you know, not quite farmland, but let's call it farmland with a little bit of extra topography.

MR. ROBERT: Okay. And next slide, Nate.
Q What are we looking at there, Mr. Trump?
A A view of the clubhouse, so that was John DeLorean's
literally on the Pacific ocean, correct?
A Literally. I can't name a single hole or a single lot that doesn't have a view of the Pacific Ocean.

MR. ROBERT: If we can go to slide 68, Nate?
Q What are we looking at here, Mr. Trump?
A The overview of part of the course. You know, it continues a little bit further to the north. But that is the view of the Pacific Ocean right there. You have Catalina Island, you know, to the southwest a little bit from this view. And just truly unheard of to get that kind of waterfront, anywhere in California, but probably anywhere in the world, but certainly within a relatively short drive of Los Angeles proper.

Q Putting things into a timeline perspective, you were the first adult child to join the Trump Organization, correct?

A Correct.
Q When did your sister join?
A I guess probably about three years after me. I am four years older, but I had my time in Colorado.
Q Okay. And then look at --
MR. ROBERT: The next slide, Nate.
Q -- your brother joined in 2007 correct?
A Correct.
Q I won't ask you under oath to talk about your --
A I want to have so much fun with that picture, but I
personal house. Rather than rip it down and build another club house, he took what would have been one of the great estates, you know, at the time, re-purposed it and turned it into a clubhouse. And, you know, that's its function today.

Q Okay. During the course of the trial we have heard a little about the Trump golf course in Los Angeles. I will draw your attention to that.

Are you familiar with that golf course, Mr. Trump?
A I am.
Q What do you understand the Trump Organization's involvement to be when it procured that in 2005?

A Waterfront is waterfront. So, my father saw an opportunity to do something incredible, in Ranchos Palos Verdes, an incredible city, incredible zip code. Literally every hole has waterfront views of the Pacific. I must admit I wasn't involved in the golf course of that. I was building, I guess, Park Avenue at the time in Chicago. But he was doing that, I got involved later.

There was a bunch of residential units for sale to building housing on that. I worked on selling some of those. And those were overlooking an incredible golf course, as well as the Pacific. Just one of those things where he noticed a crown jewel and had to have it, and turned it into something really special.

Q So you when you say, it is on the water, it is

## D

Trump Jr. - by Defendant - Direct(Robert)
Page 4059
won't.
Q I'll move on to the next slide.
A A lot of Photoshop.
Q Moving on to 2008, The Trump Hotel in Las Vegas; are you familiar with that, sir?

A I am, yes.
Q What are you familiar with regard to that?
A I was definitely involved in aspects of that building, from Chicago to that. The development of this started shortly after we were, sort of, in process with Trump, Chicago.

And so this was a - a great project, one of those unique pieces of land, you know, ripe -- right off the strip in Las Vegas. And this was one where we did the full hotel condo mock. Building a hotel in that market, luckily given the timing of what happened with the real estate world, being able to sell off components of that, being able to not have to maintain those long-term bank financing in what would be very arduous times, was an incredible way to get this building done. We continue to manage it to this day. It has just been a great asset and success, Las Vegas.

Q You were making a passing reference to the time period in 2008 and you were very lucky. What were you very lucky about?

A I think our ability to execute on real estate
projects. Right? We started doing a lot of stuff in licensing, and that's nice, but licensing and we are good at it, isn't because you are slapping a brand on something. We actually have that expertise of developing, owning, developing, construction.

I would say, if you ask my father what he is best at, it is probably construction. He spent a lot of time on the ground. On job sites. He would talk with the HVAC guy. Not the guy that owns the HVAC company, but the guy installing a chiller. And from those guys he learned how to do things better: Sir, you know, I don't know why we are doing it this way; if we do this we can salvage an extra 6 inches of ceiling height.

That's a great idea.
So he spent time on the job sites. That was the bane of my existence when I was in my early 20 s, going out too late, I would get the call why aren't you on the job site at 7 a.m. on a Saturday morning. It is because he was doing that, walking through and figuring it out.

And so this one was incredible because of the other projects here in Las Vegas that started at a similar time, we actually finished on time, ahead of schedule in many cases with construction, which allowed us to be able to get the closing cycle. This is the time where so many people around the country were, you know, trying to figure out any way to get out

## approximately what year was that?

A I forget the exact year, but you know, coming out of Trump Park Avenue, the second we started getting involved in and talking about the deal, I think it was before 2009 when you are working on the deal, inception or whatever, but from there I was spending two, three days a week in Chicago.

So, you know, go to the office on Monday in New York, that evening maybe hop on a plane to Chicago, spend the next two, three days, you know, in the offices of, you know, Adrian Smith from SOM, one of the great architectural firms of the world building this, designing it. It was the former Sun Times building. It was really the printing presses for the Chicago Sun Times, sort of interesting.

And amazingly enough, of all of the real estate development projects I have ever worked on, it is the only one where no one actually was upset that you ripped down the existing printing presses, because they were sort of an eyesore in what would be, I guess arguably, the greatest location in Chicago, right at the juncture where the river bends at Wabash. It was a special, special project. So yes, that was sort of the next big one for me after Trump Park Avenue in items of dedication of time.

Q Fair to say, Mr. Trump, this was the first project you were dealing with from the ground up. You weren't doing a renovation like the Trump Park Avenue or something else?

Page 4061

Q What are we looking at here, Mr. Trump?
A That's the lobby of the building.
Q And in 72?
A That's the outside facade. It is very subtle.
Q Even for Vegas standards, right?
A Yeah, that's true.
Q You mentioned earlier today that you were involved in the Trump, Chicago project, right?

A Yes.
MR. ROBERT: Next slide please.
Q I want to draw your attention to the Trump
International Hotel and Tower in Chicago. Okay, sir?
A Yes.
Q What was your initial involvement in this and

## Trump Jr. - by Defendant - Direct(Robert)

Page 4063
A I learned ground up construction from the west side yards. That came out of nothing. That was, literally, sort of, a delapidated industrial site we turned into an incredible, one of the wealthier, zip codes of New York City, in terms of price per square foot of real estate sold. That was unique. So I had some experience with this.

This was the next level in terms of the luxury of that. So I am still, as it is starting in, I think, it is prior to 2009, but, you know, figuring out our feet. But this was great project.

Q And how is it that the project came to the Trump Organization?

A That one, I don't remember.
Q Okay.
A It has been a while. I think it was Conrad Black who was the owner, head of the Chicago Sun Times at the time was friendly with my father. Saw a vision. Realized that having, you know, the printing presses, let's call it the at the Chicago equivalent of, you know, 57th and Fifth, you know, the Trump Tower address of Chicago. Probably not the best use of time. This was, before when we started talking about it, way before the real estate turn. This seemed like a great way to do it. This was commercial in the lower portion of the building. Hotel condominium in the middle. Condominium at the upper. So this is the full mixed use gamut to maximize the and, you know, bar and grill of the hotel.

MR. ROBERT: And the next slide 75.
Q What are we looking at here?
A That's the building from Michigan Avenue.
Q And which portion of the building are we seeing now?
A That's the corner over there is the parking garage. Then you have the commercial area. Some of the - the hotel and the retail on the base.

That's the fourth component I didn't really talk about. So you have all four uses that you think of in terms of -- in terms of that: The retail component, the regular commercial, the condominium, and then hotel and condominium on top.

Q Is that the first time Trump had all four in one structure, if you know?

A Trump Tower had a retail base commercial, it didn't have the hotel component, but yes, this is the first time I can think of that all four were incorporated into one building.

MR. ROBERT: Okay. Nate, the next one, please.
Q Trump International Hotel in Waikiki. Are you familiar with that, sir?

A I am.
Q What was your involvement in that in or around 2009?
A I would have been the point person on the deal. This
was an incredible project. It was all hotel condominium in Waikiki, prime location.

A big developer out of Los Angeles came to us: You are the guys doing hotel condo. You are the experts in this. How do we do this? Brought us in.

This is the first time we, sort of, bring in -- not the first time for the license model but one of the early, sort of, big full scale license deals, where we are not stroking enough for equity. We came up with a different way to monetize that, both in terms of a hotel management agreement in the end, as well as taking advantage of being able to use our brand and the saleable real estate. So we came in, worked with the developers of that project. Worked with a couple people who are very familiar with the Hawaii market.

We may still hold the record for the highest per square foot real estate sales in Waikiki, but it was certainly the record at the time. Sold out the building (snap) in a heartbeat, as really one of the most successful development projects in the history of Hawaii.

Q I want to dissect what you said, Mr. Trump, about this being one of the licensing deals. And I want to come back to that for a second. How does a licensing deal work in a situation like the Trump Hotel in Waikiki, as opposed to just putting up a hotel?

A Someone else owns the real estate. They are taking
that development risk. They are buying the land. They are hoping that the market is there when it comes time to deliver the project. Again, there is a big period of time between when you make that initial commitment and you start spending a lot of money, to when you sell it. If those markets are not aligned, its problematic. Everyone shows up to close when you are selling in a bad market, and you deliver in the great market. If you start selling in a great market and you are delivering, again, two, three years later in a bad market, everyone has a reason for why you did something that would justify them getting their deposit back, or whatever it may be.

Q And what is it exactly that Trump Organization is bringing to the table in these licensing deals? You spoke about the benefits that are there to the person doing the business deal with you. What exactly is it that Trump Organization is providing?

A We are bringing the brand, right? The Trump International Hotel Waikiki, we are bringing that. That's getting the eyes on it. We are bringing the expertise from our construction teams to deliver a product in Waikiki. There was never -- there was not anything that had been built to this standard. You know, that expertise. Understanding not just where the market is for ultra luxury today, but where it is going to be. With my father's vision, understanding where that is going to be.
estate. And it goes beyond that, people when they are buying real estate notice that difference.

And so, you know, this was one of the first where we were able to do that with our brand, where we were able to create that value for the company, but also for the consumers and for our partners in the deal. And it was a really unique model. Very few people had ever done that in saleable real estate; certainly not in high-end; and certainly not as effectively as us.

Again, like everything else, see someone do something good and they do it well and emulate it and try to copy it, and sometimes it works and sometimes it doesn't.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita)

So our teams were familiar with that. When people were looking at this real estate, even if we weren't developing, they understood they were going to be closing on the best real estate in the market, without question. You had the marketing teams, you know, understanding and ability to do that. You had just our ability as an organization to be able get it out there. So if people are, you know, they are looking at places to buy in Waikiki, whether it is a hotel condo as an investment; whether it is as a pied-à-terre; whether it is just buying real estate. In some cases they just want to use it and they are living in a hotel. We have seen that a lot too. I want the amenities of hotel, I want maid service rather than doing it myself. I am going to buy it and never put it in the pool. So they are getting that expertise from us and then getting the ongoing management, plus. I could probably go on for a few hours about this, but I am sure no one wants to hear the details of that.

But again, I think the reason we were able to be successful and so many other luxury brands who have tried to emulate us since and haven't, it is more than just slapping a sticker on a product and saying we are ultra luxury. I don't need to call out other brands, it doesn't matter, but there are plenty. And they don't work out because, those brands may be luxury, but they are good at what they do, making a handbag or a car, it doesn't necessarily translate into understanding real

MS. FAHERTY: Your Honor, can we just, again, provide an instruction to the witness as to the Trump Organization's role and work as opposed to speculating about others in the industry and market.

THE WITNESS: I'm not speculating. These are things that happened.

MR. ROBERT: I think the witness is just accounting to what The Trump Organization does and how they view their competitors and why their competitors either can or can't do what they do. It's just his opinion.

THE COURT: Well, again, I tend to have a strict view of the witnesses. Either you are an expert -MR. ROBERT: Fair enough.
THE COURT: - or you are a fact. So what did you see, what did you hear, but there's no jury. I'll continue to allow some leeway here.

MR. ROBERT: Thank you, your Honor. Next slide.
(Whereupon, the next slide was displayed on the screen.)

THE COURT: Let's stick, generally, to what The Trump Organization was doing, not what other people were thinking or doing.

MR. ROBERT: Understood.
Q What are we looking at here?
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4071

A That's one of the lounge areas overlooking Waikiki Beach. That is one of the amenity spaces of the hotel. MR. ROBERT: Move to the next slide, Nate. (Whereupon, the next slide was displayed on the screen.)
Q You have a familiarity with the Trump National Golf Course in Washington, D.C., Mr. Trump?
A I do. I wasn't involved in that. Golf started being my father and Eric's, um, more their passion so I wasn't involved intimately. But it was another one of these things, sort of a golf course that was underperforming and underutilized. And we, as an organization, did what we do best and created a spectacular golf course overlooking the Potomac River in Maryland.

MR. ROBERT: Next slide, Nate.
Q What are we looking at here?
A That is view of the Potomac and the, you know, I guess you are right there, the Virginia/Maryland border. That is the an overview of the course from the river.
Q And can you describe for us how this looks different than it did when The Trump Organization first acquired the land?

A Well, it looks spectacular now, and let's just say it didn't prior to that.
Q Fair enough. Moving to the next slide are you familiar with the Trump Vineyard Estates in Charlottesville, Virginia?

And so we bought the incredible vineyards and sort started just doing what we do best, creating this. And then in the end, the mansion which you'll see later on, which was just spectacular, sort of came into play. We were able to buy that for pennies on the dollar from the banks that controlled it, because, you know, again, without the front yard, a beautiful estate doesn't really do all that much. So we then, since, aggregated these parcels together to create something spectacular. And it's been rated one of the finest vineyards. And the San Francisco Wine Festival wasn't thrilled to give that to us, but we won some of their highest accolades there. So it's a great little project.

Q This may be self-evident, but what is that property operating there today?
A A vineyard, a vineyard with -- a bed and breakfast with a house that --
Q Okay.
A -- probably over performs any bed breakfast in the history of homes.
(Whereupon, the next slide was displayed on the screen.)

Q Next slide, what are we look at here?
A An overview of the vineyard estates. You could see the various layouts there. And just, you know, an example of the property.
Q Okay.
MR. ROBERT: Now I'm going to move to the next slide, Nate.
(Whereupon, the next slide was displayed on the screen.)
Q In 2012, the Trump International Golf Links in Aberdeen. Are you familiar with that?
A Very.
Q That was one of the next big projects for you after Chicago?
A I spent a lot of time there, yes.
Q Let's start from the beginning. How did this acquisition come to the attention of The Trump Organization?
A Well, it was actually a shooting estate, and the people who owned it brought it to my father and they said this would make a pretty spectacular golf course. I had gone over there literally, prior to that, and been there; that's more my thing than golf, and I just saw it fell in love, you know. For perspective -- that building -- I think it's -- that's the Castle my father referenced. I read about his testimony last week, and that building literally started construction. It was

## ump, Jr. - Defense - Direct (Mr. Robert)

Page 4075
the first component of that estate. I think it was in the early 1200s. So when we talk about old buildings in America, that's a little different. That was old when we discovered America.

And so that's one of the components -- that's now, you know, let's call it part of the hotel on the site, intimate place. And then you have the incredible dunes overlooking the North Sea. The geomorphology, just dunes that go up 150 feet into the air, so it's truly a unique place to be able to build a links course.

Even on a coast line like that, that just doesn't exist. It was a unique place where the wind and water just created a topography that doesn't exist like that. So we created a golf course. This is one of the components. We built and refurbished other old, very old, you know, buildings on there to create this incredible estate and golf course in Aberdeen, Scotland.
Q I will ask you more about that in a second, but you mentioned the dunes.

## MR. ROBERT: Let's go to slide 83.

(Whereupon, the next slide was displayed on the screen.)
Q Is that what you are referring to, Mr. Trump?
A Yes, sir.
Q What are we seeing in this picture?
A That's -- what is that? Which hole is that? I think
D. Trump, Jr. - Defense - Direct (Mr. Robert) Page 4076
that may be the 14th hole. Going North on, you know, that's the North Sea. So Aberdeen is the home of sort of oil from the North Sea; that's the, you know, the European capital of oil, oil and gas, a successful area. All of the oil rigs are 150 miles off shore, and you see the helicopters going over there delivering -- handling that aspect of it.

So, that's the North Sea. You have the topography for a golf course, and a links course in particular, it's in a class of its own.

Q So what was your exact involvement -- withdrawn. What was your involvement with this project? A That's another one of those - that's one of those I started flying over there and I probably spent you know three, four days a month over there; zoning, entitlement, land use, dealing with the environmental components of that obviously, um, is a significant thing. You know, repurposing a castle, and, you know, and eventually getting it up and running as a golf course.

Q When you talk about entitlement, what are you referring to?

A The ability to build something other than what is there right now. You know, you could have the dunes or you could have - you could bring them out and create to do that. You can't just go and say, hey, I'm going shape something and throw some grass on it. It doesn't work that way. So you have to go
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4077
through a lengthy process, and especially when you are dealing with coastal things, and, you know, environmental issues, you have to do that properly. So there's a very vigorous and very long process involved.

Q Okay.
MR. ROBERT: Nate, the next slide.
(Whereupon, the next slide was displayed on the screen.)
Q It brings you 2012. It's The Trump National Doral in Miami, Florida, which there's been testimony about in this case.

Are you familiar with this property, sir?
A I am.
Q And what was your involvement when The Trump Organization acquired this in 2012?
A I wasn't as involved in the acquisition, just was dealing with, you know, other things at the time. Ivanka and Eric were probably more involved in the acquisition side of it. I've been involved in terms of the hotel operation side. But, you know, I remember even going there as a young child, like prior to Mar-a-Lago young. And my father always looked at it as this incredible piece of land in Miami, and this great history for golf and everything. And it, too, was getting rundown and dilapidated, and people weren't giving it the love that it deserved. And so, you know, he bought it, invested a lot of money, really, you know, polished up. It was an iconic
property. But wouldn't have been viewed as iconic by people going there at the time because it was falling apart.

So he saw a jewel in the rough and wanted to bring it back to its former glory, and, quite frankly, far surpassed its former glory.

Q When you talk about a "jewel in the rough", is the expression you used?

THE COURT: It's really a diamond in the rough.
Q I'll use diamond in the rough then.
A Yes.
Q When you talk about it being a diamond in the rough, is that the golf course or the potential of it, or --
A Always a combination. That's the nature, whether we -as we talked about with the West Side Yards. It was supposed to be the tallest building in the world with this, and then all of a sudden it becomes thousands of residential units.

Things evolve. Things emerge. When my father initially looked at it, it was, you know, he wanted to own Doral, a place where they had all these championships and an incredible golf history, because it was just his passion for that.

But then he said, okay, well, you know, you have four, five golf courses here. I don't know. What if you -- Miami, arguably the hottest real estate market in the world, right? What if you just took out one golf course and made condominiums.
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4079
You know, the value add, the creation of value, like in an instant, by doing that, getting that zoning. Realizing that the Blue Monster, the primary course, or the Blue Monster plus one of the other courses could still actually do 99 percent of what you need from the golf course and the hotel component, but you could create this other value there. That's always what he does, right? So he sees those things. He sort of amazing, actually, the people prior to it that had it could've done that in a second, but you got to understand, just because it is something today doesn't mean it should stay that way. It doesn't mean that's the highest and best use. So figuring out what that is and the ability to generate and create that value is a part of his magic.

Q And is The Trump Organization currently in the process of determining what to do with this property?

A Yes.
Q And generally, what is that?
A Well, there's, you know, there's schematics and zoning to maintain some of the golf course and some of the hotel, but also to zone it for condominium in Miami, again --

Q Would --
A -- hottest as everyone sees. A lot of people leaving New York to go down to Florida. So, you know, that seems like an incredible market opportunity right now. So they are going through the process to zone, you know, many hundreds of, you
D. Trump, Jr. - Defense - Direct (Mr. Robert) Page 4080
know, possible condominium units there.
Q Were you familiar in 2022 Newmark had prepared a presentation for Doral?

A I've see that.
MR. ROBERT: Can we have the D-499 given to the Attorney General and the witness, please.
(The witness was handed the exhibit.)
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Trump, what do you recognize this document to be?
A Well, it seems like a presentation by Newmark that
looks to the investment opportunities of Doral.
$Q$ And this was a document that was given to the Trump Organization by Newmark; correct?

A I believe that's correct, yes.
MR. ROBERT: Your Honor, I move D-499 into evidence.

MR. WALLACE: Objection. This is hearsay.
MR. ROBERT: I was waiting for that, and I figured
I'd do it incrementally, not as to notice to the client, as
Newmark putting a value on the property in February of 2022.
It's not for the truth of the matter asserted.
Newmark, a well-respected company, provided this to the
Trump Organization in February of 2022 and valued Doral at $\$ 1.3$ billion. It's just notice to the client -- notice to
pertains to the value, but that they find out something afterwards, and then experts are going to take it and use it backwards, that's not at all the same thing, and it's bootstrapping.

If they, indeed, think this is an appropriate valuation of Doral as of 2022, as Mr. Robert has said many times, they are free to call Newmark and have the people that prepared this report bring it in.

I also just -- I think I will note from our perspective, which we don't have any cover communications with this e-mail. I think it just appears in Eric Trump's files as a single electronic document, so we have no idea what the province of this is, or what the basis for this report is.

MR. ROBERT: So first of all they, questioned one of our experts, Steve Witkoff, about this document in some detail, and I'm sure you'll here about that tomorrow when Mr. Witkoff testifies, but, again, I'm not putting forth --

THE COURT: If he is going to testify, can't we just kick the can down the road.

MR. ROBERT: But he wasn't the preparer of the document, your Honor. Mr. Witkoff was not the preparer of the document.

THE COURT: Let me jump in. On the one hand, I think it's completely irrelevant what somebody said -- what
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4081
the witness.
MR. WALLACE: For what purpose though? 2022 is not in -- there's no Statement of Financial Condition that's prepared in 2022 . I'm not sure what the purpose of having this in evidence is.

MR. ROBERT: This will go later on, as you hear from our experts, as to the intent and materiality, and ultimately where this pans out.

The Attorney General wants to argue that they could go before the statute of limitations to show some sort of pattern.

We believe it's appropriate to show, after the period in which the Attorney General is complaining, and I'm glad to see they are not complaining about anything in 2022, but nonetheless, the fact that the Trump Organization, in February of 2022 , is on notice that an independent third-party is putting a value of a billion three to Doral is relevant, especially to the equitable relief and what, if anything, The Trump Organization is doing going forward.

MR. WALLACE: I'm just going to make the point, when things were going in for notice to people beforehand is because they are then making decisions about valuing property after they've received information that could go against that; that they received something after the fact about value, which I don't even think this is clear that it
. Trump, Jr. - Defense - Direct (Mr. Robert)
Page 4083
somebody allegedly told the Trumps the property was worth in 2022.

On the other hand, there's no jury. I don't see any prejudice to this. So plaintiff, what am I missing here? What is the difference?

MR. AMER: There is prejudice, your Honor.
THE COURT: What is it?
MR. AMER: They have a document that shouldn't come into evidence. They --

THE COURT: That's not prejudice, you realize.
MR. AMER: Let me continue. They are going to put on the stand an expert witness who is going to rely on a document that shouldn't be in evidence --

MR. ROBERT: No.
MR. AMER: - so it's prejudicial because there's no basis for the expert to be relying on something that's not evidence. And it does not qualify for the hearsay reliance rule for an expert, because he's relying entirely on the document for his opinion of value for Doral.

So it's highly prejudicial and it shouldn't come in. It's not appropriate evidence. They haven't laid a foundation. It's hearsay.

MR. ROBERT: First of all, you Honor, Mr. Witkoff does not rely on his opinion on this. He is questioned about it and they actually ask him what his views are,
D. Trump, Jr. - Defense - Direct (Mr. Robert) Page 4084

1 because one of his developments are one of the comparable 2 developments on here, so they questioned him about that.

Page 4085

## individual defendants.

This goes to the fact that the way that values had been placed on this was not done with any ill intent. Here what we are suggesting is that in 2022, The Trump Organization was aware that someone else put a value of 1.3. It doesn't mean that Newmark was right or wrong. I'm not seeking to introduce it to prove the truth of the matter asserted.

To take a chapter from the Attorney General's book, it's a notice issue. Was he aware that this existed in 2022. Was he aware that in 2022 Newmark prepared something and put a value of 1.3 billion on Doral. I'm not seeking anything more than that.

MR. AMER: I don't see how something in 2022 can go to somebody's intent earlier. It makes no sense.

THE COURT: I'll make my offer to plaintiff, as I've occasionally done. Do you want to risk a reversal over this one stupid document? I don't think you do, but if you want to stand or ceremony, I'll sustain the objection.

MR. WALLACE: If we are all agreeing it's a stupid document, I'm -- I think it -- what I will say is, if they want to use it for notice of something that occurs after February 2022 and they can establish that this witness saw this document at a period of 2022 on, we would agree that that's permissible use. And if they get there eventually,
fine, but as to show intent for anyone before February of 2022, it is irrelevant and it should not come in.

THE COURT: Can we make it admitted conditional upon, you know, relation back -- connection, that's the word.

MR. ROBERT: Subject to connection, yes.
MR. AMER: I think that's fine. But let's be clear that the issue of whether Mr. Witkoff can rely on this information should remain an open question until Mr. Witkoff is on the stand and we have an opportunity to object to his reliance on this document.

THE COURT: Even Mr. Robert agrees with that. It's in conditional -- subject to some connection I don't see at this point.

MR. ROBERT: It may not be Mr. Witkoff, but someone else down the road, but that's fair.

THE COURT: It's in conditionally.
MR. ROBERT: Thank you.
(Defendant's Exhibit 499 was deemed marked and admitted in evidence.)
Q Were you aware of the existence of this document?
A Yes.
Q Are you aware that Newmark placed value of 1.3 billion on Doral in February of 2022?
A Yes.
. Trump, Jr. - Defense - Direct (Mr. Robert)
Page 4087

Q I'm going to go back to the slide show -THE COURT: Five-minute warping.
Q Back to the slide show, slide presentation, slide 85. (Whereupon, the exhibit was displayed on the screen.)
Q What are we looking at here, Mr. Trump?
A That's the view from one of the holes towards the clubhouse.
Q And this is -- again, re-orienting us, this is Doral; correct?
A That is Doral, correct.
Q And what, if any, improvements did The Trump Organization put into Doral since it acquired that in 2012?
A I mean, just about everything. I mean, you have the basic bones of the hotel remain the same, but I think we put in close to $\$ 250$ million to redo the golf courses entirely, reshape, elongate that. To fix up the ballrooms and the hotel rooms, and literally every aspect of it. Other than the basic structure itself, everything else is brand-new.

MR. ROBERT: Nate, the next one, please, 87.
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at here, Mr. Trump?
A That's the main clubhouse.
Q That is 86 , I'm sorry.

| 1 | MR. ROBERT: Eighty-seven, Nate. | 1 |
| ---: | :---: | ---: |
| 2 | (Whereupon, the next slide was displayed on the | 2 |
| 3 | screen.) | 3 |
| 4 | Q $\quad$ What are we looking at here? | 4 |
| 5 | A $\quad$ One of the terraces from the main clubhouse looking | 5 |
| 6 | down into one of the dining areas and the, I guess, 18th green. | 6 |
| 7 | MR. ROBERT: Slide 88, Nate. | 7 |
| 8 | Q | And here, Mr. Trump? |
| 9 | A | One of the holes on the course. There's multiple |
| 10 | courses, by the way. There's four golf courses. It's not just | 10 |
| 11 | one 18 holes. It's 600 acres in Miami. Which, again to the | 11 |
| 12 | point of the development rights, it's not, well, can you turn | 12 |
| 13 | the hotel into a condominium? No, it's there's 600 acres. You | 13 |
| 14 | could actually run an incredible golf facility, take out | 14 |
| 15 | 200 acres, have three golf courses and build thousands of | 15 |
| 16 | condominium units there. | 16 |
| 17 | Q So for those not familiar with Miami geography, where | 17 |
| 18 | is it in Miami? | 18 |
| 19 | A You are ten minutes from the Miami airport. Right in | 19 |
| 20 | the heart of Doral. | 20 |
| 21 | MR. ROBERT: Eighty-nine, Nate, please. | 21 |
| 22 | (Whereupon, the next slide was displayed on the | 22 |
| 23 | screen.) | 23 |
| 24 | Q And what are we looking at here? | 24 |
| 25 | A You know, more holes. Again, fully refurbished, | 25 |

MR. ROBERT: And the next one.
(Whereupon, the exhibit was displayed on the screen.)
A That's the interior of that, you know, one of -- not one of the larger ballrooms, but one of the more spectacular ballrooms.

MR. ROBERT: Just a few more in Doral, and then I'll finish. That would be a good place for a break. If you want to stop now, that's up to you.

THE COURT: We could finish, and then I want to talk for like 30 seconds after you.

MR. ROBERT: Okay. Next, 94.
(Whereupon, the next slide was displayed on the screen.)
A That's one of the bigger ballrooms. It holds thousands of people to host entire industry conferences, whatever it may be. So you get that in there for the food and beverage. They are there for the conference, then going and playing golf. They are staying in the hotel, utilizing one of the restaurants. That's how that property survives as is. But, again, it's just one component of what it actually is worth, or could be in terms of potential.

## MR. ROBERT: Next 95.

THE COURT: We like big rooms around here, too. THE WITNESS: Yeah. I could see that.
D. Trump, Jr. - Defense - Direct (Mr. Robert)

Page 4089
totally new. Um, just everything started from -- you know, you took the base model and just really fixed everything. Took it to a whole new level.

MR. ROBERT: Next one, Nate. 90, please.
Q Here, Mr. Trump?
A One of the seating areas inside the hotel and the clubhouse.

## MR. ROBERT: And next, 91.

(Whereupon, the next slide was displayed on the screen.)
A A bar area. One of a few. It's a large development, so this is one area. But you set up intimate -- break the area so everything doesn't just amass. This is an area that you could have a more intimate setting, even if there is a lot of stuff going on. You have multiple ballrooms, you have hundreds of hotel rooms, you have all of this. So you could have weddings going on with, you know, business conferences, regular day-to-day play, regular vacation traffic and hotel use. It's sort of catering to all things.

MR. ROBERT: Next, 92.
(Whereupon, the next slide was displayed on the screen.)
Q What are we looking at here, Mr. Trump?
A The terrace area for one of the ballrooms overlooking the 18th.
rump, Jr. - Defense - Direct (Mr. Robert)
Page 4091
(Whereupon, the next slide was displayed on the screen.)
A One of the -- another one of the ballrooms. Again, you could have -- I forget the exact number that are there. You could host a lot of separate events at any given time there, and they could all function seamlessly.

MR. ROBERT: And 96, Nate.
(Whereupon, the next slide was displayed on the screen.)
A Inside one of the suite areas, I believe.
MR. ROBERT: And 97, the final slide on Doral.
(Whereupon, the next slide was displayed on the screen.)
A A fairly standard room for Doral, you know, but obviously a very opulent room for any anywhere else. That would be a bedroom, one of the one bedroom suites in the hotel.

MR. ROBERT: Your Honor, I think this would be a logical place to stop at this point before the lunch break.

THE COURT: I just want to take judicial notice of something.

Mr. Trump, when you were discussing the castle on the Aberdeen grounds, you said it was built around the 12th century or something, so it was old when America was discovered. I'm not sure whether that was the exact language. I'll take judicial notice, there were people

[^12]```
MR. ROBERT: May I, Your Honor?
```

2
3
living here at that point. And, in fact, Columbus wasn't en first European to get here, although he may have bes cetera. I'll leave you with that. I'll see you at 2:15.

THE WITNESS: It is the indigenous people's day
(Whereupon, the case on trial was adjourned until 2:15 for the luncheon recess.)

A We purchased Turnberry, one of the oldest and most exclusive famous golf courses anywhere in the world. It has hosted the British Open, the Open championship, on many occasions. Just a spectacular property on the opposite side of Scotland from the Aberdeen course that we were discussing earlier.

Q And can you describe what the Trump Organization did to the Turnberry, Scotland golf course once it acquired it, sir?

A Similar to Doral, acquired it, took a property that was going into a little bit of a state of disrepair, and brought out the diamond that had been there previously. This is a, you know, very old course, 150 years old. There is, I mean, some of the interesting -- some of the fairways had runways next to it, and the runways were used as landing sites for WWII bombers to stage in Scotland back in the day. A lot of pretty amazing history.

That right there is the lighthouse overlooking it.
And the island across the way, that's where all of the granite comes from for the curling you see on the Olympics.
Apparently that's all harvested on that island for the curling stones that they use.

Q Anything else specifically you remember about any of the work that the Trump Organization did in Scotland?

A The entire retrofit, like I said, Doral, Doral in

Trump Jr. - by Defendant - Direct(Robert)
Page 4095
Scotland. Taking the hotel, refurbishing, I forget the exact dollars. Eric could tell you, he was more lead on that one. But countless dollars fixing up both courses over there as well. Just from start to finish a revamp of a once great and iconic property in bringing it back to that condition.

Q I am moving to slide 99. What are we looking at here?

A Looking at the lighthouse. It is sort of an -actually, inside the lighthouse they created one of the suites for the hotel. So the hotel is separate and distinct from that, but put in a room there. So that one of the holes overlooking the lighthouse, very iconic, famous golf course.

Q Moving to slide 100. What are we looking at here?
A That's the primary -- that's the clubhouse hotel for the property.
Q And what, if any, state was this in when the Trump Organization took over the property?
A I would say not nearly as nice as it is now.
Q Okay. Going to slide 101.
MR. ROBERT: I am so used to asking you, Nate,
for it. Now I have the device back.
Q What are we looking at here, Mr. Trump?
A Different holes, just, sort of, showcasing the incredible topography of the course, the grandeur of the waterfront there. Different topography from Aberdeen on the
other side, because on the other side you are on the north side, so you have the North Sea, known for its rough conditions. And you can see here a little more meandering. But, you know, again, just another spectacular asset.

Q What are we looking at here, slide 102?
A Different view, similar holes. A par three heading over to the lighthouse.

Q Okay. We had -- you had spoken earlier about one of the next projects you were involved in, which was the Trump International Golf Links and Hotel, Doonbeg, in Ireland?

A That's correct.
Q Can you first, from 30,000 feet, explain to us what your involvement was with that? And then we will get into some detail.

A This one I was more involved. It was a -- it looks and it is designed to look very old, almost like you are going back it time 100 years to a coastal town in County Clare, Ireland. But was designed, you know, relatively recently during the real estate crisis of, let's call it 2008, the development group got in trouble.

I got a call: Hey, is this something you would look at?

I got on a plane. I checked it out and saw what it was. It was pretty spectacular. Again similar, coastal golf course. The property here is just very unique. It does have
mowers and tractors and machinery to maintain the greens, we can do that. You are installing sprinkler systems. We are working with the best. We can do that. So we can make things happen, get it up and running, be able to satisfy that membership. And have it, you know, function as a great operating golf course quickly.

Q Now, drawing your attention to slide 104, what are we looking at here, Mr. Trump?

A That's basically the clubhouse from the practice green.

Q And what was this before it was a clubhouse of anything?

A It was built - it was built as that. But again, the project for -- got to a stage of completion with a prior developer. The, I guess, money ran out. It was a rough time in the real estate market. We came in, picked it up, took a chance with our balance sheet and our cash to be able to lock it up and secure it. And, you know, then spent the next time, sort of, filling in the blanks to get everything else finalized and assembled.

Q I notice the clock in the middle. Is that one of those clocks in the middle?

A Different clock.
MS. FAHERTY: Can I note my objection to that answer? It was entirely non-responsive to what the house

Trump Jr. - by Defendant - Direct(Robert)
Page 4097
an actual, you know, condominium, sort of, hotel, condominium-hotel component to it. Not too much there, but you also have villas along the way and along the route. And this thing was up in the air. There was, certain, you know, non-clarity as it relates to title and what we would be able to buy in a transaction and stuff. And it was one of those that, having been the only person that has seen it, you know, and perhaps when my father called it is, like, hey, you know, we either got to go hard, but we are risking hard money. I said, listen, it is that good. We have to take a chance and hope we can assemble the rest of the property, and it has been great since.

THE COURT: We like the enthusiasm. Try to eliminate the speed.
Q And now you have explained how it came about. What exactly was your role in the development of it itself?

A It was developed, so it was bringing that back. It was taking, you know, a golf course that would have been in a state of disrepair only because, you know, the original developers had run out of money. All of a sudden you have to finish this, you have some existing membership. So, finishing and completing that package, taking it to the next level, exposing it to -- really for golf with us, there is a -- a lot of economies of scale. We have golf courses now all over the world we do this. So, when you have to buy dozens of new lawn

## D

Page 4099
was before it was a clubhouse.
THE WITNESS: I said it was always -- it was always the same.

THE COURT: I see no harm. I think it was all tangentially responsive answers. Overruled.
Q Slide 105, what are we looking at here?
A I guess the more northern -- more northern holes on the course, par three, heading back facing the clubhouse.

Q And 106?
A Just another view. Again, you can see the topography for a Links-type course, the dune systems, everything incorporating the golf course into the natural environment of the area.

Q So earlier this morning we spoke about the Wolman Rink back when you were a young man. And you remember talking about ice skating there; do you remember that?

A Ido.
Q Now I want to fast forward to 2015 to talk about another City project the Trump Organization was involved with. Are you familiar with the Trump Golf Links at Ferry Point in Bronx, New York?
A Iam.
Q What was your involvement in this in or around 2015?
A I wasn't involved other than peripherally. That would have been more of an Eric project. But, it was,

| D. J. Trump Jr. - by Defendant - Direct(Robert) Page 4100 |  |
| ---: | :---: | :---: |
| 1 | honestly, it was a piece of vacant land. It was essentially |
| 2 | landfill that for decades, feels like an old school New York |
| 3 | mob job, someone moved a pile of dirt from here to here and |
| 4 | then moved it back and forth, back and forth, and everyone gets |
| 5 | paid and nothing actually gets built. And it was crazy. And |
| 6 | you know, yet another one of those eyesores that people are |
| 7 | wondering why there is a construction site going on for 20 |
| 8 | years, you know, under the bridge there. |
| 9 | And my father got involved, saw potential, worked |
| 10 | with Jack Nicklaus to build an incredible golf course in the, |
| 11 | you know, in New York. It was just a spectacular thing, and we |
| 12 | took it over, put a lot of money into it. And in, let's call |
| 13 | it 18 months, built something absolutely incredible that has |
| 14 | been operating as a golf course since. |
| 15 | Q And the story you just told, is that a story that is |
| 16 | contained in the Trump Organization website as a video, in |
| 17 | part? |
| 18 | A $\quad$ I imagine there is, yes. Yes. |
| 19 | MR. ROBERT: If we could call up Defense Exhibit |
| 20 | 1018. |
| 21 | Q I am going to ask you, Mr. Trump, if this is the |
| 22 | video on the Trump Organization website, in part? |
| 23 | (Whereupon the video was played in open court.) |
| 24 | MR. ROBERT: Can you start at the beginning with |
| 25 | a louder sound, maybe? | this video, which is obviously pure hearsay. If Mr. Trump wants to talk about any of the subjects he covers in the video, he can. I don't know if they are planning on calling Mr. Nicklaus for any of it, but that's pure hearsay.

MR. ROBERT: Just introducing as a demonstrative exhibit, not seeking to introduce it into evidence.

And I asked Mr. Trump, is that a fair
description of the property and what we are seeing in the video, the property itself.

THE WITNESS: Yes.
THE COURT: You are not seeking to have it admitted into evidence?

MR. ROBERT: Just for demonstrative purposes only, Your Honor.

MR. WALLACE: I don't know what that means, Your Honor.

MR. ROBERT: It is a demonstrative exhibit, no different than if I went with a video or camcorder and took a video of the property.

MS. FAHERTY: That's not what that was. THE COURT: What's the question, exactly?
MR. ROBERT: Is that a fair representation of
what the course looks like from the photos that were a part of that video.

THE WITNESS: It is.
THE COURT: I will allow it.
Q Let's go to slide 108, please.
MR. ROBERT: What I am talking about - I can do that now.
Q What are we looking at here now, Mr. Trump?
A Looking at a view from one of the fairways over the water and the bridge. One of the annuals from probably one of the tee boxes on the course.

Q And 109?
A A view of the skyline of New York City.
Q 110?
A A clubhouse with the skyline of New York City, from a sideways angle.

Q Again, was this clubhouse there when the Trump Organization took over the project in 2015?

A As I mentioned, it was raw dirt. It had been that way for a long time. People were doing construction on it for years, not actually doing anything, but probably still getting paid. And we took it over and actually created it.

THE COURT: You know, I think that's a better opportunity for an objection. Question was: Was that there before you took over. I assume the answer is no?
D. J. Trump Jr. - by Defendant - Direct(Robert)

Page 4103
THE WITNESS: That's correct.
THE COURT: All right. If it is a yes or no question, answer it yes or no.

MR. ROBERT: Fair enough, Your Honor.
Q In what manner was it different?
A As I stated, it was a raw landfill site. People were, you know, supposedly trying to build a golf course on it for years. Nothing actually got accomplished during those years. And from when we took it over to when we built it out, it turned into, you know, a spectacular asset or spectacular amenity for the City. This is with the New York City Parks Department, so like Wolman Rink, another, you know, great amenity for the City of New York.

Q During the course of the ten years of 2011 through 2021, sir, approximately how many people did the Trump Organization employ in New York, on average?

A I would say, on average, rolling average, probably about 1,000 in New York.

Q And how many people were involved beyond your employees in the various projects in New York? We are talking about construction workers, engineers, architects, maintenance crews, landscapers, any estimation of that?

A Much higher than that. If we are building a building there could be hundreds of construction workers on that one building. They are not employees of the Trump Organization but
their employment is paid for by that development through their contractors and otherwise. So when you have, you know, even caddies, you know, they may be independent contractors but still they are generating their revenue through this. So I would say it goes very significantly up from there if you are talking about, sort of, the beneficial interest of just beyond who is on Trump Organization's payroll.
$Q$ And we are going to have more specific from others, but do you have any idea of how much money in taxes the Trump Organization has paid in New York for the ten years, 2011 to 2021?

A Huge numbers, you know.
Q Okay.
A Tens -- millions, I don't know specifically, but it is a big number.

Q Fair enough, sir.
What are we looking at here, slide 111 ?
A Bar area, dining area, inside the clubhouse at Ferry Point.

Q Again, this wasn't there before the Trump Organization acquired the property, correct?

A Correct, it was just vacant land.
Q And drawing your attention to 112, what are we looking at here?

A A view from the sky. Again, that was a landfill site
J. Trump Jr. - by Defendant - Direct(Robert)

Page 4105
that we turned into an incredible asset for the City of New York.

Q A little earlier we spoke about the winery that was acquired, I believe it was in 2011; do you remember that?

A I do.
Q And you had talked about that there was a second component to that; do you remember that?

A I do.
Q Now, I draw your attention to 2015 and a property known as Albemarle Estate, if you could explain to the Court what this is in $2015 ?$

A Well, that was the home that was part of the Kluge Estate. That was the estate that I mentioned for, like, estate planning purposes, separated out ownership between, sort of, what was a contiguous parcel. I guess they did that for themselves for tax purposes. And this was the home that we essentially owned the front yard of. So while the home is spectacular, if you don't own the front yard you can't do it, you don't know what a developer will ultimately do with that yard, sort of diminished the value of the home, allowed us to buy the home for what I believe to be, you know, well under market. Aggregate that into the rest of the vineyard. This now functions as a, you know, sort of ultra luxury bed and breakfast at a spectacular vineyard in Charlottesville, Virginia.

I believe it is the ridge right over the top of that where Jefferson escaped his estate during the Revolutionary War, so a lot of cool history in the area.

Q Slide 114. What are we looking at here, sir?
A The back side of the same estate.
Q The same one we just saw before, correct?
A Correct.
Q Okay. Now I am going to draw your attention to a property that has gotten significant discussion during this trial, which is the Old Post Office.

A Yes.
Q Do you remember that project?
A I know it well, yes.
Q And from a 30,000-foot perspective to start with, what was your involvement in that project, sir?

A Construction, and you know, ongoing operations once -- once we opened up the hotel component. So the hotel operations would have been my primary responsibility there. But, did have involvement in some of the construction development aspects of it. Although it was more heavily involved in, sort of, 2016 transitioning over from a construction site to an ongoing and operating hotel project.

Q So before we get to the stuff that you were specifically involved in, let's talk about more generally in how it came about that the Trump Organization wound up being

The GSA from the government put out, basically, a bid. It was something that I would say -- I don't want to say every, you know, I imagine pretty much every hotel company I can think of put in a bid to try to buy this asset or, you know, lease the asset and get involved in the project. I think everyone else, you know, perhaps saw what we saw with it. As I said, it took a vote of Congress to actually allow that to happen. We one won that bid. Our ability to do a renovation of a very old building, a historically significant building, a landmark building, we had had that experience obviously with Trump Park Avenue and others.

So a lot of the development companies who had built ground up would say they could do it, but we actually had a track record of building these kinds of projects and doing it.

In the end we were successful, in that in the RFP won that, and turned it into one of the finest hotels anywhere in the world.
$Q$ What was your involvement once the hotel became operational, sir?

A Heavily involved in the hotel operations. All of that through the hotel company. You know, every aspect that entails, literally from the marketing materials and getting that out, group business, F\&B, I did a lot of work on the leasing of, you know, the restaurant spaces in the building, et cetera, et cetera, so anything and everything.

Q And let's look at 116 . What are we looking at here, Mr. Trump?

A That's the main entrance of the building as well as the main entrance to the presidential ballroom. We, like Park Avenue again, created a new space. There was area that could be utilized, so we were able to take an old existing building, bring out its former glory, but also create new modern space to hold, really I guess, the largest ball room in Washington DC outside of the Washington DC Hilton. But in a much better location, on Pennsylvania Avenue. Create a new space for those ballrooms, very large ceiling spans. You know, better for entertaining, better for banquet. And you know, added that on to the building as part of the construction of the retrofit of the building.
$Q$ And what are we looking at here, 117 , sir?
D. J. Trump Jr. - by Defendant - Direct(Robert)

Page 4109

A That's the shot looking down Pennsylvania Avenue. That's the --

Q And what are we looking at here, $118, \mathrm{Mr}$. Trump?
A That's about a third of the main lobby.
Q And is 119 showing a --
A Yeah, that's the other half, so bar area. You had, you know, restaurant space and bar on the other side of that.
Main entrance would be that way where you come in, so you are entering into this, maintain the structure of all of that steel. There was actually some of the structural steel that was used to hold up the old mail sorting machines at the time. Filled in some of that space because you had, sort of, a deep basement dwelling. And just, you know, created that.

It was, sort of, a great, great example of a
public-private partnership. It is a lease from General Services Administration from the government to work. And it was a great example of being able to, you know, work with governmental entities to bring out the best of an asset that they had, it was, you know, say highly underutilized.

Q What are we looking at here at 120 , sir?
A That would have been the main bar area.
Q Which is off the lobby?
A Correct.
Q And in 121, sir?
A Yeah, the view from literally one of the corridors
going into the rooms of the hotel. You had an enclosed, you know, glass structure you had from the -- that is the lobby down there, so this incredible inside enclosed lobby. And so that's a look down from one of the suites -- or just really that's actually one of the ordinary rooms, just in the hallway in front of that, you had this great scape of what was downstairs.

Q And is there any way to describe what this looked like before the renovations that you did?

A A war zone.
Q Okay.
A Practically. I mean, it was very rough. It was very -- if you walked into it and you saw the outside of the building and even with a little bit of imagination, you would be disappointed that you could let a building that spectacular get that rundown.

Q And what are we looking at here, 122, sir?
A That's the ballroom I mentioned. So that's the, you know, that was actually what we built from scratch to add on to that to create, sort of, a significant amount of banquet space, you know, that the regular building wouldn't have been able to hold to be able to accommodate that food and beverage. And the banquet side of a hotel business is huge. So to be able to do that and create that space and therefore value was a big deal.

Q And 123, sir?

A The front entrance, that's off Pennsylvania Avenue.

That's one of the areas that would have just been a, you know, after work drinks, coffee area. Right out there on the corner of Pennsylvania Avenue.

Q And, sir, what, if any, development projects was the Trump Organization involved with after $2016 ?$

A I mean we -- obviously there is a very big asset management role of all of the properties that we own. That's not a small task. But, you know, under the umbrella of the presidency and everything, honestly, it just wasn't worth dealing with a lot of new development because of the headaches associated with that.

Q And what, if any, had there been any new projects that have been from the, no pun intended, from the ground up that you recall from 2016 to the present?

A There is some licensing deals that have been signed. There are some other deals that we work on, you know, extending. But the primary focus has been maintaining, adding onto, refurbishing the existing assets we have had.

Q From that period forward have there been sales of any of the Trump assets in the last few years or any of the licensing deals or things like that?

A Yes. We sold Ferry Point, the golf course that we

|  | Trump Jr. - by Defendant - Direct(Robert) Page 4112 | D. J. Trump Jr. - by Defendant - Cross(Faherty) Page 4114 |  |
| :---: | :---: | :---: | :---: |
|  | looked at a little while ago. And we sold the Old Post Office |  | A Yes. |
| 2 | in Washington DC. | 2 | Q You are familiar with the occupancy there at that |
| 3 | Q And what is your view as to the future development 1 | 3 | building? |
| 4 | prospects of the Trump Organization as you sit here today? | 4 | A It has been a little while since I have looked at it, |
| 5 | A Well, I guess a lot of that depends on what happens | 5 | but yes. |
| 6 | in next November. We will probably be put on hold for a little | 6 | Q I think I heard you to say earlier that it is |
| 7 | while, and sued to oblivion for the foreseeable future; but | 7 | performing well, that it is 90 percent occupied. You testified |
| 8 | after that, we will continue to do what we do, which is, you | 8 | to that earlier, right? |
| 9 | know, change sky lines, manage, build, acquire incredible | 9 | A I said the last time I checked it was in and about |
| 10 | assets and create value. | 10 | that range, yes. |
| 11 | MR. ROBERT: Can I have a moment, Your Honor? | 11 | Q Yes. And are you aware that 40 Wall Street is a |
| 12 | THE COURT: Sure. | 12 | securitized loan; it has a securitized loan, right? |
| 13 | MR. ROBERT: I have no further questions at this | 13 | A Generally. |
| 14 | time, Your Honor. Thank you. | 14 | Q Isn't it true that 40 Wall Street was just placed on |
| 15 | THE COURT: Will there be any cross examination? | 15 | a Servicer Watch List? |
| 16 | MS. FAHERTY: No one else from your side has any | 16 | A I don't know that for sure. |
| 17 | questions? | 17 | MS. FAHERTY: Your Honor, I have a document that |
| 18 | MR. ROBERT: I don't believe so, no. | 18 | I have marked as PX-3380 that I would like to hand up to |
| 19 | MS. FAHERTY: One second, Your Honor. Yes. | 19 | the witness. |
| 20 | One moment, Your Honor, while I get organized. | 20 | (Handing) |
| 21 | Thank you. | 21 | Q I draw your attention to the second page, Mr. Trump. |
| 22 | May I proceed, Your Honor? | 22 | MR. KISE: Your Honor? |
| 23 | THE COURT: Please | 23 | THE COURT: Yes, go ahead. |
| 24 |  | 24 | MR. KISE: I don't think she heard me. |
| 25 |  | 25 | The relevance of this document? |
|  | Trump Jr. - by Defendant - Cross(Faherty) Page 4113 |  | Trump Jr. - by Defendant - Cross(Faherty) Page 4115 |
| 1 | CROSS-EXAMINATION | 1 | THE COURT: You are going to start questioning |
| 2 | BY MS. FAHERTY: | 2 | the relevance of this? |
| 3 | Q Good afternoon, Mr. Trump. | 3 | MR. KISE: I mean, I just want to note that -- |
| 4 | A Good afternoon. | 4 | THE COURT: I just gave you a whole opening of |
| 5 | MS. FAHERTY: Ashley, can we pull up the | 5 | the relevance. |
| 6 | Defendant's Exhibit that we have been watching | 6 | MR. KISE: Agreed. But the reason this happened |
| 7 | extensively? I think it is exhibit DX-1019. And can we | 7 | is because of your order, not because of anything we did. |
| 8 | turn it to page, I think, 68? | 8 | That's the whole reason this happened. But, okay. I mean |
| 9 | Q Mr. Trump, do you recognize that image? | 9 | if they are going to try and impute this to the company, I |
| 10 | A I believe that's the Trump Golf course in Rancho | 10 | guess that's their prerogative. But the first time any |
| 11 | Palos, California. | 11 | negative action has ever been taken on any loan associated |
| 12 | Q And you gave some testimony earlier about Trump | 12 | with this trial, is as a result of your order and only |
| 13 | National Golf Course in Los Angeles when you were speaking with | 13 | your order. |
| 14 | Mr. Robert earlier, right? | 14 | MR. WALLACE: Your Honor, if we are going to |
| 15 | A Correct. | 15 | have this kind of substantive discussion, I think the |
| 16 | Q I believe I heard you testify that this course is | 16 | witness should step out. |
| 17 | right on the Pacific Ocean; is that correct? | 17 | MR. KISE: Okay. That's fine. |
| 18 | A Correct. | 18 | THE COURT: Do we need to continue it? I am |
| 19 | Q Didn't the 18th hole at this golf course literally | 19 | obviously going to allow them to use it and question the |
| 20 | fall into the ocean, sir? | 20 | witness. |
| 21 | A Yes. | 21 | MR. KISE: If she is going to question the |
| 22 | MS. FAHERTY: Your Honor, before I get to the | 22 | witness you have our objection. |
| 23 | document -- | 23 | THE COURT: All right. Objection noted. |
| 24 | Q Mr. Trump, I believe earlier you were referencing 40 | 24 | Q Drawing your attention to the middle of the second |
| 25 | Wall Street, right? |  | page it states: The mortgage on 40 Wall Street has a |

| 9 | THE COURT: Welcome back. I feel like I'm at a |
| 10 | reunion here, the Trump trial reunion. |
| 11 | Okay, let's proceed with the direct examination. |
| 12 | MR. FIELDS: Thank you, your Honor. |
| 13 | DIRECT EXAMINATION |
| 14 | BY MR. FIELDS: |
| 15 | Q $\quad$ Good afternoon, Ms. Dillon. |
| 16 | A Good afternoon. |
| 17 | Q If you could briefly just reintroduce yourself to the |
| 18 | Court. I know you testified previously, but just who you are |
| 19 | and what you do? |
| 20 | A I'm a tax lawyer and I provide legal advice to my |
| 21 | clients regarding tax matters. |
| 22 | Q And what law firm are you with right now? |
| 23 | A Morgan Lewis \& Bockius. |
| 24 | Q At one point were you an attorney that represented |
| 25 | President Trump on some of his business entities? |

Defendant, having been first duly sworn, was examined and testified as follows:

THE COURT OFFICER: Please have a seat. THE WITNESS: Thank you.
THE COURT OFFICER: Please state your name and home or business address for the record.

THE WITNESS: Sheri Dillon, 1111 Pennsylvania Avenue Northwest, Washington, D.C. 20004.

THE COURT: Welcome back. I feel like I'm at a Okay, let's proceed with the direct examination. MR. FIELDS: Thank you, your Honor.

## DIRECT EXAMINATION

BY MR. FIELDS:
Q Good afternoon, Ms. Dillon.
A Good afternoon.
Q If you could briefly just reintroduce yourself to the Court. I know you testified previously, but just who you are and what you do?
A I'm a tax lawyer and I provide legal advice to my clients regarding tax matters.
Q And what law firm are you with right now?
A Morgan Lewis \& Bockius.
Q At one point were you an attorney that represented
President Trump on some of his business entities?
S. Dillon - Defense - Direct (Mr. Fields)

Page 4121

A Yes.
Q I just want to be clear. I'm not going to ask you to divulge any attorney-client communications. If you feel like my question is perhaps asking that, please think otherwise. And if I want you to divulge any attorney-client communications, I will explicitly ask you to; is that fair?

A Yes.
Q You said you were a tax lawyer. Would you describe yourself as a tax controversy lawyer?

A I spend the majority of my time working on tax controversies, but I spend about 25 percent of my time, more or less, working on tax planning, tax structuring, tax advice, tax counsel, things of that nature.
Q For the uninitiated, would you help me understand what a tax controversy lawyer does?
A A tax controversy lawyer will defend any challenges, or, you know, work with whenever the IRS challenges a tax return. When they conduct an examination, I will represent the client in the examination, in the administrative appeals process, and should we be unfortunate and end up in a dispute that can't be resolved with the agency, I also go to court.
Q What courts would you go to? Would it be tax court or federal district court, state court?
A It could be a tax court. It could be district court. It could also be the court of federal claims, and then, of
course, the appellate courts that go along with that.
Q Now, generally speaking, being a tax controversy lawyer, how does that affect the way you look at an issue in terms of one day the IRS potentially challenging a decision that you and a client made?
A Well, from a controversy perspective, I would always want -- if I'm looking at a transaction, and thinking that it might be challenged or knowing that a particular taxpayer is routinely challenged, many of our large corporations are under continuous audit, as well as a lot of global high wealth taxpayers and that sort, knowing that everything is going to be looked at on a tax return, when you are doing a transaction, you make sure that you maintain all the files, you keep all the things that are necessary, all your transaction documents. You try to put things in one place. You try to make sure you keep good records so you could remember what happened and you could explain it, and you know who was involved, things of that sort.

So you just keep your -- keeping everything ready and making sure that, you know, you understood not just the tax code and regulations, but you keep up on the case law to see -- tax law is ever evolving, changing as every new tax case comes out. There is usually a new little twist to something, so make sure you are keeping all those changes in mind as you are advising a client.
Q Would it be fair to say that you are familiar with

Dillon - Defense - Direct (Mr. Fields)
Page 4123

## conservation easements?

A Yes, I am.
Q Generally, speaking what is a conservation easement?
A A "conservation easement" is basically a negative covenant. It happens when someone owns property and they agree not to do something. And it might be not to exercise economic rights. It might be if it's a facade - well, a conservation easement can be to conserve a facade on a building, the historic nature of that.

Conservation easement is often and most certainly used to preserve open space, public space, sometimes natural habitats protecting if there is a bald eagle that shows up on a property, it can be, "I promise I have this property." This property could be, you know, used for a lot of different things, but I'm going to promise not to do things in order to preserve whatever conservation purpose you are looking at, whether it's open space, whether it's a natural habitat. So I'm going to give up all of my rights, or certain of those rights that I enumerate, I'm going to give these things up.

And the way that you do it with a conservation easement is you put them in a deed and actually you deed this to a land trust, and you deed the rights and the right to enforce a conservation easement in this conveyance that is a deed that's recorded, um, wherever the property is located. And it promises not to do whatever you've promised not to do. It enumerates
your rights. It enumerates the rights of the land trust, and generally provides the rights that pay land trusts. If I violate this, if I told you I'm never going to build in $X$ area and I go build a house or build an office building, the land trust has the right to then enforce the easement that you've granted, enforce those covenants. And the land owner has to also pay for that enforcement.

You also agree that if I'm found to be guilty of violating this easement and you had to sue me, I get the pleasure of paying for that as well.

So that's the gist of it. And there's a lot of things, requirements that go with it in order to enforce the easement.

Q And would it be fair to say, from the depth of your answer, that part of your practice is the guidance or assistance helping clients through the process of deciding whether to place a conservation easement?

A That would be the bulk of it, as well as, because I am a tax lawyer, that clients are also looking for legal advice, so that the easement, congress has provided incentives for those who put the easements on, and one of those is a tax deduction equal to the value of the easement. And it's making sure that they cannot just satisfy the recording of the easement. That's part, the recording of the deed and the granting of the rights, but also making sure that the project will tax qualify for the deduction.
S. Dillon - Defense - Direct (Mr. Fields)

Page 4125
Q And so would it be fair, then, to say that the value that -- you said the value of the easement, congress provides for a tax deduction for that amount; is that your testimony?

A Congress has allowed, assuming you meet all the eligibility, a tax deduction for the value of the easement, but the -- it depends on the benefit of how much of that deduction you would be able to take, but there is a general rule, yes.

There is a tax incentive, under the tax code, that if you donate a conservation easement and you satisfy the Internal Revenue Code, as well as the regulations and all the IRS guidance, that you would be entitled to claim a tax deduction for it.

Q And in most instances, is it true that the higher the value of the easement, the greater the tax deduction for the taxpayer?

MR. SOLOMON: Objection, your Honor. Leading. THE COURT: Sustained.
Q All right. Assume, Ms. Dillon, for a moment that an easement is worth, let's say $\$ 25$ million, would the benefit to the taxpayer, if the easement was $\$ 50$ million, be greater or less, in terms of the deduction?
A A $\$ 50$ deduction would be a higher benefit than a $\$ 25$ deduction, assuming, again, that the taxpayer can use it. Q Sure.

So when a client comes to you thinking about donating a
conservation easement, what are some of the first steps that you take in order to provide that guidance to a client?
A Some of the first steps would be sitting down and talking to the client to understand what their objective is, what they are trying to achieve, making sure that they understand that if they give away the easement and the rights that they give away, it's in perpetuity. So it doesn't just affect their rights, but the rights run with the land.

So if that land is, you know, later on, if it's part of an inheritance, part of an estate, whoever owns that land, or if someone buys that land, they will similarly be burdened by that easement.

So one of the things is to have them think very carefully about what kind of rights are you willing to give up? How large is it your property? What uses do you foresee in the future? You know, do you have kids? Do you have grandkids? Is this, you know, a 200-acre family farm? What is it you want to do?

So working through the client -- with the client explaining all the legal ramifications, you know, again, the perpetuity, that a deduction, you know, may or may not be beneficial to you; that's something we would look at. Is it the right time? So it's what to give away, when to give it away. So that would be the initial steps.

And then after that it would be sort of if the client

Dillon - Defense - Direct (Mr. Fields)
Page 4127
decides to go forward, doing a site visit. It would be, coming to have a better understanding of the property, um, looking at the -- figuring out the other sorts of experts that need to be assembled, um, anyone from engineers, architects, tax returns -those who have knowledge of the tax return and the tax positions, um, appraisers, those sorts of folks. And getting the team together to start exploring the viability of the conservation easement and what it would need.

Q And why is it important to retain an appraiser?
A If a client is seeking a tax deduction, then you have to have a qualified appraisal, that appraisal that tells you the value of the deduction that you could take.
Q You mentioned a few moments ago some of the - I think you mentioned regulations, generally, that affect this area of the law, being conservation easements.

Are you familiar -- I assume you are. Are you familiar with some of the Internal Revenue Code provisions and applicable Treasury Regulations that apply in the conservation easement context?
A Yes.
Q And just very generally speaking, for somebody who is not a tax lawyer, how do these provisions of law affect the process?
A The -- well, there's section 170 of the code, that's what generally -- a portion of section 170 provides for a
charitable contribution for partial interest and property that qualify as -- for conservation easement purposes. And it defines what are the purposes of a conservation easement.

So there's a whole series of regulations that tells you what is -- what constitutes a qualified conservation purpose. And there's a whole series of regulations about what kinds of appraisers - if you are going to do this, there is regulations that tell you how the deed needs to be -- articulate things. It has to be in perpetuity, and what perpetuity means.

There's a series of regulations about making sure you document the environmental characteristics, and the state and condition of the property at the time it's contributed. So there's a whole series of regulations about that.

And there's a whole series of regulations about qualified appraisers and qualified appraisals, and all the things it takes to be a qualified appraiser and what it takes to have a qualified appraisal.
Q All right. I would like to talk to you for a few moments about conservation easement appraisals that you were just mentioning.

Do conservation easement appraisals consider the concept of hypothetical buyers and hypothetical sellers?

A The standard that is required in a -- to be a qualified appraisal tells you that you look at the fair market value and the standards that they apply. Are a willing a buyer and a

Page 4129
willing seller under no compulsion to buy or sell, and then that is articulated to mean that you look at a hypothetical buyer and a hypothetical seller.

Q And do you have an understanding what that means, the hypothetical buyer and hypothetical seller?

A The hypothetical buyer and hypothetical seller would be referring to your standard person, every man. So it means that you can't take into account special characteristics of either the buyer or the seller. You can't take into account if a seller has special marketing skills, or if the seller is someone famous.

Let's say, you know, Taylor Swift gives a charitable donation and it's of a piece of property. It can't be considered, whether it's a property that Taylor Swift owns making it super valuable, instead it would be it has to be considered just like if Sheri Dillon owned it, if that's helpful as to what it means. To not take into account not that Taylor Swift would necessarily generate more money, but one might guess.

THE COURT: Every case has to have Taylor Swift in it somehow.
Q So in a sense, the appraisal is considering like a John Doe?
A That might be a John Doe. It's a -- it has to be a plain vanilla every day seller, a plain vanilla every day buyer,

| 1 |
| :--- |
| 3 |
| 5 |
| 6 |

not the apparent characteristics whoever a seller might be or a buyer might be.

MR. FIELDS: If we could show the witness what has been admitted as Plaintiff's Exhibit 1465.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
Q Ms. Dillon, I'm going to give you a minute to review that, but just to draw your attention, the area I'm going to ask you about, on the second page of the exhibit there is an e-mail from you to Mr. David McArdle. That's what Ill focus on, but I'll give you a minute to review.
A Yes.
Q On the second page of this exhibit you see that you wrote an e-mail to Mr. McArdle on October 16th of 2013?
A Yes.
Q And at the beginning of the paragraph you say "I spoke to Eric and he is aware that the more supportable value at this point is around $\$ 45$ million." And you continue, "I explained that certain of the appraisal standards for IRS purposes are different than those that might be used in valuing an asset held by a particular person." And you continue, "I was trying to convey that an asset in the hands of the Trump family would yield substantially more income and therefore appraise at a higher value than the same asset in the hands of a hypothetical

Dillon - Defense - Direct (Mr. Fields)
Page 4131

## buyer."

Why did you convey this to David McArdle? MR. SOLOMON: Your Honor, we'll object to this. If you recall, there was a back and forth about limiting my questions with respect to this specific e-mail and these paragraphs as to whether what she wrote was accurate or not. And when I asked about any information behind it, they objected on privilege grounds and said the witness should not answer that. And my questions were limited to only the truth and accuracy of what was there with respect to the conversation with her.

So they can't use it as a shield when we are questioning the witness, and then a sword when they want to question her.

MR. KISE: Your Honor, he can certainly ask today. I mean, I don't recall that Mr. Solomon -- I don't recall what Mr. Solomon is saying is accurate. I have to go back to the transcript. But even assuming that it is, if he wants to ask today, the witness is here. He's certainly free to ask the question. I don't see that there is any prejudice of any kind.

MR. SOLOMON: Your Honor, there is most certainly --

MR. KISE: No one is waving privilege.
MR. SOLOMON: For this witness to talk about the

1 conversations she had, the reason behind and her legal advice, if you are saying is not waiving privilege, that would be new to me. But they can't just waive it now. They can't do this.

Now there most certainly is privilege when we couldn't ask, and I would also tell your Honor that earlier in this case, before we got to trial, we specifically asked them if they were relying on advice of counsel defense, because they indicated they were relying on the advice of professionals and others.

There was a meet and confer. They told us they were not. We sent an e-mail to them confirming that, and I have it in my files if anyone has a question. I could pull it up in a minute or two if there is any dispute, but we sent this e-mail confirming they were not relying on advice of counsel defense. They did not respond to it. They did not challenge it, so therefore their silence is acquiescence on that point.

MR. KISE: I don't -- you are done?
MR. SOLOMON: Thank you.
MR. KISE: Okay. I don't think that this is advice of counsel line of questioning. I don't think that's where this is going. I mean, I could consult with Mr. Fields, but I don't believe that what we are talking about here is any advice of counsel, so that's not at issue, not to be
for this witness to divulge privileged information at all, and I don't think we limited them on any basis other than privilege.

MR. SOLOMON: First, Im happy to hear they are not trying to induce the advice of counsel defense at this late date; that's off the table. I appreciate that confirmation. Thank you, Counsel.

Second, Mr. Field instructed the witness not to waive privilege unless he asked her to. So there was a qualifier in that instruction. I just want to make sure that's clear for the record.

And then third, you did, in fact, instruct this witness not to answer questions that went to both attorney-client privilege and attorney work product. If your Honor recalls, there was a long discussion when I was at the podium about the difference between privilege and work product, attorney-client privilege and attorney work product. And I believe their objection was, in fact, sustained. And in any event, if he is asking what this witness's understanding was, background was forgiving this advice, that's classic work product, as was used as a shield to my questions.

MR. KISE: I don't think that the work product was used to shield the question. This isn't even a communication between anyone that's in the privilege loop.

1 pejorative. We are not setting up any advice of counsel issue.

THE COURT: I'm more concerned with Mr. Solomon's other main point, which is if you didn't let him question about it, you can't just say, oh, well now we'll waive it.

MR. KISE: No, no your Honor. I don't think we let him question about attorney-client privilege. That's correct, but I don't think we are going to ask any questions that go to the privilege.

And to the extent there was -- I was out momentarily. To the extent there was a question that might call for that, I think Mr. Fields said, up front, that he wasn't asking the witness to convey any privilege, and if the question needs to be reframed -- I don't know what it was. Again, I apologize. I was dealing with other issues, but there's no intention here to waive the privilege. The objections that we made before would have been based on privilege and only on privilege, so we are not using it as a shield or -- and a sword. We are not going there at all. I don't think, from what I recall, just looking at this document, that that's the purpose of this line of questioning. And Mr. Fields is shaking his head that I'm right.

So let's ask the question, and if there's some issue, we'll take it up, but I don't believe we are calling
S. Dillon - Defense - Direct (Mr. Fields)

Page 4135
And as Mr. Solomon did, as I recall Mr. Solomon did, we are just asking about the words that are there in the document, which I'm pretty sure your Honor let them ask about, like what's in there? And what do those words mean? I don't think that's -- I don't think that falls within the ambit of work product, what's in this e-mail of communication to Mr. McArdle and copied to Mr. Leonard. I don't think that's privilege or work product there.

MR. SOLOMON: Your Honor, we could go back. I'm not saying that it's privilege or -- I'm saying that they objected when we asked, not what was in this e-mail, but behind it. And I believe we could go back to the question. I believe the question was her reasons for making that assertion in those first two sentences.

If the question is, did she say that, we have no objection. It's in black and white on the screen.

MR. FIELDS: I'll withdraw the question.
MR. KISE: Maybe it's the question. Again, I missed the question. I'm sorry.

THE COURT: After all that, withdrawn.
MR. FIELDS: I'll withdraw the question.
Q Okay. And I want to make something abundantly clear, Ms. Dillon. If I want you to disclose an attorney client communication, I will say, "Ms. Dillon, please disclose an attorney-client communication." Is that understood?

A Yes. Thank you.
Q Okay.
THE COURT: I never heard that before.
MR. ROBERT: And you won't hear it.
MR. FIELDS: And I could assure you you won't hear
it.
Q I'm just going to draw your attention to the second sentence. You write, "I was trying to convey that an asset in the hands of the Trump family would yield substantially more income, and therefore appraise at a higher value than the same asset in the hands of a hypothetical buyer."

And my question is: We were just discussing the hypothetical buyer, hypothetical seller concept. Do you recall that discussion a few minutes ago?

A Yes.
Q This sentence here, would this be consistent with the hypothetical buyer -- hypothetical buyer, hypothetical seller concept?

MR. SOLOMON: Your Honor, we are going to object. Is this witness now being portrayed as an appraisal expert? She was talking about the appraisal standards, and I believe she said -- she prefaced it by explaining "it has all been explained to me" is how she prefaced her answer about the hypothetical buyer and hypothetical seller.

We let it go because we wanted to move on, but now

Page 4137

1
he is getting into specifics in the document. This witness is not an expert on appraisals. She can't discuss what might be considered and what might fall within the appraisals standards under USPAP.

THE COURT: I think the question was, is this what you were referring to when you talked about hypothetical buyer and seller.

MR. SOLOMON: That was my point. She said that I've been - "it has been explained to me", was her words. So it wasn't what she was talking about. She was referring to what was explained to her. Whether this fits into what has been explained to her by professionals that are subject to USPAP, or Cushman \& Wakefield, or Newmark, or any other appraisal firm, is different than saying this falls into what they were referring to. For her to just say what she understood it to be is one thing. It's totally different for her to say whether this falls into that.

THE COURT: Does this really matter?
MR. FIELDS: No.
THE COURT: I mean, that's bottom line for me. I don't know what we are -- the angel is on the pinhead and all.

MR. SOLOMON: Your Honor, I do think the value on the appraisals matter with respect to providing notice. When we come in and we try and put in appraisals and the conservation easement over?

A I'm not sure I understood your question. Can we try that again?

Q Sure.
So a property owner who is looking to place a conservation easement over their property, is it common, in your experience, that those property owners want to have an idea of what the value of that easement would be before they go forward with full throttle, placing the easement?

## A Yes.

MR. SOLOMON: Objection. Leading.
THE COURT: I think it also calls for an expert opinion somewhat. Is it common? I don't know what "common" means.
Q Your Honor, in her experience, Ms. Dillon, the clients that you have guided through the conservation easement process, do they generally want to have an idea of what the value of that easement is going to be before they place the easement?

A In my experience, every client that I've advised has sought a preliminary valuation before making a decision of whether to go forward when they are first exploring the possibility of donating a conservation easement.

Q And so is it then common, also, for clients to start and stop the process along the way before determining to place

Q All right. Are you familiar, generally, with some of the term assumptions that can be made in some of these conservation easement appraisals?

A I have seen assumptions made in conservation -- in appraisals of conservation easements, yes.

Q Generally what are some of those assumptions?
A There would be a variety of assumptions in trying to figure out what the highest and best use of the property is. There would be: Looking at things and trying to figure out what is financially feasible; you know, making assumptions about costs; making assumptions about the economy; making assumptions about inflation; making assumptions about demographics; making assumptions about if something is physically possible; making assumptions about certain features of the property, the real property; legally permissible; there will be assumptions about zoning; permitting how long things will take; things of that nature. A variety of assumptions are made in the appraiser's judgments.

Q And you said "legally permissible," is that a standard that is applied?

A Yes, under the guidance that is provided. The appraisers, they are doing a before-and-after methodology. And they are trying to determine the highest and best use of a property as if it were developed. What they have do is the highest and best use. It is laid out in use path, as well as
other standards, and as well as standards accepted by the courts that they have to look at: Whether it is physically possible; financially feasible; legally permissible. And therefore determine what is the maximally productive value if the property is put to its highest and best use.

Q All right. If we could pull up Plaintiffs 1412 that has been admitted into evidence.

I am going to shift gears, Ms. Dillon, and talk to you for a minute about Trump Golf Club, Los Angeles. I'll give you a minute to review it.
(Handing)
THE COURT: Five minute warning.
A Yes, I have taken a look at it.
Q Okay. If you could go to the third page, please.
Toward the bottom there is an e-mail from Allen
Weisselberg to a Joshua Seidner on November 14, 2012. Can you see that?
A Yes.
Q And the subject line is TIGC LA. I think we had some testimony about that earlier in this trial. But do you generally understand that to be the Trump National Golf Club LA or Trump International Golf Club LA?

A Yes, I understand it to be the golf course that is located near LA.

Q Okay. And Mr. Weisselberg copied you and Mr. Bender
on this e-mail; is that right?
A That's correct.
Q And do you have an understanding of who Donald Bender is?

A Yes.
Q Who is he?
A He was a part of the team from Mazars that did the financial auditing and prepared the tax returns and that sort of thing; outside accounting work for the Trump Organization.

Q And it appears as if Mr. Weisselberg is communicating with Mr. Seidner and copying both of you regarding a conservation easement project at the golf course in Los Angeles; is that fair?

A I am sorry, could you repeat that?
Q Sure. I am just asking: It seems like
Mr. Weisselberg is communicating with Mr. Seidner, while copying you and Mr. Bender, about a conservation easement project at the golf course in Los Angeles?

A Yes. Yes, he is.
Q If you could then go to the first page of this exhibit toward the bottom. This is now an e-mail on November 16, 2012, where you are writing to Mr. Seidner, Mr. Weisselberg and you have copied Mr. Trump Jr., Donald Bender, Andrew Weiss, Jill Martin and Bob Leonard; is that right?

A Yes, I recognize it as an e-mail. I am sure I sent it, yes.

Q Does it appear to be an e-mail or at least an e-mail chain where you sent e-mails to several folks involving Jill Martin and Eric Trump, Donald Bender, Jason Greenblatt?

## A Yes.

Q From January 5 of 2015?
A That is the -- well, it looks like both e-mails are that same day, yes.

MR. FIELDS: Your Honor, move to admit
Defendant's 1017.
THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1017 by the Court.)
Q If I could focus you toward the bottom, Ms. Dillon, on January 5 of 2015, you wrote to Ms. Martin and Eric Trump and you copied Allen Weisselberg, Jason Greenblatt, Donald Bender and Samuel Guthrie. And you write: Please find attached for your records an electronic closing binder of the documents
executed in connection with conveying the conservation easement to the Palos Verdes Peninsula Land Conservancy. This is still referring to the golf course in Los Angeles; is that fair?

A Yes. The subject matter is TNGC LA conservation easement closing binder.

Q What is an electronic closing binder?
A In this case it meant I was sending them documents that normally the old fashioned way, before e-mail became so prevalent, when you finished a transaction you would have a closing binder that would physically be a binder, a bound set of the transaction documents you would provide your client.

By 2015 it looks like we were in the mode of not sending the physical hard copies but instead electronically providing what would be a closing binder of the documents that were executed in order -- so that they would have all of the final closing, the executed closing documents in one place.

Q And final question before the break. Why would you have been copying Mr. Bender on this e-mail with the electronic closing binder?

A Well, Mr. Bender would have needed to have been aware of the conservation easement throughout the process. And this was just one more place in the process I would make Mr. Bender aware that we had actually, in fact, completed the donation of the easement.

THE COURT: Okay. All right. 14-minute break.

See you all at five minutes to 4:00.
THE COURT: I direct the witness not to discuss this case or testimony during the break.
(Pause in the proceedings.)
THE COURT: Witness. She is on her way. COURT OFFICER: Witness entering.
(Whereupon, the witness resumed the stand.)
MR. FIELDS: May I proceed, Your Honor?
THE COURT: Yes, please.
MR. FIELDS: Thank you.
Q Ms. Dillon we are going to shift gears and discuss a property known as Briarcliff. Did you have some involvement in the consideration of a conservation easement at Trump Briarcliff?

A Yes.
Q All right. We are going to ask to put document Plaintiffs 3261 in front of you.
(Handing)
A Yes.
Q Okay. Does this appear to be an e-mail that you sent to Eric Trump on June 11 of 2014?

A Yes, it is.
Q And the subject is Briarcliff?
A Yes, it is.
Q And in the - there are two what I'll call, tables,
what has not been admitted yet as Defense 1020 . (Handing)
Q Do you recognize this, Ms. Dillon?
A Yes.
Q What does it appear to be?
A It is an e-mail from me to Dave McArdle talking again about the reduction in condominium size question and what that means, and what is the offering plan.

Q And this is June 11 of 2014?
A Yes, it is.
Q And David McArdle, was that someone add Kushman \& Wakefield that you worked with for conservation easement appraisals?

A Yes. He was the person working on the Briarcliff appraisal that we were talking about.

MR. FIELDS: Okay. Okay I move to admit Defense 1020.

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1020 by the Court.)
Q Ms. Dillon, you wrote to Mr. McArdle, I understand that while TBMC LLC -- let me stop you there.

Did you understand that the LLC you are referring to here to be the entity that owned the Trump Briarcliff property?

A It either owned it or managed it, but yes. It was either the owner or manager. I can't recall sitting here today.

## Q That's okay.

And you continued: TBMC LLC determined not to create an 87-unit condominium initially and instead filed the condominium as a 47 -unit condo. ( 16 townhomes and 31 units), that has nothing to do with the site being fully entitled and zoned to develop the 87 units. To develop the remaining 40 units, it would simply be a matter of filing a new offering plan with the State of New York for a 40-unit condominium, which would be granted as a matter of right because the parcel was already zoned.

Does this e-mail -- well first of all, let me ask you. Were you shown this e-mail by Mr. Solomon when he asked you questions last time you were here?

A No.
Q Does this e-mail refresh your recollection as to the number of units that could be developed at Trump Briarcliff?

A It refreshes my recollection that they retained all of the entitlements, that they just changed the offering plan.

Q So how many units could Trump Briarcliff develop if it wanted to?

A It had the right to do 87.
MR. SOLOMON: Objection. Calls for a legal

## conclusion.

MR. FIELDS: Judge --
THE COURT: Yes, go ahead.
MR. FIELDS: As you may recall, Ms. Dillon was here a couple of weeks ago and Mr. Solomon ad nauseam was asking her about the number of units, the number of units. I have now showed the witness a document that better explains the number of units that ultimately went into the consideration of the appraisal. And the objection is it is a legal conclusion. It is disingenuous. She is a tax lawyer that worked on these appraisals, that worked on the consideration of the donation of the easement.

MR. SOLOMON: It is not disingenuous. My questions went to what they had a right to do and what was said to the appraiser and the information that then resulted in the appraisal or draft appraisal, since it may or may not have been done.

This point is different. He is asking for a legal conclusion as to what she can do under New York Condominium Law. Which, if I recall, the witness is admitted in DC and Georgia. She never said she was admitted in New York. I don't believe she has ever practiced, and she can tell me if I am wrong, before the New York Department of Law or the Attorney General's Office submitting offering plans or amendments or claiming

| 23 | 3 Can we just move on? | 23 A Yes. It starts off as an e-mail from myself to |
| 24 | 4 THE COURT: Just give me a moment | 24 Mr. McConney, copying Mr. Bender. |
|  | 5 Could you rephrase the question to be just what | 25 MR. FIELDS: Move to admit Defense 1015. |
|  | illon - by Defendant - Direct(Fields) Page 4153 | Dillon - by Defendant - Direct(Fields) Page 4155 |
|  | your understanding was? That I will allow | 1 THE COURT: Granted. It is in. |
|  | 2 MR. FIELDS: Sure | 2 Q I would just like to direct your attention to the top |
|  | 3 Q Ms. Dillon, on the second sentence here, the third | 3 of page one. |
|  | 4 line from the bottom you wrote: To develop the remaining 40 | 4 (Whereupon, the document referred to was deemed |
|  | 5 units, it would simply be a matter of filing a new offering | 5 marked for evidence as Defendant's Exhibit 1015 by |
|  | 6 plan with the State of New York for a 40-unit condominium, | 6 the Court.) |
|  | 7 which would be granted as a matter of right because the parcel | $7 \quad \mathrm{Q}$ I would just like to direct your attention to the |
|  | 8 was already zoned. | 8 top of page one. Is this an e-mail from you to Mr. McConney |
|  | 9 So is it -- is my understanding correct that the | 9 copying Donald Bender on June 30 of 2014? |
|  | 0 parcel was already zoned for 87 units? | 10 A Yes. |
|  | 1 A Yes. It was zoned for 87 units, sixteen of which had | 11 Q And the subject line says: Two quick Friday |
|  | 2 already been built. And -- | 12 afternoon questions. |
|  | 3 THE COURT: Wait. You already answered the | 13 A Yes. |
|  | 4 question. | 14 Q And there -- it seems to be there is something |
|  | 5 THE WITNESS: Okay | 15 attached, Briarcliff engagement letter.PDF? |
| 16 | 6 Q So 16 units had already been built. It was zoned for | 16 A Yes. |
|  | 787 units. I believe that comes out to 71 remaining units that | 17 Q And if you return then just to the second and |
|  | 8 have not been sold; is that fair? | 18 subsequent pages of this attachment, does that appear to be the |
|  | $19 \quad \text { A Yes. }$ | 19 Briarcliff engagement letter that you would have attached to |
|  | 0 Q Okay. So the parcel would have been zoned then for | 20 this e-mail? |
|  | 21 the remaining 71 units at this time; is that fair? | 21 A That's what it appears to be. |
| 22 | 2 A That was my understanding, yes. | 22 Q Okay. Why would you have sent this engagement letter |
| 23 | 3 MR. FIELDS: If we could then pull up | 23 to Mr. McConney and copied Donald Bender? |
|  | 4 Plaintiff's 3194? It has been admitted into evidence. | 24 A I wanted to let them know that we were continuing the |
|  | 5 And if we could go to page six. | 25 exploratory work on a conservation easement on Briarcliff. And |

Mr. McConney would need it because it looks like I wanted him to send payment out to Cushman $\&$ Wakefield.

And Mr. Bender would need it so that he could be kept in the loop that we were pursuing a conservation easement.
$Q$ Why would it be important to keep Mr. Bender in the loop that you were still considering a conservation easement?

A Mr. Bender was responsible for the tax returns, preparing the returns. And we would be, around this time, watching the revenues, expenses, and, you know, basically the overall income position in order to turn up -- predict the tax positions by the end of the year.

We wouldn't -- one of the considerations, as we talked about earlier, is whether or not it is the right time to do a conservation easement, if one of your objectives was to receive a tax deduction for the conservation easement. And while you would still be able to receive the -- I guess, receive the deduction, whether you could make use of it or not would depend on where you were income wise in a particular year.

And if you don't -- while you can carry forward a tax deduction for five years, you don't normally plan to take one or plan -- plan for a deduction in a year you are not going to be able to do it. So we needed Mr. Bender's input because he was the one most familiar with where the tax position stood, since he was doing the financial accounting and other work

Q That paragraph, the first sentence, states: Trump Briarcliff Manor Development LLC owns a parcel of land in Briarcliff Manor, New York. The parcel over which it has placed a conservation easement and donated it to (XXX). Is it -- do you have an understanding of why there would be a "XXX" at the end of that sentence?

A Yes. It appears the sentence is contemplating the donation will occur, but it hasn't occurred yet or they would known who it went to. So a donation hadn't yet been made.

Q And also there was some discussion with Mr. Solomon last time you were here about the past tense of this sentence. Is that generally because once the appraisal is final the easement has been placed by them?

A Yes. Typically the appraisal comes after the do -the final appraisal comes after the donation has been made. And so it is in contemplation that that would be what you would want in the final appraisal.

Q All right. Let's shift gears and talk about Seven Springs for a minute.

MR. FIELDS: If we could show the witness

## Defense 1016?

(Handing)
A All right.
Q All right. Does this appear to be an e-mail -- let me just ask you, what does this appear to be?
throughout the year. And worked with, you know, estimated tax payments and things throughout the year. So he would the person in the best position to know if it looked like there was going to be enough taxable income that you would be able to make use of the taxable deduction.

So, just making sure that everyone was mindful to keep paying attention to that. So that if it ever looked like the income situation would not -- would not allow for any use of the tax deduction, we would know at least that would be part of the decision to postpone or continue.

MR. FIELDS: All right. If we can show the witness what has already been admitted into evidence as Plaintiffs 3217.

We are still on Trump Briarcliff. (Handing)
Q I would like to focus you on page three, but take your time looking at it.

A Okay.
Q All right. On the middle of page three with the paragraph beginning: Trump Briarcliff Manor Development LLC?

A Yes.
Q And again, is this your understanding that this is a draft of an appraisal for Trump Briarcliff Manor Development LLC?

A Yes, it is.

Dillon - by Defendant - Direct(Fields)
Page 4159
A It appears to be, ultimately, an e-mail from me to Nick Zemil, copying Donald Bender, attaching the final appraisal for Seven Springs and asked -- me asking Nick to confirm if this is -- that I had the right appraisal to attach, that indeed I had the final appraisal.

Q Okay.
A So to attach -- to send to Mr. Bender.
Q And does it appear that you attached an appraisal of Seven Springs dated as of December 1, 2015?

A Yes.
MR. FIELDS: Okay. I move to admit Defense 1016 and the appraisal for notice, Your Honor. THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1016 by the Court.)
Q All right. Ms. Bend -- I am sorry. Ms. Dillon, why does it appear or why did you copy Mr. Bender on this e-mail where you sent this appraisal of Seven Springs?

A I was -- because Mr. Bender needed to attach the appraisal to the tax returns. So I needed to make -- I needed to make sure he had the right appraisal, you know, that I had grabbed the right one, since there were some stops and starts to these projects. I wanted to make sure I had the right document so that he would have the right information to, for

| Dillon - by Defendant - Direct(Fields) Page 4160 | S. Dillon - Defense - Direct (Mr. Fields) Page 4162 |
| :---: | :---: |
| 1 one, extrapolate information to report on the tax return; and | 1 actions were similar. |
| 2 do his tax calculations. And then to attach the appraisal to | 2 MR. FIELDS: May I have a moment, your Honor. |
| 3 the tax return. | 3 THE COURT: Sure. |
| 4 Q Ms. Dillon, did you work with Mr. Trump sporadically | 4 (Whereupon, there is a brief pause in the |
| 5 throughout the process of the consideration of the various | 5 testimony.) |
| 6 conservation easement | 6 MR. FIELDS: I move to admit defense 1017 if it |
| 7 THE COURT: Which Mr. Trump? | 7 hasn't been moved. |
| 8 MR. FIELDS: That's a great question, Your | 8 MR. SOLOMON: I'm sorty, I didn't hear which |
| 9 Honor. | 9 exhibit. |
| 10 Q Mr. Eric Trump. | 10 MS. HABBA: It's 1017. |
| 11 A Yes, I worked with Mr. Trump from time to time. | 11 MR. FIELDS: I don't think I showed 1017. One |
| 12 (The following proceedings were stenographically | 12 second. |
| 13 recorded by Senior Court Reporter Michael Ranita.) | 13 MR. SOLOMON: Sure. Of course. |
| 14 | 14 (Whereupon, there is a brief pause in the |
| 15 | 15 testimony.) |
| 16 | 16 MR. FIELDS: Move to admit defense 1017, your |
| 17 | 17 Honor. |
| 18 | 18 THE COURT: Which number? |
| 19 | 19 MR. FIELDS: I'm sorry -- |
| 20 | 20 MS. HABBA: 1017. |
| 21 | 21 MR. FIELDS: -- 1017. |
| 22 | 22 THE COURT: Granted. It's in evidence. |
| 23 | 23 (Defendant's Exhibit 1017 was deemed marked and |
| 24 | 24 admitted in evidence.) |
| 25 | 25 MR. FIELDS: No further questions. Thank you |
| S. Dillon - Defense - Direct (Mr. Fields) Page 4161 | S. Dillon - Defense - Cross (Mr. Solomon) Page 4163 |
| 1 Q What was your practice in terms of when you needed to | 1 Ms. Dillon. |
| 2 communicate something to Mr. Eric Trump, what was your practice? | 2 THE COURT: We have nine minutes or so. Okay, |
| 3 A To pick up the phone. To call him. | 3 cross examination by Mr. Solomon. |
| $4 \quad \mathrm{Q}$ Why is that? | 4 MR. SOLOMON: Can you hear me, your Honor? Is it |
| 5 A Because similar to many of my other executive clients, | 5 coming through? |
| 6 while he was involved, he was not day-to-day involved, and he | 6 THE COURT: I can hear, but talk loud. |
| 7 would be -- I just sent him an e-mail, it was sent to a | 7 CROSS EXAMINATION |
| 8 collection of people. I didn't know if he would read it or not, | 8 BY MR. SOLOMON: |
| 9 but if I picked up the phone and talked to him, I would know | 9 Q Good afternoon, Ms. Dillon. I just have a few quick |
| 10 that he -- we talked and that he knew what he needed to do. And | 10 questions. |
| 11 if I needed an answer to something, I would get an answer. | 11 Are you admitted to practice law in New York? |
| 12 Q In terms of your actions, professional actions that you | 12 A No, I'm not. |
| 13 took as a lawyer with regard to your representation of | 13 Q Have you ever been admitted to practice law in |
| 14 Mr. Donald Trump and his businesses, did you take any actions | 14 New York? |
| 15 with Mr. Trump or his businesses that you wouldn't have taken | 15 A No, I have not. |
| 16 with any of your other clients? | 16 Q Have you ever practiced before the New York Department |
| 17 let me ask it a better way. Were your actions | 17 of Law? |
| 18 consistent, in terms of the way that you approached matters in | 18 A I'm not sure what you mean by that. |
| 19 these conservation easements and appraisals, that you would have | 19 Q Sure. The New York Bar of Law is a portion of the |
| 20 done with other clients? | 20 New York Attorney General's Office? |
| 21 A Everything I did in my -- what I did in my | 21 A What do you mean by "practice before"? |
| 22 representation of Mr. Trump and the Trump entities was | 22 Q Have you ever submitted an offering plan or an |
| 23 consistent with all of my other clients, other than once he | 23 amendment to the New York Attorney General's Office? |
| 24 became elected President, um, additional security measures were | 24 A No, I have not. |
| 25 put around his safeguarding of his materials, but otherwise the | 25 Q Are you familiar with the process of submitting |

|  | Dillon - Defense - Cross (Mr. Solomon) Page 4164 |
| :---: | :---: |
|  | offering plans or amendments to the New York Attorney General's Office? |
|  | A At a very, very high level, but otherwise, no. |
| 4 | Q As you sit here today, do you know if a sponsor has a |
|  | right to have an offering plan accepted for filing merely |
|  | because the planned development meets zoning requirements? |
| 7 | A Could I have that read back, please. |
| 8 | THE COURT: Read it back, please. |
| 9 | (Whereupon, the requested question was read back by |
|  | the court reporter.) |
| 11 | A No, I do not. |
| 12 | MR. SOLOMON: Nothing further, your Honor. |
| 13 | THE COURT: Any redirect? No. All right. I guess |
| 14 | the witness is excused. Thank you. |
| 15 | (Whereupon, the witness stepped down from the |
| 16 | witness stand.) |
| 17 | THE COURT: And let's talk about scheduling. I'l |
| 18 | ask Ms. Greenfield to discuss it with Counsel. |
| 19 | MS. GREENFIELD: Okay. So since we've already gone |
| 20 | through two of three -- two out of three of tomorrow's |
| 21 | proposed witnesses, I assume that we are going to start with |
| 22 | Mr. Witkoff tomorrow, and then whose going -- and Flemmons |
| 23 | is ready to proceed tomorrow? |
| 24 | MR. ROBERT: Correct. |
| 25 | MS. GREENFIELD: We will get to Laposa tomorrow as |

| Proceedings | Page 4165 |  |
| ---: | :--- | :--- | ---: |
|  | well. |  |
| 2 | MR. ROBERT: No? | 1 |
| 3 | THE COURT: For sure? | 2 |
| 4 | MR. KISE: Very. | 3 |
| 5 | THE COURT: So Laposa will now be on Wednesday? | 5 |
| 6 | MR. ROBERT: Hopefully. | 6 |
| 7 | MR. KISE: Hopefully. | 7 |
| 8 | MS. GREENFIELD: And will Laposa be more than one | 8 |
| 9 | day? | 9 |
| 10 | MR. ROBERT: Probably. | 10 |
| 11 | MR. KISE: Probably. | 11 |
| 12 | MR. AMER: Can I just ask something. In terms of | 12 |
| 13 | the comment that we won't get to Mr. Laposa, I just want to | 13 |
| 14 | make sure that's based on your estimation of your own | 14 |
| 15 | directs and not our crosses. | 15 |
| 16 | MR. ROBERT: It is. | 16 |
| 17 | MR. KISE: It is. | 17 |
| 18 | MR. AMER: Okay. | 18 |
| 19 | MS. GREENFIELD: Okay. So you believe that Laposa | 19 |
| 20 | will be the only witness -- Flemmons and Laposa on | 20 |
| 21 | Wednesday; is that correct? | 21 |
| 22 | MR. KISE: Yes, on Wednesday. | 22 |
| 23 | MR. AMER: We are getting to Flemmons tomorrow. | 23 |
| 24 | MR. KISE: But Flemmons, we are going to -- | 24 |
| 25 | MS. HABBA: Witkoff is Wednesday. | 25 |

MR. KISE: We will have someone -- just to short circuit. We will have someone Thursday or Friday if we get through these other witnesses.

MS. GREENFIELD: Okay. So tomorrow Witkoff then Flemmons, then maybe Flemmons continues on Wednesday, followed by Laposa, and you'll update for Thursday and Friday.

MR. KISE: Correct.
MR. WALLACE: Do defendants have names for who the people will be for the rest of this week, if we get past Laposa?

MR. KISE: Just the same names that we have already in the queue.

MS. GREENFIELD: So McConney will be --
MR. KISE: If that changes, we'll certainly let them know immediately, but.

MS. GREENFIELD: Assuming McConney doesn't actually take two days, that would mean we could do Hawthorn as quickly as the 17th.

MR. ROBERT: 17th is next Tuesday?
MS. GREENFIELD: That's Friday.
MR. KISE: We will not get to Mark Hawthorn by Friday, but perhaps by Monday, whatever day that is. By Monday, that's conceivable.

MS. GREENFIELD: Thank you.

Page 4167
MS. HABBA: Just to correct the record, I didn't -there's two edits. I could tell you it's not McCarty, it's McConney, and also I didn't say Witkoff is Wednesday, Witkoff is tomorrow.

THE COURT: Speaking of tomorrow, 10:00, see you all then.
(Whereupon, the case on trial was adjourned to November 14, 2023 at 10:00 a.m.)

Senior Court Reporters

THE COURT: Defendants, would you like to call your next witness?

MR. ROBERT: Good morning, Your Honor. The Defendants call Steve Witkoff to the stand.
(Whereupon, the witness took the stand.)
COURT OFFICER: Please raise your right hand.
STEVEN WITKOFF, after having
first been duly sworn was examined and testified as follows:

COURT OFFICER: Please have a seat.
Please state your name and either home or business address for the record.

THE WITNESS: My name is Steven Witkoff and I reside at 1400 West 28th Street, Miami Beach, Florida 33140.

THE COURT: Please commence.
DIRECT EXAMINATION
BY MR. ROBERT:
Q Good morning, Mr. Witkoff.
A Good morning.
Q I am going to ask you a series of questions this morning. And to introduce you to the Court I am going to ask you some background questions.

Where did you grow up, sir?
A I was originally born in the Bronx, spent my early

Page 4171
years there. Moved to 1 Baldwin Harbor in the early '60s, and then over to Old Westbury when I was, I think, 14 years old.

Q And what about your educational background, sir?
A I went to elementary school in Baldwin.
Went to the Wheatley School in --
THE COURT: I have heard of it.
A I went to the Wheatley High School, and graduated from high school there.

Went to Union College.
Then from Union College went to, graduated from
Hofstra University, where I also went to law school.
Q And what year did you graduate from Hofstra, sir?
A Law School?
Q Yes, sir?
A 1983.
Q Okay. I want to talk to you a little bit about the earlier part of your career. What, if anything, did you do when you got out of law school?

A I worked for a real estate law firm by the name of Dreyer \& Traub.

Q And what did you do at Dreyer \& Traub other than, obviously, be a lawyer?

A My first year and a half was litigation. And then I was lucky enough to get into the real estate department there.

Q And what exactly did you do in the real estate
department at that firm, sir?
A I worked on closings, among them for the President. And then many other -- Dreyer \& Traub was probably the leading boutique real estate firm at the time.

Q And for how long did you work there, sir?
A Wow, I think around maybe three years.
Q And your practice was primarily in the area of real estate litigation or real estate transactional work or something else?

A First 18 months litigation; and last 18 months closings transactions.

Q And you mentioned something about the President. When was it that you first met President Trump?

A It had to have been in the 18 months when I was in the real estate transactions group.

Q And then you came to know him again years later, correct?

A I did.
Q After that little bit?
A Idid.
Q Okay. What did you do after you decided to -withdrawn.

At some point you left that firm, correct?
A Yes.
Q And what did you decide to do at that point, sir?
estate market.
Q And where are the holdings of that company located?
A New York City, some. We have a large presence in south Florida today. Los Angeles as well. We have two properties out in Los Angeles. We have done some transactions in Europe as well. That's, for the most part, where we are today.

Q What, if any, associations are you a member of in the real estate world?

A Well, you mean, when you say, "associations" you mean boards or things of that sort?

Q Yes, sir.
A So, I, we, are members of the real estate board. I used to sit on the executive committee of the real estate board in my 40s. I am a Trustee at Hofstra University. That's - I think that's about it, but I get forgetful a little bit.

Q Any association with the university of Miami, sir?
A Yes. I have a pretty large involvement there.
Q What is that?
A I have two children that went there. One of my children passed away, as you know, Andrew. I talk about him, so I am good with that. And so because Andrew went there, and to the business school, and my youngest son Zack, I -- I am involved on certain boards with the business school and I do some other things with the school.

Witkoff - by Defendant - Direct(Robert)
A I spent a year at another law firm, and then left that -- and then left that law firm and began trying to grow a real estate business.

Q And how did you go about trying to do that, sir?
A I left with a partner who was from Dreyer \& Traub, his name is Larry Glock, and we started a business together called Stellar Management, S-T-E-L-L-A-R, which stood for Steve and Larry. And we began buying Freddie Mac walk-up buildings at the time; and then graduated into some other things in the Bronx and Washington Heights.

Q And what, if anything, progressed with regard to that business, sir?

A Well, we grew a portfolio, probably two or 3,000 units. We were proud of it. Both of us were from, you know, relatively modest beginnings early on. And in 1997 we split up. We still remain friends to this day. He took the, mostly, the residential properties. We had since graduated into office buildings, and I moved more into the, to running the office building portion of the business.

Q And did you continue with that firm once there was a split or did you start a new company?

A No, in 1997 we started the Witkoff Group.
Q And what exactly is the Witkoff Group, sir?
A So it is a holding and management company that owns/develops real estate in all different sectors of the real

Witkoff - by Defendant - Direct(Robert)
Page 4175
Q And any involvement with the John F. Kennedy Center for the Performing Arts?

A Yes. I am a Trustee at the Kennedy Center.
Q If we were to describe what you do for a living, would it be fair to characterize that as a developer?

A Yes.
Q So what is a developer?
A I think a developer is someone who looks at a property and gives some thought to what else it can be.

Q And what exactly do you do as a developer, in general terms?

A You are rezoning; re-entitling; thinking about what the possibilities are; what the changes are in a particular community; and what is needed and what is not needed.

Q So what I want to do for a few moments here is take you through some of the projects you have been involved in so we can show the Court the experience you have in this field. Are you familiar with a project --

MR. ROBERT: And no slide show today, Judge. We are going to do it the old-fashioned way.
Q Are you familiar with a project at 150 Charles Street, sir?

A Yes, a condominium in the West Village that I built.
Q What, if any, involvement did the Witkoff Group have with that, sir; you personally?

Page 4177
A Yes.
Q What is that project, sir?
A That's a deal, that transaction, that we bought that sort of in a bankruptcy like situation. It was a 363 Sale that we bid on against certain others. It is on Madison Square Park. Originally slated to be an office building, we converted it into a -- into a condominium.

Q And how long did that project take, sir?
A I would say approximately five or six years.
Q Okay. Are you familiar with a project known as 111 Murray Street in TriBeCa?

A Yes. That's a site that we built with the Fisher Brothers. Began it in 2013, delivered it to the market in 2018 or '19, I want to say.

Q And what did that project entail, sir?
A Again, a residential condominium in downtown -- in the financial district of downtown Manhattan.

Q And what, if anything, had been there before this development that you --

A That was a vacant site.
Q That was a vacant site?
A Yeah.
Q So your experience is in developing vacant sites as well as reconstructing that which is already there, fair?

A Fair.

Q Are you familiar with a project at 20 Exchange Place?
A Yes.
Q And what was that project, sir?
A That was the building next to -- it was an office building. And we bought it in response to Mayor Guliani's Downtown Revitalization Plan.

Q What was that plan, sir -- withdrawn.
What approximate year did that plan come into existence, if you know?

A I think it was first promulgated in 1992, I want to say. And we probably bought that building in '96.

Q And I cut you off before, you were explaining what you did with the project, sir, why this plan from Mayor Guliani worked for you.

A That downtown revitalization plan was looking to incentivize and encourage the transformation of $B$ and $C$ office buildings into residential projects, so that you would get a 24-hour, seven day a week, community-like environment in downtown.

Q Are you familiar with a project at 1 Broadway, sir?
A Yes.
Q What was that project?
A That was an office building, beautiful office building, right at the front of Broadway that we bought in, again, in 1996. And that we actually converted into an office

Witkoff - by Defendant - Direct(Robert)
Page 4179
property and leased it to a law firm. I don't know if they are still in existence Kenyon and Kenyon. They were an intellectual property law firm.

Q And anything else about the 1 Broadway project that is remarkable to you?

A Yeah, what we paid for it back then. No one thought it was, you know, people just didn't think the market existed down there for office, and it did.

Q What brought you to the conclusion that there was a good market to buy in?

A I don't know. Maybe we were just, you know, hopeful, aspirational. So, but I always -- I always, my whole life was guided by the fear of failure. So we always questioned our beliefs. We just thought that New York City would always rise and the market was just too cheap down there, not to take advantage of $i t$.

Q You used the words "hopeful" and "aspirational," how do those two words work as a person who is a developer, in your mindset?

A Well, I think you have to marry that with being cautious. So we are cautious and prudent, but you have to believe to be a developer. You have to believe in a partnership between the business community and government. You have to believe that financing markets exist. You have to understand supply and demand dynamics and what -- where the
possibilities are, where there is a derth of housing or where there is a derth of office supply. It is all of those things.

Q Are you familiar with a project involving the Woolworth building, sir?

A Yes, we own that today.
Q Let's talk about that. When was it you acquired the Woolworth building?

A 1996 -- excuse me. 1998.
Q And what were the plans that the Witkoff Group had at the time for that property?

A We were partners with a few others including, Ruby Sloan, so not just us, but good, decent, smart guys. And our plan was an office building conversion with the possibility of converting the top of the building into residential, which of course was allowed under the downtown revitalization plan.

Q And was that one of the reasons why you and your group decided to buy the Woolworth building?

A Yes.
Q When you were evaluating, what you would do with the Woolworth building, what were you considering?

A Both. To me it was always important if you were buying real estate that you had multiple exit strategies on a particular piece of property. And the Woolworth property clearly allowed for that. You could - you could put a hotel there if you wanted to. You could put residential there. The
condominiums.
Q When was that, sir?
A I want to say 2003, maybe. 2004.
Q Are you familiar with a job known as One High Line, sir?

A Yes, that's -- that's a project that is in construction today.

Q And what is that current construction going to be for?

A So that's a project on the entire block spanning 17th and 18th Street. We bought -- it was a defaulted note and mortgage coming out of COVID. And we bought that, us and a family office. And we continued on with the development. We are in the process of -- right now it comprises a half a million square feet of condominium, a hotel that is going to come to that marketplace, parking, and some retail. And we are just finishing up construction on it. And we probably sold, I guess, maybe in the 40 or 45 percent range of the condominiums there.

Q Sir, we have gone through some of the developments you have been involved in in New York. I want to draw your attention to some in Florida for a few moments.

Are you familiar with a job which Ill call the Shore Club job?

A Yes.

Witkoff - by Defendant - Direct(Robert)
Page 4181
whole thing could convert to residential. It didn't work because of the depth of the bottom floors, but the top was ultimately converted to residential, and it worked as an office property as well.

Q And what is the current status of the Woolworth building today?

A It is a condominium at the top of the building and in its tower; and it is an office building down below.

Q Realizing there are always challenges being a developer, was there anything significant after the acquisition of the Woolworth building that was an unforeseen challenge to you?

A I mean, the biggest challenge to us was in 1998 you had the Russian bond collapse, and we were right in the middle of closing it, and that was pretty hairy. So, but there was probably plenty of other things along the way. I was - I was at the site when the planes -- when the planes hit the World Trade Center, so I was there. I walked the American flag up to the top of the Woolworth building the next day. I was on a rescue rope line with two NYPD officers, who were friends of mine, that day. And yet the Woolworth building survived. We slept the 10th precinct cops there, the ESU guys were there. So if it survived that, it would survive anything.

Q Are you familiar with a project, 55 Wall Street?
A Yes. That we converted into the Cipriani

Q What is that, sir, and why is that located -- first of all, where is that located?

A That's between 19th and 20th Streets on Collins Avenue, also facing the beach.

Q That would be in Miami, correct?
A Correct.
Q Generally what is that job, sir?
A First of all, it is another property that came out of the same distress situation that One High Line came out of. So both of those properties we were acting as an adviser to the senior credit company that had extended loans to this particular development company. And in the course of advising them on that, we went out and bought these two properties with that senior credit company.

Q And what is that going to be eventually?
A It was fully a hotel. We were able to take it successfully through a re-entitlement and rezoning in Miami Beach. And now it is going to be, in part, a small boutique hotel. And the larger portion of it will be a condominium done by Bob Stern, who, interestingly enough, started Robert A. Stern, who I think is the most important residential architect out there, who started his career in Florida.

And it goes to what I talked about, which is the changing of the neighborhood in South Beach. I think Florida has come to a place where residential -- residential use is
more important than hotel use. That whole spring break, sort of, mania that was going on became unacceptable down there. So our development plan became in response to those sorts of things.

Q And are you familiar with a project I'll refer to as the Shell Bay Golf Club, sir?

A Yes. It is S-H-E-L-L and new word B-A-Y.
So that's an -- it used to be the Old Diplomat Golf Club. It was part of the Diplomat Hotel. Sold off for development. Went through, probably, I would say, three iterations of development plans. And then we came to it and had a different notion of what would happen there. And we are right in the middle of building it today.

Q And sir, with regard to these one, two, three, four, five, six, seven, eight -- these ten or 11 jobs, have there been more over the years that you have been involved with as a developer?

A Oh, yeah.
Q Can you approximate how many?
A I mean, we probably -- in the entire course of our career, including Stellar Management?

Q Yes, sir.
A I could have been involved in 125 transactions.
Q And sir, during the course of those transactions, were you ever in a position to value the assets which you held?

Witkoff - by Defendant - Direct(Robert)
Page 4185

A Sure.
Q And did you have a view as to how you would value those assets?

A Yes. It differed, right, from asset to asset. But yes.

Q And generally how does a developer value an asset of a piece of property?

MR. AMER: Can I just ask for what purpose?
This expert is not an appraiser.
MR. ROBERT: I am going to be clear. He is not
an MII appraiser at all. In a moment I'll move him in as an expert to discuss how developers view value. He is not an appraiser at all.

MR. AMER: For what purpose though?
MR. ROBERT: It goes to the underlying issue of the intent.

MR. AMER: Value for what purpose? A tax donation, you know? You know I am just trying to understand what his testimony about valuing properties is in the context of. I think it is a fair point to understand.

THE COURT: Well, let me ask the witness.
Can properties be valued for different purposes? THE WITNESS: Yes.
THE COURT: All right. So let's go with that.

MR. ROBERT: Okay.
Q And sir, what are some of the examples of some of those different purposes?

A Well, I mean, I'll give you what I would consider to be a classic example. So in 1996 we bought 10 Hanover, which was owned by Leona Helmsley and was formerly the headquarters of Kidder Peabody.

So it was half a million square foot building. We paid $\$ 10$ million for that building, so $\$ 50$ a square foot. It is inconceivable, right, in this day and age that it would go for that price. But the game plan was either residential conversion or office deal. We did an office deal with Goldman Sachs that only had seven years of term attached to it. That would have a certain value. As -- and we were hoping that Goldman Sachs would extend that lease. They did not.

We then switched and converted it to an office -- to a residential property, and that would have a certain value. Depending on the then residential -- residential market and what you were going to get in rents; and it turned out to have a substantially higher value than what the Goldman Sachs than what it would have been valued at if the Goldman Sachs lease had been extended.

So that's an example of different values.
Q When you are looking at it from the standpoint of a developer looking at a building that you bought, what are some
of the things that go into your mind when you are deciding how to value that for your purposes?

A Those different opportunities to develop in that way: That it could be used as an office building; it could be used as a residential building; it could be used as a hotel. So all of those different -- and then figuring out, pragmatically, which way to go. And so all of those you would assign, in theory, different values to it.

Q And throughout the course of your career, you have done this on countless occasions?

A I would say to you that we uniformly think exactly like that on every deal that we do.

MR. ROBERT: I am going to get into some more specific questions, Your Honor, but at this time I move Mr. Witkoff in as an expert in how developers view value. And I'll ask him specific questions.

MR. AMER: I think he can be qualified as an expert in the field of real estate development. But I don't think there is a field known as real estate developer valuation. Valuation is the provision of appraisers. So like I say, I think he can be qualified as an expert in the field of real estate development and that's it.

MR. KISE: Your Honor, this is precisely part of the issue in this case and the heart of the case.

1 Valuation is not exclusively the province of appraisers,

Page 4189
Witkoff - by Defendant - Direct(Robert)
head of a pin here a little bit. He is an expert in real estate development. As part of that expertise, he has an understanding of how real estate developers value property. That may be a better way to frame it.

THE COURT: All right. So how about - I am trying to work this out.

MR. ROBERT: That's fine.
MR. AMER: We have no problem with him being qualified as an expert in the field of real estate development.

## THE COURT: Okay.

MR. KISE: And he can express his opinion as to value based on that.

MR. ROBERT: Correct.
MR. AMER: Subject to relevance objections and other objections that we may have. That's separate.

THE COURT: I hereby deem you an expert in real estate development. And yes, you can talk about value, but we will have to see how -- what the context is, et cetera.
Q So congratulations on being an expert Mr. Witkoff.
A Thank you. Thank you.
Q I want to go back to something you said earlier, you had originally met Mr. Trump when you had worked at your law firm, correct?

A Yes.
Q And at some point did you lose contact with him?
A Yes.
Q And at some point did you have new contact with him?
A Yes.
Q What were the circumstances surrounding that and when was it?

A Well, it was probably 1986. I was an associate working on a case. We were at 101 Park Avenue at the time. It had to be 3:00 in the morning, those were the days of those crazy hours. And he was -- I knew who he was. He didn't know who I was. And he didn't have any money with him and I was ordering from a local delicatessen for the people who were on my team. And he asked me if I would order him a ham and swiss sandwich. So that was the first time I met him.

Q And when was the next time you saw him after that?
A I might have seen him, you know, at the firm a couple of times after that before I left. But the next time was probably, I would say, six, seven or eight years later.

Q And what were the circumstances surrounding that, sir?

A I don't remember it exactly. I remember vaguely I was at a restaurant, walked up said hello, introduced myself. He actually remembered who I was, and remembered the sandwich incident. And we just, you know, had just developed a, you
know, a friendship as a result of it.
Q And how many years ago was that approximately?
A I would say that's 20 years ago.
Q And how would you describe your relationship with President Trump over the last 20 years?

A I would say that he has been a really good friend to me and my family, particularly after the death of my son. And so I try to -- I am a good friend of his right on back.

Q And sir, are you being compensated for your time to testify here as an expert today?

A No.
Q Okay. I am going to ask you a series of questions now, Mr. Witkoff, and I am going to ask that all of your opinions that you give, each one be within a reasonable degree of certainty as an expert as a real estate developer. Fair, sir?

A Yes.
Q Okay. So when you view real estate assets for value, what are you viewing them to be?

A I am sorry, can you --
Q Sure. When you are viewing real estate assets for what the value can be, what are the factors that are going into your mind when you are looking to do that?

A What the use is; how much money can be derived from that use; in other words, the return on investment. Those

1 are -- those are the -- those are the essential ingredients. 2 That's what undergirds an underwriting.

A So, we had to take it through all of those things. And today sitting there is, you know, a big hotel.

Q And is that something that would have gone into the thought process like when you acquired the Woolworth building and other properties?

A Yes.
Q And sir, you have heard there was a little colloquy with us and the Attorney General a moment ago about appraisals. Are appraisals something that are a factor when you are determining factor as a developer?

A I would say, yes.
Q In what fashion?
A I mean, they are a guide post. And often times appraisers get it right, but often times they don't get it right. I have plenty of examples of appraisers not getting it right. But appraisers do what they do. They have certain methodologies: Cash discounted, cash flow methodology; replacement value methodology. So they have different methodologies. But there are real life examples I have encountered in my 37 years where they don't get it right. They don't know the market well enough or what is trending in the marketplace.

## THE COURT: Hold on.

(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

THE COURT: Hold on. My mind is still turning about a question that I'm not sure you answered that we've really explored.

Is there a difference between present value and future value? For example, if a building has a certain use in a certain community, and normally you would think well, okay, it's worth a hundred million dollars, but you think that the neighborhood is going to just bloom, rents are going to go up, et cetera, so you think ten years from now it will be generating a lot more money, but so, my question is still, isn't this still present value? You are predicting how much cash profit it will throw off in the future, but all you could do is measure its value. Mind you, there's no such thing as present value as opposed to future value, but I would like you to educate me, if you can.

THE WITNESS: So it sounds like you are a little bit of a real estate person.

THE COURT: Well, I've gotten there.
THE WITNESS: No, but you're going through it and it's interesting.

Let me start -- I'll give you an example, current day example. We bought a piece of property in downtown Miami right next to the train station. So mass transportation in Florida is a huge deal, it's getting
congested on the highways down there, and this train going from Miami up to Orlando is a really, really big deal, we own those five acres there, and rents have moved since we bought those -- that acreage two and a half years ago, by $\$ 2$ a square foot. We are detecting the same sort of seismic rental moves in Miami as New York experienced in the mid 1990s.

We bought at $\$ 18$ million an acre. We are aware of multiple trades in the marketplace at $\$ 60$ million an acre. We are now looking for construction financing on the job because we own a very good site in a strong rental market, and we have an appraiser who came in and told us that the site is worth $\$ 20$ million an acre, not the $\$ 60$ million an acre that multiple sites -- multiple acres in the area have traded for.

So there is an appraiser who doesn't understand the rental market, doesn't understand the comparables of what has occurred in that marketplace. That doesn't make him completely wrong in his assessments. It just makes him wrong in this particular - in this particular example. And it happens, it does happen. He is not from Florida. He doesn't understand what is happening there. He doesn't understand how much migration is coming into the marketplace, and so it's hard for him to put the type of value on it.

Page 4197
definition of what estimated current value is under GAAP; is that correct?

A That's correct.
Q Following up on the Judge's questioning, so when you are looking at the value of something today, like you are looking at the Woolworth Building today, are you looking at the value of what necessarily just the rent rolls are generating today, or what can I do with the property down the road?

MR. AMER: Objection. Leading.
I think he we should just ask the witness what is he looking at.

THE COURT: All right. Stand on ceremony on that one?

MR. AMER: It's not background, your Honor. We are now into the meat of his examination.

THE COURT: You would have to ask him what he is looking at. Do you look at --

MR. ROBERT: I'll withdraw the question.
Q So when you are looking at a piece of property, for example, we'll take -- actually we'll make it easier. We are standing in the shoes of -- the Woolworth Building was when '97? A '97.
Q So let's pretend we are back in 1997 and you and your group are deciding to purchase the Woolworth Building for a certain amount of money. What is it that you are looking at in

Now, we went to two other appraisers who were much larger than him and their values are substantially higher than his. So appraisers do differ.

THE COURT: That didn't do the trick for me. Maybe for other people.

MR. ROBERT: I was going to ask it again of the witness. If you want to read back your original question, I think it's a good question.

THE COURT: My question was a bit meandering because it was not totally formed.

Let me ask this: Is it the case at that all real estate people understand what estimated current value means?

THE WITNESS: Yes.
THE COURT: What other values do you, as an expert developer, take into account?

THE WITNESS: I think we take into account where we see a market going. I think we take into account where we see rent growth going.

THE COURT: But then isn't that your version of estimated current value?

THE WITNESS: Yes, in that particular example, yes. THE COURT: Okay. Take it away.
MR. ROBERT: Thank you, your Honor.
Q And that's estimated current value to you as a
developer. You are not an accounting expert who could give us a
terms of the value of that building? Are you looking at in terms of the rent roll, or something else?

THE COURT: Okay.
MR. ROBERT: I'm sorry, I'll strike the last portion of my question. Sorry.
A We are looking at that moment what the rent roll is, what the cash flow is, and what we -- what the vacancy is in the building, whether we think we can lease office space in that building, in that vacant area, and at what price.

We are looking at what we think the taxes are going to go up to so we can formulate a view on net cash flow. And then we are looking at if we don't -- if we don't, um, have a healthy office leasing market, what are the alternatives to be done there. In that particular case it would have been hospitality or residential conversion of some sort multi-family rental or condominium.

Q When you testified earlier you used a phrase "exit plan" or "exit strategy." What was the phrase you used?

A Yes.
Q Which one, exit plan or exit strategy, or does it not matter?

A I said that we -- I said that we have -- well, I didn't say this, but I'm going to say it. That we -- the best deals are the ones that have multiple exit strategies.
Q And in your mind, is an exit strategy something that is

## Witkoff - by Defense - Direct (Mr. Robert)

Page 4199
only used in a bad case scenario or a good case scenario, or something in between?

A Well, I think exit strategies can mitigate bad outcomes, and so that doesn't always mean that you are going to always have a good outcome. But exit strategies can mitigate bad outcomes and enhance good outcomes because things change. I mean it's just what goes on. You could wake up one day and have an oversupply of hospitality in a New York City, and ten years later you have no construction that sector and now you have an opportunity to do a hospitality deal that may make sense in a particular building.

Q One of the things you spoke -- you were asked to be an expert about was a value associated with Doral, do you remember that, sir.
A Yes.
Q And sir, what were the factors that you thought about as to how Doral should be valued?

MR. AMER: Your Honor, I'm going to interject an objection on relevance grounds. I don't understand how Doral is relevant to this case. We didn't challenge the Doral valuation in any of the Statements of Financial Condition. And his view of valuing Doral today, as I understand he is being asked about, can't possibly have any relevance.

I think they are going to argue that somehow Doral
was undervalued in the past, and that therefore I guess you can set off the amount that they undervalued Doral against inflated values for other assets like Seven Springs, or the cash; that's just not a nonsensical argument, your Honor. I don't see how Doral is in this case at all.

THE COURT: Mr. Kise.
MR. KISE: I'm just going to pause a second in case you plan on ruling in my favor and I don't have to say anything. So --

THE COURT: Slim chance, but.
MR. KISE: So, indeed.
So Mr. Amer anticipated, in his usual fashion, precisely at least part of our point. So I think your Honor will recall, from at least the directed verdict discussion, the most recent discussion of this subject, but throughout the course of these proceedings, this whole concept, this word, this materiality word, and fairly presented words, these words that are not necessarily built into every statutory claim, but they are certainly built into the actual certifications and guaranties that were signed. Those words cannot be read out of those documents. "Fairly presented", "material." So the purpose of the guaranty is not to, and the purpose of the certifications, in our view, and I think -- not only I think, is it correct, I think it's supported by the documents themselves, it's not to say that

1 every single number is precise down to what the Attorney

General thinks it should be or what your Honor thinks it should be, or what anyone in this courtroom thinks it should be. It's that overall, the financial position of the guarantor is fairly presented.

So, yes, it is highly -- it is extraordinarily relevant if there are assets that are undervalued, particularly substantially, on those same statements, well, then, okay, then that does go to offset values that are maybe overvalued in your opinion or their opinion. They can't look at this one sided. You can't take a Statement of Financial Condition and say I only want to look at the things I think are wrong with it. No, you have to look at the picture, financially, as a whole. That's exactly what the documents themselves say. And materiality is viewed in -- through that lens. And you are going to hear more and more testimony about that.

So to the extent that some of this that we are talking about needs to be subject to connection, I can represent to you that that connection is going to be made, perhaps even with the next witness. But the idea that we just ignore things that they didn't challenge because they are somehow irrelevant, they don't get to pick cherry pick like they did in their complaint.

We now get to present the Court the full picture.

1 The Court will weigh what it views of the full picture, but 2 we certainly get to present what the full picture of Donald
3 J. Trump's financial condition was during these various 4 periods, and whether or not, as presented holistically,
there was any material defect, or there was any failure to fairly present his financial position.

So I think it's highly relevant, these different values. And this witness is just one small piece of the puzzle, but I don't see any basis that it doesn't come in on relevance, because they, by their filings, by -- as the paragraphs that I put up during the directed verdict where they got materiality, materiality, materiality. I mean, it's just over and over. It must be 50 mentions of it. By the very documents that are at issue that are claimed to be false. The certifications; that language is used. Fair presentation is used. All of that brings into full view of the Court for its analysis the overall financial picture, not just the pieces that they are challenging.

So they don't get to say it's irrelevant because we didn't challenge it. No, everything about the Statement of Financial Condition is now on the table.

THE COURT: So give me a second. It's your position, is it your position that if a Statement of Financial Condition lists two properties and turns out, or it's decided -- I decide that one is overvalued by $\$ 300$
million and one is undervalued by $\$ 300$ million, that the -it balances out and therefore there's no misstatement, fraud, whatever you want to call it.

MR. KISE: Okay. So let's separate, because I think this --

THE COURT: That's a yes or no question.
MR. KISE: Yes, the answer is yes, that our position is that. And if I can explain why.

Let's separate out where we were and where we are, because I think this is an important distinction, because everyone is running around saying "Fraud, fraud, fraud, fraud. This is fraud." No, that has not been decided yet. What's been decided by this court is --

THE COURT: Wait a minute.
MR. KISE: Let me finish, and you'll understand what I'm saying, please.

THE COURT: Sure.
MR. KISE: What has been decided by the Court is a violation of 63(12), but as your Honor knows, and we disagree with one of these pieces, but I'll go through all four. As your Honor knows fraud, fraud, in the traditional sense, in the understanding of the law, requires intent, materiality, reliance and damages, all four. None of those four, including materiality, which we argued about, but you disagreed with, respectfully, none of those four have been
decided. There hasn't been any decision that there's intent. There's no materiality determination, no reliance determination, no damage and no harm determination.

THE COURT: You are leaving out one thing, traditional fraud. There was a fifth, scienter, that they knew the person.

MR. KISE: Intent. I'm incorporating that in the concept of intent. Yes, your Honor, you are correct. Scienter, intent. I'm merging those concepts, and perhaps legally they should be segregated.

But the point is that fraud hasn't been
established. So a misstatement under 63(12) is not necessarily fraud, other than the colloquial expression of it the way it's framed under the statute, but there is a big separation in the law and a big material separation in the law, if I could use that word, between a 63(12) violation freestanding, and actual fraud, fraudulent intent. That's what these predicate statutes that they are relying on --

THE COURT: I'm sorry. I'm going to have to cut you off.

MR. KISE: All right.
THE COURT: I'm not looking for a speech. And you said you were going to answer my question.

MR. KISE: I did.
THE COURT: You did. You said, "Yes", you think it
S. Witkoff - by Defense - Direct (Mr. Robert)

Page 4205
balances out, therefore it's okay.
MR. KISE: In this context, yes. In this context it does.

THE COURT: Let me ask the Attorney General side. Do you agree with my -- by the way, I keep thinking of the person that's standing on a stove with one foot, and a block of ice with the other, and says, "I feel fine. It balances out."

Attorney General, do you think they balance out?
MR. AMER: Of course not. Your Honor, that's nonsense. I mean, are they going to put Mr. McConney on the stand to say, "in 2015 I fraudulently inflated", you know, value $X$, but it was okay because --

THE COURT: Hold on one second. I'm going to ask that the witness be excused again. There's a nice room back there for you. Try not to be --

MR. KISE: We probably should have done that.
THE COURT: There's no food or anything, but this isn't an office.

Sorry to interrupt.
MR. WALLACE: That's okay.
THE COURT: Let's go back to "it's nonsense", whatever you call it.

MR. AMER: This is nonsense, the idea that Mr. McConney is somehow going to testify that he didn't

1 intend to fraudulently inflate, say, Seven Springs by ignoring appraisals, or, you know, the cash value by including Vornado cash because he knew in his mind, seven years later in 2022, Doral was going to be worth 1.3 billion, and therefore it all comes out in a wash. I don't know what that is. That's -- that makes no sense, your Honor.

You can't take the 2022 value of Doral and somehow retroactively apply it years earlier to somehow wash everything away in terms of what your Honor has already found are fraudulently inflated values.

And I should make a further point, that it's clear in the First Department, "You cannot use expert testimony to establish intent." This is a quote from People v. Davis, 90 AD3d 461. It's a 2011 First Department case.

The expert's proposed testimony had no genuine bearing on whether defendant acted intentionally within the meaning of Penal Law section --

THE COURT: Mr. Amer, I'm going to cut you off, too. We are going very far afield here. I'll ask a different question, more related. Does anyone have authority for the proposition that his financial statement, any sort of Statement of Financial Condition, is not fraudulent if one property is valued way high and another property is valued way low.

## MR. AMER: No, your Honor --

THE COURT: This seems ridiculous to me, but Mr. Kise, if you have authority, or even a logical argument --

MR. KISE: The logical argument is exactly why we are here, for you to decide -- and I hope that your statements don't indicate you've already made up your mind on this, because that's exactly why we are here, is to talk about intent.

Mr. Amer is presuming that intent exists; that hasn't been established.

THE COURT: Wait. I cut him off because he was talking about intent. I'm not interested in intent here. I'm just interested --

MR. KISE: It goes to your question, respectfully. It goes right to your question, that in order to --

THE COURT: I'm the one asking the question. I should know what I mean by it.

MR. KISE: So --
THE COURT: Go ahead.
MR. KISE: So, your Honor, the point is that in order to establish materiality and intent through the lens of the user, or the lens of the preparer of the statement, you have to consider all of these factors. And so it's not -- it's not a light switch. This is what the Attorney

1 General wants you to believe, that there's one right answer,
and it's a light switch, and it's either on or off. And respectfully, that's not what the accounting standards provide; that's not what the law provides; that's not what the analysis of materiality provides. So the cases, yes, there's tons of cases on what is materiality and what's material in a particular given context.

And so the total mix of information of available to the reasonable viewer is exactly why we are here. And what you are talking about goes to that, the balancing out of the numbers. The bank, as you heard testimony, the bank is interested in what? They are interested in, do I get paid back? And, do I price this loan correctly?

Now remember, at the outset, when you make -- you price a loan, they price it from the beginning. As the collateral increases in value, there is no ongoing mark to market activity.

Based on Attorney General's view, as the collateral increases in value, the interest rate should drop. I mean, you'll here testimony about this, so I'm going to stop there, but the point is, you have to take all of this into consideration. And so factors as relative to whether an offset matters is at the core of the dispute.

He can argue, Mr. Amer is arguing very well, his position that it doesn't matter, but that's an argument;

MR. KISE: The Blackstone case is completely inapposite for a whole host of reasons I'm not going to spend time on. It's in a securities context, a totally different context. I'm not going to belabor it, since you've already sustained the objection without actually hearing from all of the evidence that you are going to hear, but nonetheless, the point is, we should be allowed to establish what "materiality" means to the user. And you are presuming, I think incorrectly, based on the evidence that's already been brought into this courtroom, that your view of what is and isn't material and whether it has to be exactly accurate here, exactly accurate there, is incorrect; that's not what the banks told you.

Their own analysis that I put up on the board, you you've seen a hundred times, and no one wants to pay attention to, says that they, in fact, did this analysis, and they came up with their own values to show there are vagaries.

The fact there are three different numbers in this courtroom alone demonstrates our point. You got their number, you got our number, and you got the banks number, all about the same set of assets. That alone should tell the Court that there are extraordinary variations, and no one is absolutely correct, and so it's not possible to say that mine is fraudulent and theirs isn't just because
S. Witkoff - by Defense - Direct (Mr. Robert)

Page 4209

1
that's not evidence. And the Court should consider the evidence.

MR. AMER: Your Honor, I do have a case for you. It's Litwin versus Blackstone Group, LP. It's a Second Circuit case 634 F3d 706. This is what it says at 713:
"Blackstone is not permitted, in assessing materiality, to aggregate negative and positive effects on its performance fees in order to avoid disclosure of a particular material negative event."

I think that's exactly your Honor's point.
THE COURT: Yes, it is. And it does answer, unless there is contrary authority.

And one way I would explain that to answer my own question is the reader of the financial statement has a right to know whether each particular number is accurate, and doesn't have to say, well, this could be a little high; this could be a little low. They are looking for accuracy.

But last word to Mr. Kise, and let's proceed.
MR. KISE: Your Honor, again.
THE COURT: And the objection is sustained, of course. It doesn't even matter that it was a 2022 value of Doral. Any value of Doral. That doesn't - it's a false valuation. I assume you agree.

MR. AMER: We do.
THE COURT: Go ahead.
S. Witkoff - by Defense - Direct (Mr. Robert)

Page 4211
1 someone happens to think so.
THE COURT: Well, I think you are wrong for two reasons. One, which I keep calling in the internal inconsistency, is you look at how somebody got to a value, and if they are ignoring restraints on the use of property; that's fraud.

And you are wrong in another way, and I asked one of the -- you are not on trial, of course, but still, I asked one of the witnesses, "Well, you say valuation or appraisals could differ."
"Yes."
"By what percent?"
"Well."
MR. KISE: Huge percents. You are going to hear about it.

THE COURT: How huge?
MR. KISE: Huge percent.
THE COURT: How huge?
MR. KISE: The tax assessed value versus what a broker thinks, hundreds of millions of dollars, potentially. Exactly what your Honor put in your opinion. You are going to see ASC-274 allows either one of them, either one. I could take the tax appraised value for tax purposes and use that for my standard, or I could take a broker opinion value, or a sales comparable method. They could vary by

1 hundreds of millions of dollars, exactly what we have in this case. You have Mar-a-Lago that is assessed for $\$ 25$ million, or $\$ 30$ million, whatever the number is, and then you have an appraised value, you have a broker opinion value, you have a sales comparable method of value, and, yes, those vagaries can be extraordinary. And guess what? They are all permissible under the exact letter of ASC-274.

I know the Attorney General doesn't want to hear that. I know they want it say there is only one right answer, and it must be their answer, but that's not correct. That's just simply not the standard in accounting. It is just not.

THE COURT: You are comparing apples and oranges, you know tax assessor value versus real estate broker value.

Let's say we are talking just real estate brokers, or just appraisers, how different can they be? Can we get a percent?

MR. KISE: Again, ASC-274 doesn't say that you have to pick one and stick with it. This is the whole point that's being missed here. You have five or six different ways to value property, any one of them is correct. Any one of them is correct. It gets you to estimated current value. And anyone of them can be used for any given property. Not to use the same one for every property.

This is already -- you are going to hear about this S. Witkoff - by Defense - Direct (Mr. Robert)

Page 4213
today and tomorrow. This is point that they want you to overlook, that their entire case overlooks; that they have the absolute truth. Their opinion is there is only one right answer, within a range that they define, but that's just simply not true. It's just not.

THE COURT: I've said many times, I'm not here to appraise or value properties. I'm here to look at the statements and see whether they are fraudulent or not.

MR. KISE: But the only way to determine that is to view them through the lanes of the applicable guide lines, and you can't say something is fraudulent if it comports with the actual guideline. It's not possible to say that.

MR. ROBERT: Your Honor --
MR. KISE: That's their position. I mean, it's lunacy to say that, okay, you have to use this value, and that's the correct value, but you've got these five other options and, you know, you are not allowed to use any of those. They could argue all they want against the standard, but it's there on the page.

MR. ROBERT: Your Honor, to answer your question about the appraisal, you heard testimony there were three Cushman \& Wakefield appraisals of 40 Wall Street. I think it was 2011, 2012 and 2014, and there was a $\$ 200$ million variation -- I think it was a quarter of a billion dollar variation between 2012 and 2014. Cushman \& Wakefield did

1 the same appraisal on the same property, and everyone 2 agreed, it didn't all of a sudden go up by a quarter of a 3 billion dollars. There are different appraisals. And the 4 testimony was none of them were wrong. But there, itself,
appraisal to appraisal, you had a quarter of a billion dollar delta over two years.

MR. AMER: That's wrong. Your Honor already ruled. Can we move on.

THE COURT: Let's move on.
MR. ROBERT: I want to understand the ruling. What am I not allowed to ask this witness about?

THE COURT: Doral. Doral is not in the complaint.
MR. ROBERT: So the Court --
THE COURT: And the case, what was it that you just cited?

MR. AMER: Litwin.
THE COURT: Says that it's not okay to overvalue one property and undervalue another because they balance out.

I'm not sure what else you are trying to do, other than say that Doral was undervalued, so it's okay that they overvalued other properties.

MR. ROBERT: So, your Honor --
MR. KISE: Just to be clear. Just to be clear, we are not allowed to ask questions, and you're citing to a
S. Witkoff - by Defense - Direct (Mr. Robert)

Page 4215
case that you clearly haven't even read yet. You haven't read it. You are taking their word it.

THE COURT: It's common sense anyway.
MR. KISE: It's not common sense. Respectfully, it's not. I want the record to be clear on that.

THE COURT: I'm waiting for the counter authority, the reversal, the disagreement.

MR. KISE: I can't do it while I'm standing here. And I've articulated at least three reasons why it's inapposite. You haven't read it at all and you are making a decision based on it. I want the record to be clear.

THE COURT: I think he quoted it; right?
MR. AMER: I did, your Honor. Plus, honestly, the Doral argument was made in opposition to our summary judgment motion. Your Honor implicitly rejected it then. So it's not -- they've known about this point for months.

MR. KISE: Your Honor, the Doral --
MR. AMER: Can we please not have never ending motions for reconsideration when they lose an evidentiary ruling. We've been at this for many, many minutes here.

MR. KISE: I'm very concerned about time, your Honor.

The Doral loan is in the complaint. To not ask about Doral valuations or the impact of that, it just makes no sense at all. But, you know, it's --
not that I'm inclined to. Let's either get a read back of

Page 4217
the question, if you could find it, or consider it withdrawn and just ask it however you want to ask it.

MR. ROBERT: Let me see what the question was that drew all the objections.

MR. KISE: One other point, your Honor. I mean, I just want to say that since the witness is a Wheatley grad, he probably should be allowed to testify as an expert on that basis.

THE COURT: I knew I'd hear back about that.
MR. ROBERT: If I could have the question read back your Honor.
(Whereupon, the requested testimony was read back by the court reporter.)

THE COURT: You have to ask for a specific time period.
(Continued on the next page.)

THE COURT: You know what, let's see if we can all agree past, present doesn't matter. Though I think it is a misleading question. Can this witness be asked what are the factors you used to value Doral?
Q As an expert real estate developer, what factors would you use to value Doral?

THE COURT: Why is that relevant?
MR. ROBERT: Because you will hear the factors he uses are different than an appraisal might be, and may be different than a value that the Attorney General places. And that all goes back to the issue of intent. Because, if the goal was to fraudulently inflate the values on the Statement of Financial Condition, every asset would have been inflated. Our client's had a view of how to put a value on it.

You are going to hear from an expert that the view that we used is consistent with that which people who are real estate developers would use. And that dovetails with the expert testimony you are going to hear from the accounting people, that that would be appropriate under ASC 274. So this is one of those building blocks that ultimately leads into the accounting experts.

THE COURT: Why can't you just ask him how -what factors he would use to value a property, that the value of which does matter at this point: Forty Wall,

## Trump Tower?

MR. ROBERT: Because they would object that during his expert deposition, all they questioned him about was Doral and 40 Wall. I am happy to ask him about what he put into Trump Tower.

MR. AMER: Those were the only two opinions in his report. But Doral is not in the case, as Your Honor has already observed. So I don't know why we are eliciting an opinion or any factors about Doral. It is not in the case.

THE COURT: Right. No more argument.
Let's bring the witness back. The objection is sustained.

You can go ahead, but I will probably sustain objections to any questions about the value of Doral. You have a lot of properties that you can ask him about since you are only asking generic questions at this point. Let's make it generic or about a property that matters.
(Whereupon the witness resumed the stand.)
MR. ROBERT: May I proceed, Your Honor? THE COURT: Please do.
Q Mr. Witkoff, in your experience as a real estate developer, what are the factors that you would look at in valuing a golf course property for its potential use?

A The cash flow of the property.

MR. AMER: Excuse me. I am going to object because this witness offers no opinion about golf courses, so I don't see how it is relevant.

MR. ROBERT: He gives an opinion as to one specific golf course that I have been directed I can't ask about; so I am asking generally about golf courses. There are golf courses at issue in the case. I am taking the Judge's advice.

MR. AMER: But the witness has submitted a report. It has two opinions: Doral, which the Judge, Your Honor, sustained objections to. And 40 Wall. So we are left with 40 Wall. So I don't see how factors about golf courses are relevant.

THE COURT: I'll ask again. Are you sure you want to risk a reversal? Because I didn't allow this question.

MR. AMER: So, Your Honor, we really have no concern that for Your Honor to exercise your broad discretion to keep out expert testimony that is clearly irrelevant to this case on -- and quite frankly, you know, based on matters you have already decided in your summary judgment motion, we have no concern about this. We need to draw a line and apply the fundamental rules of evidence and keep out things that are irrelevant. Particularly where it relates to expert witnesses where Your Honor's

Page 4221
1 discretion is even broader, quite frankly.
MR. KISE: So, once again, the Attorney General wants to collapse and conflate.

## THE COURT: That's a bad word.

MR. KISE: As I have said before, the Attorney General wants to collapse and conflate the summary judgment with their responsibilities and their burden under these other statutory predicates.

That's what they are doing. And they want to ignore all of that and say you have decided all of this, you don't have to worry about this. We need to limit this trial. It is over. It is done. And so I -- I don't think they expressed any valid basis for that limitation.

With respect to this witness, he is -- you said that he can answer questions generally about the subject matter that is at issue. And so now that's what we are asking him just in general terms. Because for some reason even though the Doral loan is the center piece of their complaint be and the Doral property is a big portion of the Statement of Financial Condition we are not allowed to talk about it. So if we are not allowed to talk about that, then we should be allowed to at least have this expert's opinion on generally what are the factors that developers consider when they are determining value in their minds. That goes squarely to intent. Squarely.

THE COURT: Plaintiff, do you object to a generic question. I think he probably answered that.

MR. AMER: I was just going to say, that wasn't the question.

THE COURT: Objection sustained for the reasons Mr. Amer said, without prejudice to general question, although that may be subject to an asked and answered objection.
Q Mr. Witkoff, generally, what are the factors that a developer looks at when determining the value of a piece of property?

A Cash flow, and what can be done with that property.
Q Cash flow is income and expenses, fair?
A Correct.
Q What do you mean by what can be done with the property?

A What it can be redeveloped into.
Q And what are those potential options, generally?
A We are talking about --
Q I am instructed to ask you generally, sir. So the entire gamut.

A Anything within the real estate spectrum. It could believing multi-family rental buildings; condominium; hospitality; industrial; all the -- last mile retail for, you know, for Internet-related businesses. It is all of those

Witkoff - by Defendant - Direct(Robert)
Page 4223
different things.
Q Okay. Based on the Court's direction I am now going to move to 40 Wall Street, Mr. Witkoff. Okay?

A Yes.
Q What are the factors that you, as a developer, would like at in determining a value for 40 Wall Street?

A Again, cash flow, what vacant space can be leased for and what other uses could be incorporated into the property.

Q How, if in any way, is location a factor with regard to 40 Wall ?

A I am sorry, location is a big factor in all of those -- in all of those decisions.

Q And anything in particular as to 40 Wall in that?
A Well, Wall Street is a -- is Main and Main for downtown. Downtown has -- because of the downtown revitalization plan has become a 24 -hour live/work environment. Housing has increased in price. I would say rental prices down there are probably the equivalent of almost anywhere in New York today. And condominium prices are firm too. So 40 Wall as a location for a potential conversion would be relevant.

Q You have experience in converting office buildings to condominiums?

A We have done it often.
Q And I think you talked about the Woolworth building being one of them?

```
    A Yes.
    Q Any others in lower Manhattan?
    A Ten Hanover.
    Q Are you familiar with ground leases?
    A I am.
    Q A long term ground lease?
    A Yes.
    Q Generally speaking, what is a long term ground lease
in this context?
    A I mean generally speaking, it is a form of ownership.
But generally what you are finding with long term ground
leases, very prevalent in London and in Europe and, sort of,
not as prevalent in the United States, but you are seeing - it
is generally used to defray taxes, to -- I am talking about
long term capital gains taxes -- to transfer money through
skipping generation Trusts. And it is a form of ownership.
And you generally see passive owners who own who are the ground
lessors or who own the fee.
    Q I want you to assume for a moment, sir, there is
testimony in this case that one of the provisions of the ground
lease requires the Trump Organization to get the landlord's
consent to convert any portion of the building to condo. I
want you to assume that, okay?
    A Yes.
    Q Does that in any way affect your opinion that value
```

Page 4225
for 40 Wall could include the fact that there could be an
ultimate conversion to condo?
A I mean, it would be an obvious constraint. Anything
that would require an additional approval would be a
constraint. But certainly not something that couldn't be
overcome, because of the fact that ground lessors are passive,
and every decision they are going to make, which is generally
going to be about what is the best use here, how much does that
strengthen the financial cash flow of the property, which then
strengthens what my ground lease is worth.

MR. AMER: Your Honor, I am going to object and move to strike his answer as to what ground lessors -- the fact that they are all passive. I don't understand how this witness has the ability to opine on all ground lessors and whether they are passive or not.

THE COURT: Is that part of your expertise, what most ground lessors would be concerned with?

THE WITNESS: Yes --
THE COURT: Yes or no, is that part of your expertise?

THE WITNESS: I mean, I am generally familiar, Your Honor.

THE COURT: Overruled.
MR. AMER: He did say "all" not "most."
MR. ROBERT: I'll adopt it to most instead of
all.
THE COURT: We will assume most.
Q Mr. Witkoff, with regard to developing condominiums in lower Manhattan, what, if any, advantages or disadvantages are there to existing structures, like converting from office to condo, than starting from scratch?

A Well, sometimes -- I mean, sometimes starting from scratch perhaps can be a little bit more efficient. But with regard -- I would say in any conversion you really need to understand the depth of the building. For instance, the Woolworth building, the tower was a perfect conversion because you didn't have a lot of depth. So from the elevator bank to the window wall you didn't have a lot of depth. So you are looking for a tower portion to be converted. You are looking for buildings that have towers and bases. Woolworth had a much larger base and a slimmer tower. I think 40 Wall Street is sort of that, but a bigger version of it.

MR. ROBERT: Your Honor, this may be a good time to take the morning break, because in light of your ruling a few moments ago, we may be able to streamline things. I know we are ten minutes earlier than usual, but I think it will be more efficient long term.

THE COURT: Let's reconvene at 11:30.
MR. ROBERT: Thank you, sir.
THE COURT: And I'll direct the witness, don't

A Good morning.
Q You are not an appraiser, correct?
A Correct.
Q And you are not equipped to appraise properties or offer any specific opinion of value, correct?

A Correct.
Q And in forming your opinions, did you review any of Donald Trump's Statements of Financial Condition from 2011 to 2021?

A Not specifically.
Q Well, not at all, right?
A Well I was aware of them, so.
Q You didn't review any?
A No. No, I did not.
Q Correct?
A Right.
Q Okay. I'll ask you about 40 Wall Street.
In forming your opinions about 40 Wall Street, did you review the ground lease for that property?

A No.
Q When forming your opinions about 40 Wall Street, were you aware that the ground lease had been amended over time based on renegotiations between Mr. Trump and the landlord?

A No.
Q When forming your opinions about 40 Wall Street, were
you aware of whether there were any restrictions in the ground lease on the ability of Mr. Trump to do a residential conversion?

A No.
Q Does your opinion -- do your opinions on 40 Wall Street rely on any facts contained within the actual ground lease documents for the property?

A No.
Q You would agree though that those facts would be relevant to the opinions you formed about 40 Wall Street, correct?

A Yes.
Q Did you ever ask to see any of the ground lease documentation for 40 Wall Street when forming your opinions?

## A No.

MR. AMER: If we could put up Plaintiff's
Exhibit 635 in evidence?
Q And this is an e-mail that attaches something known as the fourth loan modification.

MR. AMER: If we could go to page three of 89 ? And let me wait for you to get a copy. (Handing)
Q You will see there are page numbers on the very bottom that say page $X$ of 89 . So let's go to page three of 89 .

And you will see it says it is the résumé of the
fourth modification of ground lease on 40 Wall Street. And it says: This résumé presents a brief summary. Do you see that?
A Yes.
Q And the date of this is December 31, 2007. Do you see that?

A Ido.
Q And if you go to the next page you will see paragraph four. It says, paragraph four, under condominium conversion right it says: Paragraph four eliminates the tenant's condominium conversion rights which it had under section 27.09. Do you see that?

A Ido.
Q So in the negotiation in December 2007, this particular ground lessor negotiated to eliminate Mr. Trump's condominium conversion rights, correct?

A Yes.
Q And based on your --
MR. AMER: We should just go to page nine of 89.
Q You will see in paragraph four it says: Section 27.09 of the lease is hereby deleted in its entirety.

That was the section that was just referenced as having a conversion right in it. Do you recall that?

A Yes, I do.
Q And paragraph five says: In consideration of the
elimination of section 27.09 of the lease, landlord and tenant agree that if the future tenant is of the opinion that the area and times favor the construction of residential units, which may be condominium units, and tenant desiring to create a residential condominium for the sale of units to the public, tenant may propose revision of the lease to permit the conversion to condominium ownership for the sale of such residential units; provided, however, that in no event shall landlord have any obligation to agree with or take any action to effectuate such condominium conversion, and landlord's determination to permit any such conversion shall be at landlord's sole and unfettered discretion. Do you see that?

A Ido.
Q Based on your years of experience as a redeveloper, would you agree that any consent by the landlord to permit residential conversion under this paragraph would likely come at a cost to Mr. Trump?

A Yes.
Q And in forming your opinions on 40 Wall Street, you have not done any analysis of what that cost would be, correct?

A Correct.
Q Let's look at Plaintiff's Exhibit 787 in evidence. This is the 2011 Statement of Financial Condition. And I think your testimony is you are aware this existed, but you didn't review it in connection with forming your opinions, correct?

|  | off - by Defendant - Cross(Amer) Page 4232 |  |
| :---: | :---: | :---: |
|  | A Correct. |  |
| 2 | MR. AMER: And let's go to page nine of 22. |  |
| 3 | Q You will see that the top note relates to the |  |
| 4 | valuation of 40 Wall Street. Do you see that? |  |
| 5 | A Yes, I see in the third paragraph. |  |
| 6 | Q And prior to being shown this note at your |  |
|  | deposition, you had never seen it before, correct? |  |
| 8 | A Correct. |  |
| 9 | Q And I am correct then that you did not consider this |  |
| 10 | note in forming your opinions about 40 Wall Street, yes? |  |
| 11 | A Correct. |  |
| 12 | Q And would you agree with me, looking at this note and |  |
| 13 | specifically the third paragraph that talks about the estimated |  |
|  | current value, it discusses a cap rate applied to the result |  |
|  | and cash flow to be derived from the building's operations, |  |
| 16 | correct? |  |
| 17 | A Yes. |  |
| 18 | Q Looking at this note now, would you agree that there |  |
|  | is nothing in the note indicating that Mr. Trump was valuing 40 |  |
| 20 | Wall Street based on a potential residential conversion? |  |
| 21 | A This paragraph doesn't indicate that. |  |
| 22 | Q Instead, it says the value is based on cap rate and |  |
| 23 | cash flow from the building's operations, right? |  |
| 24 | A I see that, yes. |  |
| 25 | Q Okay. |  |

Witkoff - by Defendant - Cross(Amer) Page 4233

MR. AMER: That's all I have, Your Honor. THE COURT: Okay.
Any redirect?
MR. ROBERT: No, Your Honor. Thank you.
THE COURT: Thank you. The witness is excused.
(Whereupon the witness stepped down from the stand.)

THE COURT: Defense, would you like to call your next witness?

MR. ROBERT: The defense will be calling Jason Flemmons who is in the other room, Your Honor. This is as good a time as any to talk of scheduling issues, because when we gave the schedule for the next few days we expected there to be more fulsome cross examination. It is fine they don't want to do it, but we want to get a sense of what their anticipated schedule is the next few days with the cross, because we emailed them last night, we will call Mr. Collins after Mr. Flemmons before Laposa. We want to understand time they need, because Mr. Wallace made a comment when you give us a schedule, don't include the time we use for cross. We want a sense so we can have our experts lined up and not have any down time.

THE COURT: rll turn the proceedings over to my principal law clerk who is the master scheduler.

MS. GREENFIELD: Next we have Mr. Flemmons, that's your next witness today, correct?

MR. ROBERT: Correct.
MS. GREENFIELD: How much direct do you believe you have?

MR. ROBERT: Probably at least a full day, like the rest of the day and half day tomorrow probably.

MS. GREENFIELD: Just on direct?
MR. ROBERT: Mm-Hm.
MS. GREENFIELD: Okay.
Cross?
MR. WALLACE: Our expectation would be that it would still be short, but I guess we will hear what we hear over the next full day of direct examination. But I do not expect that it will be anything approaching a full day.

MS. GREENFIELD: Okay. So once we are done with Mr. Flemmons it will be Mr. Collins. So he will be available tomorrow just in case we finish Flemmons tomorrow?

MR. ROBERT: Correct.
THE COURT: And how long is your direct of Mr. Collins?

MR. ROBERT: That we can check during the next break. I'll check with Ms. Hernandez, who is doing that

Page 4235
direct.
MS. GREENFIELD: Why don't we revisit that at the next break then.

MR. ROBERT: Okay. When you talk about Flemmons; do you think a half day?

MR. WALLACE: I would -- if I was just imagining I would say maybe an hour. But if it is so extensive it covers a full day, it could be a couple of hours, somewhere in that range would be our expectation. We will hear what the witness has to say.

MR. ROBERT: Okay. We will let you know at the next break for the next witness.

THE COURT: Okay. Is the witness out there?
COURT OFFICER: Yes. Are you ready for the witness, Your Honor?

THE COURT: Yes.
COURT OFFICER: Witness entering.
(Whereupon the witness took the stand.)
COURT OFFICER: Please raise your right hand.
JASON FLEMMONS, after having
first been duly sworn was examined and testified as follows:

COURT OFFICER: Please have a seat. Please state your name and either home or business address for the record.

```
                    THE WITNESS: My name is Jason Flemmons.
            Home address, is that what you asked me?
            COURT OFFICER: Home or business.
            THE WITNESS: Home or business. Business is
        2000 K Street, Washington DC.
            THE COURT: We like to get a zip code in case we
        want to send you mail.
            THE WITNESS: I believe it is 20006.
            THE COURT: Okay. Mr. Suarez, please proceed.
DIRECT EXAMINATION
BY MR. SUAREZ:
    Q Mr. Flemmons, good morning.
    A Good morning.
    Q My name is Jesus Suarez. I represent certain of the
defendants in this case.
            Mr. Flemmons, what is your area of expertise?
    A Well, broadly speaking, I am an accounting expert;
    also an expert with professional standards that are attached to
    accountants' professional responsibilities and practicing as
    accountants serving as auditors and the like.
            MR. WALLACE: Your Honor, I am going to note my
        failure to object to the description of Mr. Flemmons as an
        expert. I am keeping an open mind until we get his
        background and they can qualify him.
            THE COURT: I am assuming they are not asking to
```

                            Page 4237
    qualify him right now.
    Q Mr. Flemmons, where did you study in college?
    Flemmons - by Defendant - Direct(Suarez)
Page 4237
1 qualify him right now.
A I attended the college of William and Mary.
Q What was your major?
A I majored in accounting.
Q And what course work did you do in accounting in
college?
A Well, I took many very intensive accounting courses;
also auditing courses, business law. Those are the ones that
come to mind at the moment.
Q And what did you do after college?
A So after I graduated I was highered by
Pricewaterhouse; legacy Pricewaterhouse, before the merger with
Coopers and Lybrand. Went into the audit practice at
Pricewaterhouse performing financial statement audits for
public and private companies. Had many many different kinds of
audit clients that covered many, many industries. And that
entailed performing audit work and working with broad audit
staff and partners to ultimately sign off on the fairness of
the presentation of the financial statements in issuing audit
reports.
I was also involved in performing compilations while
I was at Pricewaterhouse.
And shortly thereafter I did transfer into the
forensic accounting practice at what became then

Q And what did you do after college?
A So after I graduated I was highered by
Pricewaterhouse; legacy Pricewaterhouse, before the merger with Coopers and Lybrand. Went into the audit practice at Pricewaterhouse performing financial statement audits for public and private companies. Had many many different kinds of audit clients that covered many, many industries. And that entailed performing audit work and working with broad audit staff and partners to ultimately sign off on the fairness of the presentation of the financial statements in issuing audit reports.

I was also involved in performing compilations while I was at Pricewaterhouse.

And shortly thereafter I did transfer into the forensic accounting practice at what became then

Pricewaterhouse Coopers.
Q Mr. Flemmons, at some point did you become a certified public accountant?

A Yes, I did.
Q When did you become a certified public accountant?
A Approximately 1997.
Q And in what jurisdictions are you licensed as a certified public accountant?

A In Virginia.
Q What did you have to do to become a certified public accountant in Virginia?

A Well, I had to meet the requisite college credit hours, which I did at William and Mary. There was also, I believe, a two-year experience requirement. And also had to sit for the CPA exam and pass the exam. And was licensed shortly thereafter.

Q Are you still licensed as a certified public accountant?

A I am. And I have maintained my continuing professional education to maintain my license.

Q When you joined Pricewaterhouse, what was your title?
A Well, it was my first job out of college, so it was a staff accountant or staff auditor.
Q What was your responsibility as a staff accountant or auditor?

Flemmons - by Defendant - Direct(Suarez)
Page 4239
A That entailed, again, working on the detailed work on a variety of different audit engagements. I worked on many many different engagements, ranging from the Washington Post to the World Bank, many other financial institutions. I did spend time when I was at PW in Madrid, Spain; did a tour of duty there performing a lot of banking audits there for a lot of the subsidiary branches of major international financial institutions.

But the detailed work itself involved performing the audit testing, coming up with the audit programs that we would develop in order to carry out the auditing procedures; obtaining the audit evidence; reporting up the chain our findings to ultimately the engagement partners, that enabled them to ultimately make a decision on whether to issue an audit opinion for those audit engagements.

Q How long were you a staff accountant or staff auditor at Pricewaterhouse?

A I don't remember. It was at least one or two years before becoming a senior auditor.

Q And how did your responsibilities change when you became a senior auditor?

A Took more responsibility in terms of oversight of staff on audit engagements. And more, you know, direct line reporting with the engagement partners.

Q What type of matters did you handle as a senior

## auditor?

A It was a lot of the same kinds of engagements I just described. I mean, it was a very wide landscape of industries that I worked in. Again, banking, media, manufacturing, so very broad range.

Q And at some point were you promoted from the position of senior auditor?

A Well, it was around that time that I ended up transferring into the forensic accounting practice at PWC, and ultimately became a manager within PWC's FAS practice, Financial Advisory Services.

Q When you were in the audit group at Pricewaterhouse, what experience, if any, did you have with personal financial statements or Statements of Financial Condition?

A So the experience where I would -- I came across personal financial statements was mainly in the context of performing the banking audits. A lot of that work entailed evaluating loan loss reserves, evaluating the quality of loans. And as part of our audit testing we would make selections and obtain loan files underlying the selected loans that we were making for purposes of our audit testing. And to the extent the loans were with individuals, I do remember there being consideration of personal financials in the course of that work.

Q How did your practice change, if at all, when you

Page 4241
moved over to financial advisory service - excuse me, Forensic Advisory Services?

A So that was no longer performing audit services. That's performing internal investigations, working with, typically, lawyers that would retain us to help them perform the fact finding when there was potential for accounting issues. We would work with the lawyers to do a lot of the financial analysis; assess the compliance with GAAP; help quantify, to the extent there were errors, we would help do that; a lot of the accounting research and the technical -writing the technical memoranda that would go along with that.

Q And during this period of time that you were at Pricewaterhouse and later Pricewaterhouse Cooper, did you receive additional training in the field of accounting?

A While I was at PWC?
Q Yes.
A Well, yes. I had to maintain my continuing professional education, which is 120 hours every three years. And I received a lot of that training within Pricewaterhouse Coopers, but also from outside sources.

Q When you moved over to FAS, the Forensic Advisory Services group, what was your title?

A At the time I believe it was still a senior level, but within a short period of time I was promoted to manager.

Q And as a manager, how were your responsibilities
different than as a senior level accountant?
A I believe it was more oversight of more individuals on my teams. And again, increased interaction and responsibilities with the partners that I worked with.

Q What type of matters did you handle while you were manager at the FAS group?

A I performed a lot of internal investigation type work. One of the biggest matters that I worked on at that time was, there was a waste management case which was one of the first, you know, financial frauds that had come out. And we had been retained by counsel to assist with -- assist a special committee in performing that internal investigation. I also worked on auditor compliance, auditor malpractice matters where we would work with auditing firms to assess compliance with professional standards. I believe also performing accounting advisory -- technical accounting advisory support to companies that may not be involved in investigation, but looking for some assistance with regard to how they were conducting their financial reporting.

Q And during this period of time, how would you use your knowledge of GAAP in your professional engagements?

A Well, it was essential to use any knowledge of GAAP, because that's what they were hiring us to provide them.

Q At a certain point in time, did you receive a job role change from being a manager at PWC?
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4244

1 Q What were your responsibilities as an entry-level accountant at the Division of Enforcement of the Securities and Exchange Commission?

A Performing financial accounting investigations for a wide array of entities, ultimately determining whether there were accounting improprieties, all involved, you know, publicly traded companies, and also evaluating conduct of individuals at these companies, working very closely with enforcement attorneys throughout the country, collectively making a decision on whether or not enforcement action would be warranted to recommend to the Commission of the SEC. And we would do that very formally with writing very detailed memoranda, if we felt that that was necessary.

It also involved taking investigative testimony of -of staff people at public companies all the way up to CEOs. So a very interesting job. And, um, and we had a lot of responsibility to -- in the front lines to make those decisions and decide whether or not something warranted bringing enforcement action.
Q What type of engagements were you working with when you were an accountant at the Enforcement Division?
A I probably touched every industry out there in terms of the types of companies and entities that we were -- that I was involved in investigating. You know, from, again, financial institutions, manufacturing, real estate, government
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4245

1

$$
2
$$

$$
4
$$

contractors. It really ran the gamut in terms of the types of entities that I was involved with. And with that came a very wide exposure to a very broad base of accounting issues that covered many, many different aspects of Generally Accepted Accounting Principles.
Q Were you promoted from the position of accountant?
A I was.
Q What was your next role of the enforcement position at the Securities and Exchange Commission?
A When I was hired at that time we were on a general scale, and the titles were very, I would say, demeaning. I went in as a staff accountant, despite having six or seven years of experience.

Shortly after that they did change that title to be an assistant chief accountant. It made it sound a little nicer. And I was promoted, first, to an associate chief accountant. Later, to a senior associate chief accountant, and then ultimately, deputy chief accountant of the Division of Enforcement.
Q How did your responsibilities change throughout your progression of -- at the Division of Enforcement?
A I would say the move from assistant chief accountant to associate chief accountant, responsibilities didn't change a whole lot, but when I became senior associate chief accountant, I did have a group of enforcement accountants that reported to
me directly. I was based in the DC office of the SEC. And we had about 35 to $\mathbf{4 0}$ accountants in that group, and another 60 or so across the country, so approximately 100 enforcement accountants. And at that time I had about five or six accountants that reported directly to me.

Q What exposure, if any, did you have to personal financial statements or Statements of Financial Condition during your time with the Securities and Exchange Commission?

A There were a couple of different capacities. Like I mentioned earlier with my experience in the audit practice at PWC, I did work at the SEC on investigations of financial institutions. And there were times where we would receive, you know, detailed files as part of those investigations, um, because we would be evaluating the accounting for loan loss reserves. And there were times where personal financials might be part of that exercise.

Secondarily, when we brought enforcement actions against individuals, and often times that would include levying penalties or disgorgement against individuals for a variety of different things, individuals often times would seek to get some sort of waiver based on inability to pay and would be required to submit personal financial statements, you know, to us at the staff at the SEC to evaluate.

Q What, if any, experience did you have at the SEC reviewing financial statements for evidence of fraud?

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4247
A That's what I did every day. We were tasked with evaluating, first of all, whether or not accounting at public companies was proper. And if it wasn't proper, we were investigating why it wasn't proper, whether it was innocent error or whether there was maybe more to it in terms of potential malfeasance.
Q And in what context did you carry out those responsibilities?

A Well, in the context of working very closely with SEC enforcement lawyers, the SEC has subpoena power, is able to obtain mountains of data and documents that we would be reviewing for purposes of our investigations. Um, I mentioned before, also investigative testimony. We'd be very involved in performing fact finding through the testimony process, and then ultimately putting it all together in deciding whether or not to recommend enforcement action.

Q What, if any, experience did you have analyzing the role of senior executives and working with outside accounting firms?

A Very extensive responsibilities. One of the things we would be evaluating is whether or not information that was provided to outside accounting firms was accurate. Um, we would also be evaluating whether or not the outside accounting firms performed their responsibilities in compliance with professional standards.

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4248

1

The SEC has jurisdiction to bring enforcement actions against outside auditors for failure to comply with such standards, and that was a very big part of my responsibilities as well.
Q In what sectors did you discharge these responsibilities?

A I think I said before, a very wide array of sectors; real estate, government contracting, banks, many others.

Q During your time at the SEC, or prior, were you involved in professional organizations?
A Can you repeat that question again.
Q Were you involved in any professional organizations --
A While at the SEC?
Q Or prior.
A I don't recall the date, but I am a member, and was a member I believe at that time, of the American Institute of Certified Public Accountants. I also am a member of the Association of Certified Fraud Examiners. Those are the two that I think are the main ones.

Q When did you become -- withdrawn.
In fact, you are a certified fraud examiner; correct?
A I am.
Q What does one have to do to become a certified fraud examiner?
A It requires -- there's an exam, but there's also an
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4249
experience requirement that goes along with it. And, of course, paying the annual fee.

Q And you are also credentialed by the AICPA as a certified -- as certified in financial forensics; is that correct?
A That's correct.
Q What is it -- what is required to obtain that certification?
A It was largely an experience requirement at the time that I became a CFF. I think they, since that time, added an exam element to it, but I met all the requirements, based on my experience, to be a CFF.

Q At one point time did you leave the Security and Exchange Commission?
A Idid.
Q Where did you work next?
A I left the SEC in the late 2012. Um, I had been there for 12 years. I had a very successful climb and was looking to bring that experience to the private sector. Talked to a number of firms and ultimately decided to go with FTI Consulting, which is another type of consulting firm similar to my current firm.

Q What kind of work did you handle at FTI Consulting?
A Largely assisting lawyers who are representing companies and individuals as part of either performing internal investigations or serving as an expert on accounting issues

1 under Generally Accepted Accounting Principles. And I also served as an expert, starting at that time, in assessing compliance of auditors with professional standards, and both the accounting expert work and the auditing expert work required issuing and drafting expert reports, providing deposition testimony, and potentially testifying at trial. But not many of them went to trial.

Q What was your title FTI Consulting?
A I was a senior managing director, which is the equivalent of a partner, if you were in a partnership, but FTI is a corporation.

Q After FTI, where did you work next?
A I left FTI in approximately May of 2016. I had been there for four years. The prior CFO of FTI had left and decided to start up a new consulting firm that performed a variety of different consulting practices similar to what FTI had. And he plucked me out of my role at FTI to come in to Ankura and to start the forensic accounting practice there. Seemed like a very interesting opportunity, and I've been there ever since.

Q When you returned to the private sector, what involvement did you have with the AICPA?

A I had had a couple of different levels of involvement. So they have different committees that are organized within what's known as the forensic and valuation services section. One of the roles was serving on the fraud task force and that

## Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4251
involved essentially preparing guidance for the industry, evaluating current guidance that was out there, and performing investigations or serving as an expert witness. And during my time on that committee, we did draft a guide that, that was very voluminous and very thorough that covered many, many aspects of serving as an expert.

I also served on the executive committee of the AICPA's forensic and violations services section. And that is the kind of highest level committee that one could be on at the AICPA within their field. During that time we, um, I was a principal author of the very first forensic standard that was issued by the AICPA. It did not exist before, and was heavily involved in that effort and it ultimately was issued.

Q Have you lectured on the field of accounting?
A I don't do lectures, per se, but I do a lot of public speaking involving accounting, SEC enforcement, auditing issues. I've been involved in being on panels, moderating panels, giving speeches for a long time. And I believe my CV that was submitted in this case captures all of that.
Q Have you written any articles concerning the field of accounting?

A I believe I've written a few articles. Sitting here right now I don't remember the topics of those articles. I'm not a prolific author. I do a lot of work in the space and don't have a lot of time to sit down and write.

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4252

1 Q Have you been offered as an expert before in the field of accounting?

A Yes.
Q How many times have you been offered in court as an expert in the field of accounting?

A I believe two.
Q And how many times have you been qualified as an expert in court on the field of accounting?
A Both times.
Q And have you ever been offered as an expert in the field of accounting and not been qualified?

A No.
MR. SUAREZ: Your Honor, we tender Mr. Flemmons as an expert witness in the field of accounting.

THE COURT: Granted. I hereby deem you an expert in the field of accounting. You are three for three. Q Mr. Flemmons, I'll ask that the opinions you give today be given within a reasonable degree of accounting certainty. Can we agree on that?

A Understood.
Q What have you done to prepare for your testimony at trial in this case?

A I had previously submitted a couple of reports in this case. One was my initial expert report. And I also submitted a rebuttal report to the government's expert. I -- so I reviewed
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4253
those two reports in preparation for this trial. I also reviewed some of the underlying materials that I cited as support for my opinions in those reports. I have also read a few of the transcripts associated with this trial. For example, the transcript of Mr. Bender. I believe there were a couple of others. And then, um, I met with you last night for a couple of hours. And that's it.

Q What documents, generally, have you reviewed in connection with your preparation to testify at trial today?

A Can you repeat that.
Q Sure.
What documents, generally, have you reviewed in connection with your preparation to testify at trial?
A I don't recall all of them, but, again, many of the documents that were cited in my reports, the Statements of Financial Condition.

Some of the supporting documents that were generated, um, to support the calculation of the values that were reported in those financial statements. I believe I've also gone back over some of the GAAP requirements associated with this case. That's what comes to mind.
Q Is your testimony here governed today by professional standards?

A Yes.
Q Which standards?
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4254

A It was the standard that I was involved in drafting for the AICPA. It's the statement on standards for forensic services, number one.
Q What accounting standard governs the preparation of Statements of Financial Condition?
A So currently the standard that applies is known as
Accounting Standards Codification or ASC-274. That standard was built off of a very much older standard that was issued by the AICPA in approximately 1982. Um, so those are the standards that apply. But during this time period it would be ASC-274.

Q What is the measure of value for an asset or liability under ASC-274?
A It's referred to as estimated current value.
MR. SUAREZ: All right. Can we please pull up ASC-274, Defendant's Exhibit 27.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And turn to page six.
(Whereupon, the exhibit was displayed on the screen.)
Q I focus your attention on ASC-274-10-35-1. Does this set forth the requirement that assets be presented at estimated current value?
A Yes, it does.
Q What is the definition of "estimated current value"?
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4255

A I won't recite it word for word, but the essence of estimated current value is that it's the amount that could be exchanged between a buyer and a seller for a particular asset.

MR. SUAREZ: Can we please pull up Defendant's demonstrative one.
(Whereupon, the demonstrative was displayed on the screen.)
Q Do you see here a citation to ASC-274-10-20?
A Ido.
Q Do you recognize that as the word-for-word definition
of estimated current value?
A It is.
Q And what is "fair value"?
A So "fair value" is a very different GAAP standard that is separate and apart from estimated current value. Fair value is a standard that didn't come into existence until around 2008, well after the 1982 statement that first established estimated current value.

The fair value standard only applies to entities, um, it does not apply to personal financial statements. And the models that both of those standards are built on are very, very different. In fact, the ASCPA has made it clear that estimated current value is not the same as fair value under ASC-820.
Q How is the model upon which estimated current value is built on different than the model for fair value?
J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4256

1 A Well, there are a lot of differences, one of which is -- you see in the definitions of estimated current value as compared to fair value, fair value refers to market participants. And that is a very important distinguishing trait for ASC-820, because fair value standard is premised on, you know, what would a market participant pay for this property? How would they value this property?

On the other hand, estimated current value is premised on more of a management or personal individual perspective of what they deem the value to be.

So those are two very different paradigms. Again, one is more of an internal. ECV is an internal determination. Fair value is more of external market participant evaluation. I would say, also, that under estimated current value there are many methods that are laid out that are all appropriate methods that could be used, and it contains a very wide array of options that can be used to establish the ECV and be GAAP compliant.

Fair value also has methods, but they are more streamlined. There is only a few of them. Fair value also places a premium on "using observable inputs", which is a term of art within the standard. And estimated current value doesn't really talk about that at all. So there are a lot of differences. But the methods and the kind of internal versus external perspective are very key differences.

Q Is the preparation of a Statement of Financial

Page 4257
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Condition for an individual the same as the preparation of a financial statement for a corporate entity?
A No.
Q Why is that?
A Well, first of all, the preparation of a Statement of Financial Condition involves just that, preparing a Statement of Financial Condition, which is akin to a balance sheet.

Preparing financial statements for an entity under Generally Accepted Accounting Principles would entail preparing a balance sheet, an income statement, which would contain the revenues, expenses and profits, preparing a statement of cash flows, preparing statement of stockholders equity, and also entail many, many, many more disclosure requirements that are attached to all of the relevant standards for entities that are not relevant to individuals under ASC-274.

Q What kind of latitude does a person preparing a Statement of Financial Condition for an individual have to value assets and liabilities as compared to someone preparing a fair value estimate for a corporation?

A Well, I would say that under ASC-274, there are many options available to a preparer of those financial statements, as compared to under fair value, there are really more -- much fewer methods that are described in standard. That said, there's latitude under both standards, but the specificity that's in ASC-274, with some of the methods that are available,
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4258
do not exist in the fair value standard.
MR. SUAREZ: If we could please pull up Defendant's 27 at page 13.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Flemmons, can you please identify this action of ASC-274?
A Yes. So this is, as it says, the implementation guidance and illustrations that provide some of the methods that I was talking about before that are available to a preparer of personal financial statements, and it covers, again, some of the landscape of the different methods that can be used.
Q Please walk us through the different methods of the estimation of current value?
A Sure. So starting with the first one under paragraph $55-1 \mathrm{~A}$, it says, "The capitalization of past or prospective earnings." Again, this would be taking expected earnings of a particular asset that are expected to be generated in the future and applying a capitalization or a form of discount rate to those earnings to establish value. But, again, it is using future productivity of that asset. And I think that's a very important concept, because when you are valuing any asset, again, there is a wide range of options that are available to you, and it does depend on the kind of asset that you are valuing.
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4259
If I'm seeking to value my home, my home is not a revenue producing asset. So the value of that is going to be pretty much, well, somebody would think that it's valued based on other comparables in the area, and there's not -- there aren't a lot of inputs to valuing that.

But when you are talking about valuing a revenue producing asset, looking to the future to see what kind of revenue could be generated on that asset is a big part of determining a value of that asset. And that's what this goes to. This is one of the options to look to the future on what could be generated from that asset to determine what the value is.

Q And the next category, the use of "liquidation values", how does that -- how is the use of liquidation values a method of reaching estimated current value?

A Well, it's very different than the first one. Again, the first one we talked about, it's looking to the future on what is expected to be generated and applying a discount to that.

Liquidation values would be in the situation where you're valuing assets under the assumption that they need to be sold. For example, going out of business, or bankruptcy, something to that effect. And you could imagine that under those circumstances, you know, values of those assets would likely be less than looking to a very productive asset that's
going to generate revenue streams in the future.
Q What is the next basis for reaching an estimated current value?
A The next one is looking to the cost of the asset and potentially making adjustments to the cost based on either changes in the nature of the asset. The standard here talks about changes in a specific price index, such as a consumer price index. That's another option that's available.

Q And how is that different from the next basis for reaching estimated current value?
A So use of appraisals is another option. Again, not mandated -- none of these methods are mandated. This is the menu that is available to a preparer under ASC-274 to be able to prepare financial statements. Use of appraisals is one of them.

It's also very vague, because appraisals can be prepared in many different ways. But, you know, use of appraisals would tend to be using a third party of some kind to either identify comparable sales or use some other valuation method to come up with a reported value.
Q Is it the case that the use of appraisals is vague because there can be many different methods of appraising the same piece of real estate? MR. WALLACE: Objection. Leading. THE COURT: Sustained. Leading.
$Q \quad$ Why is the use of appraisals a vague standard?

Page 4261
A Well, because it really goes more into valuation approaches. The standard doesn't really get into a lot of detail on how a valuation professionals would develop an appraisal. But, again, there are many, many different ways to issue an appraisal and to prepare an appraisal. The standard doesn't get into the level of detail on what those are.

Q Is it acceptable to use an appraisal that includes hypothetical conditions?
A Yes. As a matter of fact, that's what a lot of these methods contemplate, particularly whether you are evaluating the future performance of an asset. And all of that is very hypothetical and it's impossible to be precise and exact. There's a wide range of potential outcomes that could ensue from an asset.

Q What is the next standard that you could use for reaching estimated current value? The next method, I should say?

A So letter E is similar to letter A , although letter E is talking about projecting cash receipts as opposed to projecting earnings, but also discounting those receipts back to current time.
(Continued on the next page.)

Q Does the accounting standard provide further guidance on how to reach estimated current value for investments in a closely held business?

A Yes, it does.
MR. SUAREZ: Can we zoom in on that section, please?

THE COURT: And just one question. The only difference I saw between $A$ and $E$, or the main difference, was A talked about income and expenses, and E just talked about income. How can you value something just by the income without taking into account expenses?

THE WITNESS: Can we go back to that, please?
THE COURT: Or payments, expenses, in E, the last word, payments. What are payments? Expenses?

THE WITNESS: Yeah, the standard doesn't really define that, but ordinarily one would factor in expenses associated with discounting rather than just taking the --

THE COURT: Receipts.
So what's the difference between A and E in a practical sense?

THE WITNESS: It is more of the wording.
THE COURT: Wording is not practical. That's why I am asking for practical sense.

THE WITNESS: In a practical sense, again, A we are talking about anticipated earnings, which would

Flemmons - by Defendant - Direct(Suarez)
Page 4263
potentially be revenues, less expenses. You know, E is talking about rather than earnings under a GAAP perspective, not revenues, but actually taking the hard cash that comes in the door, compared with the hard cash that maybe goes out the door. So we are revenues and expenses versus cash plus cash minus.

THE COURT: Okay. Thank you.
Q Will the different approaches to estimated current value necessarily yield the same result?

A No. And in fact, depending on the method you choose, you could have widely different results from one method to another.

Q And if the different methods for defining estimated current value yield wildly different results, how do you pick which method to use?

A Well, it is a judgment call. And, you know, in my experience it often has results in or is determined, kind of, how you are going to be using that information. I mentioned earlier when I was at the SEC we would receive personal financial statements when evaluating a defendant's ability to pay. And in those situations you would expect the defendant to try to understate assets to demonstrate being destitute or not being able to pay the fines. In that situation, you know, the defendant could pick a method that results in the lowest asset values and disclose that as such.

Page 4265

## would select?

A Correct. These six methods that are listed here are also available to a preparer to prepare their personal financial statements under.

Q Is any one method determinative?
A When you say "determinative," what do you mean?
Q Are you required to use one method over another?
A No.
Q Can the different methods for valuing an investment in a closely held business yield different results?

A Like we said before, depending on which method that you pick among this list, you could have very different results in orders of magnitude.

Q Would any of the different methods be more right or more wrong than the other?

A No, the standard provides many options and there is no one right value. It is a matter of judgment. It is a matter of disclosing what that method is. A reasonable person may disagree, a user of the financial statements may disagree and say that that valuation method doesn't make sense, we are going to do our own calculation. So as long as it is out there and disclosed and clear to a user what the method is, what assets are being valued, you are giving the opportunity to a user to understand what the approach was and either agree or disagree with it.

Q Or ask additional questions?
A Correct.
MR. SUAREZ: If we can turn to the following page?
Q Can you please identify the standard that is listed here as ASC 274-10-55-6?

A Yes. So paragraph 55-6 contains five additional methods that are available to a preparer of personal financial statements for real estate assets.

Q Okay. Let's go through them one by one and talk about how they are different from each other.

What does sales of similar property and similar circumstances require?

A So that involves, again, looking to comparables in the market. We may have talked about that earlier. That's one method that is available. For real estate that is a common way to value property is to look at other assets that have been sold that have similar characteristics. But often times those are hard to find. You don't always have an apples to apples comparison, so this may not always be the most ideal method to use.
Q What latitude is afforded to the preparer in determining what is a similar property under similar circumstances?
A It is a judgment call based on the attributes of an

Flemmons - by Defendant - Direct(Suarez)
Page 4267
asset and whether or not a comparable that is identified is truly a comparable.

Q What is the next possible method of obtaining estimated current value for real estate according to this standard?

A This is largely a repeat of what we saw before, and the prior menu of methods. The only additional verbiage that I think is important here is the reference to basing projected cash receipts on planned courses of action. That is also something that is, you know, very unique to ASC 274, that you able to consider what is intended to be done to the property with the asset and including future income streams associated with those planned courses of action in your projected cash amounts.

And that is also, by the way, very different from ASC A-20 which is the fair value standard where the intended use of the property is not considered in determining a value under A-20. But ASC 274 that's entirely appropriate.

Q And how are planned courses of action used in the real world to ascribe an estimated current value to real estate?
A Well, there are a variety of ways. It could be having a property that is not developed and including receipts from that property assuming that it was fully developed. That's one example.

Q What is required for the preparer of a Statement of Financial Condition to understand about a planned course of action in order to be able to figure that into the valuation?

A Well, there are many different inputs and assumptions that go into these determinations. They depend on the type of asset, location, intended use, whether it is a hotel, whether it is an undeveloped piece of land. I think it would really depend, I'll say, I am not a valuation expert, I am here as an accounting expert, but I have a lot of experience reviewing valuation reports and having to understand assumptions and evaluate the reasonableness of those. But I have never prepared a valuation.

Q And in considering planned courses of action, what latitude is afforded the preparer to incorporate the future value of that planned course of action in an estimated current value?

A I think there is substantial latitude, because it all depends on the judgment of the preparer on what they plan to use the asset for.

Q What do you mean what they plan to use the asset for?
A Well, what I mean is that this phrase of "based on planned courses of action" allows a preparer to consider the value that is to come from the asset from either further developing it generating future revenues off of that piece of property and not just valuing it just based on what it is today
section B that talks about the discounted amounts of projected cash receipts that that analysis could be performed internally without needing to obtain any assistance from an outside expert or valuation specialist.
$Q$ In section $D$, the standard permits the use of appraisals used to obtain financing, correct?

A Yes.
Q How is that different from the prior section that we just discussed?

A So these could be appraisals that are obtained by lenders as part of making determination on whether to provide funding for the particular piece of asset. And, you know, using that appraisal as opposed to the person themselves retaining a specialist to go out and perform an appraisal on that property.

Q What is the last standard that is set forth in this section?

A So this one talks about assessed value for property taxes. Again, going back to my example of my home, which doesn't have any future revenue stream associated with it, that I have a tax value that I pay taxes on my property, but I also have a price that I could sell my property for, which would likely be higher. But this is an option that is available to a preparer is to use that tax assessed value if they choose. But I would say that would be expected to typically be on the lower

Flemmons - by Defendant - Direct(Suarez)
Page 4269
if you were to try to sell it without any future revenue streams. This is a very important part of the standard to contemplate and include the future earnings of a property which makes intuitive sense as well. Because if you were to try to sell a property that has a lot of future value to it, you know, a buyer is likely going to consider the future revenue streams as well. Not just an undeveloped, you know, piece of land being an undeveloped piece of land. They are going to consider what they are going to do with it, which would increase the value in their minds on what that property is worth.

Q And why is it that this concept of appears in ASC 274 but doesn't appear in the preparation of financial statements for corporate entities, for example?

A Well ASC 274 is really based on, as I said before, a management individual perspective. And what they intend to use the asset for ASC A-20, which applies to entities, applies a market participant perspective, not an insider management perspective, an outsider perspective, where the intended use of the property is not part of that valuation.

Q And how is standard B different from standard C, the use of appraisals based on estimates of selling prices and selling costs obtained from independent real estate agents or brokers familiar with similar properties in similar locations?

A I think the main difference is the fact that appraisals are obtained from external sources. Of whereas
end of the spectrum. We have covered a lot of these different methods and they are, you know, some are inherently going to likely put you at the low end of an estimate; and others might put you at a high end. But very importantly, as long as you are using one of these and you disclose what you are doing, you can use any of them regardless of the value that results from it.

Q In the real world, how are assessed value for property taxes different than, say, planned courses of action?

MR. WALLACE: Objection, foundation. This is not an expert on tax.

THE COURT: Overruled.
A Can you repeat that, please?
Q Sure. In the real world how is estimated current value different if you use it based on or you compute it based on assessed value for property taxes, as opposed to, for example, your planned courses of action?

A I have not ever prepared a tax assessment. But my -but having been familiar with how my personal properties are valued from a tax assessment perspective, they -- that would be a much more myopic, you know, view of the value.

Letter B, where it talks about planned courses of action, does take into account a much longer term income stream that could be attached to that property that could go into the value.

| Flemmons - by Defendant - Direct(Suarez) | Page 4272 | Flen |
| ---: | ---: | ---: |
| 1 | MR. WALLACE: Your Honor, I move to strike that | 1 |
| 2 | answer. There is no basis for that to have any relevance | 2 |
| 3 | in this case. Mr. Flemmons' personal residence and the | 3 |
| 4 | manner in which it is taxed. | 4 |
| 5 | THE COURT: I think he was just using that as an | 5 |
| 6 | example. But I'll strike the answer and ask that the | 6 |
| 7 | question be reframed to be very specific. We are not | 7 |
| 8 | talking about your personal situation, which is how the | 8 |
| 9 | world works, which is what Mr. Suarez asked. | 9 |
| 10 | Q In a general sense, in the real world if you want to | 10 |
| 11 | use an assessed value for property taxes, you can go on the tax | 11 |
| 12 | appraisers website and look it up, right? | 12 |
| 13 | A $\quad$ That's correct. | 13 |
| 14 | $Q \quad$ And you could use that as basis for estimated current | 14 |
| 15 | value, right? | 15 |
| 16 | A $\quad$ That is an option. | 16 |
| 17 | Q That is an option. Another option would be to | 17 |
| 18 | consider the planned courses of action that you have for a | 18 |
| 19 | property, correct? | 19 |
| 20 | A $\quad$ That's correct. | 20 |
| 21 | Q And those planned courses of action, I believe you | 21 |
| 22 | described them as potentially being very forward looking, | 22 |
| 23 | right? | 23 |
| 24 | A $\quad$ Correct. | 24 |
| 25 | Q And it is possible, for example, that an asset could | 25 |
|  |  |  |

have an assessed value for property taxes, so 18 to $\$ 20$ million, right? And that same property based on planned courses of action could have a value of four or $\$ 500$ million?

MR. WALLACE: Objection to this -- this
hypothetical is unmoored from any specific details about
jurisdictions or anything else -- or how any of these
properties were valued.
THE COURT: Well, I'll ask that the witness.
In your experience, are these universals or are we talking about a particular jurisdiction?

THE WITNESS: Well, generally speaking, I would say that a property tax value would be expected to be lower than a value that you would use if considering the planned courses of action over a long period of time in the future. And that would inherently result, in my view, in, likely, very different -- wildly different values.

THE COURT: Okay. That's his answer and it is fine.
Q Let's say in the hypothetical property you have an assessed value for property taxes of $\$ 18$ million, that wouldn't preclude the sales comparable approach in subsection A from having a value of four or $\$ 500$ million, would it?

A It would not preclude that.
Q And that wouldn't preclude estimated current value being used to derive a value of seven or eight or $\$ 900$ million
on a property based on planned courses of action, would it?
A It wouldn't preclude that either.
Q And that same property could have an assessed value for property taxes of 18 or $\$ 20$ million, and then I think you described it as a wildly different property, six, seven, $\$ 800$ million based on the other methods of -- other methods authorized to reach estimated current value for real estate, right?

MR. WALLACE: Objection. At this point the leading is really out of control.

THE COURT: Sustained.
Let me ask a question about one of your answers. You were asked, basically, could something be assessed at 18 million and be valued and have a value of 800 million or something. You said yes. Is that a theoretical answer or a real world practical answer based on your experience?

THE WITNESS: Well, it is a real world answer from the standpoint that tax assessed values are typically on the lower end of the spectrum.

THE COURT: How much lower?
THE WITNESS: Well, it depends on the asset. It is hard to say in generality what that number would be. You would have to know what that property is. But I am saying that that taxed assessed value typically would not consider the future longer term revenues that would be
generated from that asset, which would, by definition in my view, generate a much higher value than a tax assessed value.

THE COURT: I am trying to get to the order of magnitude we are talking about here. Let's say the tax assessors say its assessed value is, let's make it $\$ 20$ million. In your real world experience what is the highest value you have ever seen legitimately placed on such a property?

THE WITNESS: Well, you said legitimately.
THE COURT: It is a loaded word, I know.
THE WITNESS: Again, letter B, which talks about projecting cash receipts, there is a range of judgments that go into that.

THE COURT: Nope. Nope. I am asking what you have observed in the real world. Assuming 20 million assessment, what is the highest you have ever seen? I will stick with legitimate appraisal, somewhat objective appraisal, what is the highest you think you have ever seen proportionally?

THE WITNESS: Well, if you are saying 20 million is your example for assessed property tax, it would not be unusual to have a value in the hundreds of millions using projected cash receipts.

THE COURT: What's the highest that you have
Flemmons - by Defendant - Direct(Suarez) Page 4276

## seen?

THE WITNESS: I don't recall an exact number. THE COURT: Okay.
Q You described it as an order of magnitude? THE COURT: And five minute break.
A Yes.
Q Now that order of magnitude could be ten times?
A It could be.
Q It could be 20 times?
A Possibly.
Q It could be 100 times?
A Just depends on the asset.
Q And that wouldn't make one method of estimated current value superior or inferior to another?

A None of the methods are superior or inferior to another. They are all available to a preparer.

Q And they could each individually yield wildly different values, correct?

A When comparing them to each other, yes.
Q And it wouldn't be wrong to select one value over another, correct?

THE COURT: Asked and answered five times. But he can answer it.
A There is no right or wrong answer. It is a judgment call.

Flemmons - by Defendant - Direct(Suarez)
Page 4277

Q So even though the values derived from the various methods are very different or could be very different, would using any one of these numbers comply with ASC 274 ?

A Yes.
Q And even though the values derived from the various methods could be very different, would using any one of the different numbers still comply with GAAP?

A That's correct ASC 274 is GAAP. So to the extent that GAAP is the selected convention to prepare values for personal financial statements, one would be complying with GAAP if using one of these methods.

MR. SUAREZ: I think I am at a good stopping point, Your Honor.

THE COURT: With this witness or for lunch?
MR. SUAREZ: For lunch.
THE COURT: That's fine. All right. We will see you all at 2:15 as usual.

And I'll direct the witness, please don't
discuss the case or your testimony or anything related to it during the lunch break.
(Whereupon, a luncheon recess was taken at this time.)
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4278
$\begin{array}{ccccccc}* & * & * & * & * & * & *\end{array} *$
THE COURT OFFICER: All rise. Part 37 is back in session. The Honorable Judge Arthur Engoron presiding. Please be seated and come to order.

THE COURT: Can we get the same witness back up on the stand, right?
(Whereupon, the witness stepped into the witness stand.)

MR. SUAREZ: Yes, your Honor.
THE COURT: Everyone, sorry for the delay. Work was being done.

Mr. Suarez, whenever you are ready.
MR. SUAREZ: Thank you.
Q Returning to page 14 of Defendant's Exhibit D-27.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Flemmons, with respect to planned courses of action, what preconditions must exist in order for a planned course of action to be appropriately assessed under estimated current value?

A Well, the standard doesn't get into that level of detail on preconditions. Um, to the extent this section, or this method of ASC-274 is used, planned courses of action could

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4279
be a wide range of action that are anticipated by the preparer of the financial statements.

Q Can you describe the range?
A Well, it's very open-ended. It could be anticipated sale of property, it could be anticipated construction of property, um, anticipated obtaining of permits. Um, it could be a whole host of things.

Q Are hypothetical conditions allowed to be factored in to a planned course of the action under this section of estimated current value?

A Well, hypothetical actions that are planned and intended, there is certainly a hypothetical aspect to the standard that is embedded, but it does also relate to what needs to be done in order to carry out the courses of action that are intended by the preparer.

Q How is the concept of "current" in the term "estimated current value" consistent with things that will happen in the future?

A Well, it's because the things that happen in the future may create value currently, depending on what those things in the future are, depending on the nature of the asset. As I said earlier, if we are talking about my home, my home doesn't really have a lot of future value because it's not an income producing asset, and would be based on the market conditions as of today.

However, an asset that is revenue generating, um, you

## J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4280
have to look to the future, or you can look to the future under this particular prong and use those estimates for future cash receipts or income to develop what the current value is now, because that current value is, in many ways, dependent on what happens in the future.

Q How is estimated current value different than the concept of historical costs under GAAP?

A Well, one of the methods that can be used under ASC-274 is a cost-based method that can be adjusted depending on different factors. Um, business historical cost is used for the accounting for other types of assets, such as inventory would be a historical cost, and that is typically used for an entity financial statements under other aspects of GAAP, but there is a cost option for ASC-274 as well.

Q How is estimated current value different than net realizable value?

A Net realizable value is a method that is used for accounting for accounts receivable. And "accounts receivable" is, again, something that could be on the financials of personal financial statements, but you would still use estimated current value, not realizable value; that is relevant for the accounting for the receivables for an entity. And there is a separate set of GAAP requirements surrounding that.

Q How is estimated current value different than amortized costs?
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4281

## 24

A So "amortized costs" would be, for example, certain kinds of investments, that would be another kind of asset on entities, financial statements, such as a bond that might be reported, you know, based on amortizing the cost of that particular asset over the duration -- over the term of the investment. Um, that is very different than estimated current value, which does not contemplate amortized costs.
Q Where else, if at all, in the accounting literature does the concept of estimated current value appear, besides the context of personal financial statements?
A Nowhere. It's a very unique set of standards that applies only to the preparation of personal financial statements. There are hundreds of other standards that have been developed over the course of time, um, by various standard setters that have made their way into the Accounting Standards Codification. And there are dozens of other standards that pertain to the accounting for entities, but this is the only standard that pertains to personal financial statements.
Q What professional standards apply to accountants performing a compilation engagement?

A So the AICPA, many, many years ago, issued what is referred to as the Statement on Standards For Accounting and Review Services, also referred to as SSARS, S-S-A-R-S. And those are the standards that accountants are held to when performing compilation -- compilations. The AICPA re-codified
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4282
the SSARS into what is referred to as AR-80, which stands for Accounting and Review 80. And those were later clarified into what's known as AR-C80. The standards between - comparing AR-80 to AR-80(sic), they are largely unchanged with regard to compilations. Um, and comparing AR-80 to the original SSARS 19 , that was really a cut and paste from that old standard to AR-80.

MR. SUAREZ: If we could pull up our demonstrative Exhibit 3.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Flemmons, do you recognize this image?
A Yes. This was a diagram that $I$ included in one of my expert reports.

Q And what does this diagram represent?
A So this was to show an illustration of the range of services that an accountant can perform, ranging from bookkeeping services, at the very bottom of the screen, all the way to an audit. And there are varying responsibilities that are attached to an accountant's role for each of these items. And compilation, as we've been talking about, is in the middle there.

Only two of them are referred to as "assurance engagements." That would be an audit and review. And for each of those, the standards would say that an auditor is providing some level of assurance for an auditor's providing reasonable

## Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4283
assurance that financial statements are fairly stated under a review. It's more limited, or negative assurance, which would be that an auditor or an accountant would be reporting as to whether or not material modifications exist within the financial statements under review.

Um, and compilation and a preparation and bookkeeping services are not assurance engagements. And there are different standards and responsibilities that are attached to each of these types of engagements.

Q What are the standards and responsibilities that are attached to a compilation engagement?

A It's AR-80 for the 2016 and prior time frame, and it's AR-C80 from 2016 forward.
Q What does it mean that a compilation engagement does not provide assurance services?
A Well, it means that an auditor is not issuing an opinion as to whether the financials are fairly stated, or as I said with the review, whether there is a need or that there are, um, material modifications that are required for the financial statements. That said, as part of a compilation, there is a section in the standards that layout what a standard report would look like, because a report is included with compiled financial statements. It just does not contain a, quote/unquote, opinion.

But despite not having an opinion, an accountant does
J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4284
have responsibilities, as part of a compilation, to report any deviations in the accounting with the established, um, convention that is used for that compilation, whether it's GAAP or some other convention.

MR. SUAREZ: May we please hand the witness what's
been pre-marked as Defendant's 25.
(Whereupon, the exhibit was handed to the witness.)
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Flemmons, do you recognize this document?
A Ido.
Q Is this AR §80?
A It is.
Q What are the obligations of the accountant preparing a compilation report that are imposed by AR $\S 80$ ?
A Well, the standard goes into quite a few things. The first page that we are showing here is to establish an understanding with the client, which would be entering into an engagement letter with the client to -- outlining the terms associated with that engagement to make it clear what management's responsibility is as opposed to the accountant's responsibility; that's step one.

The standard then goes on through multiple pages with different categories and responsibilities that the accountant is responsible for.
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4285

Q What obligation does the accountant have to understand the industry for which they are providing compilation services?

A So that section shows up on page 80.09. Paragraph 80.09 , there is a section dedicated to that as well. There is a requirement for the accountant to understand the industry in which the client operates and to have the requisite level of knowledge in order to perform the engagement.

Q What understanding does the accountant need to develop of the client?
A Well, it's an understanding of the client's business, um, an understanding of the principles that are used in order to prepare the financial statements, and an understanding of the industry, itself, that the client operates in.
Q What are the requirements imposed by AR $\S 80$ on the accountant preparing the compilation report? Stated differently, what must a compilation report include?

A So there's another section in here, which I'll direct you to. It starts on paragraph 17 of AR-80, and outlines what the components of the standard report should look like. (Whereupon, the exhibit was displayed on the screen.)
A And that includes how the report is titled to make it clear to a user that the work that the accountant did was a compilation, and actually entitling the report as a compilation report, which is very important, so the user can distinguish
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4286
that from the other levels of service that we talked about before, and differentiate a compilation from an audit or review, or something else.

And there's also some standard language that's included in paragraph 17 that is required to be in the report, you know, outlining what the responsibility of the accountant is. Um, the accountant needs to sign and date the report, um, you know, all this is in this particular paragraph.

Q What obligation does the accountant have to read and understand the supporting data for the compilation?

A Well, an accountant performing compilation services is required to read the -- read the financial statements that are being compiled. Um, understand the methods that are being used to develop estimated current values as reported in the financial statements, and also to evaluate the appropriateness of those methods.

And to the extent an accountant uncovers or discovers that there's a particular accounting treatment that is contradictory to the established convention, which in this particular case is GAAP, there's a requirement on the accountant to modify the standard report and include reference to those exceptions in the accountant's report.

Q What obligation does the accountant have to ensure that the Statements of Financial Condition adequately describes the methods used to achieve estimated current value?

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4287
A Well, the accountant is using their knowledge of GAAP. They are using their understanding of the methods that are being applied, um, for establishing estimated current value for the assets. Um, there's also a section in the standard that talks about considering, um, the broader range of involvement and experience that an accountant may have with that particular client, even outside of the compilation engagement, whether that be in situations where an accountant is performing audit services, um, or tax services, or other work for the client, that that can't be ignored, that that needs to be considered as part of evaluating the compliance of the accounting for purposes of the personal financial statements.

Q What is the accountant's obligation to determine whether the Statements of Financial Condition are prepared in conformity with Generally Accepted Accounting Principles?

A Again, the standard talks about the accountant needing to be -- to respond to any kind of obvious misstatements or differences between the accounting that is being provided to them and Generally Accepted Accounting Principles. Um, and in the course of gaining an understanding of estimated current value and evaluating the appropriateness of whether or not a particular method makes sense under the circumstances, that could lead an accountant to, um, conclude that there is a GAAP departure.

Q What is required of an accountant if he concludes that

J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4289
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this document?
A Ido.
Q What is this document?
A It's the interpretive guidance that I was just referring to.

MR. SUAREZ: Can we zoom in on the paragraph there in the middle -- right there.
(Whereupon, the exhibit displayed on the screen was enlarged.)

MR. SUAREZ: Yes. That works.
Q You see where it says "because the significance."
A Yes.
Q "Because the significance and pervasiveness of the matters previously discussed makes it difficult to assess their impact on the financial statements as a whole, users of these financial statements should recognize that they might reach different conclusions about the company's financial position, result of operations, and cash flows if they had access to revised financial statements prepared in conformity with accounting principles generally accepted in the United States of America."

This refers to the company's financial position. Does this warning also apply to compilation engagements for personal

## financial statements?

A Yes.
Q What is the effect of placing this warning on a compilation report?

A Well, it's a big deal. And it's the judgement of the accountant that if they believe that the departures from GAAP are of such significance that warrant including this paragraph in the accountant's report, it really does serve as the highest level warning that an accountant can communicate to a user of the financial statements that have been compiled.

THE COURT: Hold on a second. We keep talking about accountant, accountant, accountant. Accountant acting in what capacity, because I think a lot of these people are accountants. The clients internal accountants, and then the compilation accountants, so who whose accountants are we talking about?

THE WITNESS: In this case we are talking about the outside accountants that are performing the compilation service.

THE COURT: Right. I'm sort of confused here, because -- it's more the questions than the answers.

The questions are, what are the obligations of the accountant in -- to the compilation? Well, the accountant is doing the compilation. Obviously the obligation is to do it correctly. Am I missing something?
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4291
THE WITNESS: So AR-80 is the authoritative standard that pertains to an outside accountant performing those compilation services. And yes, they need to do their job and do it accurately.

THE COURT: Okay. I think we've had 20 questions about what is their obligation. The obligation is to do it accurately. Is there much more to say than obligation, accurate, following GAAP, et cetera?

THE WITNESS: Let me distinguish then. So, a compilation is very different from saying an audit.

THE COURT: Right. Understood.
THE WITNESS: And auditor needs to do it accurately, too. Doing it accurately under an audit is different then doing it accurately in a compilation. And standards that pertain to audit services explain how an accountant goes about doing it accurately, what they are required to do and not do, which is a lot more in terms of audit testing, vouching, inquiry, analytical procedures. There's a lot more in the standards pertaining to an audit.

A compilation is less than that, um, but still has certain requirements attached to it.

THE COURT: Right. And to hone in on this a bit, you said -- or there was a question, what should the accountant do if they see an error in the compilation? Well the accountant is writing the compilation. You just said we

## J. Flemmons - by Defendant - Direct (Mr. Suarez)

are talking about the accountant that's doing the compilation. What is their obligation if they see a mistake in their own work? Presumably, fix it. Again, am I missing something?

THE WITNESS: Well, to be clear, a compilation entails obtaining the accounting information from a company.

## THE COURT: Raw data sort of?

THE WITNESS: I'm sorry?
THE COURT: Can we call that raw data? The compiler takes raw data from the client.

THE WITNESS: I would say it's refined data.
THE COURT: Okay, okay. Takes refined data and puts it in a certain format, that, say banks could look at and say, oh, yeah, this is one of those Statements of Financial Condition.

MR. SUAREZ: That's precisely the point of the questions, your Honor. It's not that we are putting it in the right format. It's that the accounting firm has obligations and rules that it must follow in order to prepare a compilation report. It's not just a formatting exercise.

What the witness is explaining for the benefit of the Court and the record is the process by which the compilation report is prepared based on the data that's provided from the client. It's not simply a formatting

## exercise.

THE COURT: Oh, okay. Go ahead.
Q A Statement of Financial Condition that has departures from GAAP is still in compliance with GAAP; correct?

A I wouldn't say that a Statement of Financial Condition that is prepared under GAAP and has GAAP deviations is still in compliance with GAAP. What I would say is that issuing those financial statements and identifying those differences with GAAP, either in the financial statements themselves or in the accountant's report, um, would still be a set of financial statements that would be issued to users.

The accounting system is set up such that you are allowed and -- to issue financial statements whether or not they contain GAAP departures, and there are different reporting mechanisms in place to communicate to the users of the financial statements when that happens.

If there are no discrepancies with GAAP, if it were an audit, an accountant would issue what is known as unqualified opinion saying these financial statements are fairly stated in all material respects.

Alternatively, if an auditor determined that there were departures from GAAP, an accountant could then issue a report that is known as an adverse report that would say these financials do not comport with GAAP.

Um, importantly, under both scenarios, the financial
statements are issued. And it's okay to issue financials that are not compliant with GAAP under these standards. (Continued on the next page.)

Q Why is it okay to issue financial statements that aren't compliant with GAAP under these standards?

A Because the accounting system is set up that way. And the accounting standards and these compilation standards we have been talking about provide guidance on how to go about doing that when financial statements are issued that contain GAAP deviations.

Q Do the accounting standards provide another form of disclaimer or disclosure that can be placed in a compilation report if there are -- if there is a greater level of departure from GAAP than this?

A No. This is the highest level language that the standards would suggest be included in an accountant's report when there are deviations from GAAP.

Q And if the departures or deviations from GAAP are so significant that this language was insufficient to address them, what responsibility would the accountant have?

A Well the responsibility would be for the accountant to identify what those departures on in its accountant's report that are attached to the financial statements and to also include this language if they rose to such a pervasive level.

Q And there would be nothing wrong with issuing those Statements of Financial Condition so long as the departures were noted, correct?

A That's correct, that's the very reason why this

## Page 4297

together. It could be, you know, various backup materials and supporting worksheets and calculations that relate to that as well. But all of that is going to the accountant who is going to review it. And then there is a responsibility to then put that into a financial statement format. But in doing so, as we said before, the accountant needs to understand the methods that are being used, assess the appropriateness of those methods. Be on the lookout, you know, for any GAAP discrepancies. And respond to those GAAP discrepancies by raising them with the client, seeking additional information where appropriate to try to resolve those discrepancies, or if the discrepancies aren't resolved, report them in the accountant's report and consider including the highly cautionary language that we just referred to.

Q And the highly cautionary language that we just referred to, under AR section 980.03. Was that language present in a substantially similar form on the compilation reports issued by Mazars for Donald J. Trump Statements of Financial Condition from the year 2011 to the year 2020?

## A Yes.

Q And what is the import of that disclaimer language being present in the compilation reports for those Statements of Financial Condition?

A Well, it is akin to an adverse opinion in an audit. It is putting the user on notice that there are significant

GAAP discrepancies and effectively saying, user beware.
Q And if there are significant -- so significant GAAP departures that user must beware, why would the accounting firm nonetheless issue the compilation report?

A Well, because they are allowed to. You don't have to resolve the GAAP discrepancies and make them conform with GAAP before issuing the financial statements. The accounting system in the United States of America allows you to issue financials that are not GAAP compliant, as long as the discrepancies or the deviations are disclosed. And the accountant's report contains the correct language to identify to the user that those differences exist.

MR. SUAREZ: Please pull up D 950. This has been premarked.
Q Mr. Flemmons, do you recognize this document? A Ido.
Q What is this document?
A This is an audit and accounting guide that was issued by the AICPA, and it provides guidance to practitioners performing services related to personal financial statements; and assists accountants performing those services in applying the relevant standards for those engagements.

Q Do you see at the top where it says American Institute of Certified Public Accountants Historical Collection?

Flemmons - by Defendant - Direct(Suarez)
Page 4299
A Ido.
Q And do you see that it says: Personal financial statements guide with conforming changes as of May 1, 2008 audit and accounting guide?

A Ido.
Q Now, this document predates the effectiveness of AR section 80 and AR-C section 88 , correct?

A Yes.
MR. SUAREZ: If we can turn to the following page.
Q What is this document -- this guide? I am sorry.
A This looks to be the original version of this guide prior to it being updated with the conforming changes that we just saw in the title.

Q Is this guide still useful to accountants preparing compilation reports?

A Yes, it still very applicable guidance that the AICPA has issued and has made available to practitioners in the space. There are, you know, standards that apply, you know, to preparing or to performing either compilations or audits or reviews of personal financial statements, and those reside elsewhere. This guide was intended to provide interpretive guidance to assist practitioners in applying those standards on those kind of engagements. And you can see the thickness of it, it provides a lot more detail than the standards
Flemmons - by Defendant - Direct(Suarez) Page 4300

## themselves.

MR. SUAREZ: You can turn to page five of the guide. On page 17 of the exhibit.
Q Do you see the section where it says use of estimated current values and amounts?

A $\mathbf{M m}-\mathrm{Hm}$ yes.
Q Could you please walk us through this section and explain why it is still valid illustrative guidance, notwithstanding the codification of the standards in 2009 and thereafter?

MR. WALLACE: Objection to relevance. I don't know why we are trying to rehabilitate standards that are out of date. I know why they are doing it, because they spent a lot of time asking Mr. Bender about these points that are no longer active guidance at the time, the times at issue in this case. But at this point, I don't know we have asked more than maybe one question about the actual facts of the preparation of the Statements of Financial Condition. So can we get some showing of how this is relevant to anything that is to be decided in this case?

MR. KISE: I mean I certainly think it is relevant to our overall presentation about what the accounting firm was responsible for and what we were responsible for; whether management reasonably relied on the accounting firm; what the standards were in

Page 4301
preparation. Mr. Bender --
Do we want to do this without the witness, Judge? I'll be brief.

MR. WALLACE: He is an expert witncss, he should have looked at Mr. Bender's testimony anyway.

MR. KISE: That's true. Fair point.
Mr. Bender all but testified that all I had to do is take the data and plug it into the boxes and I am done. So we are pointing out that there is a more deliberative exercise associated with that. He had certain responsibilities. The client had certain responsibilities. And we are just exploring that because it is relevant to the Court's consideration, certainly of intent, if not materiality and some of the other issues. So we are going through it. I mean, we can perhaps move through it a little quicker, but it is -- it is just dense material. It is why after I got my accounting degree I decided to go to law school instead of take the CPA exam, because that's really hard what they do.

THE COURT: Is the main point of the objection that it is outdated.

MR. WALLACE: My objection is not to this line of questioning. My objection is the line of questioning being the out of date guidance that we are going through right now from 2008.

MR. SUAREZ: I believe the witness testified it is not out dated, and there is nothing to the contrary that it is.

MR. WALLACE: He said it might be useful. This is not -- this was not current at the time. There should be some showing of how this is relevant to what we are -what actually happened between 2011 and 2021.

THE COURT: When was this supplanted, replaced, updated?

THE WITNESS: There were some changes that were made in 2008, about a year after that is when the codification came into effect for the accounting standards. But I want to make sure we are clear here, this did not go out of commission. This was still reference material that the AICPA has maintained for its --

THE COURT: Let's save time. Overruled. Go ahead.
Q If we could turn to 1.21.
It says: In determining the estimated current values of some assets (for example: Works of art, jewelry, restricted securities, investments and closely held businesses and real estate) the accountant may need to consult a specialist. Examples of the types of matters that the practitioner may decide require him or her to consider using the work of a
specialist include:
The materiality of the item with respect to the individual's financial condition.

The nature of the financial statement item.
And the date of any previous estimate involving the use of a specialist, the extent of changes in the circumstances since that date, and the method of updating the estimate if appropriate.

Now, I believe there has been testimony at trial, or a suggestion by the Attorney General, that the preparation of a Statement of Financial Condition compilation report is just an exercise in formatting. How is that consistent with the obligation of the accountant in determining estimated current value?

## MR. WALLACE: Objection, leading.

 THE COURT: Overruled.A Well, as this guidance suggests, there are circumstances in which an accountant performing any kind of service, whether it be an audit or review or compilation, you know, could retain a specialist to assist. And this is what this guidance is providing. It is more common to see that situation occur in an audit and less common to see it in a review or compilation. This particular section is more of the general overview of an accountant's responsibilities and considerations for all kinds of engagements related to personal
financial statements. This is not specific to an audit review or compilation, but it is this overarching umbrella that does layout that there are times when an accountant may want to retain a specialist under certain circumstances to assist with the evaluation or the determination of estimated current value.

THE COURT: Mr. Suarez, was a specialist ever used, to the extent that we know what went on here?

MR. SUAREZ: We certainly have conflicting testimony from the Mr. Bender as to whether he actually consulted with an expert. But these would be the obligations of the accounting firm in determining what to do to assist its client in establishing the validity of a method for estimated current value.

And I can move on.
THE COURT: Okay.
MR. SUAREZ: I can move on to the specific sections on the compilation of personal financial statements which appear at page 21 of the PDF.

THE COURT: Five minute warning.
Q If I can focus your attention on the minimum
understanding that the required -- that the accountant must an acquire at section 2.03, where it says: At a minimum, however, the accountant should obtain an understanding of the methods by which the individual determined the estimated current values of significant assets and the estimated current amounts of

Flemmons - by Defendant - Direct(Suarez)
Page 4305
significant liabilities and consider whether those methods are appropriate in light of the nature of each asset or liability. Do you see that?
A I do.
Q Is that an exercise that Mazars would have been required to undertake when compiling the Statements of Financial Condition for President Trump?

A They were certainly subject to this guidance that was provided to them. And this was -- this entire document is reflective of industry practice and best industry practice in performing services related to personal financial statements.

Q And certainly the same would apply to Whitley Penn when they prepared the compilation, correct?

## A Correct.

Q And if we can move on to 2.05 on the following page.
I would like to draw your attention to the obligation of the accountant with respect to or that this guidance provides for determining misstatements that might occur personal financial statements prepared in conformity with GAAP.

How would this guidance instruct an accountant in their compilation of a personal financial statement?

A Well, this touches on the topic we have discussed before where an accountant performing a compilation service needs to respond to deviations from GAAP that are identified as part of performing that service. And this particular paragraph

1 underscores that point and also provides some examples of the type of deviations that may arise during that engagement.

Q Would it be best guidance for -- withdrawn.
What does this section -- what is the import of this section with respect to the last bullet point that says presentation of an asset or liability at an obviously inappropriate value or amount. What does that suggest to the accountant preparing a compilation of a personal financial statement?

A Well, that bullet point is very consistent with the standard AR 80, which requires an accountant performing compilation services to respond to obvious misstatements from GAAP or the convention being used in that engagement. And this is taking that to another level saying that in this particular example the obvious misstatement would be an instance where the reported value is obviously inappropriate. And there are other examples as well.

Q And what would be required of an accountant if he determined that an asset or liability was presented at an obviously inappropriate value or amount when preparing a compilation for a personal financial statement?

A It would be based on their understanding of GAAP, it would be based on their understanding of the method used to value a particular asset or liability. And whether or not that method is appropriate under the circumstances for that asset or

Page 4307
liability.
MR. SUAREZ: I am done with this exhibit. We can put it down.

THE COURT: All right. So let's take a
14-minute break. Be back here at a quarter to 4:00.
(Pause in the proceeding.)
COURT OFFICER: All rise.
Part 37 is back in session.
Please be seated and come to order.
THE COURT: The witness back in the box.
(The witness resumed the stand.)
THE COURT: Let's resume. Next question. Please continue.

MR. SUAREZ: Your Honor, I recognize some of this is dense and I appreciate the court bearing with me.

THE COURT: I am sorry, we didn't hear that.
MR. SUAREZ: I said, I recognize that some of this is dense and I appreciate Your Honor staying engaged with me throughout the questions.

THE COURT: I took accounting 101 in law school, so I am able to follow.
Q Mr. Flemmons, do you recognize the diagram up on the screen?

A Yes, I do.
Q We marked this as our second demonstrative exhibit.

Did you prepare this diagram?
A Yes.
Q What does this diagram represent?
A I am actually kind of proud of this diagram, because it captures a lot of what we talked about so far. It is, speaking of dense, it does have a lot going on. But let me explain what this is intended to communicate.

So, we have talked about earlier the different kinds of reports that an accountant can issue, which are at the very top of this chart. A report by an external accountant can be an adverse report, which would be communicating to a user that there are GAAP deviations, exceptions.

There is also what is known as a qualified report, which would include, for example, this would be really relevant to an audit where an auditor would say that the financial statements comply with GAAP, except for certain things.

Not near as extreme as an adverse opinion where an accountant would be saying these financials do not comport with GAAP as a whole.

And then the far right, unqualified, is the situation where in the case of an audit, an auditor would issue a clean opinion saying that financials are GAAP compliant in all material respects.

And obviously the closer you get to the right from an adverse to an unqualified opinion, that gives a user higher
relevant to this case, we are in the bottom left corner, because we are in the land of compilations and we are in the land of where the accountant has identified in its accountant's report a number of pervasive deviations from GAAP and included that "user beware" language that I discussed before.

MR. SUAREZ: If we can please pull up, already
in evidence, Plaintiff's Exhibit 785?
(Handing)
Q Mr. Flemmons, do you recognize Plaintiff's 785?
A Yes.
Q What is this document?
A This is the engagement letter that was entered into between Mazars and Mr. Trump to perform the compilation services on his personal financial statements.

Q And that says of the year ending June 30, 2011?
A Yes for the 2011 time period, correct.
Q Who drafts the engagement letter?
A The accountant in this case, Mazars, would typically prepare this document.
Q And the document is addressed to Allen Weisselberg; is that right?

A Correct.
Q Is Allen Weisselberg a certificated public accountant?
A That's not my understanding. I don't believe he is.

Flemmons - by Defendant - Direct(Suarez)
Page 4309
confidence, which is denoted there in the top right corner of the diagram.

On the left side I have laid out the three different kinds of engagements that an accountant typically performs.
There are a couple of others that we have talked about that are preparation and bookkeeping services, but for simplicity $I$ have included just the audit review and compilation services on this diagram.

And by their very nature, an audit provides more assurance, you know, to a user than a review. And a compilation provides even less, because a compilation is not an assurance engagement, as we have talked about before.

So, this is intended to show you that as you move from the bottom left comer of the diagram to the top right corner of the diagram, you are giving a user much more assurance and much more confidence because of the fact that there are fewer, if not none, GAAP exceptions.

And you have also, as you get to the top right corner, are getting to the point of issuing an audit opinion, which is inherently much more involved in terms of what an accountant does and the types of testing procedures that an accountant performs.

So, the checkmark here is to show that out of all of these different iterations and the services that an accountant could perform and the types of reports that could be issued

Flemmons - by Defendant - Direct(Suarez)
Page 4311
Q On the second page there are five enumerated departures from generally accepted accounting principles. Do you see that on the page?

A Ido.
Q How would the accounting firm know to include these five departures when it prepares its engagement letter?

A Well, they would identify these items during the course of performing the compilation, reviewing supporting materials that are feeding in to the preparation of the personal financial statements, and during the course of understanding the methods that are used for valuation or other issues that extend beyond valuations. For example, one of the items on here relates to tax provision, but it would be in the course of performing those services that we have gone over earlier today.

MR. WALLACE: Your Honor, I want to note an objection. Can we get a clarification if the witness is talking about what actually happened in the preparation of this engagement letter or if he is talking about general industry practice?

THE COURT: Well, basically sustained. I think we need to know those things.

MR. SUAREZ: Sure.
Q Are you aware of how Mazars would have known - let me withdraw that.

Flemmons - by Defendant - Direct(Suarez) Page 4312

You have become familiar -- have you become familiar with the work that Mazars did on the compilation engagements for the Statement of Financial Condition for President Trump from 2011 to 2020?

A I have based on reading Mr. Bender's deposition and in reading his trial testimony.

Q Have you also reviewed the trial testimony of Mr. Kelly?

A I have.
Q Have you reviewed the supporting data to the Statement of Financial Condition?

A I have.
Q Have you reviewed each of the Statements of Financial Condition for the years 2011 to 2021?

A Yes.
Q And you would agree with me that the ones that were done between 2020 and -- I am sorry 2011 and 2020, those are compilation engagements by Mazars?

A Correct.
Q And those -- the one done in 2021 was done by Whitley Penn?

A That's right.
Q Now, in reviewing the record in this case, are you familiar with the work that Mazars performed for the Trump Organization?

A I am familiar with the materials that they were provided to conduct their compilation. I have reviewed those materials. I cited many of them in my expert reports. And I have reviewed many of them in preparation for today's testimony.

Q Are you aware of the nature of the engagement between Mazars and the Trump Organization, generally?

A Yes, in that it was a compilation engagement.
Q Are you aware of other engagements that Mazars performed for the Trump Organization?

A Yes, I am aware that they performed audit and tax services in addition to performing these compilation services.

Q And what knowledge do you have regarding the historical knowledge that Mazars had with the Trump Organization's books and records?

A Only what I have read in transcripts.
Q The first disclaimer that is placed here on this engagement letter, what is this disclaimer intended to cover?

A Well, it is establishing from the outset that estimated current value is the measure that will be used to report the assets and liabilities on the Statement of Financial Condition.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q Does this disclaimer reflect a departure from Generally Accepted Accounting Principles?
A Yes. So this is the disclaimer section, and this is the first of several that are in this letter. The first sentence is establishing that estimated current value should be used to report assets and liabilities.

The next sentence indicates that -- that in instances that the way that the values are reported were not compliant with estimated current value.

Q In what ways were the values that were reported not compliant with the definition of estimated current value?

A Well, I would just be repeating what this says. It says that some of the values will be based on future interests and that in some instances are not for fixed or determinable amounts or based on performance of future services.

Q That discloses a departure from what is required under GAAP; correct?
A Mazars determined that these were deviations from GAAP.
Q But Mazars was still able to issue a compilation report on that Statement of Financial Condition?

A That's correct.
Q The second departure, what does the second departure address?
(Whereupon, the exhibit was displayed on the screen.)

## Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4315
A So this relates to disclosure of several different items -- I mean, it really does speak for itself in terms of the nature of the exceptions that Mazars had identified. But it relates to the disclosure of several different items.

Q And these are departures that Mazars had identified from Generally Accepted Accounting Principles?

MR. WALLACE: Objection. Leading.
Q Who identified --
THE COURT: Sustained.
Q Who identified these departures on the Statement of Financial Condition from Generally Accepted Accounting Principles?

A Well, it could've been either Mazars or management. But obviously this is appearing in Mazars's report. It -- it doesn't necessarily mean that Mazars was the one that identified it, but it's being disclosed in their report.

Q The third category.
(Whereupon, the exhibit was displayed on the screen.)
Q Identified here, what does this departure address?
A This is addressing the fact that there was a liability related to membership deposits that had been, um, incurred by the - by Mr. Trump, but that liability was not being reported on the Statement of Financial Condition. And that would be inconsistent with GAAP, therefore, giving rise to this

|  | emmons - by Defendant - Direct (Mr. Suarez) Page 4316 |
| :---: | :---: |
|  | additional deviation. |
| 2 | Q And would there be anything wrong with issuing a |
| 3 | Statement of Financial Condition that had this deviation? |
| 4 | A Not at all |
| 5 | Q With respect to the fourth. |
| 6 | (Whereupon, the exhibit was displayed on the |
| 7 | screen.) |
| 8 | Q Departure from GAAP, what is this departure from GAAP |
|  | intending to cover? |
| 10 | A This is what I was referring to earlier about under |
|  | GAAP. Financial statements are required to have a provision for |
|  | income taxes. Mr. Trump's Statement of Financial Condition did |
|  | not contain that line item, and therefore, that lead to this |
|  | disclosure by Mazars to flag that for the users. |
| 15 | Q And would there be anything wrong with issuing a |
| 16 | Statement of Financial Condition that had this departure from |
| 17 | GAAP? |
| 18 | A Not under the applicable standards, no. |
| 19 | Q Would the same be true of the first and second |
| 20 | departure? |
| 21 | A Correct. |
| 22 | Q The fifth departure? |
| 23 | (Whereupon, the exhibit was displayed on the |
| 24 | screen.) |
| 25 | Q What does this departure address? |

J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4317

A This is identifying that there are additional assets and liabilities that Mr. Trump owns or owes, however, those items are not included in the Statement of Financial Condition. Under GAAP, in order to present complete financial statements, one would include all assets and liabilities, but these are being excluded, and therefore, being disclosed to users that the financial statements that are being provided do not include these items.
Q Is it acceptable to issue a Statement of Financial
Condition that excludes these assets and liabilities identified in this departure?
A Under the relevant professional standards in America, yes.

## Q Why is that?

A Well, we went through earlier the requirements and the reporting aspects of the compilation standards, and there is a whole section dedicated to the situation in which an accountant identifies deviations from GAAP and reports those and includes additional cautionary language if they are pervasive enough.

Q And on the next page.
(Whereupon, the exhibit was displayed on the screen.)
Q I believe we see the cautionary language that we discussed earlier; is that correct?
A Yes, the second or the first full paragraph, yes.

Q Now, if we take a look at the management rep letter for that same year and we pull it up side by side, Plaintiff's Exhibit 786.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
Q Would you agree with me that this is the management representation letter for the June 30, 2011, statement?

A Yes.
Q Okay. Who prepares the management representation letter?

MR. WALLACE: Objection. Again, are we asking about who prepares this letter or who, in general practice, prepares a letter.
Q Do you know who prepared this letter?
A Well, I could attempt to answer both scenarios.
Q Sure.
A The standard practice in the industry is that the accountant performing the services will provide the management representation letter to management. Management will then put it on their own letterhead and sign and deliver it back to the accounting firm; that's the general standard practice.

Specific to this case, I believe that standard practice was followed based on Mr. Bender's testimony. I believe he testified to that.

## emmons - by Defendant - Direct (Mr. Suarez)

Page 4319
Q Do you see in the fifth full paragraph where it says in the first line, "The statement referred to above is fairly presented in conformity with accounting principles generally accepted in the United States of America"?
A Yes.
Q How is that statement that was drafted by Mazars and given to its client to sign consistent with the departures in the engagement letter that predate this letter?

A It's obviously not consistent.
Q And why is that?
A Well, this sentence that we highlighted on the management representation letter indicates that the Statement of Financial Condition is in conformity with GAAP, however, the engagement letter that's on Mazars letterhead, um, identifies multiple instances where the Statement of Financial Condition is not in compliance with GAAP.

Q Would it be appropriate for Mazars to draft and provide the Trump Organization a management representation letter that they know is inaccurate?

A It doesn't seem appropriate in this case given that there are clearly GAAP deviations that Mazars themselves have reported to the users of the financials.
Q Would you expect an accounting firm that provides the draft and management representation letter for its client to sign, to confirm that it's accurate with their understanding of

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4320

what's actually being provided?
A I would expect that. I will just add one piece, that the management rep letter that was sent is a pretty standard letter in the industry. And again, I don't want to speculate,
but it appears to me that Mazars just did not update that standard letter to include the exceptions that were listed in the engagement letter.

Q Would it have been appropriate for Mazars to include the exceptions that were in the engagement letter in this management rep letter?

MR. WALLACE: Objection. Leading.
MR. SUAREZ: I'm trying to move it along.
THE COURT: Overruled. But just a read back the question.
(Whereupon, the requested question was read back by the court reporter.)
A Some sort of modification to the management representation letter, I would have expected to see whether it be by itemizing the exceptions that are listed in the engagement letter, or having some qualified language in the representation letter that says that the financial statements are not in conformity with GAAP.

MR. SUAREZ: If we could pull up the engagement letter appearing at Plaintiff's Exhibit 727.
(The exhibit was handed to the witness.)
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4321
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this letter?
A Ido.
Q Is this a standard form of engagement letter on a compilation engagement?
A Yes. This appears to be the standard engagement letter that was used by Mazars for 2015.
Q Do you see where it says "compilation objective"?
A Yes.
Q Do you see where it says, "The objective of a compilation is to assist you in presenting financial information in the form of financial statements"?

## A Yes.

Q The person assisting is the accounting firm; correct?
A That's correct. That would be Mazars in this case.
Q And if we turn to the second page of this document, there are now six departures that have been identified as departures from general Generally Accepted Accounting Principles; correct?
(Whereupon, the exhibit was displayed on the screen.)
A Yes.
Q And is it the case that it was appropriate -withdrawn.

Was it appropriate for Mazars to issue a compilation on Statement of Financial Condition that contain six departures from Generally Accepted Accounting Principles?
A It was appropriate as long as their report identified the departures in some form or fashion so that users of the financial statements understood that there were such departures.

THE COURT: And I'll ask Mr. Suarez to talk a
little louder and the witness to be a little closer to the mic, like I'm doing.

MR. SUAREZ: And then if we could pull up Plaintiff's Exhibit 728 alongside this one.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
MR. SUAREZ: I have a red light on my mic. I might have exhausted the --
(Whereupon, there is a brief pause in the testimony.)

MR. SUAREZ: And we are back.
THE COURT: Much better.
Q And in this instance, how is the -- I'm sorry,
Plaintiff's Exhibit 728, which is already in evidence, do you recognize this document?
A Yes, it's the management representation letter for the 2015 Statement of Financial Condition compilation.

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4323

1

Q And how, if at all, is this management rep letter different than the one we saw for the year ending June 30, 2011?
A I would need to put them side by side to do a direct comparison, but I believe it's very consistent, if not identical.
Q In the instance of the 2015 letter, can you observe here, it says -- it lists out the actual departures from GAAP in the management rep letter.
A Yes. And I clarify my prior statement, because obviously this letter contains and delineates the exceptions that were identified by Mazars, whereas the prior letter we saw for the prior time period did not do that.
Q This would indicate that Mazars corrected the management rep letter?
A Yes. They updated the management rep letter to flag the deviations from Generally Accepted Accounting Principles.

Q Would that have corrected the failure to include that letter -- excuse me, would that have corrected the failure to include those departures in 2011?

MR. WALLACE: Objection to the characterization of the prior letter.

THE COURT: I'm not sure it means to correct it. MR. SUAREZ: Withdrawn.
Q You would agree with me that those departures weren't identified in the prior representation letters; correct?

## A I agree.

Q And that in 2016, for the year ending June 30,2015 , Mazars appears to have corrected the management rep letter that it drafted --

MR. WALLACE: I'm objecting to the correction.
MR. SUAREZ: I haven't even finished.
MR. WALLACE: Fine.
THE COURT: Mr. Suarez, you are using the same wording, "corrected." Something is incorrect and something is corrected doesn't necessarily correct what's incorrect. It just supplants it with something that is correct, assuming it is.

MR. SUAREZ: I think I could use the word revised. Q Revised the letter to include the departures?

THE COURT: Not revising it, unless it says this is a revision of the earlier letter. It supplants or replaces. Q Is the form used after, for 2015 and years after, include the departures from GAAP, whereas prior to 2015 it did not?

THE COURT: Asked and answered about three times. It does. Okay, you know it does.

MR. SUAREZ: Okay. All right. Let's turn to page two of Plaintiff's Exhibit 728?
(Whereupon, the exhibit was displayed on the screen.)
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4325

Q Do you see here in paragraph two where it says "We have made all financial records and related data available to you. We have not knowingly withheld from you any financial records or related data that in our judgment would be relevant to your compilation"?

A Yes.
Q Would it be relevant to a compilation to provide the account appraisals that were not used in arriving at the estimated current value of an asset?

A There would be no obligation or expectation on the part of Mazars, or any accountant performing compilation services, to receive supporting information for amounts that are not reflected on the Statement of Financial Condition.

Q If The Trump Organization had an appraisal that it didn't use in determining the estimated current value of an asset, would The Trump Organization have any obligation to provide that to Mazars?

A No. There would be no expectation under professional standards in the accounting and auditing industry that that information be provided, um, if it's not something that's being reported in the financial statements for the compilation.

Q Are you aware of testimony by Donald Bender that he requested to know about appraisals, even if they weren't used in reaching estimated current values?

A I read that in his transcript, yes.

Q What is your reaction to that testimony?
MR. WALLACE: Objection. I'm not sure, the witness's reaction to testimony?

THE COURT: I'll allow it. If it causes a reaction, I want to hear what it is.
A Well, it's not something that's required by the professional standards, and therefore, when I read that, my reaction to it was that his testimony was not professionally plausible. It doesn't make any sense that an accountant performing a compilation service would seek information, whether it be appraisals, or other supporting information, or other information, that was not used to support the reported values in the financial statements.

MR. WALLACE: I object to this. This is not a proper basis for expert testimony, whether someone's stated factual request is professionally plausible. Is he trying to say the witness is lying?

THE COURT: Not to put too fine a point on it. Um, all right. Let's -- Mr. Kise.
MR. KISE: Again, I'm not going to violate your rule and say something if you are going to rule our way. You've already told me that. So it took me a while to learn that, but.

THE COURT: Better late than never. MR. KISE: Indeed.
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4327
THE COURT: Yeah, I'm not objecting to -sustaining the objection to the question -- to the answer. I'm not sure it means would not have expected -- can we get a clarification, either another question.

MR. SUAREZ: May I ask the witness to explain his answer.

THE COURT: Sure. Let's do that.
Q Can explain what you mean by "professionally plausible"?
A Well, the standards would not require an accountant, particularly performing a compilation, to seek information outside of the population of information used to generate the Statement of Financial Condition. Um, a compilation is, as we've said before, not an assurance engagement. It's a much lighter touch engagement.

Um accountants in the industry do not go seeking records in support for things that are not within the four corners of what's to be reported in the Statement of Financial Condition, so that's why my reaction was, I believe that was implausible, because it runs entirely inconsistent with the requirements associated with the compilation.

THE COURT: So a compiler is not obligated to know about or ask about any appraisals, but you don't think it's plausible that one would ask, "Hey, do you have an appraisal?"

| J. Flemmons - by Defendant - Direct (Mr. Suarez) | Page 4332 |  |
| ---: | :---: | ---: |
|  | THE COURT: Counsel, let's do our scheduling. I'll | 1 |
| 1 | turn the microphone over to the person sitting next to me -- | 2 |
| 2 | alongside me. | 3 |
| 4 | MS. FAHERTY: Can you provide an admonition to the | 4 |
| 5 | witness, your Honor. | 5 |
| 6 | THE COURT: The witness, Mr. Clemmons -- you spell | 6 |
| 7 | it different from Mark Twain? | 7 |
| 8 | THE WITNESS: It's Flemmons, with an F. | 8 |
| 9 | THE COURT: I had that wrong. I order you not to | 9 |
| 10 | discuss this case, your testimony, or anything related to | 10 |
| 11 | it, until you are excused tomorrow. | 11 |
| 12 | THE WITNESS: Understood. | 12 |
| 13 | THE COURT: Thank you. | 13 |
| 14 | (Whereupon, the witness stepped down from the | 14 |
| 15 | witness stand.) | 15 |
| 16 | MS. GREENFIELD: So tomorrow, two to three hours | 16 |
| 17 | more of direct? | 17 |
| 18 | MR. SUAREZ: I think in the morning I could wrap it | 18 |
| 19 | up. | 19 |
| 20 | MS. GREENFIELD: Okay. So that's two, three hours. | 20 |
| 21 | How much cross do we anticipate? | 21 |
| 22 | MR. WALLACE: It's still an hour, maybe two. | 22 |
| 23 | MS. GREENFIELD: Okay. So the next witness, then, | 23 |
| 24 | after Mr. Flemmons will be Collins; is that correct? | 24 |
| 25 | MR. SUAREZ: That's correct. | 25 |

be after Laposa on Thursday?
MR. ROBERT: At this point we are trying to move things around. We don't have anybody yet because of the fact we expected their crosses to be longer. I can tell you we are trying make sure we have everything filled next week, Monday and Tuesday.

MS. GREENFIELD: You'II work tonight on getting somebody else for Thursday and Friday.

MR. ROBERT: We'll try, but I can't promise we'll be able to.

MS. HABBA: I'm in contact with their attorney. It's somebody who is represented, and we are working with them. We are trying.

MS. GREENFIELD: Okay. Hopefully we'll have an update tomorrow.

MR. ROBERT: I'm sure we will.
THE COURT: Speaking of tomorrow, 10:00?
MR. ROBERT: Good.
MR. WALLACE: See you then, your Honor.
(The case on trial was adjourned to Wednesday, November 15, 2023 at 10:00 a.m.)

Flemmons - by Defendant - Direct (Mr. Suarez) <br> 1 and there were disclosures that occurred later in time that <br> 2 became a little more summarized, but covered a broad landscape <br> 3 of the assets reported in the Statement of Financial Condition. <br> MR. SUAREZ: I would like to pull up Plaintiffs Exhibit 730. <br> (Whereupon, the exhibit was displayed on the screen.) <br> Q Do you recognize this document, Mr. Flemmons? <br> A Yes. This is the Statement of Financial Condition for 2014. <br> Q And does this statement include an accountant's compilation report within it? <br> MR. SUAREZ: If we could turn to the next page. (Whereupon, the exhibit was displayed on the screen.) <br> A Yes, it does. And it's very standard for the <br> compilation report to be attached to the financial statements. <br> Q Must the compilation report and the financial statement be read together? <br> A Absolutely. It's widely accepted and implicit in the <br> 21 accounting and reporting standards that the financial statements <br> 22 are not to be relied upon in a vacuum, but rather read in <br> 23 conjunction with any accountant's report, whether it be add <br> 24 audit, review or a compilation. <br> 25 The accountant's report is the only mechanism that an |

| J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4339 |  |
| :--- | :--- |
| 1 | accountant has to report to a user of the financial statements, |
| 2 | and to alert them to any potential issues with regard to the |
| 3 | presentation of the financials. |
| 4 | Q In the 2014 Statement of Financial Condition, how many |
| 5 | GAAP departures are identified in the compilation report? |
| 6 | A |
| 7 | Well, there are quite a few. Um, I would start with |
| 8 | fourth paragraph in the report. |
| 9 | Screen.) |
| 10 | Q $\quad$ What is this GAAP departure intended to cover? |
| 11 | A Well, this is basically saying that there are GAAP |
| 12 | exceptions with how estimated current value was determined for a |
| 13 | variety of different assets as discussed in notes 3, 4, 5 and 6. |
| 14 | And in totality, when considering which assets were encompassed |
| 15 | by those footnote disclosures, that covered 95 percent of the |
| 16 | assets for this particular period. |
| 17 | Q And what does it mean in a GAAP departure does -- |
| 18 | excuse me. In a gap disclosure, when it says that "Several of |
| 19 | the values have been based on future interests that in some |
| 20 | instances are not for fixed or determinable amounts, and in some |
| 21 | instances are based on performance of future services." |
| 22 | A $\quad$ Well, again, this is a fairly broad disclosure that |
| 23 | could cover a variety of different issues with regard to GAAP |
| 24 | accounting. I know that one of them, that this addresses -- and |
| 25 | this was also consistent with Mr. Bender's deposition testimony, | this was also consistent with Mr. Bender's deposition testimony,

## 1 preparer's obligations under GAAP?

A Yes.
Q Is the fact that this departure exists a reason not to issue the financial statement?

A Absolutely not. As we've discussed yesterday, it's -the accounting and reporting regime in the United States is set up such that financial statements can be issued even though they contain GAAP departures, as long as the appropriate language is contained in the accountant's report.

Q Moving onto the next disclosure.
(Whereupon, the exhibit was displayed on the screen.)
Q I believe this is the fourth disclosure. What is this disclosure intended to cover?

A This is another GAAP exception that relates to the requirement under GAAP to include a provision for income tax, and the Statement of Financial Condition did not contain such a provision. And this language is intended to communicate that excluded item from the Statement of Financial Condition.

Q Moving onto the fifth disclosure.
(Whereupon, the exhibit was displayed on the screen.)
Q What is the fifth disclosure intended to cover?
A This is related to the requirement under US GAAP to separately report cash and marketable securities. However, the

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4342
Statement of Financial Condition had lumped the two together into one line item, and this disclosure alerts the user to that presentation.

Q Moving onto the sixth disclosure.
(Whereupon, the exhibit was displayed on the screen.)
Q What is the sixth disclosure intended to cover?
A This is communicating to the users of the financial
statements that there are certain assets and liabilities for certain properties that were not included in the Statement of Financial Condition.

Q Is it appropriate to omit assets and liabilities from the Statement of Financial Condition?

A In order for the financial -- the Statement of
Financial Condition to be comprehensive and reflect all of the assets and liabilities of Mr. Trump, under GAAP, those items would have been included in the Statement of Financial Condition, but this disclosure is telling the -- the user that those items are not included.

Q With the disclosure is it appropriate to issue the Statement of Financial Condition?

A Yes.
Q All right. Moving onto the asset sheet.
(Whereupon, the exhibit was displayed on the screen.)
J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4343

1 Q What do you mean when you say that 95 percent of the assets are covered by a GAAP disclosure?

A So as we saw on the accountant's report, there is disclosure as to deviations from GAAP and how estimated current value was determined. And that it's in paragraph four of the accountant's report. And it references notes $3,4,5$ and 6. And notes three - or note three corresponds to real and operating properties, which is the third category on the asset statement.
(Whereupon, the exhibit was displayed on the screen.)
Q And that covers everything from Trump Tower through properties under development?

A Correct. Note four covers partnerships and joint ventures, which is the next category on the Statement of Financial Condition. Note five covers real estate licensing developments. And note six covers other assets.

So when you tally up all of the amounts reflected in the Statement of Financial Condition for those categories, that reflects 95 percent of the total assets.

Q Now, in preparing the account and compilation report, would Mazars have to take into consideration knowledge that it obtains in other engagements for the same client?

A Yes. The professional standards that relate to Mazars' compilation engagement do speak to an accountant needing to

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4344
considered the broader landscape of their involvement with a particular client when evaluating whether methods are appropriate under GAAP during a compilation.

Q Should Mazars include disclaimer language that is required if it knows from the supporting data that the disclaimer language is appropriate?

MR. WALLACE: Objection. Mazars includes -- I believe the report is -- I'm not sure at what point in the process he is describing this. This is the Trump financial statement, so I'm not sure what part of the process Mazars needs to include something.

THE COURT: Read it back, please.
(Whereupon, the requested testimony was read back by the court reporter.)

## THE COURT: Overruled.

A Mazars was required to include language addressing GAAP exceptions to the extent they became aware of them in the course of their compilation.

MR. SUAREZ: If we could please pull up, side by side, Plaintiff's Exhibit 719.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: Can we scroll this or zoom it out so that we could see the two columns.
(Whereupon, the exhibit displayed on the screen was sure.
zoomed out.)
Q What do these red marks and blue marks mean on this document?
A I believe those are what are referred to in accounting and auditing parlance as tick marks that would be referencing work paper numbers within Mazars' set of documents that were prepared for this compilation.

Q Would that show that Mazars reviewed the document?
A It certainly is indication that they reviewed this for

Q If we look at the real and operating property, Trump Tower, which is the first one that appears here in the supporting data, is the method used for determining estimated current value for Trump Tower consistent with the requirement of ASC-274?
A Yes. It appears to me that the method that is being used here is one of the methods that we went over yesterday that is provided by ASC-274, which is capitalization of earnings.

Q Now, in the bottom there is a cap rate that's indicated for the capitalization of earnings right under the Trump Tower spreadsheet, under the financials.

## Do you see that there?

A Yes.
Q Does this note indicate to Mazars the basis for selecting a cap rate?

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4346
A It does provide additional context on the cap rate, yes.

Q Was the method for estimating current value for Trump Tower disclosed to Mazars in the supporting data?

A Yes, this has very substantial detail on how the calculation of estimated current value for Trump Tower was developed.

Q And then do the notes disclose the basis for reaching estimated current value for Trump Tower?

A Yes.
Q And would it have been Mazars' responsibility to make sure that the information that it reviewed in the supporting data was adequately disclosed in the notes? MR. WALLACE: Objection. Leading. THE COURT: Sustained.
Q What responsibility did Mazars have to ensure that the information that it reviewed in the supporting data was adequately disclosed in the notes?

A Well, the standards that apply to Mazars for compilations do require an evaluation of whether the disclosures contained within the Statement of Financial Condition are consistent with the underlying support.

Q Moving on to Niketown. Is the method for determining estimated current value for Niketown consistent with the requirements imposed by ASC-274?

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4347

A I haven't reviewed this in quite some time, but sitting here right now it looks to be identical methodologies to what was used for Trump Tower, um, at least with regard to the fact it was the capitalization of earnings.

So to the extent there's not another nuance here that I'm overlooking, it looks to be the same methodologies that's provided by estimated current value under ASC-274.

Q And again, you see at the bottom of the section on
Trump Tower there's a discussion concerning the cap rates that are used?
A Yes.
Q And should it have been apparent to Mazars that the cap rate selected was selected by The Trump Organization and not Cushman \& Wakefield? MR. WALLACE: I guess objection to "should." THE COURT: Sustained.
Q Is it apparent to you that the cap rate that was selected in this section for Niketown was selected by the preparer, The Trump Organization, and not Mazars - Cushman \& Wakefield, I'm sorry.

MR. WALLACE: Objection. Leading. THE COURT: Sustained, but it was a good try. MR. SUAREZ: Thank you. THE COURT: You're getting closer.
Q From reading the cap rate section, who supplied the
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4348
capitalization rate that was used in the calculation of value for Niketown?

A Based on my reading of the note that provides more context on how the cap rate was determined, it appears that it was the -- it was management of The Trump Organization that would have provided or ultimately determined what the cap rate was to use. However, there is reference to Doug Larson of Cushman \& Wakefield that provided some input that appears to have influenced, to some extent, the ultimate conclusion on the cap rate.

Q How does the note provide further detail on the selection of the cap rate?

A Well, it says that Cushman \& Wakefield had indicated that retail properties or cap rates for retail properties in this particular area are usually 60 basis points lower. And that was apparently used as additional information by The Trump Organization to make an adjustment to the cap rate and lower it, um, but they do reference not lowering it all the way down by 60 basis points, but being conservative and reducing it only by 50 basis points.

Q Was it disclosed to Mazars that the capitalization rate was ultimately selected by The Trump Organization?
A Yes, I think that's very clear and implicit from this work paper.

MR. SUAREZ: Moving onto 40 Wall Street.
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4349
(Whereupon, the exhibit was displayed on the screen.)
Q Is the method for selecting -- excuse me. On 40 Wall Street, is the method for determining estimated current value consistent with the requirement of ASC-274?
A Yes. It appears to follow the same methodology we talked about for the prior two properties, and that it's a capitalization of earnings, which is one of the methods provided under ASC-274.
Q If there was an appraisal that had a different value for 40 Wall Street, would that preclude management from using this method of determining estimated current value?

A Absolutely not. ASC-274 allows for a wide range of methods that can be used. One of those methods is the one that is being used here, capitalization of earnings.

The use of appraisals is another alternative method that may be used, but they are not mandated. So to the extent this particular method aligns with ASC-274, which in my view it does, it is absolutely permissible to use it.

MR. WALLACE: Your Honor, can I just ask for clarification from this witness whether he is testifying as to methodologies versus the actual conclusion that the values stated here is, in fact, the estimated current value, which I believe is also a requirement of ASC-274. MR. SUAREZ: Your Honor --
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4350
THE COURT: You could investigate that in cross examination. I thought his testimony was clear.

MR. WALLACE: Fair enough, your Honor.
Q Moving onto the Trump International Hotel in Chicago.
You could see -- what value is assigned to the Trump
International Hotel and Tower in Chicago?
A Zero.
Q And why is that -- I'll withdraw the question.
Was it disclosed in the GAAP departures that the Trump International Hotel and Tower wasn't included in the Statement of Financial Condition?

A Yes. It's zero. And that's consistent with the disclosure in the accountant's report that communicated to the users that that property would be excluded from the Statement of Financial Condition.

Q Okay. Moving onto Trump Park Avenue.
Is the method for determining estimated current value for the Trump Park Avenue consistent with the requirements of ASC-274?
A Yes. It appears to be using the same method of using a cap rate -- a capitalization rate against estimated earnings.

Q And can I draw your attention to the top of the section where it says "Valuation is based on the anticipated selling price of unsold residential units and the selling price or the rental income stream to be derived from the commercial space."

A Can you repeat that, please.
Q Sure. (Continued on the next page.)
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4352
A Yes.
Q Is that a permitted or a permissive -- excuse me. Withdrawn.

Is it appropriate to make an assumption that Mar-a-Lago will be sold -- let me withdraw that and try again.

The assumption that Mar-a-Lago will be sold to an individual is a basis for establishing estimated current value. Is that permitted in the selection of methodology under ASC-274?

A Well, ASC-274 doesn't get into that level of detail, um, but it does implicitly involve hypotheticals, but also planned courses of action.

So to the extent The Trump Organization contemplated potentially, you know, selling this to an individual, that would be an appropriate basis for basing the estimated current value on that basis.

Q Now, the selection of club facilities includes a number of different assets that have been grouped together? MR. SUAREZ: If we could turn back to the Statement of Financial Condition at Plaintiff's Exhibit 730 on the asset sheet.
(Whereupon, the exhibit was displayed on the screen.)
Q Which appears at page four of the exhibit.
Mr. Flemmons, what do accounting standards require for properties to be grouped together in the presentation of assets?

Q What are there in the accounting standards to instruct whether a group of properties can be placed together as a single unit in these Statements of Financial Condition?

A There is not a lot of specificity in the standard. It allows for a lot of judgment on the part of the preparer.

Q Who determines the method of grouping the assets on the Statement of Financial Condition?

A Well, during a compilation it could either be, in this case, Mazars or the Trump Organization, depending on how the detail was provided. But Mazars as the outside accountant in preparing this particular set of financial statements would have had a hand in that determination.

Q Should Mazars have known what assets comprised each category on the asset sheet in the Statements of Financial Condition?

MR. WALLACE: Objection on the "should." THE COURT: I think the context is clear.

## Overruled.

A Mazars was provided with all of the detail that supported the $\$ 2$ billion of club facilities, and in my view would have been fully aware of the components.
Q Moving on in the supporting data to the Trump International Golf Club in Florida.

On the supporting data which appears at Plaintiffs 179, what is the basis for valuing the Trump International Golf

## Club in Florida?

A It appears from this it is a cost approach. It refers to value of fixed assets, which, fixed asset value is often synonymous with a cost basis.

Q And is fixed asset value an appropriate method for determining estimated current value under ASC 274 ?

A Yes, it is one of the methods that is provided under the standard.

Q Moving on to the Trump International Golf Club in Briarcliff. Is the method used for determining the estimated current value of the Golf Club in Briarcliff consistent with the requirements of ASC 274?

A It appears to be using the same cost basis as the prior property we just looked at; and that is an appropriate method under ASC 274.

Q Was the basis -- withdrawn.
Was the method for determining estimated current value disclosed to Mazars in the supporting data?

A Yes, it is very clear from this document.
Q Moving on to the Trump National Golf Club in Bedminister. Is the method for determining estimated current value for the Trump National Golf Club in Bedminister consistent with the requirements of ASC 274 ?

A Yes, same as before, it is the same method that is provided by ASC 274.

Page 4356

Q Was the method for determining estimated current value for the Trump National Golf Club in Bedminister disclosed to Mazars in the supporting data?

A Yes, this schedule was provided to Mazars and therefore contained the information to communicate to them how this property was being valued.

MR. WALLACE: Your Honor, I would just like to note an objection. I think the questioning here is unclear as to whether the process he is opining on is the valuation of fixed assets or if he is including the premium that is added as well for these various golf clubs.

THE COURT: Again, I'll let you cross. Obviously you can cross examine on this.

MR. WALLACE: Your Honor, if he is offering an opinion about the total valuation, including the premium, we would renew our motion to preclude that testimony. And I would be happy to discuss that with the witness out of the room. I think whether or not he is referring to the total valuation, including the premium or just a use of fixed assets, is relevant to whether or not we want to reraise that objection.

THE COURT: All right. We will excuse the witness.
(Whereupon, the witness exited the courtroom.)

MR. WALLACE: Your Honor, if the valuation opinion -- or I should say, if the accounting opinion we are receiving now is a valuation that the brand premium is appropriate, we object to that testimony. That issue has will been decided on summary judgment. It was decided with explicit reference to the other accounting expert, that the defendants retained, Professor Bartov. That evidence was presented extensively in the briefing and in the evidence presented by the defendants. Your Honor directly addressed that opinion, which is the same that Mr. Bartov provided, the same opinion we are hearing now from Mr. Flemmons. And that's at page 28 of your summary judgment opinion, where you wrote: In opposition defendants submit the affidavit of Elie Bartov, an accounting professor at New York University, who distinguishes between overall brand value and brand value ascribed to individual golf courses. His point, ensconced in numerous lines of academic jargon, seems to be the defendants said they were eschewing the former and opting only for the latter. This is a red herring. It is actually incorrect. The SFC clearly stated that they do not include a brand value for any of the property included in the SFCs. Indeed, the SFC emphatically declare the good will attached to the brand name has significant financial value that has not been prepared in the
preparation of this financial statement.
So the same opinion from a different expert was expressly considered on summary judgment, and this would not be appropriate. And it would be irrelevant to now bring in their second accounting expert to try and enter the same opinion.

THE COURT: There is no jury here and no prejudice. I am just going to allow them to present their defense and you can cross examine to your heart's consent. Overruled.

Let's get the witness back.
(Whereupon, the witness resumed the stand.)
Q Mr. Flemmons, moving on to the Trump National Golf Club in Colts Neck. Is the method used for determining estimated current value for the Trump National Golf Club, Colts Neck, consistent with the requirements of ASC 274 ?

A Yes, it appears that the method being used is the same as the prior properties, with the exception of their, you know, being an added premium related to the Trump brand of 30 percent. And that is an appropriate way under GAAP for purposes of the Statement of Financial Condition to include that additional amount. ASC 274 would not preclude that.

Q Was the method for determining the estimated current value disclosed to Mazars in the supporting data?

A Yes, this is the supporting data, and it is very
clear what the components of that valuation are.
Q Moving on to the Trump National Golf Club in
Washington DC. Is the method for determining estimated current value for the Trump National Golf Club in Washington DC consistent with the requirements of ASC 274?

A Yes, for the same reasons as the prior property we just discussed.

Q And was the method for determining estimated current value disclosed to Mazars in the supporting data?

A Yes.
Q Is the method for determining estimated current value using a premium for fully operational branded facility disclosed in the notes of the Statement of Financial Condition?

A Yes, there is disclosure about brand premium being part of the property valuations.

Q And would Mazars have had an obligation to ensure that the disclosures contained in the Statement of Financial Conditions be consistent with what was presented in the supporting data?

A Yes.
Q Now, in the Statement of Financial Condition, there is a note that I would like to draw your attention to at page 23 of the exhibit, page 21 of the document.

Can I please draw your attention to where it says: "As stated in Note 1, this financial statement does not reflect
these documents. And this footnote adds a little more context.
Q Moving on to the Trump National Golf Club in Philadelphia. Is the method for determining estimated current value consistent with the requirements of ASC 274 for the Trump National Golf Club in Philadelphia?

A Yes, this appears to be an identical methodology as to what we just looked at.

Q And was the method for determining estimated current value disclosed to Mazars in the supporting data?
A Yes.
Q I have the same question about the Trump National Golf Club in Hudson Valley. Is the method for determining estimated current value consistent with the requirement of ASC 274?

A Yes, for the same reasons as the prior two properties we just discussed.
Q Was the method for determining estimated current value disclosed to Mazars in the supporting data?

A Yes.
Q Moving on to the Trump National Golf Club in Los Angeles. Is the method for determining estimated current value for the Trump National Golf Club Los Angeles consistent with the requirements of ASC 274?

A It appears so. The reason I hesitate is it does have another section in the middle here that was a little different

Flemmons - by Defendant - Direct(Suarez)
Page 4360
the value of Donald J. Trump's worldwide reputation, except to the extent it has become associated with properties either operative or under development."

Is that statement in the Statement of Financial Condition consistent with the method for determining current estimated value for the Golf Club properties in the supporting data?

A Yes. This specifically relates to what we are looking at here in the supporting schedule related to brand premium. And this disclosure is notifying users of the financials that, you know, brand premium is part of some of the properties valuations.

Q Moving on to the supporting data under value. It has a note that I would like to draw your attention to the note. It says: "September 3, 2013. Per telephone conversation with Tom Bennison, Trump branded clubs are more valuable than most golf -- than most golf courses." Do you see that?

A Yes.
Q Was the method -- withdrawn.
Was the basis for the inclusion of the brand premium disclosed to Mazars in the supporting data?

A Well, this note provided additional context on the rationale for including a premium. It is not clear how the 30 percent was arrived at. But at the same time the rationale for including a brand premium at all is clearly disclosed in

Flemmons - by Defendant - Direct(Suarez)
Page 4362
than the prior three properties that we looked at. And I am not sure I have looked at that part in quite some time. But probably want a little more time to think about that. But certainly sitting here right now, it appears that this does comply with ASC 274.

Q And was the method for determining estimated current value disclosed to Mazars in the supporting data for the Trump National Golf Club Los Angeles?

A Yes.
Q Moving on to the Trump National Golf Club in Charlotte. Is the method for determining estimated current value consistent with the requirements of ASC 274 ?

A Yes.
Q Was the method for determining estimated current value for the Trump National Golf Club in Charlotte disclosed to Mazars in the supporting data?

A Yes.
Q Moving on to the Trump National Golf Club in Jupiter. Is the method for determining estimated current value consistent with the requirements of ASC 274 ?

A Yes, this is the same methodology we have discussed for these adjacent properties.

Q Which again, includes the premium for the fully operational branded facility, correct?

A Correct.

Q And was the method for determining estimated current value disclosed to Mazars in the supporting data?

A Yes.
Q The following property, Trump Golf Links Ferry Point. Is the method used for determining estimated current value consistent with the requirement of ASC 274 ?

A I think I would need a little more detail on what the reference to capital contributions since inception is. It sounds like it might be a cost basis, in which case that would be compliant with ASC 274. But if I was doing the compilation I would ask a follow-up question.

Q And if you had asked follow-up -- withdrawn. Should Mazars have asked follow-up questions concerning that supporting data?

A I would think so, for the same reasons that I said that I would have asked the question.

Q And is the fact that Mazars issued the compilation report, indicative of the fact that, at least to Mazars satisfaction, any questions were answered?

A Yes. Either they received satisfactory answers or they believed that the languaging in their accountant's report regarding GAAP deviations was adequate to address this property.

Q Moving on to the Doral. Is the method for determining estimated current value consistent with the

Page 4364

## requirements of ASC 274 ?

A Yes, it appears the method is also a cost basis, which is an appropriate method.

Q Was the method for determining estimated current value disclosed to Mazars in the supporting data?

A Yes.
Q Same question about the Trump Turnberry.
A Same answer as before. It appears to be a cost basis, which is an acceptable method.

Q And was the method used to determine estimated -excuse me. Was the method used to determine estimated current value disclosed to Mazars in the supporting data?

## A Yes.

THE COURT: Let me just jump in with a question to the witness.

You were asked 20 or 30 times, was the method used for determining the estimated current value of the project at issue consistent with the requirements of ASC 274. I think your answers were always yes. My question is: Were you saying that the method listed on the statement was one of the methods that ASC 274 allows? Or were you saying that the actual computations using that method were correct?
A Your Honor, I am not opining as to the ultimate valuation itself. I am not a valuation expert. But I am an
expert on the methods that are permitted by ASC 274. So my testimony is really limited to, again, its methods that are clear from the documents that were being used, and not necessarily to the numbers that were attached to them.

THE COURT: Right. And so if the statement says we are using the capitalization rate method or the fixed asset method, your answers are just meaning that, yes, that's one of the methods you can use, correct?

THE WITNESS: That's correct.
THE COURT: Okay. After 30 questions of that I wanted to make sure I understood what the answer indicated.

MR. SUAREZ: Your Honor, my -- what I would like to do is go through 2014 asset by asset, and then I'll flip through the following years much more quickly.

THE COURT: Well, let's start it and see how it goes. But I appreciate the desire to go more quickly. MR. SUAREZ: I just want to make sure you understood I am not I intending to do this for all. THE COURT: Got you.
Q The Trump International Golf Club -- I am sorry. Going back to Doonbeg. I almost skipped over Doonbeg. The Trump International Golf Club in Doonbeg, Ireland. Is the method for determining estimated current value consistent with the requirements of ASC 274?

Flemmons - by Defendant - Direct(Suarez)
Page 4366
A Yes. This appears to be a cost approach.
Q And was the method for determining estimated current value fairly disclosed to Mazars in the supporting data?

A Yes.
Q The Trump International Golf Club in Scotland, which is the following asset, is the method for determining estimated current value consistent with the requirement of ASC 274?

A Well, consistent with my testimony about the prior property that had a reference to capital contributions, I interpret that as likely meaning some sort of cost basis. But I would have asked a follow-up question to confirm that. Assuming that that's the case, it would comply with ASC 274.

Q Do you see that there is a 33 percent premium for assembly of land parcels that is built into -- that is built in the value?

A Yes.
Q Would you agree with me that -- withdrawn.
Was the inclusion of the brand premium disclosed to Mazars in the supporting data?

A Yes, it is very clear in this data.
Q And if Mazars had an objection to the inclusion of that brand premium in the -- excuse me, withdrawn.

If Mazars had a concern with the inclusion of the premium for the assembly of land parcels, should Mazars have raised that with management?

Page 4368
utilizing future cash flows based on planned courses of action. And I believe this wording is identical to that.

Q Does planned -- withdrawn.
Do planned courses of actions have an temporal requirement?

A No.
Q Moving on to 100 Central Park South the Trump Park East. Is the method for determining estimated current value consistent with the requirements of ASC 274 ?

A Yes. This appears to be the same method as Trump Tower.

Q And again, you see that the valuation is based on the anticipated selling price, correct?

A Yes.
Q The anticipated selling price, is that consistent with the method under ASC 274 that permits the use of planned courses of action?

## A Yes.

Q Was the method for determining the estimated current value of the Trump Park East disclosed to Mazars?

A Yes.
Q Moving on to Trump Plaza at third Avenue, I would like to, again, direct your attention to the valuation being based on the rental income from the property plus the value of the two unsold co-op units. Do you see where it says that?
Flemmons - by Defendant - Direct(Suarez) for evaluating the methods that are being used and evaluating the appropriateness of the methods. So to the extent they concluded that adding a 30 percent premium was inappropriate, they would have been compelled to respond to that through inquiries with management to perhaps have this amount adjusted; or to include relevant disclosure in their accountant's report.

Q And if it was inappropriate to include that premium for the assembly of land parcels, could management have expected Mazars to identify that issue for them?

A Yes, because Mazars is compiling the financial statements and using the supporting data to do that. So to the extent that there are components of the valuations that are inconsistent with GAAP and they become aware of it, they are required under the standards to follow up on that.

Q Okay. Moving on to the Trump International -MR. SUAREZ: You can keep going. Is this the next one? Keep going.
Q The Trump World Tower, again, I would like to direct your attention towards, the valuation is based on the anticipated selling price of unsold units and the rental income to be derived from the commercial space. What do you understand "anticipated selling price of unsold units" to mean?

A Well, I read this as being consistent with one of the methods that is called for under ASC 274 with regard to

A Yes. As part of a compilation Mazars is responsible

A Ido.
Q Is that consistent with a planned course of action under ASC 274?

A Yes.
Q Is the method for determining estimated current value consistent with the requirements of ASC 274 for the Trump Plaza at Third Avenue?

A Yes.
Q Going on to the next asset, the Trump Palace, Trump Park and Trump Park East. Is the method there for determining estimated current value consistent with the requirement of ASC 274?

A Yes, it appears to be the same method as the prior properties that we just discussed.

Q And was the method for determining estimated current value disclosed to Mazars in the supporting data?

A Yes.
Q Moving on to the Trump Intemational Hotel and Tower in New York City. Is the method for determining estimated current value consistent with the requirements of ASC 274 ?

A Yes, this appears to be referencing a different valuation method that is accepted under ASC 274, and that is use of appraisals.

Q Now, in this instance it appears that the use of an appraisal was used, correct?

A Correct.
Q Now, would it have been appropriate to use another basis for determining estimated current value when there was an appraisal for the unit that was available to management?

A Yes, ASC 274 does not require use of appraisals. There are many other methods that are available to a preparer to serve as the basis for determining estimated current value.

Q And if another basis for estimated current value had resulted in a wildly different value than that which was reflected in the appraisal in management's possession, would management have been required to use the lower value in the appraisal?

A Not at all.
Q Why is that?
A As we discussed yesterday, given the wide range of methods that are available under ASC 274 to value properties, these methods can yield very different results and very significant differences from one method to another. And the standard does not require using the lower or the method that yields the lowest result.

Q Moving to properties under development. What is the first property that appears as a property under development?

A It looks like it is Seven Springs in Westchester. (Transcript continued on next page.)

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4371

1 Q What is the value that's ascribed for Seven Springs in Westchester on the supporting data?

A It looks like the total value is $\$ 291$ million.
Q And what is the basis for determining the value of the Seven Springs property that's under development?

A It looks like it's based on the anticipated selling price of certain mansion and it's broken out into two sections here. But the overall methodology relates to anticipated selling price.

Q Is the use of an anticipated selling price consistent with a planned course of action?

A Yes. And I should also add it's not just based on the selling price. There's clearly cost components that are offsetting the selling price to arrive at a profit number that is used as the basis for the valuation.
Q The profit -- the anticipated profit is what's used as the basis for valuation?

A Correct.
Q And is it appropriate to use an anticipated profit as the basis for an planned course of action in determining estimated current value?

A Yes.
Q Now, with respect to Seven Springs here, was there discounting included for the future income that was anticipated?

A It does not list any discounting separately in this
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4372

1
2
particular schedule. Um, it -- under ASC-274 when you are basing a valuation on, you know, future revenue streams or future cash flows, you would expect there to be a discounting component to this.

It's unclear to me whether the selling price line item that's reflected in here already contemplates a discounting factor. It would be a question that I would follow up with the client and ask about.

Q Was the lack of any additional discounting for future cash disclosed to Mazars?

A Well, there certainly is a red flag from the standpoint that there is no mention of discounting. As I said, it could be implicit or embedded in -- in the selling prices that were used and in the overall profit number, but it would be a glaring question that would need to be asked.
Q To the extent that the estimated current value method used for Seven Springs was not consistent with estimated current value, is it covered by a GAAP departure disclosed in the Statement of Financial Condition?

A Yes. And as I said earlier I believe Mr. Bender also testified that the lack of discounting was covered by one of the exceptions that they included in their accountant's report.

Q Moving onto the Trump Old Post Office.
(Whereupon, the exhibit was displayed on the screen.)

1

Q Again, do you see that the basis for -- withdrawn.
Is the method for determining estimated current value consistent with the requirements of ASC-274?
A Like we saw with a couple of the other properties that reference capital contributions it's a little unclear to me what that means and how that fits, but it sounds to me like a cost approach, in which case it would be an ASC-274 compliant method.
Q Was the method used for determining estimated current value disclosed to Mazars in the supporting data?
A Yes.
Q And to the extent that the estimated current value method was not consistent with the definition of ASC-274, should Mazars have identified the need to include additional disclosures?
A Yes.
Q Moving onto the partnerships and joint ventures.
(Whereupon, the exhibit was displayed on the screen.)
Q The first item listed here is a partnership with Vornado or Vornado. Is the method for determining estimated current value for the Vornado Partnership consistent with the requirements of ASC-274?
A Yes. It appears that the way this valuation was performed was to take the ownership percentage interest that Mr. Trump had in the Vornado partnership, and multiply that

## emmons - by Defendant - Direct (Mr. Suarez)

Page 4374
times the net operating income of the related properties to arrive at the overall valuation.
Q When you say the "ownership interest of Mr. Trump", is that the 30 percent here that's disclosed at line 715 , or row 715 of the spreadsheet?
A Yes, it is. And that is the multiplier against the net operating earnings of those entities less the related debt of those properties.
Q What does the note to the Statement of Financial Condition disclose concerning Mr. Trump's interest in the Vornado partnerships?
A Well, note four states clearly that Mr. Trump owns 30 percent of these properties.
Q And to the extent that any discounting for a lack of control was appropriate, would that have been apparent to Mazars?
A Yes. It's very clear that 30 percent ownership is not a controlling interest.
Q And of the lack of control would have impacted the estimated current value of Mr. Trump's interest in that property, should Mazars have been aware of that?
A Yes. It's very clear from these documents.
Q Moving onto the Trump International in Las Vegas.
(Whereupon, the exhibit was displayed on the screen.)

## J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4375

1 Q Is the method for determining estimated current value consistent with the requirements of ASC-274?

A Well, similar to what we were saying before, this is using anticipated cash flows on this property. I don't see a discounting factor applied to it.

Again, it could be implicit and embedded in the $\$ 123$ million value. I would want to know more to confirm that. But on its face, it doesn't look like there's any discounting.

Q And should that have been apparent to Mazars that on its face it didn't appear to include any discounting?

A I would think so.
Q And to the extent that there was no discounting, for this asset, was the lack of discounting covered by a GAAP departure in the Statement of Financial Condition?

A As I said before, Mr. Bender has testified that one of the disclosures in the accountant's report did cover that exception.
Q Moving onto Miss Universe.
(Whereupon, the exhibit was displayed on the screen.)
Q Is the method for determining estimated current value consistent with the requirements of ASC-274?

A It's unclear to me. There are apparently two different methods that are being used here, depending on the year.

For 2013, there's a reference just to valuations based

## lemmons - by Defendant - Direct (Mr. Suarez)

Page 4376
on SEC filings done by the casinos. I'm not sure exactly what that means or how that valuation was derived. I would need to inquire further if I was performing this work.

And for 2014, it's a little vague because there's reference to a Goodwill entity in applying a 50 percent ownership percentage against that Goodwill.

I think for both of these I would need to ask more questions.
Q Was the method used to determine the value disclosed to Mazars?
A Well, these descriptions of the methods were disclosed, which I believe would have prompted additional questions.

Q Should Mazars have inquired further as to the basis for those methods used for Miss Universe?

A In my view, yes.
Q And if the method selected was -- withdrawn.
If the method selected by management was, in fact, not an appropriate measure under ASC-274, should management have expected that Mazars would have alerted them?

A Yes. To the extent the methods used are inconsistent with the allowable methods under ASC-274, there's an obligation of an accountant performing a compilation to make inquiries and to perhaps include additional disclosure in the accountant's report.
Q In your experience, is that something that happens in
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4377
the real world?
A Yes, all the time.
Q Management selects a method for estimating the current value of an asset that turns out to be inconsistent with ASC-274?

A Yes. I see that all the time. And frankly, that's why you have external accountants involved in this process, given their expertise with GAAP and preparing financial statements.

Q Is it fair for management to expect that the outside accountants will alert them if a method has been used that is not appropriate?

A Yes, because of the professional standards that are applicable to Mazars, in this case, would require them to do just that.

Q Moving onto other assets.
(Whereupon, the exhibit was displayed on the screen.)
Q The other assets here start with the Apprentice property -- excuse me, the Apprentice revenue stream. Do you see that?

A Yes.
Q And include the license to run the Wollman Rink, the Trump Model Management, family receivables, a vineyard property, Starrett City Associates, and then they continue further below to include aircrafts, a triplex, and homes in Palm Beach. Do

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4378
you see those?
A Yes.
Q And Beverly Hills, California. Is it appropriate under ASC-274 to group all of these assets into the category of other assets?

A There was no restriction under ASC-274 on how to categorize these assets. To the extent there's significant aggregation, it might be helpful to have disclosure to inform a user what's comprising these amounts or this particular group of assets, but there's nothing inappropriate about grouping them under this caption.

Q If we go to the Statement of Financial Condition and we look at the note associated with other assets.
(Whereupon, the exhibit was displayed on the screen.)
Q Let's go to the beginning of that note on page 21 of the document, page 23 of the exhibit.
(Whereupon, the exhibit was displayed on the screen.)
Q Would that note correlate to the grouping of assets under ASC -- excuse me. Would that note in the Statement of Financial Condition correlate with the grouping of assets under the supporting data for other assets?

A I haven't done a one-for-one comparison. I will say that the notes to the financial statements do itemize different

| J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4379 | J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4381 |
| :---: | :---: |
| categories that are comprising the other assets caption. Upon quick glance, there is certainly correlation. For example, the Beverly Hills property, I would need to spend some time to do the dot connecting, but it appears to correlate. <br> Q So in general terms, the Statement of Financial Condition discloses that the other assets include -- <br> MR. SUAREZ: If we could go back to the first page. <br> (Whereupon, the exhibit was displayed on the screen.) <br> Q It includes the triplex at Trump Tower, homes in Palm Beach County. <br> MR. SUAREZ: Next page. <br> (Whereupon, the exhibit was displayed on the screen.) <br> Q A home in Beverly Hills, a number of corporate aircraft, and other, which goes on to include other entities owned or controlled, and other assets as well, that include the Celebrity Apprentice and Apprentice series, a 2000-acre vineyard in Charlottesville, Virginia, licenses to operate and management of Wollman and Lasker Rinks, an international talent/model <br> 21 agency, a management company that supervises the operation of <br> 22 condominium properties, loans to family members, limited <br> 23 partnership investments in Starrett City and related entities, <br> 24 and funds escrowed pursuant to the terms of contractual <br> 25 commitments. Is it the case that there's no -- withdrawn. | on that description, it sounds like it's based on comparable sales of another property. So at a high level it sounds like it's consistent with ASC-274. <br> THE COURT: Five-minute warning. <br> Q Is the reason you would need to ask more questions -withdrawn. <br> You would need to ask more questions; correct? <br> A I mean, certainly with regard to the 2013 value of triplex. <br> Q Does the outside accounting firm have an obligation greater. <br> Withdrawn. <br> Does the accounting firm have an obligation to <br> management that is greater than just copying and pasting the <br> numbers from the supporting data into the Statement of Financial Condition? <br> MR. WALLACE: Objection. Leading. <br> THE COURT: Asked and answered many, many times already, so sustained. <br> Q What obligation, if any, would the outside accounting firm have to consider the method for using -- withdrawn. <br> What obligation, if any, would management have to -let me try the third time, and then I'll pull back. <br> What obligation would the accounting firm have in placing an asset value on the Statement of Financial Condition |
| J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> 1 What asset value is ascribed in the Statement of <br> Financial Condition to the individual assets that makeup other assets? <br> A Well, the individual values comprising that section of the financial statements are listed in the detail that was provided to Mazars. The total value of all the assets was \$338 million in the Statement of Financial Condition for 2014. The composition of that was clear from this support. <br> Q If we focus on the triplex here in 2014, do you see the method that's used to determine the asset value? <br> A It appears that there are two different notations related to triplex, depending on the year. For, I believe, 2014 is the first column, is that correct, column G? <br> Q Yes. <br> A That just says "triplex per Kathy Kaye", with a date of August 2013, with no further detail. It's unclear to me what method is being used. <br> Q To be clear column G is 2013 and column H is 2014. <br> A Okay. So the first amount of $\$ 200$ million for 2013 has a rather vague description. I can't, sitting here right now, <br> 21 determine what valuation method is being used for that | based on the information that's been provided in the supporting data? <br> A Well, the accounting firm's obligation is to understand the methods that are being used and consider the appropriateness of those methods, you know, based on the assets that are being valued, and ultimately determine whether they are a GAAP compliant method. <br> And to the extent they are not, the standards require <br> them to perform follow-up inquiries, and perhaps include <br> language in their accountant's report if those amounts are <br> reported in a manner that is inconsistent with GAAP. <br> MR. SUAREZ: I'm at a good breaking point. <br> THE COURT: Breaking or ending? <br> MR. SUAREZ: No, breaking, breaking, breaking. <br> THE COURT: I always ask that. Call it a 16 -minute break, and we'll see you all at 11:45. <br> And I'll direct the witness, again, don't discuss the case, your testimony, or anything related thereto. <br> (Whereupon, a 16-minute break was agreed upon and taken by all parties.) <br> (Continued on the next page.) |

Page 4384
THE COURT: Please proceed.
MR. SUAREZ: Thank you, Your Honor.
Q Mr. Flemmons I would like to draw your attention to the 2016 Statement of Financial Condition which appears at Plaintiff's 756; and the supporting data which appears at Plaintiffs 742.
(Handing)
MR. SUAREZ: If we could zoom out to make sure we include these three columns here. (Indicating.)
Q Mr. Flemmons, do you recognize the Statement of Financial Condition for the year end June 30, 2016 for Donald Trump?

A Yes, I do.
Q Have you reviewed it prior to today?
A Yes.
Q Next to the statement is supporting data, which appears as Plaintiff's 742. Have you reviewed the supporting data prior to today?

A Yes.
Q I would like to turn your attention to the
accountant's compilation report and, again, ask whether the accountant's compilation report includes disclosures for departures from Generally Accepted Accounting Principles.

A Yes, it does.
Q Okay. Now I would like to draw your attention to the
cash on the list of assets in the Statement of Financial Condition?

A Can I add a little more detail on the last answer?
Q Sure.
A So, you will notice when looking at the accountant's letter for this year, for 2016, it is more summarized and more concise than what we saw for the accountant's letter for the -for the 2014 time period. And one of the reasons for that is under the standard AR-C 80 which was issued and effective in or around 2016, one of the changes was to condense the accountant's report. And so I believe that that would be the cause for this taking on a slightly different form. I will say the paragraph that references the GAAP deviations, which is the paragraph on the screen here, second paragraph on the document, do appear to be similar, if not identical, to those that were broken out more separately in the 2014 accountant's report. But they do consist of the same type of items.

And in the last paragraph of the accountant's report is the "buyer beware" paragraph that I had talked about yesterday that comes right out of the standard that accountant's are encouraged to consider putting in the accountant's report for compilations if they believe that the significance of the GAAP deviations are of such a nature that warrant inserting that in the accountant's report.

Q With respect to the GAAP departures that are

Flemmons - by Defendant - Direct(Suarez)
Page 4386
disclosed in this accountant's compilation report, which, if any of them, address cash?

A Well there is a sentence in the middle of that paragraph that addresses the presentation of cash and marketable securities and hedge funds under GAAP. Those would be separately reported as separate line items. But for purposes of the financial condition statement, those were included in one line item.
$Q \quad$ What is the effect of that disclosure?
A It is to communicate to a user that they are collapsed into one line item as opposed to being broken out separately.

Q And if we could go to page four of the Statement of Financial Condition, which I believe is page six of the exhibit.

MR. SUAREZ: And zoom in on cash.
Q What does the note for the cash on the Statement of Financial Condition disclose?

A Would you like me to read it?
Q Please.
A It states: Cash, marketable securities and hedge funds represents amounts held by Mr. Trump and amounts in operating entities. Include -- included in this amount are common stocks, mutual funds, hedge funds, corporate notes and bonds and United States Treasury Securities. Marketable

Securities are valued at quoted market prices or estimates of current value provided by the hedge funds.

Q What does it mean that cash, marketable securities and hedge funds represents amounts held by Mr. Trump and amounts in operating entities?

A Well, it is communicating to the user that cash that is held in operating entities and marketable securities and hedge funds that are -- that reside within the various operating entities of Mr. Trump, are included in the Statement of Financial Condition within this line item.

Q Okay. And if we go to the supporting data, do you see that there is a schedule for the cash and marketable securities?

## A Yes.

MR. SUAREZ: Can we please pull up Plaintiffs
Exhibit 2587? It has already been admitted into evidence.
Q Are you familiar with this schedule, Mr. Flemmons?
A Yes.
Q What does this schedule represent?
A It is the detailed schedule that breaks down all of the components of the cash and short term investments as of June 30, 2016 that, in total, rolls into the worksheet that we just looked at that was provided to Mazars. This particular more-detailed spreadsheet appears to have also been provided to Mazars. There is a notation up at the top of the document that
owned by Mr. Trump is disclosed to Mazars as the 30 percent of the cash on the balance sheet, does that correlate?

A Yes, it appears that the 30 percent that is on the supporting cash worksheet correspond to the 30 percent ownership interest by Mr. Trump as disclosed in the financials.

Q And if we go through the same exercise for HWA Waterfront Associates, which reflect 30 percent of cash on the balance sheets, and we go back to the Statement of Financial Condition, would Mazars have known what HWA -- withdrawn.

Should Mazars have known what HWA Associates was?
A Well, I would expect they should, given the detail that was provided that specifically mentions those properties; and also given their broader involvement with Mr. Trump and the Trump Organization in a variety of different capacities, including audit and tax work.

Q And again, that 30 percent of the balance sheet reflect that correlates with the interest in the 555 California Street. Do you see that?

A Yes.
Q Was the -- if we go back to the cash schedule, you will see that the only entities that have that additional notation, $\mathbf{3 0}$ percent of cash on balance sheet reflect the entities in which Mr. Trump owned the 30 percent interest. Do you see that?

A Ido.

Flemmons - by Defendant - Direct(Suarez)
Page 4388
says PBC, which in accounting and auditing parlance means prepared by client. So this would have been prepared by someone within the Trump Organization. And as we talked about before, the blue numbers that are in column $B$ correspond to particular marks that would have been attached or noted by Mazars.

Q Can I draw your attention to cell A 11?
Do you see that that reflects an account title for 1290 Avenue of the Americas?

A Yes.
Q And do you see that it has an open parentheses and it says: 30 percent of cash on balance sheet?

A Yes.
Q If we pull up the Statement of Financial Condition, which is Plaintiff's Exhibit 756, and turn to 1290 Avenue of the Americas on page 18 of the document, which $I$ believe is page 20 of the exhibit, what does this note reflect concerning President Trump's interest in 1290 Avenue of the Americas?

A Well, the note describes what the property is in the second paragraph, where it starts, 1290 Avenue of the Americas consists of an office tower, and goes on to give more detail. The note also includes a reference to Mr. Trump owning 30 percent of those properties which would include the 1290 Avenue of the Americas.

Q And if we go to the cash schedule, the 30 percent

Q What should Mazars have understood from the disclosure that those entities represented 30 percent of the cash on the balance sheet?

A Well, it is clear from this document, given that it supports the cash and short term investment amounts that are reported in the Statement of Financial Condition, that 30 percent of the cash that is held at these entities in which Mr. Trump has a minority interest, are included in the Statement of Financial Condition.

Q Was the inclusion of this cash from the entities that reflect the 30 percent of the balance sheet on the cash schedule, would have been one of the departures from GAAP on the Statement of Financial Condition?

MR. WALLACE: Objection, foundation. Shouldn't we establish if this is a departure from GAAP? THE COURT: Okay. Sustained.
Q Is it a departure from GAAP to include cash in this manner on the -- on the cash sheet?

A It is certainly a red flag to me. I don't know why you would include 30 percent of cash from a joint venture on your balance sheet. I would want to know more about the rationale from management to understand that.

THE COURT: You know, "it is a red flag," is
it -- does it comply or does it not comply? Is it a
deviation, I think is the technical term. Departure.

## Flemmons - by Defendant - Direct(Suarez)

THE WITNESS: Again, there is not enough detail here to tell me what the rationale was under GAAP for including that. But based on my expertise in GAAP, I would -- I have a lot of questions about it because it appears to me that it is not GAAP compliant.

THE COURT: So if you didn't ask questions and you didn't get answers and you didn't have any other information, is it a departure?

THE WITNESS: It would appear to me that it is. THE COURT: Okay.
Q Would Bender or Mazars have asked questions -- should Bender or Mazars have asked questions about the inclusion of this cash on the cash balance sheet?

A Yes. As I have stated before, an accountant that is performing compilation services is required to follow-up on potential GAAP departures that they become aware of. And this, to me, falls in that category of something that should have been followed up on. I don't know if it was or not. And I don't know whether or not Mazars believes that this was captured by one of the disclosures in the accountant's report as to GAAP departures.

Q If management had included this cash -- withdrawn.
If management includes this cash and indicates that it is the 30 percent of the cash on the balance sheet on the -on the cash balance sheet, would it have been appropriate for

## Page 4392

management to rely on Mazars to advise them that there was a departure from GAAP?

A The answer is yes, because this is a very glaring issue that I would want to know more about. To me it appears to be GAAP departure, which would lead a reasonable accountant to make those inquiries. And $I$ believe it is also reasonable, you know, for the client in any engagement, whether it be in this particular case or others, to rely on their accountant to respond to obvious GAAP departures.

Q Moving on to the Statement of Financial Condition for 2017, at Plaintiff's Exhibit 755, and the supporting data at Plaintiff's Exhibit 758.
(Handing)
MR. SUAREZ: If we could turn to the triplex on
the supporting data.
Q Do you see here next to the triplex supporting data on cell D 971 it includes a red mark?

A Yes.
Q Would that red mark -- what does that red mark tend to indicate?

A I am not sure.
Q Would that red mark be evidence that this document was reviewed by Mazars?

MR. WALLACE: Objection, leading.
THE COURT: Leading and, sort of, asked and
answered.
Q Should Mazars have observed that there was a change in the square footage of the triplex from 30,000 square feet to 10,996 square feet from the year 2016 to the year 2017 ?

A It certainly looks very obvious from this document that that change occurred between the two years. And as we have said before, the blue numbers that are listed in this document would certainly evidence that Mazars reviewed this document and these aspects of it. I am not sure what the red arrows mean, but the numbers certainly are indicative of Mazars review.

Q And should Mazars have observed that in 2017 the value of the triplex changes from 327 million to $116,800,000$ ?

A Yes.
Q And should Mazars have observed that that change was due to a reduction in the square footage of the triplex? MR. WALLACE: Objection.
THE COURT: Is it about the word "should"? MR. WALLACE: No, it is about there was a change in the square footage. I think the question suggests there was a change in the square footage, as opposed to the reported square footage.

THE COURT: Well, I'll sustain on that basis too. I'll point out the word "should" is sort of a vague term. Are we talking morally, legally, practically?

Q Should Mazars in performing a compilation under the professional standards, have observed a change in the square footage -- on the reported square footage of the triplex from 30,000 square feet to 10,960 square feet?

THE COURT: What do you mean by "should they have"? Again, would he have expected to? Is that required under GAAP? Is that required under the law, which would be a legal question.

Mr. Kise, go ahead.
MR. KISE: Yes, Your Honor. As the Court knows, this witness is a professional expert on the accounting standards that apply to accounting firms like Mazars. He spent a good portion of his career with the SEC overseeing and evaluating auditors and accountants. So the question, and perhaps Your Honor is correct maybe it needs to be formed more precisely, but the question is, in his opinion as an expert, do the AICP standards -- do the governing standards require, would they have required, should they have required Mazars to do that?

THE COURT: Well that's a totally different question.

MR. KISE: Well, I mean, it is, well, should -I mean, it is the same, would the standards have required or should they have known so. It is certainly within this expert's purview to opine whether, in his opinion, Mazars

|  | - by Defendant - Direct(Suarez) Page 4395 |
| :---: | :---: |
| 1 | should have flagged this. |
| 2 | THE COURT: No, because "should" is an ambiguous |
| 3 | term. I think we agree. If the question is would the |
| 4 | governing standards require them to. |
| 5 | MR. KISE: Fair enough. |
| 6 | MR. WALLACE: I would note that the witness |
| 7 | during his time over at the SEC oversaw actions against |
| 8 | issuers, not just accountants. So if you want to ask |
| 9 | questions about how issuers view this. |
| 10 | MR. KISE: I mean, to limit it I was using a |
| 11 | specific example, because we are talking about |
| 12 | accountants. |
| 13 | THE COURT: Let me try my hand. I like to |
| 14 | player lawyer occasionally. |
| 15 | Would the governing standards require Mazars to |
| 16 | notice the difference -- notice the discrepancy, I'll call |
| 7 | it? |
| 18 | THE WITNESS: The answer is yes, because under |
| 19 | AR 80, which is the prevailing standard that applies to |
| 20 | Mazars in performing the compilation service, they are |
| 21 | required to understand the methodologies that are being |
| 22 | used to value these properties. And these are significant |
| 23 | values, the 327 million, the 116 million. And the |
| 24 | methodology being used is largely based on the square |
| 25 | footage, which was the only change -- only material change |

MR. WALLACE: I am going to object, that's leading.

THE COURT: As opposed to what would the governing standards require? Sustained.
Q What would the governing standards, if anything, require Mazars to advise management with respect to the reporting of that change?

A Well, as I said before, they would need to understand the basis of the methodologies that are being used, and in seeing that change, you know, may inquire about the nature of that change. And it would be required of them to make a determination on whether that change necessitated additional disclosure in either the financial statements or the accountant's report, and to assess that with management.

Q All right. We can move on to the Aberdeen supporting data.

MR. SUAREZ: If you type in "Scotland" it will come out.

Thank you.
Q I would like to draw your attention to the method used for determining the estimated current value of the Trump International Golf Club in Scotland. You see all the way at the bottom it says: Value of residential parcel?

A Yes.
Q It is based on a purchase of land by Persimmons,

| Flemmons - by Defendant - Direct(Suarez) |  |
| :---: | :---: |
| 1 | Page 4396 |
| 2 | from one year to the next. So in gaining the |
| 3 | expected them to understood that that square footage |
| 4 | changed year over year. |
| 5 | THE COURT: The question isn't whether you would |
| 6 | expect them to question, it is whether they were required |
| 7 | to. I think you said yes. |
| 8 | THE WITNESS: I did say yes at the beginning of |
| 9 | my answer. I am sorry if that didn't come across, but the |
| 10 | answer is yes. |
| 11 | THE COURT: Okay. |
| 12 | THE WITNESS: And should add, every question |
| 13 | asked of me with "shoulds" and "woulds" my answers have |
| 14 | all been in relation to the applicable professional |
| 15 | standards that are applicable to Mazars, which is AR 80 |
| 16 | and AR-C 80. |
| 17 | THE COURT: And just to be 100 percent clear, it |
| 18 | is that -- it is not just in your experience what would |
| 19 | likely happen, you are answering as to what was required |
| 20 | under the governing standards? |
| 21 | THE WITNESS: That's correct. |
| 22 | THE COURT: Let's move on. |
| 23 | Q Would the governing standards require Mazars to |
| 24 | advise management as to what the appropriate disclosure was as |
| 25 | a result of that change? |

Flemmons - by Defendant - Direct(Suarez)
Page 4398
Hopecroft, Bucksburn and value of land per home. Do you see that?

A Yes.
Q And it records a number of homes to be sold at 2,500.
Do you see that?
A Yes.
Q Now, is that an appropriate measure of a planned course of action to determine estimated current value?

MR. WALLACE: Objection to the extent he is asking something beyond whether it is appropriate from an accounting standard.

MR. SUAREZ: I am only asking about the methodology.

## THE COURT: Overruled.

A So this methodology appears to be based on a future expectation of sales and the revenue streams that are associated with those sales, which would be a method under ASC 274 to the extent those were discounted.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

| J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4399 | J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4401 |
| :---: | :---: |
| 1 Q Now, ultimately, the number of homes to build was less | 1 pointing out that there is GAAP compliance, notice, et |
| 2 than that that was planned for, the amount of land wouldn't | 2 cetera, et cetera, I mean, the various things. |
| 3 change; correct? | 3 So, yes, there would be some repetition, but we are |
| 4 A I wouldn't expect the amount of land to change, no | 4 not going through every statement -- every item in every |
| 5 Q Even if the planned course of action -- let me withdraw | 5 year. We won't be doing that. |
| 6 that | 6 THE COURT: We probably shouldn't have to go |
| 7 If the planned course of action turns out not to b | 7 through more than one to ask the question, if there's an |
| 8 feasible, would that necessarily preclude, at the time, the use | 8 appraisal with a different value, can you still use one of |
| 9 of that planned course of action in determining estimated | 9 the methods that GAAP approves. And the answer is, "Yes." |
| 10 current value? | 10 MR. KISE: But the answer is not yes with respect |
| 11 A It would not preclude using that methodology under | 11 to specific items that have been identified. |
| 12 ASC-274. The amounts may change, but the methodology itself | 12 For what clearly may be the Appellate record, we |
| 13 would not. | 13 need to make sure that it's very clear in the record that |
| 14 Q Moving onto the 2011 Statement of Financial Condition | 14 the specific items have a specific, you know -- have been |
| 15 at Plaintiff's Exhibit 787, and the supporting data at | 15 addressed specifically in the record. We can't -- we can't |
| 16 Plaintiffs Exhibit 18 | 16 just assume, because if we get to the Appellate court, they |

1 determine the question.
MR. WALLACE: I would note my records indicate that
Plaintiff's Exhibit 788 is the version that Mr. Bender clarified was the final version of the supporting data.

MR. KISE: It's a good catch. They are much more careful about these things than me. That's a good catch. Thank you.

MR. SUAREZ: I will just say we were going there. Plaintiff's Exhibit 788. Let's pull that one up as well.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: To be sure, this is the one that has the red and blue tick marks.
$Q$ And here, again, we actually see a value of $524,688,000$. And if we turn to the statement of assets on the Statement of Financial Condition, for 40 Wall Street, we see $524,700,000$ is the asset value that's assigned.

That appears to be -- is that consistent with the number that's in the support data?

A Yes. And I believe the last version we just saw had a total of around 600 million, which is different than what's in the Statement of Financial Condition, but this supporting schedule appears to tie to the 2011 statement.

Q It appears that it was rounded up by about $\$ 12,000$ when it was placed on the Statement of Financial Condition?

Page 4404
J. Flemmons - by Defendant - Direct (Mr. Suarez)

A Yes.
Q Okay.
What methodology is used here to determine the value of 40 Wall Street?
A The methodology appears to be similar, if not the same, as the last version we saw, albeit with different numbers, but the methodology is a capitalization of future earnings, which is an acceptable method under ASC-274.

Q Just so that the record is clear, would it have been appropriate to use the methodology that was used in Plaintiff's Exhibit 788, even if management had, in its possession, an appraisal that showed a wildly different value?
A Yes.
Q Would that be for the same reason that you previously stated?

A That's correct.
Q And if we could move to the 2012 Statement of Financial Condition at Plaintiff's Exhibit 815.
(Whereupon, the exhibit was displayed on the screen.)
Q And the support data at Plaintiff's Exhibit 793.
(Whereupon, the exhibit was displayed on the screen.)
(Whereupon the exhibits were handed to the witness.)

1 Q On the left, is that the Statement of Financial Condition for President Trump in 2012?

A Yes.
Q And on the right you see the backup for that the Jeffs
Supporting Data?
A Yes.
Q If we could move to 40 Wall again on this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Is the method used for determining estimated current value for 40 Wall, in 2012, consistent with estimated current value definition in ASC-274?
A Yes. It appears to be capitalization of earnings, which is a permitted method under ASC-274.
Q And would it -- withdrawn.
Would it be appropriate to use the income
capitalization method if management had in its possession an appraisal that reflected a wildly different value?

A Could you repeat the question, please.
Q Yes.
Would it be appropriate to use this method for determining estimated current value even if management had, in its possession, an appraisal that had a wildly lower value in its possession?
A Yes. They could use either one.

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4406
Q Moving onto the Trump Park Avenue in 2011 and 2012. You have the comparative values here at Plaintiff's Exhibit 793.

Is this an appropriate method for estimating current value, according to ASC-274?

A It appears so. It's -- it appears to be based on, again, using a cap rate against earnings. The only question I have is the cap rate line has a number ten in both column $D$ and E. I assume that's ten percent, which is what $I$ would expect for a cap rate to reflect, but beyond that, it looks like it comports.

Q And that's for the commercial space. Above you see a line for the unsold units that says "valuation is based on the anticipated selling price of unsold residential units and the selling price or the rental income stream to be delivered from the commercial space."

Do you see that?
A Ido.
Q With respect to the anticipated selling price of the unsold residential units, would that anticipated selling price have any limitation on the time horizon that management would need to consider in preparing that estimate?

A No. And the only other component that I'm not seeing here that may be relevant would be potential discounting of these cash flows pertaining to the unsold units.

I'm not sure exactly how the unsold units corresponds
J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4407
with the commercial space. I would need to spend a little more time with this. The cap rate would take care of discounting
that looks to only be relevant for a portion of the asset being valued here.

Q What obligation would Mazars have had to undertake the analysis that you just described?
A Again, in order to comply with professional standards and seek to understand the methods being used, I would expect that they would ask the same questions that I'm raising now, given the requirements.

Q Would you expect those questions -- withdrawn.
Would you expect management to rely on its outside accountant for guidance on the appropriate method for determining estimated current value?

## MR. WALLACE: Objection. Leading.

 THE COURT: Sustained.Q Under the professional standards, what, if any, obligation would Mazars have to provide guidance to management on the determination of estimated current value?
A Well, their obligation under the professional standards is to understand the methods being used and to identify or respond to any GAAP departures, and to followup on such departures with management, to make inquiries that could potentially lead to adjustments to the reported amounts in the Statement of Financial Condition, and/or lead to additional

## lemmons - by Defendant - Direct (Mr. Suarez)

Page 4408
disclosure in the accountant's report.
Q And if management provided insufficient information to
make a determination as to whether estimated current value was
appropriately determined, what obligation would Mazars have to provide guidance to management?
A Well, under the professional standards they would be required to cure not having received sufficient information by seeking and obtaining sufficient information. If they are unable to get sufficient information to resolve the issue, then as we've said many times, the accountants have the vehicle through the accountant's report to communicate those issues.

Q Moving onto the 2018 Statement of Financial Condition at Plaintiffs Exhibit 773 and the supporting data at Plaintiff's Exhibit 774?
(Whereupon, the exhibit was displayed on the screen.)
(The exhibits were handed to the witness.)
Q If we move to the supporting data for the Trump Park Avenue.
(Whereupon, the exhibit was displayed on the screen.)
Q You'll note again that the valuation is based on the anticipated selling price of unsold units.

A Yes.
Q And is that method consistent with the use of a planned
J. Flemmons - by Defendant - Direct (Mr. Suarez)

Page 4409
course of action for determining an estimated current value?
A Yes.
Q And further on down do you see for the Mar-a-Lago Club, again, it says "value if sold to an individual"?

A Ido.
Q Is that consistent with the use of a planned course of action for determining an estimated current value?
A Yes. It's based on the assumption of making future sales.
Q And is that assumption made by management permitted to rely on hypothetical conditions?
A Well, given that estimated current value is, by its very nature, an estimate, and many of the allowable methods to determine estimated current value look to the future based on prospective cash flows or earnings, those methods are inherently hypothetical.

THE COURT: Wait, wait, wait. It sounded like you were saying because something is an estimate, you can use hypotheticals. Is that your -- is that implicit in your answer?

THE WITNESS: Well, the estimate is based on the hypothetical of making sales in the future.

THE COURT: Okay, but -- that doesn't answer -- I think the question was more, can you make a statement -- put a number down based on a hypothetical? Was that really the

Page 4410 basis to the question? MR. SUAREZ: Yes.
Q Can you put a number on it based on a hypothetical? A Yes, that's implicit in the standard.

THE COURT: Okay. But it has nothing to do with estimations, particularly, although everything about the future is an estimate. But your answer is basically, yes, you can base a number on hypotheticals?

THE WITNESS: That's correct.
THE COURT: Okay. Good.
Q To what extent does the definition of estimated current value under ASC-274 permit management to assume the existence of hypothetical conditions in the future?

THE COURT: A five-minute warning.
A Can you repeat that, please.
Q Yes. To what extent does ASC-274 permit the use of assumptions in hypothetical conditions by management in considering planned courses of action?

A Well, this goes back to my previous answer that ASC-274 is inherently an estimate that is ladened with assumptions and hypotheticals. Um, and there's a wide range of possibilities that management can use in order to form those estimates.

So to the extent those are documented and disclosed and understood, um, by the accountant that's compiling these financial statements, then that has been adequately

Flemmons - by Defendant - Direct(Suarez) Page 4415 value, consistent with the requirements of ASC 274 ?

A My answer is the same with regard to these properties as it was to the previous one. The construct of how evaluations were prepared are similar to the prior property. And I don't see from this work paper any references to discounting or use of a cap rate.

Q Was the lack of apparent discounting disclosed by the supporting data to Mazars?

A In my view, it is clear on the face of this document that there is no discounting. Again, with the very remote caveat that it is included in some of these values. But my conclusions from reviewing this document would be that there is no discounting applied.

Q Would professional accounting standards require Mazars to provide guidance to management on the appropriate disclosure of this methodology?

A Yes, under professional standards their obligation is to review the support for obvious GAAP departures. I believe Mr. Bender testified to that as well. And to me this constitutes an obvious GAAP departure that the accountants that are performing the compilation would then have duties under the professional standards to follow up on. I believe I referred earlier to the requirement to perform inquiries, resolve the discrepancies, either through the form of having adjustments made to apply the discounting in this case, or to include
valuation question. It is a, would proposed courses of action require that those conditions limit the proposed courses of action.

THE COURT: If you had waited a few moments I would have said overruled.

MR. SUAREZ: Unlike Mr. Kise, I haven't learned that rule, yet.

THE COURT: I am sorry, say that again.
MR. SUAREZ: I haven't learned the rule to be quiet when --

THE COURT: Oh, now you know.
Anyway please answer the question. If you need a readback or a restatement, please let us know.

THE WITNESS: Please read it back.
THE COURT: Read it back, please.
(Whereupon, the record was read back by the court reporter.)
A Well, I'll speak to the accounting methodology and not get into the valuation in determining the actual numbers, which is a valuation topic.

But from an accounting methodology standpoint, the planned course of action, as contemplated in ASC 274, would cover and contemplate the idea that if a company or if these properties do have rent control on them, but Mr. Trump intended to hold those properties for a long time until some future date

Flemmons - by Defendant - Direct(Suarez)
Page 4416
disclosure in the accountant's report.
I will say that we have seen other examples of lack of discounting. And Mr. Bender, as I have said before, testified that the absence of discounting, he believed, was subsumed in the disclosure in the accountant's report related to the lack of using ECV for a substantial part of the assets reported in the Statement of Financial Condition.

MR. SUAREZ: If we scroll up to the Trump Park Avenue number.
Q Previously we reviewed the methodology for the Trump Park Avenue number. You see up top it says: Valuation based on the anticipated selling price of unsold residential units and the selling price or the rental income stream to be derived from the commercial space?

A Yes.
Q If certain of those units had rent control
restrictions on them, would determining estimated current value based on proposed courses of action require the value of those units be discounted?

MR. WALLACE: Just an objection as to whether this is a valuation question or an accounting question.

MR. SUAREZ: As with all of the questions I have asked this witness, I am asking about the relevant accounting standards and the professional obligations to achieve the estimated current value. It is not a

Flemmons - by Defendant - Direct(Suarez)
Page 4418
when perhaps the rent control was lifted for whatever reason, and again it is a hypothetical, but if the intent and the intent of the holding these assets for that long and the belief that perhaps the rent would -- the rent control would lift at some point in the future, that could be an assumption that would be baked in to or could be baked into the determination of estimated current value from an accounting standpoint. How that, you know, translates into the numbers being applied, I would defer to a valuation specialist.

THE COURT: Of course, but wouldn't you then have to apply a whole discount? I mean, you are saying basically, well, the owner could have held onto these units until they were uncontrolled. But then -- then that's money way in the future. So doesn't that money have to be discounted?

THE WITNESS: Well, there is, I think, two concepts of discounting we are talking about here. I think one is just the basic idea that if you are basing an estimated current valuation on future cash flows, that you would apply a discount rate anyway under GAAP.

I think the discount that we are talking about here is, would you discount, again, the revenue streams because of the rent control aspect associated with it.

THE COURT: Yes, I totally agree so far.
THE WITNESS: And I think that would likely get

| Flemmons - by Defendant - Direct(Suarez) Page 4419 | Flemmons - by Defendant - Direct(Suarez) Page 4421 |
| :---: | :---: |
| 1 more into a valuation question on how that would be worked | 1 objection. I don't know that this document, the Hotel |
| 2 into the valuation, because of, there could be a risk | 2 Collection Company valuation, was included in the |
| 3 possibility waiting aspect or component to the valuation | 3 materials considered by Mr. Flemmons. Could we get a |
| 4 to address that. | 4 clarification whether this is a new opinion he is offering |

| 14 were owned by Mr. Trump -- those three properties? Excuse me. | 14 this is something that the accountant should have |
| 15 A Well, that's not clear on the face of the document | 15 considered in doing the compilation report, whether it is |
| 16 other than the property does have the reference to Trump before | 16 something they would have seen when doing the compilation |
| 17 all of them. Whether that's an ownership relationship or some | 17 engagement. It is marked PBC. It ties out to the |
| 18 other license relationship, that's unclear to me. | 18 document in the supporting data which reports over to the |
| 19 But to answer your question, given Mazars, you know, | 19 Statement of Financial Condition, which is what we have |
| 20 very extensive involvement with the Trump Organization and | 20 been talking about all day. |
| 21 working with Mr. Trump on -- with his properties in a variety | 21 MR. WALLACE: I guess, Your Honor, I would just |
| 22 of capacities, as I have said before, in both auditing and tax | 22 rephrase then. We object to the opinion to the extent it |
| 23 context, I would expect them to have the understanding as to | 23 is rebuttal only and was not part of his initial report. |
| 24 which of these properties were owned or license arrangements. | 24 We would also object to it -- to the fact that it is based |
| 25 MR. WALLACE: Your Honor, I am going to note an | 25 off of a document that he did not review prior to trial |

| Flemmons - by Defendant - Direct(Suarez) | Page 4423 | F |
| :--- | ---: | ---: |
| $1 \quad$ and was not disclosed to us as part of his report |  |  |

1 and was not disclosed to us as part of his report. And so 2 this portion of the opinion was -- is inappropriate.
basis for that.
THE COURT: Well, the whole point of this expert disclosure is so that there is no trial by ambush, so that the other side knows what to expect the witness to say. Isn't it? Is that sort of the bedrock point, Plaintiff?

MR. WALLACE: Yes, Your Honor.
MR. KISE: Your Honor, the point is to make sure there are no opinions that are disclosed. But not every -- it is not a gotcha, like, you never looked at this document so you are not allowed to talk about it. Experts are always allowed to talk about evidence that is out there, even if they didn't look at it before. If they want to cross examine him as to whether or not it is consistent with their opinion or not consistent, but what the experts are disclosing are opinions and the scope of the opinion. Certainly the government had every opportunity to ask about this document when they saw that this was his opinion.

MR. WALLACE: This was not disclosed -- I am sorry.

MR. KISE: They can't play a gotcha game with the documents and evidence. The disclosure is designed to disclose the nature and substance of his opinions.

THE COURT: And the basis, right?
MR. WALLACE: And the basis.

MR. KISE: And the basis. But it is not inconsistent with his basis. He is allowed to look at other things just like their expert, McCarty, came in and looked at new information which you allowed.

MR. WALLACE: I would say there is a difference between looking at Your Honor's summary judgment decision and considering a piece of evidence they could have shared with him in preparing his initial report and could have been disclosed to us as part of the basis for his opinion at that time.

MR. KISE: Your Honor, they are both subsequent information.

MR. WALLACE: I would note, to the extent that exhibit they were looking at is not in evidence, so it is not a piece of evidence that came in through another witness and he is now considering sitting here, I believe this is the first time the Plaintiff's Exhibit 751 has come up at trial.

I have -- I stand by my objection that we have not had proper notice. And as a rebuttal opinion, which is not actually rebutting anything, it is not appropriate.

THE COURT: Well, I am back to, does it really matter?

MR. WALLACE: Whether this comes in?
THE COURT: Yeah. Whether -- well, it is not a

Flemmons - by Defendant - Direct(Suarez) Page 4426
question of something coming in. It is a question of his testifying. That's the question. You are objecting to testimony. Not a document. Right?

MR. WALLACE: I am objecting to the fact that we didn't get proper notice of this aspect of his opinion and we did not get, to the extent that this forms part of his opinions, it was not properly disclosed to us. And I will stand by the objection.

THE COURT: All right. I am going to change my mind and overrule the objection on the ground that there is no jury, there is not going to be any prejudice here, and let's just move on. Overruled.
Q Mr. Flemmons, going back to the management company valuation, should Mazars have identified the Trump Doral; Trump Chicago and Trump OPO formed part of the value for that valuation?

THE COURT: It may be an issue again with "should they." Morally?
Q What professional standards have obligated them to read and understand and identify the fact that those three entities were owned by Mr. Trump?

A In complying with their responsibility under the professional standards to get an understanding of the basis for the valuation of the management company, it appears that this supporting schedule that itemizes each of these properties was
provided to Mazars and formed the basis for that valuation.
So, in the course of gaining an understanding of the components
of that valuation, I would expect under the professional
standards that they would understand that those three
properties that you just mentioned were part of the valuation
for the management company.
MR. SUAREZ: And moving on. If we could go back and pull up the Statement of Financial Condition, put that on the left, PX-756. And then the supporting data on the right, PX-742.

If we could turn to the property of Aberdeen. And pull up in the supporting data the Aberdeen property.

There we go.
Q Can I draw your attention in the supporting data to cell G 565. It indicates -- what does this cell indicate?

A It appears to be an estimate about the number of homes that are expected to be built on this parcel.

Q And if you take a look at the Trump International Golf Club in Scotland on page 15 of the Statement of Financial Condition, and you take a look at the note, is the note consistent with the supporting data as to the number of homes that are planned to be built in that property?

A I don't see the number 2,500 in this disclosure. There are other numbers that are broken down into different parts, and I am not sure that those add up to the 2,500 .
Flemmons - by Defendant - Direct(Suarez) Page 4428

Q If you add the 950 holiday homes to the 500 single-family residences and the 36 golf villas, that number is 1486. That's not the same as the 2,500 . Correct?

## A Correct.

(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
,

Q Would have expected Mazars, in discharging their professional standards, to ensure that there was consistency between the supporting data and the Statement of Financial Condition notes?

MR. WALLACE: Objection.
I believe this witness has testified that they are not ensuring anything. They are not offering any assurance.

THE COURT: This would be just another example of that, so overruled.
A Well, to be clear, and I've testified about this several times over the last couple of days, Mazars absolutely had an obligation under the relevant standards to review the financial statements, review the supporting documentation, understand the basis for violations, and evaluate whether the disclosures were consistent with the methods that were contained in the support; that's clear in the standards, and it's indisputable.

So here we have an example where the number of homes to build of 2,500 in the support is different than what's in the disclosure. Um, in the process of compiling these financial statements and the notes to the financial statements, that would be something that an accountant performing a compilation would be expected to identify as part of its compilation procedures under professional standards.

MR. SUAREZ: If we could move down to the
planned courses of action, what, if any, limitation would be
imposed by certain alleged development restrictions on that
property?

A Well, ASC-274 doesn't really get into that level of detail. We talked earlier about constraints. I would put that in the same category; that said from an accounting perspective, if there were reasons why The Trump Organization believed that those restraints would be lifted in the future, that conformed the basis for including estimated revenues and those projected cash flows. Um, again, from a valuation perspective, whether you would need to include some sort of risk waiting or probability waiting, that's beyond my expertise.
Q Would the standards that we've discussed yesterday and today, relative to Mazars' obligations and a compilation engagement, also apply to Whitley Penn in connection with the

| J. Flemmons - by Defendant - Direct (Mr. Suarez) <br> Page 4431 | J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4433 |
| :---: | :---: |
| 1 compilation engagement that they performed on the 2021 | 1 minute ago. |
| 2 statement | 2 MR. SUAREZ: I believe we moved it into evidence |
| 3 A Yes. Whitley Penn would have been subject to the | 3 before, but just so that the record is clear, this is D-950, |
| 4 requirements of AR-C80 for the 2021 Statement of Financial | 4 and we move it into evi |
| 5 Condition compilatio | 5 THE COURT: One way or another it's in. |
| 6 MR. SUAREZ: Can we pull up D-25 and D-26. | 6 MR. SUAREZ: Can we pull up ASC-274, D-27. |
| 7 (Whereupon, the exhibit was displayed | (Whereupon, the exhibit was displayed on the |

| 9 (The exhibits were handed to the witness.) | 9 MR. SUAREZ: I marked this for identification, but |
| 10 Q I know we touched on this yesterday, but I just want to | 10 I don't believe it's actually been moved into evidence, so I |
| 11 confirm that D-25 is the AR section that was in place after | 11 move this into eviden |
| 12 2009, and D-26, ARC section 80A was the AR section that was in | 12 THE COURT: Gran |
| 13 place after December of 2015; correct? | 13 (Defendant's Exhibit D-27 was admitted in |
| 14 A Yes, that's correct. | 14 evidence.) |
| 15 Q And these are the statements that would have governed | 15 MR. SUAREZ: And I would ask that we pull up D-452 |
| 16 compilation engagements by Mazars and Whitley Penn at the | 16 and put it up side by side. |
| 17 appropriate time? | 17 (Whereupon, the exhibit was displayed on the |
| 18 A Yes. These are the authoritative standards that | 18 screen.) |
| 19 applied to the compilation engagements by both Mazars and | 19 (The exhibit was handed to the witness.) |
| 20 Whitley Penn, say for ARC-80, was the only one that applied to | 20 MR. SUAREZ: From a housekeeping perspective, your |
| 21 Whitley Penn. | 21 Honor, D-27, if we move to the page that has the definition |
| 22 There are -- there's also, I think, an interpre | 22 on estimated current value |
| 23 that we've seen, and we may have discussed that one yesterday, | 23 (Whereupon, the exhibit was displayed on the |
| 24 that's also authoritative. And we also have talked about the | 24 screen.) |
| 25 AICPA accounting and audit guide related to personal financial | 25 MR. SUAREZ: This is a computer printout at D-27. |
| J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4432 | J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4434 |
| 1 statements that, as I said yesterday, represented industry | 1 Can we scroll to the second, third page. |
| 2 practice and best practices, and serves as, to this day, | 2 (Whereupon, the exhibit displayed on the screen was |
| 3 guidance from the AICPA on how to carry out those engagements | 3 scrolled through.) |
| 4 and apply these standards. | 4 MR. SUAREZ: Keep going. |
| 5 MR. SUAREZ: Your Honor, we move into evidence D-25 | 5 (Whereupon, the exhibit displayed on the screen was |
| 6 and D-26. | 6 scrolled through.) |
| 7 THE COURT: Granted. They | 7 MR. SUAREZ: Here. Stop. The estimated current |
| 8 (Defendant's Exhibits D-25 and D-26 were admitted | 8 value definition in D-27, at page four, is a mouse rollover, |
| 9 in evidence.) | 9 so the printout doesn't capture it. So just for purposes of |
| 10 MR. SUAREZ: Can we pull up | 10 completeness of the record, I would like to move in D-452, |
| 11 (Whereupon, the exhibit was displayed on the | 11 which is ASC-274, but captures at Section 20 here -- |
| 12 screen.) | 12 (Whereupon, the exhibit was displayed on the |
| 13 (The exhibit was handed to the witness.) | 13 screen.) |
| 14 Q Is this the document that you just referred to a minute | 14 MR. SUAREZ: -- the definition of estimated current |
| 15 ago with respect to the interpretation of Section 80 ? | 15 value. |
| 16 A Yes. This is the interpretation I was referring to. | 16 Q Which I'll ask the witness to confirm is the definition |
| 17 MR. SUAREZ: We move D-836 into evidence. | 17 of -- the definition that's provided in the glossary section of |
| 18 THE COURT: Granted. It's in. | 18 ASC-274-10-20? |
| 19 (Defendant's Exhibit D-836 was admitted in | 19 A Yes, it is. |
| 20 evidence.) | 20 MR. SUAREZ: With that, I move Defendant's |
| 21 MR. SUAREZ: And D-950 is already in evidence, and | 21 Exhibit 452 into evidence. |
| 22 we'll pull that up and just have the witness confirm. | 22 THE COURT: Granted. It's in. |
| 23 (Whereupon, the exhibit was displayed on the | 23 (Defendant's Exhibit 452 was admitted in evidence.) |
| 24 screen.) | 24 Q Mr. Flemmons, in connection with your review of the |
| 25 Q This is the practice guide that you just referenced a | 25 Statements of Financial Condition and the supporting data for |

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4435

1 the period of 2011 to 2021, what if any GAAP departures did you observe that was not covered by a disclosure contained in the Statement of Financial Condition?

A I don't believe that I identified any GAAP departures within the supporting materials that were not covered by disclosures in the accountant's report, the notes to the financial statements, um, between those two sources.

Um, we've talked about a lot of the departures and we
talked about a lot of the language that was in those places, and I don't believe I have identified any additional or incremental discrepancies with GAAP that were not covered by those disclosures.

Q And with respect to the Statements of Financial Condition, what, if any, GAAP departures did you observe that were not readily apparent in the detail provided to Mazars for the period 2011 to 2020?

A Apologies. Can you repeat that.
Q Sure. For the period 2011 to 2020, the Statements of Financial Condition from 2011 to 2020, what, if any, GAAP departure did you observe that was not readily apparent in the detailed provided to Mazars?

A None. We've gone through a lot of the detail working papers and support that was provided to Mazars to support the valuations on the Statement of Financial Condition, and over the course of walking through those, we've identified a number of
that came from a -- I believe it was a valuation firm. There were also instances in which appraisals were used as the basis for valuing the properties, and those would have come from outside professionals.
Q Was the use of appraisals accurately described in the Statement of Financial Condition?
A I believe so. I don't believe there was anything that contradicted the use of appraisals, but also the use of other bases for valuing the properties.
Q Was the basis for valuation of the properties in the Statement of Financial Condition accurately described?
A I believe so, yes.
Q Was the use of outside professionals in the Statement of Financial Condition accurately described?
A Yes. There was disclosure in the Statement of Financial Condition for each year that referenced the fact that valuations were, at times, um, developed through the use of outside professionals, but I did not interpret that to mean that that meant those valuations for those properties were based on appraisals.

There are other ways to use outside professionals to assist with components of valuations without being an appraisal, which would all be consistent with the various ways that properties can be valued under ASC-274.
Q Is it appropriate to consult with brokers that are

## emmons - by Defendant - Direct (Mr. Suarez) <br> Page 4436

GAAP discrepancies that were in that support. I'm not aware of other materials that identify additional GAAP deviations that were not disclosed to Mazars.
(Whereupon, there is a brief pause in the testimony.)
Q With respect to the support that was provided to Mazars by management of The Trump Organization, did it accurately
describe the information provided by outside professionals and
how that information was incorporated into estimated current value determinations?

MR. WALLACE: Can we get a clarification of what description we are referring to. It's not clear to me from the question which document he is referring to.

THE COURT: It was also a compound question, which
I don't always mind, but here I did. So can we get -- I'll consider it withdrawn.

MR. SUAREZ: Okay, I'll withdraw it and try again. Q What, if any, descriptions to the use of outside professionals did you observe in the support provided to Mazars by management for The Trump Organization?

A Well, there are a number of instances. I don't recall the specific properties that those were linked to, but I do recall in the support, um, for example, with Aberdeen, that was one specific one I do recall where one of the inputs associated with the valuation of that property, um, stemmed from a value

Flemmons - by Defendant - Direct (Mr. Suarez)
Page 4438
knowledgeable in the value of real estate in certain markets when determining the use of comparable sales information?

MR. WALLACE: Objection. That's a valuation question.

MR. SUAREZ: That's a methodology question.
THE COURT: Great minds think alike; that's a valuation question. He's not a valuation expert.

MR. SUAREZ: It's a methodology question. I'm asking of the ASC-274 contemplates conferring with experts in the field, brokers in the field that are knowledgeable of comparable sales, in order to achieve a determination of estimated current value under ASC-274.

THE COURT: Let's ask the expert.
Is there something in any of the governing literature that would address this issue?

MR. SUAREZ: We'll pull up ASC-274 on the screen? THE COURT: Sure.
MR. SUAREZ: D-27.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: Your Honor, I'm going to -MR. SUAREZ: Pull up D-27.
MR. WALLACE: Never mind.
THE COURT: Withdrawn.
(Whereupon, the exhibit was displayed on the

| J. Flemmons - by Defendant - Direct (Mr. Suarez) $\quad$ Page 4439 | Flem |  |
| ---: | :---: | ---: |
| 1 | screen.) | 1 |
| 2 | MR. SUAREZ: We can turn to, I believe, subsection | 2 |
| 3 | 55. | 3 |
| 4 | (Whereupon, the exhibit displayed on the screen was | 4 |
| 5 | scrolled through.) | 5 |
| 6 | MR. SUAREZ: Stop. 55-5. | 6 |
| 7 | (Whereupon, the exhibit displayed on the screen was | 7 |
| 8 | scrolled through.) | 8 |
| 9 | MR. SUAREZ: Dash six. Keep going. | 9 |
| 10 | (Whereupon, the exhibit displayed on the screen was | 10 |
| 11 | scrolled through.) | 11 |
| 12 | MR. SUAREZ: If go to C, "Appraisals based on | 12 |
| 13 | estimates of selling price and selling costs obtained from | 13 |
| 14 | independent real estate agents or brokers familiar with | 14 |
| 15 | similar properties in similar locations." | 15 |
| 16 | Q $\quad$ Do you see that? | 16 |
| 17 | A $\quad$ Yes. | 17 |
| 18 | Q $\quad$ What does that contemplate? | 18 |
| 19 | A $\quad$ Well, it's one of the many methods that is accepted | 19 |
| 20 | under ASC-274 for determining estimated current value for assets | 20 |
| 21 | or liabilities. And this particular one references obtaining | 21 |
| 22 | appraisals from real estate agents or brokers that are familiar | 22 |
| 23 | with similar properties. | 23 |
| 24 | So that is an answer to your first question that, yes, | 24 |
| 25 | the standard does contemplate that. | 25 |

Page 4440

Q Does the term "appraisals" require the use of any specific format of appraisal?
A No, it doesn't get into that level of detail.
Q Does it require that it be an MAI appraisal, for example?

## A No.

THE COURT: He already answered it didn't require a particular time, so you don't have to ask him if it requires a particular time.

MR. SUAREZ: Understood. May I have a moment to speak with my colleagues, your Honor?

THE COURT: Of course.
MR. SUAREZ: Your Honor, I have no further questions on my direct exam.

THE COURT: Anybody else from the defendants?
MR. ROBERT: No thank you, your Honor.
MS. HABBA: No thank you.
THE COURT: Will there be any cross examination?
MR. WALLACE: There will be, your Honor.
THE COURT: Let's start that in 15 minutes. So see you all at 3:25.
(Whereupon, a 15-minute break was agreed upon and taken by all parties.)
very wide landscape of the assets that were covered in the financial statements.

Q But sitting here today, you are not aware of any departures from GAAP that Mazars should have included in the Statements of Financial Condition?

A Sitting here right now, I don't recall.
Q Did you undertake any examination to determine if Mazars in this engagement, did, in fact, comply with its professional standards?

A I don't believe I was privy to all of Mazars work papers to be able to conduct that examination, so the answer is no.

Q Okay. If we could go back to a couple of areas you discussed with Mr. Suarez. I would like to ask you about related-party transactions.

I thought I was left with the impression in your report that, in fact, the failure to disclose the details of certain related-party transactions was, in fact, a departure from GAAP, and that it was not disclosed in the Statements of Financial Condition; is that correct?

A We have to look at my report. I don't recall that being my opinion. I don't recall being able to establish whether or not the alleged related parties were, in fact, related parties that should have been disclosed.

There is a specific standard within GAAP ASC 850 that

Flemmons - by Defendant - Cross(Wallace)
Page 4444
lays out the criteria and defines what a related party is. That has multi parts to it. How the entities that were in question fit or don't fit within that definition is not something that I undertook to ascertain. So whether or not there was a disclosure requirement is an open question.

I think my expert report, the way I left it, was that to the extent there is an undisclosed related party, that it would be a disclosure issue, not necessarily an accounting issue.

Q What's the difference between -- well, what do you mean when you say "a disclosure issue"?

A Well, the title of ASC 850 is Related-party Disclosures. And the standard revolves around the need to disclose related parties and significant transactions with those related parties. So it really does revolve around disclosure.

Q And failure to make that disclosure is a violation of GAAP, correct?

A If it is material.
MR. WALLACE: Can we pull up Mr. Flemmons
rebuttal report? And if we could go to page 12.
Q This is a table that you prepared in response to the report of Mr. Lewis. And you say, I am going to direct your attention to item G, that Mr. Lewis identified a departure concerning the failure to disclose details of certain

Page 4446
related-party transactions that should have been disclosed.
Q So you have no opinion one way or the other as to whether there was a failure to disclose related-party transactions?

A I do not. My only -
Q Sir, that was the question.
I believe you also discussed the reporting of cash from certain Vornado entities with Mr. Suarez. Was that a departure from GAAP?

A So you are talking about the 30 percent of the cash balance of the Vornado entities?

Q Yes.
A I believe I said earlier that based on my review of the document, it appeared that that would be a GAAP departure.

Q Okay. So that is a GAAP departure that wasn't reported or disclosed in the Statements of Financial Condition then?

A I would have to look back at the disclosures that were made to see if that was directly covered by one of the disclosures.

Q So then what was your basis for your statement earlier to Mr. Suarez that there were no GAAP departures that were not disclosed?

A I believe I said sitting here on the stand without all of the documents in front of me to pour through, I said I
don't recall whether or not there were.
Q So I am just trying to understand what weight should we give your recollection on this then?

A Is that a question I need to answer?
Q Yeah, it is. How much weight am I to give it that there are no GAAP departures that you don't recall were disclosed; and we just discussed the cash which you said should be disclosed?

MR. KISE: Objection. It is for the Court to determine weight, not for the government. It is simply an argumentative question.

THE COURT: I understand. Sustained.
Q How much work would you have to do -- well, I'll confess I don't remember the --

You were asked to state your answers to questions within a reasonable degree of professional certainty. How much professional certainty are you able to provide on your statement that there are no GAAP departures that were not disclosed in the Statements of Financial Condition?

A I would say I have a reasonable certainty based on the volume of materials that we have gone through so far in my direct examination, where we saw numerous GAAP departures that I believe all of which, certainly most of which, were covered by the disclosures.

I don't recall if the cash issue that you identified,

Page 4448
if that was specifically covered or not. That would be one I would want to look back into. But that's the only one sitting here right now that is in question.

Q We are at trial, there is not going to be another opportunity to look at it. Is there something you would like to look at now that would refresh your recollection on this issue?

A We could look at the accountant's report.
Q Okay. Which year would you like to look at? We can put it up here.

A I would say whichever year was the year that we looked at the supporting schedule that contained the 30 percent attributions.

Q I am sorry, did you want to look at the actual report or the supporting data?

A The report.
Q Okay. 2016 Statement of Financial Condition is Plaintiff's Exhibit -- I am sorry, we can pull up the 2014, that's Plaintiff's Exhibit 730.
(Handing)
MR. SUAREZ: In case you want to move it along,
it was 2016 I showed him, not 2014.
MR. WALLACE: We can do 16. Sixteen is Plaintiff's Exhibit 756.
Q Are you looking for the actual Statement of Financial

Condition or the notes on the disclosure for cash and marketable securities piece?

A Give me one moment, please.
So if you go to page, yeah, four, okay. And the cash, marketable securities and hedge fund section, there is a disclosure that cash, marketable securities and hedge fund represent amounts held by Mr. Trump and amounts in operating entities.

So we talked about that earlier which, you know, would cover the instance where cash that is held in a joint venture is being reported within the cash balance.

Q And is it your position that cash held by the Vornado Partnership meets the FASB definition of cash for Donald Trump sufficiently for him to report it on his Statement of Financial Condition as his cash?

A Can you repeat that, please?
Q Sure.
Is it your position that the cash held by the Vornado Partnership meets the FASB definition of cash for Donald Trump sufficiently for him to report it on his Statement of Financial Condition as his cash?

A I don't take that position. But the disclosure here indicates that, and certainly covers the fact that that happens.

The other aspect would be in order for it to be a
lemmons - by Defendant - Cross(Wallace)
Page 4450
departure from GAAP, it would have to be a material departure. I have not undertaken to perform a materiality analysis, but that would need to be done to conclude whether there is a GAAP departure.

Q Did you do materiality analyses for all of the GAAP departures that you discussed today?

A I have not done a separate materiality analysis. However, the amounts that we have been talking about were nine figure dollar amounts. This issue with regard to the cash is a much smaller amount from my recollection.

Q Do you know one way or the other whether readers of the report look at cash as a separate item for purposes of making loans or any other commercial use?

A I don't know whether or not they look at cash separately. As we have talked about, cash was part of one line item in the financial statements that was combined with marketable securities and hedge funds. And that fact was disclosed in the financials. If a user of the financials wanted to have the cash amount broken out separately, that's something that could have been asked for.

Q I am just asking what was actually presented. And so I am just trying to understand, is including the cash from -from the Vornado --

MR. WALLACE: Let me withdraw that question, if
I can.

Q So is it a departure from GAAP, putting aside -well, now you have made it a complicated issue, so I'll try to restart the question again.

Setting aside the materiality analysis, is excluding the cash from the Vornado Partnerships a departure from GAAP?

A I think the fundamental recording or reporting of partnership cash would not be consistent with GAAP. THE COURT: Let me jump in a second.
To a certain extent I think this is law of the case. And my question for the witness is: Is it your position that number two, which is still highlighted, discloses this, I'll call it, issue? And if so, which sentence there discloses this?

THE WITNESS: Well, the first sentence, Your Honor, is the one that I was referring to that informs users that cash is being reported on the Statement of Financial Condition that is from operating entities.

THE COURT: And would a reader realize that they have -- a user of this, consider this 30 percent interest to be held by Mr. Trump in an operating entity as cash?

THE WITNESS: Well it is unclear to me whether, you know, if a user would know that or not. Because again, this is an amalgamated line item with cash, marketable securities and hedge funds. Cash is not singled out, so if a user was interested in just the cash,
again, that would be something that would need to be requested.

THE COURT: Let's move on.
Q At the end of the examination by Mr. Suarez, you two were -- he was asking you a number of questions about whether certain - certain properties were accurately described in the Statements of Financial Condition. Do you remember that testimony?

A You will have to refresh my memory.
Q Well, you had a series of questions and he asked you if, I believe for Seven Springs, whether the disclosures in the Statement of Financial Condition accurately described the calculation on the Statement of Financial Condition. Do you recall that?

A Was that in regard to the number of homes to be built on that property?

Q I believe it was just a general question at the end of his exam?

A I don't remember.
Q Let me ask a different question then.
Is "accurately described" the standard that is
applied in ASC 274 as to the accuracy of a statement that goes into a personal financial statement?

A Well, the standard within ASC 274, I believe the word that is used is "adequate."

MR. WALLACE: Okay. Can we take a look at that? And can we pull up Plaintiff's Exhibit 1609? And go to page nine of 21. And if we look at the bottom.

It is the same as the other one, but this is the one we marked. But this is ASC 274, which we have looked at today. I'll represent it is identical and move it into evidence, if there is no objection.

Your Honor, I am moving Plaintiff's Exhibit 1609 into evidence.

THE COURT: Granted. It is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 1609 by the Court.)
Q And if you look down at the bottom, it is item 4513, Adequate Disclosure. And it states: Personal financial statements shall include sufficient disclosures to make the statements adequately informative. The disclosures may be made in the body of the financial statements or in the notes of the financial statements.

THE COURT: To financial statements.
MR. WALLACE: Thank you, Your Honor.
Q To financial statements. Is that the standard you were referring to?

A Correct. And the caption there is adequate disclosure, which is what I referred to a minute ago.

Q Okay. And did you review all of the disclosures in the Statements of Financial Conditions for 2011 through 2021 to determine if they were adequately informative?

A I don't believe I did that for all of the disclosures, no.

Q Okay. Why don't we take a look at -- I think you covered this with Mr. Suarez. It is also in your report.

MR. WALLACE: But if we could pull up
Plaintiff's Exhibit 730, and go to page seven of 26.
Q And this is the disclosure for Trump Tower. And if we scroll down to the third paragraph it states: "The estimated current value of 707 million is based on an evaluation by Mr. Trump in conjunction with his associates and outside professionals, applying a capitalization rate to the cash flow to be derived from the building operations."

And did you make a determination one way or the other whether that disclosure was adequately informative?

A I don't believe I did that as part of my reports.
Q Does it require accounting expertise to know whether or not this disclosure is adequately informative?

A Well, it is an accounting requirement. And it is a very subjective one. And in order to comply with that accounting requirement, and accountant's are one typically preparing the financial statements, and accountants like Mazars are also the ones who are, in this case, compiling the

| J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4459 | J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4461 |
| :---: | :---: |
| 1 contained in ASC-274 include cap rates in the disclosure; is | 1 A I |
| 2 that right? | 2 Q And so if a reader knows the cap rate and the final |
| 3 A There are illustrations in the appendices of ASC-274 | 3 value, then they would be able to calculate the cash flow that |
| 4 that provide examples of disclosures, but they are, by no means, | 4 is being used to value the asset; is that correct? |
| 5 intended to be script on what needs to be disclosed | 5 A Can you repeat that please. |
| 6 Q The question was, do the illustrations in ASC-274 | 6 Q |
| 7 include cap ra | 7 If a reader knows the cap rate and the final value, |
| 8 THE COURT: Do you mean all, or some? | 8 they can calculate the cash flow that's being used; is that |
| 9 MR. WALLACE: Why don't we actually take a look | 9 correct |
| 10 it, your Honor, if that's easie | 10 A Yes. |
| 11 If we could pull back up Plaintiffs Exhibit 1609. | 11 Q So then a reader will be able to determine if they |
| 12 (Whereupon, the exhibit was displayed on th | 12 think each of those numbers are reasonable; the cash rate, cash |
| 13 screen.) | 13 flow and the final amount? |
| 14 MR. WALLACE: And if we could go to page 14 of 2 | 14 A They would be able to perform a recalculation. |
| 15 (Whereupon, the exhibit was displayed on th | 15 Q Yeah, and determine whether the various inputs are |
| 16 screen.) | 16 reason |
| 17 Q This is just to orient you, Mr. Flemmons. At th | 17 A Ye |
| 18 bottom it says, "Illustrations" and it says, example one | 18 Q Okay. |
| 19 "Illustrative financial statements. Item 55-8. This example | 19 Are there any examples in the illustration where a cap |
| 20 illustrates financial statements prepared following the guidance | 20 rate is used and not disclose |
| 21 in this subtopic." | 21 A I would have to review the illustrations. Um, I don't |
| 22 Statements of Financial Condition, and that's 55-9, | 22 recall whether or not there's an example in ASC-274 where it |
| 23 "Illustrative statements, financial conditions follow | 23 mentions that a cap rate is used beyond this one. |
| 24 This isn't the best formatted document. I'm just 25 showing you that. | $24 \quad Q$ And I take it it's your opinion that disclosing the cap <br> 25 right is not required; is that correct? |
| J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4460 | J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4462 |
| 1 MR. WALLACE: We'll flip to the next page, which | 1 A That's correct. This is merely an illustration to show |
| 2 17, I want to show you, of 21. | 2 and example of a disclosure. And I'll also add that this note |
| 3 Q And here, we see there's an -- I want to direct your | 3 four, which is an example, is one sentence long. The disclosure |
| 4 attention to one of the items listed, which is Kenbruce | 4 related to Trump Tower is multi paragraphs. |
| 5 Associates. It's item listed, it refers to note four. I assume | 5 MR. WALLACE: Why don't we go back to that. That |
| 6 that means there's a note that follows this disclosure of value | 6 is Plaintiff's Exhibit 730 on page seven. |
| 7 that would contain information about the Kenbruce Associates | 7 (Whereupon, the exhibit was displayed on the |
| 8 valuation; is that correct? | 8 screen.) |
| 9 A I believe that's right. | 9 Q "Mr. Trump is currently" -- this is the paragraph that |
| 10 MR. WALLACE: If we could flip to the next pa | 10 deals with the valuation. What valuation use is there to the |
| 11 and find note four. | 11 fact that "Until Trump World Tower United Nations Plaza was |
| 12 (Whereupon, the exhibit was displayed on the | 12 constructed, Trump Tower was the tallest residential building |
| 13 screen.) | 13 and concrete structure in Manhattan", how does that aid |
| 14 MR. WALLACE: I'm sorry, one more. | 14 valuation? |
| 15 (Whereupon, the exhibit was displayed on the | 15 A I'm not a valuation expert, but in my -- as an |
| 16 screen.) | 16 accountant, and as a human being, I would suggest that that does |
| 17 MR. WALLACE: If we could focus down on note fo | 17 not have any bearing on valuation. |
| 18 (Whereupon, the exhibit was displayed on the | 18 Q So not everything that's being disclosed here is |
| 19 screen.) | 19 necessarily relating to the valuation. And I'll note that the |
| 20 Q It states, "The investment in Kenbruce Associates is an | 20 estimated current value is a single sentence as well; correct? |
| 21 eight percent interest in a real estate limited partnership. | 21 The sentence talking about the valuation and methods used to |
| 22 The estimated current value is determined by the projected | 22 calculate it. So just like the example, it's a single sentence. |
| 23 annual cash receipts and payments capitalized at a 12 percent <br> 24 rate." | 23 A And there were additional disclosures below that get 24 into amounts that are relevant to the property. |
| 25 Do you see that section? | 25 Q Sure. And those are separately broken out. Those are | building?

A Correct, but relevant to the property and reporting the property in the Statement of Financial Condition.

Q And what are some reasons an issuer would not include a capitalization rate in their disclosure?

A Not deeming it important to include that detail.
Q And what would be a reason why it's not an important detail to include?

A Well, as we've seen over the course of today, and yesterday, the supporting work papers that underlie these valuations, there are numerous inputs, many assumptions, many rates, many estimates, many cash flows. There are a lot of moving parts within even one property, and you are singling out cap rate.

Um, again, I think it's a discretionary topic. There's no requirement under ASC-274 to provide specific rates or cash flow information in the disclosures. It's a very subjective requirement that's up to the preparer.
Q Not disclosing the cap rate, though, would obscure whether or not a person making a financial report was using inflated numbers for either the cash flow or the cap rate; is that correct?

A No.
Q It would not hide that?
J. Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4464
A No, because I think your question is premised on the idea that preparing these financial statements and providing them to users is the end of the conversation. A user who is interested in getting those additional details, such as the capitalization rate, can make those inquiries. And in my experience, it's routine for users of financials to ask such follow-up questions.

Q What are some examples where that happened?
A Well, in connection with my work in doing accounting advisory work for public companies, um, and also for private entities, you know, there are times when investors are making follow-up inquiries of companies about disclosures. It's a routine aspect of the accounting and reporting.

Q Can you provide us with a specific example of an instance where there was a follow-up inquiry on a personal financial statement that had been compiled. I'm asking for something similar to what we are looking at here.
A Well, during my time at the SEC when we, and I, was involved in reviewing personal financial statements for purposes of evaluating ability to pay, we would often have to ask follow-up questions of the defendant to get additional details surrounding assumptions and details surrounding how their financial information was prepared.

Q That's because if they don't provide you enough detail it could obscure, I guess in the case you are talking about,

1 someone intentionally trying to lower their stated net worth?
A It may not be an intent to obscure. It could, you know, be a lot of reasons of just not having put more details in the information, and so it required additional follow-up. It was easily curable with a phone call.

Q Did you ever, in your time at the SEC, encounter times where people intentionally tried to lower their net worth in order to avoid the ability not to pay a particular fine or penalty?
A I don't recall coming across an instance where that was deemed to be intentional. Sitting here right now, it's been a while. But I do know that that process involved back and forth, quite regularly, with the defendant.

Q When you say "deemed to be intentional", what do you mean by that?
A I don't recall us endeavoring to try to understand whether or not there was an intent to deceive the staff, or feeling like there was, but, again, it's been quite some time.

Q So I'm going to go back to my first question.
Is your position that not disclosing the cap rate would not have the effect of obscuring inflation if either the cap rate or the cash flow being used to value the property were, in fact, inflated? It's your view that they would not actually achieve that?
A Well, as we said a minute ago, one would not be able to

Flemmons - by Defendant - Cross (Mr. Wallace)
Page 4466
recalculate how the $\$ 707$ million was arrived, based on this disclosure alone, but that's easily curable.

Q My question, though, is, and I'll ask it again. If not using the cap rate would allow someone to obscure the fact that they are inflating either the cap rate or the cash flow that are being used to reach the $\$ 707$ million valuation?

MR. SUAREZ: Objection, your Honor. Compound. MR. KISE: And asked and answered.
MR. WALLACE: It hasn't been answered.
MR. KISE: It has. You just don't like the answer.
THE COURT: Well, it's been responded to, so I think we should just move on.

MR. WALLACE: Fair enough, your Honor.
Can we take a look -- are we in 730? Can we go to page -- actually, no. Let's pull up Plaintiff's

## Exhibit 787.

(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: This is the - actually, I'll amend it. Let's start with 788.
(Whereupon, the exhibit was displayed on the screen.)
Q Let's start with the supporting spreadsheet, assume Mr. Flemmons, you recognize this document. This is the supporting data spreadsheet for the 2011 Statement of Financial

## Condition?

A That appears to be the case.
Q Okay. If we could go to row 112 , this should be the entry for 40 Wall Street.
(Whereupon, the exhibit was displayed on the screen.)
Q And if we look at the valuation method, it states,
"Average income for the five-year period 2013 to 2017", and has added expenses for the five-year period 2013 to 2017.

I believe your testimony on this entry was that it was appropriate under ASC-274, because it looked like the capitalization of future earnings.

Does that sound about right? I'm happy to have you restate it if you want to.
A I don't recall what my testimony was earlier.
Q Okay.
Is this an appropriate method of calculating the value of 40 Wall Street under ASC-274?

A I would have to revisit the wording of ASC-274. I know that one of the acceptable methods is capitalization of earnings. And there's also another acceptable method, which is discounted future cash flows. I would just need to revisit the wording of the standard to be able to answer that question.

MR. WALLACE: Sure. Can we get the witness a copy of Plaintiff's Exhibit 1609.
J. Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4468
(Plaintiff's Exhibit 1609 was handed to the witness.)
A Okay.
Q And so was the --
MR. WALLACE: You could put back up 788.
(Whereupon, the exhibit was displayed on the screen.)
Q So the question pending that you wanted to do more research on was whether this valuation method is appropriate under ASC-274. Is that, in fact, the case?
A So ASC-274 does state that one acceptable method is the capitalization of past or prospective earnings.

Q Could you just direct me to which section of ASC-274 you are referring to?

A Paragraph 55-1 on page 13 of the version you gave me. Q Okay.

So this is appropriate as a capitalization of
prospective earnings; correct? That's what you testified to?
A That's what it appears to be.
Q Okay.
MR. WALLACE: If we could turn to Plaintiff's Exhibit 787.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: If we could go to the page that has
J. Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4469

40 Wall on it.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: Okay.
Q If we look at the paragraph that says "The estimated current value of $\$ 524,700,000$ is based upon a successful renegotiation of the ground lease and an evaluation made by Mr. Trump in conjunction with his associates and outside professionals of leases that have been signed or are currently subject of negotiation, and a cap rate was applied to the resultant cash flow to be derived from the building's operations."

Is this an adequate informative of the method that was used in the supporting data?

A It appears to be consistent with the method that we just discussed in ASC-274, with one exception.
Q Which is what?
A I would have substituted the word "earnings" for cash
flow. But the concept is the same, is that it's based on some sort of, um, estimated earnings and applying a cap rate to that amount.
Q Well, this says it's "the subject of leases that have been signed or are currently the subject of negotiation."

MR. WALLACE: Can we split screen this with the supporting data?

Flemmons - by Defendant - Cross (Mr. Wallace)
Page 4470

## THE TECHNICIAN: Sure.

(Whereupon, the exhibit was displayed on the screen.)
Q This actually says that it's using an average of income for the five-year period 2013 to 2017, so two years -- from two years to six years out from the date of this financial statement. So how is -- so they are not the same; correct?

A I'm sorry, what's not the same?
Q Well, "leases that have been signed or are currently the subject of negotiation" are not the same as taking an average of income for a five-year period, two years out. Those aren't the same thing, are they?

A Well, I think you are overlooking the last part of the highlighted paragraph where it says, "and a cap rate was applied to the resultant cash flow to be derived from the building's operations."
"To be derived" means future flows, which is exactly what the supporting documentation reflects.

Q So to your reading, this adequately discloses that "looking at leases that have been signed or are currently the subject of negotiation", and that "there will be a resultant cash flow from those leases", is the same as looking out for a five-year period, two years in the future?
A It's not inconsistent with that disclosure.
Q Do you know, from a valuation perspective, if there's a
difference between using leases that have been signed or are currently the subject of negotiation, and an average of income and expenses from a five-year period starting two years in the future?

MR. SUAREZ: Objection. The witness is not a valuation expert.

MR. WALLACE: If the answer is, "no," the answer is no.

THE COURT: I'm sorry, say that again.
MR. WALLACE: If the answer is no, he doesn't know, then that's fine.

THE COURT: Well, I think it's maybe more complicated than that. It's what is his expertise and how he's been qualified.

Sustained.
Q But based on your accounting experience, you think that those two are sufficiently close enough that this is adequately informative?

A In my view, yes.
MR. WALLACE: Can we pull up Plaintiff's Exhibit 783 -- 793, sorry.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: Actually, the native.
(Whereupon, the exhibit was displayed on the
J. Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4472

## screen.)

Q Mr. Flemmons, I'll represent to you this is the supporting data spreadsheet for the 2012 Statement of Financial Condition. If we could go to row 110 .
(Whereupon, the exhibit was displayed on the screen.)
Q This should be the 2012 entry for 40 Wall Street. The entry states, "Income based on stabilized rents; expenses based on 40 Wall Street, LLC, two thousand thirty one, eleven, financial statements increased by three percent for inflation." And it lists income rented space at 35 million, income vacant space at 8 million.

Feel free to look at the rest of the valuation, but in your view, does this valuation technique conform to ASC-274?

A Yes, it appears to fall under the same prong of ASC-274 that we just discussed, which is the capitalization of past or prospective earnings.

MR. WALLACE: If we could split screen this with
Plaintiff's Exhibit 815, please.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: If we could go to page ten of 24.
(Whereupon, the exhibit was displayed on the screen.)
Q So the valuation statement here says that "The
estimated current value of $527,200,000$ is based upon a successful renegotiation of ground leases and an evaluation made by Mr. Trump in conjunction with his associates and outside professionals of leases that have been signed or are currently
the subject of negotiation, and a cap rate was applied to the resultant cash flow to be derived from the building's operations."

Is that disclosure adequately informative as to the method that was used to calculate the value of 40 Wall Street?

A In my view, yes, for the same reasons that we discussed on the prior property.

Q So the fact that this valuation includes income for vacant space, and vacant space is not mentioned in the Statement of Financial Condition, is not something that you would think should have been disclosed in this statement?

A Well, I would say that the reference to income, vacant space on the supporting spreadsheet could very well be referring to the leases that are currently the subject of negotiation. Um, those two things correlate, potentially.

Q Potentially, but you don't know for sure one way or the other?
A I don't. But they are not inconsistent on their face. Q I believe you also had a discussion with Mr. Suarez about whether it was appropriate to use these valuation techniques in 2011 and 2012 if The Trump Organization was also
lemmons - by Defendant - Cross (Mr. Wallace)
Page 4474
in possession of an appraisal that had a lower value for the building.

Do you remember that testimony?
A I remember that testimony.
THE COURT: There's no way he could forget it. It was said about 30 times.

MR. WALLACE: Im laying my foundation, your Honor. I'll try to keep it quick.
Q I believe you said, in addition, that you did not believe management had an obligation to provide the accountants preparing the compilation report with copies of appraisals if they did not form the basis for the valuation in the Statement of Financial Condition; is that correct?

## A That's correct.

MR. WALLACE: If we could pull up a copy of your expert report and go to paragraph 77.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: Which I believe is on page 23 to 24.
(Whereupon, the exhibit was displayed on the screen.)

MR. WALLACE: If we could pull up the rest of this paragraph so we could see it together, please.
(Whereupon, the exhibit was displayed on the screen.)

1 Q I'm going to focus your attention to the last statement -- well, I'll read from the middle of your statement, which says that, "However, there is simply no expectation or requirement that is part of the compilation engagement that a client assemble and provide all documents that have any bearing on the reported asset. Instead, an accountant performing a compilation only expects to be provided with the details supporting the amounts to be reported in the financial statements, including the back-up documentation and responses to the accountant's inquiries. If appraisals were not used as the basis to report asset values, an accountant would not expect such appraisals to be provided by the client."

I see that you don't cite any specific accounting standard in those opinions; is that correct?
A I don't see any citations here, no.
(Continued on the next page.)

Q And so this is based on your experience and practice; is that correct?

A It is based on my experience and understanding of industry practice.

Q And you have never actually prepared a personal Statement of Financial Condition pursuant to ASC 274; is that correct?

A I have performed compilations, but I have not performed a compilation of a personal financial statement.

Q Over the course of your entire career, I believe you testified that you worked on less than five compilation engagements; is that correct?

A That sounds right.
Q Okay. And the last time you would have worked on any compilation report would have been before the year 2000; is that correct?

A That sounds right.
Q And so is that the scope of -- well, let me ask it differently.

You then also said that you did not find it professionally plausible, is that the right term, that Mr. Bender would have asked for appraisals? Is that correct?

A We can look back at the testimony, that sounds like the gist of what I was saying.

Q Okay. And you don't view their being any obligation
under the engagement letters between Mazars and the Trump Organization for the Trump Organization to provide appraisals if wasn't the specific thing that was being used to value the property; is that fair?

A I would have to look back at the wording of the engagement letters. I know one of the terms indicated that information would be made available to the accountant, but it did not say that all information would be provided to the accountant.

Q Okay.
A Particularly information that had no bearing or reflection in the Statement of Financial Condition.
Q So you get me there. How do you come to the conclusion that an appraisal for the property that is being valued in the Statement of Financial Condition would have no bearing on the statement that is being reported in the Statement of Financial Condition?

A Because it has no bearing on the reported value being used to report that property on the Statement of Financial Condition.

At some level where do you draw the line? If a company or an individual performs valuation calculations using every single method that is available under 274 , which could yield 12 different scenarios, there is no obligation on the part of that individual to provide all of them to an
accountant. They are only going to pick one of them, put that on the Statement of Financial Condition, give the accountant the support for it, they can agree or disagree, but they are going to be evaluating whether or not that is an appropriate valuation in accordance with GAAP. There is no need to provide the other 11 to the accountant.

THE COURT: Five minute warning.
MR. WALLACE: Thank you, Your Honor.
Q So in your view it is appropriate for a client to potentially conduct 12 different valuations, pick the one that is the highest, share with its accountants the exact basis for that one calculation, and not tell them anything else about all of the other valuations that they ran?

A That's correct.
Q Okay. Now over the course of the day though, you have told us many times that you saw things in the supporting data that raised red flags or would have caused you to ask for more information. Do you recall that testimony?

A It sounds familiar.
Q So do you still think that it would be implausible that Mr. Bender would have asked Mr. McConney for any appraisals if he had them on the properties that were being valued in the Statement of Financial Condition?

A I do find it implausible.
Q So does that mean you don't believe Mr. Bender?

A I indicated yesterday the reason for believing that it was implausible, and it is based on the professional standards and the requirements that existed at the time --

Q I am asking for the implication of what you have told us now. So does that mean you don't believe Mr. Bender?

MR. KISE: Objection is he asking the witness if
he thinks Mr. Bender is a liar?
MR. WALLACE: He is saying it. I want to know if he is.

MR. KISE: No, you are saying it.
THE COURT: Objection sustained.
All he can say is that he find it is
implausible.
Q So you discredit Mr. Bender's testimony on that account; is that fair?

MR. WALLACE: He has prepared an opinion.
THE COURT: It is clever, you know.
MR. KISE: Asked and answered.
MR. WALLACE: I believe I have not asked this.
Q Are you discrediting Mr. Bender's testimony in that regard?

A His testimony is inconsistent with the standards applicable in compilations.

Q If an auditor learned of this process that you described where the issuer of an estimate went through and

Condition is consistent with GAAP, and one of the accepted
methods of ASC 274, and the accountant will be evaluating the appropriateness of that method based on that method alone.

MR. WALLACE: I think I am just about up. This is a good time.

THE COURT: Will you be continuing with cross? MR. WALLACE: I will be continuing with cross.
THE COURT: Any idea how long, roughly?
MR. WALLACE: I would hope not more than half an
THE COURT: Any idea how long, roughly?
MR. WALLACE: I would hope not more than half an hour in the morning.

THE COURT: All right.
I hereby order the witness not to discuss this case or his testimony with anybody related to it while he is still a witness. I will ask Ms. Greenfield to go over the schedule.

MS. GREENFIELD: So we are going to finish with
Mr. Flemmons tomorrow, but that should be at most an hour.
Correct?
MR. SUAREZ: We will have some redirect.
THE COURT: How much redirect?
MR. SUAREZ: Based on the cross, but I estimate about a half hour.

MS. GREENFIELD: A half hour. Who is after Flemmons tomorrow? Che ASC 274, and the accountant will be evaluating

Who is after Flemmons tomorr

| Flemmons - by Defendant - Cross(Wallace) | Page 4480 | Flem |
| ---: | :---: | ---: |
| 1 | conducted 11 different valuations and came up with the one that | 1 |
| 2 | is the highest; under the professional standards, would they | 2 |
| 3 | have an obligation to ask for that additional information? | 3 |
| 4 | MR. KISE: Objection. Is he talking about under | 4 |
| 5 | the audit standards; is he talking about under the | 5 |
| 6 | compilation standards? He said auditor, so that implies | 6 |
| 7 | that there is -- it is time to go. | 7 |
| 8 | MR. WALLACE: Someone is suggesting we are done | 8 |
| 9 | for the day. | 9 |
| 10 | THE COURT: I have seen this in weddings. | 10 |
| 11 | MR. KISE: Which standard? | 11 |
| 12 | THE COURT: Which standard? | 12 |
| 13 | Q If the accountants were to have learned that the | 13 |
| 14 | client followed this procedure that you described of doing 11 | 14 |
| 15 | different valuations and selecting the one that had the highest | 15 |
| 16 | value, under the professional standards, would the accountants | 16 |
| 17 | have an obligation to ask the client for that information? | 17 |
| 18 | A $\quad$ No. As long as -- | 18 |
| 19 | MR. KISE: Objection, for what information? | 19 |
| 20 | THE COURT: For the fact that there were 11 | 20 |
| 21 | methods of valuation and only one was given. Overruled. | 21 |
| 22 | MR. KISE: Okay. I see the question. | 22 |
| 23 | Withdrawn. | 23 |
| 24 | A My answer is no, because as long as the valuation | 24 |
| 25 | that is selected and reported in the Statement of Financial | 25 |

emmons - by Defendant - Cross(Wallace)
Page 4482
MR. ROBERT: We have Mr. Collins tomorrow after Mr. Flemmons.

MS. GREENFIELD: Who is after Collins?
MR. ROBERT: Mr. Laposa. Hopefully we will get him done Thursday, if not Friday morning.

And then Mr. Giuliette Friday morning.
MS. GREENFIELD: Who was that?
MR. ROBERT: Gary Giulietti.
MS. GREENFIELD: How much direct do you have of Mr. Giuliette?

MR. ROBERT: If we can get him early enough Friday, hopefully done on Friday. Monday morning we have another expert followed by Mr. McConney.

MS. GREENFIELD: I had only McComney on Monday. Who is coming before?

MR. ROBERT: David Miller is starting. And then we are going to go to Mr. McConney Monday afternoon and all day Tuesday.

MS. GREENFIELD: Okay.
MR. ROBERT: Thank you.
(Whereupon the trial stood adjourned to Thursday November 16, 2023, at 10:00 a.m.)
