| ---: | :---: | ---: |
| 1 | A $\quad$ Well, insofar as these methods that are provided in | 1 |
| 2 | this section of ASC 274 are inherently estimates, and estimates | 2 |
| 3 | are not always accurate. But I think estimates should endeavor | 3 |
| 4 | to, you know, seek to be as accurate as possible, but they are | 4 |
| 5 | not intended to be perfect. | 5 |
| 6 | Q Well, for example, if you are using capitalization of | 6 |
| 7 | past earnings, the past earnings number should be accurate; is | 7 |
| 8 | that fair? | 8 |
| 9 | MR. KISE: Your Honor, one point of | 9 |
| 10 | clarification. We don't have a hard copy. Is this the | 10 |
| 11 | real estate section or -- | 11 |
| 12 | MR. WALLACE: Your Honor. | 12 |
| 13 | MR. KISE: I can't see it. I can't see it on | 13 |
| 14 | the screen. | 14 |
| 15 | THE COURT: I thought that myself. | 15 |
| 16 | MR. KISE: Yeah. | 16 |
| 17 | MR. WALLACE: It is not, it is not the real | 17 |
| 18 | estate section. There is a separate real estate section. | 18 |
| 19 | MR. KISE: I guess Mr. Wallace had a trick up | 19 |
| 20 | his sleeve. | 20 |
| 21 | MR. WALLACE: I don't have a trick up my sleeve. | 21 |
| 22 | I am being interrupted. | 22 |
| 23 | MR. KISE: I just can't see the thing on the | 23 |
| 24 | screen. I need the clarification so we know where we are | 24 |
| 25 | looking. | 25 |

Page 4488
THE COURT: What is the context of what we are looking at?

MR. WALLACE: Section 55-1, Implementation Guidance, estimated current value that he covered with Mr. Suarez.

THE COURT: Section 55-1 of what?
MR. WALLACE: He has already answered a number of questions about this. Is there a question whether I can follow-up on this? Or am I allowed to proceed?

THE COURT: I would like to know of what.
MR. WALLACE: The what? What is the question, Your Honor?

THE COURT: This is section $55-1$, of what?
MR. WALLACE: Of ASC 274.
THE COURT: Okay. Thank you.
MR. WALLACE: Sorry.
Q So I believe the question was, if you were
capitalizing past earnings, the past earnings number should be accurate; is that fair?

A That's fair.
Q And if you are using perspective earnings, the estimate of perspective earnings would need to be made in good faith; is that fair?

A That's fair.
Q Okay. And if you are capitalizing those amounts, you
would need to determine the cap rate in good faith; is that correct?

A That's fair.
Q Okay. And looking down at the historical cost adjustment method, if you are adjusting historical costs, that historical cost number would need to be accurate; is that right?

A That's correct.
Q And if you are using the appraisal method, you would need to actually use the amount that was reported in the appraisal; is that correct?

A Well, unless there were good reasons to deviate from the information in the appraisals, there could be assumptions that were used in the appraisals that management disagreed with, in which case those could be adjusted and disclosed as such.

Q And disclosed. So if you are going to make an adjustment to the appraisal, you should disclose that you adjusted the appraisal by using whatever adjustments the preparer of the financial statement may deem appropriate; is that fair?

A I think it depends on the circumstances and the significance of the deviations.

Q If you are using the item $E$ to discount amounts of projected cash receipts, you would need to determine the amount

Page 4490
of expected receipts in good faith; is that fair?
A Yeah, I think you would need to estimate the projected receipts in good faith.

Q And you would need to determine which discount rate to use in good faith; is that right?

A Yes.
Q And ASC 274 would require the financial statement to accurately disclose the valuation technique selected, correct?

A As we talked about yesterday, the requirement is to provide adequate disclosure about the techniques.

Q Adequately informative is, I think, the language we saw in 274; is that fair?

A That sounds right.
Q So the disclosure would need to be adequately informative to the reader of the report, correct?

A That's correct.
Q And just to confirm, your work in this case did not include reviewing the accuracy of any of the information that went into the calculations in the Statement of Financial Condition; is that correct?

A I am not a valuation expert, so I did not endeavor to evaluate the appropriateness of the amounts. I did, however in many cases, evaluate the appropriateness of the methods used vis-a-vis ASC 274.

Q And I am asking about the factual information. So

| Flemmons - by Defendant - Cross(Wallace) | Page 4491 |
| :---: | :---: |
| 1 | that was not part of your analysis whether the information that |
| 2 | was comprising the valuations, whether that was accurate? That |
| 3 | isn't something you did; you looked at methods? |
| 4 | MR. KISE: Objection. I think that |
| 5 | mischaracterizes his testimony. |
| 6 | THE COURT: I think he is just seeking |
| 7 | clarification. He is allowed to phrase it in his own |
| 8 | words. Overruled. |
| 9 | Do you need a readback? |
| 10 | THE WITNESS: Please. |
| 11 | (Whereupon, the record was read back by the |
| 12 | court reporter.) |
| 13 | A I looked at methods, but I did also look at the |
| 14 | detail support for the calculations, and to see what was |
| 15 | provided to the outside accountants, Mazars; and see how that |
| 16 | flowed into the Statement of Financial Condition, both in terms |
| 17 | of the amounts and the disclosures. |
| 18 | Q So, but you didn't do any analysis to determine if |
| 19 | those amounts that were being shown in the back up, whether |
| 20 | those were accurate? |
| 21 | A I am struggling with the word "accurate." Accurate |
| 22 | against what standard? |
| 23 | Q Well, the standards we were just discussing. If you |
| 24 | are using past earnings, you need to have accurate earnings. |
| 25 | Did you do any analysis -- well, in any context, did you do |

that was not part of your analysis whether the information that was comprising the valuations, whether that was accurate? That

MR. KISE: Objection. I think that
THE COURT: I think he is just seeking
clarification. He is allowed to phrase it in his own
Do you need a readback?
THE WITNESS: Please.
(Whereupon, the record was read back by the court reporter.)
A I looked at methods, but I did also look at the detail support for the calculations, and to see what was provided to the outside accountants, Mazars; and see how that flowed into the Statement of Financial Condition, both in terms the amounts and the disclosures

Q So, but you didn't do any analysis to determine if those amounts that were being shown in the back up, whether those were accurate?
A I am struggling with the word "accurate." Accurate gainst what standard?
Q Well, the standards we were just discussing. If you Did you do any analysis -- well, in any context, did you do

Flemmons - by Defendant - Cross(Wallace)
Page 4492
anything to determine whether any of the numbers in the backup support were being accurately reported by the Trump Organization?

A If you are asking me, for example, did I seek to validate whether the historical earnings numbers that were used for the calculations, in which cases that method was used, did I go and validate whether the correct past earnings figure was included? I did not do that.

Q And did you do any analysis to determine whether any of the estimates contained in the Statement of Financial Condition were prepared in good faith?

MR. KISE: Objection to "good faith."
THE COURT: Read back, please.
(Whereupon, the record was read back by the court reporter.)

THE COURT: Sustained. He wouldn't know whether they were done in good faith or not. He might know other things.

MR. WALLACE: I am asking if he did any work to determine if they were made in good faith.

MR. KISE: What would --
THE COURT: How would he do that?
MR. KISE: What does good faith mean, indicia of fraud?

MR. WALLACE: He could find out how the
directors came to the cap rates it was using; how it came to the discount rates.

THE COURT: Then he would be trying to determine the accuracy. But good faith is in the mind of the person that is putting the number together.

MR. KISE: He could opine --
THE COURT: Rule number one.
MR. KISE: All right. Fair enough.
MR. WALLACE: Your Honor, the witness testified these numbers had to be prepared in good faith, and I am asking if he has done any work to determine if they met that standard that he is testifying to.

THE COURT: Well, now the cat is sort of out of the bag, but let's hear an answer to the question. A I didn't specifically seek to develop an opinion on the question you are asking. However, there are many instances where I saw components of the calculations that tied to, for example, information provided by third-party, you know, brokers or agents; or appraisal information that had some correlation to that. So based on that, one could say that that was supported and was in good faith. But I did not specifically seek to -- I didn't structure my work in that fashion.

Q And so the information that you are seeing, you are talking about the information that you would see in that supporting worksheet that would feed into the Statement of

Flemmons - by Defendant - Cross(Wallace)
Page 4494
Financial Condition; is that the information you are referring to?

A That's correct. There were many instances where I did see support for the numbers, which certainly showed indicia of good faith. But I did not seek to do that for every single calculation.

Q But you didn't do any additional work to go back and see if those numbers that were reported, the information that was contained in the supporting worksheets, you didn't do any work to determine if that was, in fact, accurate or an accurate reflection of the supporting material, did you?

A I think I said in some cases I did see that correlation. But I did not seek to undertake that effort for all of the calculations.

Q Did you review all of the work papers for the Statement of Financial Condition for each year from 2011 to 2021?

A I don't recall.
Q I'll see if we can try to remember this, but when you were testifying with Mr. Suarez and looked at one of the supporting data spreadsheets, you said there were blue numbers that would tie out to the support. Did you go through and look at the documents that tied out to the blue numbers in the supporting data spreadsheet?

A I don't recall.

Q If you did, would it have been reflected in your reports?

A Yes.
Q Now, if you are going to use one of those techniques that we were discussing, ASC 274 would still require that number reflect the amount at which an item could be exchanged between a buyer and a seller, each of whom is well informed and willing, and neither of whom is compelled to buy or sell; is that correct?

A That is the definition of estimated current value, so yes.

Q And so if the issue of a Statement of Financial Condition uses one of the techniques listed in ASC 274, but comes to the conclusion that the price reached by using that technique is not one where a transaction would actually occur, then it is not estimated current value; is that correct?

A Well, I am not sure how that would happen, if a preparer is using one of the methods that is contained in ASC 274 to develop and establish estimated current value, how that would then lead to a conclusion that it is not estimated current value.

Q Well, what if someone were to use, say, historical cost. They come up with a value based on historical cost, that they have an independent opinion that there is no way anyone would pay the historical cost amount for that asset. By
the stand?
MR. KISE: I had to read that for a second just to make sure I heard you correctly.

But the point is, you are asking this witness, who is an accounting expert and a, you know, with his background, to make a subjective value determination as to whether or not an individual owner or an individual buyer, as the case may be, would engage in a specific transaction, hypothetical or otherwise.

THE COURT: Well, let me try to simplify it. How about if I ask the question: If the compiler uses one of the methods and reaches a result that would not be the price at which a willing seller would sell to a willing buyer, what are you supposed to do?

MR. WALLACE: Your Honor, I am actually asking a slightly different question.

THE COURT: Okay.
MR. WALLACE: Because I am interested in this from the perspective of the issuer.
Q The compiler would be the accounting firm; is that fair, Mr. Flemmons, if we use these terms?

A That's correct.
Q And the issuer is the person issuing the statement. In the examples we are looking at that's Donald J. Trump?

A That's fair.

Flemmons - by Defendant - Cross(Wallace)
Page 4496
definition, that person does not believe that the historical cost has developed an estimated current value; is that fair?

MR. KISE: Objection. That's an improper hypothetical. He is getting into valuations and subjectivity of valuations, what someone would pay for something or not pay. Who are we even talking about, the seller or the buyer? The seller might not pay something, but the buyer might not sell it. So we are getting into value judgments.

THE COURT: I think we are talking about the owner who would be the seller.

MR. WALLACE: We are talking about the person issuing the statement and whether or not they used a technique, but they form a belief that that technique has created value that does not reflect where a transaction occurred.

MR. KISE: It is an improper --
MR. WALLACE: It is a hypothetical.
MR. KISE: This is not an expert on valuation. You certainly could contend that an owner might not sell under any of the scenarios. Under six it is highly subjective. I am sure if you put President Trump on the stand he would say no matter how high the number is, it needs to be higher. It is just a fact.

THE COURT: Would I ever put President Trump on

Flemmons - by Defendant - Cross(Wallace)
Page 4498
Q So my question is, you said that there is, I think, essentially, a presumption if someone uses one of the techniques in ASC 274 that in fact reflects estimated current value. My question is, is it still estimated current value if a person uses the technique but has a subjective belief that the value is not correct, that no transaction would take place at that price?

THE COURT: And what's --
MR. KISE: Objection, Your Honor. I think it is an improper question.

THE COURT: Overruled. But what is the specific question there?

MR. WALLACE: The question is --
THE COURT: I understand the situation, the hypothetical. What is the question?
Q Is it possible to use a technique and still not arrive at estimated current value?

THE COURT: Okay. Thanks.
A From an accounting perspective, using any of the methods that are called for in ASC 274 are ones that can establish estimated current value. So I am not sure I understand your question on how it would not establish estimated current value.

Q Would it still, if a person were to reach a conclusion that it was an obviously inappropriate value, would
that still equate to estimated current value?
MR. KISE: Objection. "Obviously inappropriate value"?

MR. WALLACE: All right. Can we pull up -MR. KISE: In whose mind?
MR. WALLACE: Why don't we pull up Defendants
950. And if we can go to page 22.

Q This is the 2008 --
MR. WALLACE: I am maintaining my objection to the out-of-date guidance.
Q But I believe this is the 2008 guide that you said was still -- could be useful reference material for someone doing a compilation report. I can show you the cover if it would help refresh your recollection.

A That's not necessary.
Q You remember the document?
A Yes.
MR. WALLACE: If we go to page 22. Go down to the fourth bullet under 2.05.
Q And these are the things that I believe are ways a misstatement might occur. One of the bullet points was the presentation of an asset or liability at an obviously inappropriate value or amount. And so I am asking, is there a tension between using one of the techniques that comes to an obviously inappropriate value or amount?

Flemmons - by Defendant - Cross(Wallace)
Page 4500

A I don't think this speaks to the questions you were asking me before about selection of a method that is allowed under ASC 274 to establish estimated current value. I think what this is talking about is with the method selected, how is that applied. Are you using a discount rate of 30 percent? That would be an obviously inappropriate value or amount.

Q Well, no. It says the presentation of an asset. So this isn't going to the calculation, this is saying how is the asset -- I think this is saying that if you look at the asset, it is on the books at an obviously inappropriate value, that's something you should be looking out for as a GAAP departure.

So I will ask a question.
Since I have just directed you to this.
A Mm-Hm.
Q Is it still appropriate to use one of these
techniques if it comes to an obviously inappropriate value or amount?

A I think you are conflating two different concepts, and that's not correct. As I said before, the presentation of the asset is based on the calculations using methods that are under ASC 274. So this is speaking to appropriately using that method and not using inputs that are obviously inappropriate.

Q So there is - I take it your answer is there is no way if you use one of the techniques in ASC 274 you would reach an obviously inappropriate value?

A If the method is appropriately applied, you have complied with ASC 274.

Q So it would therefore not reflect an obviously inappropriate value or amount? I am trying to understand your view. Is it if you use the techniques in the ASC 274 you will not violate this provision right here?

A That's my view.
Q Okay.
THE COURT: I sort of liked my question better.
But what happens if you use the appraisal method and the appraiser had a typographical error and added a zero or subtracted a zero, and you just look at it and you know that can't be right. Can you still say, well, I am using the method. That's the appraisal. And it said $\$ 100$ million and I know it is worth $\$ 100$ billion or $\$ 10$ million. What do you do if the - I know I am asking another question, but it is the same question. What are you supposed to do in your role if you see an appraisal using one of the methods, using as a hypothetical appraisal, and it is obviously wrong? Can you still use it? Can you say, all right, so what it is wrong, but I am using the method.

THE WITNESS: That goes to my prior testimony a few minutes ago that the method needs to be applied correctly in accordance with how it is laid out in ASC
274. For example, using the capitalization of perspective earnings, you probably shouldn't use a zero percent cap rate. That would be obviously inappropriate. And to your example, if there is a clear error with an appraisal, you know, that would be another reason that would need to be revisited. But my testimony is that the -- that ASC 274, to the extent those methods are being applied as described in the standard, and appropriately, you will arrive at an estimated current value that is usable for your financial statements.

THE COURT: All right. Thank you.
Q I believe you also testified that using these
different methods -- the different methods listed in ASC 274 could yield values that varied, differed by an order of magnitude. Is that fair?
A They certainly can.
Q So how are you able to have values that differ by an order of magnitude that both reflect the price at which a willing buyer and willing seller would exchange? If one valuation technique comes to $\$ 1$ million and another comes to $\$ 100$ million, isn't there some objective standard? I guess I am trying to understand, is it your position that a willing buyer and willing seller would agree to both prices?

A Well, first of all, estimated current value is not an exact science. There is not one single correct value that
comes out of this exercise. The standard allows for a range of different methods that can yield a range of results to ultimately lead to a range of values that could be reported. No one of which is the right or wrong answer, it is an estimate. And as long as you have selected one method within ASC 274, disclosing in your financials which one you are using, a user is in a position to agree or disagree or come up with an alternative method.

Q I guess I am asking the difference between difference of degree and difference by orders of magnitude. It would seem that there cannot be two prices that are orders of magnitude different in which a transaction would both take place.

So let me ask, maybe, a question that will clarify this. Does the ind -- do the independent requirements of estimated current value, which requires that it needs to be the willing buyer and willing seller, neither of whom is compelled to buy or sell, does that impose any independent restriction on the values that would come out of the techniques described in the ASC 274?

A I don't understand your question.
Q My question is, using the techniques in ASC 274, they are supposed to reach this definition of estimated current value. Does that definition impose any additional restrictions on whether or not it is appropriate to use one of the particular values -- one of the particular methods in ASC 274?

Flemmons - by Defendant - Cross(Wallace)
Page 4504
A I don't believe there are any such restrictions in the standard.

Q We talked a little bit about good faith. I just want to know, would someone picking which of the methods to use in ASC 274, would they also need to use good faith in selecting which method they used to value an asset?

MR. KISE: Objection to "good faith" again.
THE COURT: I don't think I am actually overruling myself -- overruled. I think, you know, it is a common expression, "good faith." How about "best effort," would that be better?

MR. KISE: Well, the standard itself presumes if you use one of the six methods you are okay he testified today repeatedly, so there is no good faith component if you pick one of the six. What the Attorney General has been driving at from the beginning is that you have to pick the right one. And this witness has testified repeatedly there isn't a right one. If you pick any of the six you are okay. So there is no -- good faith is an ambiguous concept and a highly subjective one in the concept of this regulation. And I think the witness has testified to that. So I just think the question is an improper question.

THE COURT: I don't think the AG is driving at you have to pick the right one. I think they are maybe
driving at, is it wrong to pick the wrong one.
Overruled.
MR. WALLACE: Can we get the question read back please, Your Honor?

THE COURT: Read back.
(Whereupon, the record was read back by the court reporter.)
A I am not sure what that means in the context of selecting a method. Because as I said multiple times, any method can be selected to establish estimated current value as provided in the standard.

Q Well, you have also said the methods could lead to numbers that are orders of magnitude different. Doesn't the person need to exhibit good faith in picking, therefore, which of those methods they use and what number they eventually obtain?

MR. KISE: Same objection.
THE COURT: Same ruling.
A A preparer of the financial statements is afforded very broad latitude to pick whatever method they want, whether it is a high value, low value, depending on the intended purpose of the financial statements. The important thing is that that method is disclosed. So, if one is preparing financial statements that would prefer to have higher values and there is a method provided under the standard that enables

Flemmons - by Defendant - Cross(Wallace)
Page 4506
that to happen, there is nothing wrong with that under GAAP, as long as it is disclosed.

And the other end of the spectrum, there are reasons why a set of financial statements might be preferred to present a lower value on the range of acceptable outcomes. And as long as that is selected and disclosed, there is nothing wrong with that either.

The point is that you are communicating that to a user and allowing that user to then be in a position to agree or disagree or come up with an alternative approach.

Q I believe that you have testified that choosing one of the techniques from ASC 274 is a matter of judgment; is that fair?

A That's fair.
Q Okay. And in exercising that judgment, does an individual need to use good faith?

MR. KISE: Objection.
MR. WALLACE: Why don't I --
Q Mr. Flemmons, have you taken the position that reliable accounting judgments are most dependent on good faith? A I don't recall.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4507

1 Q Do you agree with that statement that reliable accounting judgments are most dependent on good faith?

MR. KISE: Objection.
THE COURT: Overruled. Interesting question.
A I don't disagree with that.
Q Okay.
So I'm asking now, if on this judgment about which technique to use, does the preparer of the financial statement need to use good faith?

A Well, I don't understand how bad faith would be exercised by using any of the allowable methods under ASC-274.

THE COURT: I'll take that to be, no.
So the basic position is if you use these any of these methods, that's okay. You don't need to use good faith in picking which one, because they were all, you know, doable, reasonable. I can't remember the word.

THE WITNESS: I think my answer might be a little different, is that --

THE COURT: Okay.
THE WITNESS: -- one is inherently using good faith if they select one of these methods and disclose it to the user.

THE COURT: Okay. I think we are saying the same thing. Thanks.
(Whereupon, the exhibit was displayed on the
J. Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4508

## screen.)

Q I won't play a memory game with you on some of your testimony from yesterday, Mr. Flemmons, we've put up here a transcript from yesterday.

I would like to direct your attention to the question that begins at line 21 of page 4359.
(Whereupon, the exhibit was displayed on the screen.)
Q The question is:
"Now" -- I'm sorry, this is an exchange between you and Mr. Suarez:
"Now, in the Statement of Financial Condition there is a note that I would like to draw your attention to at page 23 of the exhibit, page 21 of the document.

Can I please draw your attention to where it says: 'As stated in note one, this financial statement does not reflect the value of Donald J. Trump's worldwide reputation, except to the extent it has become associated with properties, either operative or under development.'

The question is, is that statement in the Statement of Financial Condition consistent with the method for determining the current estimated value for the golf club properties in the support date?
"ANSWER: Yes. This specifically relates to what we are looking at here in the supporting schedule related to
J. Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4509
brand premium. And this disclosure is notifying users of the financials that, you know, brand premium is part of some of the properties and valuations."

Do you remember that testimony from yesterday?
A Yes.
Q Okay.
MR. WALLACE: If we could pull up Plaintiff's
Exhibit 730 and go to page 23.
(Whereupon, the exhibit was displayed on the screen.)
Q This is the document you were discussing with Mr. Suarez. And if we go to page 23, the language that's being quoted is the first paragraph. It starts, "As stated in note one, this financial statement does not reflect the value of Donald J. Trump's worldwide reputation." I won't read the full thing in.

I want to direct your attention, because Mr. Suarez didn't ask you about it. This is the start of section five, real estate licensing developments.

The golf courses are not included in that category of the Statement of Financial Condition are they?
A I don't believe so.
Q So this language that Mr. Suarez read to you yesterday about Donald Trump's worldwide reputation, it's not addressing the valuation of his golf club properties, is it?

## Flemmons - by Defendant - Cross (Mr. Wallace)

Page 4510

## A Can you repeat the question, please.

MR. WALLACE: Read back, please.
THE COURT: Read back, please.
(Whereupon, the requested question was read back by the court reporter.)
A I think given the geography of where this is appearing in the disclosures, I would agree with you that it does not appear to relate to the golf properties. However, note one, which is referenced in this paragraph, makes reference to the brand value enhancing the reported values in the Statement of Financial Condition, and that's under the basis of presentation footnote of the Statement of Financial Condition, which is more of an umbrella section that applies to the entirety of the financial statements.
Q Is there any specific reference within the section on the golf courses to Mr. Trump's brand value? If you want, it begins on -- page ten is the club facilities and related real estate.

MR. WALLACE: If we could flip to that. (Whereupon, the exhibit was displayed on the screen.)
A I would have to read through these five or six or more pages. I don't recall that disclosure being specifically included, but again, it does appear within a couple of places within the notes, more broadly.
J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4511

1 Q But the section that you read yesterday doesn't apply to the golf courses in this particular --

A The one that you just read falls under a different section.
Q Mr. Flemmons, at your deposition I asked you if you had ever reviewed an expert report prepared by Professor Eli Bartov of NYU. And you said you had not.

Since your deposition, have you reviewed any expert
report prepared by Professor Bartov?
A I don't believe so.
Q Since your deposition, have you spoken with Professor
Bartov?

## A No.

MR. WALLACE: Nothing further, your Honor.
THE COURT: Mr. Suarez, you promised us some
redirect.
MR. SUAREZ: I did.
THE COURT: Now is the time.

## REDIRECT EXAMINATION

BY MR. SUAREZ:
Q Good morning, Mr. Flemmons.
A Good morning.
MR. SUAREZ: If we could please pull up Plaintiffs Exhibit 1609.
(Whereupon, the exhibit was displayed on the
J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4512

## screen.)

MR. SUAREZ: And turn to page 13 of the exhibit.
(Whereupon, the exhibit was displayed on the
screen.)
Q Mr. Flemmons, Mr. Wallace just showed you and walked you through the definition of estimated current value as it appears in 274-10-55-1; is that correct?

A Yes.
Q Now, would you agree with me that we spent most of our time yesterday talking about the definition of estimated current value that appears at ASC-55 -- excuse me, ASC-274-10-55-6, relating to real estate?

A Yes, we walked through that.
Q And these are the methods -- withdrawn.
Are these the methods that would apply to the determination of estimated current value as it relates to real estate assets?
A These are methods that may be used for real estate assets. Um, the other methods that are listed prior to this are also methods that could be used. There is an overlap between those and the methods that are listed here.
Q Are most of the assets that we discussed yesterday real estate assets?
A I believe so.
MR. SUAREZ: If we could please turn to the
J. Flemmons - by Defendant - Redirect (Mr. Suarez)

Page 4513
illustrative guidance that you reviewed with Mr. Wallace yesterday.
(Whereupon, the exhibit was displayed on the screen.)
Q At note four there was a discussion concerning Kenbruce Associates, and we can draw your attention to that. It's on page 17 of the exhibit.

A I see it.
Q Okay.
MR. SUAREZ: If we could also pull up, now, side-by-side, the 2014 Statement of Financial Condition that appears at Plaintiff's Exhibit 730.
(Whereupon, the exhibit was displayed on the screen.)
Q If we could pull up and show the accountant's compilation report.
(Whereupon, the exhibit was displayed on the screen.)
Q Does the illustrative guidance identify the significant GAAP departures that are present in the compilation report of President Trump's Statement of Financial Condition?

A I don't believe within the illustrative guidance there is any example of disclosure of a deviation from GAAP.

MR. SUAREZ: If we could turn to the next page of the Statement of Financial Condition.
J. Flemmons - by Defendant - Redirect (Mr. Suarez)

Page 4514
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And if we could highlight the paragraph that starts with "Because."
(Whereupon, the exhibit was displayed on the screen.)
Q Does the illustrative guidance contain the disclaimer language that appears in the Statement of Financial Condition?

A No.
Q Does the illustrative guidance -- withdrawn.
What is the effect of this disclaimer language intended to be on the user of the Statement of Financial Condition?

A Well, as I've testified before, this is language that is suggested by AICPA professional guidance for accountant's performing a compilation, that when deviations from GAAP are of such significance, the guidance suggests that the accountant include this language in the accountant's report. And as I've said before, this serves as the highest level warning to a user as to the reliability of the -- the financial information.

MR. SUAREZ: If we could move onto the note on the 2014 Statement of Financial Condition concerning Trump Tower that you reviewed yesterday with Mr. Wallace.
(Whereupon, the exhibit was displayed on the screen.)
Q Was the cap rate selected by management available to

Mazars on the supporting data?
A Yes. The capitalization rate that was used was clear within that support.

Q What obligation did Mazars have to understand the basis for the selection of that capitalization rate, if any?

A Well, their responsibilities under professional standards were to review the methods that were being used and how they were being applied, and to the extent there were obvious errors -- we touched on obvious errors earlier -- they would be required to initiate further inquiries and to resolve those issues.

Q Yesterday --
MR. SUAREZ: If we could turn on ASC-273 at 1609
that we have up here, if we could pull up 45-13, which appears on page nine of that exhibit.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And blow up the "Adequacy of disclosures."
(Whereupon, the exhibit was displayed on the screen.)
Q I think yesterday in Mr. Wallace's examination you discussed with him the adequacy of disclosure section of ASC-274. Do you recall that?

A Yes.
J. Flemmons - by Defendant - Redirect (Mr. Suarez)

Page 4516
1 Q What professional obligation did Mazars have to management concerning the adequacy of disclosures in the Statement of Financial Condition, if any?

A Well, the professional standards that were applicable to Mazars during the compilation do specify that the accountant is required to read the disclosures and to evaluate whether those disclosures are consistent with the methods that are being used.

Q And if Mazars, the accounting firm, was not satisfied with the sufficiency of the disclosures in the Statement of Financial Condition, what obligation would they have under the professional standards, if any?

A They would be required to follow up with, um, in this case, Mr. Trump, or The Trump Organization, and to seek to have the disclosure modified.
Q And if the disclosure was not modified, what obligation would Mazars have under the professional standards, if any?

A Well, I suppose there are a couple of options in that case. In the absence of the disclosure, or absence of the correction was deemed to be significant, and the cautionary language that we just referred to a minute ago was not deemed to be sufficient, as with any kind of GAAP departure, including a disclosure issue, the accountant should seriously consider withdrawing from the engagement.
Q What is the purpose of making sure -- withdrawn.

What is the purpose of disclosing in the notes the method of valuation used in selecting estimated current value?

A So that a user can understand the method that's being used and have the opportunity to agree or disagree and potentially develop a different valuation using a different method.
Q And if the user requires additional information, what can the user do if it's not contained in the Statement of Financial Condition?
A Can you repeat that, please.
Q Sure. If the Statement of Financial Condition doesn't contain information that the user needs to reach their own judgment, what are they able to do, if anything?
A The user will still be able to come up with their own values to the extent the property is identified within the Statement of Financial Condition.
Q If we could turn back to the Statement of Financial Condition, to page two, and focus in, again --
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: I'm sorry, that's page three of the exhibit, page two of the Statement of Financial Condition?
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: Focus on the paragraph that starts

Flemmons - by Defendant - Redirect (Mr. Suarez)
Page 4518
"because."

Q And do you see where it says, "Because of the significance and pervasiveness of the matters discussed above make it difficult to assess their impact on the Statement of Financial Condition, users of this financial statement should recognize that they might reach different conclusions about the financial condition of Donald Trump if they had access to a revised Statement of Financial Condition prepared in conformity with accounting principles generally accepted in the United States of America."

## Do you see that?

A Ido.
Q And what does that statement tell the user about the judgments reached in achieving values for assets on the Statement of Financial Condition?
A Well, again, this is language that comes straight out of AICPA professional guidance -- professional standards, and is communicating to the user that the information contained in the Statement of Financial Condition does not comport with GAAP. So user beware.

MR. SUAREZ: And if we could turn to page four of the exhibit on the Statement of Financial Condition, Plaintiff's Exhibit 730, page four of the exhibit?
(Whereupon, the exhibit was displayed on the screen.)
J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4519

1 Q Do you see where it says "Escrow reserved deposits and prepaid expenses"?

A Yes.
Q Do you see above it it says "Cash and marketable securities"?
A Yes.
Q Yesterday you had some discussion with Mr. Wallace concerning the Vornado cash and the disclosures contained in the
Statement of Financial Condition. I would like to draw your attention to paragraph two of the notes on page six of the exhibit?
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: Page seven of the exhibit.
Q At the top it says "Cash and marketable securities represents amounts held by Donald J. Trump, personally, and amounts in operating entities. Included in this amount are common stock, mutual funds, hedge funds, corporate notes and bonds, and United States Treasury Securities, as well as in-transit state tax refund issued prior to June 30, 2014 in the amount of $\$ 3.9$ million. Marketable securities are valued at quoted market prices or estimates of current value by hedge funds."

What does this tell the user about the inclusion of the Vornado cash in Mr. Trump's Statement of Financial Condition?
J. Flemmons - by Defendant - Redirect (Mr. Suarez)

Page 4520
1 A Well, the inclusion of the Vornado cash in the Statement of Financial Condition, um, would be covered by the first sentence in this particular disclosure.

Q How is that?
A Because it states that cash among other things, are -are reported on the Statement of Financial Condition that include amounts in operating entities.

MR. SUAREZ: And, in fact, if we turn to page two of the exhibit.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And we pull up the bottom paragraph.
(Whereupon, the exhibit was displayed on the screen.)
Q If you could read the last sentence into the record, please.

A "The accompanying Statement of Financial Condition does not include the required summarized disclosures, and reports some closely held business entities in a manner that separately states gross assets and liabilities and states certain cash positions separately from their related operating entity."

Q How, if at all, does that disclosure by Mazars in the compilation report address the Vornado cash?

A I think this is another disclosure that's very similar to what we saw before that indicates that reported cash on the
J. Flemmons - by Defendant - Redirect (Mr. Suarez)

Page 4521
Statement of Financial Condition includes cash from operating entities.

Q What professional obligation, if any, did Mazars have to provide management of The Trump Organization's direction concerning the disclosure of Vornado cash on the Statement of Financial Condition?

A Well, like the responsibilities with all disclosures, to the extent the notes were inconsistent with the support or not adequate, Mazars would be responsible for following up on that.

Q And if management didn't address Mazars' inquiries to Mazars' satisfaction, what obligation would Mazars' have?

A Similar to what I said before, that it could lead to additional language in the accountant's report to notify users as to the insufficiency or inadequacy of the disclosures, or if it rose to a significant -- was deemed to be a significant issue, it could lead to a withdrawal by Mazars from the compilation engagement.

Q Who professional -- withdrawn.
Yesterday you also discussed with Mr. Wallace, on cross, the disclosure of related party transactions. What professional obligation did Mazars have to advise Trump Organization management concerning the adequacy of disclosures with respect to related party transactions, if any?

MR. WALLACE: Objection. I think this was covered

Flemmons - by Defendant - Redirect (Mr. Suarez)
Page 4522
in direct.
MR. SUAREZ: I'm addressing the piece that was covered on cross regarding the related party transactions.

THE COURT: To me it's always an issue if there's direct, there's cross; can we go back? Overruled.

MR. SUAREZ: I won't belabor it.
A Well, to the extent Mazars was aware that there were transactions with related parties as defined in ASC-850, they would be required to ensure that disclosure of those related parties and those transactions, to the extent they were material, were included in the Statement of Financial Condition.

Q And if Mazars was not satisfied with inquiries that they received from management with the response to inquiries they received from management, what would their obligation be?

A Identical to what I testified about before.
Q Yesterday, Mr. Wallace asked you about a number of potential red flags that you had identified throughout the day in your testimony. Do you recall that?

A Yes.
Q Would those potential red flags have been visible to Mazars as well?
A Yes. They were visible to me as I was reviewing the supporting calculations, and those were the same working papers that were provided to and included in Mazars' files.
Q And to be sure, when we discussed Mazars' obligations

## Page 4524

Statement of Financial Condition, so I don't see that there was
a misstatement. So therefore I would not be aware of there being an indicia of fraud on that basis.

Q As a certified fraud examiner, would you consider it an indicia of fraud if the preparer of a financial statement made a mistake?
A I assume from your question you are saying made an honest mistake and it was not intentional.

Q Correct.
A Under the fraud framework, intent is a component. If it was not intentional, it would not be an indicia of fraud.

Q And as a certified fraud examiner, is it an indicia of fraud when the preparer of a financial statement has an optimistic view as to the value of their assets?

## A No.

MR. SUAREZ: If I may have a moment to confer with my colleagues.

THE COURT: Sure.
(Continued on the next page.)

MR. SUAREZ: Pull back up D 950 that you reviewed with Mr. Wallace a moment ago.

And turn to the section on the compilation report concerning a not obviously inappropriate value or amount. The compilation section.
Q Mr. Flemmons, Mr. Wallace asked you concerning the obligation of the accountant preparing the compilation report, the outside accountant, to determine that a value not be presented and an asset -- that an asset or liability not be presented at an obviously inappropriate value or amount. Do you recall that?

A Yes.
Q Mazars would have seen --
MR. WALLACE: Your Honor, I want to note my objection to the last question. I wasn't asking about the accountant, my question was about the issuer.
Q Mr. Wallace asked you about this question, correct? He showed it to you a moment ago?

A Yes.
Q What is the obligation of the accountant preparing a compilation to make sure that an estimated current value amount is not present at an obviously inappropriate value or amount?

A As we discussed earlier, I mean, the obligation would be to evaluate the appropriateness of the method that was used and that it was properly applied.

Q Mazars would have had access to the supporting data to the Statements of Financial Condition, correct?

A Correct.
Q If Mazars issued the compilation reports, would that indicate that they agreed that values were not presented at an obviously inappropriate value or amount?

A Yes. Unless there were modifications in the accountant's report that included disclosures indicating that they believe that there were amounts that were obviously inappropriate.

Q Do the compilation reports identify any disclosure from Mazars that there were any values that they believed were obviously inappropriate?

A No.
MR. WALLACE: Objection to the extent that the compilation reports cite from Mazars.

MR. SUAREZ: Compilation reports are issued by Mazars.

THE COURT: I don't understand your point, Mr. Wallace.

MR. WALLACE: Who is reporting, the Trump Organization versus Mazars.

THE COURT: I think it was Mazars.
MR. SUAREZ: Right, yeah, they issue the compilation reports.

Page 4528
accountant's report and the Statement of Financial Condition, that those were appropriate to still issue.

MR. SUAREZ: Your Honor, I have no further questions on redirect.

THE COURT: Any recross?
MR. WALLACE: I guess just one question, Your
Honor.

## RECROSS EXAMINATION

BY MR. WALLACE:
Q Mr. Flemmons, when you were at the Securities and Exchange Commission, did you ever encounter issuers who were facing allegations of fraud who tried to throw their accountants under the bus?

MR. KISE: Objection, Your Honor. What bus are we talking about?

MR. WALLACE: Withdrawn.
THE COURT: All right. I have a series of related questions.

I'll start with: Are you being paid for your testimony and your general work on this case? THE WITNESS: My firm is being paid.
THE COURT: Okay. How much have you billed that's been paid; how much have you billed that has not been paid; and how much will you be billing for beyond what you have already billed? You can estimate.

THE WITNESS: I am sorry?
THE COURT: You can estimate.
THE WITNESS: It is hard to say, because as you - as Your Honor may know, we at my firm have a couple of other experts who are working on this matter, and the way that we have billed our work is on a combined basis. So it is hard for me to really know exactly how much really applies to my work.

THE COURT: So let's get the combined basis then.

THE WITNESS: It is hard for me to say because I have not been involved in the billing process or the collection process. I have an associate of mine who has been handling that. I would be -- I am unable to really give you a meaningful estimate.

THE COURT: Okay. Anybody else have any follow-up questions? Anything?

MR. WALLACE: Mr. Flemmons, your billable rate for this engagement is $\$ 950$ an hour; is that correct.

THE WITNESS: I believe it is 925 . But again, that is the rate that my firm charges, not me individually.

MR. WALLACE: I am asking about the billing of your time. And do you have a sense of how many hours you have spent on this engagement since its inception?

THE WITNESS: I don't.
THE COURT: Okay. Anything else?
The witness is excused. Thank you.
THE WITNESS: Thank you, Your Honor.
(Whereupon, the witness stepped down from the stand.)

THE COURT: Are you ready to call your next witness?

MR. KISE: We are, Your Honor. Should we take a break now?

THE COURT: In another few minutes.
MR. KISE: That's fine.
THE COURT: Let's get the witness.
COURT OFFICER: Witness entering.
(Whereupon the witness took the stand.
COURT OFFICER: Please raise your right hand.
STEVEN COLLINS, after having first been duly sworn was examined and testified as follows:

COURT OFFICER: Please have a seat.
Please state your name and either home or business address for the record.

THE WITNESS: My name is Steven Collins. My home address is 38 Turkey Hill Road, West Newberry, Massachusetts.

| Collins - by Defendant - Direct(Hernandez) Page 4531 | Collins - by Defendant - Direct(Hemandez) Page 4533 |
| :---: | :---: |
| 1 THE COURT: The zip code? In case we want to | 1 the liability for that variance. |
| 2 write you. | 2 Q Okay. And then where did you work after that? |
| 3 THE WITNESS: 01985 | 3 A Peterson was acquired by the Metzler Group, so I |
| 4 THE COURT: All right. If the microphones are | 4 worked for the Metzler Group. |
| 5 all set up. Let's start. | 5 Q Could you spell that for the court reporter? |
| 6 MS. HERNANDEZ: All right. We are on? | 6 A M-E-T-Z-L-E-R. |
| 7 THE COURT: We are on. | $7 \quad$ Q And what were your responsibilities at Metzler? |
| 8 MS. HERNANDEZ: Great. May it please the Court? | 8 A Similar to Peterson, I was a claims analyst in the |
| 9 THE COURT: Yep. | 9 construction practice. |
| 10 DIRECT EXAMINATION | $10 \quad \mathrm{Q}$ So similar responsibilities? |
| 11 BY MS. HERNANDEZ: | 11 A Similar work, yes. |
| 12 Q Mr. Collins, welcom | 12 Q And where did you work after Metzler? |
| 13 So we are just going to work through some of your | 13 A Metzler was acquired or morphed into Navigant |
| 14 qualifications here. Where did you go to college? | 14 Consulting. |
| 15 A Northeastern University in Boston, Massachusetts. | 15 Q And what were your responsibilities at Navigant? |
| 16 Q What did you study? | 16 A I was, again, in the construction practice and doing |
| 17 A Civil engineering. | 17 claims work; as well as, to draw a distinction, project |
| 18 Q What degree did you obtain? | 18 advisory work, meaning not everything is a dispute, other |
| 19 A Bachelor of Science in Civil Engineering. | 19 projects are contemporaneously being executed and clients would |
| 20 Q And after college, where were you employed? | 20 need assistance executing a project without a claim being |
| 21 A A number of places. The first employer was Dugan \& | 21 involve |
| 22 Meyers Construction for a project in Boston. | $22 \quad$ Q And what was your next job after that? |
| 23 Q What were your responsibilities there? | 23 A Navigant sold our disputes and advisory division to |
| 24 A On that project I was a field engineer and then a | 24 Ankura Consulting. |
| 25 construction superintendent. | 25 Q Do you currently work at Ankura consulting? |
| Collins - by Defendant - Direct(Hernandez) Page 4532 | Collins - by Defendant - Direct(Hemandez) Page 4534 |
| $1 \quad \mathrm{Q}$ And where did you work after that? | 1 A Yes, I do. |
| 2 A I worked for Carlson Corporation. | 2 Q What is your role? |
| $3 \quad \mathrm{Q}$ Carson? | 3 A My title is a Senior Managing Director. |
| 4 A Carlson, C-A-R-L-S-O-N. | 4 Q What responsibilities do you have at Ankura? |
| 5 Q And what were your responsibilities at Carlson? | 5 A I execute assignments. I manage the teams. And I am |
| 6 A I was a construction superintendent there as well. | 6 also responsible for generating the work that we do. |
| $7 \quad$ Q And where did you work after Carlson? | $7 \quad \mathrm{Q}$ Okay. And in those roles, what responsibilities did |
| 8 A I worked for AARK Construction A-A-R-K, down in New | 8 you have relating to the procurement of government contracts? |
| 9 York. | 9 A With respect to government contracts, I mean, |
| 10 Q And what were your responsibilities at AARK? | 10 foundationally during my construction days, one of those was a |
| 11 A Superintendent and a project manager. | 11 public project. As a project manager procurement is involved. |
| 12 Q And where did you work after AARK? | 12 Prequalification of subcontractors to perform work to make sure |
| 13 A I worked for Crown Construction in Massachusetts. | 13 they are capable of the work. Developing scopes of work for |
| 14 Q And what were your responsibilities at Crown? | 14 them to perform. Making sure they had the resource capability |
| 15 A Project manager and superintendent. | 15 to perform the work, whether it was financial or whether it was |
| 16 Q And where did you work after that? | 16 manpower, technical capability. And issuing subcontracts, |
| 17 A I then changed careers into consulting and worked for | 17 issuing modifications to subcontracts, and overall procurement |
| 18 Peterson Consulting in Boston. | 18 of that, including changes. |
| 19 Q So what were your responsibilities at Peterson? | 19 As it relates specifically to government contracts, |
| 20 A I was primarily a construction claims analyst. | 20 federal contracts, my first -- my exposure dates back |
| $21 \quad \mathrm{Q}$ And what does that mean? | 21 approximately 20 years with the reconstruction of the |
| 22 A A project would have a plan for execution. During | 22 electrical infrastructure in southern Iraq. |
| 23 execution something would vary during execution, whether it was | $23 \quad$ Q Can you describe that reconstruction experience? |
| 24 time or cost or other things. I would analyze that variance. | 24 A Yes. The work for -- of that particular nature is |
| 25 Typically I would quantify that variance, and then determine | 25 unlike -- it is traditionally uncommon in basic construction |

work. By that I mean, if we were to build this courthouse, typically we would have a complete design, complete specifications and put it out to the marketplace for construction bidders to bid on the work. And they would offer a firm fixed price.

For the work in a war zone, the government doesn't know specifically how much work they are going to be performing. Therefore, rather than have a firm fixed price, they often will issue the work on a cost reimbursable basis for which the contractor gets a fee.

When that work is involved, controlling cost is important. If you are getting fee on cost, the more something costs the more fee there is. The government can't allow something to just cost a large amount and allow fee. They have to have some degree of assurance the contractors in that environment are working with a set of protocols or procedures to help ensure proper procurement in accordance with federal guidelines. My work there first involved development of policies and procedures for procurement for cost reimbursable work for that project in Iraq, which was in the hundreds of millions of dollars.

Q So what does that look like, the development of the policies and procedures?

A To be -- these procedures had to be submitted to the government for approval. In this case the defense contract

## Page 4536

management agency, the defense contract audit agency had to evaluate these procedures. Therefore, they had to apply -comply with the federal acquisition regulations which government control or govern a lot of federal procurement.

THE COURT: I'll just ask the witness to speak a
little louder or a lot louder actually, right into the microphone.

THE WITNESS: Yes, Your Honor.
A So, they needed to comply with the government's protocols, so those policies and procedures had to be constructed in accordance with the federal acquisition regulations.

Q And what is the federal acquisition regulations?
A The federal acquisition regulations are a part of or Title 48 under the Code of Federal Regulations. The Code of Federal Regulations is a codification of regulations promulgated by the government in a number of subject areas.

Q And it governs procurement?
A Title 48 includes the federal acquisition regulations, which include acquisition and procurement.

Q And so aside from this matter, are you currently working on any other government contract work?

A Yes.
Q Could you describe it, please?
A I am working currently on four -- at least four other

## federal government projects.

Q And very broadly what are those government contracts?
A One involves a federal highway project in the southwest. Another involves a Veteran's Administration project in California. And there are two projects involving the Department of Navy.

Q Have you prepared any request for proposal during your career?

A Yes, I have.
Q Could you please describe that?
A As part of -- well, in my pre-consulting days as a project manager, I would create scopes of work, identify qualified subcontractors, in that instance as a contractor, draft the request for proposals in terms of scope, schedule, contract provisions for execution. I would issue the request for proposal and then take them back for evaluation, ultimately leading to award.

Q And what are the components that you typically see in the request for proposal?

A Well, as far as preparing the proposal, one of the first steps is, in a government proposal that I worked on for instance, in Iraq, there are protocols to prequalify those recipients of the proposal. There will be ethical requirements: The anti-lobbying; anti-gratuity; various ethical requirements; confirmation subcontractors haven't been
debarred from federal work; or in the timing of that.
Thereafter, the prequalification to issue an RFP would involve confirmation of safety; their relevance of experience; recency of experience. Things of that nature.

Thereafter, through the prequalification process there would be a review of their financial capacity, whether it is their bonding capacity, if bonding is required.
Confirmation of their typical project size; their annual revenues; you know, all helping to understand what their capabilities are beyond execution, but financially as well.

Then the RFP would be developed, distributed, evaluation criteria established for reviewing the responses, and then the review would take place with the RFP.

Q And we will talk more in detail about that in a bit. But have you prepared any presentations relating to the procurement of government contracts?

A Yes.
Q And could you describe the nature of that a little bit?

A Some of them are client specific training programs, and others are in the public space. For instance, one of them involves the Christian Doctrine, which is a doctrine important to the contracting community, whereby under that doctrine, if there are certain federal acts in place, whether or not provisions of those acts are in contracts in written form, a

| Collins - by Defense - Direct (Ms. Hemandez) Page 4543 | Collins - by Defense - Direct (Ms. Hernandez) Page 4545 |
| :---: | :---: |
| THE COURT OFFICER: All rise. Part 37 is back in session. Please be seated and come to order. <br> THE COURT: Let's get the witness back on the witness stand. <br> (Whereupon, the witness stepped into the witness stand.) <br> THE COURT: And Ms. Hernandez, please continue. <br> MS. HERNANDEZ: Thank you, your Honor. <br> Q All right. Mr. Collins, what was the scope of your engagement in this case? <br> A To determine whether the GSA procurement process was fully employed as set forth in the criteria within the RFP through the valuation process and the ultimate award of a lease. <br> Q What documents or -- did you review in reaching your opinion? <br> A The RFP itself, the response, the Trump response to the RFP, exchanges of information after that, including responses in September of ' 11 , I believe, written responses, as well as presentations made for which hard copies were made available to me in December of 2011. <br> Q And did you form your opinions to a reasonable degree of certainty in the field of contract procurement? <br> A Yes. <br> Q And are you being compensated for the work you have done as an expert? | A No. <br> Q So moving to the specifics of the General Services <br> Administration's request for proposal process for the Old Post <br> Office property, could you please generally describe the process that took place? <br> A The GSA generally was seeking market expertise that was qualified in the area of repurposing historical buildings that demonstrated the experience from an execution standpoint for, um, the development, the design, the preservation of the historical nature of the building, the efficiency of the building, or sustainability from an energy usage and conservation standpoint, um, maintenance of the open spaces, um, operation of the facility thereafter, and ultimately to obtain the financial benefit for the government through payment from the developer. <br> Q And the ultimate award here would be what? <br> A The award of the lease. <br> Q And if I say throughout today GSA, would you understand that to mean the General Services Administration? <br> A Yes. <br> Q That will save a little bit of time. <br> MS. HERNANDEZ: So if we could pull up what was pre-marked as Defendant's Exhibit 619. <br> (Whereupon, the exhibit was displayed on the screen.) |
| ```Collins - by Defense - Direct (Ms. Hemandez) Page 4544 A I receive a salary, yes. Q And you receive a salary from what? A Ankura Consulting. Q What rate is Ankura being compensated for your work here? A I believe it is $925 an hour. Q And approximately how many hours have you spent on this engagement, to date? A It is approximate, but 40 to 60, the range, inclusive of preparation for today. Q Which is still ongoing? A Yes. Q We'll see how many hours we are here. Has anyone asked you to testify in a particular matter in this case? A No. MS. FAHERTY: Objection. THE COURT: Has anyone asked you to testify in a particular matter in this case? MS. FAHERTY: Right. THE COURT: You understand, right? MS. HERNANDEZ: Manner. THE COURT: Like, has anybody coached you. Q Is your compensation conditioned on any particular opinion in this case?``` | (The exhibit was handed to the witness.) <br> Q Mr. Collins, have you seen this document before? <br> A Yes, I have. <br> Q And what is it? <br> A This is the request for proposal for the redevelopment of the Old Post Office. <br> Q Did you review this request for proposal in rendering your opinion? <br> A Yes. <br> MS. HERNANDEZ: Your Honor, I would like to move Exhibit D-619 into evidence. <br> THE COURT: Granted it's in. <br> (Defendant's Exhibit D-619 was admitted in evidence.) <br> MS. HERNANDEZ: So if we could go page 13 of this exhibit. <br> (Whereupon, the exhibit was displayed on the screen.) <br> Q Do you see where it says, the third bullet point, "For purposes of responsibility, GSA intends to follow the standards set forth in 48 CFR, 9.104-1? <br> A Yes. <br> Q Can you describe what responsibility means in this context? <br> A Within 48 CFR 9.104-1, there are criteria set forth in |

| Collins - by Defense - Direct (Ms. Hemandez) Page 4547 |  |
| :--- | :--- |
| 1 | that provision that determine whether or not a respondent to the |
| 2 | RFP in this case would be responsible. |
| 3 | Q And maybe I should have asked you this first. Are you |
| 4 | familiar with 48 CFR 9.104-1? |
| 5 | A |
| 6 | Yes. |
| 7 | Q |
| 8 | What is the CFR? -- well, I touched on this earlier, but the Code of |
| 8 | Federal Regulations is a codification of federal regulations for |
| 9 | a multitude of areas for which regulations exist. Within that |
| 10 | code it's broken down into 50 Titles, capital T, Titles, of |
| 11 | which Title 48 is one of them. That is the Federal Acquisition |
| 12 | Regulations. |
| 13 | Q And how does this section apply to the procurement |
| 14 | process? |
| 15 | A $\quad$ Well, the criteria for the solicitation and evaluation |
| 16 | of the RFP respondents is set forth in the RFP, but there is a |
| 17 | statement within the GSA's RFP that they intended to follow this |
| 18 | particular CFR for determination of responsibility of the |
| 19 | respondents. |
| 20 | $\quad$ MS. HERNANDEZ: So if we could blow up the section |
| 21 | D right under this. |
| 22 | (Whereupon, the exhibit was displayed on the |
| 23 | screen.) |
| 24 | Q Were these the evaluation factors you were just |
| 25 | referencing? |

Collins - by Defense - Direct (Ms. Hemandez)
Page 4548
A Within 9.104-1, the majority of the contents of 9.104-1 is subsumed within these criteria.
Q So how does the GSA utilize these evaluation factors in analyzing the proposals they were given?

A Within the -- each of these criteria there's expanded narrative content that describes the requirements for the -- the respondent to address in each of these categories. Each of these categories are weighted, as you could see, by percentages on the screen, totalling 100 percent, based on the factors you'll see to the right of each one of these.

So the GSA uses their expertise in that of those assisting them to score, if you will, the respondent in each of these factors.

Q And what does it mean that the developer's financial capacity and capability is at 15 percent in this factored list?

A That of the total of 100 percent scoring for each of the categories, this particular factor is worth a maximum of 15 percent.
Q And how does that compare to the other factors?
A One other factor is also at 15 percent, which is factor number one. And the other two are of greater importance, or weighted at 35 percent each.

Q And so we are going to move into the detailed description of the factors in the RFP, which is on page 15 of the document.
(Whereupon, the exhibit was displayed on the screen.)

MS. HERNANDEZ: And we'll blow up the second top of the page, please, Nate.
(Whereupon, the exhibit was displayed on the screen.)
Q So is this the first factor, we looked at, "The
experience and past performance of developer and developer's key personnel"?

A Yes.
Q And so broad level, what does this first factor entail?
A Generally speaking, without reading it verbatim, the GSA is looking for the respondent to demonstrate its experience, and the experience of each of its team members, over a period of time in work relevant to this -- a project of this nature; historical renovation, repurposing and ultimate use.

MS. HERNANDEZ: And then moving to page 17.
(Whereupon, the exhibit was displayed on the screen.)
Q This is the second factor we saw; correct?
A Yes.
Q And so this is the developer's site plan and design concept?

A Yes.
Q And what does this factor entail?

Page 4550
capability criteria entail?
A In this area, they -- again, paraphrasing what is written here, the GSA is looking for the developer/respondent to provide its financials for a certain period of time in terms of scale of project type of project, overall capacity. They are also looking for the same information or similar information from the respondent or developer's financiers to the extent that it has any.
Q Were they seeking any financial statements under factor three?
A Yes.
Q What kind of financial statements?
A They were seeking financial statements in this particular section.

Q Do you recall what kind of financial statements?
A There was criteria for them that they would be auditable, or having been audited, or they would be GAAP compliant.

Q GAAP compliant.
So moving -- and one more question about factor three. Do you recall what weight this was given in the evaluation criteria?

A This was 15 percent.
MS. HERNANDEZ: So moving to page 19.
(Whereupon, the exhibit was displayed on the

Collins - by Defense - Direct (Ms. Hemandez)
Page 4552
screen.)
Q "The developer's financial offer and supporting financial information", what does this factor entail?

A This, again, paraphrasing, the government is looking for the financial offer from the respondent for the project in terms of - I think they were looking for the net present value outcome. And then there was various financial, um, models that they were going to present to the government for the ultimate offer to the government for return of revenue.

Q Just so we are clear, how does that differ from factor three?

A Well, one is an actual payment. For simplification, section four is what amount will the government ultimately be paid under this lease, whereas under section three, the factor there is to determine the developer's capability to finance the project, because the government is not funding the construction and the design, and all those elements; the developer is. So they are checking his capacity to self-fund during the development of the project.

MS. HERNANDEZ: And moving to page 21, and looking at paragraph three.
(Whereupon, the exhibit was displayed on the screen.)
Q What does this paragraph indicate with respect to nonconformity that the GSA may have received in proposals

## submitted?

A This is within the -- the prior page is limitations. The GSA is setting forth the limitations of its rights as it relates to the evaluation process.

Within this specific section, paragraph three, they are stating that they have acts to -- have the right to act in their sole discretion, in many respects, as it relates to the evaluation and award process.

MS. HERNANDEZ: And looking to paragraph six, a little bit further down the page.
(Whereupon, the exhibit was displayed on the screen.)
Q What does this -- is this paragraph indicating?
A Once again, they are stating, or the GSA is stating that they have their full discretion to interpret the information and apply the selection criteria as they see fit.

Q Okay.
MS. HERNANDEZ: And so we are going to pull up, now, a different document. Plaintiff's Exhibit 1164. I think it's already in evidence.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this document, Mr. Collins?
A Yes.
Q Did you review this document as part of reaching your

Page 4554
opinions in this case?
A Yes, I did.
Q And what is this document?
A This is The Trump Organization's response to the RFP of July of 2011.

MS. HERNANDEZ: so we are going to move to page 153 of the document. This a lengthy document.
(Whereupon, the exhibit was displayed on the screen.)
Q Is this the type of document, form and substance, that you would expect to be submitted in response to the requests for proposal?

A Each RFP is unique. This one was fairly prescriptive. By "prescriptive", I mean it states for certain portions of the response what size paper to use, the font size to be used, so.
For past experience use $X$ number of pages, you must include a photograph. It was fairly prescriptive. And that's not uncommon to have documents of this size. With what was required under this RFP wouldn't be unusual to me.

Q Okay. Would not be unusual; right?
A Would not be unusual.
Q I heard you right.
So looking at page 153 , what does this section about financial statements indicate?

A Within this section, again, paraphrasing, if I may,

| Collins - by Defense - Direct (Ms. Hemandez) Page 4555 | Collins - by Defense - Direct (Ms. Hernandez) Page 4557 |
| :---: | :---: |
| 1 there are qualifications being made by The Trump Organization's <br> 2 response here regarding the contents of their financial | 1 would be the response from The Trump Organization in response to 2 the GSA's questions. |
| 3 condition, and that -- um, I think this is the section where | $3 \quad \mathrm{Q}$ So what question did the GSA have here? |
| 4 they state that they've demonstrated adequate strength. The | 4 A Within 3B, there's questions that the financial |
| 5 | 5 statements have departures from GAAP. And those are addressed |
|  |  |
|  | 7 Q And so did The Trump Organization respond to this |
|  | 8 questio |
| 9 | 9 A Yes. |
| 10 MS. HERNAND | 10 Q And was the GSA satisfied with this response? |
| $11$ | S FAHERTY: |
| 12 | IE COURT: Please explain. |
| 13 (Whereupon, the exhibit was displayed on the | 13 MS. FAHERTY: I believe her question, "Was the GSA |
| 14 screen.) | 14 satisfied with this response?" |
|  | 15 What I've heard so far is just factual testimony |
| $16$ | 16 about the factual occurrences of the OPO. I'm wondering |
| 17 | 17 when we are getting to the expertise. |
| 18 Q Did you review this document in reaching your opinions? | 18 MS. HERNANDEZ: We are laying a factual foundation. |
| 19 A Yes | 19 And he has been sprinkling in throughout his expertise and |
| $20 \quad Q$ | 20 relating it to what he seen in the proces |
|  | 21 THE COURT: Was the question, "Was the GSA |
| 22 A This is the December package, if you will, developed in | 22 satisfied with these responses?" Right? |
| 23 response to GSA's questions that had been submitted, I believe, | 23 MS. FAHERTY: The question was, "Was the GSA |
| 24 in September. So the respondents were given, I think, | 24 satisfied with this response?" Also, I don't understand the |
| 25 approximately an hour and a half each. They were all given the |  |
| Collins - by Defense - Direct (Ms. Hemandez) | Collins - by Defense - Direct (Ms. Hemandez) Page 4558 |
| 1 th | tion, |
| 2 address questions, et cetera. And this was a response developed | 2 THE COURT: Can we ask if they accepted this |
| 3 that was presented to the GSA, as I understand it, in December | onse? |
| 4 of '11, to ad | MS. HERNANDEZ: Sure |
| 5 Q Can you describe, is this question and answer process | MS. FAHERTY: If he has a basis to know. I don't |
| 6 typical in the procurement process? | 6 know that I've heard the foundation that he has the basis to |
| 7 A Yes. | W. |
| 8 | 8 THE COURT: These basis questions, "Do you know |
| 9 the presen | 9 if...", "Yes." "What's the answer?" Um, if he doesn't |
| 10 (Whereupon, the exhibit was displayed on the | 10 know, he'll say he doesn't know. |
| 11 screen.) | 11 So I'll allow it. Overrule |
| 12 Q Is this | 12 Does the GSA accept the -- talking about the whole |
| 13 three of the RFP? | 13 proposal? |
| 14 A | 14 MS. HERNANDEZ: Just focused on this response. |
| 15 Q And can you remind us what factor three was? | 15 THE COURT: Just factor three. |
| 16 A Factor three was the requirement for the respondent to | 16 MS. HERNANDEZ: Just factor three. |
| 17 demonstrate its financial capacity to execute the project. | 17 THE COURT: If you know, did the GSA accept the |
| 18 MS. HERNANDEZ: And we are going to go to the next | 18 Trump response to factor three? |
|  | 19 THE WITNESS: The GSA does make reference to it in |
| 20 (Whereupon, the exhibit was displayed on the | 20 its evaluation board recommendation for award to Trump, so |
| 21 screen.) | 21 they do make reference to these responses. |
| 22 Q What is being presented to the GSA here? | 22 THE COURT: You could cross examine him what the |
| 23 A This is also with respect to factor three. And as I | 23 response was. |
| 24 understand it, the bold text is a restatement by The Trump | 24 MS. HER |
| 25 Organization of questions that the GSA had, and then below that | 25 So if we could pull up Exhibit D-431. |

Page 4560

## Evaluation Board is?

A In this particular case, the GSA's awarding authority, I believe, is the contracting officer. And that's to whom this is addressed. I believe the contracting officer slash the approving official. For the purposes of this evaluation, the GSA assembled a board, and the board was comprised of four members. The Selection Evaluation Board had four members. I believe three were from the GSA and one was from the FDIC, and then there they were assisted by a seven member Technical Evaluation Team. So their input into the evaluation process is captured within this document.
Q And -
THE COURT: Wait, wait. One second. Let me just clarify or modify my last ruling.

D431, it's in evidence, but not for the truth of its contents. Page 15 may have said, you know, this is a wonderful proposal. It's only in for the sequence of events, basically. This is what the response was. I'm not going to assume it's true or false, just this was their response.

MS. FAHERTY: Thank you, your Honor.
MS. HERNANDEZ: I'm assuming that means Mr. Collins' observations and opinions based on this document, since he is an expert. He can obviously consider hearsay.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Mr. Collins, have you reviewed this document before?
A Yes.
Q And what is this document?
A This is the Source Selection Board of the GSA's report and recommendation.

Q And when did you review this document?
A During the course of my evaluation and report preparation.
Q Did you rely on it in connection with rendering your opinions in this case?

## A Yes.

MS. HERNANDEZ: Your Honor, I would like to move
Defendant's Exhibit 431 into evidence.
MS. FAHERTY: Your Honor, I'll note my objection that this document was previously attempted to be submitted. There's a number of hearsay issues contained within this document, so I'm just going to note my objection.

THE COURT: Overruled. It's in.
(Defendant's Exhibit 431 was admitted in evidence.)
MS. HERNANDEZ: Thank you, your Honor.
Q So you briefly testified as to the process earlier, but can you explain, specifically, what the Source Selection

1

THE COURT: I think I would have to hear a particular question. I didn't have any problem with the prior ones.

MS. HERNANDEZ: Great. We'll go through it. Could we go to page three.
(Whereupon, the exhibit was displayed on the screen.)

MS. HERNANDEZ: And blow up the bottom thene where it says "The members of the SEB were."
(Whereupon, the exhibit was displayed on the screen.)
Q So this is -- is this what you were describing EARLIER about the SEB and tet members?
A Yes.
Q So you were getting to it, but what is the, role specifically. How does the Technical Evaluation Team support the SEB team?

A Well, in this specific instance, there's not enough information to understand specifically what they did, but a technical evaluation team typically is comprised of members who have specialized expertise beyond that which may be possessed by the actual SEB members themselves.

Here, I believe they were focused on factor two, primarily, maybe only factor two. But within factor two, there are those issues we discussed before in my summary that factor
s - by Defense - Direct (Ms. Hernandez)
Page 4562
two had to deal with the conceptual design, access, egress, historical preservation, the sustainability of the building and other factors.

So using that as an example, that might be a case where the SEB members would rely on special expertise of TET members in those area.
Q This is to review the proposals that they've received; right?

A Yes.
MS. HERNANDEZ: We are going to move to page nine of the document. Can you blow up the recommendation section.
(Whereupon, the exhibit was displayed on the screen.)
Q So what is this section -- does this section entail Mr. Collins?
A This is, rather, a summarization as it relates to the Trump proposal provided by the SEB.
Q And typically, this would explain why the government contract -- or the government is -- let me withdraw that question.

This would explain why the SEB is recommending that a certain developer be selected as the preferred selected developer; correct?
A Yes. With a summarization of main considerations they

| Proceedings |  |
| :---: | :---: |
| 1 | MR. ROBERT: Mr. Fields. |
| 2 | THE COURT: Mr. Kise, how come you don't get the |
| 3 | pleasure to question people? You get to a certain stage |
| 4 | in life where you are better off -- I haven't cut off my |
| 5 | sleeves -- but you are better off like Bill Belichick, on |
| 6 | the sidelines. This is a young person's game. And by the |
| 7 | way, be careful what you wish for because there is still |
| 8 | time left. |
| 9 | MR. AMER: Calling it a young person's game, I |
| 10 | take that as a compliment. |
| 11 | MR. KISE: You should. |
| 12 | COURT OFFICER: Judge, are you ready for the |
| 13 | witness? |
| 14 | THE COURT: Yes. |
| 15 | COURT OFFICER: Witness entering. |
| 16 | (Whereupon, the witness took the stand.) |
| 17 | THE COURT: Chris, you are comparing yourself to |
| 18 | Coach Belichick? |
| 19 | MR. KISE: I could probably think of a few other |
| 20 | coaches that are more popular in this state. |
| 21 | COURT OFFICER: Please raise your right hand. |
| 22 | S T E V E N L A P O S A, after having |
| 23 | first been duly sworn was examined and testified as |
| 24 | follows: |
| 25 | COURT OFFICER: Please have a seat. |

| Laposa - by Defendant - Direct. |  |
| :--- | :---: |
| 1 | MR. KISE: Your Honor, right now I think I would |
| 2 | like to be Jimbo Fisher, fired from my job and collecting |
| 3 | \$77 million. That's what I would like. |
| 4 | THE COURT: I'll see if I can arrange it. |
| 5 | COURT OFFICER: Please state your name and |
| 6 | either home or business address for the record. |
| 7 | THE WITNESS: My name is Steven Laposa. The |
| 8 | address is 909 Fannin Street, Suite 2450, Houston, Texas |
| 9 | 77010. |
| 10 | THE COURT: Mr. Fields, please proceed. |
| 11 | MR. FIELDS: Thank you, Your Honor. |
| 12 | DIRECT EXAMINATION |
| 13 | BY MR. FIELDS: |
| 14 | Q And good morning, Dr. Laposa? |
| 15 | A $\quad$ Good day. |
| 16 | Q Good afternoon it seems. |
| 17 | I would like to briefly discuss your educational |
| 18 | background. Could you please identify any relevant degrees or |
| 19 | educational achievements after your undergraduate degree? |
| 20 | A $\quad$ Yes. I completed an MBA in real estate and |
| 21 | construction management at the University of Denver in 1989. |
| 22 | And I also completed a Ph.D. at the university of Reading in |
| 23 | England in 2006. |
| 24 | QDid you complete a dissertation as part of your Ph.D. <br> 25 |

A I did.
Q What was the title of your dissertation?
A It was on property development investments in transitional economies.

Q Why did you choose that topic for your dissertation?
A Why did I do that?
Q Why did you choose that topic for your dissertation?
A Goes to a personal aspect of my life. I grew up as a son of an immigrant from Yugoslavia who came through Ellis Island, my grandfather, my family. I grew up with many people in Central Europe and Eastern Europe. And I was in Russia in August of 1991 when the Soviet Union became the former Soviet Union. And I just saw this breakout of capital flows going into transitional economies. So I spent time with the topic of just transitional economies, because that was in my background.

Q Have you ever authored any peer-reviewed articles?
A I have authored numerous peer-reviewed articles.
Q And generally what are some of the subject matters of those articles?
A Real estate economics; real estate valuation trends; real estate capital markets. I have done other one on corporate real estate, but generally it is real estate.
Q Have those articles ever been published?
A They have been published.
Q And what are some of the journals where your articles

## have been published?

A Several have been published in top tier journals such as the Journal of Real Estate Research and the Journal of Property Investment and Finance.

Q What is the process like of having to get your article published?

A The process is you typically, in my 30 plus years of doing this, you present a paper at an academic conference; get feedback; go back with your authors or coauthors, if they exist, continue to improve the quality of the article. Submit it to the editor of a journal, who then turns it to blind reviewers who review it. They give it back to you. The editor submits it back to the author, in this case myself, and we either, you know, correct or improve what they have asked us to do. And so that's what -- then eventually you get it published. It takes a while to do it.

Q Have you ever published on the valuations of hotels apartments and senior housing?

A Yes. Back in the late '90s I did quite a bit of research in those areas, especially in senior housing. And published quite a few papers, as in peer-reviewed articles as well.

Q Have you ever been on the editorial board for a journal?

A Yes. Over my career I have been on the editorial
board of six journals. And as such, when papers come in, just to follow-up the previous response, when someone submits a paper to that journal, they may give it to me to blind review it, to read it, to review it, to see if it actually extends the body of knowledge that is the purpose of doing publications. So, yes.

Q Have you ever done any research regarding real estate markets?

A I have over 30 years. That's a consistent theme of what I have been able to do in the various companies I have worked for. And so, yes, that's the real estate economics; real estate capital markets; real estate cycles, is what I consider, kind of, the main components of that real estate analysis.

Q When you say, "real estate cycles," what do you mean when you say that?

A Um, in general terms real estate goes through cycles, and I am talking about commercial as well as residential. There are four cycles, it is typically it is like a sine wave if you can see it. So a sine waive would have recession, recovery, expansion and contraction. Each one has their own decision rules as to identify where you put a market at a particular time.

MR. FIELDS: Your Honor, is there usually real
time on this screen?

Laposa - by Defendant - Direct.
Page 4576
MS. FAHERTY: No.
MR. FIELDS: Thank you. It has been a while since I have been up here.
Q Does your real estate cycle research include forecasting?

A Yes. Beginning when I was with a company in Baltimore, Alex Brown Kleinwort Benson. This was in 1992, right after the RTC days or the Resolution Trust Corporation days.

We had a debacle after the late -- in the late 1980s, went through a recession in '91. And the pension fund and institutional investors were surveyed and said what is the number one thing they want from the research community. Myself. And they said, we want to know more about cycles. So, I started producing, with my director, who is a Ph.D., cycles on quality basis, 50 different $-\mathbf{5 0}$ to 60 different markets and five different property tax, where we looked at historical trends and provided three to five year forecast.

Q Real estate economics and real estate capital markets, can you briefly describe what that is?

A Real estate economics has to do more with the understanding of how real estate markets works. It could be urban economics, as far as how to -- how things -- how companies move, how they grow, how they -- et cetera. It could be just your macro economics, micro regional economics as far
as employment growth, GDP growth, income growth, things of this nature, how they relate to real estate demand and markets.

And then real estate capital markets is where it is more the pricing of the real estate assets. In other words, what is the trends with cap rates and discount rates. And who is investing in the market, who is selling, who is buying.

Q Have you ever won any awards for your research?
A I have.
Q And do you recall when and what award that you won?
A In 2014 I was awarded the Inaugural Scholar Practitioner Award by the American Real Estate Society for Research, that was used, respected, as the plaque says, respected by the academics as well as used in the industry. So I was the first one in 2014. I won other awards dealing with retail research and senior housing, but $I$ consider that one of my best.

Q What is the American Real Estate Society?
A The American Real Estate Society is about 35 years old. It is a worldwide association of primarily 50 percent industry professionals and 50 percent academics, so.

Q Have you ever authored or coauthored any books?
A I have. I have been published in a book on -- a chapter called "Mass Appraisal and Lifestyle Segmentation Profiles and the use of GIS or Geographic Information Systems in the Valuation of a Mass Appraisal for Residential

## Properties."

Q You use the term "mass appraisal," could you define what you mean by that term?

A Yes. It is -- done numerous of these. And it is just where you get a collection of properties, whether it could be a city that has -- well, this one had like four to 5,000 homes that we had to value in a mass appraisal sense. There are times where I have worked with the appraisers in Pricewaterhouse or others who I have been a part of, where it could be five, you know, 2000 convenience stores around the United States. So that's -- it is taking a look at being able to efficiently develop portfolio estimates on a portfolio of various residential or commercial properties.

Q All right. You mentioned Pricewaterhouse, I would like to move into a little bit of your professional background now. Where did you work after you finished your MBA?

A After completing my MBA I started my own company that provided project management and construction management services to clients that were inbound to both industrial and commercial property tax. Due to my work I lived and worked in the Middle East for four years in the early '80s and I did massive projects with industrial gas plants, oil facilities, gold mines, et cetera. As well as, during with that company, JPM Associates, we helped with retail location analysis for a variety of clients.

Page 4580
use as well as external to our clients. And so that we would be able to provide inputs into the asset management and evaluation and appraisal practices that we did internally on behalf of our clients.

Q So if I understood you correctly your work was used to support the appraisal group; is that a fair representation?

A They were one of the groups that used our research and our analytics, yes, as well as the people that were involved with investments and buying properties and selling properties. We would advise them pretty much on a Monday morning, get on a plane, go where in the United States.
$Q$ And how would the appraisal group or other groups use or rely on the information that you provided to them?

A We provided general -- at that time, market information as far as forecasts of demand, supply, vacancy, rents, cap rates, valuations. So and again, five property tax and 50 to 60 different markets.

Q Did you leave ABKB in approximately 1995 ?
A I did. ABKB merged with Lasalle Partners and Lasalle Investment Advisors in '94. And then in '95 I moved with my -the research director to Pricewaterhouse. And once again we were involved with the real estate valuation group doing providing similar services to the appraisers that worked within our group who did work, again, on behalf of, at that time, clients for PWC, as well as individual clients that we
contracted with.
Q Do you recall the day that you started with Pricewaterhouse?

A Yeah, July 1, 1995.
Q Why is that memorable for you?
A My birthday was the next day. And the second day of that -- when I started at Pricewaterhouse, I was told get on a train from Baltimore and come up to New York, because we were working on the Rockefeller Center bankruptcy.

Q Rockefeller Center bankruptcy?
A Correct. That was back in the mid -- well, it was 1995. The research group that I was part with, again, we prepared the market analysis section of the volume appraisal that we did for -- on behalf of our client.

Q And specifically what was your involvement with regard to the Rockefeller Center bankruptcy?

A Two things. One, because my construction management background I went through all of the empty spaces that were in Rock Center, the 13 million square feet, to identify what the TI cost, Tenant Improvement costs. And so I went through that and identified the empty spaces what it would cost to build -to do the tenant finish. But more importantly, the main focus what I did is to take a look at the market analysis section. We wrote that, beginning with a kind of a funnel, what was going on in the economy, what was going on in New York City as

Laposa - by Defendant - Direct.
Page 4582
a metropolitan area. Then getting down to a submarket. Because in 1995 we start to expand our real estate cycle analysis to not only do a market, but then we started doing submarkets, because we found in the Rockefeller Center bankruptcy that Rock Center submarket, just the area around it, only had about 7 percent of the overall stock in New York City. But it captured approximately 20 percent of all new absorption. So what happened is, that can't theoretically continue. So, what we started doing is looking at how to do forecasts, not only for the market but individual submarkets within cities.

THE COURT: Five minute warning.
Q You mentioned that you looked at the submarket, the area around Rock Center, and also the market New York City as a whole; is that a fair representation of your testimony?

A Yeah, considered a funnel, you look at national, then what is going on in the metropolitan area, a submarket, eventually you get to an peer group, until you get to the individual property.

Q Was there an international aspect to the Rock Center market analysis?

A Yeah, very much so. Because one thing that we looked at is who was active in the market. Not only in New York City but other markets that had property similar to Rock Center. And who was buying and selling in those markets and, you know, the preponderance of the foreign investors and private

| Laposa - by Defendant - Direct. Page 4583 | Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4585 |
| :---: | :---: |
| 1 institutional investors were active in the market. | 1 focused on -- I only had to teach one course a semester. So |
| 2 (The following proceedings were stenographically | 2 primarily it was real estate market analysis every semester. I |
| 3 recorded by Senior Court Reporter Michael Ranita.) | 3 periodically would teach a real estate development class, and at |
| 4 | 4 the end I was a director of the research center there. So I did |
| 5 | 5 a lot of public speaking. And Colorado State is a land grant |
| 6 | 6 university, so we did a lot of research that gave back to the |
| 7 | 7 State of Colorado. |
| 8 | 8 Q Do you recall when you left Colorado State? |
| 9 | 9 A Yeah. Once again, when I left, in 2012, I was |
| 10 | 10 immediately hired by Alvarez \& Marsal. And once again, when I |
| 11 | 11 began with that company, of course Lehman Brothers' bankruptcy |
| 12 | 12 was still on going. And the first thing that they asked me to |
| 13 | 13 do is to look at a portfolio of apartment complexes and units |
| 14 | 14 they had nationally, and using my real estate psychoanalysis, to |
| 15 | 15 determine, to present to the investment committee, should we |
| 16 | 16 buy, should we sell them? What should we do with them? What |
| 17 | 17 was the timing? So this was in 2012, and if I remember right, I |
| 18 | 18 recommended holding at least to 2014. And I'm sure if they held |
| 19 | 19 it further, they would have made more money, but they were |
| 20 | 20 thinking of just doing a fire sale. And I recommended not to do |
| 21 | 21 that based on my real estate psycho and forecast. |
| 22 | 22 THE COURT: Let's talk about 2014 at 2:15. |
| 23 | 23 Lunchtime. See you all at 2:15. |
| 24 | 24 And I'll direct the witness not to discuss this |
| 25 | 25 case, his testimony, or anything related to it during the |
| Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4584 | Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4586 |
| 1 Q Now, at some point did Price Waterhouse merge? | 1 break. |
| 2 A Correct, yeah. A few years later, Price Waterhouse | 2 Thank you. |
| 3 merged with Coopers \& Lybrand, so the new company was called | 3 (Whereupon, the case on trial was adjourned until |
| 4 PWC, for short. But we call it Price Waterhouse Coopers, but | 4 2:15 for the luncheon recess.) |
| 5 eventually everybody knew it in the marketplace as PWC. |  |
| 6 Q Did your responsibilities change after the merger? | 6 AFTERNOON SESSION |
| 7 A After the merger, my responsibilities became more -- I | * * * * * |
| 8 was, at that time, the National Director of Real Estate Research | 8 THE COURT OFFICER: All rise. Part 37 is back in |
| 9 for PW, and once we merged with Coopers \& Lybrand, my | 9 session. Please be seated and come to order. |
| 10 responsibilities became more global in nature, and so I became | 10 THE COURT: Let's get the witness back on the |
| 11 the director of the global -- I was one of the two directors in | 11 witness stand. |
| 12 the Global Real Estate Strategy and Research Group. | 12 (Whereupon, the witness stepped into the witness |
| 13 Q After PWC, did you move into a more educational or | 13 stand.) |
| 14 teaching role? | 14 THE COURT: Before we resume the questioning, let |
| 15 A Yes. I mean, during my time with PWC I completed my | 15 me ask defendants, are all defendants represented here at |
| 16 Ph.D. in England, and then -- so in 2006, after flying around | 16 this point? |
| 17 the world for 150,000 miles a year, my -- I got an offer to kind | 17 MR. FARINA: Good afternoon, your Honor. Michael |
| 18 of just stay in one place, and so I accepted an offer as an | 18 Farina for the defendants. All defendants are now |
| 19 endowed chair in real estate in Colorado State University, and | 19 represented. We have Mr. Gabra in the back, admitted pro |
| 20 in Fort Collins, Colorado. So I became the chair teaching real | 20 hac vice. I understand he is representing some of the |
| 21 estate market analysis for the five years I was there, as well | 21 defendants that Ms. Habba represents. |
| 22 as real estate development courses. | 22 THE COURT: You don't have to go person by person, |
| 23 Q What were some of the courses that you taught at | 23 but they are all represented. Great. |
| 24 Colorado State? | 24 Let's continue with the direct examination. |
| 25 A I focused on -- because I had an endowed chair, I | 25 MR. FIELDS: Thank you, your Honor. |

Page 4588
A Yes. I am an independent senior advisor to Ankura.
Q What does Ankura do?
A They are a management consulting firm. I work primarily with their Real Estate Advisory and Valuation Group.

Q How do you support the Real Estate Advisory and Valuation Group?

## A Pardon?

Q How do you support that group, the Real Estate Advisory and Valuation Group?

A Sometimes it's through engagements, sometimes - I mean, it's with presentations, proposals, in quite a few cases it's with helping provide them the market analysis research and tools, including my specialty in GIS special analysis to real estate markets.
Q And you discussed GIS before the lunch break, but could you give us a little explanation on what GIS is?

A Sure. It's taking a lot of data that is two
dimensional and making it three dimensional. Um, if you use
Google Earth or Google Maps, you probably have seen just some basic maps, um, and aerial photographs.

What GIS does is integrate economic demographic data at, you know, thousands of variables, whether it's economics, demographics, history, forecast, by, you know, states, counties, census track, block groups, zip codes, et cetera.
Q Approximately, how long have you been involved in the
real estate analytics and valuation arena?
A Since -- I mean, formally, I would say since 1992.
Q Would that be, give or take, about 31 years?
A That would -- yes, about 31 years.
Q I went to law school because I'm terrible at math, so that's why I asked you to confirm that.
A Okay.
Q And you mentioned this a little bit, but has the work that you've done in this arena spanned the globe?

A Yes. Um, especially after PW merged with Coopers \& Lybrand. As I said previously today, my work expanded, so I began working in Europe, the Middle East, Latin and Asia, and again, being PWC works with the Urban Land Institute to produce annual publications on emerging trends, both in North America and Europe and Asia Pacific, and I helped do quite a bit of research for those publications, as well as write several of them.
Q And in what countries have you assisted with market analyses for valuation purposes?
A Um, after the currency crisis in the Asia, I've worked with -- in Seoul, I worked in Tokyo, Hong Kong, Singapore, and then I've also worked in -- across the, um, Europe, in multiple capitals there. And I also provided that type of analysis in the Middle East, and Dubai, and Riyadh, and other places.

Q Have you ever held any professional designations?
. Laposa - by Defense - Direct (Mr. Fields)
Page 4590
A Um, for numerous years I held the -- what's called the, um, I was invited to submit my qualifications to be considered as a fellow in the Royal Institute of Chartered Surveyors.

The Royal Institute of Chartered Surveyors is a global industry association group primarily similar to the Appraisal Institute here in the United States, to be designated as a fellow.

You had to submit your qualifications, your career, get interviewed, and I was a fellow in -- with the Royal Institute of Chartered Surveyors until October 2019.

Q And just to be clear, you said you were invited, but you were admitted into -- as a fellow in the Royal Institute of Chartered Surveyors?

A Correct.
Q Is there -- withdrawn.
Would it be fair to say that licensed appraisers have relied on information that you provide them, generally throughout your career, to support their conclusions in their appraisals?

A That would be very fair to say.
Q Are you currently a member of the American Real Estate Society?
A I am currently a member of the American Real Estate Society, yes.

Q Generally, briefly, what is the Society? What is the

## Dr. Laposa - by Defense - Direct (Mr. Fields)

## American Real Estate Society?

A I believe I mentioned this earlier today. It's an international association of industry and academics in primarily with the focus on real estate research and publications and -it's a great group.
Q Did you ever hold any positions with the Society?
A In the early 2000's I was on their board of directors for quite a few years. And I believe in 2008 I was elected to program chair for an annual conference, which eventually I became the vice president and the president of the American Real Estate Society.
Q Are you familiar with the Urban Land Institute?
A I'm also a member of the Urban Land Institute, ULI.
Q What do they do?
A ULI, Urban Land Institute. The ULI is probably one of the world's largest industry associations encompassing the built environment.
Q Have you written publications for the ULI?
A Yes, for a number of years, I think I just said I helped write the -- provide research. I would go into the North American Real Estate -- the emerging trends publications. I wrote the first couple of years, in the European publication, as well as the Asia Pacific. I wrote the first two years in that, as well as the -- they have a book on various market analysis that I helped write a chapter on for the $R$ and $D$ flex property

Page 4592

## tax.

Q Does the ULI survey some of it's members with some frequency?
A Yes, twice a year a select group of us, and I'm included in one of the $40-35,40$ individuals. They ask us to provide our forecast for various macroeconomic parameters, such as GDP, unemployment, economic GROWTH, et cetera, as well as provide information and forecast as to -- for the next three years on each one of the property types, including the real estate capital markets. It's primarily a real estate capital market semiannual forecast that I'm privileged to participate in.
Q You said approximately 35 or 40 of your surveys out of how many members, give or take?
A I don't know the exact number of how many industry, but I think the last I heard was at least 35,000 .
Q Are you familiar with the Appraisal Institute?
A I'm familiar with the Appraisal Institute, yes.
Q What is the Appraisal Institute?
A The Appraisal Institute is the national body. It's again, an industry association that sets standards for appraisals. They produce quite a bit of publications, continuing Ed. courses, and they do the certifications for members to become licensed. Certified members of the Appraisal Institute are MAI's.

Q Have you ever taught courses for the Appraisal Institute?
A Yes, I have. Myself and another co-presenter, we developed the first ever real estate cycle course, a two-day course, primarily. We went around to numerous cities in the United States and taught a course on how to use real estate cycles with appraisals.
Q Have you ever been qualified as an expert witness in any court?

A Yes.
Q Approximately how many times?
A About five or six.
Q And what was the subject matter, generally, of your testimony in those five or six cases?

A Um, real estate capital markets. Um, I was designated as a real estate capital markets expert in a case. Another is just, again, going back to a common theme, real estate analytics as they apply to appraisals, especially when testifying in property tax appeal courts I've been involved with. So, um, I can't think of too many others.
Q And have you testified as an expert witness at depositions where you ultimately were never qualified as an expert later in court?
A Can I ask a clarification on the question? In depositions that the case eventually settled?
. Laposa - by Defense - Direct (Mr. Fields)
Page 4594
Q Let me ask it -- I'll withdraw and ask a simpler question. How many times have you testified as an expert witness outside of court?

A Testified via depositions?
Q Yes, sir.
A Oh, that's about 12 to 15 over my course of my career, yes.

Q Would those 12 or 15 include some of your trial testimony, or is that separate and apart from your trial testimony?
A That would be separate and apart.
Q Okay.
A I'm going back to 1992 on this. Okay?
Q Fair enough.
Were you retained by the defendants in this case to provide an opinion regarding real estate analytics and valuation?

A Yes.
Q Did you have the opportunity to acquaint yourself with the allegations and the Attorney General's complaint in this case?
A Yes.
Q And what did you do to acquaint yourself with the allegations?

A I reviewed the complaint, um, and I, again, focused on

| Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4595 | Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4597 |
| :---: | :---: |
| 1 areas that they asked me to provide my opinions and analysis on. | valuations. |
| 2 And that had to do with a lot of just the -- the, | 2 MR. SOLOMON: I would just - your Honor, we have |
| 3 allegations of the disparity between what was appraised values | 3 no objection with respect to real estate analytics, but when |
| 4 versus what was on the Statement of Financial Condition | ay "and valuation." We would ask for some clarity as |
| $5 \quad \mathrm{Q}$ Did you review the complaint and also the accompanying | 5 to what that term means, especially in light of the issues |
| 6 exhibits that were a part of the comp | 6 in this case relate to go valuations. |
| 7 A Well, I reviewed the complaint. And by the time I got | THE COURT: For my own benefit, can we distinguish |
| 8 to Exhibits 1 and 2 accompanying that, I noticed that | 8 between analytics and valuations. Simply put, what are |
| 9 | 9 analytics and what are valuations; so we have a better sense |
| 10 time I got to Exhibits 3, which are the actual exhibits, I | 10 of the latter. |
| 11 skimmed | 11 MR. FIELDS: The analytics portion, your Honor, is |
| 12 Q So would it be fair to | 12 the analysis -- |
| 13 time and analysis on the allegations in the complaint as they | 13 THE COURT: Let me ask the witness. |
| 14 related to valuation disparities? | 14 MR. FIELDS: I apologi |
| 15 A Corr | 15 THE COURT: What are real estate analytics, simply |
| 16 Q And after | 16 |
| 17 did you ultimately | 17 THE WITNESS: Simply put, it's the analysis of the |
| 18 certainty in the field of real estate analytics and valuation | 18 data and the methodologies processes that go into an |
| 19 regarding the theories of valuation alleged in the complaint? | 19 appraisal, especially the market analysis section, which I |
| 20 MR. SOLOMON: Your Honor, It think we are going to | 20 have quite a bit of experience in. |
| 21 object. It's the cart before the horse. The witness has | 21 THE COURT: And, I mean, I've heard all of your |
| 22 | 22 experience. Just, again, simply put, how does this make you |
| 23 | 23 an expert in valuation -- real estate valuations. That was |
| 24 | 24 the other half of it; right? |
| 25 Q Let me ask you, first, Dr. Laposa, are you being | 25 MR. SOLOMON: It is, your Honor, but I'm not sure |
| Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4596 | Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4598 |
| 1 | 1 that the witness can separate the two. I think those two go |
| 2 in this cas | 2 together. I do |
| 3 A Yes. | 3 THE COURT: Oh. |
| 4 Q And what -- are you retained as an expert through th | MR. SOLOMON: Your Honor, if we could ask a few |
| 5 Ankura firm? | 5 questions, but in terms of valuations, I don't think you can |
| 6 A | 6 divorce that from the analytics, the market analysis the |
| 7 Q Do you know what the hourly rate is that you are | 7 witness has testified to as being his experience. |
| 8 charging Ankura? | 8 THE COURT: Let me ask the witness. What are you |
| 9 A Yes. | 9 an expert in, simply put? I'm looking for like three, four, |
| 10 Q What | 10 five words here that would help us -- everybody understand |
| 11 A Four hundred | 11 this case. |
| 12 Q And are you familiar with the hourly rate that Ankura | 12 You are an expert in real estate, what? |
| 13 is charging for your work in this case? | 13 THE WITNESS: I do consider myself an expert in |
| 14 A Yes. | 14 real estate |
| 15 Q V | 15 THE COURT: Just give me three or four words. |
| 16 A Eight hundred fifty | 16 THE WITNESS: Okay. |
| 17 Q Could you guesstimate approximately how many hours | 17 THE COURT: You consider yourself an expert in real |
| 18 you've spent on this engagement to date? | 18 estate blank. What is the blank? |
| 19 A I would need to confer with my records, but | 19 THE WITNESS: Real estate research, the processes, |
| 20 approximately 325. | 20 and economics. |
| Q And is your compensation in this case conditioned on | 21 THE COURT: Is that satisfactory to defendants? |
| 22 any opinion that you provide? | 22 MR. FIELDS: Sure, your Honor. Perhaps if I ask a |
| 23 A No. | 23 question, it may be able to clear up some of this. |
| 24 MR. FIELDS: At this time, your Honor, I tender | 24 THE COURT: You don't have to clear it up, I don't |
| 25 Dr. Laposa as an expert relating to reality analytics and | 25 think. |

| Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4599 | Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4601 |
| :---: | :---: |
| 1 The plaintiffs, are you okay with that? | 1 Professional Appraisal Practice, or USPAP. |
| 2 MR. SOLOMON: With that limitation, yes, your | 2 Q Have you ever heard the phrase that appraisals are more |
| 3 Honor, we are. | 3 of an art than a science? |
| 4 THE COURT: I hereby declare you an expert, without | 4 A Yes. |
| 5 prejudice to trying to expand it in exactly what you just | $5 \quad$ Q What do you understand that to mean? |
| 6 said, economics, et cetera, et cetera. | 6 A That there is a lot of art, there's a lot of |
| 7 Defendants, is that sufficient as an area of | 7 subjectivity that go into assumptions and into the methods, |
| 8 expertise that I'm qualifying him in. | 8 process of collecting all the data that is necessary to |
| 9 MR. FIELDS: Certainly, your Honor. | 9 eventually determine an estimate appraised value. So that's |
| 10 THE COURT: Great. Let's move on. | 10 when I hear it, I think of all the subjectivities that are just |
| 11 MR. SOLOMON: Thank you, your Honor. | 11 outside the raw collection of data. |
| 12 MR. FIELDS: Can I confer with Mr. Solomon for a | 12 Q We'll get into the subjectivities in a moment. What is |
| 13 second? | 13 a valuation? |
| 14 THE COURT: Of course. | 14 A A "valuation", when I hear that, it's -- does not |
| 15 (Counsel, conferred off the record.) | 15 necessarily have to be conducted or performed or created by a |
| 16 MR. FIELDS: Thank you, your Honor. | 16 licensed appraiser. This could be -- like I was with, my early |
| 17 THE COURT: Sure. | 17 days, with ABKB or LaSalle. We had, at that time, 3 billion to |
| 18 Q All right. Dr. Laposa, I'm going to ask that you give | 185 billion commercial real estate property that we -- and did |
| 19 any opinions you provided to a reasonable degree of certainty in | 19 asset management on behalf of our pension funds and |
| 20 the areas of -- that the Judge just qualified you as an expert | 20 institutional clients. And on a quality basis I've worked with |
| 21 in ; is that fair? | 21 our appraisers to help them determine internal valuations. Not |
| 22 A That's fair. | 22 everybody that did that was a licensed appraiser; some were, |
| 23 Q Okay. | 23 some weren't. But when I hear "valuations" that doesn't |
| 24 Let me just ask you at the outset, you said you | 24 necessarily imply that it's done by a licensed MAI. |
| 25 reviewed the complaint in this case? | 25 Q So would it be fair, then, to say that a valuation is |
| Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4600 | Page 4602 |
| 1 A Yes. | 1 not always an appraisal? |
| 2 Q Did you have -- what was your general understanding of | 2 A Yes. |
| 3 the allegations in the complaint as they related to valuations? | 3 (Continued on the next page.) |
| 4 A The way that I understand the complaint is that the, | 4 |
| 5 especially when it comes to the 40 Wall Street table that I | 5 |
| 6 looked at, there were, um, valuations based on appraisals versus | 6 |
| 7 the values that were in the Statements of Financial Condition. | 7 |
| 8 So that, to me, was the crux of my expertise, is to be able to | 8 |
| 9 understand that. | 9 |
| 10 Q Now, do you have any opinion whether plaintiff's or | 10 |
| 11 defendant's valuations or appraisals cited in the complaint are | 11 |
| 12 true, accurate, inaccurate, right or wrong? | 12 |
| 13 A I have no opinion. | 13 |
| 14 Q Are you familiar, generally, with the terms "valuation" | 14 |
| 15 and "appraisal"? | 15 |
| 16 A I'm familiar with the two separate terms, yes. | 16 |
| 17 Q What is an appraisal? | 17 |
| 18 A When I hear the word "appraisal", it is -- condones in | 18 |
| 19 my mind, my bias in working with MAI's and licensed appraisers | 19 |
| 20 for 30 plus years, it's an appraisal of a property or properties | 20 |
| 21 by a licensed or certified appraiser. | 21 |
| 22 Q Are there certain standards that an appraiser has to | 22 |
| 23 follow when appraising a property? | 23 |
| 24 A Yes. They are primarily set forth in -- by the | 24 |
| 25 Appraisal Institute -- what's called the Uniform Standards of | 25 |

Laposa - by Defendant - Direct (Fields) Page 4603

Q I am going to ask you a series of questions. And if I use the term "appraisal" I also refer - I am referring to evaluation as well. Okay? And if there is a confusion to or you want some follow-up, feel free to ask. But for purposes of making this flow a little better, if I use the term "appraisal" I am also referring to evaluations. Is that okay?

A Let's go for it.
Q Okay.
Now, are there generally three different methods to appraise property?

A Yes.
Q What are those methods?
A There is the income approach, the sales comparable approach, and the cost approach.

Q Are the -- withdrawn.
Are there approaches that are more often used than others?

A It depends.
MR. SOLOMON: Objection. Are we asking this witness specific information in his career? Is this the market generally? Can we just have some clarification on that?

THE COURT: I think he meant generally. MR. FIELDS: I did, Your Honor. THE COURT: Okay.

Laposa - by Defendant - Direct (Fields)
Page 4604

Can you answer the question as is? Do you need a readback?

MR. FIELDS: I'll narrow it a little.
Q In the commercial real estate industry in your experience what approaches are most often --

A Most often it is the income and sales approach.
Q And what does the sales approach require?
A Sales approach requires an analysis and initially a collection of data of other comparable sales to a subject property in the marketplace, that eventually are filtered as to the most relevant to the subject property that would be used in the estimate of valuation for that property.

Q Have you ever heard the term a "comp"?
A Yeah.
Q Is that generally the sales approach when someone refers to the term a "comp"?

A Yes. But I didn't want to say that. I wanted to forsake the whole big word comparables. If you want to use comp, that's fine for me.

Q For the laypeople, I want them to understand better.
A Okay.
Q Terms that are used.
So how about the income approach? What is the income approach?

A The income approach still requires a collection of
data from the marketplace as far as rents and comparable leases that can be applied. But it is taking a look initially at the -- the cash flows -- the cash flows of the particular subject property, identifying to spread out the leases. The main point is, you are eventually trying to estimate a net operating income, or NOI, for that property, going out maybe five, ten years. It is a forecast period that eventually you discount when you use the NOI to build up a value of the property.

Q You mentioned an NOI or net operating income, can you mention just a few brief examples of what kind of data would go into calculating a net operating income?

A Yeah. It goes two big components: The revenue and also expenses. So the revenue can be what is in the leases; it could be extra revenue that is - that comes into the particular property.

And then the expenses is, it really depends on the property type, what are the expenses. So it could be everything from janitorial services to tenant improvements. It could be quite a few things. So there is a whole list of variables that go in.

And eventually it is revenues minus expenses equal net operating income.

Q Have you heard the term "capitalization rate" before?
A Yes, I have heard the word "capitalization rate."

Page 4606
And you can also say "cap rate."
Q Perhaps you have heard it too much. But what is generally a cap rate?

A A cap rate is, $I$ am going to use an expression that $I$ used to use as an academic; and you always need to know who Uncle Irv is. Uncle Irv is I over R equals V. And Irv is income, over cap rate, equals value; or $I$ over $R$ equals $V$.

Q What goes into calculating a capitalization rate?
A What goes into it is various aspects of what is going on in the capital markets. But then in my experience appraisers or valuation professionals will go out to the marketplace, identify properties that they have identified that have sold. They particularly will sometimes call the investor or the entity that bought the property and confirm the NOI on the property. And if they know the NOI and they know the value, then they can calculate the cap rate.

Q So in a way is the sales comp approach used on occasion to calculate a capitalization rate?

A Ask that question again.
Q Are some of the processes or procedures that go into determining comparables used in order to determine a capitalization rate?

A I would flip that the other way around. You get the comps first and then determine what the cap rate is. And you will probably have a series of sales that have cap rates that
Laposa - by Defendant - Direct (Fields) Page 4607
you verified that you can then apply to your particular engagement.

Q And when calculating a cap rate, is there a subjective analysis that is employed on behalf of the appraiser to determine a capitalization rate when trying to come up with the income or the value of property under the income approach?

A Well, theoretically it is a straight mathematical formula. You have the income. You have the value. It is the income divided by the value, and you have a cap rate. Now, what you do with it after that, and how you apply a specific cap rate to your subject property is the next step in process, in my experience, in how valuations are done, the estimates of valuation for a subject property.
$Q$ What is the cost approach?
A The cost approach is pretty much what it sounds like. You go to a company like historically Marshall \& Swift, which has various price per square foot components for various property types, and you get their cost approach for a particular property. You can talk to -- you might be able to get the building permit where you actually have the cost. You might be able to interview various general contractors. It is basically just a cost to build the property.

Q I'll fast forward here for a moment. But did you ultimately review appraisals for 40 Wall Street for 2011, 2012 and 2015?

Laposa - by Defendant - Direct (Fields)

## Page 4608

A I did.
Q And did those appraisals employ both the income and sales comparable approach?

A I believe they did.
Q Okay. So for purposes of our discussion regarding those appraisals, the cost approach is not applicable; is that a fair representation?

A That would be a fair admission in my opinion.
Q Can similarly experienced appraisers disagree about the value of the same property at the same moment in time?

A Yes.
Q Why so?
A There are so many dependent variables on their number.

One, you preface the section when you say appraisals, it could be a licensed appraiser, someone that is not licensed; it could be, again, their training, their education, their bias, do they know the market; what is the purpose of the appraisal or the valuation estimate goes into why they might be different. And it could be a multitude of variables and factors such as their outlook on the market. I mean, there is just -- just selection of their sales comps. I don't know where you want me to stop.

I think you just nodded to me to stop, so.
Q I'll move it along.

So, that question was specifically dealing with appraisers, now can non-appraisers similarly experienced, valuing the same property at the same moment in time, can they disagree about the value of that property?

A Yes.
Q And would it be for the same reasons that you just described with regard to appraisers?

A Yes.
Q Does the disagreement between the appraisers or the non-appraisers indicate that one of the valuations is inaccurate?

A No.
MR. SOLOMON: Your Honor, we are just going to object to this line. We talked about this witness being qualified as an expert on real estate market trends. But now it seems that the questions are going into valuations done by appraisers and non-appraisers and whether or not one might be right or not be right or neither or both. I think it is a field for this witness's qualification as an expert.

THE COURT: Let's ask the witness. Do you feel that you are qualified to be give expert opinions on different valuation methods and discrepancies?

THE WITNESS: Yes.
THE COURT: You have to talk into the mic.

I'll allow it. There is no jury. I see no harm. But I hope we will move along faster, because, you know, this is déjà vu all over again, can experts reach different conclusions. We all know that.

MR. FIELDS: I certainly will move it along.
Your Honor, there is going to be a lot of subjectivities we will discuss in a few moments that ultimately lead up to this conclusion. But I'll move it along.
Q Could -- all right. We have established that similarly situated folks can disagree with the same property at the same moment in time. My question now is, could the purpose of doing the valuation or the appraisal be one of the reasons for those parties to disagree?

A Yes.
Q Why?
A In my experience working with eminent domain cases and environmental damage cases and bankruptcy and divorce, big divorce settlements, I have seen very -- and whether it is a property -- whether an appraisal done for a property tax assessment, I have worked on all of those with the firms I have been a part of. And I have definitely seen they can come to different conclusions, so, even on the same property.

Q Are you familiar with lender ordered appraisals?
A Yes.
Q And what generally are lender ordered appraisals?

A Well, as I stated, they are ordered by the lender. And being a student of the federal reserves they have a flow of funds. I mean, ever since '92 I have monitored the federal reserve flow of funds. And one of the flow of funds, $I$ believe it is 210 , is the level of commercial mortgages across the United States over time. And you can see at certain times when commercial real estate is blamed for debacles in the economy. And so after ' 86 , after ' 91 , after 2001, especially after the great recession, you can see how banks and the commercial mortgage flows significantly declined.

And as going back to my comments about real estate cycles, there are two-points in a cycle that cause most confusion, when are you at the bottom, when are you at the top, but finally, are you in a recovery, especially with banks. I have worked with banks, especially after a great recession, it is -- the conservative nature of bank appraisals to me, shows up very clearly. I mean the Dodd Frank Law in 2010, there was a huge publication by the Federal Reserve, the OCC, the FDIC in 2010 that impacted a lot of residential appraisals and that flowed indirectly to how banks viewed commercial real estate appraisals to being, let's really be conservative, so we understand the risk assessments. That was huge in my experience back in those days. And, you know, because you want to know two things: What is the loan-to-value and what is the debt service coverage ratio. So, those are -- so banks to me
the primary ones.
Q Are you familiar with the term the discount cash flow model?

A Yes.
Q And what is that?
A The discount cash flow model is where you are forecasting a series of NOIs for a particular property. And simply put, it is -- it is you are discounting those future cash flows at a certain rate to come to a present value, which you can then cap to become -- to estimate then, the value.

Q In your approximately 31 years of experience, how common have you found disagreement between appraisers to be regarding the value of real property?

MR. SOLOMON: I am going to object and ask for a clarification now, when counsel is using the term "appraisers" is he talking about professional appraisers, because he said earlier appraisers and people doing valuations. So if we could have a clear record on this I think it would be preferable for everyone.

THE COURT: Withdrawn. And rephrase it. MR. FIELDS: Yes, Your Honor, certainly. Withdrawn.
Q In your 30 years of experience, give or take, how common is it for appraisers, and I am using that term specifically, appraisers, to disagree about the value of real

Page 4612
are more conservative, especially during times after a recession.

Q What do you mean by "more conservative"?
A The, you know, the rent growth estimates that may be used in an appraisal may be, you know, very low number, may be 0 percent may be 2 percent, may be even 1 percent if they are really out there on the limb. But you don't see, when you take a look at historical annual growth rates of rents, they are not stabilized. They are -- they go up, they come down based upon, again, those real estate factors I mentioned earlier today. So to just come into a stabilized, you know, 3 percent or 2.5 percent, you know, they are just more conservative when the market is probably saying, hey, demand is picking up, vacancies are coming down, occupancies are going up, NOI is going up, cap rates are going down. Even though they may see hints of that, they will still be on the conservative side.

Q What is your understanding of why lenders prefer a more conservative approach to an appraisal?

A They are always looking on the down side. You know, if the property appreciates, that's good news for the, you know, their client. But they want to make sure they are going to get their mortgage paid off and with principal and interest. So they are being conservative. They are definitely going to look more at the risk assessments surrounding the loan-to-value, as well as the debt service coverage ratios to

## property?

A Very common.
Q All right. Now in your over 30 years of experience how common is it for non-appraisers to disagree about the value of real property?

A Very common too.
Q And you understand my question to mean the same real property, right?

A Correct.
Q We have talked a little bill about lender-ordered appraisals. Are there any other types of appraisals that come to mind that you are familiar with based on your experience?

A Having been involved in property tax appeals, I am definitely very well acquainted with that. I have also seen on, especially on environmental litigations, I have seen that. As well as sometimes just what you call an event study. And I published on this as well. It is sometimes you look, and this goes with environmental, publish a paper on a wind farm announcement, you know, what did that do to values before and after. So that's more what you would call an event study, where you are looking at the -- that's more residential. So, not so much commercial.

I'll be quiet.
Q You talked about Rockefeller Center's bankruptcy, also one of the areas for which appraisals arise?

Page 4616
have MBAs who are really smart in finance and economics, and they can prepare valuations internally for our clients as well, so.

Q I would like to talk to you a little bit about market conditions. You discussed or testified earlier about market conditions already. But how, generally, do market conditions - how can they affect an appraised value of real property or a non-appraised value of real property?

A Market conditions, and by that what comes to mind again is my background in real estate cycles and forecasting and analysis, can affect, quite a bit, I mean very significant. Because what you are trying to say is here is a value as of a certain date. It is one thing to have a 100 percent leased industrial property that has got a ten-year lease, Fed Ex. That's one thing. If you have a multi-tenant building of 500,000 square feet or a regional mall with 2 million square feet, and all of these tenants, and some leases are coming and some are not, you are trying to determine what is the likelihood of lease renewals. Leased people, you know, they are just saying rents are too high we are leaving. There are so many factors that go into determining the valuation based, again, to the market trends. And as an appraiser or a valuation professional, how do they understand the market? How do they understand the history? How do they understand the signals that are out there already that says, again, especially
at the bottom or the peek, have we turned, have we reached equilibrium? What are the metrics that you identify? And I have been studying this for 30 years and it is still exciting.

Q Specific to the income approach, do market conditions factor into the net operating income, the capitalization rate, or both?

A They factor into everything. And again, going back to -- I hate to keep going back to real estate cycles, but when we taught that for the Appraisal Institute, it was very gratifying across the cities we went, to have appraisers going thank you for even teaching us about this. And the one thing we tried to teach them is what were those signals. So if you don't understand where you are in the real estate cycle, and you come up with -- in all of these discounted cash flow analysis, even sales comps, you have to understand the cycle and where you are, because, I have published on this, the relationship of real estate cycles and the investor composition in the market. Who is buying, who is selling.

I mean, I hope I am not going on too far but you know when you saw the private equity companies buying, it was typically the pension funds that were selling. And as the market, you know, started to recover, you would see the private equity firms selling to the pension funds. And it was fascinating for me to see who is buying and selling, because it is not, you know, it is not equal across time and across
markets and across property tax. Again it is a dynamic field of study.

Q Are you familiar with how developers and appraisers look at market conditions differently or the same?

A Yes.
Q And how do to they differ?
A Part of what I did with the ULI on putting together the emerging trends. We used to do personal surveys sometimes of 200 firms, and 200 individuals. Some would be CEOs of property owners, developers, some would be even architects, appraisers.

And generally overtime the, it is my experience, that the owners, investors, developers are much more optimistic, especially when the market is in a recession recovery phase, than appraisers. And appraisers may be limited by what they are asked to do. You know, as far as how -- how they interpret the data, I will say it that way. But they may just want to say, what is the worst case scenario for this property, so they can't be optimistic in rent growth, et cetera, that the market would actually provide, so.

Q You said that appraiser -- I think I heard you say, correct me if I am wrong, but that appraisers may be limited by what they are asked to do. How would those limitations come about?

A Well, in my experience, working again with the firms

| Laposa - by Defendant - Direct (Fields) | Page 4619 | Lap |
| ---: | :---: | ---: |
|  |  |  |
| 1 | I have identified today, sometimes they want to -- I mean our | 1 |
| 2 | clients will say, okay, we just had the 2001 recession, you | 2 |
| 3 | know. There was -- there was a national tragedy, there was, I | 3 |
| 4 | mean the World Trade Center, I mean what would happen to | 4 |
| 5 | downtown office buildings? So we had to put together white | 5 |
| 6 | paper top leadership on what was going on with downtown office | 6 |
| 7 | buildings. | 7 |
| 8 | And coincidentally, I have been asked to take a look | 8 |
| 9 | at those again with the great themes of work-from-home and what | 9 |
| 10 | will happen to office buildings. So sometimes you just trying | 10 |
| 11 | to get a valuation based upon worse case scenarios. | 11 |
| 12 | Q All right. We have discussed the term | 12 |
| 13 | subjectivities. Dr. Laposa, when I mention the term | 13 |
| 14 | subjectivities, what do you generally understand that to mean? | 14 |
| 15 | A I think in my initial report, I can't remember the | 15 |
| 16 | exact paragraph, but I list quite a few that are in my initial | 16 |
| 17 | report. And if you want I can ad lib right now. But -- | 17 |
| 18 | Q I won't ask you to ad lib. Would it help refresh | 18 |
| 19 | your recollection to take a look at your report to determine | 19 |
| 20 | some of the subjectivities that you identified? | 20 |
| 21 | A Sure. But I can probably name quite a few of them. | 21 |
| 22 | Q Okay. | 22 |
| 23 | A But if you have the report, I'll take a look at the | 23 |
| 24 | report. | 24 |
| 25 | Q Certainly. | 25 |

Laposa - by Defendant - Direct (Fields) Page 4620

MR. FIELDS: If we could pull up Dr. Laposa's report just to refresh his recollection. Paragraph 35. That probably doesn't help you, you need a page number, huh?
Q Dr. Laposa, perhaps name a few off the top of your head.

A Well there you go, right there.
(Handing)
THE WITNESS: Thank you, sir.
Q Yeah, here is some I listed. Just let's say you are in a marketplace and doing an appraisal of an office building. What if there is 50 sales comps within six months or some time period. Out of the 650 or so, what criteria do you use to filter them? Is it just strictly the, you know, how do you determine which ones are those from the population you are going to use. And then once you get that down and filtered, what adjustments are you going to make to whether the size or the age of the property, the location of the property, all of those are, you know, subjectivities.

Then a lot of appraisers, in valuation in my experience that I have worked with, will use companies like CoStar or REIS, they will buy the third-party and sell market history and forecast supply. Will they use those datas or not? And then how do they select and adjust the relevant cap rates they will use.

Like I said before, empirical evidence shows the composition of investors is not, you know, equal across time. So if you are in the marketplace and all of a sudden you notice a lot of private equity companies are buying things, maybe the cap rates are different than what a REIT may buy, which is going to use leverage or pension funds which sometimes are all cash buyers.

If you keep going down -- can I?
MR. FIELDS: Can I stop you right there?
Q Are you -- if I mention the word bias in terms of an appraiser or a non-appraiser, what does that mean to you in your profession?

A Well, that bias doesn't necessarily imply it is good or bad. Sometimes they have biases based on a lot of experience. If they -- I have worked with some appraisers that are really good in regional malls or power centers. They have a bias there, they know that marketplace very well.

If you have a bias that you always say, well, here is where I go get information, here is how I always adjust, it is always the same, maybe those are times where you need to be challenged by somebody outside. But that's what $I$, when you say bias, that's what I hear in my brain.

Q Would it be fair to say that appraisers and non-appraisers are exercising judgment when trying to come up with a value of property?

A Yes, I mean, you don't need to go to Exhibit 1, but Exhibit 1 of mine has actual word/phrases from the 15th Edition of the Appraisal Real Estate published by the Appraisal Institute. And they use that word, "judgment," quite a bit, and "transparency" quite a bit in that exhibit. So, yes.

Q All right. Let's switch gears Dr. Laposa, to discuss the terms "market value" and "investment value." Are you familiar with both of those terms?

A I am familiar with both of those terms.
Q What is market value?
A Market value, when I hear that and for the sake of this afternoon, when I hear that I am going to think a licensed appraiser. Is that fair to say?

Q Fair. So have you heard "willing buyer" and "willing seller"?

A I have heard those phrases for sure.
Estimated market value, as prepared by a licensed appraiser, an MAI, is an estimate of market value that assumes a willing seller and a willing buyer.

Q So would it be the price that a property is most likely to sell for today, assuming there was a willing buyer and a willing seller?

A Yes. And I would also concur that most likely there is a key phrase, because they will put a single point in their
appraisal, but normally they will go through the mechanisms to have ranges that may -- that this probability, this distribution of potential values is coming from. I mean, that comes from both the income and the sales approach. And then the appraiser will actually then blend them and say here is one that I am going to rely on more, give more weight to, as far as the estimate of the value.

Q Now, in contrast, what is an investment value?
A Investment value has to find specifically, by not only the Appraisal Institute but is in the literature, which I have included numerous examples in my initial report, investment value is a value for a specific investor with a relationship with a property. And that's how they use it in the appraisals, so I don't know what that means. But it is specific to an investor. It may not -- you know, you go to an investor and they say, here is how I want my property to be appraised, either internally or with a licensed appraiser. But it is -- it is only, it may be typical of the market, chances are it is atypical of the market. So it is specific to an investor.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
23
24
25

Dr. Laposa - by Defense - Direct (Mr. Fields)
Page 4624

1

Q And you said "investor." Can that term be used synonymously with a developer?
A It could be a developer and owner of a property, yes.
Q How is investment value different from market value, and how can they be the same, if at all?
A Well, let's first of all figure out how can they be the same. If the investor's parameters for the appraisal equal, mimic the market value, then they are going to be the same. Then the invested value can theoretically be the same as the market.

If the investor says, "I want to use a six percent cap rate" on this because that's what I heard the market is, great. Then it's probably going to be the same, just one of the parameters.

But if the investment value is based upon a distinct, unique, non-inclusive parameters, that may be atypical from the market -- most chances they are -- then the value that is estimated is that that invested value is going to be different from the market value.
Q So we've discussed subjectivities. And I want to ask you, now, in the context of investment value. Could -- let me withdraw that.

In the context of investment value, could an investor or developer rely on different subjectivities than what the market, at the time, is dictating?

A Yes, but I would also -- those, um, the parameters that go into the valuation, yes, they can definitely be different. I've seen that.
Q So, for example, you mentioned rent growth rate earlier. Is that rent growth rate one of the factors that will ultimately result in a net operating income under the income approach?

A Yes.
Q And if the market is dictating a seven percent rent growth rate, but an investor, developer chooses to use a ten percent rent growth rate, is that an example where the market value and the investment value will differ because of that subjectivity?
A Holding all else constant.
Q And let's talk now about the denominator from IRV, the cap rate -- I-R-V, IRV. If the market is dictating a four percent cap rate, but an investor or developer chooses to use a six percent, or two percent cap rate, one way or the other, usually -- let me withdraw that.

For the capitalization rates, if the market is dictating a four percent cap rate, but an investor or developer chooses to use a two percent cap rate, is that also an example where the market and investment value would differ, assuming everything else is held constant?
A Yes.
r. Laposa - by Defense - Direct (Mr. Fields)

Page 4626
Q And sticking to that same example of two percent for the developer and four percent for the market, if for some reason the developer chooses to use a four percent cap rate, because that's their belief of the market, could that be the situation where the market value and the investment value would be the same if everything else is held constant?

A Yes.
Q Are you familiar with whether there are such things as market value and investment value appraisals?

A Yes.
THE COURT: Let's -- five-minute break.
Q How, if at all, would one know whether an appraisal is appraising market or investment value?

A Again, going to the definition, if there's an investment appraised valuation, it would be done by a licensed appraiser, in my mind, as well as the appraiser will be giving -- will be given parameters that -- from the client, or the investor to use in the, um, in the appraisal.

Q If an appraisal is an investment value appraisal, will it specify it is, in fact, an investment value appraisal?
A I believe the USPAP requires them to limit their appraisal value, yes.

Q In contrast, if an appraisal is a market value appraisal, will it specify that it is indeed a market value appraisal?
witness's testimony, in large part, is, as he's testified -THE COURT: Be careful, because he's still here.
MR. FIELDS: Just what he's testified to. That he reviewed the appraisals, particularly the appraisals for 40 Wall Street, and the complaint, and --

MR. SOLOMON: I'm waiting for you to see if we should excuse the witness before going forward with this conversation, your Honor. Or, if your Honor gives the five-minute break, take our break, and then continue this. I don't mean to impinge upon the Court's discretion --

THE COURT: That's fine. Let's take the 15 -minute break. I'll make it simple. And then when we come back we can address this with fresh minds.

MR. SOLOMON: I apologize, your Honor. I didn't mean to suggest what we should do.

THE COURT: No apology necessary. So 15-minute break.

And I'll direct the witness not to discuss the case or his testimony.
(Whereupon, a 15-minute break was agreed upon and taken by all parties.)

THE COURT OFFICER: All rise. Part 37 is back in session. Please be seated and come to order.

THE COURT: To me it's not even close. Objection overruled. There's no jury. And given this guy's

A Yes. There are certainly limitations I've seen in all. Once you get an appraisal back from an appraiser there is all conditions, limitations and -- so, yes, I've seen that.
Q And we'll fast forward again for a moment and come back to this, but for the 2011, 2012, and 201540 Wall Street appraisals that you've reviewed, were those market value or investment value appraisals?
A Those were market values.
Q So in the context of appraisals and non-appraisal valuation, can the concepts of market value and investment value be used similarly, regardless of whether it's being done for an appraisal or a valuation?

MR. SOLOMON: We are going to continue our objection to this line. Real estate -- his expertise was in market trends and the like. I'm not trying to quote what your Honor had said earlier with respect to his expertise, but we are in valuations.

We've let it go for a while. They are talking about would an appraisal be X? Would an appraisal be Y? Would USPAP require disclosure that it's an investment value versus a market value?

He is asking this witness to testify about
appraisals and USPAP requirements, I believe we've heard. And this witness is not an expert in USPAP or appraisals.

MR. FIELDS: Your Honor, the purpose of this
experience, 30 years plus, and doing all those different real estate things, I want to hear what he has to say about valuation. So let's proceed. Let's get the witness. Thanks, Mike.

Mr. Solomon, thanks for being gracious in defeat.
MR. SOLOMON: Thank you, your Honor, or you're welcome, your Honor.

THE COURT: Any idea how much longer on the direct?
MR. FIELDS: Your Honor, I expect it will probably go the balance of the afternoon.

THE COURT: Do you think you'll at least finish -do you expect to finish by 4:30.

MR. FIELDS: I would say it's probably very unlikely.

THE COURT: Very?
MR. FIELDS: Unlikely.
THE COURT: Well, but try.
MR. FIELDS: I will certainly do my best.
(Whereupon, the witness stepped into the witness stand.)

THE COURT: Okay. Let's proceed.
Q Dr. Laposa, before we broke I had asked you whether the -- in the context of appraisals or non-appraisals, whether the concepts of market value and investment value generally applied the same way?

Page 4630
A The methodologies in each one?
Q Yes. Are the methodologies applied the same way whether you are doing an appraisal or whether you are just doing a valuation but not an appraisal?
A Generally, I would say, yes.
Q From your review of the complaint in this action, were you able to determine whether the complaint draws a distinction between market value and investment value?
A Yes.
Q And what was -- what did you find?
A That the complaint uses market values.
Q Did you find, from your review of the complaint, that it considered whether an investment value appraisal or valuation could result in a higher value than a market value appraisal?
A I found the complaint silent on that matter.
Q Were you able to form an opinion as to what the
Attorney General's overall theory is relating to the defendant's property valuations?

A Yes.
Q What is that opinion?
A That they allege that the appraisal values are true values.

THE COURT: I'm sorry just read back the last answer.
(Whereupon, the requested testimony was read back
Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4631
by the court reporter.)
THE COURT: Mr. Solomon, do you want to -- I didn't
hear the last few words of the answer.
MR. SOLOMON: Your Honor, I think the answer was,
if I'm reading the screen correctly, but --
THE COURT: You have to talk into the microphone.
MR. SOLOMON: "That they allege that the appraisal values are the true values."

THE COURT: Thank you.
Q Is that what you said, Dr. Laposa?
A Yes. I would clarify that as the benchmark values.
Q Who do you mean by the "benchmark values"?
A The allegations of inflated values have to be compared against some values. So in my analysis and opinions and review of the complaint, they are using the appraised values for 2011, 2012 and 2015 as the benchmark values.

Q In your view, how does the lack of consideration of investment value in the complaint affect what you understand to be the Attorney General's theory?

MR. SOLOMON: Objection, your Honor. Relevance. THE COURT: Overruled.
THE WITNESS: Can I answer?
THE COURT: "Overruled" means you can answer.
I thought you were going to say leading, but you
didn't. So let's -- do you need a read back of the

Dr. Laposa - by Defense - Direct (Mr. Fields)
Page 4632
question.
THE WITNESS: Please.
THE COURT: Read back, please.
(Whereupon, the requested question was read back by
the court reporter.)
A In my opinion, it's flawed.
Q What is flawed?
A The allegations that they are inflated. If you don't consider the investment value, it's a possibility, then, you are focusing only on market values.

Q All right. I would like to focus, now, on what you did to identify or conform -- confirm, or not, whether the defendant's valuations were true, accurate, not accurate.

So other than what you read in the complaint, did you review any documents that identified how the defendants elected to value their properties during the years that the Attorney General alleges the values were inflated?

A Yes.
Q You did review other documents other than --
A Oh, no. I only reviewed the 2011, '12 and '15 appraisals.

Q But I want to focus specifically on the allegations in the complaint relating to the defendants valuation figures. Okay? So do you have an opinion one way --

THE COURT: You can't just nod your head. You have
to say "yes" or "no."
THE WITNESS: Okay.
MR. FIELDS: So I'll re-ask it, your Honor.
Q I want to focus, for a moment, on the allegations that you reviewed with regard to the defendant's valuations in the complaint?

A Okay.
Q So my question is, do you have an opinion, one way or the other, whether the defendant's valuations are accurate, inaccurate, true, false, inflated or not inflated?

MR. SOLOMON: Objection. Asked and answered. THE COURT: Overruled.
A I have no opinion.
Q Do you know what methods the defendants used to value their properties?

A No.
Q So as far as you are concerned, Dr. Laposa, the defendants' valuations could have been investment values or they could have been market values?

MR. SOLOMON: Objection. Leading.
THE COURT: You have to ask him --
MR. SOLOMON: Also, your Honor, the objection is lack of foundation since witness has testified he didn't do anything to analyze or opine upon the defendants' valuations.

A Generally, yes.
Q What were they?
A The town valued the property at 900 million and the owner valued it at approximately 500 million.

Q And were the two appraisals conducted by two licensed appraisers?
A Yes.
Q So there was a $\$ 400$ million difference in this instance at the Palisades Mall in Rockland County between two licensed appraisers?
A Correct.
Q Were those both market value appraisals?
A Yes.
Q And would you describe that as a variance between those
figures, or even an extreme variance?
MR. SOLOMON: Objection. Leading.
THE COURT: Granted.
You could ask him how he would describe it, but not is it --
Q How would you describe the difference or the variance between the two figures?
A Obviously there is a difference between 900 and 500 million.
Q What was your reaction when you an analyzed both of those market value appraisals?

Page 4636
1 A Well, my initial reaction, in typical, is, especially with property tax appeal work that I've conducted, or have been engaged as an expert, is to, once again, my expertise in the market section of an appraisal.

So when I look at that particular chapter in an appraisal, I consider myself extremely experienced in analyzing the methods that are used, and how they use, how they collected the data, what they did.

So the fact that there's a variance, that doesn't surprise me. You know, it's now you get into -- you have to go below that. What did they use? What were the cap rates? The Town's appraiser used a cap rate that I found quite amazing, because during this time it was, I believe, right after the great recession. The entire commercial transaction volume for, um, reaching malls at that time was $\$ 1$ billion that year.

So, basically, he's assuming a sale comp. on that total, you know, he's saying it's 900 million. So, again, not to get into weeds, but we just have to go through what was his cap rate? What was our - what was the owner's cap rates? How did they adjust, you know, leasing and et cetera? So once you get below that, then you could explain the difference. So that's what we -- that was what they asked me to do, so.
Q When you say "go below that", are you referring to the subjectivities that we discussed --
A Yes.

Q -- this afternoon?
A All of those that go into that. You know, you start with a macroeconomics. What was retail sales? What was online sales, online retail? What was going on with Rockland County economy, employment? There is so much detail that goes below that. So yes, it's all of those that eventually factor into the market analysis section of an appraisal that eventually leads to the -- to how the forecasts are done and the DCF, et cetera. So, yes.
Q Are the terms "market value" and "investment value" discussed in literature that you included as part of your report?
A Yes. I have a whole opinion with citations throughout my report.
Q And what do you consider to be the gold standard for your field, as it relates to the literature.
A Well, for one, you always have to go to the Appraisal Institute, Exhibit 1 in my report. I specifically include some texts from the Appraisal Institute, 15th Edition, that talks about invested value and how it differs from market value. But subsequent, because of my training and experience and expertise in academics, I also went to the literature to look at what was peer-reviewed and published. One of my former chairman on my Ph.D. program is, you know, just retired as the real estate professor at Oxford University wrote a whole book on this topic.

Page 4638
So I looked at what he wrote. And so, again, it's my experience, the gold standard of the Appraisal Institute's 15th Edition, the academic literature that's been peer-reviewed and out there in the marketplace. So that collective body of knowledge is what I used.
Q And are the terms market value and investment value discussed in the Appraisal Institute's 15th Edition that you just mentioned?
A Yes.
THE COURT: Quick interruption. I need a front bar. Mr. Fields, and anybody from the plaintiff's table, or chairs.
(There was a side bar at the bench among the Court and Counsel.)
(Continued on the next page.)
Laposa - by Defendant - Direct (Fields) Page 4639

THE COURT: Sorry for the interruption, but I think you were collecting your thoughts anyway.

MR. FIELDS: I was, Your Honor. I appreciate the extra few minutes.
Q Dr. Laposa, I am -- you testified earlier that you had an opportunity to review the 2011, 2012 and 201540 Wall Street appraisals?

A Correct.
Q Okay. I would like to show you a few pages, select pages from some of these appraisals. And I'll ask you a couple of questions regarding them.

MR. FIELDS: Can we please pull up Plaintiffs
3208 that's been admitted? And we will go to page 130.
(Handing)
THE WITNESS: Thank you, sir.
Q Are you there, Dr. Laposa?
A I am.
Q All right. Before I ask you a couple of questions regarding this, but just to be on the same page here, you understand this to be the appraisal report prepared for Capital One Bank for 40 Wall Street as of November 1, 2012?

A I believe so.
Q On the fourth page of the exhibit you will see a coversheet.

A Okay.

Q All right. So on page 130 in the middle of the page there is a subheading titled: Office Market Rental Growth Rate. And it says: "Based on our recent survey buyers' expectations in the downtown Manhattan real estate market anticipate rents to increase at CPI."

Is that CPI the Consumer Price Index?
A That's true.
Q "These changes in market conditions result in C\&W's leasing" --

Do you understand C\&W to be Cushman \& Wakefield?
A Yes.
Q "Brokerage group in downtown Manhattan to forecast the following rent growths."

And it says: 2012, 0 percent. Thereafter,
3 percent. So what is this 3 percent market rental growth rate that is used here in this appraisal? What does it represent?

A The rent growth they are going to use for new leases, maybe lease renewals that occur over the -- I don't know what time period this is, but they are just using that in their DCF to forecast rents and then eventually the NOI.

Q So is this rate being used to forecast future income ultimately?

A Yes, I mean, that's -- I meant to say, I mean to imply, that for sure they are using it. Maybe there is a lease that is going for ten years that is already set. But maybe
there is some space that is empty that they think they can lease. So what is today's rent they are going to grow to 3 percent or 0 percent in 2012 and then just 3 percent after 2012. Yes.

Q In your 30 plus years of experience could you estimate approximately how many appraisals you have reviewed or analyzed?

A Thousands.
Q And do you have a particular reaction to this 3 percent rent growth rate?

A Well, I mean, I have to respect the fact that they are using their own real estate brokerage -- brokers. It seems to be a recent survey. I don't know how many they surveyed, if it was three or four, is it 20? I don't know how many they did. But to me I think when I saw the 3 percent, I am going, well, I don't think that's going to be what happens -- is going to happen.

Based on my experience, especially in forecasting, like I said, beginning 1992, rental rates, you know, for multiple markets and multiple property tax, you don't see a flat 3 percent in my -- you just don't see it.

Q Can you recall seeing a flat 3 percent rent growth rate in your experience?

A Yeah, when I taught real estate market analysis for the sake of the students I said use a 3 percent growth rate in

## Laposa - by Defendant - Direct (Fields)

Page 4642
your rents and 4 percent, you know, for something else. That's, you know, just to get them in the habit of doing something. But no, I have never seen that.

When I saw that I thought, okay, well that's -- you see that just tells me what they did, okay, to come up with eventually their values. But in my experience and based on the empirical evidence that I have, you know, taught and I have researched and prepared, no, it is rare.

Q How, if at all, does the fact that this is a lender-ordered appraisal potentially affect the 3 percent rental growth rate?

A Well, this is 2011, right?
Q 2012.
A This is 2012?
Q Yes, sir.
A You know, 2012 is still not that far removed from the great recession and what we saw. So to me, was it reasonable for a lender to say, you know -- I can't speak for them, I can just, based on my experience and working with bankers at that time, you know, they want to be conservative. And a 0 percent and a 3 percent, that's highly conservative.

MR. FIELDS: If we could move forward to page 175 of this exhibit?
Q And Dr. Laposa, if it is easier for you, on the screen in front of you should be what --

```
    A I would rather look --
    Q Yes, sir.
    A -- at this.
    Q Would you prefer the paper or the screen?
    A The screen.
    Q Okay. Well the screen --
    A That's really good too.
    Q Okay.So at the top it says: Direct Capitalization
Valuation Method (Upon achieving stabilized occupancy as of
November 1, 2015)
        What is stabilized occupancy?
    A It is used in appraisals as I have seen. But it
is -- if you have a property that is }65\mathrm{ percent, }75\mathrm{ percent
occupied, eventually you are going to build up your model to a
stabilized occupancy. And at that rate, that's what the
stabilized occupancy means. You're just ramping it up in the
forecast period to someplace where you think, okay, we are
    stabilized.
    You can't go above }100\mathrm{ percent occupancy, right? So
    maybe you go to 93 or 95 is what is typically used in the -- in
    appraisals. But that's what it means to me.
    Q You said 93 or 95 in that general vicinity, is that
    generally where you find a stabilized occupancy?
    A My mind is just like, well, that depends if there is
    another property coming online, you know. So I would say it is
```

A Well, I am not really sure. They say: Building Sales Overall Rate Summary. So, if this was performed in 2012 are these the cap rates from those properties, those eight properties that sold in 2012, that then they are going to try to use for stabilized rate in 2015 or whenever? Whenever that stabilized occupancy gets to? I am not sure. There is not enough information for me to draw a conclusion.

Q Fair enough.
More generally, do you understand that these are eight properties that was chosen as comparables for the capitalization rate purposes --
A Right.
Q -- for this analysis?
A Again, they are -- when I say there might have been a pool of 20 , but here is the eight they decided to use.

MR. FIELDS: All right. If we could scroll down
to the last paragraph on this page.
Q Can you see where it says, first sentence: In the context of a direct capitalization method, a going-in rate of 7 percent is considered reasonable, compensating the typical buyer for the risk inherent in investing in this building?

A Ido.
Q So is it your understanding that this appraisal chose a 7 percent capitalization rate for the direct capitalization valuation method on this page?
THE WITNESS: I am sorry.
THE COURT: Sustained.

Q What is your understanding of what this 7 percent --
A That is the --
Q -- represents?
A -- the cap rate they are going to use for investment in this particular building, so.

MR. FIELDS: And if we could just scroll up a
little bit so that the statistics chart is -- there we go.
Q What do you understand to be the highest capitalization rate that this appraisal chose to use as a comparable?
A Can you just scroll up again? I want to confirm that 6.7. Yeah, 6.7 is the highest cap right there, so.

Q So did the appraisal rely -- withdrawn.
Was the appraisal selected capitalization rate higher than the capitalization rates -- than the highest of the capitalization rates used as comparables as reflected on page 175?

A Yes.
Q And how would you describe that in terms of aggressiveness or non-aggressiveness?
Laposa - by Defendant - Direct (Fields)
$\mathbf{1}$
2 A $\quad$ Well, that confirms to me that they are producing an 4647
Laposa - by Defendant - Direct (Fields) Page 4648

MR. FIELDS: And then if we could flip to the next page, please page 178.
Q At the top, Prospective Market Value, what do you understand the $\$ 260$ million figure to represent?

A That is their estimate of the property value as of November 1, 2015.

Q So would it be fair to say that the appraisal is estimating an approximately $\$ 40$ million increase in value -market value from November 1, 2012 to November 1, 2015 ? A Yes.

THE COURT: Let me just ask, am I correct that does not take into account any money spent on improving the building?

THE WITNESS: What was the question, sir, Your Honor?

THE COURT: Does the increase of the $\$ 40$ million take into account monies spent -- any monies spent on improving the building, or just if the building stays the same due to market conditions it will be worth $\$ 40$ million more?

THE WITNESS: Based on what I have seen right here, it would just be based on the improving in the NOI.

THE COURT: Okay. Thanks.
MR. FIELDS: If we could pull up now what has been admitted as Plaintiff's 118.
(Handing)
THE WITNESS: Thank you, sir.
MR. FIELDS: And if we could go to page eight, please.
Q All right. Dr. Laposa, first of all, do you see that this is an appraisal report as of June 1, 2015 prepared for Ladder Capital Finance LLC for 40 Wall Street?

A Ido.
Q And is this one of the reports that -- appraisal reports that you reviewed as part of your engagement in this case?

A Yes.
MR. FIELDS: If we could go please to page ten.
At the bottom.
Q Do you see the subheading: Value Conclusions in this chart?

A Ido.
Q And what is the market value as is, as of June 1, 2015 for 40 Wall Street?

A The value conclusion states 540 million.
Q A moment ago we discussed the projected value in 2012 for 2015; do you recall that?

A Ido.
Q And do you generally recall that the projected value as of November 1, 2015 was $\$ 260$ million?

Page 4650
A Yes.
Q And now this is an appraisal as of June 1, 2015 that is valuing 40 Wall Street at $\$ 540$ million?

A Yes.
Q When you reviewed these two appraisals, what reaction did you have to that value conclusion differential between 2012
projected for 2015, and the ultimate 2015 appraisal?
A My initial reaction was inquisitive.
Q And did you inquire?
A Huh?
Q Did you inquire?
A Yes, I did. I just wanted to look at it. How did you go from 260 to 540? Again, my initial reaction is not, well yes, I am inquisitive but not surprised. It is just, let me go through what did they do, especially in my area of expertise in the market analysis section.

MR. FIELDS: Okay. If we could go please to
page 170 of this document?
Q Dr. Laposa, can you see this is the Direct Capitalization Valuation Method heading?

A Ido.
Q And in the chart in the middle of the page, what is your understanding of what these 12 properties represent?

A Well, they are -- as the heading states, these are office building sales. And the overall capitalization rate for

|  | a - by Defendant - Direct (Fields) Page 4651 |
| :---: | :---: |
|  | each one of them. |
| 2 | MR. FIELDS: And if we scroll a little lower. |
| 3 | Q The statistics section, the low is 2.68 percent; the |
|  | high is 7.68 percent; and the median is 4.28 percent; the |
|  | average is 4.62 percent? |
| 6 | A Correct. |
| 7 | MR. FIELDS: And if we can scroll a little lower |
| 8 | to the last paragraph. |
| 9 | Q In the context of the direct capitalization method, a |
| 10 | going-in rate of 4.25 percent is considered reasonable |
|  | mpensating the typical buyer for the risk inherent in |
|  | investing in this building, with consideration to the below |
|  | market leases. |
| 14 | What did you understand this four and quarter percent |
| 15 | to represent in terms of the ultimate value in how they arrived |
| 16 | at it? |
| 17 | A Well, they use add 4.25 percent in their calculations |
| 18 | to estimate market value. |
| 19 | Q And this four and a quarter percent was slightly |
| 20 | lower than the average of 4.62 percent; is that fair? |
| 21 | A That's fair. |
| 22 | Q In contrast to the -- well, let me just ask this |
| 23 | first. Withdrawn. |
| 24 | Do you recall in the appraisal we just looked at from |
|  | 2012 that the capitalization rate employed for projected 2015 |

Laposa - by Defendant - Direct (Fields) Page 4652
was higher than the highest one of the sales comparables that were being looked at?

A Ido.
Q And here you have a capitalization rate that is a little lower than the average in 2015. What was your reaction when you saw those two distinctions?

A When I saw those distinctions, the one thing, going back to my real estate cycle background, by 2015 it was very well known in the marketplace that the economy had turned around, real estate had turned around. I have a graph, I believe, in my initial report that shows real estate capital flows starting to increase from 2011 on. So that does not surprise me that they actually used a 4.25 percent. So, you know, versus what they thought in 2012, which would be seven.

So at first I was, like, okay that makes sense. Why they did not use the same methodology as what they did in 2012 compared to here, I don't know why they didn't use something that was even higher, like they did in 2012. It is just what they did.

MR. FIELDS: If we go to the next page, page 171.

Q Do you see at the top there is the Direct
Capitalization Method and NOI plus year one free rent. What is the figure for the NOI?

A 23.2 million.

MR. FIELDS: Could we please pull up side by side Plaintiff's 3208 with -- on page 176.
Q Dr. Laposa, a moment ago, and I'll represent to you that on the right of your screen you are looking at the 2012 appraisal projecting November 1, 2015 value upon reaching stabilization. Okay?

A Yes.
Q And on the left you have the actual 2015 appraised market value.

I'll represent to you -- well, let me withdraw that question.

On the right in 2012 projecting as of November 1, 2015, the appraisal concluded that the net operating income would be approximately 18.3 million as of November 1 of 2015.

A Yes.
Q Now, as of June 1, 2015 on the left of your screen, what did the appraisal conclude was the actual net operating income, plus year one free rent?

A 23.2 million.
Q I'll represent to you that the difference there is approximately $\$ 4.8$ million. Will you accept my representation?

A I will accept it.
Q So would it be fair to say -- let me withdraw that. That difference of $\$ 4.8$ million, in your view, does that represent an under value of the net operating income or

Page 4654
over valuing when you compare 2012 to $2015 ?$
A Well, they obviously, as of 2012 they thought the value of the operating would be 18.3 , when in actuality it was much higher at 23.2 million.

Q And for 2015 the capitalization rate that the appraiser relied on was four and quarter percent. Do you recall that from the prior page?

A Correct.
Q Will you accept my representation that if you divide $4,869,396$, which is the difference between the two net operating incomes, divided by the capitalization rate of four and a quarter percent, that that represents approximately $\$ 114,574,024$ ? Will you accept my representation that it is approximately 114.5 million?

A Yes.
Q Okay. That 114.5 million, what does that represent in terms of the appraiser in 2012 under valuing or over valuing 40 Wall Street when you compare it to the actual figures in 2015?

A Again, I would have to go through a lot more of the methodologies that came up to how they came up to that 18.3 versus the actual 23.2. But I am fairly confident that it had to do with their rent growths. It had to do with their occupancies. It had to do with a lot of the variables that go into some kind of a DCF model.

## approximately $\$ 539.5$ million?

A Ido.
Q And what do you understand that value to represent?
A That's the -- of all of the matrix and all of the opportunities that they, you know, calculated, I assume these calculations are correct, I am sure they are, that they decided, okay, here is the matrix and basically we are going to pick the one in the middle.

This, to me, shows subjectivity. Trying to explain why they didn't use the four and a quarter, you know, this is the judgment of the appraiser in looking at all of the opportunities, that whole distribution of values, and going from 441 million all the way up to 686. Again, if I saw those two values you would go -- you would dig down deep and say, okay, what is different between them. This is pure example of subjectivity for me.

THE COURT: One minute more if you want it, then we have some scheduling to do.

MR. FIELDS: Sure.
Q Dr. Laposa, on the left, the IRR, the discount rate, how does the discount rate generally affect the value of the property when it goes up or down?

A Well, as your discount rate goes up even holding just four and a quarter, you can see as the discount rate goes up, the values go down. As the discount rate goes down, the values
Laposa - by Defendant - Direct (Fields) Page 4656
documents in front of you?
A Yes.
MR. FIELDS: All right. If we could please go
back to page 162 of Plaintiffs 118 ?
Q And there is a chart on the bottom left titled
Pricing Matrix. And to the right of it --
MR. FIELDS: Well, that's okay. That's perfect.
Thank you.
Q Dr. Laposa, I'll represent to you that this is a
chart included on page 162 of the 2015, 40 Wall Street
appraisal. Okay?
A 2015?
Q Yes, sir.
A Yes.
Q And do you see the terminal capitalization rate at
the top?
A Correct.
Q Is that -- what is that term? Is that the
capitalization rates we have been discussing this afternoon?
A Yes. But it is more at the end of the cash flows. I
mean, it is at the end of the discounted cash flow model.
Q Okay. And the IRR on the left is -- what is that?
A Discount rate.
Q Do you see in the middle of the screen that there is
a cell, for lack of a better term, highlighted that's

Laposa - by Defendant - Direct (Fields)
Page 4658
go up, holding just that terminal cap rate.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q So when the discount rate, for example, five and a half percent at a cap rate of four and a quarter, the value is approximately $\$ 686.4$ million?

A Correct.
5 Q And if you go all the way to the bottom there, if you apply the same cap rate, but a discount rate of 7.5 percent, the value changes to $\$ 523.6$ million?

A Correct.
MR. FIELDS: Your Honor.
THE COURT: Okay. Ill direct the witness not to discuss his testimony, or this case overnight. And we'll see you tomorrow morning at 10:00.

Okay, and let's discuss scheduling. I'll turn over the microphone to the person sitting alongside me.

MS. GREENFIELD: Okay. Mr. Fields, how much more direct do you have?

MR. FIELDS: If I had my best estimate, it would probably be 45 minutes or less.

MS. GREENFIELD: How much cross is anticipated?
MR. SOLOMON: Two to three hours. I will try to make it less, to the lower end of the range.

MS. GREENFIELD: Okay. We are going to have Mr. Giulietti available.

MR. SUAREZ: Mr. Giulietti will be available in the morning.

Page 4660
MS. GREENFIELD: Since it looks like Giulietti was scheduled later in the month, are we getting an updated witness list?

MR. SUAREZ: Yes. We are working with the holiday schedules and Counsel availability for number of the witnesses. We've made great progress this week through our experts, so I expect that by next week we'll have some more updated dates in our schedule.

MR. AMER: Can I ask, are we still anticipating Mr. Miller follows Mr. Giulietti, and then Mr. McConney follows Mr. Miller?

MR. SUAREZ: That's correct.
MR. AMER: And that's next week?
MR. SUAREZ: That's next week.
MR. FIELDS: May I inquire, if there's two or three hours of cross examination, is tomorrow Friday or have I lost track of my days?

MS. GREENFIELD: He said it's possible he'll finish early, so in the event that we are able to have another witness, we'll have another witness.

MR. FIELDS: Okay.
THE COURT: Okay. Have a good evening.
(The case on trial was adjourned to Friday, November 17th, 2023, at 10:00 a.m.)

Senior Court Reporters

THE COURT: Good morning, everyone. I'll ask the witness to resume his place on the witness stand, and I'll remind him, as I always do, he's still under oath.

Please proceed, Counselor.
MR. FIELDS: Thank you, your Honor. And good morning.

THE COURT: Good morning.

\section*{DIRECT EXAMINATION}

\section*{BY MR. FIELDS: (Continued.)}

Q Good morning, Dr. Laposa.
A Good morning.
MR. FIELDS: If we could please pull up Plaintiff's 118, page 162.
(Whereupon, the exhibit displayed on the screen was taken down.)

MR. FIELDS: If we could blow up -- that's probably a poor term, but enlarge the pricing matrix.
(Whereupon, the exhibit displayed on the screen was taken down.)
Q Thank you. Dr. Laposa, when we broke yesterday for the evening, do you recall that we were discussing this pricing matrix in the 201540 Wall Street appraisal?
A Ido.
Q And the top of the chart reflects "terminal capitalization rates"?

A Correct.
Q And the left side of the chart reflects "discount rates"?

A Correct.
Q And your testimony was that the figure that's grayed out in the middle of this chart, what is your testimony? What is this value that is grayed out?
A The matrix is typical, as I've seen in appraisals and what appraisers do, and they look at this, and like I said yesterday, to create an estimate of market value is a point, and it includes a distributions.

And so this chart actually is a great chart that illustrates the distribution of potential values that the appraiser would actually consider before finalizing what his value would be.
Q Okay.
Are the discount rate and the terminal capitalization rate two of the many subjectivities that you testified about yesterday?
A Yes, very much so.
Q On the low end of this chart where the terminal capitalization rate is six and a quarter percent and the discount rate is seven and a half percent on the bottom right, what is the figure in that box?
A Approximately 441 million.
Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4665

1 Q Okay. And then if we go to the high end of the chart at four and a quarter percent, terminal capitalization rate; five and a half percent discount rate, what is the figure there?

A The value is approximately 686 million.
Q All right.
Now, if you added a half a percent to four and three quarters for the cap rate and added half a percent for the discount rate to six, do you see where the figure is approximately \(\$ 604.9\) million?
A I do.
Q So does that \(\$ 604.9\) million, approximately, represent adding a half a percent to both of these subjectivities?

A Yeah, 50 basis points, correct.
Q And when you add those 50 basis points, the result is approximately an 80 or so million dollar difference; is that a fair statement?

A Yeah. Yes, approximately 686 minus 604. MR. FIELDS: Okay. We could pull that down, thank you.
(Whereupon, the exhibit displayed on the screen was taken down.)
Q I would like to shift gears Dr. Laposa, and talk to you a moment about the term trophy property?

A I'm familiar with that term.
Q What is a "trophy property"?

Dr. Laposa - by Defense - Direct (Mr. Fields)
Page 4666
1 A I would consider a "trophy property" as iconic, not reproducible, very unique in the marketplace. It could be a historic building. It could be -- it's - I've seen it in the literature. I've seen it in appraisals. They say this property is a trophy property, and so, yes, I've seen it.

Q We talked about the Rockefeller Center and the bankruptcy that you were involved in as a result on that property.

Is the Rockefeller Center an example of a property you would consider a trophy property?

A Very much so.
Q What kinds of investors do trophy properties typically attract?
A The pool of investors that l've seen in my experience is, especially working around the world on properties that I would also consider trophy properties, is that the pool of investors is much more limited to who would want to -- who can afford to buy it, and sometimes they buy this -- buy a property for 50 years, you know, expectation. I've worked with Dutch investors. When they buy a property, especially if it's a trophy. They are going to keep it in their portfolio for 50 years.

So it's a very limited, um, it could be high net worth. It could be family office, real estate offices that's -- it could be a group of foreign investors. So it's a real limited,
in my experience, the pool of investors, it's not, you know, it's just not, um, you don't see it that many, um, typical local and regional real estate investors.

Q How, if at all, does the appraisal or valuation process for trophy properties vary from the appraisal or valuation process for non-trophy properties?

MR. SOLOMON: Objection, your Honor. The witness has been qualified for market research and market trends and the like expert. He's not been qualified specifically it was excluded about anything having to do with appraisals.

MR. FIELDS: I don't recall that, your Honor. I believe, your Honor, when we came back from that break said he's been doing this four 30 years. He is qualified to testify about information that goes into the appraisal that he spent 30 or so years valuating and understanding the market data; that's what my question was geared toward.

THE COURT: Read back, please.
(Whereupon, the requested testimony was read back by the court reporter.)

THE COURT: Well, this is very specific to appraisals. Objection sustained.

MR. FIELDS: Your Honor, I also asked about non-appraisals. The question was, how does it vary for appraisals or non-appraisals, and we've been discussing with Dr. Laposa appraisals and non-appraisals since the beginning

Page 4667

Page 4668
of the testimony.
MR. SOLOMON: And we had a continuing objection to that line, your Honor.

THE COURT: I'll let it in. There's no jury. I don't see the prejudice, so overruled without prejudice to -- Mr. Solomon, you are dismayed. Let's have it out is this. Is it because it will waste time or because of some prejudice to your case?

MR. SOLOMON: We don't anything is a prejudice to our case, your Honor. Let's be clear on that. That I've learned how to answer.

But I do think it's a weight of time. If the witness wants to testify in the area of market research, market analysis relating to trophy properties, that's one thing.

To have him sit up there and talk about how an appraisal is different for a trophy property versus a non-trophy property, or even a valuation between the two, this witness is not qualified.

I believe there were people who were appraisers up on the stand at various point in time. The questions could have been asked of those people whether they were or weren't, and that was the decision that was made. But it's not proper for this witness.

MR. FIELDS: I don't think Mr. Larson -- I asked

Page 4670
about the process. Respectfully, that was question.
THE COURT: Mr. Solomon, if you are still trying to save time, you are not.

MR. SOLOMON: But, your Honor, if they do this,
that may also require us to call a rebuttal expert with respect to appraisals and the like, so it will, in fact, extend the time.

THE COURT: That's true. I have a more broad view of what an expert -- what deeming someone expert to be is. I'm -- I know I don't remember the exact words, but I remember there was a specific wording I used when I deemed him an expert. If you want to find that, but even if this goes to a little bit outside of that, objection overruled. Let's just move on.

Do you need a read back of the question again or do you want to ask it again. It will take longer to --
A Can you ask that question.
THE COURT: Ask it again. Withdrawn. Ask again.
Q How, if at all, does the process differ for appraisals or non-appraisal valuations with regard to trophy properties compared to non-trophy properties?
A I could describe the work that I worked on for the Rockefeller Center bankruptcy, where myself and this other director of research, we did only the market analysis for that appraisal. So I could restrict what we did.

When we looked at the - you go through the same process. Again, it's a funnel approach. What was going on in the United States office, what was going in on in New York, what was going on in the Rockefeller submarket and we charted out that data. We produced and forecast, but then when we had to assist the appraisers, the MAI's on this appraisal, we -- they asked us to, because it was a trophy property, we looked at the sales comps in the area for New York, but additionally, because it was a special type of property, we also investigated what were the sales in London, in Paris and other major cities around the world, to similar properties as Rock Center. So that's the biggest difference in the market analysis section that I worked on. And I can attest to that.

THE COURT: Not to mention, you could cross examine him endlessly.
Q So then - your testimony was you looked at comparables around the world to use to compare to the Rockefeller Center?

A Correct.
Q Do you recall some of the comparables around the world that you looked at?
A It's been too long.
Q Fair enough.
MR. FIELDS: If we could pull up Dr. Laposa's report.
Q I would like to shift gears now, Dr. Laposa, and talk

1 to you for a moment about your report on page 29. And we'll put it up here to refresh your recollection, if that will be easier for you.
(Whereupon, the exhibit was displayed on the screen.)

\section*{A Okay.}

MR. FIELDS: All right. If we can enlarge footnote 21.
(Whereupon, the exhibit displayed on the screen was enlarged.)
Q Do you recall including in your report footnote 21 that discussed the concept of investment value appearing similar to estimated current value for personal financial statements per ASC-274?
A Yes, I remember including that footnote.
Q When you drafted -- well let me ask you this: Do you have an accounting background?

A No.
Q Are you providing an accounting opinion here in court?
A No.
Q Do you have a very rudimentary understanding of ASC-274?

A I wouldn't even consider it rudimentary.
Q Fair enough.
All right. Do you recall that your deposition was

Dr. Laposa - by Defense - Direct (Mr. Fields)
Page 4672
taken by the Attorney General's Office earlier this year on or about July 9th, 2023?

A Ido.
Q And I'm not going to play a memory game with you.
MR. FIELDS: So I'm going to ask that we pull up, to refresh the witness's recollection, page 90.
(Whereupon, the exhibit was displayed on the screen.)

MR. SOLOMON: Your Honor, I don't know that the witness indicated he needed his recollection refreshed.

THE COURT: Sustained. You can't refresh a recollection --
Q Dr. Laposa, do you remember every question that Mr. Solomon asked you at your deposition earlier this year? A No.
Q Okay.
Would it refresh your recollection to review your deposition to help you remember some of those questions?

THE COURT: Is there an objection, or no?
MR. SOLOMON: Your Honor, he just asked if seeing every question would refresh his recollection; that's not objectionable. But when he gets, now, into specifics in an area, he needs to identify an area where the witness needs his recollection refreshed before he could go further, so that question, in and of itself, is not objectionable, but

I'm waiting for the next one.
THE COURT: Well, I think it is objectionable, because he would have to review the whole transcript.

MR. SOLOMON: The first rule, your Honor.
Q Do you remember the questions specifically that were asked to you, in terms of the wording that was used by Mr. Solomon at your deposition, relating to estimated current value and ASC-274?
A We had a series of questions, if I remember right, when that phrase was introduced into the deposition. I remember that.
Q And would it aid your memory to be able to review those questions now to know the specific phrasing that Mr. Solomon used when asking you those questions? MR. SOLOMON: Objection. He hasn't -THE COURT: You can't do that.
MR. FIELDS: Okay. No problem. We'll play a memory game.
Q Dr. Laposa, do you recall that Mr. Solomon, at your deposition, showed you a definition for estimated current value?

A I do remember that.
Q Do you remember the wording exactly of the definition that Mr. Solomon showed you?
A Do I remember the exact wording of that?
Q Yes, sir.

Dr. Laposa - by Defense - Direct (Mr. Fields)
Page 4674

A No.
Q Would it help refresh your recollection to see the definition of estimated current value that Mr. Solomon showed you at your deposition?
A It would help.
MR. FIELDS: If we could please pull up, to refresh the witness's recollection, D-452.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
MR. FIELDS: Page two, in the middle of the page under glossary, estimated current value.
Q Dr. Laposa, just take a look at this and let me know if you recall whether this was the definition of estimated current value that Mr. Solomon showed you at your deposition?
A I'm sure it was.
Q Are there any key terms in this definition that stand out to you in your memory that you recall being asked about?
A Um, specifically what I was asked about this is -- I mean, there were various questions, but I do remember seeing this, and I do remember seeing keywords in there that, um, you know that were new to -- not new to me, that I saw that -- that I -- I understand this definition.
Q What are some of the key terms in this definition that were -- stood out to you as it relates to your role in market
research and valuations, generally?
A Well, considering l've opined on the difference between a market value and investment value, when I saw this definition, it, um, it, um, informed me that it was much more the market value because there was the terminology exchanged between a buyer and seller. And then again, each of whom is well informed and willing, and neither of whom is compelled. So that implies, in my world of, of, of understanding market value, is there needs to be a buyer and a seller. And, again, each with the conditions; informed, willing, non-compelling, buy or sell that asset.

Q So when what I understood your testimony to be is, that when you read this, what first came to mind for you was market value?
A Correct.
MR. SOLOMON: Objection. Leading. THE COURT: Sustained.
Q What first came to mind in terms of your -- the key terms we've discussed over the past two days with regard to value, what term came to mind to you?
A Market value.
Q And when Mr. Solomon asked you -- withdrawn.
Did Mr. Solomon ask you, at your deposition, to apply this definition when he was asking you questions about estimated current value and market value?

\section*{Laposa - by Defense - Direct (Mr. Fields)}

Page 4676
A I don't recall that specific relationship.
Q You don't recall the specific relationship between the question that was asked at your deposition?
A Well, we went through a series of questions, probably frustrating for the both of us going through this question and what it meant, and how it was applied, so. A lot of assumption based, you know, assume this, now does that -- I mean there was, um, if I remember my deposition, and I reviewed it here recently, um, this was a good back and forth, I would say, between the two of us.
Q But my question is, do you recall if this was the definition that Mr. Solomon asked you to apply when he was asking you questions about estimated current value?
A Yes, that's the definition he asked me to apply. Q Okay.

So when Mr. Solomon asked you if estimated current value and market value were the same, do you recall what your answer was?
A Can -I I-I would have to refresh my memory, but when I saw this definition, in my mind, it implied to me market value, because a willing -t the buyer -- the terminology was buyer and seller, well informed, neither are compelled to buy or sell. So it implied a transaction.
Q Would it refresh your recollection to look at your deposition to know exactly what your answer was when you were
asked that question?
A Most likely, yes.
Q Okay.
MR. FIELDS: Could we please pull up page 90 of Dr. Laposa's deposition.
(Whereupon, the exhibit was displayed on the screen.)
Q Beginning at line -- we'll start at line 22.
The question, "Estimated current value and market value
are, in your opinion, the same? And then Mr. Solomon followed up with, "Is that correct?"

MR. FIELDS: If we could then move to the next page.
(Whereupon, the exhibit was displayed on the screen.)
Q And do you recall that your answer was, "Based on this limited definition, yes"?
A I do now, yes.
Q And Mr. Solomon followed up:
"Okay. Yes, I'm only asking you based on the
definition \(I\) have put in front of you from FASB on estimated current value."

Do you generally recall that?
A Yes.
Q As we just asks discussed, the definition that

Page 4678
Mr . Solomon is referring to, is that the definition that was just up on the screen --
A Yes.
Q -- a moment ago?
A Yes.
THE COURT: Let me just suggest, if you want to ask the witness, and you have at great length, questions about market value versus investment value, you've done it already. You could still do it, I guess, but it sounds like what you are trying to do is foreshadow what Mr. Solomon's cross examination is going to be.

Why don't we just wait until there's the cross examination, and then you can, you know, redirect him, or attempt to rehabilitate anything -- any damage that you think is going to be inflicted. We spent 15 minutes on his definition of market value versus investor value, which we spent a half hour on yesterday, and you've done with other witnesses.

MR. FIELDS: I'm getting to the point, your Honor, and I could assure the Court there is a point to it.

THE COURT: Okay.
Q Did you ultimately, when asked by Mr. Solomon, suggest or agree to withdraw your footnote 21 based on the definition he showed you at your deposition?

A I do remember that.

Q Okay.
MR. FIELDS: If we could put on the screen, please, defense 452.
(Whereupon, the exhibit was displayed on the screen.)

MR. FIELDS: Page ten -- sorry, page nine.
(Whereupon, the exhibit was displayed on the screen.)

MR. FIELDS: All the way at the bottom.
(Whereupon, the exhibit was displayed on the screen.)

MR. FIELDS: Defense 452, page nine. Oh, I see it. Thank you.
Q Do you see at the top, Dr. Laposa, it says
"Information" -- withdrawn. All the way at the top. It says, "Real estate, including leaseholds."

Do you see that?
A Yes.
Q Okay. And I'll represent to you this is part of ASC-274.

Do you see information that may be used in determining the estimated current values of investments in real estate, including leaseholds that include any of the following."

A Do I recall seeing this, or do I see it?
Q Do you see that on the screen?

Laposa - by Defense - Direct (Mr. Fields)
Page 4680
A I see that.
Q Okay. Subheading B, do you see where it begins, "The discounted amounts of projected cash receipts and payments relating to the property, or the net realizable value of the property based on planned courses of action, including leaseholds whose current rental value exceeds the rent in the lease."

Do you see that?
A I see that.
Q I would like to focus your attention on what comes after the word "or" in the first line.

So it says "the net realizable value of the property based on planned courses of action."

Do you see that?
A Ido.
Q And in your world of real estate economics and valuations, generally, what do you understand that to mean?
A That there's -- the option that -- I assume this is still 274 ?
Q Yes, sir.
A That the estimated current value, according to 274, this part (b), could include the net realizable value of the property based on planned course of action. And when I see "planned course of action", what comes to mind for me is the owner, the investor, the developer of that specific property and
what his plans are for the future, his or her plans are to further develop that property, or just knowledge they have about that property. And again, planned courses of action.
Q So would that be investment value?
A To me, that's investment value.
MR. SOLOMON: Objection. Leading.
THE COURT: Two things. One completely leading, overruled. Two --

MS. FAHERTY: Overruled?
THE COURT: Sustained, right.
MR. SOLOMON: Sustained.
THE COURT: The other thing I can't say.
MR. SOLOMON: Also, I would note this witness has said he doesn't know 274.

MR. FIELDS: Then why did you show it to him at his deposition and not show him this definition?

MR. SOLOMON: The expert report you drafted for him you put in footnote 21 which mentions 274.

MR. FIELDS: When you were examining --
THE COURT REPORTER: \({ }^{m}\) sorry, I couldn't harar you both.

THE COURT: Sustained. It was leading.
MR. FIELDS: I'll ask him.
THE COURT: I don't know if you could ask him.
Q You mentioned planned courses of action. In your
recall. I think he has, but I don't want to be on the record as saying something I don't have a high degree of certainty.

THE COURT: Then either I'll allow it or -- all right. I'm sorry, sorry for interruption.

MR. FIELDS: That's okay.
THE COURT: Restate it. You know the question. MR. FIELDS: Yes, sir.
Q Do you recall if you were shown this specific definition that's on the screen that's ASC-274-10-55-6 at your deposition?

A I have a high certainty that I did not see this definition during my deposition.
(Continued on the next page.)
\begin{tabular}{|c|c|}
\hline & \begin{tabular}{l}
Defense - Direct (Mr. Fields) \\
Page 4682
\end{tabular} \\
\hline & ey term does that bring to mind? \\
\hline 2 & COURT: Objection sustained. He gave the \\
\hline 3 & r. If you are going to try to ask him the same \\
\hline 4 & different wording, it's asked and answered. \\
\hline 5 & hat you are trying to do. Mr. Solomon \\
\hline 6 & he \\
\hline 7 & does or doesn't know, probably at this point do \\
\hline 8 & m not going to let you do \\
\hline 9 & Laposa, were you shown this definition that was on \\
\hline 10 & screen here ASC-274-10-55-6 at your deposition? \\
\hline 11 & THE COURT: Asked and answered. \\
\hline 12 & MR. FIELDS: Your Honor, he has not answered that \\
\hline 13 & on whether he saw it at his depos \\
\hline 14 & THE COURT: I could be wrong about that. \\
\hline 15 & iff, was he shown this at his deposition. You took \\
\hline 16 & it? \\
\hline 17 & The question, I should be asking, did you ask him \\
\hline 18 & d the defendant ask him whether you showed it to him at \\
\hline 19 & deposition? That's three people. \\
\hline 20 & MR. SOLOMON: I'm sorry, your Honor. I did not \\
\hline 21 & \(v\) that question. Did the defendant -- \\
\hline 22 & THE COURT: Did the defendant ask the witness \\
\hline 23 & er you showed this to him at his deposition? Did he \\
\hline 24 & k him today, now? \\
\hline 25 & MR. SOLOMON: To \\
\hline
\end{tabular}
world, what key term does that bring to mind?
THE COURT: Objection sustained. He gave the answer. If you are going to try to ask him the same question with different wording, it's asked and answered.

I know what you are trying to do. Mr. Solomon knows what you are trying to do. I don't know if the witness does or doesn't know, probably at this point does, Qut Im not going to lat you do it.
Q Dr. Laposa, were you shown this definition that was on
THE COURT: Asked and anwered
MR. FIELDS: Your Honor, he has not answered that question whether he saw it at his deposition.

THE COURT: I could be wrong about that. Plaintiff, was he shown this at his deposition. You took it?

The question, I should be asking, did you ask him -- did the defendant ask him whether you showed it to him at his deposition? That's three people.

MR. SOLOMON: I'm sorry, your Honor. I did not follow that question. Did the defendant --

THE COURT: Did the defendant ask the witness whether you showed this to him at his deposition? Did he

MR. SOLOMON: To be candid, your Honor, I don't

Laposa - by Defendant - Cross(Solomon)
Page 4684
Q And now that you have seen this deposition, do you stand by your footnote 21, that you had previously told Mr. Solomon that you would withdraw based on the limited definition he showed you?

A Now that I have seen this Part B, I would leave it in.

MR. FIELDS: No further questions, Your Honor. Thank you.

THE COURT: Okay. Will there be any cross? MR. SOLOMON: Yes, Your Honor.
THE COURT: Can you proceed with that now? Can you proceed with that now?
MR. SOLOMON: Yes. Sorry, Your Honor, technical issues.

May I proceed, Your Honor?
THE COURT: Please do so.

\section*{CROSS-EXAMINATION}

BY MR. SOLOMON:
Q Good morning, Dr. Laposa.
A Good morning.
Q You have testified yesterday and this morning about your background in real estate. I would like to be a little more specific. Prior to this assignment, did you have any professional experience preparing or reviewing personal financial statements?

A None.
Q Prior to this assignment, did you have any professional experience in valuing real estate for inclusion in personal financial statements?

A No.
Q Okay. We talked a few minutes ago about ASC 274. Do
you know if ASC 274 provides guidance for standards for valuing
real estate for personal financial statements?
A Outside of what I have seen today, no.
Q Are you familiar with the Financial Accounting
Standards Board, otherwise known as FASB?
A Yes, I am familiar with the terminology, yes.
Q What is it?
A It is a Financial Accounting Standards Board. I am not an accountant, I don't follow whatever they do. So, it is -- I know the abbreviation.

Q Okay. Are you an MAI certified appraiser?
A No.
Q Were you ever an MAI certified appraiser?
A No.
Q Have you ever signed an appraisal for a commercial property?

A No.
Q Have you ever signed an appraisal for a residential property?

Page 4686
Laposa - by Defendant - Cross(Solomon)

A No.
Q Let's go back to some of the definitions that we were talking about this morming and that you and I discussed at your deposition.

MR. SOLOMON: If we could please mark PX-2665
for identification.
(Handing)
A Okay.
Q And Dr. Laposa, you will see the sticker at the bottom which was added, Laposa 3. That was marked at your deposition; do you recall that?

A I believe so.
Q Okay. It is page 54 of the appraisal of real estate; is that correct?

A This is 15th Edition?
Q Yes.
A Okay.
Q So you have seen this before today, correct?
A Do I see what?
Q You have seen this page before today, correct?
A Correct.
Q And you have referred in your report and elsewhere as, this publication, the appraisal of real estate being the gold standard, correct?

A Correct.

Q Okay. If you take a look at the first entry under investment value: "As used in appraisal assignments, investment value is the value of a property to particular investor based on that person's (entities') investment requirements rather than market norms." Do you see that?

A Ido.
Q Is that how you used the term "investment value" during your testimony here?

A Yes.
Q The exhibit goes on to state, if you look at the rectangle on the left side for investment value, it reads: "The value of a property to a particular investor or class of investors based on the investor's specific requirements; may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market."

> Do you see at that?

A Ido.
Q Do you agree that investment value may be different than market value?

A It may be.
Q Let's go back into the text. Under investment value, the third paragraph. "To render an opinion," do you see that sir?

A I do.

Laposa - by Defendant - Cross(Solomon)
Page 4688
Q "To render an opinion of investment value an appraiser must research the specific investment criteria of the party in question." Do you see that?

A Ido.
Q Did you do anything to research the specific investment criteria of any person or entity with respect to 40 Wall Street?

A No.
Q Did you do anything to research the specific investment criteria of any person or entity for any asset listed on any of Donald Trump's financial statements?

A No.
MR. SOLOMON: Your Honor, we offer 2665 in evidence.

THE COURT: Sus -- Granted. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiffs Exhibit 2665 by the Court.)

THE COURT: You get caught up in patterns.
MR. SOLOMON: Your Honor, we would ask to mark
PX-1715 for identification.
(Handing)
Q Sir, if you look at the second page, it is a definition of estimated current value, correct?

A Correct.

Q When you were testifying earlier about estimated current value, was that the definition you were using?

A What is the source of this?
Q If you look across the top, FASB Authoritative; do you see that?

\section*{A Okay.}

THE COURT: It doesn't really matter where it is
from. The question was whether that was the definition
you were using. Wherever. It could have been in the
Bible. So is that the definition you were using -You do it.
Witness, is that the definition that you were using of current estimated value -- estimated current value when you were testifying today and yesterday?

THE WITNESS: Give me a moment to read. THE COURT: Sure.
THE WITNESS: I believe that's the same definition we just previously saw.
Q Yes I understand that.
A That's how I understand estimated current value.
Q Okay. That was the definition we were using earlier we understand. Is that the definition you were using during your testimony yesterday and today?

A Regarding?
Q Estimated current value.

Laposa - by Defendant - Cross(Solomon)
Page 4690

A Can -- did I even talk about estimated current value yesterday?

Q I think you may have. I am certain you talked about it earlier today. Do you recall that?

A Yes. Okay.
Q Was this the definition you were using when you testified about estimated current value?

A Just momentarily ago, yes.
Q Okay.
THE COURT: Throughout your testimony today.
Q If you did use the term estimated current value at any point yesterday, was this the definition you were using?

A If I even used it yesterday, you are saying would I have used this definition?

Q Yes.
A I would have to confirm that, but I would say most likely.

Q Okay. Have you ever used a different definition for estimated current value than the one up on the screen?

A No.
Q Okay. Based on this definition, is estimated current value the same as market value?

A I believe even on our deposition we went around on that, but if it could be -- I can't really -- well, let me further respond to that. It could be. This definition and
what I understand to be market value could overlap and be the same.

Q You recall when we were talking about your deposition, I took your testimony in July of this year?

A Yes.
Q Do you recall that \(I\) asked you, is estimated current value the same as market value? Do you recall that I asked you that?

A Several times, I am sure.
Q Do you recall your answer?
A No. If you want to show me, that would be great.
MR. SOLOMON: Could we play the clip, page 90
line five through page 90 line 16.
(Whereupon the video was played in open court.)
Q Do you remember being asked those questions and giving those answers?

A Yes, sir.
Q That refreshes your recollection?
A That helps, yes. Thank you, sir.
Q Let's turn to what you did and what you did not do prior to issuing your report. I believe you testified on direct examination that you reviewed the complaint in this action. Do you recall that?

A Ido.
Q And you had testified about the exhibits, I would
aposa - by Defendant - Cross(Solomon)
Page 4692
like a little more clarity. I think you had indicated, and if I am not remembering your testimony correctly, please correct me. You had looked at some of the exhibits, but not all?

A I believe I can recall what I said yesterday when I initially read the complaint. I started at page one, went through it, and by the time I got to Exhibit 1, Exhibit 2, there is a lot of companies and entities. And then when I got to Exhibit 3, which were the Statements of Financial Conditions I said, okay, that's -- that's beyond my expertise. So I stopped.

Q I think you had indicated, please correct me if I am wrong, you skimmed Exhibit 3?

A Correct.
Q Okay. But you read the entirety of the complaint?
A I did read the complaint.
Q And based upon your review of the complaint, are you aware that certain valuations in Donald Trump's Statements of Financial Condition are at issue in this action?

A Yes.
Q Other than skimming the first of the Statements of Financial Condition, did you skim any of the others?

A Like I just previously said, I got to Exhibit 1 and 2, went through them pretty fast. When I got to Exhibit 3, I stopped. I mean, when I saw the first one and noticed it seemed like the remaining pages were all financial statements,
and my expertise is not even close to that.
Q Did you review how any of the purported values on -withdrawn.

Did you review how any of the purported values for any asset on any of the Statement of Financial Condition were calculated?

A No.
Q Did you review appraisals for any asset in connection with this case other than 40 Wall Street?

A No.
Q Then let's focus on the 40 Wall Street appraisals. I
believe you testified you looked at the one from November 2011?
A Correct.
Q 2012?
A Yes.
Q And 2015; is that right?
A Yes.
Q And are you aware that the Cushman appraisals -- can I refer to the three as the Cushman appraisals?

A Yes.
Q Are you aware that the Cushman appraisals for 40 Wall Street reflect a different valuation for the property than the valuations on the Statements of Financial Condition?

A Am I aware that the values that are in there are different from the financial statements? Is that what you are

Q We will come back to that.
A Can I clarify? When you said appraisal review, to me that means you have to be a licensed appraiser. I did not review the appraisal as an appraiser review. I reviewed the market analysis sections and the tables that I believe I have been qualified and have experience in doing for \(\mathbf{3 0}\) plus years.

Q Yes, I appreciate the clarification.
Are you aware that under USPAP there is something known as an appraisal review?

A Yes.
Q Using that term for appraisal review, did you conduct an appraisal review of any of the appraisals for 40 Wall Street?

A No.
Q Thank you for that clarification.
So, you observed that there were different valuations between the Statement of Financial Condition and the appraisals for 40 Wall Street, correct?

A According to the tables within the complaint, yes.
Q Okay. When there are disparate valuations, is it prudent and common practice to examine the underlying assumptions, methodologies, models and the purpose of an appraisal to identify potential sources of the disparate results?

A That's -- I would agree with that.

Laposa - by Defendant - Cross(Solomon)

\section*{Page 4694}
asking?
Q Yes.
A According to the tables in the complaint, that's what it states. I did not go back to the Exhibit 3 to check.
\(Q\) Other than looking at the tables in the complaint, you have no independent knowledge?

A No.
MR. SOLOMON: I am sorry. Your Honor, I
violated one of your rules.
Q Other than looking at the tables in the complaint, do
you have any independent knowledge as to whether the amounts on
the appraisals are different than the amounts in the Statements of Financial Condition?

A I have no knowledge.
Q Did you perform an appraisal review of the Cushman appraisals?

A No.
Q Are you qualified to perform an appraisal review of the Cushman appraisals?

A No.
Q Did you review any trial testimony relating to the appraisals of 40 Wall Street?

A Recently?
Q Trial testimony, so from October 2 to present.
A I briefly read the trial transcripts of a Mr. Larson.

Laposa - by Defendant - Cross(Solomon)
Page 4696
Q Did you examine the underlying assumptions, methodologies, models and purpose of Donald Trump's valuations for 40 Wall Street on his Statements of Financial Condition?

A No.
Q When I asked you earlier about whether it was prudent or common practice, did that sound familiar to you, sir?

A What was that question, again?
Q Sure. I had asked you a moment ago when there are disparate valuations, is it prudent and common practice to examine... and then I listed a number of factors. Do you recall that?

A Yes.
Q Did that sound familiar to you?
A That sounds familiar to me.
MR. SOLOMON: Can we pull up paragraph 32 of
Dr. Laposa's report? Second sentence.
Q That's what you put in your expert report should be done when there are disparate valuations, correct?

A That's correct.
Q But you didn't do that for any of the valuations on Donald Trump's financial statements, correct?

A Correct.
Q Let's look at the actual appraisals for 40 Wall Street.

MR. SOLOMON: Could we put up on the screen side
terminology. Is that right?
A I would consider 2012 based on my knowledge and what I put in my report is still in recovery phase.

Q In a recovery phase. Okay. Are the \(\$ 18\) million number and \(\$ 23\) million number measuring the same thing?

A Well, they are measuring the same NOI for the same building, you know, but the one on the left, the 18.3 million is an estimate of 2015.

Q Right. And the 2015 is NOI (plus year one free rent,) right?

A It says that, yes.
Q So that \(\$ 23\) million number has roughly \(\$ 7.7\) million in free rent added back in, doesn't it?

A I don't see that exact number, but --
Q If you look on the chart on the right?
A I see it now, okay.
Q Under indicated value less one year free rent \(\$ 7,776,980\). Do you see that?

A Ido.
Q So the NOI under the direct capitalization method, the chart on the right for 2015 of 23.2 million, actually includes money that is not collected, doesn't it?

A Yes.
Q Yes or no, sir?
A Yes.

Laposa - by Defendant - Cross(Solomon)

\section*{Page 4698}
recall that?
A Yes.
Q But you indicated you were fairly confident it had to do with their rent growth. Does that sound right?

A That was one of the aspects I would -- 1 infer just by the fact that the NOI went up or they were projected to go up. So that's a combination of the rent increase as well as the occupancy. And theoretically that's -- that's one cause of that.

Q And occupancy, is one of the factors that you use in determining the net operating income for the building because the more tenants you have the greater the income, correct?

A Correct. Well, depending upon if -- I mean, you could buy occupancy sometimes by just dropping your rents, which we found in Rock Center in '95 they did.

Q Assuming we don't have a situation like '95 or 2008 coming out of there, the greater the occupancy, as a general matter, the greater the net operating income once you take out expenses that are associated with the greater occupancy rate, correct?

A Yeah. Again, going back to my real estate cycle yesterday, you know, most likely in the recovery and maybe even in early expansion phase, this is reasonable for sure.

Q And 2012 was the early expansion phase after what is known as the financial crisis, great recession, whatever

If you look at the one on the right, what is the projected not yet operating income for fiscal year 2016 ?

A The 18.3 million.
Q Okay. And now let's compare that to the projection from the 2012 -- excuse me, the 2015 . I have them reversed. The 2015. The net operating income for fiscal year 2016 is what?

A 15.4 million.
Q So actually the 2012 appraisal is more optimistic about 2016 than the 2015 appraisal, isn't it?

A Based on what?
Q Based upon the numbers here on the two charts in front of you that come from the appraisals.

A The one on the left it is 15.4 , and on the 2012 it is --
Q It is 18.3 , roughly \(\$ 3\) million more?
A Correct.
Q So back in 2012 they were predicting a net operating income of approximately \(\$ 3\) million more than they did on the 2015 appraisal, right?

A Right.
MR. SOLOMON: You can take this down.
Q Do you recall testifying yesterday that you believed the 2012 appraisal, I think the term you used was under projected?

A I would have to confirm that but it sounds most likely, yes.

Q Okay. Are you aware whether 40 Wall Street ever achieved even the initial net operating income figure from the 2015 appraisal?

A I am not aware.
Q Those are documents that would be in defendants' possession in your experience, right?

A I am sorry, what?
Q The documents reflecting the NOI for 40 Wall Street between 2015 and today, based on your experience, would be in the possession of the owner of the building, right?

A I can't confirm that.
Q Okay. Did the defendants ever show you documents sufficient to determine the net operating income for 40 W all Street between 2015 and present?

A They showed me the Cushman \& Wakefield prices.
Q That wasn't my question, sir. And maybe my question wasn't clear.

Between 2015 and present we have actual results for net operating income for 40 Wall Street, right?

A Right.
\(Q\) Okay. Did the defendants ever show you documents sufficient for you to learn, know, understand or calculate the net operating income for 40 Wall Street between 2015 and
present?
A 2015 and?
Q Present. Present.
A Present. 2023 or \(20-\) no.
Q Any of the years between, not just 2023, sir.
A No.
Q Okay. Are you aware of the current occupancy rate of 40 Wall Street?

A Am I aware of what?
Q Of the current occupancy rate of 40 Wall Street? A No.

MR. SOLOMON: I would like to mark PX-3380. It has previously been marked for identification, Your Honor.

MR. FIELDS: We will object to relevance to the current occupancy rate for 40 Wall Street. It is not at issue in this case.

THE COURT: If there are projections of what it was, I think it is relevant, so overruled.

MR. ROBERT: Your Honor, if I may?
The issue we had a big disagreement about earlier in the week with the Doral, and what the value is today and using that as a look-back, all of that should come in. Because if we are looking at whether a projection was accurate, the goose/gander rule I think is the legal phrase, would apply to that as well, Your Honor.

Laposa - by Defendant - Cross(Solomon)
Page 4704

I am happy to revisit that with another witness.
THE COURT: I specifically asked if there was a projection of this. I don't know whether there was a projection of Doral.

But Mr. Solomon, you want to --
MR. SOLOMON: That's exactly the point, Your Honor. And I would just add that here we are looking at a projection in the first appraisal that Dr. Laposa was asked about from 2012 going forward and comparing it to 2015. There are then projections in 2015 going forward. And this witness testified yesterday that 2012 under projected. So in light of that, it is appropriate to look at what the projections were in the 2015 appraisal. And I am not using this to show what the value is of 40 Wall Street as we stand here today.

MR. AMER: Your Honor, I just want to remind the Court that the ruling on Doral was on a different basis. THE COURT: It was various reasons.
MR. AMER: That you can't use Doral to, you know, wash away inflated amounts of other properties. That was the basis for the Court's ruling that Doral was irrelevant.

MR. ROBERT: But we are hearing testimony that the valuations on the SOFC are based on projections and planned courses of action. So of course it is appropriate
\begin{tabular}{|c|c|}

\hline 15 the performance of 40 Wall Street? & 15 (Whereupon, the exhibit was displayed on the \\
\hline 16 A Yes, with qualifications. & 16 screen.) \\
\hline 17 Q Dr. Laposa, are you aware that Mr. Trump, or The Trump & 17 Q You'll see the one on the left has the maximum FAR of \\
\hline 18 Organization's ownership in 40 Wall Street consists of a ground & 18900,000 that we were just reading in the earlier paragraph; \\
\hline 19 lease for the property? & 19 right? \\
\hline 20 A I believe it does, but -- yes. & 20 A I do. \\
\hline 21 Q And are you also aware that each of the appraisals that & 21 Q Yet, the 2015 appraisal uses a maximum FAR of only \\
\hline 22 we looked at for the building had to calculate the increases in & 22 810,000 square feet? \\
\hline 23 the rent payable under the ground lease? & 23 A Yes. \\
\hline 24 A I believe so. & 24 Q Were you aware of that before today? \\
\hline 25 Q Were you aware that there is a reset of that ground & 25 A No. \\
\hline
\end{tabular}

1 Q Is it fair to say, then, you did not conduct any analysis or any review to determine why there's a difference of roughly ten percent in the size of the FAR?

A I did not.
Q Yesterday you testified, and we confirmed today, that you reviewed the complaint. Do you recall that?

A I do.
Q And is it also your testimony that based upon your
review of the complaint, you believe the complaint uses market values for the various assets?

A Yes.
Q Did you also testify that you have no way to know what types of valuations the defendants used to value their properties?

A I have no knowledge of how they valued.
Q Okay. Let's talk about the Statements of Financial Condition.

Do you know if the values for the assets identified on the Statements of Financial Condition are market values, estimated current values, investment values or some other valuation?

A Based on my experience and working with owners and investors and developers, I would believe it was their invested values.

MR. SOLOMON: Can we pull up PX-729, which is

Page 4710

\section*{already in evidence.}
(Whereupon, the exhibit was displayed on the screen.)
Q Please take a moment to look at this exhibit, Dr. Laposa.
(The witness was handed the exhibit.)
Q You can look at whatever you need to answer my questions, but I would direct your attention to page four, "Basis of presentation."

A Okay.
(Whereupon, the exhibit was displayed on the screen.)
\(Q\) The very first paragraph of the notes of the financial statement. "The accompanying Statement of Financial Condition consists of the assets and liabilities of Donald J. Trump. Assets are stated at their estimated current value and liabilities at their estimated current amounts using various valuation methods."

Do you see that?
A Ido.
Q Now that you see that, do you understand that the assets are purportedly stated at their estimated current value in the Statements of Financial Condition?

A Well, yes, but there's also the qualification used in various valuation methods.

Q Well, those are methods. Is there a difference in your mind between the valuation definition and the method used under that definition?
A Well, I'm going by what I've -- this is the first time I seen this. They stated that they are estimated current value. That's what we talked about.
Q This is the first time you've seen this, Dr. Laposa, but you wrote a report where you accused the Attorney General of bias by using market values in the complaint; is that right?

MR. FIELDS: Objection, to the extent he is accusing the Attorney General of bias; that's not the testimony, and it mischaracterizes the testimony.

MR. SOLOMON: At a break I could pull it up in the report, but let me rephrase it, your Honor.

\section*{THE COURT: Okay.}

Q Did you accuse the Attorney General of using market values in the complaint in this action?
A What I stated, I believe in my report, is if you are using the Cushman \& Wakefield appraisal values, those are, in my -- my world, the market values. They are not investment values.
Q So you are saying that we used - excuse me, the
Attorney General, in the complaint, used the Cushman \& Wakefield values; right?
A As the benchmark of truth compared to what was in the

Laposa - by Defense - Cross (Mr. Solomon)
Page 4712
financial statements.
Q And that those appraisals reflected market value; right?
A Yes, they were --
Q Based on the transitive property, if A equals B, and B
equals C, you accused the Attorney General of using market
values in the complaint; correct?
MR. FIELDS: Objection to the characterization of "accusing" anybody, your Honor.

THE COURT: Sustained. I don't think "accused" is appropriate.
Q Sure. You, in your report, in your expert professional opinion, stated that the Attorney General was using market values in the complaint; is that correct?

A Correct.
Q Okay.
And we've now seen that the Statements of Financial Condition used estimated current values; right?
A That's what it says.
Q And as we saw earlier when we put your deposition testimony up on the screen, you agreed that estimated current value is the same as market value.

Do you recall that?
A Yes.
THE COURT: I normally break at 11:30, if I can get

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4717
name please, Mr. Giulietti.
A G, like George, I-U-L-I-E-T-T-I.
Q Good morning.
A Good morning.
Q Could you just explain your educational background from college on?

A Well, I -- I have an undergrad degree from Saint
Michael's College, and I have a number of executive business
educational, I don't know if you call them degrees, but I've
been to the Harvard Business School, things like that, in my career.

Q What did you study at Saint Michael's College?
A Business.
Q And where did you first work after attending college?
A A company called American Mutual. It was the founding company of Liberty Mutual.

Q What did you do there?
A Insurance, direct writer, worked directly for the insurer.

Q How long were you with American Mutual?
A Two and a half years.
Q Where did you go next?
A A series of small brokers until 1980. In the Connecticut area.
Q What did you do when you worked for the series of small

Page 4718
brokers?

Q You mentioned the word "broker", and I think most understand what the term broker means. In your own words, what does a broker does?
A It's an agent and/or broker. It's an intermediary between insurance buyer and insurance seller.
Q What is your current position at Lockton?
A I'm a founding partner, member. A lot of titles, but I continue to make deals for the company and on behalf of our clients.
Q Could you estimate about how many clients Lockton has?
A Oh, my God. Four point something billion of revenue, tens of thousands.
Q What, if any, exposure have you had at Lockton with regard to surety bonds?
A At different times in my career I was the largest individual broker in the country, and therefore the world, cause surety is somewhat unique product to America, albeit it's around the world now, but not like the US, which -- surety itself was founded, um, something called the Miller Act in the ' 30 s , guaranteeing public funds going to third parties and making sure the government was going to get the result from the construction and/or performance -- any kind of contract, really.
Q Is that why you mentioned surety is a unique product in America?
A Because people mix up surety with insurance. And it's

A Insurance sales and underwriting.
Q What kind of insurance?
A Originally construction. So surety and insurance for contractors. My dad was a contractor, so I called on his friends.

Q And you said until about 1980 ?
A Yes.
Q Where did you go in about 1980?
A 1980 I joined a company called Willis. I was there for 20 years. The last nine years was vice chairman of real estate and construction for them.
Q And what did your work entail, generally speaking, while you were at Willis?
A I was sort of a deal guy my whole life, so it became more sophisticated sized deals, and worked on securing clients and retaining clients.

Q This is still in the world of insurance?

A At Lockton, where I am today. Been here since then.

Giulietti - by Defense - Direct (Mr. Fields)
Page 4720
really not. Surety is a credit vehicle. It is not insurance. It's a third-party guarantee in the banking world that would be more like a letter of credit.

Q Okay.
A So people confuse the underwriting and they confuse the way it's done, and I'm just -- that's why I distinguish it.

Q Can insurance companies occasionally be sureties?
A Yes. Over time individuals can be sureties to the federal government, oddly, um, but it's kind of morphed to where the insurance industry is really the predominant underwriter.

Q Do you have an idea or a sense for what percentage of your practice is the surety practice?
A My personal practice?
Q Sure.
A My practice is rather large, so I would still be one of the larger brokers.

Q Surety brokers?
A Yes.
Q What interactions do you have, generally, with surety underwriters as a broker, surety broker?
A I would say we are rather unique, and why we have such prowess is the fact that we understand the underwriting standards. Surety, sureties, build their own models off of both financial statements -- surety has three components of underwriting. One is character, integrity, if you will. They

\section*{G. Giulietti - by Defense - Direct (Mr. Fields)}
call it the three Cs; capability, or ability to perform whatever
it is you are being asked to guaranty as a surety. And the
thing that a lot of people spend a lot of time on, which, to me,
isn't really the most important thing, but it's financial underwriting.

Q If you could describe the relationship between a surety underwriter, a surety broker and the client, can you just explain the, really, the day-to-day and how the relationship gets formed?

A Sure.
Q And how that affects the ultimate product?
A What we do somewhat is unique. There are only a few brokers going to this extent they usually rely on the carriers to underwrite, but we actually do the underwriting ourselves. We build our on models. We do our own analytics around all three Cs. We determine, based on who we are going to -- who the client is, where we think the philosophy of the client best fits the credit provider for the surety, and we try to marry the result of the analytics that we create.

We have our own analytic forums. We have our own analytic views. We have our own results that are unique, we think, coming at it from more of a capital foundation standpoint. And so we use our own results to try to influence and guide the potential surety provider.

Q How, if at all, do the analytics that you compile or

Page 4722
prepare ultimately affect or get shared with the surety underwriter?

A Well, we -- many times we just show them our results versus where we know they are going to end up. And it differs tremendously from accounting GAAP, for example. So we are -- we know what each surety is going to focus on, and for the need that we are asking for, within a range.

Q In terms of the sharing of financial information between you as the surety broker and the surety underwriter, would it be fair to say there is an open line of communication going back and forth between both of you?

MR. AMER: Objection. Leading. THE COURT: Sustained.
Q In terms of the communications that you have with the underwriter, the surety underwriter and you as a surety broker, how often do you share information, generally, with regard to the client's finances?
A Each financial statement, those standards are generally established and are flexible between sureties as to the surety need and the reporting period. So if you are a big user of surety, you might be required to report quarterly. Some would be required semiannually, annually. It doesn't -- and then we would -- we would do all the analytics around the financial piece and/or any other piece that we need; capability, maybe. And we would -- we would not share anything with sureties before

we did all those analytics.
Q And how long have you been in the surety business,
generally?
A Fifty years this year.
Q Do you know Donald Trump?
A Yes.
Q How do you know him?
A Golf.
Q You met him on the golf course?
A Yes, sir.
Q Do you have a relationship with Donald Trump still?
A Yes.
Q Personal and professional?
A Yes.
Q As personally, what do you consider him?
A Play golf with him occasionally; have lunch with him occasionally. Belong to a bunch his clubs, so.
Q How about professionally?
A So that was new. Um, not that I didn't want to have one earlier. There's always competitive pressures in relationships, so it took a while, somewhere around ' 17 , '18, because of some things that occurred in D and O for him, I was asked to intervene, I did solve that. And then -- and '21, around February, March we were appointed broker and took over from another competitor.

Page 4724
Q So are you currently The Trump Organization's broker for insurance?
A Yes.
Q How long have you known Donald Trump?
A Late '90s.
Q Could you describe what kind of insurance your company
places or assists in getting placed for the The Trump
Organization?
A Sure. So we have placed all the property cover and all of the casualty cover, general liability, Workers' Compensation, automobile, umbrella liability, it's quite a large diverse amazing organization, so it requires a lot of effort. And we do all the engineering, we do all of the claims handling, monitoring, pay -- arranging carrier payments, and thankfully he doesn't have very many claims, so.
(Continued on the next page.)

Q Have you also done any surety work for the Trump Organization?

A Yes. We took that over at roughly the same time.
Q Is the property market or the property liability the largest subset of a type of insurance that you assist in getting placed for the Trump Organization?

A I am not sure I understand your question.
Q Sure. About how big is the property line of work -of insurance?

A Meaning premium size?
Q Yes.
A Round numbers, 6 million.
MR. AMER: Can I get a clarification? Is that
casualty property.
A Just fire, wind, storm, direct damage to properties and/or the business interruption aspect of that would be considered property.

Q What size -- withdrawn.
When compared to your personal book or business, where does the Trump Organization and President Trump's business fall in terms of scale and size?

A Against my personal book?
Q Your personal book and business.
A Somewhere between 9th and 12th largest, probably somewhere there.
lietti - by Defendant - Direct (Fields)
Page 4726
Q And then do you have a sense for -- with regard to the company's book of business where the Trump Organization falls?

A No. I -- we have \(\$ 4\) billion of revenue. It is a reasonably sizable account, and generates income for us over a million, roughly, plus or minus. And it wouldn't be small, but it is not large. And it has very few claims because of the quality of the products he puts out, and therefore it is quite profitable from that regard.

Q All right. Are you being compensated for being here today or for any opinions or testimony that you will give in this case?

\section*{A No.}

Q Not directly compensated by the defendants or by the Trump Organization for your testimony, but your company receives money to place insurance; is that fair?

A Yes. Properly said, this would be included in our overall relationship year over year.

Q But has anybody in any way promised you more business for anything you are doing here today?

A No.
Q Are you generally familiar with some of the allegations in the Attorney General's complaint with regard to surety?

A Generally.

Q And are you generally familiar with the surety bond program that is described in the complaint with regard to Zurich Insurance?

A Yes.
Q Have you had the opportunity to review documents, Zurich documents, related to the surety program for the Trump Organization?

A Yes.
Q And I won't ask you your opinions, I am just going to ask you if you have formed opinions with regard to the surety program that Zurich underwrote for the Trump Organization?

MR. AMER: Your Honor, if we are going to now start down the road of eliciting opinions, can we understand what his area of expertise for purposes of his qualification is going to be?

THE COURT: Well, just speaking generally, if we are going to have expert opinions someone has to be deemed an expert. The witness has to be deemed an expert.

MR. FIELDS: That was my next question, Your Honor. That was going to be my next question with regard to insurance brokerage and underwriting. When I say "insurance" I mean suretyship, brokerage and underwriting.

THE COURT: Why don't we start here on a clean slate. Ask your question.

MR. FIELDS: Well, the question at this point

Page 4728
was not to provide what his opinion was, if he has formed one, but has he formed an opinion with regard to the surety underwriting program that Zurich underwrote for the Trump Organization.

THE COURT: Doesn't he have to be deemed an expert first before you ask him an expert opinion question.

MR. FIELDS: That was my - I was not going to ask him what his opinion was until I say, Your Honor, I tender the witness as an expert in surety underwriting and brokerage. But we can do it however Your Honor would like.

THE COURT: That's not a personal preference. It is just how I think things work.

MR. FIELDS: Understood.
THE COURT: Okay.
MR. FIELDS: So I tender the witness as an expert in surety underwriting and brokerage.

MR. AMER: I think brokerage is fine, Your Honor. I think in terms of underwriting, this witness hasn't indicated experience that would qualify him as an insurance underwriter or asurety underwriter. He has worked almost all of his entire career for a brokerage firm.

MR. FIELDS: If the Court would like to ask him,

\section*{I am happy to ask about his.}

THE COURT: I'll ask the witness to respond to Mr. Amer's concerns. But speak right into the mic.

THE WITNESS: You are asking my expertise?
MR. AMER: No. I just said based on your work experience, other than I think it was two years at the very beginning of your career, you have been a broker, not -- you haven't worked for an insurance company either underwriting or handling claims, as far as I can tell.

THE WITNESS: So my answer would be that a lot of the -- our compensation, is based on our results. And carriers look to us and our reputation to stand with the client and their reputations. I underwrite the financial side of the clients along with our in-house underwriters, long before we give it to the sureties. We know what they want. I have probably done six, \(\$ 800\) billion of underwriting. There is very few people like me in the country. I -- the Big Dig in Boston, the large projects in New York City. I have underwrote all of those. I have arranged the financial analysis. I have worked with the banks of the clients, and prepared it for the surety to have an easy time subscribing to their need. I don't think there are four people in America that have my qualifications to do what I do.

THE COURT: Well --

Page 4730
MR. AMER: Can I have a couple of voir dire questions?

THE COURT: Of course you can ask some questions.
VOIR DIRE EXAMINATION BY MR. AMER:

Q Lockton and Willis where you worked, those companies are licensed to be brokers in New York by the Department of Financial Services, correct?

A Correct.
Q They are not licensed to be insurance companies, correct?

A That's true.
Q They don't have paper that they issue insurance policies on, correct?

A That's not true.
Q Well, they are not licensed to issue paper in New York; is that true?

A So Willis owns carriers and are licensed to place business.

Q That wasn't my question. You worked for Willis, the brokerage house, right?

A Yes, but I also had licensing with the carriers and influenced the carriers.

Q And you are not a CPCU or certified property casualty
underwriter, correct?
A No, I am not.
Q And you don't have any designation as an underwriter in the insurance industry, correct?

A Well, I think the six or eight biggest CEOs of insurers would disagree with you.

Q I don't think that was my question. My question was --

A You are sort of insulting me. Aren't you?
Q No, I -
A I think so. Because there are very few people like me in the industry.

MR. AMER: Your Honor, my objection to the breadth of his qualification stands. This witness is not an insurance underwriter and he hasn't spent his career working for an insurance company.

THE WITNESS: Shouldn't I know the underwriting criteria of each of the carriers I do business with and try to influence that thought?

THE COURT: Let me --
MR. AMER: Your Honor, I ask you not to have the witness comment --

THE COURT: I am sorry.
MR. AMER: -- when I am addressing the court.
THE COURT: It may not be a fair process, but

Giulietti - by Defendant - Voir Dire (Amer)
Page 4732
the rule is you don't ask questions, you answer questions.
THE WITNESS: Sorry.
THE COURT: Mr. Robert?
MR. ROBERT: I'll hold off.
THE COURT: I don't understand something.
Witness, I won't try to mispronounce your name, you said that you underwrite insurance. How can you underwrite insurance if you are not an insurance company? Aren't insurance companies the only companies that can underwrite insurance?

THE WITNESS: Well, good brokers do the underwriting as if they were carriers and present the case after we have qualified the risk. In the world I live in, you have to do that to have any reasonable result for your client, so you need to know the process. Most every technical person that works for us, or me directly on my deal teams, have been with carriers. And we tee up the result so it is easily acceptable to the carrier in a manner that they can digest it and/or puts the client -the potential client, in the best light. So we are doing the underwriting, they end up taking the risk.

THE COURT: Well, there is another interesting question of language.

I think I understand all of that. You sort of put together the deal and say, hey, insurance company,

1 this is what we think you should do; and they either

Page 4734
accept it or they don't. That's your role as a broker. Did I get that right?

THE WITNESS: Yes, sir. Sometimes, about 30 percent of the times I would argue, maybe more, we are agents for the carrier and therefore are the carrier in those moments. So, in essence, when I am an agent for a carrier and some big ones like Chubb or Zurich or some others, we are actually acting as agent. And as agent, I could theoretically bind the property cover on a burning building. I don't, but I could.

THE COURT: And Mr. Fields, I am sorry to ask
you to repeat. What are the areas that you would like me to deem him an expert in?

MR. FIELDS: Surety underwriting and surety brokerage.

MR. AMER: So, insurance, as I am sure Your Honor understands, is one of the most heavily regulated industries in the country. The Department of Financial Services licenses companies to do specific things. They license brokers, they license insurance companies. And so I -- I don't think it is appropriate to qualify this witness as a surety underwriter if he is not -- if he doesn't have any work experience working for the companies that the Department of Financial Services authorizes and
licenses and regulates with respect to underwriting. So I think the appropriate field is to qualify him as a surety broker, and if he wants to explain how, in that capacity, he puts together material that insurance companies then use, I don't have any problem with that. But we are talking about a very heavily regulated industry where specific licenses are issued and specific companies are regulated for what they do.

THE COURT: I don't think you need a license to be an expert. I hereby deem him an expert in surety underwriting and surety brokering.

Is that what you asked?
MR. FIELDS: Yes, Your Honor. Thank you.
THE COURT: All right. I have deemed you an expert in both of those fields. So you don't have to be insulted.

THE WITNESS: Thank you.
CONTINUED DIRECT EXAMINATION BY MR. FIELDS:
\(Q\) What is a surety?
MR. AMER: Again, I really wasn't trying to
insult the witness, to make it clear.
THE WITNESS: It is okay.
THE COURT: I have known him for a long time. THE WITNESS: After 50 years, you know.

THE COURT: Only through this case, he wouldn't want to insult anybody.
\(Q \quad\) What is a surety bond?
A Very broad question. It could be a number of things. It could act as anything from a letter of credit guaranteeing a -- the performance of a contract.

Q And generally are there three parties to a bond, surety bond?

A Usually two.
Q Well, who are the parties?
A The parties are the obligee, obligor. So one would be the -- let's say you work for the State of New York, the DOT or something. The DOT would be -- would hold the risk -- the surety bond. And it would be provided by some contractor or depending on what type of work is being done.

Q Are you familiar with the term, "guarantor"?
A Yes.
Q And what is a guarantor?
A That would be who the at-risk capital and/or signatory to the bond.

Q So is it somebody who guaranties the bond?
A Yes. And the surety language for that would be an indemnitor.

Q An indemnitor.
In your experience are indemnitors companies

Giulietti - by Defendant - Direct (Fields)
Page 4736
individuals or both?
A Both.
Q More frequent for them to be individuals or companies?

A Depends on the type of business. So since we are focused on real estate, a real estate generally is somewhat arm's length. I would say generally you don't have too many personal signatures at all, just some corporate level entity.

Q All right. Are you familiar with some of the, generally, the bonds that Zurich underwrote for the Trump Organization?

A Sure.
Q So just generally speaking, who is the surety for -in these transactions?

A Well, in that case Zurich would be the surety.
Q And who is the principal?
A The guarantor was Trump.
Q Okay. But the guarantor/indemnitor was Trump, was there a principal, as in one of the entities, that obtained the bond Trump Organization entity?

A Sure. But as I recall the overriding relationship was quite unusual for someone this size. He guaranteed it personally, which I find quite amazing.
\(Q \quad\) Why do you say it was unusual?
A It is unusual. It just doesn't happen that much.

Page 4738

\section*{estate?}

Q Sure.
A Because there is all kinds of industries. And there is all kinds of, therefore, guarantees and relationships. In real estate you would be -- real estate underwriting you would have to get by, does the man have character and integrity. You would have to get by, capability, can he build and develop and/or manage property. And then finally, you would look at the financial analysis. And the financial analysis you would look at operating results and liquidity over anything.

Q Do surety underwriters generally require some sort of financial information before underwriting a bond?

A Yes.
Q And in what forms is that financial information generally provided?

A Generally financial presentation by their accounting firm.

Q And are you familiar with the accounting standards of review?

A Sure. So, any significant surety would require a full audit, and an exception to that would be an accommodation.

Q In this case do you know, from your review of the documents, whether the Trump Organization provided audited financial statements to Zurich Insurance?

A I did not see audited financial statements anywhere.

Q What did you see?
A Compilation.
Q And in your experience, is it usual or unusual for the surety underwriter to rely on compilation financial statements?

A Any surety, including Zurich, would give no credence to compilation.

MR. AMER: I am going to object, Your Honor, and move to strike as to what Zurich did or didn't do.

MR. FIELDS: Well, he is an expert and we can ask how he knows that.

MR. AMER: He can't know specifically what Zurich did or didn't do. He can speak generally.

MR. FIELDS: I think that's what the comment was intended.

MR. AMER: He said, and I am quoting: "Any surety, including Zurich, would give no credence to compilation." I don't know how he has the ability to opine on what was in Zurich's mind.

MR. FIELDS: I think --
THE COURT: Overruled.
I think he answered the question, right?
MR. AMER: I don't think so. I don't think he did.

THE COURT: I think he did.

Q Do you understand what the term "liquidity" means, Mr. Giuliette?

A Yes.
Q How does liquidity factor into the surety underwriting business?

A Heavily. The standards in surety are different than GAAP. So, you have working capital analytics. You have two determinations on the balance sheet: You have the balance sheet equity; and the balance sheet liquidity. Liquidity as defined by an accounting firm would be working capital, current assets minus current liabilities. Sureties don't look at that. Sureties, it is a starting point. And so what sureties do is they look at liquidity available in 12 months to cover any and all obligations that might be outstanding to the sureties. And so working capital differs from GAAP by a number of standards.

And without boring the Court I'll give one example of what that standard could be. Life insurance cash value, which everyone I think here probably understands, would be something available to an insured, life insurance, in a short period of time, week, ten days at the most. And therefore it is carried below the line in GAAP, but it is as a long-term asset. But in surety underwriting they move it above the line and make it part of working capital.

And then there is the reverse. There is a reverse in that bank debt could be carried above and below the line,
without getting too complicated around that issue. It exchanges the liquidity tremendously.

Q Does overall net worth factor into the surety underwriting process?

A Sure. You would want to have balance sheet equity that is adequate enough to carry the operating company's risks, including debt, and debt vehicles.

Q How about asset structure?
A Well, specific to real estate, surety wouldn't spend a lot of time on assets at all, because they do not generate liquidity. In this particular instance the outstanding surety plus or minus 14,15 million most of the time in that period of time. So there is very little requirement liquidity-wise even for that. Right?

So but you would have to look at any negative potential draws. An extreme example would be a real estate company that is in financial trouble. And what is the outstanding debt obligation over a 12 to 24 -month period because of that trouble. And just because you have cash doesn't mean you have liquidity. You could owe on a payable in the next six to 12 months way more money than you have on a cash basis at that moment in time.

Q And I should have mentioned something earlier. I haven't asked for any opinions yet, but to the extent you do give any opinions today, Mr. Giuliette, I ask you give them to
want all of the operating company's statements; you want to analyze all of the operating company's statements; you want to confirm what debts are going to be owed over the next 12 to 24 months; what income you anticipate; what is the projections of profitability; debt-to-worth ratios; debt-to-debt covenant ratios. All of the -- and the financial footnotes around that so you can make a determination as to what is at risk versus what is coming into the door, liquidity wise.

Q And in your experience, when a surety underwriter underwrites a bond, do they generally go through those ratios that you just described?

A If, yeah, 100 percent of the time we -- sorry.
Q Are you familiar with the term an accommodation?
A Yes.
Q What does that mean?
A It means either for the client or the broker an insurer, surety company, will make an accommodation, grant something that is outside of the ordinary.

Q And what is the purpose of the accommodation generally?

A Provide a product with minimal, no underwriting.
Q Is there hopefully a benefit to the surety for providing an accommodation, in the general sense?

A Yes, or a relationship, or the broker -- many reasons.

Giulietti - by Defendant - Direct (Fields)
Page 4742
a reasonable degree of professional certainty. Okay?
A Yes, sir.
Q How does the leverage on assets for a real estate company factor into the surety underwriting process?

A Well let's leave Zurich off the table for a minute. But the entire industry struggles with debt. It is not good at understanding debt. It is not -- it struggles to understand real estate and debt. So they tend to ignore that and completely focus on liquidity.

Q Is there, generally, some form of an analysis or a financial profile ratio that an underwriter comes up with before underwriting a surety bond?

\section*{A Sure.}

MR. AMER: Objection, leading.

\section*{THE COURT: I'll call it foundational.}

Overruled.
A So a conservative deal would be that you could get \(\$ 10\) of surety credit for every dollar of liquidity. That's a conservative deal. There are some that are much more 30,40 , 50 times that. But a real estate deal like this probably one in ten.

Q But generally speaking, what metrics or what financial analysis does the surety do before agreeing to underwrite the bond?

A If it was doing the complete financial analysis you

Gi

Page 4744

Q Business development?
A Business, all commercial benefits.
Q How common is an accommodation in the surety bond industry?

A Rare.
Q How does the -- withdrawn.
How does an accommodation tend to affect the underwriting process?

A Well, it would mean that it would be minimal, at best. I mean, you are accommodating somebody's need.

Q I am going to use a loose term, but would an accommodation be akin to, like, a favor in a way?

MR. AMER: Leading, Your Honor.
A An accommodation is a favor.
THE COURT: Overruled.
Was there an answer?
MR. FIELDS: Yes, there was.
THE COURT: The answer was yes?
MR. FIELDS: The answer was: An accommodation is a favor.

THE COURT: Okay.
MR. AMER: He adopted the question.
THE COURT: Which I know is why we don't like leading questions, but, come on.

MR. AMER: I think we are beyond background,
Giulietti - by Defendant - Direct (Fields) Page 4745

Page 4746
A Yes.
Q And is it common for indemnity agreements to require some sort of financial disclosure from the indemnitor?

A The indemnity agreement itself does not generally. Sometimes rarely does it specifically say that you had to do certain things because of the program and the size of the program, but generally, no.

Q And in this case did the indemnity agreement require financial disclosure of President Trump to Zurich?

A The indemnity agreement did not.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
Giulietti - by Defendant - Direct (Fields)

Q Do you have a sense for when the surety business between the Trump Organization and Zurich Insurance began?

A Yeah. I think it was '11-- it might have been before the historical record I reviewed according to some of the management at Zurich. I believe it began in the ' 05 , \({ }^{\prime} 06\), ' 07 , '08, '09 era.

Q Prior to that, did Zurich Insurance write any insurance for the Trump Organization?

A My understanding is, yes.
Q At some point did the Zurich insurance program cease and a surety program continue with the Trump Organization?

A Yes.
Q And I think you said that was approximately 2011?
A No, I think that was a little later maybe '14, '15? I could be wrong.

Q We will put some documents up.
And did -- was there an indemnity agreement with
Zurich Insurance where somebody indemnified bonds?
A It was always an indemnity agreement.
Q Who was the indemnitor?
A Donald Trump.
Q Did you have an opportunity to review the indemnity agreement?

Your Honor, but I understand. That's fine. MR. FIELDS: All right.

Q Is it customary in the industry for sureties to want to review financial information in the underwriting process?
A If he wants bonds, yes.
Q All right. Mr. Giulietti, I'm going to just ask you for your ultimate opinion, and then we'll walk through some documents to help explain to the court what your opinion is.

But as it relates to the relationship between Zurich
and The Trump Organization, do you have an opinion as to why
Zurich was engaged in doing underwriting surety bonds for Trump?
A Yes.
Q What is that opinion?
A They were accommodating -- going backwards, not currently. Currently we are the broker, and we place bonds for Zurich, for Trump.

In the past, it seems they were just accommodating the broker and/or Trump. No way to know for sure who.

MR. FIELDS: Okay. Can we pull up defense 43.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Giulietti, I'm going to show you a series of documents, I believe you reviewed some of these as part of your expert report that you wrote; is that fair?

A That's fair.
(The witness was handed the exhibit.)
Q All right. Do you recognize Defense 43 that's in front

Page 4748

\section*{of you on the screen or in your hand?}

A Yes.
Q What is does this appear to be?
MR. AMER: Your Honor, hang on a second. I'm going to object to any testimony about underwriting that took place before the 2019 renewal.

Our insurance fraud claim is based on the renewal in 2019 and in 2020 by Claude yeah Mouradian, so I don't understand the relevance of reviewing the underwriting of this risk by a different underwriter, Ms. Caulfield, in earlier years. It's got nothing to do with our insurance claim.

MR. FIELDS: Your Honor, it's important for the Court to understand how this all came about and why Zurich Insurance was ultimately writing these bonds. So that's the whole purpose, is to provide a brief foundation for the Court to just understand where this all came from.

MR. AMER: We are going back to 2009.
MR. FIELDS: Frankly, we went back to 2009 with other lending documents, too, and Im not understanding why we are now limiting ourselves to a moment in time.

THE COURT: Overruled. But I hope we could move through this fast, because we have a lot of years to cover.

MR. FIELDS: Certainly. I don't intend to go year by year, your Honor, absolutely not.

\end{tabular}
G. Giulietti - by Defense - Direct (Mr. Fields) Page 4754

MR. FIELDS: Under the personal financial analysis section.
(The exhibit was handed to the witness.)
MR. FIELDS: The last bullet point.
(Whereupon, the exhibit was displayed on the screen.)
A According to Forbes?
Q Yes. Do you see that it says "According to Forbes, Donald J. Trump's personal net worth is estimated a 3.2 billion. He is number 128 on the Forbes 400 list of wealthiest individuals."

Do you see that?
A Yes.
Q In your experience, have you encountered underwriters that rely on media publications to support underwriting decisions?
A This is the first one I ever saw.
MR. FIELDS: If we could zoom back out in -- under
the surety program heading, the last two bullets.
(Whereupon, the exhibit was displayed on the screen.)
A The same document?
Q It will be on the screen here for you if it's easier.
A Okay.
Q The last sentence beginning with "Also" in the second

1 to last bullet point. "Also, the accountants failure to provide updated underwriting information prohibits us from taking on any new liability."

Do you see that?
A Yes.
Q Below that it says, "Bonds already written may continue
to renew as an accommodation to Aon New York?
A Yes.
Q Does that term "accommodation", is it your
understanding that's the same term you've been using here today, an accommodation?

A Yes.
MR. FIELDS: And on the last page, page four. (Whereupon, the exhibit was displayed on the screen.)
Q Does it appear that at this moment in time the program limit aggregate is \(\$ 1\) million?

A Yes.
MR. FIELDS: If we could pull up Defense 48.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
THE WITNESS: Thank you.
Q Under the personal financial analysis section, the third bullet beginning with the "Press release", do you see that

Giulietti - by Defense - Direct (Mr. Fields)
Page 4756

\section*{it references USA Today?}

A Yes.
Q And it goes on to describe detailed reports regarding
ownership positions. Again, is this citation to a media
publication consistent or inconsistent, in your experience, for surety underwriting?

A Inconsistent.
Q If we could just -- the second bullet right above it.
Do you see where it says, "When Zurich lost the insurance program in May of 2011, I performed an on-site review of Trump's personal financial statements. This option was represented as
an option in June of this year due to the increased bond needs, but has yet to be scheduled."

Do you see that?
A Yes.
MR. FIELDS: If we could flip to page four. (Whereupon, the exhibit was displayed on the screen.)
Q Do you see at the bottom that the aggregate program limit is now \(\$ 3\) million?

A Yes.
Q Did it appear to you that the program was expanding, meaning that Zurich was writing more bonds without reviewing updated financial information?
A It's what it seems.
\begin{tabular}{|c|c|c|}
\hline & Giulietti - by Defense - Direct (Mr. Fields) Page 4757 & G. Giulietti - by Defense - Direct (Mr. Fields) Page 4759 \\

\hline 11 & THE COURT: Mr. Amer, how long will you need? & 11 A Yes. \\
\hline 12 & MR. AMER: I would hope 20 minutes I could get & 12 Q And you are the person with the primary responsibility \\
\hline 13 & through my cross. & 13 for Lockton's business relationship with The Trump Organization; \\
\hline 14 & THE COURT: Can we finish in five on this? & 14 correct? \\
\hline 15 & MR. FIELDS: Yes, your Honor. & 15 A Yes. \\
\hline 16 & THE COURT: Perfect. & 16 Q And as a partner in Lockton, you have an equity share \\
\hline 17 & MR. FIELDS: May I have a moment to confer with & 17 in the business; right? \\
\hline 18 & Mr. Robert? & 18 A Correct. \\
\hline 19 & THE COURT: Say it again & 19 Q And your compensation, based on your equity share in \\
\hline 20 & MR. FIELDS: May I have a moment to confer with & 20 the company, is directly proportional to the properties earned \\
\hline 21 & Mr. Robert? & 21 by the company; right? \\
\hline 22 & THE COURT: Sure, but that's part of your five & 22 A Correct. \\
\hline 23 & minutes. & 23 Q And in addition to your equity share, you also receive \\
\hline 24 & MR. FIELDS: Certainly & 24 a percentage of the business that you do based on the clients \\
\hline 25 & MR. ROBERT: I think it will be less than five. & 25 you are responsible for; correct? \\
\hline
\end{tabular}

1 A Largely.
2 Q And one of the clients you are responsible for is the Trump Organization; right?

\section*{A Correct.}

Q And Lockton is currently the broker of record for The Trump Organization for all property and casualty lines of insurance worldwide, which encompasses quite a large number of policies; right?
A Absolutely, yes.
Q And when Lockton places an insurance policy for The Trump Organization as broker of record, Lockton earns a commission that is between 10 to 20 percent of the net premium due on the policy; is that right?

A Less, but largely. Ten to 15 percent would be fair.
Q For 2022, Lockton earned approximately 1.2 million in commissions on The Trump Organization account; right?

A Roughly, yeah.
Q And just to confirm what I think you testified to on direct, you are not submitting any invoice for your time spent as an expert witness in this case; correct?
A Correct.
Q And that's because you consider your service as an expert witness in this case to be included in the business relationship that you and Lockton have with The Trump Organization; correct?
G. Giulietti - by Defense - Direct (Mr. Fields)

Page 4762

\section*{A True.}

Q And it's not wrong to say that your work as an expert witness is wrapped up in the compensation that Lockton receives from The Trump Organization through its business relationship; correct?
A I think - yes.
Q You are aware that Joanne Caulfield was the Zurich underwriter who handled the account from at least 2011 through 2017 when she left Zurich; right?

A That's what the documents say.
Q And all of the underwriting reviews that you were shown on your direct predate 2017 when Claudia Markarian, now known as Claudia Mouradian, took over the account; right?

A My understanding, yes.
Q So you are aware that Ms. Mouradian was the underwriter on the account from mid 2017 until about 2020 ; right? A Yes.
Q And I'll represent to you that Ms. Caulfield was interviewed by our office in 2021 and gave answers under oath, and then she was deposed in the case in April 2023.

I'm correct that you did not receive or review any of her sworn testimony from either the 2021 interview or the 2023 deposition in forming your opinions in this case; correct?

A At the time of the deposition, that's true. I since have read it.

Page 4764
Q But in terms of when you formed your opinions in this case for purposes of the report that you submitted, you had not reviewed any of her testimony?
A That's correct.
Q Okay.
And so you gave no consideration to Ms. Caulfield's sworn testimony when you formed your opinions for the report in this case; correct?
A Yes.
Q And I'll represent to you that Ms. Mouradian was interviewed by our office in 2021, under oath, and was also deposed in this case in June of 2023.

And I'm correct that you did not receive or review any of her sworn testimony from either the 2021 interview or the 2023 deposition in connection with forming your opinions in this case that are in your report; right?
A Correct.
Q And are you aware that Ms. Mouradian, Ms. Caulfield reported to a woman named Chandar Potter while at Zurich?

A Sure. I do business with her.
Q And I'll represent to you that Ms. Potter was deposed in this action in May of 2023. I'm correct you did not receive or review her deposition testimony in forming your opinions in this case?
A I have never seen that one.

Q So you gave no consideration to Ms. Potter's sworn testimony in forming your opinions; correct?
A Correct.
Q And it's your view that the sworn testimony of Ms. Caulfield, Ms. Mouradian and Ms. Potter is not relevant to your assessment of how Zurich underwrote The Trump Organization surety program; right?
A I'm sorry, I didn't understand or I didn't hear, maybe.
Q Sure. It's your view that the sworn testimony of Ms. Caulfield, Ms. Mouradian and Ms. Potter is not relevant to your assessment of how Zurich underwrote The Trump Organization surety program; right?
A Prior to my expert report and my expert report, that would be true. Now I've read Ms. Caulfield's and I have a different opinion, but okay.

MR. AMER: Well, let's go ahead and put up your deposition testimony at page 89 , line 25 , to page 94.
(Whereupon, the exhibit was displayed on the screen.)
Q Where I say in there sworn testimony is a reference to those three individuals. The question was:
"QUESTION: And their sworn testimony, in your view, would not have been relevant to your assessment?
"ANSWER: Correct."
So at the time of your deposition --
    A Yes, sir.
    Q -- your view was --
    A I'm sorry, I --
    Q -- it's not relevant to your assessment?
    A I agree. I agree.
    Q Okay.

To the extent that Ms. Caulfield described what her thought process was in reviewing the financial information she was provided with by The Trump Organization during her interview and deposition, that's not something that you took into account in preparing your expert report; correct?

\section*{A Correct.}

Q And to the extent Ms. Mouradian described in her interview and deposition her thought process during the underwriting, that's not anything you read or took into account in preparing your report; correct?

\section*{A Correct.}

MR. AMER: Let's put up Exhibit 773, which is in evidence.
(Whereupon, the exhibit was displayed on the screen.)
Q This is the 2018 Statement of Financial Condition. You reviewed and relied on this document in forming your opinions; correct?

A I looked at all those years, yes.
G. Giulietti - by Defense - Direct (Mr. Fields)

Page 4766
\(1 \quad\) Q And is it -- am I correct that it's your opinion that at no point during the surety program did Zurich do any real financial analysis, but rather this was all based on, to use your phrase at the deposition, "air balls and witchcraft"?

A Yeah, true.
Q As part of the financial analysis, it's your view that Zurich could have requested appraisals be done on every property; is that right?

A They could've asked for whatever they'd like to write the program. Sure, anybody could.

Q Including appraisals on every property?
A Yeah, if they want, of course.
Q And as part of a financial analysis, it's your view that Zurich could've insisted the type of tests that an auditor would conduct on a financial statement; is that right?

A Could you repeat that.
Q Sure. As part of a financial analysis, it's your view that Zurich could have insisted on performing the type of tests that an auditor would conduct on a financial statement?

A Yes.
Q Now, you understand that the Trump Organization is a privately held company that has no obligation to publicly file financial disclosures; right?

A Correct.
Q In terms of Zurich's -- in terms of the Zurich's

1 underwriter's ability to confirm that the property valuations in 2 the statements -- let me withdraw that. I'll start again.

In terms of Zurich's ability to confirm the property valuations in the statements on their own, other than asking The Trump Organization to provide additional information, the Zurich underwriter would have no access to any publicly available sources that are reliable that would have enabled Zurich to do that; correct?
A They could've. They had to choose to.
MR. AMER: Let's look at your deposition testimony on page 128 , line six, if we could.
(Whereupon, the exhibit was displayed on the screen.)
Q "QUESTION: In terms of Zurich's ability to confirm these property valuations on their own, other than asking The Trump Organization to provide additional information, including possibly appraisals" --
A Did you say "additional information" before when you asked my question -- prior question.
Q I did.
A Well, then, I amend my answer, yes. They could ask for additional information.
Q But that's not the whole question.
A Okay.
Q So let me read the question.

Page 4768
THE COURT: Let him read the whole question.
Q "QUESTION: In terms of Zurich's ability to confirm these property valuations on their own, other than asking The Trump Organization to provide additional information, including possibly appraisals, Zurich would have no access to any publicly available sources that are reliable that would enable them to do it; correct?"

Your answer, "I agree with that."
So you stand by that testimony; correct?
A Yeah. They should have asked if they wanted it.
Q And you are agreeing that there's no publicly available information beyond what they might get through nonpublic sources, which is Trump Organization?
A Well, it's a private company, right, so there's no public sources.

Q You know, we discussed that in your opinion you agreed that Zurich's underwriting account was based on "air balls and witchcraft." Again that's your terminology.

I'm just asking --
A They did seven bonds for me with nothing. I mean, it's just consistently nothing.

Q Well, I'm not asking about what they are doing now. I'm just asking about your opinion of what they did in the past.

A Well, I think what they do -- isn't what they do today consistent with what they did in the past? Isn't that germane?

MR. AMER: Your Honor, can I be allowed to ask the questions.

THE COURT: Witness, I appreciate the possible frustrations.

THE WITNESS: Sorry.
THE COURT: But if you don't want to come back Monday.

THE WITNESS: Sorry.
THE COURT: Go ahead and ask the question, Mr. Amer.
(Continued on the next page.)

MR. AMER: That has to be the best incentive I have ever heard to get the witness to wait for the question to be asked.
Q So, my question, again, is simply to confirm, it is your opinion that Zurich's underwriting of the account in the past was, as you said, based on "airballs and witchcraft" correct?

A Yes.
Q Are you aware that defendants have designated another insurance expert in addition to you, a gentleman named David Miller?

A I heard they have another expert. I don't know his name.

Q I want to ask you a question about something that is in his report, it is -- we will put it up on the screen. I can share a copy with you.

MR. AMER: It is available, Your Honor, at
NYSCEF 1434.
(Handing)
THE WITNESS: Thank you.
Q I am just going to ask you about paragraph 13, which is on page four. I am going to put it up on screen. It is under the section that is labeled Opinions 1 and 2. And I am just going to read you the sentence and ask you for your comment on it, about whether you agree or disagree with it.
"Zurich made a competent business decision to underwrite the Trump Organization's business as an exception to their normal guidelines based on reasonable risk factors, such as the sufficient -- such as the sufficient liquidity of the Trump Organization to indemnify Zurich should a loss take place."

Do you agree or disagree with that opinion, sir?
A Hm, um, I -- I -- I don't know anything about Mr. Miller. I don't know if he has ever placed --

Q I didn't ask you --
THE COURT: You don't need to know about
Mr. Miller.
Q Do you agree with this opinion?
A No, I disagree.
Q Yes or no?
A I disagree.
Q Thank you.
MR. AMER: Now, let's put up Plaintiffs Exhibit
1552 in evidence.
(Handing)
MR. AMER: Let's go to page one of six.
Q By the way, this is a document you have seen before, correct?

A Yes.
Q And let's go to the fourth bullet on the first page.

Giulietti - by Defendant - Cross (Amer)
Page 4772
And the paragraph that starts Total Assets. I am just going to read to you the second sentence. It says: "The fair value of the properties is determined by professional firms (such as Cushman \& Wakefield) using cap rates and net operating income as factors."

For purposes of forming your opinions, you did not take into account Ms. Mouradian's note that she had been advised during the on-site review about how the fair value of the properties was determined, correct?

A Yes.
Q Last series of questions, sir.
Am I correct that it is your expert opinion that surety is not insurance?

A Yes. It is a guaranty. It is not necessarily an indemnity-based contract, except for the guarantor.

Q Is it your opinion that surety is not insurance; yes or no?

A It is not a yes or no answer.
Q Is it your opinion that surety bonds issued by Zurich for the benefit of the Trump Organization under the Zurich Surety Program, were not insurance?

A Well, the guaranties issued by an insurance company, which is really a credit facility, so anything an insurer issues is technically insurance, but it is underwritten like credit. The point is that the underwriting process is a credit
underwriting, versus the property Zurich insures, the property of Mr. Trump, first 400 million. And their underwriting would be completely different, non-commercial, non-financial. Except for the fact that you want to make sure they are in reasonable financial condition.

Q Simple question, because I thought I heard you say surety is not insurance. Is it your expert opinion --

A Well, a guaranty crosses over --
Q I need to finish my question, sir.
A There is no yes or no answer. You are asking me a question that can't be answered. So, I can't answer the question.

Q Okay. You are aware, certainly, that the business of insurance in the State of New York is governed by the New York Insurance Code, right?

A Yes.
Q You are not suggesting, are you, that as far as the New York Insurance Code is concerned, surety bonds are not insurance policies, are you?

A Honestly don't know who governs it. It probably comes under the insurance licensing, I assume. I don't know, to be honest.

Q Well, let's put up a decision in the case of In re:
Frontier Insurance Company.
MR. AMER: This will be my last series of

Giulietti - by Defendant - Cross (Amer)
Page 4774
questions. So I'll be well within the time limit, Your Honor.

MR. FIELDS: Your Honor, I object to relevance and lack of foundation. And it is going to call for a legal conclusion from someone who is not an attorney.

MR. AMER: He is offering an opinion about whether a surety is insurance or not. This is fair game, Your Honor.

THE COURT: And his answer is, it can't be answered yes or no.

MR. AMER: That's his opinion. I am going to show him something.

THE COURT: I'll let you show him something. It is a Judicial opinion?

MR. AMER: It is something I am going to ask the Court to take judicial notice of. It is a Judicial opinion.

We can go right to the last line. Let's just put it up on the screen. If we can go to page six. Q The top full paragraph. The fourth line from the bottom -- sorry, the fifth line from the bottom.

See it says: "And there is no question that a surety bond is a contract of insurance under New York Law."

You don't dispute that, do you?
MR. FIELDS: Objection, renewed objection.

THE COURT: Overruled. He can show him anything he wants. He is not asking for a legal opinion. He is asking --

MR. FIELDS: Your Honor, respectfully he is asking if he disputes it, which is calling for a legal conclusion from somebody who said he can't answer the question yes or no.

THE COURT: If you want to object to asked and answered, overruled. And overruled, he is not asking for a legal opinion. You can take that statement out of context and just say, do you agree or disagree.

MR. AMER: But I would like the Court to take judicial notice of the case.

THE COURT: I'll take judicial notice of the opinion.

MR. AMER: I would like the witness's answer.
THE COURT: Ask the question more time.
Q Do you agree or disagree with the statement that there is no question that a surety bond is a contract of insurance under New York Law; yes or no?

A It appears it is a legal definition. Yes.
MR. AMER: And one more document, Your Honor, PX-603.
(Handing)
Q I think you testified that the Trump Organization has

Giulietti - by Defendant - Cross (Amer)
Page 4776
submitted very few claims; is that right?
A Yes.
Q And you were speaking overall, over all of the lines
of business, correct?
A I am speaking property, casualty.
Q Okay.
A I know for a fact what the last ten years are in those areas, yes.

Q Okay. You will see that this is a letter from Clyde \& Co. to Alan Garten at the Revocable Trust. Do you see that?

A Yes.
Q And you will see that they are, in the second sentence, writing in response to the broker's letter of February 8, 2019, which purported to provide notice of claims and/or circumstances which may reasonably be expected to give rise to a claim. Do you see that?

A Yes.
Q This would have been when AON was the broker, correct?

A Timeframe, yes.
Q And you see in the bullets it lists: 18 letters from Congressional members as being the subject of the claim notice?

A Yes.
Q And the second bullet is: 18 letters from
Congressional members is another set of claims being tendered;

COURT OFFICER: All rise. Part 37 is now in session. The Honorable Judge Arthur Engoron presiding.

Make sure all cell phones are on silent. Laptops and cell phones will be permitted, but only to members of the press. There is absolutely no recording or photography of any kind allowed in the courtroom.

Now be seated and come to order.
THE COURT: Trying to figure out which of the attorneys is going to sit in which seat is like the Kremlinologist who was standing there on the mausoleum.

Defendants, would you like to call your next witness?

MR. FIELDS: Yes, Your Honor. We called David Miller.

And good morning.
THE COURT: Good morning, Mr. Fields.
(Whereupon, the witness took the stand.)
COURT OFFICER: Please remain standing. Raise your right hand.

DAVID BRIAN MILLER, after having first been duly sworn was examined and testified as follows:

COURT OFFICER: Please have a seat. THE WITNESS: Thank you.
COURT OFFICER: Please state your name and

Page 4784
either home or business address for the record.
THE WITNESS: David Brian Miller, 119 East
Muriel Street, Orlando, Florida.
THE COURT: David Brian Miller, I ask you to
speak very close to the microphone, they are very
sensitive, right into it. Loudly.
And Mr. Fields, please begin.
MR. FIELDS: Thank you.

\section*{DIRECT EXAMINATION}

BY MR. FIELDS:
Q Good morning.
A Good morning.
Q Where did you attend college, Mr. Miller?
A I attended the Edinboro University for my Bachelor of Arts; Youngstown State University for Master's in psychology; and Ashland University for a Master's in business administration.

Q After your Master's degree, were you gainfully employed with an insurance company?

A Yes, I was.
Q What insurance company was that?
A Eerie Insurance Group.
Q Do you recall approximately what year you started with them?

A Approximately 1975.

Q What were your jobs with Eerie Insurance Group when you got started?

A I started out as a claims adjustor.
Q What does that mean?
A Well, I investigated and handled claims for autos; homes; professional liability; bonding; all lines of business at the company that the company wrote at that time. I was an all lines claims adjustor.

Q So as a claims adjustor, are you one of the first individuals at the company to investigate whether the claim should be properly or should be paid or not?

A Yes, I was responsible for investigating the claim, understanding the policy language, and determining if there was coverage that was applicable.

Q And I think you mentioned professional liability, did you work on those types of matters as a claims adjustor?

A Yes, I did.
Q What do you mean by professional liability?
A Things like Directors \& Officers malpractice, Errors and Omissions.

Q After your time as a claims adjustor, did you get promoted or put into a new role?

A Yes, I did.
Q What role is that?
A I got put into subrogation recovery manager. And in
marketing and profitability of all of the agents in that territory.

Q When you say, "sales and marketing," what does that mean for an insurance company?

A That means the agents writing lines of business that the company wanted to, whether it was home, auto, professional liability, bonds, I was responsible for getting them to write what the company was looking for.

Q And at this juncture as the branch manager, were you a vice president at Eerie Insurance?

A Yes, I was.
Q All right. And then lastly, did you have a final role at Eerie during this period in time that you were employed there?

A Yes. After I was the branch manager I was promoted to Vice President of Marketing and Branch Operations. And at that I was responsible for all of the marketing materials, all of the lines of business and how they were presented to the public. I was also responsible for all of the branch operations and the branch managers - the claims operation and the sales operations reported up through me.

Q So in total, were you there at Eerie for approximately 15 or 16 years?
A Yes.
Q That culminated with you being the Vice President for

\section*{Miller - by Defendant - Direct (Fields) \\ Page 4786}
that role I reviewed claims adjustors' work; and worked with legal firms to collect money back that the company had paid that we were due to recover through a process called subrogation.

Q So as a recovery subrogation manager are you, in effect, one step above the claims adjustor?

A Yes.
Q How about after your time as a recovery subrogation manager, what was your next role like at Eerie?

A I was a district sales manager. I was recruited to develop the northwest section of Ohio where I recruited and trained all of the agents, independent agents, to represent Eerie Insurance Group. And I was responsible for all lines of business that was produced by those agents.

Q And at this point were you an Associate Vice President?

A I was Associate Vice President, yes.
Q Okay. After that, did you have any role?
A Yes. I was promoted to Eerie Branch Manager where I was in charge of all of the agency force agent licensing and marketing for the company. And in that I was responsible for the claims operations and the sales and marketing operation. The claims operation reported to me and I reviewed the - with the claims manager, difficult claims in the claims operations.

And then I was also responsible for the sales and

Miller - by Defendant - Direct (Fields)
Page 4788
Marketing and Branch Operations?
A Yes, that's correct.
Q And where did you go when you left Eerie at this time?

A I left and started my own independent insurance agency in Gaithersburg, Maryland.

Q What were some of your responsibilities when you started your own business?

A Well, in starting my own business I was responsible for doing what I had told people to do. I had to go out and sell insurance to meet different guidelines, to find insurance the company was looking for.

Because of my past experience with the company, I was given underwriting authority of up to a million dollars. So I had the ability to write business and bind the business and make decisions about what was acceptable to the company because of my past relationship with them. So, I was able to write bonds, D\&O, autos, home, commercial lines, garage, commercial auto; all of the lines that Eerie wrote. And in those lines I had a million dollars of binding authority before I had to get approval from any underwriter to accept the business.

Q So, if I understood your testimony, because you worked at Eerie, Eerie allowed you up to a million dollars in underwriting authority to underwrite business for them yourself as a broker?

A Yes. I had discretion to bind the business and underwrite the business at that agency level.

THE COURT: He asked you as a broker. Isn't it as an agent?

THE WITNESS: I had both licenses. I had both licenses, and in that relationship I did have an agency contract with them.

THE COURT: I seem to remember, tell me if \(I\) am right or wrong, the agent represents the insurance company; the broker represents the insured.

THE WITNESS: Right. That's the distinction.
THE COURT: So you were an agent, not a broker.
THE WITNESS: I had both roles. In the capacity
I was writing it was in an agent capacity. You are right, Your Honor.
Q What type of insurance did you place with David B. Miller insurance?

A All lines that Eerie offered. I had blanket authority to write all of the lines.

Q Did that include excess surplus lines policies?
A Eerie Insurance did have an excess surplus lines division, and I could write through them. But I was also licensed with other excess surplus lines carriers; typically called "wholesalers" in the industry. And I had licenses with those various organizations.

Q Could you help us understand what excess surplus lines means?

A Yes. Excess surplus lines means it is not regulated by the state you are doing business in. Basically it allows that company to tailormake a policy to have more discretion in pricing, they don't have to follow their prices; they don't have to follow their forms. So it gives them more latitude in being able to customize a policy. It gives them more latitude to use additions or exclusions in their policy that don't have to be filed. And it allows them to price the policy according to their judgment of what their risk may be.

Q All right. Where did you go to next after David B. Miller insurance?

A I went back to Eerie Insurance Group.
Q And in what position or capacity did you return to Eerie?

A I had several capacities. My title was Senior Vice President and Division Officer; Corporate Risk Manager; Chief Senior Underwriting Officer and President of Eerie Surplus Agency.

Q Did you have several divisions that you were responsible for?

A Yes, I had about five divisions that I was responsible for.

Q What were they?

A Commercial underwriting, which included property casualty; Bonding; Errors and Omissions; Directors \& Officers, that all came under the property casualty heading. Then I had commercial auto and commercial trucking; garage liability; and garage dealerships; commercial processing; commercial quoting and commercial risk management.

Q As part of your roll overseeing the commercial processing division, I believe it was that you said?

A Yes.
Q Did that involve policy language and altering policy language based on the insurance company's preference and what they wanted?

A Yes. Part of my - part of the property casualty and part of the -- as the Chief Underwriting Officer, I was involved. When I first -- particularly when I first went back, I changed the policies that we were doing business with. The policies were a little bit antiquated, so we rewrote the policy and I was in charge of making sure the policies were rewritten correctly. We prepared many new endorsements which targeted markets, and by targeting the markets, it put us in a better competitive position. And I made sure that those endorsements to the policies were done correctly. So we completely modernized the policies being offered by the commercial division. And I was in charge of that operation and project.

Q How about Chief Underwriting Officer, what were your

Miller - by Defendant - Direct (Fields)
Page 4792
responsibilities as the Chief Underwriting Officer?
A Well, my -- my chief duty is to make sure we weren't making a huge mistake. But --

THE COURT: Mine too, by the way.
A I saw the difficult cases, so when it came to me -the average, everyday business was done by the standard underwriters or maybe their manager or supervisor. And then when it came to more difficult cases, I actually did the physical underwriting with them, reviewed their files, looked at the materials, and made a decision whether the company had the capacity and willingness to take on that risk. So, it was my final say-so what backed up the company's money and their exposure. And so, you know, if it was a large bond or a large D\&O or a large commercial account, very often I had the final say-so. I had the ultimate say-so. In fact, I had more authority in that area than the CEO, because I was the Chief Underwriting Officer. And with that comes, you get praised when you make money and you take the hit if you lose money.

Thank heavens I always made money, so I didn't have to take the other side of the coin.

Q Probably a good point to talk about the hierarchy at Eerie Insurance and just insurers generally. But are underwriters generally given what is called levels of authority?

A Yes.

Q Could you just explain a little bit how that works?
A Yes. Well, in particular I can explain how Eerie worked. We had underwriters one, two, and three. And that was based on their experience and time at the job.

So, as an example, somebody that just came in that was learning how to underwrite, we would give level one where they would have a minimum amount of authority or maybe no authority. They had to have everything checked by somebody above them in order to put the monies of the company at risk.

Then an underwriter two would have a little more authority, say maybe to a half a million dollars. And they would be allowed to underwrite risk falling below that category; and if they had more exposure they had to get approval.

An underwriter three would have a million dollars, in some cases \(\$ 2\) million, where they would be allowed to accept that type of risk on behalf of the company. Because by the time they got to underwriter three they generally had ten or more years experience, and so they pretty much knew what they were doing.

And above that it went to the manager and then to me.
Q You also said that you were Eerie's Corporate Risk Manager?

A Yes.
Q What does that mean?

Miller - by Defendant - Direct (Fields)
A Well, we did self insurance, so the risk management, the inspection of the physical buildings, making sure that the things like the fire extinguishers, you know, the boilers, and everything got processed, permitted correctly. All of that stuff was done by my assistants and then passed up through me.

Also, I looked at the Worker's Compensation program and managed the risk of that program; worked out the pricing terms and conditions for that program; monitored the accidents associated with employees automobiles driver safety programs, carpal tunnel programs, educational programs for the betterment of employees, to keep them safe from having occupational hazards or accidents.

So that was the responsibility. And we tracked all of that stuff and managed it, because most of the things, accept the Worker's Compensation, we self insured. So everything we saved was money to the bottom line.

Q So, approximately how long did you work at Eerie in total?

A Approximately 22 years.
Q And did you leave Eerie in approximately 2001 the last time?

A Yes.
Q Where did you go next?
A I founded Inner Harbor Insurance Group. I bought a small seed company in Bethesda, Maryland and grew that
independent agency into about the 15 th largest independent agency in the Tristate area: Maryland, Virginia, DC. I was licensed in 42 states. We had the largest beauty school, professional liability program in the company in 42 states. We also did commercial business all throughout the country. We did about 12,000 policies and personal lines, auto, home, personal umbrella.

But the bulk of the business was done in the commercial lines: Commercial property, commercial casualty, bonding, Directors Officers, all of those lines of business. And personally I did pretty much all commercial business and that's what I specialized in.

Q And do you recall approximately when you left Inner Harbor?

A Yes. I left Inner Harbor in about 2007.
Q And where did you go next?
A I went to Harbor Companies, started my own consulting company. When you get to a certain size in the independent agency business, sometimes companies want to come in because you are a desirable candidate to get purchased. And that's what happened. Somebody wanted to purchase the company. So I had a non-compete, except for consulting and doing expert witness work. And so I started that company and developed Harbor Companies, who I presently work for.

Q You mentioned consulting and expert witness work, is

Q What type of insurance consulting are you doing now?
A I do mostly expert witness work. But I have also done consulting work for educational programs, training programs for employees, guest lecturing for training programs for employees. I worked for companies like USAA, AIG, Mutual companies.

Eerie had me back several times to teach agents how I grew an agency, because by industry standards I grew the agency very quickly. So they all wanted to know what is your secret, how did you do it. Like I had a magic thing. It is hard work. But they wanted to know what I did. So, those are the type of programs that I put on to educate and teach.

Q And do you have a sense for approximately how many cases you have served as an expert witness?

A Over 100.
Q And have you testified at trial previously?
A Yes.
Q Do you get a sense for how many times you have had your deposition taken as an expert witness?

A I believe at last count it was 40 plus.
Q What are some of the topics you have provided expert testimony in?

A Well, I have done bonding cases as an expert witness

Page 4798
business that they don't want to write. So when you look at a company and determine what does that company -- particular company like to write, then you are far more likely to be successful in writing businesses.

Q Outside of educational consulting, have you taught courses related to insurance?

A Yes. I was adjunct professor at Gannon University. As a matter of fact, I was the first professor in that program. I taught risk management and insurance development. One of the things that I tried to do with my students at that level was to teach them how to be a good consumer. I taught them how do you buy car insurance. How do you buy homeowner's insurance. How do you start a business. What does a business plan look like. How do you develop something that makes you look good to an insurance company. How do you manage your personal assets and how do you manage your personal self to make yourself attractive from an insurance standpoint.

My goal was to make them a better consumer and educated person that could go out and make a decent decision once they left my classroom.

Q Did you do any -- let me withdraw that for a second.
You said Gannon University; is that G-A-N-N-O-N?
A That's correct.
Q And did you do any guest lecturing while you were at Eerie?
before. I have done some high profile \(\mathrm{D} \& \mathrm{O}\) cases. I have done injury cases, bad faith cases, errors and omissions cases, medical malpractice cases. That's probably the bulk of what I did. I did a couple lawyer malpractice. Not that that ever happens. But I did a couple of lawyer malpractice cases. And that's primarily what I do.

Q Have your engagements included representation of both carriers and policyholders?

A Yes.
Q Have you been retained by carriers to do educational consulting?

A Yes, I have.
Q What is educational consulting?
A Well, I have done things from helping -- because I had experience in developing policy language, I was asked by one carrier to come in and look at their policies and offer solutions or endorsements, things to make it more competitive.

I have been asked to talk to independent agents about how to properly market the product, how to get more business, how to develop your business quicker.

You know, what do companies really look for, how do I know that. I would teach them, say, look at the top ten classes of business that a company is writing. And if you concentrate on writing those top ten classes of business you are more likely to be successful than trying to get outlying

A Yes. Eerie had asked me to come in. They would have conferences where they would bring all of their agents in. And several times I taught marketing seminars to all of the agency force regarding all of the steps I used to market. And quite often they would say: Why are you willing to do that?

And I would say: Well, they are going to listen and we will see who actually implements it. So my goal was to try to get some people to go implement what I was -- what I was trying to sell to them, so that they could write more business and overall enhance the business that they were giving to the company.

Q All right. I would like to shift gears now and talk a little bit about your professional certifications or designations. Do you hold any professional certifications or designations?

A Ido.
Q Okay. Do you hold any from what is called the Institutes?
A Yes, I do.
Q And what do you hold from the Institutes?
A The most prestigious certification in the property casualty industry is called the chartered property casualty underwriting CPCU. And I obtained that designation through ten examinations at the time and completed that work. And also the associate and risk management. It is a risk management course

Page 4800
also offered by the Institutes, five exams, and passed those exams for risk management.

Q And have you held those designations for over approximately 25 years or so?

A Yes.
Q Are you familiar with the National Alliance?
A I am.
Q And do you hold any designations from them?
A Yes. They offer a program called the Certificated Insurance Counselor. And that's a series of five exams. And I have held that designation for over 30 years.

And I have also taught a couple of classes for the society in -- for general liability classes. I have taught a couple of institutes for them.

Q How about the Professional Insurance Agents Association?

A Yes. They offer a program called the Certified Professional Insurance Agents. And I also hold that designation. And I also served on the National Board of Directors for the Certified Professional Insurance Agents.

Q And lastly, the National Association of Insurance and Financial Advisors; do you hold any designations from them?

A Yes. I hold the Life Underwriting Training Counsel Fellow designation, which is a series of financial and life insurance classes.

Q So approximately how many years have you been working in the insurance industry, Mr. Miller?

A Forty plus.
MR. FIELDS: Your Honor, I tender Mr. Miller as an expert in commercial insurance and surety underwriting. MR. AMER: No objection, Your Honor.
THE COURT: I am not sure. I don't remember the exact language, but I believe that one is only to deem someone an expert in areas that a normal juror or normal fact finder or normal Judge doesn't understand. I understood absolutely every phrase you used. There might have been one point where I couldn't connect two words, I am not sure I heard them correctly.

And Mr. Miller, I don't want you to take any offense at any of this, but I don't see why I need an expert in what was just said. What could you explain that I wouldn't understand just from hearing witnesses testify and looking at documents?

But, if the plaintiff wants me to, I'll
reconsider. You said you had no objection. You didn't say, yes, Judge, go ahead and do it.

MR. AMER: There are two different questions. One is whether the witness has qualifications in the field; the other is whether the Court requires his assistance as the finder of fact. We don't have a
clearly has a background at being able to explain what it is that insurance companies rely on; what it is they don't rely on; what is material; what is not material; and how that goes into their analysis. I respectfully submit that is something outside of the ken of a normal juror or even, respectfully, the Court.

THE COURT: I think that was well argued, Mr. Robert, for what that is worth. What they rely on. Why wouldn't a fact witness tell me what they relied on when the Zurich witness did or didn't rely on things? Why do I need an expert to tell me what insurance -- to me it is not a question of what insurance companies rely on so much as what this or these insurance companies relied on.

MR. ROBERT: When it comes to the issue of what the defendants did and what their intent was and what they submitted, that you need to understand from an expert how an insurance company looks at things. You have already heard the testimony -- and I always get the young woman's name wrong, the one on the video.

MR. AMER: Mouradian.
MR. ROBERT: Mouradian, as to her view of things. And this expert is clearly able to lay a more detailed foundation as to generally what insurance companies rely on themselves.

In the prosecution's case they did not put

Page 4802
position on the second point because I don't know what Your Honor requires assistance in.

THE COURT: Nothing that \(I\) am aware of. I mean, I have many times said in my career: It is amazing how much litigation involves insurance. Just, insurance comes at me left and right.

MR. AMER: I think your point goes more to a relevance question. And we did object to this witness on relevance grounds, you may recall. That was part of our motion in limine.

THE COURT: I don't see relevance either. But the particular question is -- I am only looking at the second prong, you know, do I need or would any fact finder need his expertise.

Mr. Robert?
MR. ROBERT: I believe you do, Your Honor. PJI 1:90 that talks about when a Judge or jury requires expert testimony. The government has accused the defendants of having committed insurance fraud. One of the elements of that has to do with the underwriting and what, if anything, the insurance companies relied on as far as what was submitted by the defendants in terms of, A , whether it was material; and two, whether they relied on it. And it goes to the intent of the defendants as to when things were submitted to the insurance companies. This witness

Miller - by Defendant - Direct (Fields)
Page 4804
anybody specifically from an insurance company beyond that one witness who was putting in place any of the elements required for insurance fraud.

That's why one of the reasons we moved for directed verdict on the count of insurance fraud is we don't believe there has been any evidence to support that. Because Your Honor currently is reserving on the decision, I guess because there has been no decision yet, we obviously have an obligation to put forth testimony to be able to defend ourselves.

And the testimony is not going to be long, Your Honor. Not that that necessarily matters, but I figured I would just say it. I know timing is an issue here. And as things stand, I think we are actually going to be a week or so ahead of schedule at the end of the day.

THE COURT: Great, Mr. Amer.
MR. AMER: One comment which I heard Mr. Robert say, intent. It is clear under New York Law that experts aren't permitted to opine on the intent to commit a penal act. And so I think the only cases we found where actually intent was permitted, is where there is a psychiatrist opining.

THE COURT: We may need a psychiatrist after all of this.

MR. AMER: Which is clearly not relevant here,
Miller - by Defendant - Direct (Fields) Page 4805

Your Honor.
So I think there is an additional problem if this is supposed to go to Ms. Mouradian's intent or Mr. Holl's intent, who is the D\&O underwriter, because that's just not the province of an expert witness.
(Whereupon, the following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

\section*{D. Miller - by Defense - Direct (Mr. Fields)}

THE COURT: Well, weighing, again, the dangers of a possible reversal, is it plaintiff's -- does plaintiff want me to deem him an expert and let him testify, or not? I haven't made up my mind totally, but I would want to get your input.

MR. AMER: Recognizing the importance of not qualifying somebody who makes a living as an expert in his field, I would say we don't object to qualifying him as an expert. But we would reserve and make objections on relevance grounds as those questions come up, your Honor.

THE COURT: Last words, if any? No. Okay.
By the way, I don't think you asked, were you ever not qualified as an expert when someone attempted to qualify you as an expert?

THE WITNESS: The answer is, to my knowledge, I've never been disqualified, sir.

THE COURT: Then I will not be the first. I hereby deem you expert in insurance and the business.

Mr. Fields, would you like to give me -- give us a few words exactly what he is being deemed an expert in?

MR. FIELDS: Commercial insurance and surety underwriting.

THE COURT: Okay. But as Mr. Amer said, or asked, I will reserve the right to decide whether any questions are relevant, or whether it fits into something I need expertise
on.
So you are an expert.
MR. FIELDS: Thank you, your Honor.
Q Mr. Miller, from your review -- withdrawn.
Did you review documents from Zurich Insurance Company about events -- a surety relationship between Zurich and The Trump Organization?
A Yes, I did.
Q And the documents that you reviewed generally, would those have been -- what were they?
A I reviewed some depositions. I reviewed their worksheets, the Zurich worksheets that they had underwriting
worksheets, and information that they had gathered, I looked at.
Q When you say "worksheets", would those generally be underwriting memorandums?
A That's correct.
Q All right.
From your review, were you able to ascertain whether there was an indemnity relationship as it related to the bond program?
A Yes. They had a general indemnification agreement in place.
Q And who were the parties to that indemnification agreement?
A The Trump Organization and Donald J. Trump.

Miller - by Defense - Direct (Mr. Fields)
Page 4808
Q When you say "The Trump Organization", do you mean Zurich Insurance company?
A Yes, yes, yes, yes.
Q And Donald J. Trump?
A Yes.
Q What is the purpose of an indemnity agreement?
A An "indemnity agreement" is an important aspect because
when you write surety bonds, generally a company looks at a zero loss ratio position. So since they want a zero loss ratio, they want to be able to, if they make a payment on a claim, their goal is to be able to get the money back from the person that they insured.

Q How does the enforcement of that indemnification agreement occur, in practice?
A Well, how it actually works, once a claim is paid, they go back to the indemnification agreement and put the person on notice that payment has been made, and they intend to collect from cash, or cash equivalents. Sometimes there's also collateral or a line of credit that they would look forward to get reimbursement from.

THE COURT: It would be pretty funny if I said I don't know what the heck he's talking about.

Mr. Robert, you didn't find that funny.
MR. ROBERT: That's why you need expert testimony.
THE COURT: Understood. I don't think you got the

21 A "Capacity" means how much money are they willing to put

\section*{MR. FIELDS: I did, your Honor.}

MR. AMER: New York sarcasm, I guess.
Q You mentioned cash or cash equivalents, are there certain metrics that underwriters find important for surety bond underwriting?
A Could you clarify.
Q Sure.
What is are some of the important things that a surety bond underwriter is looking for when deciding whether to underwrite a surety bond?
A Well, basically they are looking at what we call the three Cs ; character, capacity, and capitalization liquidity.
Q What is character?
A "Character" is the overall reputation of the person that you are looking at. Do they seem to have a good position, or are they well-known in their industry? What type of person or what type of organization, is the overall perspective look good them as an underwriter.
Q And capacity? up on behalf of the company. And in this case, they basically had put out \(\$ 6\) million for any one surety bond, with a maximum of 20 million for the program.
Q So when you say " 20 million", would that have been the

Page 4810

\section*{13}
maximum possible exposure so Zurich?
A Yes, that's correct.
Q And the last \(\mathbf{C}\) was capital assets?
A Capital assets. Basically, in the surety business,
that means liquid funds, cash equivalents in order to get repaid.
Q Why is the liquid fund so important?
A As I stated, a surety underwriter is looking at a zero loss ratio. So while they put out money temporarily, they expect to collect it back.
Q From your review of the documents, did you get the sense that Zurich was ever concerned with The Trump Organization's character?
A No.
Q How about the Trump Organization's capital assets?
A No.
Q In practice, when considering liquidity, is the surety more concerned with the aggregate bond limit or the individual bond limit?
A Well, they take into consideration both, but the most important aspect would be any one single bond, because they want to make sure -- in my 40 years I've never seen an entire bonding program get called all at one time. So while you have different
D. Miller - by Defense - Direct (Mr. Fields) -- you may have a court bond. You may have a license permit
25 bond. You may have, you know, different types of surety bonds.

And the likelihood of the whole program getting called at once is pretty minimal. So their real exposure is what is the largest single bond that they would put out there. And in this case, I think the largest bond that I saw issued was about 5.7 million under the 6 million per bond aggregate that they were willing to -- or per bond that they were willing to put out there. And on average, their bonding program, over the years, pretty much stayed under 10 million for most of the bonding period, from 2007 to 2021.
Q Are brokers often involved in this surety relationship between the principal and the surety?
A Yes.
Q And how do the brokers affect that line of business?
A Well, quite often surety is not the lead business. You
know, surety is something you do as an accommodation. So at the time, Aon, who is a large multinational broker, um, has a lot of influence in the marketplace because of their ability to do business and the size of their organization. So at that time they had other business and a track record with the Trump
Organization, and they came to Zurich and said, could you do us a favor, basically, and write the surety bonds.

MR. AMER: I'm going to object as to what Aon said to Zurich. It's hearsay, and there's no foundation for that.

THE COURT: Sustained, unless I've given some

\section*{Miller - by Defense - Direct (Mr. Fields)}

Page 4812

\section*{exception.}

Q Well, Mr. Miller, from your review of the documents, did you get the sense that Aon had a big influence on Zurich's decision to underwrite these bonds?

MR. AMER: Same objection, your Honor.
THE COURT: I get the sense - I don't know that's
a standard of proof that we could use, "get the sense."
MR. FIELDS: Was it his understanding.
THE COURT: I think you would have to lay a foundation.
A I can speak to what the underwriter --
MR. AMER: Your Honor, we have an objection that's pending.

THE COURT: Sustained. I'm assuming he's asking a different question now.
Q I think you testified that you reviewed Zurich's underwriter memorandums in this case?

A Yes.
Q Did Zurich's underwriter memorandums reference Aon?
A Yes.
Q And from those references in the underwriter memorandums, did you gather an understanding as to what the relationship was like between Aon and Zurich?

A Yes.
Q What was that understanding?

A In the testimony that I read from the underwriter, Ms. Caulfield, she stated that the relationship in keeping a broker, Aon, happy was very important to her. So when they presented the writing the surety business, she stated in her testimony that the reason for writing it was keeping a broker happy and keeping existing business on the books.

MR. AMER: So I'll object on relevance since Ms. Caulfield's underwriting of the program predates 2018 and anything that is at issue in this case on the fraud claim. It relates to an earlier period of the relationship, your Honor. We were involved with Ms. Mouradian's underwriting of the program from 2017 forward. And it's also hearsay.

MR. FIELDS: To the hearsay, he's an expert, first of all.

Second of all, as to Ms. Caulfield, she was the longest serving underwriter on this account, and a lot of the underwriting that occurred happened on her watch. And it's important for the Court to understand what was going on in the years that preceded what the government has alleged is the alleged insurance fraud. So that's the purpose of all of this.

THE COURT: I'm just going to let it in. You know, it's funny to object on hearsay, and it's also irrelevant -well, if it's irrelevant, so what.

I remember the testimony and some of the documents. It, um -- it makes a certain sense, so I'll leave it at that. It's in.

That's the most famous objection, "Yeah, I just want to hear it", so.
Q I don't know if this has been answered, but if it has I'm shower I'll hear an "asked and answered objection."

How can a broker the size of Aon affect, in this case, Zurich's underwriting determinations?
A Well, my experience in being a chief underwriting officer is very similar to having an Aon and a Zurich, and that is my largest producers, come in and they'll try to influence you and say, I have a lot of business with you. I would like you to do me a favor. And they kind of put pressure on you to do something, whether you want to or not. So you make an exception, or you say, "Okay, I'll write this line of business for you", um, because you don't want to lose all their business, and you want to keep good favor with that broker.
Q How, if at all, would an insurance company the size of Zurich's be affected by losing business from Aon?
A Well, Aon is one of the largest brokers in the world, so it could be a substantial hit to their bottom line to lose all their business. If Aon decided they didn't want to do business with Zurich and decided to move all their business to another carrier, it could be a substantial loss.

Q Did you form an opinion regarding -- I should have asked you this earlier, Mr. Miller, but any opinion that you give today, please give to a reasonable degree of professional certainty based on your experience in the industry; is that fair?
A Yes.
Q All right.
Did you form an opinion regarding Zurich's underwriting of The Trump Organization Surety Bond Program?
A Yes.
Q What is that opinion?
A Well.
MR. AMER: Can we get a time frame?
MR. FIELDS: The whole program. From inception to end.

THE COURT: I'll allow it.
A Yes. My perception was there was not a lot of technical underwriting that took place, um, because it was done as what I would perceive -- what I would call a business decision. They wanted to write the business to keep the relationship between Aon and Zurich in place. They wanted to keep other business that they had with the organization in place. So I would call what they did as basically a business decision as to the capacity and the risk they were willing to take in the surety program, particularly since they had an

\section*{Miller - by Defense - Direct (Mr. Fields)}

Page 4816
indemnification agreement in place.
Q Why would the indemnification agreement affect the underwriting decisions?
A Because if they had to pay a claim, they would get repaid.
Q You mentioned that there was "not a lot of technical underwriting." Was that the phrase that you used?
A Yes.
Q What do you mean by "technical underwriting"?
A I would mean the nuts and bolts. Really, you know, getting into the different aspects, you know, doing -- ordering clue reports, past claim reports, um, analyzing different reports that are available in the industry. None of that was really done in this case.

Q In your experience, do sureties approve bonds where the surety has doubt about the indemnitor's ability to fulfill the obligation under the indemnity agreement?
A No. From my experience companies -- insurance companies don't waste their dollars.
Q And in your experience, do sureties write bonds for a company if they feel that company has defrauded them?
A No, if they felt that way, they would stop the -- the program and not write bonds for them.
Q You mentioned the term "accommodation." What is an accommodation?

A "Accommodation" basically, in simple terms, would be a favor. You are doing it as a reason to keep other things in place, whether it's the relationship, the business relationship, or other business relations that you have in place.

So you are doing it as a business decision rather than possibly a technical underwriting decision.
Q How common are accommodations in the industry?
A Probably too common. There's a lot of pressure in the industry to -- that, um, you know, large brokers can assert in order to get their way.

Q Are accommodations more common when you talk about surety bonds, or less common?

A Because of the nature of surety bonds and the ability to get repaid on surety bonds, they are done as an accommodation because the exposure, the risk is potentially pretty minimal to companies.
Q So is it your opinion that Zurich was writing the surety bond program as an accommodation? MR. AMER: Leading, your Honor. THE COURT: Sustained. Leading.
Q Why was Zurich underwriting the surety bond program with The Trump Organization, in your opinion?
A Well, I can only go by the testimony that I wrote -that I read, and that was, um, the things that the underwriter specifically said; the relationship with Aon was very important,
and keeping business intact was very important. Those were two things that were considered of high importance to the surety underwriting.

THE COURT: So that opinion is based only on the evidence, not on your expert opinion; is that correct?

THE WITNESS: Um, that's what I read. And if you would like to rephrase that, I'm sorry.

MR. FIELDS: I think based on his years of experience is what Mr. Miller is saying. His experience working at insurance companies and understanding the reasons that they do things or don't do things.

THE COURT: But he specifically said based solely or based only on the correspondence or testimony he read. So I'm saying, well, if it's based only on what you read, then it's not based on your expertise.

THE WITNESS: Well, let me rephrase that, your
Honor. That's what I read. And from my personal experience and my expertise in the surety business, very often surety is written as an accommodation to other lines of business.

THE COURT: Okay.
MR. AMER: Your Honor --
THE WITNESS: As an underwriting officer of a Fortune 500 company, that's my experience.

THE COURT: Okay. Thank you.
MR. AMER: Your Honor, his opinion is based on the
testimony and, and one underwriter. I think we should know who that underwriter is. And I think it's Ms. Caulfield and not Ms. Mouradian, from my understanding of his prior testimony. So if we could get that clarification, please.

THE COURT: Do you remember which witness you'rr inferring to?

THE WITNESS: I believe that was Ms. Caulfield, but in context, Ms. Mouradian was a continuation of the program and the basis. It was set up by Ms. Caulfield, and she just continued that program.

So the basis of the program was already in place when Ms. Mouradian took over the account.
Q Would it refresh your recollection to look at your report to see exactly what testimony you read in connection with drafting your report?

\section*{A Sure.}

MR. AMER: I think his recollection is spot on. It was Ms. Caulfield. So I don't know why we need to look at his report to refresh his recollection.

THE COURT: Well, he said it was based on Caulfield and then Mouradian, quote, "continued the program." But I have no problem with no objection to his looking at the expert affidavit.

MR. AMER: But, your Honor, just to be clear, I don't think he said he relied on Ms. Mouradian's testimony.
D. Miller - by Defense - Direct (Mr. Fields)

Page 4820
I think he said Ms. Mouradian was successor underwriter to Ms. Caulfield.
(The exhibit was handed to the witness.)
Q On the final page of your report, Mr. Miller.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see at the bottom of page C-i?
A Yes.
Q Whose deposition transcript did you review?
A Joanne Caulfield's.
Q And then on the next page?
A And Regina, Michael Holl and Claudia Mouradian, and Ms. Wu.

MR. AMER: The question is not whose testimony did he review. The question is what testimony is he relying on for his opinion?

THE COURT: Correct.
MR. FIELDS: Okay.
THE COURT: So we need to know which testimony he is relying on, not just which ones he read.
Q What information or testimony did you rely on in forming your opinion in this case?
A Um, both underwriting depositions --
Q Okay.
A -- from the underwriters. And that would be from
D. Miller - by Defense - Direct (Mr. Fields) Page 4821

Ms. Mouradian and Ms. Caulfield.
Q Did you also have the opportunity to read
Ms. Mouradian's trial testimony?
A Yes.
Q And did that change your opinion in any way?
A No.
(Whereupon, the exhibit displayed on the screen was taken down.)
Q How, if at all, does an accommodation affect the underwriting process?

A Well, an accommodation generally means that you've already made the decision to write it, or you are going to write it, because of the situation that you are being asked to do.

So, in general, it probably loosens or eliminates the underwriting standards, because you already know you are going to do it, so you just do it.

Q Is there anything that requires the surety to make the underwriting -- withdrawn.

Is there anything that requires the surety to make an accommodation?

A Pressure from the broker.
Q Trying to develop more business?
A Yes.
THE COURT: Leading.
25 MR. AMER: I was trying to get there quickly.
D. Miller - by Defense - Direct (Mr. Fields)

Page 4822
THE COURT: We've heard this several times already, so it doesn't really matter.

MR. FIELDS: Fair enough.
Q How are surety bonds priced?
A Surety bonds are priced by rates filed with the Department of Insurance. They file a standard rate, and then
they file a debit and credit that they can apply to that standard filed rate.
Q From your review of the information in this case, do you know what the standard rate was?

A I believe the standard rate was \(\$ 15\) per thousand of exposure.

Q And do you recall what the rate was at the beginning of the relationship?

A Yes. At the beginning of the relationship it was -the account was debited 33 percent, and they used a \(\$ 20\) rate per thousand.

Q And why would an underwriter debit an account like that?

A Possibly it's a new program and they want to get experience with a person before they give them -- they have the ability to charge more. They want to get experience, so they charge more.
Q And did there come a time that the account in this case was credited?

A Yes. At one point, because the -- over the years the business had been profitable. They reduced the rate to the standard filed rate of \(\$ 15\), and then at one point, I believe it's in 2015 or 2016, Arch Insurance company came in and they saw that the surety business was profitable and is something that they wanted to write, and they offered it at \(\$ 10\) per thousand, I believe. And so at that point, because of competitive reasons, Zurich lowered their rate to \(\$ 10\) in order to maintain the business.

MR. FIELDS: May I have one moment, your Honor. THE COURT: Sure.
(Whereupon, there is a brief pause in the testimony.)
Q All right, Mr. Miller, I would like to show you a couple of documents that you reviewed in providing your opinion or arriving at your opinions in this case.

MR. FIELDS: If we could pull up D-43, please.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
Q Do you recall reviewing this?
A Yes.
Q And does it appear to be the memorandum - underwriting memorandum from 2009?
A Yes, it does.

Q Do you see under the subheading "Financial Review and Summary" toward the top?

\section*{A Yes.}

Q Does it appear to you that the it has been filled in the way you would expect to see an underwriting memorandum?

MR. AMER: Your Honor, just note my objection to the 2009 underwriting document. It's irrelevant.

THE COURT: What's the relevance of this?
MR. FIELDS: Again, to establish the relationship, your Honor, and what it eventually evolved into. MR. AMER: How does that --
THE COURT: Mr. Amer, what years would you consider relevant, if any?

MR. AMER: 2019 and 2020 underwriting renewal meetings that Ms. Mouradian attended on site at the Trump office building. That's where the fraud occurred, and that's the only relevance to our fraud claims.

MR. ROBERT: Your Honor, respectfully, we've sat here for several weeks, as has the Court, and the government has gone into documents going back over a decade. And it's almost a joke every time we objected, you know, "statute of limitations." We tried to do it in as least an intrusive way possible, and the government kept saying, well, it's still appropriate and it's something to deal with the equitable relief they are seeking. I still don't understand
\begin{tabular}{|rc|r}
\hline D. Miller - by Defense - Direct (Mr. Fields) & Page 4825 & Mille \\
& & \\
1 & they're method, but be that as it may, we're just trying to & 1 \\
2 & show and establish what happened prior to the alleged fraud. & 2 \\
3 & And, quite frankly, one thing I may agree with & 3 \\
4 & Mr. Amer on is, I don't think there's any fraud here, so the & 4 \\
5 & fact that he thinks it's only limited to -- what did he say? & 5 \\
6 & THE COURT: 2019. & 6 \\
7 & MR. ROBERT: 2019, I don't even think that's the & 7 \\
8 & case. If he wants to agree and put on record there is no & 8 \\
9 & claim for any misconduct prior to 2019, I'm certainly & 9 \\
10 & willing to accept that on behalf of my clients, and I'm sure & 10 \\
11 & my colleagues are as well. & 11 \\
12 & MS. HABBA: I'm happy to. & 12 \\
13 & THE COURT: But you -- but you would still want to & 13 \\
14 & put this evidence in, even if they accepted your offer, & 14 \\
15 & right? & 15 \\
16 & MR. ROBERT: I will take a moment to think about & 16 \\
17 & it. I haven't heard they accepted my offer, but I stand & 17 \\
18 & here eagerly awaiting what Mr. Amer has to say. & 18 \\
19 & THE COURT: Do you accept the offer if they say not & 19 \\
20 & that there is no fraud, but they are not claiming any fraud, & 20 \\
21 & right, prior to 2019? & 21 \\
22 & MR. ROBERT: Again, your Honor, if they are trying & 22 \\
23 & to use any conduct prior to 2019, as they have been arguing & 23 \\
24 & before you for purposes of their equitable claim, then it's & 24 \\
25 & most certainly appropriate that we are able to explain why & 25
\end{tabular}

MR. FIELDS: I don't know if \(I\) ever -- was there an end to the question? I don't think so. Let me reask it.
Q The financial review and summary section, does it appear to you that it has been completed the way you would expect to see this in an underwriting memorandum?

A No. It looks like no underwriting was done actually.
Q How can you tell that?
A There is nothing filled in.
Q So what would you expect to see based on your experience?

A I would expect to see all of the ratios and everything filled in and completed.

MR. FIELDS: If we could then go to page three?
Q What did the single bond and aggregate bond limits appear to be in 2009?

A Single bond 1.1 million and the program 2.5 million.
MR. FIELDS: Okay. I'll move to admit D-43.
THE COURT: I'll admit it, with just the comment it sounded like -- well, it is relevant to the
relationship, but they didn't make the relationship. They
didn't make a deal. Is that? Let me ask the witness.
Did this lead to any indemnity, insurance,
anything?
THE WITNESS: There was -- there was no claims

Q Do you see that she writes in this bullet point that: Zurich lost the insurance program in May of 2011 , I performed an on site review of Trump's personal financial statements?

A Yes.
Q So did you understand that to be a relationship, property and casualty relationship that predated the surety bond program?

MR. AMER: Objection, leading.
A Yeah.
THE COURT: Sustained. Sorry. THE WITNESS: Sorry.
Q What, if any, relationship in terms of insurance existed prior to the surety bond program, to your understanding?

A My understanding there was a property casualty relationship.

Q How does that affect the ultimate decision for a surety to write bonds if they have just lost a property and casualty program?

A Well, because the surety program was already approved prior to this, while they had the relationship and it had no claims lost from an underwriting standpoint, my experience is you don't throw out a profitable line of business because you lost the other business. You try to keep it and hope to get the other line of business back.

Page 4830
MR. FIELDS: If we could go to page two, please?
Q Under the rates section, do you see that it says rate charged is \(\$ 20\) per thousand?

A Yes. That's the -- that's the debited rate that I referred to.

Q And when you say, "debited," do you mean because it is higher than the standard rate?

A 33 percent higher than the filed rate, the standard rate.

MR. FIELDS: If we could then move to -- I'll move to admit D-44.

THE COURT: Granted. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 44 by the Court.)

MR. FIELDS: If we can move to D-45, please? (Handing)
Q This is now a 2012 memorandum, Mr. Miller?
A Yes.
Q The second bullet point under Personal Financial Analysis section. Do you see where Ms. Caulfield writes: "When Zurich lost the insurance program in May of 2011, I performed an on site review of Trump's personal financial statements. This option has not been presented as an option at this time, although it has been requested many times"?

A Yes.
Q And on the next bullet point, do you see the underwriter writes something about Forbes and Donald Trump's personal net worth estimated at 3.2 billion?

A Yes.
Q In your experience, have you ever seen underwriters rely on media publications in making underwriting determinations?

A Prior to this, no.
Q And the last bullet point at the bottom of the page. Do you see that Ms. Caulfield writes: "Bonds already written may continue to renew as an accommodation to AON, New York"?

A Yes.
Q Do you understand that to mean the same accommodation that you have testified about here this morning?

A That's correct.
THE COURT: Leading. MR. AMER: Leading. THE COURT: I beat you to it that time. Objection sustained. It was totally leading.
Q What do you understand the term "accommodation" to mean in this context?

A That means they were writing the bonds, because they initially wrote it as a favor to AON and they were still writing it as a favor to AON as of this date.

Q On the last page, the second bullet point at the top beginning with, "no new bonds."

Do you see that the underwriter writes: "No new bonds to be approved or issued unless financial disclosure is provided"?

A Yes.
Q And below that, the line below it, what is the single and aggregate bond limit as of this time?

A 500,000 for any single bond and a million-dollar aggregate.

MR. FIELDS: Move to admit D-45.
THE COURT: I am sorry, what was that?
MR. FIELDS: Move to admit Defense 45. THE COURT: Granted. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 45 by the Court.)

MR. FIELDS: If we could pull up D-47, please? (Handing)
THE WITNESS: Thank you.
Q All right. At the bottom of the page -- or
Mr. Miller, let me just ask you. What year does this appear to be a memorandum for?

A 2013.
Q At the bottom of the page, do you see where

Ms. Caulfield writes: The account was cut off from any new bonds in January of 2012 due to failure to pay fronting fees for a bond issued in Scotland?

A Yes.
Q And she continues: This bond has since been released, also the account's failure to provide updated underwiting information prohibits us from taking on any new liability?

A Yes.
Q From your review of this, does it appear that the underwriter is not inclined to take on additional risk? MR. AMER: Objection.
A That's what was written, but in reality -THE COURT: Hold on. Go ahead, Mr. Amer.
A Thanks. That's what was written -THE COURT: Hold on. MR. AMER: It is leading. He is suggesting the answer. THE COURT: It is leading. Sustained. MR. FIELDS: Okay.
Q What does this sentence mean to you as a former or current underwriter?

A That means that they weren't -- they didn't want to write anymore business at the time. But the reality from my

\section*{- by Defendant - Direct (Fields)}

Page 4834
recollection is when they were requested to write additional bonds, they continued to write bonds because of the relationship with AON.

THE COURT: I often tell my staff that "they" is
a bad word. Can you just be --
THE WITNESS: Zurich.
THE COURT: Okay.
MR. FIELDS: All right. And if we could go to the fourth page, please.
Q What does the single and aggregate bond limits appear to be?

A 500,000 and a million.
MR. FIELDS: Move to admit Defense 47.
THE COURT: Sustained. It is in -- Sorry. It
is like duck, duck, goose, right?
Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 47 by the Court.)

MR. FIELDS: Defense 48, please.
(Handing)
THE WITNESS: Thank you.
Q What year is this, Mr. Miller?
A 2014.
Q At the third bullet point under -- beginning with "a
press release." Does it appear that the underwriter is now referring to a different media publication?

A Yes.
Q And what publication is that?
A USA Today.
THE COURT: Five-minute warning.
MR. FIELDS: And on the next page, page two.
Q Under the first heading or the first bullet point at the top, do you see where the underwriter writes: "Bonds already written may continue to renew as an accommodation to AON, New York, no further material expansion to the program until the financial review of DJT's personal statements has been completed."

A Yes.
MR. FIELDS: And if we could then go to page four.
Q Under the FYE Account Program Recommendation subheading in the middle?
A Yes.
Q The -- I guess what would be technically the second bullet point, "line to be increased." Do you see where the underwriter writes: "Line to be increased to 2.2 million single and 3 million aggregate. No material further expansion to the program without the on site review of personal financial statements?

Q And if we could -- or the top paragraph here under July 23, 2015; do you see where the underwriter writes: "Financial statements are not provided and the previous supporting insurance relationship with Zurich is no longer in force. Given Mr. Trump's personal wealth versus the type and size of program we are on, the recommendation is to renew the line for billing purposes of the existing bond renewals." Do you see that?
A Yes.
Q All right. Now at the bottom of the page under SDA History. What are the single and aggregate bond limits?

MR. AMER: Your Honor, I am going to object. Why are we having this witness just confirm what the document says without asking him any questions about what the document says? This is a waste of time.

THE COURT: I was surprised that there was no question about that last statement.

MR. FIELDS: My next question I think is going to be important, Your Honor.

THE COURT: Well, if it is important I'll let you ask it. But I take Mr. Amer's points and I ask you to take it into consideration. There is generally no point in just: Do you see that statement?

Yes.
\begin{tabular}{|c|c|}
\hline & by Defendant - Direct (Fields) Page 4837 \\
\hline & Okay. There it is. \\
\hline 2 & But anyway, let's hear the important question. \\
\hline 3 & MR. FIELDS: I don't think he answered what the \\
\hline 4 & gile and aggregate bond limits were. If he could \\
\hline 5 & answer, then I'll ask a question that I think is important \\
\hline 6 & for the Court to understand in terms of how the program is \\
\hline 7 & expanding. \\
\hline 8 & A 2,200,00 and 3,000,000. \\
\hline 9 & Q Okay. And do you recall that in the last year the \\
\hline 10 & single was 500,000 and the aggregate was 1 million? \\
\hline 11 & A That's correct. \\
\hline 12 & Q Does it appear to you as an underwriter that the \\
\hline 13 & ogram has expanded without the underwriter reviewing any \\
\hline & updated financial information? \\
\hline 15 & MR. AMER: Objection, leading. \\
\hline 16 & THE COURT: Leading. \\
\hline 17 & I let you go first that time. I knew right \\
\hline 18 & away. \\
\hline 19 & Leading sustained. \\
\hline 20 & MR. FIELDS: Okay. \\
\hline 21 & Q So the single bond limit last -- the prior year we \\
\hline 22 & looked at was 2012 -- I am sorry, 2013, was 500,000; do you \\
\hline 23 & recall that? \\
\hline 24 & A Yes. \\
\hline 25 & Q And now how much is it \\
\hline
\end{tabular}

Miller - by Defendant - Direct (Fields)
Page 4838
A 2.2.
Q And from your review of the documents, did the underwriter review financial information between when it was 500,000 to now being \(\$ 2.2\) million?

A No.
Q And I would ask you the same question for the aggregate. Did it appear that there was any underwriting information or financial review information done to make the determination to take it from 1 million to 3 million?

A There wasn't anything done.
MR. FIELDS: I move to admit Defense 48. THE COURT: It is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 48 by the Court.)

MR. FIELDS: Two minutes?
THE COURT: Two minutes warning.
MR. FIELDS: Okay. Defense 49, please. (Handing)
THE WITNESS: Thank you.
THE COURT: One minute warning.
Q Does this appear to be another 2014 memorandum?
A Yes.
Q I'll represent to you that the one we just looked at,
Defense 48, was current date at the top was July 23, 2015.

What date at the top is reflected here on this document?
A \(11 / 6 / 2015\).
Q So would that be approximately give or take four months later?

A Yes.
Q Okay. And if you would flip to the second page. At the top above operations/management review. Do you see where there is a November 6, 2015 entry?

A Yes.
Q Does it appear that there was an additional bond in the amount of \(\$ 2\) million added that brought the overall capacity to 5.2 million?

A Yes.
Q From your review of the document, was there any underwriting -- withdrawn.

From your review of the documents was there any financial information looked at by the underwriter from July of 2015 to November of 2015?

A No, there wasn't.
THE COURT: Okay. Ten minute break. See you all in 15 minutes.
(Whereupon there was a pause in the proceeding.) COURT OFFICER: All rise.
Part 37 is back in session. Please be seated and come to order.

Page 4840
THE COURT: When Tommy does that people in Foley Square Park stand up. It is amazing.
(The witness resumed the stand.)
THE COURT: Please continue.
MR. FIELDS: All right. If we could pull up, please, Defense 49 that we were just discussing a minute ago, perhaps 15 minutes ago. And the second page, bottom of the page, under the \(11 / 6 / 2015\). Joanne Caulfield all the way at the bottom.
Q Mr. Miller, do you see the term Arch used here?
A Yes.
Q And you testified a little bit about Arch earlier, but what is Arch?

A And is an insurance carrier.
Q And what does it appear that the underwriter is doing here as a result of Arch?

A Decreasing the premium, they are crediting the premium in order to stay competitive.

MR. FIELDS: All right. Moving Defense 49. THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 49 by the Court.)

MR. FIELDS: I would like to move to 2019. So this is Plaintiff's 1552 in evidence.

Q All right. Let me just ask you, what year is this underwriting memorandum from?

A 2019-- 2020. I am sorry.
Q And at the top left here, can you see who the underwriter is?

A Yes. Claudia Mar --
Q Markarian?
A Markarian.
Q I'll represent to you that Ms. Markarian was married and changed her last name. And her last name is now Mouradian, so I'll refer to her as Ms. Mouradian.

Under the financial review and summary section, does it appear that Ms. Mouradian has filled out this section the way you would expect to see it in an underwriting memorandum? MR. AMER: Objection, leading. THE COURT: Sustained as to leading.
Q What do you gather from the financial review and summary section in front of you?

A Nothing changed from the prior years. It doesn't look like little or no underwriting was done.

Q If we could then zoom out and go down a little further under personal financial analysis. The first bullet point that begins with "I reviewed."

Do you see where Ms. Mouradian writes that she reviewed the personal financial statements of Donald J. Trump

Page 4842
on November 20, 2018 ?
A Yes.
Q And once again -- withdrawn.
Under the third bullet point beginning with, "cash on
hand." How much cash on hand does Ms. Mouradian note in this bullet point?

A 76.2 million.
Q And how much in escrow funds?
A 22.7 million.
\(Q\) On the next page, page two, under the surety program heading, first paragraph. How many bonds as of November 27, 2018 was Zurich or did Zurich have in terms of outstanding liability?

A They had about approximately 21 bonds and exposure of 10.9 million.

Q And on page three under the rates section. What is the account rate at this time?

A \(\$ 10\) per thousand.
THE COURT: Is that per thousand or per million?
Q Could you explain, Mr. Miller, what the \$10/m generally means?

MR. AMER: We will stipulate that's per
thousand. Two m-s would be million.
THE COURT: That's what I sort of figured. I
always sort of use K , but.

Q Then lastly, if we could go to page five, the second bullet point under FYE account program recommendations that begins with "although the indemnity package."

Do you see where Ms. Mouradian writes: "Although the indemnity package and financial disclosure is not perfect, it is highly unlikely the Trump Organization would allow any of our bonds to end up in a claims situation. There is also substantial liquidity within the company to cover any bond need should there be an issue"?

A Yes.
Q And do you see where she continues: "The CFO and Controller were highly professional, well-educated and conscientious about the work that they do. I learned that many employees have worked for the Trump Organization for extended periods of time. There is a loyalty to the organization that is widespread and the employees enjoy working for the Trump family"?

A Yes.
Q Why is this important in making an underwriting determination?

A It falls back to the three Cs. And the character of the organization. So, from an underwriting standpoint she said that the character seems to be a good fit for surety operations.

And their capacity, the other C , is overall this is a

Page 4844
very small program for a company like Zurich or even for an organization as large as this. It is a relatively small program by industry standards. Not a lot of exposure.

Really in this case, because of the liquidity
situation and the indemnity agreement, Zurich is looking at a zero exposure, which is perfect for the surety business.

MR. FIELDS: And if we could zoom out and then
just look at the rate down at the bottom of the page. I
am sorry not the rate, the single and aggregate exposure.
Q What is the single and aggregate exposure at this time?

A Actually the underwriter had raised from the prior, I believe it was 2 million and about 3 million, increased the overall program to 6 million to any one single bond and \(\$ 20\) million aggregate exposure for all bonds.

Q What does the \(\$ 20\) million figure represent in terms of the worst possible scenario for the surety?

A Worst possible scenario 20 million aggregate means if all of the bonds defaulted at once, they would have a \(\$ 20\) million exposure.

MR. FIELDS: I would like to shift gears and talk to you about Directors \& Officers insurance for a moment.
Q How, generally, does Directors \& Officers insurance work?

A Well, Directors \& Officers is liability cover for the directors and management of a company. And it avoids the cost - the cost of expensive litigation.

Q What steps do underwriters in the directors and officers world take when deciding whether to underwrite a D\&O policy?

A Generally an underwriter will look at a series of things. They are going to look at claims histories is very prominent in the D\&O world. They want to know have they had prior claims; do they have a claims history; have they had a lot of problems.

They also look at have they had HR problems, employee problems. Do they have international worldwide exposures. Where is their location. What industry are they in; some industries are more prone to litigation than others. They are going to look at diversity of business, and that means do they specialize in one business or are they operating businesses that are completely different. From a D\&O perspective as an underwriter, I prefer from experience having somebody that specializes in one area because you are getting more expertise and less likelihood of a D\&O exposure.

And from a liquidity standpoint, as a D\&O underwriter you are looking at how big the retention is on the policy. In this case it was approximately 2.5 million dollars. And you want to make sure if there is a claim that they have the

Page 4846
ability to pay the \(\$ 2.5\) million retention in order to make the policy work correctly.

MR. FIELDS: And Your Honor, I apologize, I think I forgot to move in Defense 49. So I move in Defense 49?

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 49 by the Court.)
Q How does underwriting D\&O insurance differ between private and public organizations?

A Well, generally in public there is a lot more information available. They have certain requirements that are required to do certain type of financial statements. They are required to do certain SEC filings. They are required to do -make more information publicly known.

Generally, private companies don't have that same standard of reporting requirement.

And so from my experience I know writing a private company there is going to be less information available, less -- generally, you know, it is not quite as easy to rectify it or check it because it is in a private nature compared to a public filing. So you just understand when you are writing a private company, you are not going to probably get as good information as you are in a public company that has to, really,

\section*{1}
expose everything they do.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q Do D\&O underwriters always review financials, or are there instances in which they would not?
A In my experience, I have seen very large carriers, um, not even look at financials in the private sector. They are more interested in claims history and the type of business and location, because they feel that's more indicative of future performance. So if they have a lot of claims, their probably gonna have a lot more claims. If they've not had claims, they are probably not going to have claims. Statistically, it seems to work that way. So they are going to look at those factors.

And they also understand that, you know, any financials from a private company are a mere snapshot. So while it may be true today, they could change tomorrow. So the relevance or how much weight they put into those are not as extensive as the other items they look at.

Q You mentioned "claims history." Do you recall, from your review of the documents or testimony regarding the D\&O policy, whether The Trump Organization had a long claims history for its \(\mathrm{D} \& \mathrm{O}\) ?

A I don't believe I saw any claims submitted under the D\&O policies I reviewed.

Q In your experience when -- well, let me withdraw that.
In your experience, do D\&O carriers and insureds disagree or litigate over policy coverage frequently?

A Yes. The nature of D\&O, the agreements or the
\begin{tabular}{rl|r} 
D. Miller - by Defense - Direct (Mr. Fields) & Page 4849 & D. \\
1 & requirements under a director's and officer's liability policy & 1 \\
2 & basically state that if you have any inclination that something & 2 \\
3 & might arise or lead to a claim, you have to report it. So that & 3 \\
4 & causes, you know, people to be cautious, report things that may & 4 \\
5 & never come to fruition, may never cause a claim, um, may never & 5 \\
6 & possibly be covered. And so that's up to the company to decide & 6 \\
7 & once that is reported. & 7 \\
8 & And in certain cases, there's, um, the policy limits & 8 \\
9 & who has to report a potential claim. And in this case, it was & 9 \\
10 & only the risk manager or the general counsel. If they had & 10 \\
11 & knowledge of a potential claim, they had to report it. & 11 \\
12 & So once that knowledge was done, they have to report to & 12 \\
13 & the claim. And then, you know, the insurance company is going & 13 \\
14 & to decide if they think it's covered, not covered. And then if & 14 \\
15 & that's not decided, then litigation occurs and the Court & 15 \\
16 & ultimately decides coverage, no coverage. So that's how it goes & 16 \\
17 & down the road, usually. & 17 \\
18 & Q All right. & 18 \\
19 & I would like to show you, just for a second, what's & 19 \\
20 & been admitted as Plaintiffs 597. & 20 \\

Page 4850

\section*{597?}

A Yes. This is the director's and officer's liability policy.

Q And who is the carrier?
A Um, Tokio Marine, HCC -- HAC.
Q Under item one, "Named Organization", what is the named organization?

A The Donald J. Trump Revocable Trust.
Q What does that mean? What does the "Named Organization" mean?

A They are the first named insured. They are the first named insured. The important person in the policy.

Q And "Policy Period" here is from January of 2017 to January of 2018?

A That's correct.
MR. AMER: January 30th, your Honor.
A January 30th.
THE COURT: Exactly.
MR. FIELDS: I still - that's accurate, January
of '17 to January of ' 18 . MR. AMER: It's not January 1st.
MR. FIELDS: I didn't say January 1st. I said January, but fair enough.
Q All right. Then you see under the section, item four, that says "Retention"?

\section*{A Yes.}

Q And what is the retention here?
A \(\$ 2.5\) million.
Q And generally, how does a retention work?
A That generally retention works -- means if there's a claim, and it's a covered claim and there's defense costs, um, or something paid out, the client, in this case, The Donald J. Trump Revocable Trust, would be responsible for the first \(\$ 2.5\) million of payment.
Q And the premium here is how much?
A Two hundred ninety-five thousand per year, for the policy period.

MR. FIELDS: All right. If we could scroll down to the bottom of the page where it says "Notice."
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q What is this?
A That's the standard notice that's put on excess surplus lines policy, which policies -- which is basically putting A person on notice that they have -- they don't have the protection of the, in this case, the New York Insurance Department looking at it or approving the forms. It means that they are going to use forms that aren't approved. They could use rates that are their judgment. So it just means that, you know, you have to pay attention because they aren't filed and

\section*{Miller - by Defense - Direct (Mr. Fields)}

Page 4852
regulated by the particular state.
Q Okay.
Did you have an opportunity to review some of this policy?
A Yes.
Q And does the policy provide for who the named insureds are?
A Yes, there is different endorsements where over -- they
added different named insureds and expanded the insureds on the policy.

Q And is there also a provision that discusses who has the requirement to report a claim if they have knowledge of a potential claim?
A Yes. That is the endorsement that I referred to. That's what we call a limiting endorsement. And they say that it doesn't matter who else knows about a potential incident.

In this case, they are only required to report it for coverage under the policy if the risk manager or the general counsel, whoever holds those two position, they are the required reporters of potential claims.

MR. AMER: Your Honor, I'm going to object and move to strike that answer after the word, "Yes." And his opinion on this notice provision is improper because it's not an opinion that was in his report, and disclosed.

It was not anything we had an opportunity to

1

Page 4854
question him about during his deposition. And I might add, is not relevant because late notice is not anything to do with this case.

MR. FIELDS: He can be cross examined on it, number one. But number two, this policy is in evidence, and he is just identifying that he reviewed it and that it provides for provisions for who has to have notice of a potential claim, so.

THE COURT: Well, I understand what you are asking, but I don't see the relevance at all.

MR. FIELDS: Well, the relevance is the government is alleging that this carrier, under this policy, was defrauded by the defendants. And if the Court --

THE COURT: But it has nothing to do with notice; right?

MR. FIELDS: It does, absolutely, because the government is going -- has put in evidence already about notice of claims. They did it on Friday. So it's an important provision that the Court has to be aware of, and it was just a highlighting that for the Court.

MR. AMER: So if we are going to discuss this, we may want to excuse the witness, but there's the second objection which Mr. Fields hasn't addressed, which is, the witness did not include any opinions on notice in his report.

MR. FIELDS: He --
THE COURT: Does it matter? If so we'll excuse the witness and fight about it.

MR. AMER: Well, that goes to relevance. I would like the witness to be excused if we are going to talk about relevance.

THE COURT: Okay. I'll ask the witness to be excused.
(Whereupon, the witness stepped down from the witness stand and exited the courtroom.)

THE COURT: Mr. Amer.
MR. AMER: Our insurance fraud claim involves disclosure during the underwriting negotiations, before the policy was in effect. It has nothing to do with notice of claim during the policy period. It's completely irrelevant.

THE COURT: Mr. Field, so far my understanding is, well, it's part of the policy, so it's relevant, but I don't see the relevance. But I don't see the point in objecting, either. So I'm caught between a rock and a hard place.

MR. AMER: Well, it would have been nice to have gotten this opinion at a point in time where I could have asked him questions about it during his deposition. So now I'm going ask him questions about it, and I hope I think I know what he's going to say in response, but I don't have it locked down in a deposition the way I would. And my line of
questioning is going to be all about the fact that this notice provision has absolutely nothing to do with the obligation of an applicant to disclose information about pending or threatened litigation during the underwriting negotiations. And I would guess, if I asked him at his deposition, he would agree. But now it's a little bit of a question.

THE COURT: So Mr. Fields, what about the objection that this was not included in his expert disclosure?

MR. FIELDS: Well, I think he's not really providing an opinion. He's interpreting a document that's in evidence based on his experience. He's not really saying, "I opine that this is what it says, or it's not." It's just what it says.

So I think the Court can look at it, determine what it says, and he could be cross examined over it. But that's really to the extent of what the questioning was going to be.

MR. AMER: That's actually a third reason not to admit this, your Honor. He's just asking him for his view of a contract language in an insurance policy. New York is clear, insurance policies are contracts, and they can be interpreted by the Court without the assistance of any expert witness. So why do we need to hear what this witness thinks about this notice provision, even if it were relevant

Page 4856
1 and even if it were a disclosed opinion.
MR. ROBERT: So can we just agree that it says what it says as to who is required to give notice, and we could shut this down.

THE COURT: Well, it says what it says.
MR. ROBERT: Is Mr. Amer is willing to agree?
MR. AMER: Then strike the answer and withdraw the question and we'll agree it says what it says.

MR. ROBERT: That's fine. Then there's no cross examination on that issue then either; that's fine.

THE COURT: The question is withdrawn. The answer is stricken.

MR. ROBERT: Good.
THE COURT: It says what it says, then let's move on.

MR. ROBERT: Thank you, Judge.
MR. FIELDS: No further questions.
THE COURT: Thank you for cutting through that. Who was it that cut through the Gordian Knot. Remember that mythology?

MR. ROBERT: I didn't hear that.
THE COURT: In Greek mythology, one of the heroes cuts through the Gordian Knot. No one else could untangle it; just cut right through it. Let's get the witness back.

By the way, does anybody know which novel that

THE COURT: Seems completely inconsistent. What am I missing?

MR. FIELDS: It's not, because these are just examples. It's not -- it doesn't suggest that he did, "has seen Forbes and USA Today used." He just put examples how it came up in this case.

MS. HABBA: I can say very clearly the question originally was, "What have you seen? He answered that question.

This is about what happened or that he knows happens. But the question is, "What has he seen?" He said he hadn't seen it before. It's not inconsistent.

THE COURT: That's not how I interpret the testimony.

Objection overruled.
Do we need a read back.
MR. AMER: I would like a read back.
THE COURT: Read back of the question, please.
(Whereupon, the requested testimony was read back by the court reporter.)
Q Yes or no?
A No.
Q When you testified under oath earlier this morning that it was the first time you had ever seen a surety underwriter rely on such information as an article in Forbes, that was
incorrect, wasn't it?
A No.
Q And here, in your report, you are saying that in your experience, some underwriters do, in fact rely on other means other than financials such as Forbes and USA Today. That's what you are saying here; right?
A Well --
Q Yes or no?
A I'm specifically referring to this case, that they used Forbes and USA Today.
Q Let's just look at what you wrote on the top of page nine of your expert report. You say - let's back up. Because the lead in to this.

MR. AMER: If we could go to the sentence before.
(Whereupon, the exhibit was displayed on the
screen.)
Q So we have it in context. You say "Whereas a public company may supply, audit the financial statements, privately held companies are far more likely to provide financial compilations, like The Trump Organization did here." See that?
A Yes.
Q Then you go on to say, "In some cases, because there is no legal requirement to have financial statements to write surety bonds, some underwriters..." -- let me stop there. That's some underwriters, not just Zurich underwriters, but some

Miller - by Defense - Cross (Mr. Amer)
Page 4864
underwriters in your expert experience; right?
A In that some underwriters do not require financials, that statement is correct.
Q Okay.
"And some underwriters" is not specific to some Zurich underwriters. You are talking, generally, some underwriters do not require financials; right?
A That's correct.
Q Okay.
And you go onto say "....and instead use their experience and other means, such as Forbes and USA Today, to satisfy their underwriting needs"; right?

A That's correct.
Q And here you are talking about, in general, underwriters, not specifically Zurich underwriters?
A No, that's not correct. The parens are referring, in this case, the Zurich underwriter used Forbes and USA Today.

Have I seen underwriters use internet searches or different things that they do, or, you know, when I say they use different experience or different means, um, or different -different things to satisfy their underwriting needs, but this was the first time that I say it specifically the use of Forbes and USA Today as specifically named, those two specific media publications, this was the first time that I saw those two specific, Forbes and USA Today, used as an underwriting tool in

Q And your last position there was senior vice president, division officer; is that right?
A Senior vice president, division officer, chief underwriting officer, and corporate risk manager.
Q And at some point during your time at Erie, you were responsible for the company's underwriting of all commercial lines of insurance; correct?
A That's correct.
Q And one of those lines of insurance, commercial lines of insurance was surety; correct?

\section*{A Correct.}

Q So, can we agree that there is no doubt, based on your many years of experience as an underwriter, that surety is, in fact, a form of commercial insurance?

A It's part of the -- it was part of my commercial division, yes.
Q Different question. I just want to clarify that
there's no doubt, based on your experience as an underwriter, that surety is, in fact, a form of commercial insurance?

MR. FIELDS: Objection. Calls for a legal conclusion.

THE COURT: No. No, it calls for an expert opinion.

MR. FIELDS: Then I would ask that the question be referred to what state he's referring to, because insurance
is regulated by the state.
THE COURT: Okay. Let's give a state context.
Q Every state in the country.
A I -- I don't know the regulation of every state in the country, but in general, I would say the answer is, yes.
Q And specifically in New York, is the answer yes?
A I would I believe it can be considered commercial business, yes.
Q Commercial insurance business, yes?
A Yes.
(Continued on the next page.)

Q You would agree that a surety underwriter should look at reasonable risk factors when considering whether to underwrite a surety bond program for a particular applicant for insurance, right?

A The answer to that is that that doesn't always happen because of business considerations.

Q I didn't ask what typically happens. I asked you "should."

Let me rephrase the question and just answer my question, if you could.

You would agree that a surety underwriter should look at reasonable risk factors when considering whether to underwrite a surety bond program for a particular applicant, yes?

A I think it depends on the situation.
Q Well, you determined that Zurich had normal underwriting guidelines that included sufficient liquidity as a reasonable risk factor, right?

A I believe that surety in general they would look at, you know, that's part of the 3Cs I discussed earlier.

Q That wasn't my question because it is specific to Zurich. You determined that Zurich had normal underwriting guidelines that included sufficient liquidity as a reasonable risk factor; isn't that correct?

A I don't believe I stated that they had normal
guidelines that -- that -- that included liquidity, I don't believe. In the testimony this morning I said that --

Q Well, let's look at your deposition testimony, which you gave prior to today. And let's look at page 31.

A Okay.
Q And you recall you gave testimony under oath at a deposition, right?

A That's correct.
Q Looking at line 19: "And so my question to you is, did you make an assessment that Zurich had normal underwriting guidelines that included sufficient liquidity as a reasonable risk factor?
"ANSWER: Yes, I made that from my experience and knowledge of the business."

That was your sworn testimony at your deposition, correct?
A Yes, but I --
Q Are you --
A I believe your question was different than what you just asked. Yes, I agree with what I said there.

Q I actually, sir, think that my question was exactly the question that is up on the screen. But, you are not disavowing your deposition testimony are you?

A No.
Q And you agree that liquidity is an important risk
factor that should be part of the underwriting guidelines for a company issuing surety insurance, correct?

A I believe liquidity is what they look at to make sure they are going to get repaid in case there is a claim, yes.

Q But my question was different, sir. You agree that liquidity is an important risk factor that should be part of the underwriting guidelines for a company issuing surety insurance, yes?

A Yes, I believe they look for liquidity.
Q And it is an important risk factor, yes?
A Well, to make sure they can repay the claim. That's the purpose of the indemnification.

Q Yes or no; is it an important risk factor?
A Liquidity?
Q Yes.
A Yes.
MR. AMER: Let's look at the 2019 underwriter's
review, which is Plaintiff's Exhibit 1552 in evidence.
Q This is a document you reviewed and relied upon in forming your opinions in this case, yes?

A Yes.
Q And I believe you testified that nothing changed between this review and the prior underwriting review which would have been by Ms. Caulfield; is that your testimony?

A My testimony was referring to the financial review

Miller - by Defendant - Cross (Amer)
Page 4874
summary section, and it being filled in or not being filled in. And in the case I said it wasn't filled in, like the other ones weren't filled in. I believe that's what I said.

Q So when you said, nothing changed, you were only referring to this first financial review and summary section, correct?

A That section not being completed, that's correct.
Q You weren't intending to suggest that nothing had changed in terms of the underwriting that had been done, right?

A The -- of what - no, the question that was asked was specifically, my recollection, was specifically about that section.

Q I wasn't asking about the question that was asked. I was asking a new question.

You are not suggesting, are you, sir -THE COURT: Speak up.
Q You are not suggesting, are you, sir, that nothing had changed from the prior underwriting year from an underwriting standpoint?

A I would have to compare what was done.
Q Okay. Well let's look at what was done.
And if we go down to the personal financial analysis section, you understood from your review of this document that Ms. Markarian, now Mouradian, conducted an on-site review in the latter part of November 2018 for the 2019 renewal of the
surety program, right?
A Correct.
Q So, that is a new underwriting change, isn't it?
A Her review of the financials?
Q Yes.
A Yes.
Q And the third bullet -- well, and what she reviewed at that in-person review was the \(6 / 30 / 2018\) personal financial statement of Donald J. Trump, correct?

A Correct.
Q And that was something that was new that Ms. Caulfield hadn't done, right?

A I believe that's correct.
MR. FIELDS: Objection. That was misleading. Is he referring specifically to the June 30, 2018
Statement of Financial Condition or any Statement of Financial Condition prior to then?

MR. AMER: My question was that that was new because Ms. Caulfield hadn't reviewed that 2018 financial statement.
Q Right?
A Correct. She was no longer with the company.
Q And in the third bullet Ms. Mouradian states that there was cash on hand of 76.2 million as reflected on Mr. Trump's 2018 statement, right?

Miller - by Defendant - Cross (Amer)
Page 4876
A Correct.
Q And as an underwriter, you understand that figure is a measure of Mr. Trump's liquidity, correct?

A Correct.
Q And you would agree that Ms. Mouradian in this annual review determined, based on the cash on hand amount disclosed in the 2018 statement, that Mr. Trump had sufficient liquidity to cover her risk of acceptance on behalf of Zurich, yes? A Yes.

MR. AMER: And let's look at Plaintiffs Exhibit
1561 in evidence, which is the next year's underwriting review.
Q And if you go further down. Under party name, you will see it indicates that this is an in-person review of the 2019 Statement of Financial Condition. Right?

A Yes.
Q And the second bullet indicates that Ms. Mouradian reviewed this 2019 statement on January 15, 2020, correct?

A Correct.
Q And that was not anything that Ms. Caulfield had done in her prior underwriting of the risk, correct?

A She didn't look at the \(6 / 19\) personal statements, no.
Q And I am correct that you did not review or consider this document in forming your opinions in this case, correct?

A I believe it didn't change my opinions, so there was
no reason to note it.
Q Different question.
THE COURT: That wasn't the question.
Q My question is, you did not review or consider this document in forming your opinions in this case, correct?

A Is it -- I don't know the answer to that without looking at my - can I look and see if the number of that document is listed that I reviewed it?

Q Sure.
A Okay. And what -- the 2019 annual review Zurich -\(008507 ?\) Is that the document, sir?

Q Go down to the Bates number.
A I don't see that one listed.
Q Would it refresh your recollection if I tell you that you saw this document for the first time at your deposition?

A Okay.
Q Does that refresh your recollection?
A Yes. I thought I saw it but I didn't see it on my list here.

Q So we can agree that in forming your opinions you did not consider any of the information Ms. Mouradian recounts in this document about her in-person review of the 2019 statement, correct?

A Correct.
Q And you see in the fourth bullet Ms. Mouradian notes

Page 4878
from her review of the Statement of Financial Condition that cash on hand was \(\$ 87\) million, yes?

A Yes.
Q And again, you understand that that's a measure of Mr. Trump's liquidity, correct?

A Yes.
Q And you would agree that Ms. Mouradian in this annual review determined based on the cash on hand amount disclosed in the 2019 statement that Mr. Trump had sufficient liquidity to cover her risk of acceptance on behalf of Zurich, yes?

\section*{A Yes.}

Q And can we agree based on the two annual reviews we just looked at relating to Ms. Mouradian's on-site reviews of the 2018 and 2019 statements, that she considered the reasonable risk factor of sufficient liquidity when underwriting this risk?

\section*{A Yes.}

Q In your experience, is it the case that surety underwriters are permitted and encouraged to use their discretion considering, among other things, the character of the insured?

A Yes.
Q That's what you referred to as one of the three Cs right?

A Correct.

Q And that would also include for this particular program the character of the indemnitor guaranteeing payment if there is a loss, Mr. Trump, right?

A Correct.
Q Would you agree that it would negatively impact your assessment as an underwriter of an indemnitor's character if you learned during the underwriting negotiations that the indemnitor had fraudulently inflated the amount of cash on hand listed on his personal financial statement by 25 percent or more?

A I would have no way of knowing that as the underwriter.

Q That wasn't my question.
THE COURT: That wasn't the question.
A Okay. Well --
MR. AMER: Can I get a readback, Your Honor? THE COURT: Please.
(Whereupon, the record was read back by the court reporter.)
Q That's a yes or no question.
A I don't think it is quite that simple, but yes.
Q During the period that Ms. Caulfield was the underwriter on the account, she did look at Mr. Trump's personal financial statement, correct?

A I believe so.

A I believe so, correct.
Q In forming your opinions, you did review
Ms. Mouradian's sworn testimony from her interview with my office that took place in December of 2021, right?

A Correct.
Q And nothing about her testimony indicated to you that she had deviated from Zurich's normal guidelines about the need for Mr. Trump, as the indemnitor on the program, to have sufficient liquidity, correct?

A Correct.
Q Let's look again at Plaintiff's Exhibit 1552 in evidence, which is the annual review where Ms. Mouradian looked at the 2018 statement. And I want to direct your attention to the fourth bullet. And the second sentence of that bullet that starts, "the fair value."

Are you with me?
A Yes.
Q She writes: "The fair value of the properties is determined by professional firms (such as Cushman \& Wakefield) using cap rates and net operating income as factors." Do you see that?
A Yes.
MR. AMER: I would like to put up on the screen
\begin{tabular}{|cc|}
\hline Miller - by Defendant - Cross (Amer) & Page 4881 \\
1 & some of Ms. Mouradian's trial testimony about this \\
2 & language. And let's pull up -- it is from the exhibit \\
3 & that we put into evidence of her report. \\
4 & It is Plaintiff's Exhibit 3324. And let's go to \\
5 & page 48, line 21. We will blow it up for you so you can \\
6 & see it. \\
7 & Actually, it is 49. Sorry. Can we start at 49? \\
8 & We are going too far, sorry. Back down. \\
9 & 49:10. \\
10 & "QUESTION: And then you write after noting the \\
11 & 6 billion connected to his real estate and Golf Club \\
12 & resorts, quote, 'The fair value of the properties is \\
13 & determined by professional firms (such as Cushman \& \\
14 & Wakefield) using cap rates and net operating income as \\
15 & factors.' Where did you get that information from? \\
16 & "ANSWER: I got that from Allen Weisselberg. \\
17 & "QUESTION: And what do you remember \\
18 & Mr. Weisselberg telling you about the fair value of the \\
19 & properties? \\
20 & "He was telling me that they use professional \\
21 & appraisal firms to get the values that they then -- that I \\
22 & would then see on the personal financial statements I was \\
23 & reviewing." \\
24 & MR. AMER: And then skip down to -- keep going. \\
25 & Keep going. You went too far. \(51: 17\).
\end{tabular}
\begin{tabular}{|c|c|}
\hline \multicolumn{2}{|l|}{Miller - by Defendant - Cross (Amer) Page 4882} \\
\hline 1 & "Did this information about Cushman \& Wakefield \\
\hline 2 & determining the valuations, have any bearing on your \\
\hline 3 & assessment of the 2018 statement? \\
\hline 4 & "ANSWER: Yes, it had bearing. \\
\hline 5 & "QUESTION: And how so? \\
\hline 6 & "ANSWER: Well, it was important to note because \\
\hline 7 & they were using a third-party appraisal firm to get the \\
\hline 8 & values. And I thought that was a good thing. And I noted \\
\hline 9 & that." \\
\hline 10 & Mr. Miller, as an expert witness you are not offering \\
\hline 11 & \\
\hline \multicolumn{2}{|l|}{12 that we just read, are you?} \\
\hline 13 & A No. \\
\hline 14 & Q You are prepared to accept her testimony as true, \\
\hline 15 & correct? \\
\hline 16 & A Yes. \\
\hline 17 & Q And you understand that the Trump Organization is a \\
\hline 18 & privately held company, right? \\
\hline 19 & A Yes. \\
\hline 20 & Q And you would agree that for a privately held \\
\hline 21 & company, typically an underwriter would have no independent \\
\hline \multicolumn{2}{|l|}{22 means to verify information provided by the insured during the} \\
\hline \multicolumn{2}{|l|}{23 underwriting process, yes?} \\
\hline 24 & A Correct. \\
\hline 25 & Q And therefore it is more difficult for the \\
\hline
\end{tabular}
underwriter to get independent verification of financial information for a private company as compared to a public company, yes?

A Correct.
Q And you don't have any opinion as to what information would have been available to Ms. Mouradian to allow her to verify the figures in the 2018 statement, right?

A Correct.
Q And you would agree that Zurich's decision to renew the surety program in 2019 and 2020 was a competent business decision, correct?

A It was a business decision, yes, I agree with that.
Q That wasn't my question though.
A You said competent.
Q I said "competent." And you would agree that it was a competent business decision, wouldn't you?

A They were making money on the program, so I would consider that a solid underwriting decision.

Q Was it a competent business decision, sir; yes or no?
A Yes.
THE COURT: Mr. Miller, please get a little closer to the mic, you are a mile away -- or at least a yard away.
Q And you are not offering an opinion one way or the other about whether Trump Organization representatives made

Page 4884
misrepresentations to Ms. Mouradian during her on site reviews, correct?

A Correct.
Q And similarly, you are not offering an opinion one way or the other about whether Trump Organization representatives made misrepresentations to HCC or Tokio during the renewal of the D\&O coverage, correct?

A Correct.
Q And I do want to shift now to the D\&O coverage. You are familiar with the so-called warranty question that a D\&O underwriter appropriately and typically asks an applicant who is seeking to purchase new coverage, correct?

A Correct.
Q And generally speaking, the warranty question is a question that asks the applicant if they are aware of any facts, situation or circumstance that might reasonably be expected to give rise to a claim, right?

\section*{A Correct.}

Q And you would agree that the warranty question should prompt the applicant to disclose if there are any pending or threatening government investigations that the applicant reasonably expects to give rise to a claim, correct?

A Well, the question is whether -- the question of the warranty statement is if their perception is that it is going to give rise to it. And I don't know what their perception of

\section*{Page 4886}

I am correct, you did not review or consider this document in forming your opinions in the case about D\&O coverage, right?

A Correct.
Q You saw this document for the first time in your deposition after you had already submitted your expert report, correct?

A Correct.
Q Let me draw your attention to the fourth paragraph up from the bottom, the one that begins: There is a best practices manual. Do you see that?

\section*{A Yes.}

Q And I want to ask you about the last sentence in that paragraph, where Mr. Holl writes: "No material litigation or communications from anyone." Do you see that?

A Yes.
Q And I want to show you Mr. Holl's trial testimony about that sentence and then ask you a question about it. This is from the trial testimony page 2500 , line 20 :
"QUESTION: Directing your attention to the next paragraph, you say in the last sentence of this paragraph, 'no material litigation or communications from anyone.' What did you intend to reflect in that comment?
"ANSWER: Its standard practice in meetings with management to ask them if they are aware of something
that's not public; that is, litigation or notices or communications that could lead to litigation that would implicate the D\&O policy."

\section*{Do you see that?}

A Yes.
Q Do you agree with Mr. Holl that it is standard practice to ask the insured this type of question?

A They could ask the question but the -- the warranty statement as you talked about is industry standard, is that it is only permissible to ask that at the first time you write the policy. So upon writing a policy they ask the warranty statement. And at renewal time it is not appropriate to ask for a warranty statement. It is a representation, which is different, as you know. So, they can ask about that but it wouldn't be considered a warranty statement for the policy purposes.

Q You understand that at the January 10, 2017 underwriting meeting the Trump Organization was seeking to add coverage up to \(\$ 50\) million beyond the \(\$ 5\) million that they already had in place. Correct?

A Correct.
Q And so that was all new coverage, wasn't it?
A But \(I\)-- I don't believe that was ever put in place.
Q Was it new coverage or not, that they were seeking?
A They were looking for new coverage, yes, but I don't

Page 4888
believe it was put in place.
Q And Mr. Holl testified at trial that he didn't
believe that the stub policy in December that he had quoted was
actually ever bound; were you aware of that?
A Yes.
Q And so this in January 10, 2017 this was new coverage for HCC, wasn't it?

A Well --
Q Yes or no?
A It would have been a new layer for them, yes. But it --

Q Well, if they hadn't bound the stub policy it would have been a new risk for them entirely because they weren't already on the risk, right?

A Yeah, but he said he didn't believe that it was bound. I don't know whether it was bound or not from what I read. I can't tell. I guess the only people that know that is maybe AON, the broker, if they bound it or not, because I wasn't clear whether it was ever bound or not. So they either had to follow the fortunes of the lead company and they put in a layer, of which then they wanted to become the primary to have more control over the policy.

Q I think you agreed not too long ago that as an expert witness you don't - you are not here to give opinions about the credibility of witness testimony, right?

A Correct.
Q So when Mr. Holl says he doesn't believe that the stub policy was ever bound, you are prepared to accept that, aren't you, as an expert witness?

A I am willing to accept that that's his belief, yes.
Q And let's just put up your deposition testimony on page 138 , line 18: Where the question begins:
"Mr. Holl says, 'It is pretty standard fare to ask if there is any litigation or inquiry that could potentially lead to a claim.'

Do you agree with that?
"ANSWER: When they are discussing the warranty statement I believe that would be, you know, a question that they were asked just verifying the warranty statement.
"QUESTION: Standard fare to do that, correct? "ANSWER: Pretty much, yes.
Q That was your sworn testimony at your deposition, right?

A And I agree with that.
Q You discussed claims history on the D\&O cover, correct, in your direct testimony?

A Yes.
MR. AMER: Let's go ahead and mark Plaintiff's
Exhibit 3394. We don't have copies of it. We will just

MR. FIELDS: He just said for all purposes, Your Honor.

MR. AMER: It is not hearsay. This is a letter from an agent of the Trust acting in their capacity as agent; and it comes in as an exception to hearsay.

THE COURT: It comes in for various reasons. It is not a statement -- is it a statement of some independent facts?
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
\begin{tabular}{|c|c|}
\hline & by Defendant - Cross (Amer) Page 4890 \\
\hline & put it up on the screen. \\
\hline 2 & Q This is a letter -- \\
\hline 3 & MR. AMER: We do have copies of it. \\
\hline 4 & (Handing) \\
\hline 5 & MR. AMER: You are the best to the right of me. \\
\hline 6 & Q This is a letter from AON dated February 8, 2019 to \\
\hline 7 & HCC, correct? \\
\hline 8 & A Yes. \\
\hline 9 & Q And this is a letter providing notice of claims on \\
\hline 10 & behalf of the Trump Revocable Trust, correct? Do you see that \\
\hline 11 & in the first sentence? \\
\hline 12 & A Yes. \\
\hline 13 & Q And there are a list of claims in bullet points on \\
\hline 14 & this first page. Do you see it references receipt of various \\
\hline 15 & inquiries from Congress, and other items in the other bullets; \\
\hline 16 & do you see that? \\
\hline 17 & A Yes. \\
\hline 18 & Q And this was a -- this was tinder of notice of claims \\
\hline 19 & by the trusts broker of record, AON, correct? \\
\hline 20 & A Yes, that's where it appears it came from. \\
\hline 21 & MR. AMER: Your Honor, I move that this be \\
\hline 22 & admitted into evidence for all purposes. \\
\hline 23 & MR. FIELDS: Objection, hearsay. \\
\hline 24 & THE COURT: It is not being introduced to prove \\
\hline 25 & the truth of its contents, it is notice. \\
\hline
\end{tabular}

MR. AMER: It's a statement of claim notice.
THE COURT: Well, what do you want to introduce it for?

MR. AMER: That the Trust gave notice as indicated by this letter, because they received these various inquiries --

THE COURT: It's in, clearly.
MR. FIELDS: For the truth of the matter, sir, or just for notice?

MR. AMER: For everything.
MR. FIELDS: I'm asking the Court.
MR. AMER: Sorry.
THE COURT: For the truth of the matter asserted. Statements against interest, who is going to say we are being investigated when they are not being investigated.

MR. FIELDS: Certainly the -- not this witness.
THE COURT: Common sense, too.
MR. FIELDS: This witness cannot say he's not an expert. I don't think the foundation has been laid for that.

THE COURT: The foundation is the document itself. Mr. Amer, you want it in for all purposes?

MR. AMER: Correct.
THE COURT: It's in for all purposes.
MR. AMER: Thank you. You could put that down,
D. Miller - by Defense - Cross (Mr. Amer) Page 4893

1 because I have no questions to ask you beyond what I've

\section*{Page 4894} already asked you about that document.

THE COURT: Five-minute warning.
MR. AMER: Okay.
(Whereupon, the exhibit displayed on the screen was taken down.)

MR. AMER: Can you give me just a minute, your Honor.
(Whereupon, there is a brief pause in the testimony.)
Q Just a couple of quick questions, and then I'm done, so we could actually be done with the witness before lunch, unless there's redirect.

In a surety program, often surety bonds, once issued cannot be cancelled; is that right?

A Yeah, it depends on the wording. That's correct.
Q Can you confirm from your review of the documents in this case that some of the bonds issued by Zurich for The Trump Organization are non-cancellable; correct?
A Yes. We reviewed that.
Q So even if a surety insurer were to cancel or non-renew a surety program, if there are non-cancellable bonds that have been issued, those would remain in place and the surety insurer would remain on the hook; correct?
A Correct.
```

MR. AMER: That's all I have, your Honor. THE COURT: Any redirect?
MR. FIELDS: Briefly, your Honor.
THE COURT: Great. Redirect.

```

\section*{REDIRECT EXAMINATION}
```

BY MR. FIELDS:

```

Q Mr. Miller, you were asked by Counsel about a 2019 annual review that you saw for the first time at your deposition. Do you recall that?

A Yes.
Q After reviewing that, did you change your opinion?
A No, I did not.
Q Same thing for Ms. Mouradian's trial testimony, did anything that Ms. Mouradian said in her trial testimony change any opinion you had?
A Not at all.
Q You were also asked by Counsel about Ms. Mouradian's inability to verify figures in the Statement of Financial Condition from 2018. Do you recall that?
A Yes.
Q Could Ms. Mouradian have asked to see bank accounts?
A Yes.
Q From your review of the records, did she do that?
A I don't believe so, no.
Q Could Ms. Mouradian ask to have seen the appraisals
that she alleged were discussed with her?
A Yes.
MR. AMER: Objection. That's -- that mischaracterizes the testimony. I don't think she talked about appraisals. She talked about valuations.

MR. FIELDS: The word "appraisal" comes up on the --

THE COURT: Overruled.
Q Did she, based on your review of the documents, did she ask to see the appraisals?

A No.
Q And then you were also asked by Counsel about character, specifically with regard to if an underwriter becomes
aware that property values have been inflated and how that would affect the character of the company.

Do you recall that?
A Yes.
MR. AMER: Objection. I didn't say properties. I said, "Cash on hand."

MR. FIELDS: I think you said "asset values", but be that as it may.

MR. AMER: I said, "Cash on hand was inflated."
THE COURT: I think it was cash on hand. MR. FIELDS: Fair enough.
Q Mr. Miller, you were asked about cash on hand and

Page 4896
whether the cash on hand had been inflated and how that would affect the underwriter's decision; right?

A Yes.
Q And I think Mr. Amer asked you if that would negatively impact the underwriter's decision; do you recall that?

A Yes.
Q In your experience, when a government entity has alleged that a company has committed fraud, does the insurer continue to do business and write bonds for that company?

MR. AMER: Objection. It's irrelevant to what I asked the witness.

THE COURT: Let's just hear the answer. Overruled.
A If the company would become aware that there were fraudulent statements, um, the likelihood that they would continue doing business is not very high.

Q Have you ever, in your experience, seen carriers agree to continue doing business with somebody that a government entity has alleged has defrauded them?

A In my 40 years, no.
MR. FIELDS: Thank you.
THE COURT: Any recross?
MR. AMER: No.

\hline Proceedings & Page 4898 \\
1 & witnesses, Mr. Williams, Mr. Sullivan, Ms. Pereless and \\
2 & Ms. Vrablic. \\
3 & MS. GREENFIELD: And we think they will take two \\
4 & days? \\
5 & MR. ROBERT: Yes. Thursday, like I said, might be \\
6 & Birney, and probably Mr. Unell on Thursday as well, but \\
7 & we'll keep you posted. \\
8 & MS. GREENFIELD: Assuming we get through Hawthom \\
9 & and Birney on Monday, who will Thursday be? \\
10 & MR. ROBERT: Unell. \\
11 & MS. GREENFIELD: And -- \\
12 & MR. ROBERT: Unell will take the better part of \\
13 & day, maybe even more. \\
14 & MS. GREENFIELD: How much direct do you have? \\
15 & MR. ROBERT: I'm not doing the direct. I don't \\
16 & know, but I know it will probably be the most part of the \\
17 & day. \\
18 & MS. GREENFIELD: Okay. And Friday? \\
19 & MR. ROBERT: I don't know yet. \\
\hline 20 & THE COURT: And some housekeeping by the \\
21 & plaintiff's side. \\
22 & MS. FAHERTY: Yes, your Honor. During the \\
23 & examination of Dr. Laposa, we projected on the screen prior \\
24 & testimony. It has been our common practice that once we put \\
25 & prior testimony on screen, we generate a report with the
\end{tabular}
witness stand.)
(The case on trial was adjourned until 2:15 p.m. for the luncheon recess.)
\(\underset{*}{\text { AFTERNOON}} \underset{*}{*} \underset{*}{\text { SESSION }}\)
THE COURT OFFICER: All rise. Part 37 is back in session. The Honorable Judge Arthur Engoron presiding. Please be seated and come to order.

THE COURT: That time the people in Battery Park stood up. You want to talk scheduling for a few moments?

Okay, I'll turn the microphone over to the person

MS. GREENFIELD: Okay. So who do we now have for

MR. ROBERT: For the 27th is going to be
MS. GREENFIELD: Is that going to be a whole day?
MR. ROBERT: It might very well be. We may call
Mr. Birney on the 27th, although more likely than not Mr. Birney on the 30th.

MS. GREENFIELD: Assuming we have Hawthorn and

MR. ROBERT: The 28th and 29th combined, we don't know where the spillover will be. It will the Deutsche Bank
questions and answers shown. We've marked as an exhibit, PX-3393, that portion of prior testimony that was displayed. I've shown it to defense Counsel. I don't think they have any objection to this.

MR. ROBERT: Based on Ms. Faherty's representation, we have no objection.

MS. FAHERTY: So I move to admit PX-3393, your Honor.

THE COURT: Granted. It's in.
MS. FAHERTY: Thank you.
THE COURT: Would defendants like to call their next witness.

MR. SUAREZ: Your Honor, good afternoon. The defense calls Jeff McConney.
(Whereupon, the witness stepped into the witness stand.)

THE COURT OFFICER: Please raise your right hand. (The witness complied.)

THE WITNESS: Yes, sir.
JEFFREY S. McCONNEY, called by and on behalf of the Defendant, having been first duly sworn, was examined and testified as follows:
    A Whatever was prescribed by the requirements. I
remember cost accounting, tax, federal taxes, other than that, I
don't remember the specific courses.

Q Do you have any other post-college education?
A No, sir.
Q Are you a CPA?
A No, sir.
Q Have you ever been a CPA?

A No, sir.
2 Q Where were you employed after college?

Page 4902
taxes involved.
But in those days, pre-computers, it was all basically manual work. As time went on, I did more accounting work. I worked on President Trump's father -- Fred Trump had a real estate business in Brooklyn, and I worked on that account for a number of years. And I worked my way up the ladder, kind of managed the account for the CPA firm.

Q Was that the account for President Trump's father, Fred Trump?

A Yes.
Q And as the CPA firm, what work, if any, did you do for President Trump?
A President Trump was still, back in 1986, was still working out of his father's office in Brooklyn. Um, the accounting office was located in -- basically, Fred Trump's office was in an apartment building, the first floor of an apartment building. So he just gutted a bunch apartments, so you had to walk your way through a maze; Fred Trump and President Trump in the back. We called it the "executive office", something like that. Outside of that was the accounting office, so that's where I would deal with the accountants.

At a certain point in time, I think it was somewhere in the end of 1986, President Trump moved to New York City and started his business in New York City.
J. McConney - by Defense - Direct (Mr. Suarez)

Page 4903

He had a few properties that I dealt with. One was Penn Yards, which was on the West Side. It's now called Hudson Waterfront, I believe. Um, he had USFL Generals, which was just winding down. I think he was mainly in casinos at that point. He had a partnership with the Pritzker family for the Hyatt Hotel by Grand Central Station or above Grand Central Station. Um, I think he had finished construction of the co-op on Third Avenue on East 61st Street called Trump Plaza. I believe Trump
Tower was finished -- well, I know Trump Tower was finished when I started working there. So he had the condominium there, um, and the commercial space. And the Trump Corporation, um, basically is about the entities that I could think of right now.
Q What work did Spahr Lacher, the Spahr Lacher firm, do for President Trump while you were there?
A They -- I know they prepared the tax returns for the entities that Mr. Trump had, like Penn Yards associates. Um, they prepared, when I later became involved in the President's Statement of Financial Condition, um, one of the last items I dealt with before I started working for The Trump Organization is Jerry Rosenblum provided me with the financial statement that he prepared for the company, the company being The Trump Organization. And he asked me, he said, "Go through it. This is the items you'll be dealing with over time."

I've come to learn that Jerry basically did all the valuations, wrote the footnotes. He was a great writer. Jerry
J. McConney - by Defense - Direct (Mr. Suarez)

Page 4904
was my mentor. I'm sorry, and Jerry wrote the footnotes.
Q How did you come to work at The Trump Organization?
A Allen Weisselberg worked for Fred Trump in the accounting department. The controller for that accounting department for Fred Trump's properties left. A new controller came in and he said to Allen, "I need a desk to hire another accountant to do Fred's work. Why don't you go up, speak to the president, who was Mr. Trump at the time, and see if he can put you in an office up there."

Allen went to work for President Trump in Manhattan in October of '86. The Generals, like I said, were winding down, so at that point in time the controller for the Generals, his name is Ray Shetzel (phonetic), came to work with Allen as the assistant controller. Ray was a sports guy. He ended up working for the Nets. And then Allen hired me in April of ' 87.

Q What were your responsibilities at The Trump Organization when you were first hired?

A Um, in those days it was a lot smaller. The staff was smaller, the number of properties we owned, managed, developed was smaller. Um, I was manually posting general ledgers where, um, you have a cash receipts book where you -- it's all done by hand. You would write up the deposits. You have a cash disbursements book, you write up all the checks and debits to the account. You extend them to certain general ledger accounts. They were summarized. And I would do the posting to
these general ledgers by hand, kind of tidy up the football Generals, their kind of business. Basically, I was cleaning out the office with a couple of other people.

Um, they dealt with the property manager down in Mar-a-Lago. At that point in time it was a private residence, so I would give this gentleman a budget, kind of monitor his budget over time. Um, and I remember I was given directions, tell the gentleman that the GM -- I forget his name, that he has a million dollars to spend for Mar-a-Lago. I call him up, I said, "Dude, a million dollars, what are you spending all the money on?" He comes up with a list. At some point in time I go down there and I looked around; 117 rooms, 17 acres, you've got grass you have to mow, you have a building to maintain. I said, "How do you run this on a million bucks?" So I didn't really understand the size of the asset until I actually went to see it.

Mr. Trump had casino licenses, so I was in charge of, at the beginning, helping to fill out the renewal forms. These were mainly in Atlantic City at the time. Later on as Mr. -President Trump went to look at various other locations, Nevada, California, I was in charge of putting together the applications and then dealing with the investigators as they came in to explain all the information we provided to them.

Um, over time it just grew. As we, um, obtained new properties, we developed new properties, my job just grew, and I

Page 4906

\section*{J. McConney - by Defense - Direct (Mr. Suarez)}
would take whatever work I could get.
Q And during this time did you continue to work with the Spahr Lacher Naimer firm?

A All the time. We had such a small staff that we usually kept our books on what's called a cash basis, which just means money in the bank; money out of the bank from January 1st to December 31st. Even though we only had a few entities, we didn't have the bandwidth to actually take those cash basis general ledgers and make them accrual basis general ledgers, or work papers to prepare tax returns.

Um, what I mean from "cash" to "accrual" is, say, if you have an insurance policy that covers from July 1st to June 30th, you can't take that full expense in one year. You've got to spread it over two years. So Mazars, Spahr Lacher would make journal entries to set up the right prepaid expenses. If it was a rental property or a condominium, just set up the accounts receivable, the accounts payable, and then they would prepare the tax returns for us. So they kind of an extension of what we would do.

Q Did Spahr Lacher eventually become Mazars?
A Over time, yes. There were a number of mergers or acquisitions. I don't know who acquired who, but they came what they are today, Mazars.
Q When did you first begin working with Donald Bender on matters relating to The Trump Organization?

A Donald Bender was hired, I think, two or three years after I was working at Spahr Lacher. Donald would work on his thing, I would do my clients -- he would have his clients; I would have my clients. At some point in time, Jerry Rosenblum retired and Donald Bender took over the Trump account, and it was around that time I would start dealing with Donald daily, weekly, monthly, whatever we needed.

Q And?
MR. AMER: Excuse me. Can I ask, since we have multiple Donalds in the case --

THE WITNESS: Can I call him Bender, if I remember, and President Trump, and Don, Jr.?

MR. SUAREZ: Mr. Amer, we finally found a point of agreement. I was about to make the same point. MR. AMER: It had to happen eventually. MR. SUAREZ: Eventually.
Q What work did Mr. -- withdrawn.
What work would Mr. Bender do for The Trump Organization when you first joined?

A It's a long time ago. Again, he would take our cash basis general ledgers, produce work papers from that, like booking all these journal entries. He would prepare the tax returns. And know I know his baby -- he used to call it his baby. It was Trump Tower. The commercial space, the stores and the office space. And he would take -- originally we had a

McConney - by Defense - Direct (Mr. Suarez)
Page 4908
managing agent that did most of those receipts and disbursements. Later on we brought it in-house, and he would take that information, make all his journal entries, and he would tell me, "I did 70 entries this year. I did 60 entries this year to bring it to an accrual basis statement and prepare the financial statements and the tax returns."

\section*{Um --}

Q In what year did you first start working with Mr. Bender on Trump Organization matters?

A It was probably from day one when I started there. He was -- what I remember, he was involved in everything.

Q What involvement, if any, did Mr. Bender have in maintaining the books and ledgers of entities under the Trump Organization umbrella?

A He basically was, I would say, an extension of our accounting department, because our staff was so small, and he would take our cash basis statements and go through them. He would look at the expenses to see if we miss posted an expense from, say, elevator maintenance that should be have been HVAC, or whatever. So he went through our receipts to make sure if there was a rental property, all the rents were collected. The accounts receivable entry was booked, so if we knew tenants owed us money, we book a an accounts receivable entry. If they prepaid December 31st, they paid for January, he would set up the prepaid expenses.

He would book the depreciation. He would go through all our capital costs, set up a depreciation schedule to review for tax on the financial statements. He would work on the footnotes and give any details that needed to be disclosed according to the guidelines he had to live with.

Q What level of access did Mr. Bender have to the Trump Organization's books and records?
A At times he, during the audit season, early in the year when he would come in to work on the audits, one of the jobs they had, when I first started, was computerizing these books from manual books to a computerized system. That was in 1990 or 1991. So at that point in time he would -- we would give him reports, we would print out the general ledgers for him, cash receipts books, cash disbursements, whatever he wanted to use. We didn't want to waste paper. We didn't want to kill a lot of trees, so we wouldn't -- there's no need for us to print out the cash receipts book the cash receipts for the month to put in a drawer for someone to look at, not look at. So whatever he asked for, we gave him. If he wanted to look invoices, we pull out the invoices or have one of his -- somebody from the accounting staff go with our accounts payable person. Her name is Deb. Deb would show the accounts payable person or the accountant where the accounts payable were for that entity, and the person would -- Bender's office would go through, pull whatever invoice he had.

\section*{J. McConney - by Defense - Direct (Mr. Suarez)}

Page 4910

Once we became computerized, after a number of years, we started scanning all the invoices. So we set up laptops in our conference room. We had a Bender come in with a number of his people and they could look at our general ledger cash receipts. They had access to all our books and records that most people in the accounting department had access to.

Q How long did this arrangement with Mr. Bender stay in effect?
A Up until -- I mean, I retired in February of this year. I think up until 2022 when we ended up getting a new accounting firm.

Q What was your first title when you joined The Trump Organization?

A I was the assistant controller.
Q And were you promoted from that position?
A At some point I became the controller, vice president/controller, or vice versa.

Q When you became controller, what were your responsibilities at The Trump Organization?
A Basically the same. It was just -- Allen Weisselberg was -- is controller. He moved up to the CFO position. I took over Allen's position. The work really didn't change.
Q Who did you report to as controller?
A I always reported to Allen Weisselberg. My ultimate boss would be President Trump, but on a day-to-day basis, Allen

\section*{Weisselberg was my boss.}

Q Were you responsible for overseeing the accounting department at The Trump Organization?

A Allen basically oversaw it, but he was busy doing his thing. So anybody that had a question, you come to me and ask me a question. They could go to Allen, but they knew it would be easier to get a hold of me and get an answer.

Q In the last ten years, how many accountants worked at The Trump Organization?
A Accountants or people in the accounting department?
Q People in the accounting department.
A In the accounting department, 12, 13, somewhere around there.

Q And what books and records were maintained by the accounting department at The Trump Organization?
A I'm trying to figure out how to say this. We started acquiring golf courses at a certain point in time. The Mar-a-Lago Club is not a golf course. The Mar-a-Lago Club, I think, was the first entity that we set up, um, where it had its own accounting staff.

We came to learn that these entities would have so much volume of work, small chit items. We go to a restaurant, you have a hamburger and you have a beer, um, you have tee times. So we were used to selling apartments for a few million dollars, and this was a lot of -- that was one transaction. This would

\section*{McConney - by Defense - Direct (Mr. Suarez)}

Page 4912
be a lot of smaller transactions. So we hired an accounting department to take care of the Mar-a-Lago property.

So as we bought or developed more golf courses, we had an accounting department in each one of those locations. They just took care of the one property. So a lot of the other entities, you had Trump Park Condominium, you had Trump Towers Condominium, Trump Tower Condominium. The development we had on the West Side where we managed those properties, um, they were maintained in the New York office. I don't have a list, so I don't have an actual number, um, of entities.

Q Were there -- what was the relationship like between the accounting departments on the properties and the accounting department that you worked with at Trump Tower?
A Um, they were basically separate - they would send reports up to Trump Tower. Um, I don't think we really got that down, except for the last couple of years. Now we have two people dedicated just to the golf courses, because we have a number of them, but they would talk to Allen and/or they would take talk to me. They would produce maybe monthly reports or quarterly reports, but I never really looked at them. Allen Weisselberg may have looked at them.

Q What involvement did Mr. Bender have with the accounting department at Trump Tower?

A When it came time to produce tax returns, the property -- the golf courses were able, because they were just one entity
and they had a decent size staff they could produce their own accrual basis statements. They would send that information to Donald Bender. Bender, if he had any questions, ask them, you know, "Show me this invoice. Why is this one prepaid? Member deposits are \(X\) amount." He had a schedule for it. So he would interact with the golf courses to get any information he needed.

Q Would Mr. Bender go through you to obtain information?
A He could. He didn't have to. The way it was set up,
Bender could come in and talk to anybody he wanted to. It's not a structured company, "it" being The Trump Organization, not a structured company that like IBM. I never worked for a large company like that where you had direct reports and you could only talk to this person. Anybody in the accounting department could talk to anybody, whether it was Allen Weisselberg, myself, or the accounts payable person next to him.

Bender was so familiar with us, and, I mean, I've known Bender for 40 years when I was working at Spahr Lacher. I mean, we used to go to lunch every day. We used to go to -- put together a group of people and go down to Atlantic City. I was at his wedding. He was at my kid's bris. It was just like a family. So Bender had access to anything he wanted to. He's done the work for so long, he knew everything in the accounting department, so he could ask Deborah Tarasoff what drawer do I look at for these bills, or he could just go there.

If he had any question on the rents or leases, he would

Q Did you ever hide any information from Donald Bender?
A No.
Q How, if at all, would you rely on Donald Bender to help you do your job as comptroller?

A I am sorry, can you -- I didn't hear the first word.
Q Sure. How, if at all, would you rely on Donald Bender to help you do your job as comptroller?

A I relied on him for a lot of stuff. I think it got to the point where we set up a new entity. We were doing licensing deals, we needed an identification number, \(I\) think he would fill out the form for us. If he didn't fill out the form and somebody in my office was filling it out, we would ask Bender if it was a cash-basis taxpayer or an accrual-basis taxpayer. He would make all of these tax decisions.

He would do President Trump's tax planning. I am not a tax guy.

So he would, in his Bender brain, come up with what he knew how he wanted to structure something, and then we would work around what he told us to do.

THE COURT: I hear the reporters may have a
little trouble keeping up, so slow down a little bit. THE WITNESS: Sorry.
Q What, if any, other members of Mr. Bender's team did you work with, Mr. McConney?

A Bender was like us, he had a loyal staff that stayed

Page 4914
just speak to the people in the accounts receivable department. So we gave him access to anything he wanted to.
(Continued on the next page.)
with him for years. A few of the names I remember was Jennifer Safron, who I think is now a partner; Ellen Fegen; Maryann Richter; Chris Schreiber. And there were a number of other people over the course of the time I was working with him.

Q Can you describe, generally, how the in-house accounting team at the Trump Organization would work with Mr. Bender's team at Mazars?

A They asked the question, we gave them an answer. They asked for backup, we gave them backup. It was just as if Bender was asking the question. So we gave them unfettered access to any information we had or he wanted.

Q Was there any -- excuse me. Was there ever any concern as to whether Mr. Bender was independent of the Trump Organization?

A I am not an independence person, I don't know what effect that has on him as a CPA. He may have raised the issue. I had never really thought about it.

Q Did he raise the issue with you?
A I think he may have, but I really don't remember.
Q What was your involvement in preparing the Statements of Financial Condition for President Trump?

A Like I was talking about before with Jerry Rosenblum, when I started getting involved -- and I don't remember exactly what year it was, I started 35 years ago, at some point I was working with Jerry Rosenblum before he retired. Jerry would
just ask us questions; provide me with the information about \(X\), can you give me the backup for Y. And Jerry produced a financial statement. He produced valuations, the numbers in the footnotes, and he would put everything together.

Over time, I mean, I would see some of his notes, but I was really not organized. When Jerry retired and Bender took over the account as partner, he said this is a lot of papers, can we kind of make it a little more organized. At some point in time I came up with the Jeff Supporting Data schedule listing off of the assets year after year, how we would value them, and I would provide that to Bender. Bender would ask for backup to whatever number we saw or ship them all to backup that we used to prepare my spreadsheet.

Bender would go through those numbers and our backup, put the information on the Statement of Financial Condition, put the actual dollar amounts. Modify the footnotes; or I would give him footnotes with some adjustments to them. Like if there was a mortgage and the interest rate changed or the due date changed or the principal amount changed or we had a new property, we would give him some information about the new property and he would put everything together. He had it in Word, or I think it was Word. Put together documents, send us a draft, we review it going back and forth, me and Allen Weisselberg; and Allen Weisselberg would say go and tell them to print it, we are done.

\section*{McConney - by Defendant - Direct (Suarez)}

Page 4918
Q Can you describe the annual process for preparing the Statement of Financial Condition?

A As the years went on it took us longer and longer to produce it. There were more and more assets. At the end when I was there I think we had over 500 entities now -- tax returns, sorry, entities and tax returns we had to prepare. So, there was a lot more information we had to gather.

Now, not every single one of those entities would be separately valued on the financial statement, but it gives you an idea of how much we have grown over time.

So I am sorry. I forgot your question.
Q If you could, walk me through the annual process.
A The process, sorry.
So we would start -- I would start, originally, and we passed this out, parceled it out over the years, I would go through and see what information I would need from whomever I needed it from. Cash and Marketable Securities, a lot of those entities we maintained in a New York office.

But again, the golf courses had their own accounting staffs, so we would ask them for bank reconciliations and bank statements. The same thing with escrow deposits, ask them if they had any real estate tax escrows. We would know who had a mortgage and who didn't, we knew who had escrow deposits.

I would ask the real estate department, the Trump International Reality for selling prices or values for unsold
units. So, it was just a matter of, I would go out, send out e-mails to a lot of people, gather the information and start putting it into my spreadsheet.

Q Was it necessary for you to reach out to a lot of people to gather the information that you put on your spreadsheets?

A Yes. I mean, the cash alone we would have to really reach out to every single entity that had a bank account. Those were all of the properties over the years that have grown, but every property that had their own accounting staff.

Same thing, we would value accounts payable on the statements to get an accounts payable schedule or get the balance sheet that they prepared in-house. We used Cushman \& Wakefield or received reports from Cushman \& Wakefield with cap rates on it, so I would have to reach out to Doug Larson or whoever else was in his department at the time. And I know he had a gentleman in California we would deal with for one of the Vornado properties.

This literally took months. We would start in July and finish usually sometimes in October, except for a couple of years we were late.

Q Who was your principal point of contact at Mazars in connection with the Statement of Financial Condition?

A Donald Bender was the partner, so whether it was a Statement of Financial Condition or whether it was an audited

Page 4920
financial statement for one of the properties that he was preparing for the loan -- because it had a loan on it, anything that we needed accounting help for we would go through Donald Bender.

Q And in the period of -- the period in which you prepared the Statements of Financial Condition from 2011 forward, during that period of time, what other engagements was Mazars involved with for the Trump Organization?

A Besides preparing all of the tax returns for every entity except for one, there was a period of time -- there was a period of time he lost the golf courses. He didn't lose the golf courses, he said he had too much work, he wanted us to give the golf courses to another accounting firm, so we did that. But basically he got all of the golf courses back. That was basically many years ago.

So he prepared the tax returns. Last year it was around 500 entities. He did all but one of the entity's tax returns.

He prepared the personal tax returns for Donald J. Trump Jr. and his wife, when he was married. Eric Trump and his wife, when he was married. Ivanka Trump up until she got married, and then she went to use Jared Kushner's accountant.

He worked on the financial statements, the audited financial statements that were required; or in one case there was a review that was required.

\section*{McConney - by Defendant - Direct (Suarez)}

We would give him, if we were negotiating a loan, we would give him the loan documents to make sure he could adhere to or reduce the required financial information at a certain point in time. A lot of the loans have financial statements due by April 30, and that's -- when you have that done, and then right before that you have personal tax extensions done, we just want to make sure he had enough bandwidth to get all of this done.

I am sure I am missing something, but that's all I can remember.

Q Would it have been possible for the accounting department of the Trump Organization to operate without the assistance of Mazars?

\section*{A No way.}

Q From the period of 2011 forward, what audit engagements was Mr. Bender and Mazars involved with in the Trump Organization?

A Trump Tower commercial, which is Trump Tower, the commercial piece.

There is a property called TIHT Commercial, which is a small commercial property, I think a couple of stores. Trump Plaza LLC.
There was a review for 40 Wall Street.
Prior to that we had before the loan was paid off we had Chicago, we had a -- at some point we had financial

Page 4922
statement requirements for Trump International Hotel Chicago. Las Vegas Trump International Hotel, Las Vegas, we had financial statements that were due.

I think that's about it.
Q Was all of Mr. Bender's team at Mazars afforded the same level of access that he was to the Trump Organization's books and records?

A Yes. If they had a question we would give them an answer.

Q In the period of 2011 forward, how often would you speak with Mr. Bender concerning your work at the Trump Organization?

A It depended a lot on what time of the year it was. If it was a quiet time, and there is very rarely a quiet time, I would maybe go a week or two without talking to him. If we were preparing President Trump's tax return or one of the larger tax returns, he would call, talk, every ten, 15 minutes.

So it really depended what he was -- what was going on and what he was trying to finish at the time.

Q Going back to the Statements of Financial Condition, when did you begin the process to prepare the information for each year?

A Sometime -- because it took so long, sometime in July. And the easiest thing to get would be the bank reconciliations and bank statements. Statements were dated

June 30. So, the banks usually issued bank statements before -- they were available online by maybe the 15 th or 20th. Once they were available online, you could get them by the first of the month. So that was a large number -- a large number of entities and that would be the first step.

We would send out e-mails and some comptrollers would send the information right away. Some you would have to go after a little bit. And -- I am sorry.

Q No, no, please.
A And some comptrollers would just, you would wait a week or two so it was a matter of gathering the information and putting it together and putting it on my spreadsheet.

Q Why did you have to reach out to all of the comptrollers of the properties to gather information?

A The way we value the assets, we kind of broke it down in components. We had cash and Marketable Securities. So we needed their cash balance. We had escrow deposits. If we knew there were escrow deposits, that's a separate line item. The biggest number is the asset valuation. That's just the asset, not cash or payables.

We needed the accounts payable from the property, because they would have that on site. And I know the loan balances, if any, because we kind of oversaw the loan payments.

Q When did the process of reaching out to all of the individual properties, when did that begin?

A It depended on who was doing it. If I was in the middle of a project I would try to squeeze in getting some of those e-mails out. If it was somebody else, I would just say, pass them in the hall, Haroula, we have to get the cash done, start working on it because it is a big deal.

So it kind of varied. There were one or two years we were really busy and didn't start until real late. There was no date on my calendar that says, send out e-mail today. It was whenever we did it.

Q Throughout the course of the year, what -- how much of your time was occupied by preparing the Statements of Financial Condition as opposed to other duties you had at the company?

A I -- basically my time was spent between July and October. Not 100 percent of my time, just a portion of my time. And that's why we would spread it out, gather the information and put the spreadsheet together. Other than that, really very little time outside of that timeframe.

Q You had other responsibilities as the comptroller of the Trump Organization other than preparing the Statements of Financial Condition?

A Yes, sir.
Q What were those other responsibilities?
A We had a 401 K plan. There is something called a non-discrimination test which is mandated by the Department of

Labor that you have to provide a ton of information about all of your employees, the salaries, 401 K deferrals and a whole bunch of other information. We sent that to our 401 K provider. It has been Fidelity for a number of. That would take a while.

We have had payroll tax returns, we have had \(\mathrm{W}-2 \mathrm{~s}\), 1099s. We would have to start the engagements on the audits sometimes maybe in February to start that information, gathering, Mazars would come in and start working on that.

We would have started in January. We would try to feed Mazars as many entities, we call them baby entities, one or two or three transactions, usually licensing deals. I would get a fee once a year or no fees because the deal was at a certain point in time where it wouldn't get fees.

Send Bender -- sorry, Mazars, Bender, a lot of these baby entities so that they could start preparing the baby tax returns before they got busy.

Middle of March we would have to finish up the larger entities and get extensions out. Middle of April we had the personal tax returns, including the President's and his children. Finish up the audits in April. When he was President, before he became President, we had the annual filing, his annual -- The President's annual disclosure form. We had to spend a lot of time on that. Later in the year we had to finalize all of the corporate tax returns, all of the personal tax returns. Daily basis, every day, we would have

A Sorry, yes he being Donald Bender.
Q Would Mr. Bender request information from you?
A Yes. If he -- if I did not provide enough backup to him or we had a question on something or wanted more information about whatever he was asking about, we provided him whatever he needed. "He" being Donald Bender.

Q What other documentation did you send him along with the supporting spreadsheet each year?

A Anything I used to back up my numbers. If there was a line item I would say 32 apartments for sale \(\$ 200\) million. I would send him a spreadsheet listing the apartment number and value of those numbers.

If we had a third party like Cushman \& Wakefield provide us with information about comparable sales, we would send him that piece of the document, along with the cap rates and whatever I had on the statement.

For Vornado we would send him, I think, the P\&Ls from the June Vornado statements: 555 California Street and 1290 Avenue of the Americas.

The rent management department would print out rent-rolls. So we valued some properties based on rent-rolls. So the small shopping centers with two or three stores we would send him the rent rolls.

We would send him -- I am not sure if we sent him all of the accounts payable, all of the invoices. A schedule of

\section*{McConney - by Defendant - Direct (Suarez)}

\section*{Page 4926}
wire transfers that I had to review and release. I did the corporate payroll every other week. Answer questions. Answer e-mails. It kept me busy.

Q At what point in the year did you send Mazars, generally, the supporting data spreadsheet for the Statements of Financial Condition?

A Probably somewhere in September, late September and October. It depends how busy we were. If I could get a large chunk of it done and have a few open questions I would try to get him started and send him the spreadsheet and backup so he could start reviewing it or somebody in his accounting department could review it, instead of just dumping it on his lap. Because he had to still prepare all of these tax returns, he and his department. The big one being the President's return, which is the roll-up of all of these 500 entities. We didn't want to inundate him too late. We wanted to give him time to digest everything.

Q He being Mr. Bender?
A He being Donald Bender.
Q In general terms, what would happen after you sent him your supporting data?

A He would sit and go through it. He had questions. Told me I made a mistake, I had to change something. We would have conversations.

Q "He," again, being Mr. Bender?
accounts payable, all of the loans that we had listed as liabilities we would send him a copy of the June 30 loan statement or whatever showed the balance as of June 30.

Basically any backup that I used to -- that was reflected on the spreadsheet I was putting together.

Q Would you send Bender -- Mr. Bender any information that you didn't use in preparing your Statements of Financial Condition?

A No. I only sent him the information that I relied on to prepare the spreadsheet.

Q Once you sent the information to Mazars, what steps did Mazars take to compile the information that you sent?

A They would review it because -- I know they would review it because he made some changes to some values or had some comments about some of the assets. They would -- well, once it was finalized and I sent them my finalized spreadsheet, they would put together the document, the actual Statement of Financial Condition and the footnotes.

MR. SUAREZ: Let's pull up the 2015 Statement of Financial Condition, please. Plaintiff's Exhibit 729.
Q Do you recognize this document, Mr. McConney? A Yes.
Q So once you sent your supporting data over to Mazars, what additional steps did Mazars take before they issued the compilation report that appears at the second page?
McConney - by Defendant - Direct (Suarez) Page 4929

A They looked through our numbers, compared them to the backup, because they would -- when I would get some information back sometimes from them, I would see their tick marks. And, I guess, just get a comfort level with what the information was I provided to them.

Q Did you have conversations with Mr. Bender about the information?

A If he had a question, yes. If there was something I needed to explain to him, yes.

Q What did these conversations generally entail?
A If he had a question about the information I provided him. One year I know for the valuation for Trump Park Avenue I provided a list of apartments and values for them. And he said to me, Jeff, Ivanka rents one of those apartments. I said, okay.
Well, she has an agreement with her dad in the lease that she can buy the apartment for X. So you can't use Y. You have to substitute it -- substitute the number in the lease.

I didn't know she had a lease. I knew she lived there, I didn't know she had a lease. I didn't know the value of the purchase price of the apartment, so I changed the value.

So it would be items like that. He had a question once on Trump Tower. We were valuing the vacant space. Trump Organization has three floors, there is also at times other vacant space in the building. When I sat down with Allen
so it was kind of dictated originally from the original Jerry Rosenblum Statement of Financial Condition.

Q And how, for example, did you decide whether to list a specific real estate asset on the list of real estate operating properties as opposed to categorizing it as another asset?

MR. AMER: Objection to the use of "you." I think there is no foundation that this witness made those decisions.

MR. SUAREZ: Okay. Withdrawn.
THE COURT: All right.
Q Who decided which assets to specifically list as a real or operating entity and which to list as other assets?

A Probably Allen Weisselberg.
Q And are you aware if those decisions were made in consultation with Donald Bender?

A I don't know.
Q How was it decided which assets would, for example, be listed out as a separate entity and which would be included in club facilities and related real estate?

MR. AMER: Objection. Lack of foundation. The witness said he didn't make the decision.

MR. SUAREZ: He didn't make the decision, that doesn't mean he doesn't know how it was done.

MR. AMER: I think you have to establish that.

McConney - by Defendant - Direct (Suarez)
Page 4930
Weisselberg we used \(X\) amount of dollars per square foot.
He said, Jeff, on the cert just prepared or prepared a couple of months ago, you used \(Y\) amount, so you have to change it. So we changed it.

So if we had items that we needed to reflect on a statement, to change it, we made the changes.

Q "He," again, being Mr. Bender?
A Sorry. He being Donald Bender.
Q Was there ever a time that Mr. Bender requested you make a change to the Statement of Financial Condition and you didn't follow his request?

A Not that I can remember, no.
Q Did you ever ignore a request from Mr. Bender for information?

A No.
MR. SUAREZ: We can turn to the third page of
the document, the fourth page of the exhibit.
Q Mr. McConney, how are the asset -- withdrawn.
Mr. McConney, how did you decide which assets would be listed on the statement of assets?

A This is, I think, basically the layout that Jerry Rosenblum put together back in 1987. We no longer owned the casinos, so they came off the list. And as we acquired properties or developed properties, we would add them into the categories, real and operating properties in the partnerships,

THE COURT: This is that old conundrum, do you have to ask do you know and then ask the question. But, yeah, that's a -- I think that is the rule. So, you have to ask him does he know.

MR. SUAREZ: I'll withdraw that, and I'll keep going.
Q Let's turn over to the notes.
Mr. McConney, who wrote the notes here to the Statement of Financial Condition?

A They have been modified over time. But a lot of these notes still, for assets that were around when Jerry Rosenblum was around, a lot of this was Jerry Rosenblum's writing.

Q How did the words, "such valuation methods include but are not limited to the use of appraisals, capitalization of anticipated earnings, recent sales and offers and estimates of current values as determined by Mr. Trump in conjunction with his associates, and in some instances, outside professionals." Do you see those words on the page?

A Yes, sir.
Q How did those words end up on that page?
A Again, the basic premise of the valuation, valuation methods was a Jerry, I am pretty sure it was a Jerry starting point. Depending on how I valued the assets that year, sometimes it would change, sometimes I would use a cap rate,
sometimes I would use a comp. That is how these -- the part where it says appraisals, capitalization of anticipated earnings, recent sales and offers and estimates of current values, those may change from year to year. That was basically Donald Bender.

THE COURT: I don't think that answered the question at all. Wasn't the question where did the language come from? Not what particular items are on there? It is your question.

MR. SUAREZ: No that's -- that's correct. It is where did the language come from. And he gave me the answer as to where that language came from.

THE COURT: I don't think he did that at all.
MR. SUAREZ: It started with Jerry Rosenblum and morphed in, and depending on the year, Bender would give him the words to put on that page. It was perfectly responsive answer to the question.

THE COURT: It is your question. Okay. Withdrawn.

MR. AMER: I'll note the testimony is what the witness said, not what Mr. Suarez just repeated, so the record is what it is.

THE COURT: I didn't think it did.
MR. SUAREZ: The witness is testifying.
THE COURT: But he didn't say what you said he

Page 4934
said. Is that Mr. Amer's point?
MR. AMER: Exactly, Your Honor.
MR. SUAREZ: We could argue what the record is.
I am certain the court reporter is doing a wonderful job of getting it down.
Q The following words on that page: "Considerable judgment is necessary to interpret market data and develop the related estimates of current value." Whose words are those, Mr. McConney?

A That came from Mazars, Jerry or Bender.
Q And the following statement: "Accordingly the estimates presented herein are not necessarily indicative of the amounts that could be realized upon the disposition of the assets or payment of the related liabilities." Whose words are those, Mr. McConney?

A Again, Mazars, either Jerry Rosenblum or Donald Bender.

Q And the final sentence on this page: "The use of different market assumptions and/or estimation methodologies may have a material effect on the estimates current value amounts." Whose words are those?

A Mazars, either Jerry Rosenblum or Donald Bender.
Q What role did you have in deciding what information to include in the footnotes?

A Basically what I was concerned with were the
footnotes that dealt with mortgages, financings, refinancings. So I concentrated on mortgage balance, interest rates, due dates, if there was a refinancing or a loan extension that was considered, for me, that was the nuts and bolts of the numbers.

Q Was the information that you placed on the notes to the Statements of Financial Condition reviewed by Mr. Bender?

A Yes, I would -- the normal -- what I would normally do is take the prior statement, go through the footnotes, mark them up. And then send that marked up financial statement to Donald Bender.

Then when it came back I would just review it to make sure what I wrote for those pieces was -- he interpreted or typed it. I had it typed the way it was supposed to be. Occasionally I would modify footnotes if I would get information from somebody dealing with the property. Bedminister was putting in some men's locker rooms. Miller property may have been putting in a gym or finishing a gym. So I would try to get those - that information from the property and then update the footnotes a little bit.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q To the best of your understanding, what does the term "outside professionals" in this paragraph mean?
A It was individuals other than Trump employees. MR. SUAREZ: If we could zoom out.
(Whereupon, the exhibit displayed on the screen was zoomed out.)

MR. SUAREZ: Come down to the paragraph that says "Pursuant to GAAP."
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q This paragraph, Mr. McConney, the first sentence, the words "Pursuant to GAAP, this financial statement does not reflect the value of Donald J. Trump's worldwide reputation; however, the brand value has afforded Mr. Trump the opportunity to participate in licensing deals around the globe as reflected on the balance sheet herein."

Whose words were those?
A Mazars's.
Q The following sentence, "Mr. Trump's name conveys a high degree of quality and profitability. This prestige significantly enhances the value of the properties reflected in this financial statement, as well as that of his future projects."

Whose words were those, Mr. McConney?
A Mazars'.

1 Q And the rest of the paragraph which says, "The brand, along with the level of quality of Mr. Trump's residential developments, has allowed the selling price per square foot in Trump properties to be amongst the highest among prominent real estate developers. The goodwill attached to the Trump name has significant financial value that has not been reflected in the preparation of this financial statement."

Whose words are those, Mr. McConney?
A Mazars'.
MR. SUAREZ: If we could turn over to the Trump
Tower note.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you know how this note ended up on this page, Mr. McConney?

A Again, I think that the -- the basic description of
Trump Tower probably went back to Jerry Rosenblum. I would talk
to Allen Weisselberg or the management person, who sent out the monthly rent bills for Trump Tower to see who the current tenants were; that would basically have brand or name recognition to somebody reading it.

So the bulk of it came from Jerry and Mazars. The tenants listed at the end of the paragraph, either Allen or I would update.

MR. SUAREZ: If we could turn or put up Plaintiffs

\section*{J. McConney - by Defense - Direct}

Page 4938

\section*{Exhibit 731.}
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this document?
A Yes.
MR. SUAREZ: If we scroll down to Trump Tower. (Whereupon, the exhibit displayed on the screen was scrolled through.)
Q Can you briefly describe this property?
A Trump Tower?
Q Yes.
A Um, the parts still owned by Mr. Trump is the atrium, when you walk in, the retail stores, which I think is first number of floors. After that it's the office space above it.

Down below there's space where there's a restaurant and buffet and an ice cream parlor. That's what is owned by Trump Tower Commercial, LLC.

Q And with respect to this specific asset, how would you - how did you reach a value for this asset in the year 2015?

A There is a building across the street, literally if you walk out the front of Trump Tower across Fifth Avenue, there's a building called the Crown Building. It was sold, I guess, sometime in 2015, and we received information about the selling price, the breakdown between the retail and the office space, um, and we came up with a value per square foot, multiplied by

1 what we had at that time for the comparable retail and office space for Trump Tower, and then added those numbers together to come up with the value.

Q How did you identify 730 Fifth Avenue as a comparable sale for that building?
A Um, we probably reached out to Doug Larson, asked him for his report that he would always send us for Midtown class A buildings, and, um, the building across the street was listed there. So that's how we probably found that building.

Q How did you know to reach out to Doug Larson?
A We were reaching out to Doug for years. I don't know how far back it went, but for years we reached out to Doug. I don't know how it first started.

Q What kind of information would you have gathered from Doug Larson each year when you were preparing the supporting data to the Statements of Financial Condition?

A The report he would send us would be on buildings sold or up for sale. He had different reports, one for downtown; one for Midtown. I don't know how many other reports he had. I just received those two.

It would have various properties, about where the properties located, the selling price, um, cap rates, um, and we would just go through those properties and see what was near us. In Manhattan, a one or two block difference can make a big difference in the selling price.

And then we would use the information in that report to come up with these values -- I would use the information on this report to come up with these values.

Q And in 2014, do you see the method that you used to come up with a value in \(2014 ?\)

A Yes.
Q How did that method -- withdrawn.
How did you come up with a value in 2014 for Trump Tower?

A It was based on the income divided by a cap rate, net income after expenses.

Q If we go to the cell where you have the income in 2014 for Trump Tower, how did you learn what number to put there on the supporting data?

A Somebody in the accounting department, in my guess it would be Donna Kidder, who was familiar with the property, ran a report which provided the actual information through August of that year, and is a budget that was prepared for Trump Tower at the beginning of the year, um, and we added the numbers together to come up to the \(\$ 32\) million number.

Q Can you describe the adjustments that you made for rental income for space used by T Corp., not billed?

A T Corp. is a Trump Corporation, occupies three floors in Trump Tower, which if we weren't in this space, we could rent out to a third party, receive rental income, and it would
increase our NOI or net operating income, so we took the square footage of the floors, multiplied by what we thought we could receive in rents, and then added that amount to the value, or the income, sorry.

Q And were those adjustments disclosed to Mazars?
A Yes. It's right there on the spreadsheet.
Q And how did you, in 2014, how did you derive an NOI to apply to that value?
A Well, we added the income, the actual, and the budget, added the rental space. We own a restaurant that's in the lower level, like I told you before, which has a buffet and restaurant and ice cream parlor, and there is also a bar on the first floor. They have a percentage rent deal, so we added the rent that the restaurant would have to pay, which looks like 2013 rent. The total of that is the \(\$ 36.6\) million.

We looked at the -- probably the December 31st, 2013 audited financial statements, but provided or prepared by Mazars, adjusted for some noncash expenses like depreciation, amortization, they are not part of NOI, net operating expenses, usually noncash expenses, except for the interest. The net number was divided by the cap rate of 3.13 to come up with the value.

Q How did you settle on the cap rate of 3.13?
A When we were preparing the June of 2014 Statement of Financial Condition, I probably reached out to Doug Larson, who
J. McConney - by Defense - Direct

Page 4943
you take the comparable and use it to reach the asset value for Trump Tower?

A Well, I believe Kurt, who worked with Doug, provided us information where we could split the selling price between the retail space and the office space, divided that by the square footage of each -- from the retail and office space, came up with a value per square foot, multiplied that by the retail space for Trump Tower, the office space for Trump Tower, and came up with the value and added those two numbers together. You could see Bender's tick marks there checking the numbers.

Q What role, if any, did Mazars have in confirming that the information in your supporting data and the information on the notes was consistent?
A They would go through the footnotes. They looked at the spreadsheet. They would make the changes. I said, now paragraph the -- the paragraph we were looking at before, sometimes the valuation methodology would change. So he would just make sure that whatever methodology we used, we were relying on him to put that in the footnotes. So that was the first footnote number one or two.

And then later on on the valuation when we listed the asset by itself, because the Trump Tower is listed here with a -- it's own footnote, to make sure that description or the method I used was in the description of the footnote. THE COURT: Five-minute warning.

Page 4942
J. McConney - by Defense - Direct
provided me his report, um, the comps in the neighborhood, and based on that we selected some buildings and used -- came up with that comp. rate, cap rate.

MR. AMER: Your Honor, I'm going to object to the "probably." I don't think the witness should be testifying about things that he's not -- he can't say actually happened.

THE WITNESS: Can I clarify "probably"?
THE COURT: Yes. Go ahead.
THE WITNESS: Okay. Doug had associates, one was named Michael -- he had a long last name that began with \(P\). I'm not sure if I reached out to Doug, to Michael, somebody from Cushman \& Wakefield.

Is that a proper answer? I would reach out to Cushman \& Wakefield. Or if it's -- at this point in time he was working for Newmark, I would reach out to where I thought Doug was working, and ask for information. THE COURT: Okay.
Q Why did you change the method of valuing Trump Tower in 2015 from 2014?

A Well, again, one or two blocks in Manhattan can make a big difference in a value of a building. For me there was no better value than some building across the street. Um, so we decided to use -- I decided, or selected that building.

Q And in 2015, when you selected that building, how did

McConney - by Defense - Direct
Page 4944

Q And when you placed, here on the spreadsheet, a statement that per 10/26/15 e-mail from Kurt Clauss of Cushman \& Wakefield, which reflects information on the sale of the "Crown Building" what did you mean by that?
A Kurt would've sent me an e-mail with an attachment with the information on it for the Crown Building. There could have been other properties there, too. Um, so I was just telling Bender where the information was coming from in which I would attach, as part of the backup, when I sent him the spreadsheet and the various backup we use -- I used for this spreadsheet.

Q What would you -- withdrawn.
Do I understand correctly that you would send Bender the same e-mail that you had relied on in preparing this valuation together with your supporting data?

\section*{MR. AMER: Objection. Leading.} THE COURT: Sustained.
Q What would you provide to Bender, specifically with respect to the selection of the Crown Building as a comparable?
A In this instance, whatever -- in every instance, whatever information or documents I used and put together, I would send to Bender.

In this case I would send him the e-mail, whatever, um, Kurt Clauss sent me that was relevant for the Crown Building, and I would just send him that -- send him those documents. MR. SUAREZ: Your Honor, I'm at a good stopping
point on my outline, for now, for the break.
THE COURT: All right. So we'll break, but you are going to continue after the break?

MR. SUAREZ: Yes.
THE COURT: Okay. Ten-minute break. See you all in 15 minutes.
(Whereupon, a 15-minute break was agreed upon and taken by all parties.)

THE COURT OFFICER: All rise. Part 37 is back in session. Please be seated and come to order.

THE COURT: Mr. Suarez, any idea how much longer on the direct?

MR. SUAREZ: On direct? Through tomorrow morning.
THE COURT: The rest of the day?
MR. SUAREZ: The rest of the day today, yes.
THE COURT: And you think --
MR. SUAREZ: And into tomorrow morning, yes. THE COURT: Okay.
Any idea how long the cross examination will be? MR. AMER: Not yet.
THE COURT: All right. Let's continue.
MR. SUAREZ: If we could move onto row 167.
Q Mr. McConney, can you briefly describe the Trump Park Avenue.
A Trump Park Avenue was the old -- it was the Delmonico
J. McConney - by Defense - Direct

Page 4946

Hotel on Park Avenue, and it's 59th Street. Mr. Trump bought that in conjunction with GE. They gutted what they could of the building, built new residential apartments. There are some units in the hotel that --

THE COURT: Hold on.
MS. GREENFIELD: The realtime is not working.
(Whereupon, the realtime feeds were adjusted and
began working again.)
Q Mr. McConney, can you briefly describe the Trump Park Avenue?
A Trump Park Avenue was a joint venture between GE and President Trump, or the entity that Mr. Trump owns. It was the old Delmonico Hotel, which was shutdown. The apartments were renovated for sale as a residential condominium building. There are a few units in there that are hotel units, and the rest were free market units. And there is a commercial space on the bottom. There -- in the basement there are storage units for unit owners to store stuff if they don't have enough room in their apartment, like seasonal stuff, like Christmas -Christmas trees and ornaments, decorations, stuff like that.
Q What does it mean for something to be a hotel unit?
A The way we interpreted "a hotel unit" was it was -there were tenants in there that had certain rights similar to rent stabilized units or rent controlled units -- I'm not a lawyer -- and they were like hotel stabilized units. There are

1 certain rights they had. It's not like when we bought the hotel
we could say, your apartment is gone.
So those tenants stayed in these units. Some of them we made deals with, we bought out their leases. Some of them passed away. A couple of them passed away, and then they became free market units, or units that we could just sell. We could sell all the units at any time, but they just became, um there was no tenant in the unit.

Q What prior experience, if any, did you have with repositioning a hotel asset on behalf of Trump Organization?

A When I was still working for Spahr Lacher, an entity called Park South Associates, which was owned by President
Trump, bought the old Barbizon Hotel on Sixth Avenue and Central Park South. It consisted of the hotel, the main entity was a hotel, which became Trump Park Avenue Condo - I'm sorry, Trump Park Condo, and there was a small residential building of 60 some-odd units which became Trump Park East Condominium. A lot or most of the units in the Trump Park East building were rent stabilized apartments.
Q And what happened to the rent stabilized apartments at the Trump Park East building?

A We negotiated by -- when I -- I found, between working for the accounting firm and then working for The Trump Organization, there was some buyouts of tenants, some tenants passed away. There are still a number of tenants, handful of
cConney - by Defense - Direct
Page 4948
tenants that still lived there from when the property was purchased, I think it was 1981. When the condominium unit, or, sorry, a stabilized unit becomes vacant, we fix it up, and then we put it on the market for sale. Again, it's for sale now, but it's got a stabilized tenant in it, so.

Q Where would you have gotten -- withdrawn.
Can you describe the method that you used to value the Trump Park Avenue in the year 2014?
A I reached out to our sales entity. TIR is Trump International Realty. I reached out to the head of the TIR sales office and asked them to provide me with the apartment number of unsold units, and an amount that each unit would sell for, or we could sell for. So that's the first line, where it says "unsold units." Those are residential units.

There's the -- I think there are two remaining commercial space units where we rent out to -- one time it was a Capital One Bank, and I think it was a gym; that would get the rent roll from our leasing department -- I'm sorry, our rent management department, which reflected the monthly rent for the two units, multiplied by 12 to come up with an annual rent, multiply that by ten. I know "cap rate" is probably not the right term, but that's what I used, to come up with the value for the commercial space. And there are a number of unsold storage rooms, cages, I think they were, in the basement that we valued at the 819,000 . The total of those three amounts is the
\$251 million number reflected on the spreadsheet for June of 2015.

Q Up at the top where it says "Valuation is based on the anticipated selling price of unsold residential units and the selling price or the rental income stream to be derived from the commercial space." Do you see that?

A Yes.
Q What did you mean by that?
A Well, the residential units, there are a number of unsold residential units which the TIR division valued. Um, so that was the first part. The unsold residential units and the selling price. The rental income stream would be the commercial space where we took the monthly rent, annualized it and multiplied it by ten.

The storage rooms, I think came from the operations department, because they would deal with the storage room sales. They would provide me a list, or a comp, and then we just multiplied that by the number of units there are, something like that.

MR. SUAREZ: Can we pull up Plaintiff's Exhibit 736.
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
Q Mr. McConney, do you recognize this document?

Page 4950
MR. SUAREZ: This is already in evidence.
A Yes.
Q What is this document?
A This would be the listing I received from the TIR sales office reflecting the unit numbers, price, it had the number of square feet, dollars per square feet, which they provided to me per my request.

Q Why did you provide the sponsor unit inventory valuation -- actually, withdrawn.

Did you provide this document to Mazars?
A Yes. Mazars wouldn't have taken the \(\$ 200\) million valuation without some backup.

Q Okay. Why did you provide this document to Mazars?
A This is what I relied on to come up with the
\(\$ 233\) million, which I'm pretty sure was on the prior sheet.
MR. SUAREZ: If we could please pull up Plaintiffs Exhibit 0173, native, side by side.
(Whereupon, there is a brief pause in the testimony.)

MR. SUAREZ: Plaintiff's 01073. Actually, I'm corrected. 736 is not in evidence. I move to have that admitted into evidence.

MR. AMER: No objection.
THE COURT: Granted. It's in.
(Exhibit 736 was admitted in evidence.)

1 Q Do you recognize the spreadsheet at Plaintiff's Exhibit 1076?

A Where would I find number ten --
Q The spreadsheet on the right in the native cell format.
A Okay, yes.
Q What is the spreadsheet in the native cell format which
appears as Plaintiff's Exhibit 1073, native?
A The spreadsheet on the right also would have been
prepared by the -- let me see. It would have been prepared by the TIR sales office.

Q And what's the difference between the two spreadsheets?
A The dollar value -- the dollar amount for the offer plan -- per the offering plan price was different. It looks like two different years. The spreadsheet on the right has an offering plan price, current market value. The one on the left has square feet, dollars per square feet, which is not on the other spreadsheet.

Q Did you provide the current market value or the offering plan price to Mazars?

A For based on which spreadsheet? The one on the left or the one on the right?

Q Well, did you ever provide the current market value to Mazars?

A I don't remember.
Q What's the difference on the spreadsheet on the right,

McConney - by Defense - Direct
Page 4952
at Plaintiff's Exhibit 1073, between the offering plan price and the current market value?

A You are talking about the math difference or? I mean -

Q What's the difference in -- your understanding of the difference between current market value and offering plan price?

A Well, current market value may have been what the TIR thought they could sell the unit for, sell a unit for. Offering plan price would be the most we could sell the unit for.

Q Would the offering plan price -- withdrawn.
Was the offering plan price a measure of what Trump Organization would be willing to sell a unit for?

MR. AMER: Objection. Leading.
THE COURT: Hold on. Sustained. Leading.
Q In your mind, was there a difference between offering plan price and current market value?

MR. AMER: I think it's been asked and answered, your Honor.

THE COURT: Well, let's hear it again.
A The current market value is what they thought the current value would be -- could sell it for, and the offering plan price is what we filed with the offering plan.

Q Would the current market value include rent stabilized units?

MR. AMER: Objection. Leading.
\begin{tabular}{|rc|r|r}
\hline J. McConney - by Defense - Direct & Page 4953 & McCo \\
1 & MR. SUAREZ: I'm not suggesting an answer. & 1 \\
2 & THE COURT: Sustained. You could ask it in a more & 2 \\
3 & general way. & 3 \\
4 & Q \(\quad\) Does the current market value include rent stabilized & 4 \\
5 & units? & 5 \\
6 & A & Yes. & 6 \\
7 & MR. AMER: Same objection, your Honor. It's & 7 \\
8 & leading. Why doesn't he ask, "What does it include?" & 8 \\
9 & THE COURT: Sustained. & 9 \\
10 & Q \(\quad\) What does the current market value include? & 10 \\
11 & A That would be the list of all the units available to be & 11 \\
12 & purchased at Trump Park Avenue, whether it was regulated or not. & 12 \\
13 & Q What information did The Trump Organization provide to & 13 \\
14 & Mazars concerning the existence of rent stabilized units? & 14 \\
15 & A I'm pretty sure Mazars knew that there were stabilized & 15 \\
16 & units and non-stabilized units, or regulated units. Um, there & 16 \\
17 & are certiorari reports that are produced or filed every year on & 17 \\
18 & behalf of various buildings that we own or manage. And I & 18 \\
19 & believe you have to separate the regulated amounts from the fair & 19 \\
20 & market amounts, or, um -- & 20 \\
21 & MR. AMER: Hold on, your Honor, I'm going to move & 21 \\
22 & to strike that answer. I don't think there's any foundation & 22 \\
23 & for this witness to know whether Mazars knew or didn't know & 23 \\
24 & about the rent stabilized units. And his answer was, "I'm & 24 \\
25 & pretty sure", but there is no indication as to how he would & 25
\end{tabular}

\section*{know that.}

THE COURT: Sustained.
(Continued on the next page.)
separate the -- or would separate the regulated rents, which are stabilized units or hotel stabilized units, from the free market apartments or unregulated units.

MR. AMER: I would object to the "she would probably" do something. I don't know how he knows what she would probably do.

MR. SUAREZ: Your Honor, this is the stuff of cross examination. If they want to cross examine on his answers they are free to do so. But there is nothing wrong with his testimony. It is perfectly responsive to my questions.

MR. AMER: It goes to foundation as to whether the witness has the knowledge to opine on what other people did or didn't do.

MR. SUAREZ: I get that it is an inconvenient fact for them that Mazars knew that these units were regulated, but the documents bare it out. He is the comptroller. He has the foundation. He knows who Ms. Lennig is. He knows why she keeps this information. I think he is being careful to avoid -- he is being careful to appropriately respond when he says "probably," but that doesn't mean his answers lack foundation.

THE COURT: You know, that brings up the whole issue of is "probably" -- okay. Well, if we have, you know, a standard of proof that is just probably, yes. In
any event, overruled. But subject to cross examination, preponderance of the evidence.
Q Why would you be providing this information to Donald Bender?

A He was asking for it.
Q What would Mazars do with the information that you provided with -- from Ms. Lennig?

A Mazars was - assisted Stephanie in filing the certs. The one -- one of the few things I know about the certs, they usually ask for the rents as of January of either that year or the prior year. They usually filed early in the year. Based on a March 12 date, which I think is around the due date, and based on the rents being as of January of 2020, Bender was probably -- was assembling the information to put -- whatever information Bender would provide to Stephanie was working on, and then would put it together and provide it to Stephanie so she could file the certs.

Q What is a cert?
A It is a proceeding where you protest your real estate taxes for real estate tax reductions.

Q And why would the information on the rent generated from a regulated or unregulated unit be relevant to a cert petition?

\section*{A I really don't know.}

MR. SUAREZ: Your Honor, I move Plaintiffs

Page 4958
behalf of the condominium or the Trump-owned entity.
Q Do you see where it says the "to" field; is that your name there?

A The one from Irene to --
Q Yes.
A March 28? Yes. That's Jeff McConney. That's me.
Q Who is Patrick Oberlies?
A Patrick is part of Bender's accounting team.
Q Who is Ellen Pagan?
A Ellen Pagan is part of Bender's accounting team.
Q And obviously the next e-mail there is Donald Bender.
A He is the accounting team.
Q Why would this information be provided by the lease administrator to Donald Bender's accounting team?

MR. AMER: I object on relevance. This document relates to Central Park South. It has nothing to do with Trump Park Avenue. I don't know why it is relevant to this case.

MR. SUAREZ: I am -- the document shows that Mazars was perfectly aware that units in the converted hotels have rent regulations, that we were dealing with rent regulations on a regular basis. I am not going to belabor the point, but we are going to keep going through another series of e-mails where Mazars has knowledge of rent-regulated apartments in these buildings.

McConney - by Defendant - Direct (Suarez)

Exhibit D-1023 into evidence. (sic.)
THE COURT: Granted it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1023 by the Court.)

MR. SUAREZ: If we could please pull up
Defendant's Exhibit 1027.
Q Mr. Bender, who is Irene Caprino?
A Irene Caprino, she works in the rent management department and oversees certain buildings.

Q What is the rent management department?
A It is -- we call it the rent management department. They, on rental -- a building that has rental rents, 100 Central Park South or Trump Park East, they would enter the leases into our computer system. They would enter lease start dates, lease end dates, tenant names, whatever contact information, whatever information you needed to get ahold of the tenants.

On condominiums they would have unit owners move in and out with any contact information for the unit owner.

They would send out the rent bills. They would answer questions from the tenants or unit owners.

They would, if it is a commercial property, they would sent out real estate tax escalation bills or operating expense escalation bills, anything to collect the rent on

But I do want to question your pronunciation. You said Pagan (Pay-gan); wouldn't it be Pagan (Pa-gon)?

MR. SUAREZ: I have heard it both ways. I don't know.

THE COURT: You would know better than I would. So overruled.
MR. SUAREZ: Why would I know better?
THE COURT: Why would you know better?
MR. SUAREZ: Yeah. The pronunciation, I mean, I live in the world where I think it is a triplex(try-plex). Your Honor, respectfully said it is a triplex (trip-lex) but I understand.

THE COURT: Well, I guess you don't know where I come from, so. I am not sure where you come from either. But Florida, right?

MR. SUAREZ: Florida.
THE COURT: Well, I would think that's a common -- is that a common name in Florida, P-A-G-A-N? MR. SUAREZ: I am unfamiliar with it. THE COURT: What is that? MR. SUAREZ: I am not familiar with it. THE COURT: Then I was wrong.
Q Why would Ms.-- why would the Trump Organization be sending this information over to Bender?

A They were asking for it. Anything they asked for we provided to them.

Q And do you see where it says: "For 14-G, only the notice that tenant is attached as this was rent regulated -excuse me, a rent regulated unit without a lease (and this tenant has vacated in 2017)"?

A I see that, yes.
Q How were rent-regulated units managed by the Trump Organization?

A In 100 Central Park South or Trump CPS LLC you are dealing with the address and the legal name. From the day we -- the building was purchased, we have always had -- the Trump Organization has always had a managing agent manage these stabilized units. The reason being is the accounting staff was not familiar with the rent stabilized laws and the rules and regulations and increases in any -- there are a lot of restrictions on a stabilized -- rent-stabilized apartment, rent-controlled apartment. We weren't set up for that.

So we hired a managing agent. At this point in time it was probably Gumley Haft. There were other managing agents going back through the ownership. They would manage the leases. They would send out the leases. They would send out the rent bills. Collect the rents from the tenants. And once a month send Trump's CPS LLC a check for the net cash flow. MR. SUAREZ: If we could pull up Defendant's

On the top? Yeah.
Q Do you see the document as an e-mail forwarding an attachment?
A Yes. Jeff McConney is me.
Q If we turn to the next page, do you recognize the attachment?

A Yes, that's the first page of the -I think it is the first page of the management report that Gumley Haft sent to us.

THE WITNESS: There is no hyphen, sorry. My mistake.
Q And what does -- turning to the page ending Mazars NGJS 00168341, on the exhibit; what does this information disclose?

A It looks like a partial list -- it is a list of
tenants. I am not sure if it is all of the tenants. That would list the apartment number, the tenant name, in essence if he was stabilized or controlled, base charge, any other charges, arrears, prepayments, collections. This is the rent billing and the associated information for the month.

Q And if you take, for example, a unit rented at 11-F to Miguel Rivera, do you see where it has Miguel Rivera 11-F three quarters of the way down the page?

A Yes, sir.
Q If we could walk through this one as an example. You

Page 4962
Exhibit 1024?
Q Do you see where it says: "Ellen, for your request to Jeffrey McConney"?

A Yes.
Q Why would -- withdrawn.
What request would Ellen Pagan make of you that would cause this e-mail to be sent?

A Stephanie was our contact or had a contact at Gumley Haft. Gumley Haft is a managing agent. G-U-M-L-E-Y I think there's a hyphen H-A-F-T. They were the managing agent.

Stephanie knew somebody there and would ask for the monthly reports at times. Gumley Haft didn't always send them to us like they probably should have. So Stephanie would just reach out to her contact and get a report.

This is a year-end report which Mazars needed in order to book the rental income, prepaid rents, arrears, for the stabilized units. Because all we booked on the general ledger of Trump's CPS LLC the entity that owned the stabilized units and the free market units, was just a cash. Mazars would reconcile that number back to the management report to see if the cash received equaled the cash sent. And then reflect the rental income on the tax return.

Q Is that your e-mail address there at the cc, Jeff McConney?

A I don't see an e-mail. I just see, cc Jeff McConney.
McConney - by Defendant - Direct (Suarez)

McConney - by Defendant - Direct (Suarez)
Page 4964
have Miguel Rivera. You have the letter S. Do you know what that \(S\) stands for?

A I am pretty sure it stands for stabilized.
Q And 989 is?
A The monthly rent for an apartment on Sixth Avenue in Central Park South.

MR. SUAREZ: Now, Your Honor, I know I am not from around here, I ask the Court to take judicial notice that \(\$ 989\) for an apartment on Central Park South, any New Yorker would understand that that's a rent-stabilized apartment.

MR. AMER: I don't think that's an appropriate fact for the Court to take judicial notice of, Your Honor.

MR. SUAREZ: I can withdraw that.
We move Defendant's 1024 into evidence.
MR. AMER: We object on relevance grounds, Your Honor. This is about Central Park South. It has nothing to do with Trump Park Avenue.

MR. SUAREZ: My next question to the witness is going to be whether they went through a similar process for Trump Park Avenue.

THE COURT: Well, why didn't we just do it for Trump Park Avenue?

MR. SUAREZ: I am sorry?
THE COURT: Why didn't we just do it for Trump
McConney - by Defendant - Direct (Suarez) Page 4965

Park Avenue?

MR. SUAREZ: Because we will get there. THE COURT: Okay.
MR. AMER: I haven't seen this type of report for Trump Park Avenue. I haven't seen this type of document for Trump Park Avenue. So I think they are trying to put this in, instead of something that relates to Trump Park Avenue.

MR. SUAREZ: The same valuation method for Trump Central -- Trump TPC -- Trump CPS, Trump Central Park South, reflects the same information, the same data, the same -- the same facts on the supporting data, as it does for Trump Park Avenue.

THE COURT: Mr. Amer, what do you suggest at this point?

MR. AMER: I suggest we don't admit a document that is irrelevant to the case. And if he has a document that relates to Trump Park Avenue, then he can try and get that in.

MR. ROBERT: Respectfully, it is not irrelevant. We are showing that the same valuation for this building is the same valuation process used for a building that the government is complaining we valued improperly. So I see absolutely nothing wrong. I understand you don't like it, but that doesn't mean it is not admissible and it doesn't

Page 4966
mean it is not relevant.
MR. AMER: I neither like it or don't like it. It is irrelevant to the case.

MR. ROBERT: How is that when your whole case is based on the way in which we value properties. And we already provided testimony that we were compliant with the appropriate GAAP rules and GAAP exceptions, and now Mr. McConney is explaining the actual methodology used. And clearly Mazars is aware of all of this methodology and signed off on it. Nothing inappropriate. It is totally admissible and totally relevant.

MR. AMER: I don't know how knowledge about rent-stabilized apartments at Central Park South has anything to do with Trump Park Avenue.

MR. ROBERT: Are you not claiming that the valuation for Trump Park Avenue is wrong because the rent stabilization was not part of the analysis for coming to the value? Maybe I am not understanding your claim.

MS. HABBA: More importantly is, part of your claim is you believe, which we have now disproven, is that we gave Mazars those documents. I am a little lost on that as well. This is proof further that we gave Mazars everything, including information of what was and wasn't rent stabilized. Part of your case, not mine.

MR. AMER: I am not going to argue with them,

Your Honor. I think I made my objection. If we are going to have more argument we should excuse the witness, because it is not appropriate for him to be listening.

THE COURT: Let's excuse the witness and argue.
(Whereupon the witness stepped down from the stand and exited the courtroom.)

THE COURT: All right. I am going to start at a very simple level. These are two different buildings, correct, Mr. Robert?

MR. ROBERT: Yes, Your Honor.
THE COURT: So what does what somebody knew or didn't know about one building have to do with the building that the Attorney General is focusing on?

MR. ROBERT: Several issues, several reasons. The first is that it now shows that Mazars knows that we have assets with there are rent-stabilized apartments in it. They knew this was a conversion. They knew that Trump Park Avenue was a conversion.

Point two. They're questioning the way in which we valued Trump Park Avenue. What Mr. Suarez is showing is that the same methodology that was used here, that Mazars signed off on, is the same methodology we used for Trump Park Avenue that they signed off on. So the underlying mechanics are the same. Therefore, this is relevant.

THE COURT: You didn't convince me.
Did he convince you, Mr. Amer?
MR. AMER: No, he didn't.
THE COURT: Do you want to say why?
MR. AMER: Because they are two different buildings.

THE COURT: They are two different buildings.
MR. ROBERT: Maybe the government can clear it up for me then.

Are you not claiming that we misvalued Trump Park Avenue because we didn't take into account the stabilized apartments?

THE COURT: Yes, they are. I can answer that.
MR. AMER: And the Court has already ruled that the value of Trump Park Avenue was fraudulently inflated because it didn't properly account for the rent-stabilized status of apartments. There has been no argument in this case about Central Park South. Period. Full stop.

MR. ROBERT: I understand. But when you are looking at whether the defendants intended to do anything wrong or intended to do something with the valuation, here is an example of the way we valued it exactly the same way. And it is another example where Mazars had no problem with the way that we did it.

THE COURT: What --
1 MR. ROBERT: I am sorry, I didn't mean to interrupt.

THE COURT: What is the evidence that they valued it the exact same way.

MR. ROBERT: Mr. Suarez will get to that. When
Mr. McConney explains on his spreadsheet how he came to a value for Trump Park Avenue and how he came to a value for Central Park South.

Mr. Suarez, am I misstating it?
MR. AMER: I still don't see how it is relevant.
THE COURT: I don't see the relevance either. You can have two buildings and evaluate one correctly and evaluate one fraudulently, which I have already found.

MR. SUAREZ: Justice Engoron, Exhibit D-1023, which we moved in, has TPA and TPE. And you have got the Park East, which provides unregulated and regulated. You have got Trump Park Avenue, unregulated and regulated. They were -- there were numerous e-mails every year for the cert petitions that went to -- that went to Mazars concerning the regulated and unregulated nature of these units.

MR. AMER: I actually don't recall them moving it in. But even if it is in evidence, it is a March 12, 2021 e-mail. So, I don't know how it has to do with knowledge that predates that. I still don't see how it is

Page 4970
relevant.
THE COURT: Well, I'll let them try to make their case. So it is in and you can ask him what you want.

Let's get the witness back.
(Whereupon the witness resumed the stand.)
Q To be clear, Mr. McConney, what roles did Gumley Haft have in properties owned by Trump Organization entities?

A The only job they had was to deal -- send out leases for the rent-stabilized apartments in 100 Central Park South. Send out the leases, collect the rents, go after the tenants if they were in arrears. Notify us if a tenant was leaving so then we can -- we being my office, could then start taking over the billing for the free market apartment.

Q How was the role -- withdrawn.
Did Gumley Haft have that same role with respect to the Trump Park Avenue?

A No. That was done by our operations department. There is an attorney there, Sonja Talesnek who dealt with the hotel units and the attorneys for matters relating to those hotel units.

Q How was the rent collected on the regulated apartments at the Trump Park Avenue?

A That was done through my office at 725 Fifth Avenue.
Q And how was that information provided to Mr. Bender
for the regulated units?
MR. AMER: Objection, leading.
THE COURT: How was it provided?
MR. AMER: It kind of assumes that it does.
THE COURT: It is lack of foundation maybe?
MR. AMER: Well, it is both.
Q Was the information provided to Mazars concerning the rents generated from the regulated units?

A Yes. There was a rent-roll every month the person -Irene Caprino for arguments sake, would -- could print out a rent-roll listing of all of the tenants in the regulated units or unregulated units in the commercial space with the billing amounts, collections, arrears, prepaid rents.

MR. SUAREZ: If we could pull up Plaintiffs
Exhibit 736 and put it side by side with Plaintiff's
Exhibit 731?
Q Do you see in the Trump Park Avenue where it says that the valuation is based on the anticipated selling price of unsold residential units and the selling price or the rental income stream from the commercial space?

A Yes.
MR. SUAREZ: Can we pull up the supporting data for the Trump Park East?
Q Do you see there where it says the valuation is based on the anticipated selling price of unsold units?

Page 4972
A Yes.
Q And where it says for unsold units per e-mail from sales office?

A Yes.
Q Did you use the same method for valuing units at the Trump Central Park South as you did for the Trump Park Avenue?

A Yes, it was a little different where we reduced it by some construction costs, because those units really haven't been worked on in years.

Q And why would it be appropriate to reduce those units by the construction costs?

A That would properly reflect the amount we expected to receive net of -- from the sale of the unit.

Q If you pull up Plaintiff's Exhibit 736, is it clear in that document, Mr. McConney, that the numbers used were offering plan prices and not market prices?

MR. AMER: Objection, leading.
THE COURT: Sustained.
Q Mr. McConney, why was the information provided to Mazars provided for the offering plan prices and not the market prices?

A That's what we felt properly reflected the value of the asset.

Q And why was that?
A I am trying to figure, I don't know how to put it
into words, it is just what we thought the right value was for these units.

Q Okay. And turning briefly to Ms. Trump's apartment. Was there a correction made with respect to the price of Ms. Trump's apartment?

A Yes. I believe on the original spreadsheet I had the amount that was provided by the sales office. Donald Bender called me up and said Ivanka Trump had a lease. There was a buy-out provision in the lease which I didn't know about. And he said to put the amount there. So we did. The amount of \$14 million for Penthouse 20.

THE COURT: Five-minute warning.
MR. SUAREZ: I am ready to turn to another subject. Should I start with the other subject?

THE COURT: We have six minutes. Go ahead. MR. SUAREZ: Okay. If we can turn to 40 Wall Street.
Q Can you briefly describe this property?
A Forty Wall Street is a commercial office building in the downtown area of Manhattan.
\(Q\) How did you value this property?
A In both years it was based on a net operating income divided by a cap rate.

Q And how did you arrive at the cap rate?
A We reached out to Doug Larson. It looks like he was

Page 4974
still at Cushman \& Wakefield this year. Asked him for, in both years, asked him for his report he has been sending us in prior years for downtown class A properties. And we went through the various properties to see what was as comparable as we could get to 40 Wall Street; and then went from there.

Q And how did you determine the appropriate cap rate to use in June of 2014?

A Well, in that year they were based on the information that Doug provided. There was only one class A building with a cap rate of 4.97 percent. So there was a class \(B\) building which is below a class A building. It is not as -- it is just not as good as a class A building. That's -- if that's a term. Which had a rate of 4.46. I asked -- I called Doug and asked him, what the spread or the changing cap rate would be from a class A to a class B building. Doug said it is between 50 and 100 basis points. We were conservative, instead of using 100 basis points, we split the middle and used 75 basis points.

So we reduced the 4.46 percent to 3.71 percent and then took the average of the two; the two being 4.97 and 3.71.

Q And how did that change between 2014 and 2015?
A In 2015 we found a 100 Wall Street, and I get lost downtown, but I know 100 Wall Street is close to 40 Wall Street. So we had - there was a cap rate of a building at 100 Wall Street at 3.04 percent. Forty Wall Street has a ground lease, which means you don't own the land, you pay rent for
that land to the owner of the land. And basically Doug said there is a - since it is a longterm ground lease, the cap rate is a minimal effect or charge to the cap rate. So we increased - increased the cap rate on 100 Wall Street from 3.04 to 3.29 percent.

Q And were you aware in 2015 that there were appraisals done on the 40 Wall Street property?

A Yes.
Q Why didn't you use the appraisal values?
A I didn't think it reflected the value of the -properly reflected the value of the property.

MR. SUAREZ: Let's move to the notes under cap rate and focus on 2014 first.
Q Did you speak to Mr. Larson on the phone?
A I believe I did, and usually I put a date down, but that's the only way I would get this information about the difference between class \(A\) and class \(B\) buildings.

Q And in 2015, do you see the note there?
A Yes.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q Did you have another conversation that year with Mr. Larson?

A Yes. This time I did state it was a telephone conversation, and the date of the conversation with Doug, Doug Larson.

MR. SUAREZ: If we could pull up Plaintiffs Exhibit 3004.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And put it next to Plaintiff's Exhibit 731.
(Whereupon, the exhibit was displayed on the screen.)
Q And turn to native one on Plaintiff's 3004?
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: Move to the section on 40 Wall Street -- actually, let's start at the top and show Mr. McConney the top.
Q Do you recognize this document?
A That's my spreadsheet, at some point in time.
Q Is this a draft of the spreadsheet that was ultimately,
on the right, used for the 2015 Statement of Financial Condition?
A I'm sorry, can you ask that again. I was trying to
\begin{tabular}{|c|c|}
\hline J. McConney - by Defense - Direct Page 4977 & J. McConney - by Defense - Direct Page 4979 \\
\hline 1 read something. & 1 (Whereupon, the exhibit was displayed on the \\
\hline 2 Q Yeah. Is the spreadsheet on the left, plaintiff's & 2 screen.) \\
\hline 3 0304, native one, an earlier version of the spreadsheet that & 3 MR. SUAREZ: At row 117. \\
\hline 4 appears at 731? & 4 (Whereupon, the exhibit was displayed on the \\
\hline 5 MR. AMER: Just so the record is clear it's 3004, & 5 screen.) \\
\hline 63004. & 6 Q Was the Dean \& DeLuca income on the final spreadsheet? \\
\hline 7 MR. SUAREZ: We could pull up June 2015. & 7 A Can you shrink it so I could see the numbers in column \\
\hline 8 THE COURT OFFICER: The plaintiff's number? & 8 G. \\
\hline 9 MR. SUAREZ: We just had it up a second ago. The & 9 (Whereupon, the exhibit displayed on the screen was \\
\hline 10 2015, can we pull that up, Statement of Financial Condition. & 10 zoomed out.) \\
\hline 11 A The one on the right, can we just scroll up to the top. & 11 A Okay. I'm sorry, what was the question? \\
\hline 12 (Whereupon, the exhibit displayed on the screen was & 12 Q Is the Dean \& DeLuca lease in the final spreadsheet \\
\hline 13 scrolled through.) & 13 that appears at Plaintiff's Exhibit 731? \\
\hline 14 Q Let's look at the one on the right. Let's look at the & 14 A No. \\
\hline 15 value for 40 Wall. Plaintiffs 729 is the Statement of & 15 Q Do you know why the Dean \& DeLuca lease doesn't appear \\
\hline 16 Financial Condition. & 16 in the final spreadsheet? \\
\hline 17 MR. SUAREZ: We could turn to the page with the & 17 A I don't know. \\
\hline 18 statement of assets. & 18 THE COURT: Um -- \\
\hline 19 (The exhibit was handed to the witness.) & 19 MR. SUAREZ: I think for today I'm at a good \\
\hline 20 (Whereupon, the exhibit was displayed on the & 20 stopping point on my outline. \\
\hline 21 screen.) & 21 THE COURT: Okay. \\
\hline 22 Q Do you see here the value for 40 Wall ? & 22 I'll direct the witness not to discuss the case or \\
\hline 23 A Yes, \$735,400,000. & 23 his testimony, or anything related about it, until tomorrow, \\
\hline 24 MR. SUAREZ: Can we pull up Plaintiff's Exhibit & 24 until you are no longer a witness, and we'll resume at 10:00 \\
\hline 25 3004, native one, side by side. & 25 tomorrow; right? \\
\hline J. McConney - by Defense - Direct Page 4978 & Page 4980 \\
\hline 1 (Whereupon, the exhibit was displayed on the & 1 MR. ROBERT: Thank you, your Honor. \\
\hline 2 screen.) & 2 THE COURT: Okay. Thanks. \\
\hline 3 MR. SUAREZ: And scroll down to 40 Wall. & 3 (The case on trial was adjourned to Tuesday, \\
\hline 4 (Whereupon, the exhibit displayed on the screen was & 4 November 21, 2023 at 10:00 a.m.) \\
\hline 5 scrolled through.) & 5 \\
\hline 6 MR. SUAREZ: Where it says "value", show the value & 6 \\
\hline 7 for 2015. & 7 \\
\hline 8 (Whereupon, the exhibit was displayed on the & 8 \\
\hline 9 screen.) & 9 \\
\hline 10 Q Do you see where it says 660 million on cell G, 133? & 10 \\
\hline 11 A Yes. & 11 \\
\hline 12 Q Would you agree with me that that number does not & 12 \\
\hline 13 correlate to 735? & 13 \\
\hline 14 A Yes. & 14 \\
\hline 15 Q Does not correlate to the figure used in plaintiff's -- & 15 \\
\hline 16 in the Statement of Financial Condition for 2015? & 16 \\
\hline 17 A Correct. So this - this statement, the spreadsheet on & 17 \\
\hline 18 the right, was a draft, but not the finalized spreadsheet. & 18 \\
\hline 19 Q Do you see where it says, "Income vacant retail space, & 19 \\
\hline 20 Dean \& DeLuca"? & 20 \\
\hline 21 A Yes. & 21 \\
\hline 22 Q Do you recall adding that into your computation on the & 22 \\
\hline 23 draft spreadsheet that appears at Plaintiff's Exhibit 3004? & 23 \\
\hline 24 A Yes. & 24 \\
\hline 25 Q And if you pull up Plaintiff's Exhibit 731? & 25 \\
\hline

```

THE COURT OFFICER: All rise. Part 37 is now in session. The Honorable Judge Arthur Engoron presiding. Make sure all cell phones are on silent. Laptops and cell phones will be permitted, but only to members of the press. There's absolutely no recording or photography of any kind allowed in the courtroom. Now be seated and come to order.

THE COURT: Okay. Let's ask the witness to come back to the witness stand and continue with the direct examination of Mr. McConney.
(Whereupon, the witness stepped into the witness stand.)

THE COURT: I'll remind the witness, like I always do, that he is still under oath.

And Mr. Suarez --
MR. SUAREZ: Good morning, your Honor.
Q Good morning, Mr. McConney.
A Good morning. How are you.
Q I'm doing great. Thank you.
MR. SUAREZ: If we could please pull up page 4970 of yesterday's transcript.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. McConney, do you remember yesterday when I asked you about how information about rent regulated apartments was provided to Mazars or Mr. Bender?

A Yes.
MR. SUAREZ: If we could turn over to the next page.
Q I would just like to show you yesterday's transcript.
You described rent roll that would be sent to Mazars?
A Yes.
MR. SUAREZ: Please pull up Defendant's
Exhibit 1042 that we pre-marked for identification.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. McConney, do you see on the first page your name?
A Yes, sir.
Q And the date, October 3, 2012.
A Yes, sir.
Q Is this the type of rent roll that you were describing yesterday?

A Yes.
MR. SUAREZ: Can we please turn to the second page of the exhibit.
(Whereupon, the exhibit was displayed on the screen.)
Q And focus in on Apartment 6B?
(Whereupon, the exhibit was displayed on the screen.)
Q Here in the notes it says that it's a -- do you see

\(1 \quad Q \quad\) Unit 10 E on page five.
(Whereupon, the exhibit was displayed on the screen.)
Q What does that say in the notes?
A "Rent stabilized, no one charged SD when they signed the two-year lease, \(\$ 72.53 . "\)

Q In page six, Unit 12E, do you recognize the note there?
(Whereupon, the exhibit was displayed on the screen.)
A Yes. Should I read it?
Q Sure.
A "7/7/15, per Sonja." Sonja is Toleznik. She works in the operations department. She is one of the lawyers that would deal with these leases. "7/7/15, per Sonja, life estate, 12E is free market, but occupied by Luisa Flynn who has a lifetime tenancy", in parenthesis, "and is to be treated as a stabilized tenant with rent adjustments based on "monthly common charges and real estate taxes." Apartment is not being registered with DHCR.

Q And if we could turn to 1045, page nine, Penthouse 20. Who is the tenant in Penthouse 20?

\section*{A Ivanka Trump.}

Q What does the note say there?
A "Exclusive right during term of lease to purchase units for \(\$ 14,264,000\), notwithstanding the filing of any amendment to

Page 4990
offering plan that may increase price of unit."
Q Was this information disclosed to Mazars?
A It was sent to Mazars. It's right on the rent roll --
I'm sorry, the answer is yes.
MR. SUAREZ: Your Honor, I move Defendant's
Exhibit 1045 into evidence.
MR. AMER: No objection.
THE COURT: Granted. It's in.
(Defendant's Exhibit 1045 was admitted in evidence.)

MR. SUAREZ: If we could please pull up pre-marked Defendant's Exhibit 1043.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. McConney, do you recognize this document?
A Yes. This is a similar rent roll for Trump Park Avenue, LLC, for the month of December, 2014.
Q Do you know what PBC on the top left-hand corner means?
A The accounting firm would put that on documents. It means prepared by client.
Q The accounting firm was Mazars?
A I'm sorry, yes, Mazars.
Q Mr. McConney, why would this document have been
provided to Mazars?
A It's a rent roll. They would check to make sure -- I'm
sorry, let me go back. Trump Park Avenue is an accrual basis taxpayer. You would need to have to know if there are any arrears for tenants and any prepaid rents. What the rents were for the year took --

THE COURT REPORTER: im sory, what the rents were for the --
A Year reflected properly on the tax return. So this would give Mazars the information as of the end of the year, what tenants were in there, what the rents -- their rents were, and any notes that were associated with that unit.
\(Q\) Can you read the note for unit 6B?
A "Rent stabilized, preferential rent, lease expires 8/31/15.
Q And does that same note appear for Unit 7C with a modification to the end date of the lease?
A I don't see 7C. 7D?
Q Seven D, I'm sorry.
A Yes. 7D, "rent stabilized, preferential rent, lease expires \(10 / 31 / 15\).
Q If we could turn to Unit 8 H , which appears at page seven of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q What is the first note here at page seven of this document?

McConney - by Defense - Direct (Mr. Suarez)
Page 4992
A For 8 H , "hotel stabilized, no increase permitted."
Q How about the note at Unit 15AB at page eight?
A 15 AB , first paragraph says, "rent stabilized,
preferential rent, will not accept rent unless Meghan Kane
approves, per Meghan, okay. TYO, accept if current." Below
that, 10/28/14, "October payment bounced. Meghan forwarded to
BBWG."
Meghan Kane works in the operations department. She was like, not a building manager, but her responsibility was just to oversee certain buildings, and I believe this is one of the buildings she oversaw.

MR. SUAREZ: Your Honor, I move Defendant's Exhibit 1043 into evidence.

MR. AMER: No objection.
THE COURT: Granted. It's in.
(Defendant's Exhibit 1043 was admitted in evidence.)
Q Mr. McConney, did you ever attempt to withhold from Mazars that there were rent stabilized units at the Trump Park Avenue?
A Absolutely not.
MR. SUAREZ: If we could go back to Plaintiffs Exhibit 731.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: At row 71.
Q Do you see there Niketown?
A Yes.
Q Can you briefly describe this property?
A Um, Niketown is -- was Nike's premiere retail or
flagship store. It was opened a number of years ago. It's on
57th Street right off of Fifth Avenue. I think it was 50,000 square feet.

There was a building on that site prior to Nike signing this lease, and I think they actually had a bond offering, um, to pay for the improvements, or pay for something. They raised that building and put in this huge retail place where they sold Nike equipment.
Q How did you value this property in the year 2014?
A In 2014, well, there are two ground leases under the property. We were receiving rental payments from Nike, so that's the first line, the rental income. There was an annual charge for an operating charge of half million dollars, so that's the total income we received from Nike, a little over 11 million bucks.

The two ground lease payments are the payments we have because we didn't own the land. We made ground lease payments to, um, I don't know if it's the -- the person's name was Minskoff an another one called Kandell. The total of those payments were \(\$ 1.9\) million. We had an NOI of a little under

\section*{information that appears here in your spreadsheet?}

A The rental income we billed out. "We" being The Trump Organization rent department would send out a monthly rent bill to whomever the person at Nike was. Um, we paid the ground lease payments from the same bank account. We maintained a bank account in the office where I worked.

Q And how would you collect that information to put it on this page?

A I would run reports or look at information within multi-data systems. Multi-data was our general ledger package. So I would see whatever income came in. I probably ran a report of some sort, and I probably used the leases, looked at the leases to see what the multi payments were. Probably also looked at -- Im sorry. I also looked at the general ledger to see if all the payments were made.
Q How did you come up with the cap rate?
A Doug Larson, we mentioned yesterday, would send us these reports when we needed them, or asked for them. Which we used for -- we used those cap rates in the Statement of Financial Condition. I'm sure if you scroll down a little bit there's probably a footnote. We received some information from Doug or Cushman.

MR. SUAREZ: Sure. Let's scroll down a little bit.
(Whereupon, the exhibit displayed on the screen was scrolled through.)
J. McConney - by Defense - Direct (Mr. Suarez)

Page 4994
\(\$ 9.2\) million. We used a cap rate of 2.6 percent to come up with the value of \(\$ 348.8\) million.

Q How did you learn the specifics of the ground lease mechanism?
A There were two leases from prior to Nike having the space. I said there was another building there. We had the ground leases were in place. So we knew that we had to make grand lease payments on a monthly basis, or maybe there was an annual charge, also, to the two ground lease owners.

When Nike did the bond offering, I believe all the rental income and these ground lease payments were paid within the Nike bond deal. Once the bond was paid off, then we were responsible for billing Nike, collecting that money and paying the ground lease payments. And there were two ground leases that were negotiated a long time ago that had set monthly payments on.

Q How did you learn that specific information?
A I know when the bond deal was around. I remember David Malitzky and Allen Weisselberg were negotiating the Nike deal with whoever they were negotiating with. And I know they were negotiating, either extending or fixing the terms of the ground lease. So we -- there were conversations that I was part of. I don't remember what the conversations were, but, um, that's how I learned about the ground leases.

Q How would you have compiled the specific property

J. McConney - by Defense - Direct (Mr. Suarez)

Page 4998

Q Who did you discuss the selection of cap rates with? A Definitely discussed it with Donald Bender. I remember one time when he -- I just remember one time when he actually was questioning it and we had to provide more documentation for him. Um, not too sure what year it was, but I think we were using a four percent cap rate. And I don't remember what his question was, but we had to reach out and provide more information to him. I believe we left the cap rate at four percent.

MR. SUAREZ: Can we please play Plaintiff's
Exhibit 3297 marked for identification.
(Audio played in open court.)
Q Mr. McConney, is that your voice on the recording? A Yes.

MR. SUAREZ: Your Honor, to the extent it's not already in evidence, I move Defendant's Exhibit 3297 into evidence.

> MR. AMER: It's in.

Q Mr. McConney, does that voicemail refresh your recollection as to specific conversations with Mr. Bender concerning the selection of cap rates?
A The conversation with Ray Flores, our finance person, was the result of the conversation with Donald Bender.
Q Why would Mr. Bender be giving you a hard time about the cap rates that you used to value your property?

A It was like a lot of the other valuations, if not all the valuations. We went through it and he had questions.
Q When Mr. Bender had questions, how did you respond?
A Either a lot of times we had telephone conversations,
sometimes they were e-mails. If he needed more than my
telephone conversation, somebody would provide backup to him.
E-mail, I guess we would e-mail the backup nowadays. In the old days we got it to him somehow. Fed-Ex or some other means. Whatever he asked for, we gave him.

Q Was the information always within your knowledge? A No.
Q When it wasn't within your knowledge, how would you get the information to Mr. Bender?
A I would either speak to the person, the person who had
knowledge, or have that person directly call Donald Bender, or e-mail Donald Bender.

MR. SUAREZ: If we could turn to row 699. (Whereupon, the exhibit was displayed on the screen.)
Q Can you briefly describe the Seven Springs property that appears at row 699 of the spreadsheet?
A Seven Springs is the old Rockefeller estate. It's, it's -- I don't remember how many acres, but it's a large piece of property. I think it's a couple of hundred acres, and it's in three towns, New Castle, North Castle, and the third one I
cConney - by Defense - Direct (Mr. Suarez)
Page 5000
forget. It was a property purchased by Mr. Trump years ago, and over the course of time there were various visions for the property; golf course, high-end golf course, luxury homes, so depending on what year it was, the vision changed.
Q Can I direct your attention to the note for June 30, 2015?
A Okay.
Q Can you read that into the record, please.
A June 30, 2015, "Conservation easement property moved to other assets."

Q Why did the -- let me rephrase that, did the method of valuing the Seven Springs property change in \(2015 ?\)

A Yes.
Q Why?
A It was no longer for development. I was told that they were going to donate, and from what I've learned from my prior testimony, donate, I guess, investment rights. I'm not sure that's correct, but that's what I've been told, they were donating the development rights and they were going to get a charitable contribution for the donation of, I think, part of the land.
Q What do you know about conservation easements?
A Very little.
Q How would you have come up with a value for the conservation easement that you placed on your spreadsheet?

1 A It was an appraisal done specifically for the conservation easement that had a before donation and after donation valuation.

MR. SUAREZ: Can we move to row 895.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see that number?
A Yes. Can you scroll up so I could see. I think that's June of 15 column. I want to see the year it's for. Scroll up a little more.
(Whereupon, the exhibit displayed on the screen was scrolled through.)
A Okay. Yes.
Q And is that the value that you used in 2015 for Seven Springs?

A Yes.
Q Moving onto the triplex apartment?
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see there where you have a value for the triplex apartment?

A Yes.
Q And do you see -- can you explain to me the basis for valuing the triplex apartment?

A For the June of 2015 statement?

Page 5002
Q Yes.
A We reached out to our sales office, Trump International
Realty, and asked them to provide us with an amount per square
foot so we could -- which we used to value the, um, triplex. I believe the e-mail said -- the triplex is 30,000 square feet. It was something about \(\$ 10,900\) per square foot. Multiply the two and came up with the \(\$ 327\) million.
(Continued on the next page.)

Q Why was the value of \(\mathbf{3 0 , 0 0 0}\) square feet input into the spreadsheet?

A It was a mechanism so I knew from year to year what the value was based on. Sometimes I would just look at the spreadsheet and this way I didn't have to go to all of the voluminous backup we had. It reminded me how we valued the property at that point in time.

Q Where would you have come up with the number 30,000 square feet?

A The person running TIR at the time, Kevin Sneddon, sent me an e-mail that the triplex was \(\mathbf{3 0 , 0 0 0}\) square feet.

Q Was the \(\mathbf{3 0 , 0 0 0}\) square feet figure used to inflate the price of the triplex?

A It was used based on the information I received from somebody who knows. He is a broker. I would rely on him because I figured he knew the property a lot better than I did.

Q Have you, Mr. McConney, ever personally walked through the entirety of the triplex?

A The entirety, no.
Q Have you ever measured how many square feet the triplex is?

A No.
MR. SUAREZ: If we can move on to Vornado. And we can pull up the Statement of Financial Condition and put it side by side with the supporting data.

Q Mr. McConney, what are the Vornado Partnership interests?

A President Trump owns 30 percent of two buildings, the other 70 percent is owned by the Vornado -- I think it is the Vornado Realty Trust. There is one building in California, the 555 California Street; one building in Manhattan, that is 1290 Sixth Avenue.

Q How were the Vornado Partnership interests acquired by the Trump Organization?

A It goes back a long way. Mr. Trump originally was developing the west side to an entity called Penn Yard Associates, back in the late '80s early '90s, with Abe Hirschfeld. Mr. Trump ran into some financial difficulties in the '90s. I think the bank took -- the banks took back the properties and they sold them to a Hong Kong group. I don't remember the name of the entity.

They changed their name, I believe, to Hudson Waterfront Associates and gave Mr. Trump a 30 percent limited interest in this property for his name, for his brand, for his business acumen in developing the properties, and to help promote the properties.

The Hong Kong group built a couple of buildings, I don't know what kind of zoning or whatever they had for the properties. One building, which was Hudson -- they also developed there was one big property, I think 70 or 80 acres on
the west side, split it up into five separate partnerships.
Hudson Waterfront Associates II, they developed a condominium on that site and sold the condominium units.

I don't really remember the transaction of what happened, but they sold to, I think it was Sam Zell and somebody else, Hudson Waterfront I and III, IV and V.

I believe the Hong Kong group purchased these two buildings, and then at some point sold the buildings to Vornado -- or Vornado purchased the buildings, I don't know how you want to look at it. And Mr. Trump was just -- Mr. Trump still owned 30 percent of the partnership, so he just went from the ownership of vacant land or semi-developed land to these two office buildings.

MR. SUAREZ: Please pull up Plaintiff's Exhibit 2587.

Q Do you recognize this document, Mr. McConney?
A Yes.
Q And can you please take a look at row 11? What does row 11 represent?
A This spreadsheet is -- was used to compile the information for the cash and marketable securities line on the President's Statement of Financial Condition.

This is a lot of columns. We try to lay it out the best we could to identify the banks where the money was. Line 11 is the cash that is reflected on the balance sheet as of
the cash balance.
Q And in row 18? Can you explain row 18 to me?
A 18, HWA Waterfront Associates LP V, or five, is also one of the three partners in 1290 Avenue of the Americas. We took 30 percent of the cash on the balance sheet as of June 30 , 2016, and that's the \(\$ 1\) million reflected in the amount column.

Q And again, why did you place the 30 percent of cash on the balance sheet there on that row?

A So anybody looking at it would know we only took 30 percent of the cash.

Q And what is the cash at row 19?
A 19, HWA Waterfront Associates LP IV, or four, is the third partner in 1290 Avenue of the Americas. We took 30 percent of the cash on that balance sheet and reflected the \(\$ 21,000\) in the amount column.

Q Why does it say 30 percent of the cash there on the balance sheet?

A So we could disclose to everybody that we didn't take 100 percent of the cash.

Q Was this disclosed to Mazars?
A Yes, it was.
Q What involvement did Mazars have with respect to the Trump Organization's interest in HWA Waterfront Associates, if any?

A Every year Donald Bender would e-mail me or call me,

McConney - by Defendant - Direct (Suarez)
Page 5006
June 30, 2016 for 1290 Avenue of the Americas. We got a footnote there that we only own 30 percent of the property. So we multiplied that cash balance by 30 percent, and reflected the \(\$ 7\) million number on the -- in the amount column.

Q If you can look at row 16? Can you please identify for me the cash that is reflected on row \(16 ?\)

A Hudson Waterfront, HWA Waterfront Associates LP I owned 555 California Street. And again, we took the balance sheet from that entity, took 30 percent of the cash and reflected it on this cash schedule.

Q Why did you place there in parentheses ( \(\mathbf{3 0}\) percent of cash on balance sheet)?

A Full disclosure, just so somebody wouldn't think it was 100 percent of the cash.

Q And moving to row 17, what does that cash represent?
A HWA Waterfront Associates LP III is one of three partners in 1290 Avenue of the Americas. It was kind of a tiered entity. I think it is called a tenancy-in-common. I am not sure what that means on the legal side, but there was another balance sheet for that entity. That entity had cash. We multiplied that cash on the balance sheet times 30 percent and reflected the \(\$ 4\) million in the amount column.

Q And why did you list there in the row, 30 percent of cash on balance sheet?

A Again, so nobody would think we took 100 percent of

McConney - by Defendant - Direct (Suarez)
Page 5008
remind me to get -- the information was provided to the Trump Organization and Mazars via K-1. When you have a partnership your income, your ownership percentage, any other various items that need to be reflected on the owner's tax returns, is reflected on a K-1. Bender would remind me to call the tax department for Vornado and ask for the K-1 or get an estimated K-1, so we could do the extensions in April; the final K-1 so we could finish the President's tax return in October. So I would send to Bender -- e-mail to Bender these K-1s every year or a couple of times a year.

Q Do you see at the top there in blue letters -MR. SUAREZ: We can scroll over.
Q It says in blue: Per discussion with J. McConney on 2/27/17 cash balances are from bank reconciliations and not from individual balance sheets.

A Yes.
Q What does that mean?
A At a certain point in time we started valuing our golf courses based on their assets. So we would use -- we would get a monthly financial statement or June financial monthly statement, showing other assets and liabilities. I think at some point we were using the cash amounts on those balance sheets. This is reflected that we had actually had bank reconciliations, copies of bank statements.

A bank reconciliation is when you reconcile your book

\end{tabular}

\section*{McConney - by Defendant - Direct (Suarez)}

It was based on Doug's -- like we spoke about before, we contacted Doug Larson. He provided us with his reports for midtown for class A buildings. And based on that information we selected the cap rates used.

Q In 2015, how did you select a cap rate for 555 -- for the 555 California Street building?

A This time we were in contact with John Walsh from Cushman \& Wakefield in San Francisco, who provided us with information about class A office buildings in San Francisco. And based on those comps, we selected the two -- the two cap rates and came up with an average cap rate.

Q When you say, "we selected" who selected the cap rate?

A I selected the cap rate. Sorry.
Q Was your selection of the cap rate based on your discussions with the gentleman from Cushman \& Wakefield? MR. AMER: Objection, leading. THE COURT: Sustained.
Q What was your selection of the cap rates based on?
A It would be based on the e-mail in 2015, the e-mail that came from John. I don't have here a note about a phone call, so I don't remember if I actually spoke to him or not.

Q Did you intend for your notes to be accurate, Mr. McConney?

A This is the best I could, yes.

McConney - by Defendant - Direct (Suarez)
Page 5018
Q What was the purpose of writing these notes on the supporting data?

A To let the reader of these spreadsheets know where the numbers were coming from.

Q And in 2015, how did you select the cap rate for 1290 Avenue of the Americas?

A Doug Larson, we reached out to Doug, Doug provided us his report for comps, midtown class A buildings, and there were four properties. There were four properties we used as comps to come up with the average cap rate, the 3.11 percent.

Q Moving onto Mar-a-Lago at row 191.
Do you see for Mar-a-Lago where it says: Value if sold to an individual?

A Yes.
Q Why does that note appear on your spreadsheet?
A Because we didn't value it as an operating club. We valued it as if the house, the mansion, all of the additions to the mansion, the cabanas, private beach, were sold to an individual.

Q And why was it not valued as a private club?
A I don't remember off the top of my head.
Q What did you do in 2014 to reach a value for Mar-a-Lago?

A Whenever we valued Mar-a-Lago we tried to find comps in the area. There is nothing like Mar-a-Lago. It is

17 acres. It goes from the ocean to the intercoastal. The properties we found were always smaller properties. They may have been on the intercoastal, may have been on the ocean, may have been landlocked. But there was nothing as huge as this estate. We tried to comp it, come up with a comp the best we could to come up with a value.

In 2014 there was, I think it was one big deal where 530 and 540 South Ocean Boulevard -- so you know, Mar-a-Lago is on 1100 South Ocean Boulevard. So it is not close, but not far away. And 61 Middle Road, which I believe is all connected to the 530 and 540 South Ocean Boulevard property. Took the selling price, divided by the number of acres, came up with an average price breaker, multiplied it by the 18 acres which is the size of the Mar-a-Lago property, came up with \(\$ 309\) million.

To that we added some of the structures that we -that the Trump Organization put on the property, the grand ballroom didn't exist. The beach cabanas was basically just a beach originally when it was a private residence. When Mr. Trump owned it, President Trump owned it as a private mansion. And then we had a tennis pavilion and tea house that we improved. So those amounts were added to the value.

Q What, if any, discussions did you have with Mazars concerning the method of valuing the Mar-a-Lago club?

A I don't remember having a specific conversation with Mazars on this.

Q How did you value the 2015 -- how did you value Mar-a-Lago in 2015? Excuse me.

A It was basically the same process. We tried to find a property that had a selling price in this year. In the neighborhood of Palm Beach we found this one for \(\$ 71\) million. Came up with the same value - came up with a value per acre. Multiplied it by the number of acres for Mar-a-Lago. Came up with the valuation of 261 million. And then we added the value of the grand ballroom and beach cabanas.

Q Why did the value of Mar-a-Lago change by more than \(\$ 57\) million? Why was it reduced by \(\$ 57\) million from 2014 to 2015?

A The value per acre dropped from 13 million -13.8 million to 16.4 million. It is the best comp we came up with.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
J. McConney - by Defense - Direct (Mr. Suarez) Page 5021

1 Q Were you trying to be accurate when you reduced the value in Mar-a-Lago from 405 million to 347 million from 2014 to 2015?

MR. AMER: Objection. Leading.
THE COURT: Were you trying to --
MR. SUAREZ: Be accurate.
THE COURT: -- be accurate?
A I always try to be --
THE COURT: Hold on, hold on.
MR. AMER: It is a yes, no question, your Honor.
THE COURT: It's leading. Granted - I mean, overruled.

MS. FAHERTY: Sustained.
THE COURT: Sustained. I knew I would get it sooner or later.

You could ask him why he did it.
Q What, if any, was your intention in reducing the value from \(\$ 405\) million to \(\$ 347\) million of Mar-a-Lago from 2014 to 2015?

A Our intention was always to reflect the best we could the value of these properties.

Q Do you see where it says the Mar-a-Lago Club value, if sold to an individual?

A Yes.
Q Why is the Mar-a-Lago Club listed under club

\section*{J. McConney - by Defense - Direct (Mr. Suarez)}

Page 5022

\section*{facilities?}

A Mar-a-Lago is a social club, um. When -- at some point in time it was added under club facilities, and we just included it there, just like the golf courses. I don't remember any or reason.

Q How was it determined to put all of the -- withdrawn.
MR. SUAREZ: Can we scroll down to the first golf course.
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q Trump International Golf Club in Florida.
Mr. McConney, how did you come up with the valuation method for the Trump International Golf Club in Florida?

A We were trying to figure out a way to best value the property. We thought at this point in time that if we took the purchase price and the improvements to the property, we would have an idea of what it cost to fix up or to get the property to the luxurious level, five-star level that President Trump wanted.

This was the case that we developed it from scratch, the vacant land was literally a garbage dump that the town or county had. Mr. Trump had a vision to develop it into a world class golf course. And this is what it cost to clean up the property and develop, or grow -- to put the golf course in place. I don't know what the right word is.

Mr. Trump went in, bought out the partners, so we had a purchase price there and then developed the golf course. This came off the balance sheet from the accounting department at the Bedminster golf course.
Q And how about Colts Neck? How did you come up with the value for the asset for Colts Neck?

A Colts Neck, I know, had a housing component around it. We didn't purchase the housing component. We just purchased the golf course.

Again, it was, I think -- it was either an existing golf course or it was almost finished. I think it was an existing golf course that was operational. We purchased it. I'm not sure if the developer was in bankruptcy or close to bankruptcy. He was having financial problems. So we purchased the golf course, which is included in fixed assets, or part of the purchase was included in fixed assets, and any improvements we made to the property.

Q Why was there a premium for a fully operational branded facility added to the Colts Neck property?
A There are golf courses which we, you can say, built from scratch, which would be Briarcliff, Trump International in Florida, Bedminster. And there were properties that were already in existence. Mr. Trump spent funds in order to bring
\begin{tabular}{|l|l|}
\hline J. McConney - by Defense - Direct (Mr. Suarez) Page 5025 \\
1 & those properties, and there are a number of them, from their \\
2 & whatever status they were to the luxurious status, the five-star \\
3 & status that he wants his properties to have. So that was the \\
4 & premium that was added. \\
5 & Q \\
6 & Was the addition of that premium disclosed to Mazars? \\
7 & Q \\
8 & Yes. \\
8 & of that, if any, response did Mazars give to the addition \\
9 & A I don't remember them saying anything or fighting back \\
10 & or arguing with us. \\
11 & Q If we could go through the Trump National Golf Club in \\
12 & Washington, D.C. How was the valuation methodology for this if \\
13 & golf club determined? \\
14 & A \\
15 & This was similar to Colts Neck. The developer -- I was an existing golf course already. The developer was \\
16 & -- we bought it from a developer at a discounted price, and we \\
17 & made improvements to the property. And, again, since we didn't \\
18 & develop it from scratch, we had the operational premium to it. \\
19 & Q How about the Trump National Golf Club in Philadelphia. \\
20 & Was how was valuation methodology achieved? \\
21 & A \(\quad\) We purchased Philadelphia, Pine Hill and Hudson Valley \\
22 & in one transaction. I believe the purchase price was \\
23 & \(\$ 7\) million. It was a bankruptcy, so that's why the price was so \\
24 & low. Mr. Trump spent money bringing it up to his standard. So \\
25 & the value on the fixed assets would be the purchase price and \\
\hline
\end{tabular}
J. McConney - by Defense - Direct (Mr. Suarez)

Page 5026

the improvements, and then we added the operational premium.
Q And that was also true of Hudson Valley?
A Yes. That was one transaction. Two separate closing statements, but it was one transaction. So we bought them both at the same time. I believe it was the same developer.

MR. SUAREZ: If we could keep scrolling down.
(Whereupon, the exhibit displayed on the screen was
scrolled through.)
Q How about the Trump National Golf Club in LA? How did you come up with that valuation method?
A Basically the same concept. There was a golf course that was originally an 18 -hole golf course in LA. There was some sort of earthquake or something that I think one or two holes were, I wouldn't say lost in the ocean, but separated from the property.

Mr. Trump purchased that asset, spent a lot of money fixing it up, bringing the missing holes -- I think it was a 15-hole golf course for a number of years, and then it became the 18 -hole golf course. So we just added that, whatever the asset value was. The asset value was on the balance sheet.
Q How did that valuation change between 2014 and 2015?
A There was a conservation easement made for part of the property. I think -- well, it was part of the property where some of the lots -- the property was divided into a number of lots. A number of the lots were donated and for a conservation

\section*{easement.}

Q And what effect did that have on the value of the property from 2014 to 2015 ?

A It reduced it about \(\$ 18\) million.
Q What does this 72,979,000 figure at J-404 reflect?
A I tried to keep track. That was like a little proof I had to keep track, or total, um the change for the net worth for the year in certain assets. That's the reduction in the golf course value from June of 2014 to June of 2015.

Q And that's for the Trump National Golf Club in LA? A Just for the LA property, yes.

MR. SUAREZ: If we could keep scrolling down.
(Whereupon, the exhibit displayed was scrolled through on the screen.)
Q How did you value the Charlotte club, Mr. McConney?
A Charlotte was an existing course we purchased, I think,
from the club. I don't know the reason why the club wanted to sell it, but they wanted Mr. Trump to take it over.

So that would have been the purchase price and any funds we expended -- the company expended to fix up the golf course, and then we added the operational premium.

Q How did we -- withdrawn.

MR. SUAREZ: Scroll down to Jupiter, Mr. McConney. (Whereupon, the exhibit displayed on the screen was

Page 5028

\section*{scrolled through.)}

A Okay.
Q How did you come up with a valuation methodology for the Jupiter club?
A Jupiter, I know we had a small cash purchase price for it. We assumed -- I'm pretty sure on the DC golf course and Charlotte golf course, we assumed liabilities, plus whatever amount we expended to bring the property up to the five-star Trump level.
Q Can we pull up Defendant's Exhibit 1021 marked for identification and put it side by side?
(Whereupon, there is a brief pause in the testimony.)

MR. SUAREZ: I think the computers are also ready for Thanksgiving.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this document, Mr. McConney?
A Yes, sir.
Q What does this document describe?
A This was an allocation into -- I believe it was prepared by an accounting firm to allocate the purchase price, which was the cash and the liabilities for member deposits that we assumed, plus some closing costs, allocate that to purchase price to the tax return. It wasn't done for the tax return, so
\begin{tabular}{|c|c|}
\hline J. McConney - by Defense - Direct (Mr. Suarez) Page 5029 & J. McConney - by Defense - Direct (Mr. Suarez) Page 5031 \\
\hline \begin{tabular}{l}
we could allocate the purchase price between various assets or expenses; building, building improvements, land, furniture fixtures, which was needed in order to give us a basis to depreciate those assets if possible. Land you don't depreciate. Land improvements, I believe you can. So for the tax return, we needed to allocate it. \\
Q How -- I'm sorry go ahead. \\
A There's also a form that needs to be attached to the tax return showing the allocation of the purchase price and, I think, its broad categories. The tax return was prepared by Mazars, so they had all of this. \\
Q Was the allocation of the purchase price disclosed to Mazars? \\
A Yes. \\
Q And how was -- withdrawn, why is the membership deposit liability assumed part of the purchase price? \\
A This -- the seller of the property has two \\
alternatives. You could pay off your membership deposits and then you could up your price, or you could just say, take the membership deposits and pay them off. So it's like a loan. You have an obligation to pay off these deposits or settle these deposits at some point. So that's according to what I've been told by the accountants that's part of your purchase price. \\
MR. SUAREZ: All right. We could go back to Plaintiff's Exhibit 731.
\end{tabular} & \begin{tabular}{l}
specifically? \\
A Yes. This was -- there are four golf courses, a spa, hotel rooms, banquet facilities, for -- this is all of Doral. It's a large piece of land in Miami. \\
Q When you had an appraisal for the property, did you always use it for the basis for valuation? \\
A No. \\
Q What instances would you not use it? \\
A Most appraisals are done -- to my knowledge all appraisals -- I shouldn't say that. What I know of appraisals, they are done for a specific purpose. The -- this appraisal was done to value the property. Other appraisals are not conservation easement is not done to value of the property. It's done for valuation for a conservation easement. So appraisals are done for different reasons. Just because it is an appraisal done doesn't mean it's going to properly reflect the value of that property. \\
MR. SUAREZ: Can we scroll back up to 40 Wall. (Whereupon, the exhibit displayed on the screen was scrolled through.) \\
Q In 2015, what was the basis used for valuing 40 Wall? \\
A A budget for the property was prepared for 2016. We \\
used the operating income, the operating expenses to come up with a net operating income. Donna Kidder and Allen \\
25 Weisselberg, who worked on this, adjusted the rent roll to bring
\end{tabular} \\
\hline \begin{tabular}{l}
J. McConney - by Defense - Direct (Mr. Suarez) \\
(Whereupon, the exhibit was displayed on the screen.) \\
Q How did you come up with the valuation method, turning your attention to the Trump golf links, Ferry Point? \\
A It was kind of hard to value Ferry Point. Ferry, at this point, Ferry Point was a licensed deal with the City of New York. When we came up with this, let's just value it at whatever The Trump Organization had invested or spent on the golf course, or acquiring the golf course. So that's the amounts that are reflected here. \\
Q And what is the Ferry Point property? \\
A It's a golf course in the Bronx that the City was \\
trying to develop for years, like Wollman Rink, they couldn't \\
finish the project. President Trump took over, finished it, made it a great golf course. It's a links golf course. \\
Q How did you come up with the value for Doral? \\
A In 2015? \\
Q In 2015, yes. \\
A In 2015 there was an appraisal done. We used the amount on that appraisal. \\
Q Why did you use the amount in the appraisal? \\
A Um, Allen Weisselberg was usually involved in these appraisals, told me, "Use the appraisal. Use this amount." \\
24 It's best reflects the value at that time of the property. \\
25 Q Was that with respect to the Doral property
\end{tabular} & \begin{tabular}{l}
J. McConney - by Defense - Direct (Mr. Suarez) \\
it to a stabilized basis. There were leases being negotiated. \\
There was some vacant space. We came up with a \(\$ 24\) million NOI, divided by a cap rate, and came up with the valuation of \(\$ 735\) million. \\
Q And what did you disclose to Mazars about the basis for valuing 40 Wall in \(2015 ?\) \\
A We gave them the budget. We listed the vacant space or gave them a schedule of the vacant space, a schedule of the leases. Um, we gave them the backup we would have received from Doug Larson from Cushman \& Wakefield of where the cap rates came from. \\
Q Who would have selected the cap rate in 2015? \\
A I would have. \\
Q And what value did this valuation method yield for 2015? \\
A \(\$ 735\) million. \\
MR. SUAREZ: Can we pull up Plaintiff's Exhibit 868. \\
(Whereupon, the exhibit was displayed on the screen.) \\
Q Mr. McConney, do you see your name at the top, from? \\
A Yes. \\
Q What is the date of this e-mail? \\
A December 29th, 2015. \\
Q Who did you send this e-mail to?
\end{tabular} \\
\hline
\end{tabular}

\section*{A Donald Bender.}

Q If you could please take a look at Plaintiff's Exhibit 868.

THE COURT OFFICER: Do you have it in evidence? MR. SUAREZ: I believe it is.
(The exhibit was handed to the witness.)
MR. SUAREZ: Thank you.
Q Do you recognize this e-mail?
A Yes.
Q What is it?
A Um, it's an e-mail to Donald Bender with an appraisal done in 2015 by Ladder Capital. Ladder Capital was an investment bank. We were looking to pay off the existing loan with Capital One, and Ladder Capital came in to do - provide us with a loan.

MR. SUAREZ: Can we turn to the second page of the appraisal.
(Whereupon, the exhibit was displayed on the screen.)
Q What is the date of this appraisal?
A June 25th, 2015.
Q Do you see the market value as-is in the third page of this exhibit?
A Yes.
Q Do you see the value is -- I'm sorry, what do you see
J. McConney - by Defense - Direct (Mr. Suarez)

Page 5034
as the value conclusion?
A The value conclusion for market value as-is as of June 1st, 2015, for a leasehold estate was \(\$ 540\) million.
Q Is that less than the number that appeared in your supporting data?
A Yes.
Q Why did you use a different value than that which was in this appraisal?
A Well, we didn't think this valuation properly reflected what we thought the building was worth.
Q Did you send the entire appraisal to Mr. Bender?
A I'm not sure if \(I\) did. If he needed it, we would have sent it to him. I don't remember if we actually did or not.
Q If there are less pages here than the entire -- than contained in the entire appraisal?
A Yes, there are.
Q Why would you have sent Mr. Bender only a limited number of pages from the appraisal?
A At the time we were -- we were working on a draft.
This -- these were the documents I would have relied on to value 40 Wall Street when I submitted that draft to Bender. Um, no use sending a ton of documents. I mean, if you want them, he could've had them, but this is what I relied on at that point in time for the valuation.

MR. SUAREZ: If we could go back to the plaintiff's
supporting data at Plaintiffs 731.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: And go to Briarcliff -- I'm sorry, Aberdeen?

MR. AMER: Just to be clear, it's not "the plaintiff's supporting data", it's defendant's supporting data.

MR. SUAREZ: Plaintiffs's Exhibit, Mr. Amer. I misspoke. Please excuse me.

MR. AMER: I'm just correcting it for the record. MR. SUAREZ: And I appreciate it.
Q How did you come up with the valuation for the Aberdeen club, which I know it appears on your schedule as Trump International Golf Club Scotland?

\section*{A For June of 2015?}

Q Well, how about we start with 2014?
A In 2014, we started with, from inception to date, the capital contributions made by The Trump Organization to acquire the various lots. Um, there wasn't one large parcel of land we purchased. There were a number of lots. I don't know how many.
There were a number of lots we purchased and assembled in order to build the golf course in whatever future vision President Trump had. That's the \(\$ 62\) million.

There's an adjustment for the land that we were going
cConney - by Defense - Direct (Mr. Suarez)
Page 5036
to use for the hotel and residential structures, and we came up with the balance, added a premium for assembling all these land parcels together, and came up with a value of \(\$ 74\) million for that land.
Q Was the premium for the assembly of the land parcels disclosed to Mazars?
A Yes, it was.
Q What, if any, reaction did Mazars have to the inclusion of that premium?
A They accepted it, because they didn't say anything that I remember.
Q How did the -- I'm sorry, how did you value the property in 2015?
A In 2015 we used the TIGCS, which stands for Trump International Golf Club, Scotland. They -- I presume at that point in time they had an accounting staff in place who provided us with a year-end, or December 31st, 2014, financial statement. We used the fixed assets on that statement.

It provided us with any fixed asset additions for the first six months of 2015, um, came up with the total. Their financial statements in pounds, we converted it to US dollars, subtracted the value of the land that was going to be used for the hotel and residential space, added the 30 percent premium, and came up with a \(\$ 60\) million value.

THE COURT: Four-minute warning.
J. McConney - by Defense - Direct (Mr. Suarez) Page 5037

Page 5038
involved in the day-to-day operations to the property, she would have provided me the number.
Q What personal knowledge did you have concerning construction plans for Aberdeen?
A Other than what they told me, none.
MR. SUAREZ: Your Honor, I'm at a good breaking point for the morning, for the morning break.

THE COURT: I understand. I have a quick question for the witness.

You were asked many times by Mr. Suarez, "Did you disclose X, Y and Z to Mazars?"

And you would say, "Yes." Was that by these supporting documents or was that some independent communication that you would inform them?

THE WITNESS: What I can -- what I can prove is what's here on the spreadsheets. Bender was intimately involved in our day-to-day operations. I keep saying he knew more about the company than I did, and I sat there in the building. Um, I can't prove conversations I had with him, but he knew what we were doing with various properties. He was the person in charge of, um, formulating Mr. Trump's, President Trump's tax strategy. We would ask him how he would structure purchases, um, what information would you use in a loan document. So other than knowing Bender for 40 years and talking to him all the time about all the

(Whereupon, the exhibit displayed on the screen was scrolled through.)

MR. SUAREZ: Too far. Further up. No, no, go back.
(Whereupon, the exhibit displayed on the screen was scrolled through.)

MR. SUAREZ: Back to Scotland.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see here where it says "Value of residential parcel based on purchase of land by Persimmons, Hopecroft, Bucksburn, value of land per home"?
A Yes.
Q And it has then a number of homes to build?
A Yes.
Q How did you arrive at the number of homes to build of 2,500?
A George Sorial, who worked out of The Trump Organization
office where I worked, was the person overseeing this project in
-- and the person in charge of getting various approvals to do
-- the President wanted to do at the location. It was either
verbal information, or a verbal phone call, or an e-mail that
George would have sent me. If it didn't come from George, Sarah
Malone was the general manager for the property, was intimately
assets we had, I can't prove it other than I've typed it here on the spreadsheet.

THE COURT: All right. So can I summarize that long answer as information was on the spreadsheet and/or we might have separately communicated it, and he knew everything anyway?

THE WITNESS: Yes.
THE COURT: I'm good at condensing. Perfect timing. See you all in 15 minutes.
(Continued on the next page.)

COURT OFFICER: All rise. Part 37 is back in session.

Please be seated and come to order.
(The witness resumed the stand.)
THE COURT: Okay. Let's continue.
MR. SUAREZ: Your Honor, before I forget, Defendant's Exhibit 1027, if we could pull that up?

I would like to move this into evidence. This concerned a discussion that we had yesterday about the Trump Central Park South, the Trump Park East and the method of valuing that and the consistency in the procedures with Mazars.

MR. AMER: I objected before. I'll continue to object on relevance. I understand Your Honor's ruling.

THE COURT: Granted. It is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1027 by the Court.)

MR. SUAREZ: And Defendant's Exhibit 1021, which we just reviewed with the witness, can you pull that up? Defendant's 1021, which is the allocation of the Jupiter purchase price, I would like to move that into evidence.

MR. AMER: No objection.
THE COURT: Granted. It is in evidence.
(Whereupon, the document referred to was deemed

\begin{tabular}{|cc|}

1 & MR. AMER: As long as it is clear, it is not \\
2 & coming in for the truth of the matter asserted. \\
3 & THE COURT: Right, only coming in for its affect \\
4 & on the witness. Understood, everybody? \\
5 & MR. ROBERT: That's what it was intended for. \\
6 & MR. SUAREZ: I have no further questions on \\
7 & direct. \\
8 & Thank you, Mr. McConney. \\
9 & THE WITNESS: Thank you. \\
10 & THE COURT: Will there be any cross examination? \\
11 & MR. AMER: There will. \\
12 & THE COURT: Mr. McConney, are you okay or you \\
13 & need a couple of minutes? \\
14 & MS. HABBA: I was going to say, do you want a \\
15 & minute. \\
16 & THE WITNESS: No, I am okay. \\
17 & THE COURT: Okay. Let's do it. \\
18 & THE WITNESS: Thank you. \\
19 & Thank you, sir. \\
20 & MR. AMER: Can you just make sure that mic is \\
21 & off? \\
22 & MR. SUAREZ: It is off. \\
23 & MR. AMER: Okay. \\
24 & THE COURT: Please proceed. \\
25 & MR. AMER: Thank you, Your Honor.
\end{tabular}
\begin{tabular}{|c|c|}
\hline & Conney - by Defendant - Cross (Amer) Page 5046 \\
\hline & CROSS-EXAMINATION \\
\hline 2 & BY MR. AMER: \\
\hline 3 & Q Mr. McConney, are you okay to proceed? \\
\hline 4 & A Yes, sir. Thank you. \\
\hline 5 & Q Okay. So, I want to begin by talking about a \\
\hline 6 & discussion that you had yesterday in response to questions from \\
\hline 7 & Mr. Suarez about who wrote particular portions of the 2015 \\
\hline 8 & Statement of Financial Condition. Do you recall that exchange? \\
\hline 9 & A Yes. \\
\hline 10 & MR. AMER: Why don't we put up Plaintiff's \\
\hline 11 & Exhibit 729 in evidence. \\
\hline 12 & Q And do you recall that there was language that \\
\hline 13 & Mr. Suarez asked you about that you stated came from Mazars, \\
\hline 14 & either Jerry Rosenblum or Donald Bender; do you recall that? \\
\hline 15 & A Yes, that was in the footnotes, yes. \\
\hline 16 & Q Now, it is the case that ultimately the language in \\
\hline 17 & the 2015 statement was reviewed and approved by the Trump \\
\hline 18 & Organization, yes? \\
\hline 19 & A Yes. \\
\hline 20 & Q And you testified yesterday that you would review the \\
\hline 21 & draft statement with Mr. Weisselberg, and then Mr. Weisselberg \\
\hline 22 & would say, go and tell Mazars to print it. Do you recall that \\
\hline 23 & testimony? \\
\hline 24 & A Yeah, I don't know that those were the exact words, \\
\hline & but he was fine with the statement to be finished. \\
\hline
\end{tabular}

Q And I am just talking about your testimony yesterday about it.

A I apologize. Yes, I believe that's the words I used.
Q Okay. But there was a step in-between that involved Donald Trump prior to 2017, wasn't there?

A I don't know - I don't know what Allen -- what the next step was. I finished my conversations or my presentation, my documentation with Allen. I don't know what he did or did not do with the President.

Q It was your understanding, however, that before Mr. Weisselberg would give the okay to print, Donald Trump was to get final review of the Statement of Financial Condition for the years where you were primarily responsible for preparing the statement, correct?

A That was my understanding, yes.
Q So between the time that you and Mr. Weisselberg reviewed the draft statement and Mr. Weisselberg gave the okay to have Mazars print it, it was your understanding that Mr. Weisselberg would share the draft statement with Donald Trump for his final review; at least for the years where you were the primary drafter of the statement, correct?

A That was my understanding, yes.
Q In terms of Donald Trump's role in having the final review, am I correct that he ceased having that role in 2017 when he became President?

Page 5048
A Yes.
Q And do you recall that there was an internal restructuring of the Trump Organization as a result of Mr. Trump becoming President to remove him from his executive positions to avoid a conflict of interest?

A Yes.
MR. AMER: If we could put up what we have marked as Plaintiff's Exhibit 1329 ?
(Handing)
Q Mr. McConney, do you recognize this as the internal restructuring document that was used to implement what we just discussed about Mr. Trump being removed from executive positions as a result of his inauguration?

A I don't remember seeing it -- I never saw it in this formal presentation: Trump Organization internal restructuring and the closing dates. I do remember seeing through page nine of 34. Seeing these various assignments of membership or partnership interests from various entities to, I believe, the Trust or the holdings company. You want to ask the legal department about who the current owner was of these entities. I kind of lost track after a while.

Q Let me show you the summary on page two. It says Summary of Transaction. It says: "Through various assignments dated as of December 31, 2016, January 1, 2017 and January 19, 2017, DJT transferred all of his direct interests in the Trump
title page I would have no idea what was inside of it.
I, at times, asked the legal department who the owner of this entity was because of the change. And I would - they would send me some information about the assignment of ownership interest and I would go through and find the entity that I needed.

THE COURT: All right. So, plaintiff, would you agree then that it can't be authenticated through this witness? He said he wouldn't even have recognized it.

MR. AMER: I don't think we have to authenticate it. That's agreed to. All documents produced are authentic.

THE COURT: That's a different argument.
MR. ROBERT: Authentic. The fact this was produced by Trump Organization is not in dispute. Is this a draft? Is this something that was circulated?

THE COURT: We could -- we could look into that and you could argue about that. But of course I am letting it in.

MR. ROBERT: As to what?
THE COURT: You agreed that -- my understanding is that you agreed if you turned it over it is admissible in evidence.

MR. ROBERT: No, we agreed it is admissible as to authentication. This is created by us. What it was

McConney - by Defendant - Cross (Amer)
Page 5050
seen it in its entirety.
MR. AMER: This is a document from their file.
THE COURT: You said -- it is going back to Mr. Suarez, he testified he hasn't seen it in its entirety.

MR. SUAREZ: I think his testimony was that he had seen pieces of it, but he can't identify the document. When I asked him if he recognized it, he said not in this form, or something to that effect.

MR. AMER: I don't think we have any authentication problem based on the initial agreement between the parties. He has indicated this comports with his recollection of what happened. And this is a document from their own files.

MR. ROBERT: I don't know that it has ever been determined that this was final or this was circulated. I think this was questioned at one or more depositions as well and I think that was the same answer given. Not sure exactly what this document is. I am not necessarily disagreeing with the contents of it, as this witness said, but not knowing exactly what this is.

THE COURT: What, if anything, is your knowledge of this document? Maybe looking at the title page would be best.

THE WITNESS: If I just would have seen the
created for, I can't speak to that right now. And I believe at one or more depositions the government asked the witnesses what this was, and they had answers similar to Mr. McConney. Don't remember seeing this before but it appears to be kind of a summary of what happened.

We don't know what this actually became. We don't dispute that this was created by the Trump Organization.

THE COURT: And do you dispute that there was an agreement that if you turned something over, maybe with or without more, that it was admissible?

MR. ROBERT: No. Then there wouldn't have been an exchange of exhibit lists before the trial started. The agreement was to authentication, unless there was some extraordinary reason to object saying it was inauthentic. That was the stipulation. Otherwise why would we have an exhibit list and constantly update it every day if everything that was exchanged was admissible.

THE COURT: What does authentication mean? What is it worth?

MR. ROBERT: It is worth so you don't have to have a certification under the CPLR or have a witness come in to authenticate that the document is what it is. If this is something that says the Trump Organization, it is labeled internal structuring. It is 34 pages. We don't

Q And are you certain of that answer?
A That's my recollection. And again, Mazars is Jerry Rosenblum and Donald Bender.

Q And on the top of page 4937 of the transcript.
Mr. Suarez asked you about the remainder of the same paragraph.
"QUESTION: And the rest of the paragraph which says "the brand along with the level of quality of Mr. Trump's residential developments, has allowed the selling price per square foot in Trump properties to be amongst the highest among prominent real estate developers. The good will attached to the Trump name has significant financial value that has not been reflected in the preparation of this financial statement." Close quote.

Who words are those, Mr. McConney?
"ANSWER: Mazars'."
You recall that testimony, correct?
A Yes, sir.
Q And are you certain about that answer?
A That's my recollection, yes.
MR. AMER: Okay. Let's go ahead and keep
Plaintiff's Exhibit 729 on the screen and let's put up next to it Plaintiff's 3054 in evidence.

I am just going to wait for you to get a copy. (Handing)

Q Now, Mr. McConney, I showed you Plaintiff's Exhibit 34, you may recall, when you testified last month. And you confirmed that all of the handwriting on Plaintiff's 3054 is yours. Do you recall that?

A If this is the same financial statement, yes. And I am through a few pages and so far those are - that's my handwriting.

Q Do you recall on the second page I got you to confirm your handwritten note: DJT to get final review. Do you remember that?

A Yes.
Q Let's turn to the paragraph that begins: "Pursuant to GAAP" in this exhibit, which you will find on the bottom of page six of 27.

Are you there?
A Yes.
Q The paragraph has markups by you, correct?
A Yes.
Q You have crossed out three sentences and you have added two riders, \(A\) and \(B\). Correct?

A Yeah, there is a reference to \(A\) and \(B\) because it is a rider.

Q If you look at the next page, those are the riders. This is page seven of 27. Those are the riders in your handwriting. Correct?

A Yes.
Q Isn't it a fact, Mr. McConney, that you wrote the majority of the language in this paragraph, not Mazars?

A I haven't counted the words, but I will agree that that is my handwriting.

Q Well, you made substantial changes to the paragraph that appear in the final version, right?

A I or somebody else at the Trump Organization, yes.
Q And it is your handwriting that was forwarded to Mazars with changes that made their way into the final version of this statement, correct?

A Correct.
Q So can we agree that when you gave sworn testimony yesterday that Mazars wrote this paragraph, you were wrong?

A My memory was incorrect.
Q And isn't it fair to say that you actually don't remember who wrote what portions of the notes in the 2015 statement?

A I wouldn't say that.
Q At least as to this paragraph you got it wrong?
A This paragraph I agree with you.
Q Do you have any reason to believe your recollection is better with respect to other paragraphs in this document than it is with this paragraph?

A Unless you can show me something that disproves it,

Page 5060
the CPA firm Mazars are the GAAP experts. They would put together the notes. If I made changes, I made changes. If you can show me where I have a bad memory, I'll look at it.

Q My question was very simple. Do you have any reason to believe that your recollection, your incorrect recollection about who wrote this paragraph, the pursuant to GAAP paragraph, is any better than your recollection with respect to other portions of this document?

A I don't think -- I don't feel my recollections were incorrect in other paragraphs. You can ask the question again.

Q Well, we have already agreed your recollection was incorrect as to the pursuant to GAAP paragraph, right?

MR. SUAREZ: Objection argumentative. His testimony was actually that the notes carried over from year to year through the progression. He has only read a certain portion of his testimony, not the parts where he says it goes through from year to year and carried over; and that the original structure of the notes belonged to Mr. Rosenblum's initial drafts.

THE COURT: I think Mr. Amer read every sentence in the GAAP paragraph. And the witness said Mazars (May-zars) wrote it, or Mazars (Mah-zars). So I don't think he is misinterpreting the testimony.

But anyway, what in particular are you looking to do?
\begin{tabular}{|c|c|c|}

\hline 22 & & 22 A Applying a cap rate, yada, yada, yada, yes. \\
\hline 23 & & 23 Q And on the next page, page nine of 25, are you \\
\hline 24 & & 24 indicating you want the bottom paragraph to be -- that that's \\
\hline 25 & & 25 okay? \\
\hline
\end{tabular}

Page 5066
THE WITNESS: Thank you.
Q And this is an e-mail you sent to Mr. Bender on September 25th, 2013. So this would be in connection with the 2013 statement; right?

A Yes.
Q And you are telling him to see the revised note for the
Westchester golf course in Briarcliff; is that right?
A Yes.
Q And if you turn to the second page of this exhibit.
(Whereupon, the exhibit was displayed on the screen.)
Q Your note adds a zone for 71 units. Do you see that?
A Yes.
Q And then you've also indicated certain language you want deleted; correct?

A Yes.
Q And so this note goes to the method for valuing the property; right?
A Yes.
MR. AMER: Your Honor, I move to admit 3405.
THE COURT: Granted. It's in.
(Defendant's Exhibit 3405 was admitted in evidence.)

MR. AMER: Let's mark Plaintiff's Exhibit 3412.
(Plaintiff's Exhibit 3412 was deemed marked for
J. McConney - by Defense - Cross (Mr. Amer)

A I'm sorry, what's the question?
Q Are you indicating to Mr. Bender that you are okay with that bottom paragraph?
A Yes.
Q And that relates to the method of valuing Niketown; right?

A Yes.
Q Actually, that is -- let's go to page 20 of 25.
(Whereupon, the exhibit was displayed on the screen.)
Q You are adding a rider, A, attached, and you are asking
Mr. Bender to delete that entire paragraph; is that right?
A Yes.
Q And then if you go to page 24, that's the rider that you are telling Mr. Bender to add; correct?
(Whereupon, the exhibit was displayed on the screen.)
A Yes.
MR. AMER: Let's go ahead and mark as the next exhibit, Plaintiff's Exhibit 3405.
(Plaintiff's Exhibit 3405 was deemed marked for identification.)
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)

\section*{identification.)}
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)
Q The first page of this exhibit is an e-mail from you to Mr. Bender dated October 31st, 2014. So this relates to the 2014 statement?
A Correct. It should.
Q And the subject is "another change" do you see that?
A Yes.
Q And the second page is --
(Whereupon, the exhibit was displayed on the screen.)
Q -- the change that you are sending to Mr. Bender for him to implement in the statement; correct?
A Yes.
Q And you've crossed out some language and you've added
at the bottom. The language that you want put in; correct?
A Yes.
Q And at the bottom of your handwritten comments -- why don't you read for me the entire handwritten comment at the bottom so we have your testimony about what you wrote in the record?
A "For these properties -- for these properties is shown on a cost basis subject to any debt reflected under liabilities
cConney - by Defense - Cross (Mr. Amer)
Page 5068
and is net of" -- that's not my handwriting, so it's hard to read. "Net of", I think, "refundable" -- I don't know. I'm -I'm guessing it's "membership deposits were applicable. In those cases where a residential component exists, comparative sales were utilized in arriving at their values."
\(Q\) The original handwriting that's not yours, is that Mr. Weisselberg's?
A Yes, it is.
MR. AMER: I move to admit this exhibit, your Honor.

THE COURT: Granted. It's in.
(Defendant's Exhibit 3412 was admitted in evidence.)
Q And that additional language that you and Mr. Bender I'm sorry, you and Mr. Weisselberg have drafted and sent to Mr. Bender relates, in part, to valuing the property; correct? A The properties in this category, yes.

MR. AMER: Let's go ahead and mark this as Plaintiff's Exhibit 806.
(Plaintiff's Exhibit 806 was deemed marked for identification.)
(Whereupon, the exhibit was displayed on the screen.)
Q The first page is an e-mail from you to Mr. Bender, the subject is "DJT SOFC", and it's dated December 29, 2015. So
J. McConney - by Defense - Cross (Mr. Amer) Page 5069

Page 5070
Dean \& DeLuca into the description of the major tenants; correct?

A Yes.
Q And if you look at the bottom of page 21 of 27?
(Whereupon, the exhibit was displayed on the screen.)
Q And this relates to Trump Plaza. Can you just read your handwriting at the bottom?

A The very --
Q I think it says "as well as applying", that line?
A That relates to Trump International Hotel and Tower.
Q Yes.
A "As well as applying a capitalization rate to the cash flow to be derived from the condominium elements."

Q And that's a comment relating to the method of valuing that property; correct?

A That's correct.
Q And then let's go to page 25 of 27.
(Whereupon, the exhibit was displayed on the screen.)
Q And I want to ask you about your comment in the middle of the page. And this relates to licensing developments; correct? I'm on page 25 of 27.

A Yeah, I'm just trying to see -- there it is. Real estate licensing developments, yes.

1 Q And you circled the following sentence "Mr. Trump and his management considered only situations which have evolved to the point where signed arrangements with other parties exist and fees and other compensation which he will earn are reasonably quantifiable."

And then you've linked that to a note. Why don't you read your handwritten note that's in the margin.

A "The computation also includes forecasted deals that have not signed yet with a value of", I think, "\$151 million. Do you want to delete these deals?"
Q So am I correct that you were concerned about including those forecasted but not yet signed deals, because the note you are linking it to says that you've only considered situations which have evolved to the point where signed arrangements with other parties exist?
A Yes. I was asking Donald's opinion on what he thought we should do.

\section*{Q Because --}

A Donald Bender's opinion.
Q Because you were concerned about the conflict between including forecasted deals not yet signed and having a note that says "it only includes situations where signed arrangements exist"; correct?
A That's probably part of it. We may have wanted to modify the footnote.
J. McConney - by Defense - Cross (Mr. Amer)

Page 5072
MR. AMER: Let's go ahead and put up, alongside this, Plaintiffs Exhibit 729, which is the final version of the 2015 statement. And let's just look at page 23 of 26, which is that -- where that note appears.
(Whereupon, the exhibit was displayed on the screen.)
Q And you see in the top paragraph, the last sentence, in the final version it didn't change. It still says "In preparing
that assessment Mr. Trump and his management considered only situations which have evolved to the point where signed arrangements with other parties exist and fees and other compensation which he will earn are reasonably quantifiable." So it didn't change?

A Then I guess Donald Bender was fine with it.
Q I'm just asking whether it changed or not.
A I understand that, but I'm saying Mr. Bender was probably fine not changing it.

Q And you kept in "the deals that were forecasted but had not been signed"; correct?

A Can you show me the Jeff supporting spreadsheet with the valuation on it.

Q You don't remember one way or the other whether you kept in the forecasted deals?

A Off the top of my head without looking at the 25 spreadsheet, no.

\section*{J. McConney - by Defense - Cross (Mr. Amer)}

Page 5074

A That's correct.
Q And if you look at the second page of this exhibit up at the top, that's your handwritten note that says "Open, ET golf courses, and Amanda OPO"; correct?

A Correct.
Q That is a reference to the fact that there is an open issue with Eric Trump giving you feedback on golf courses; correct?

A Correct.
Q And if we go to page 15 of 25.
(Whereupon, the exhibit was displayed on the screen.)
Q Your note in the margin on the left says "ET to review footnotes on European clubs"; correct?
A Yes, sir.
Q And again ET is a reference to Eric Trump?
A Yes.
Q And is it correct that it was not uncommon for you, in this time frame, to ask Eric Trump to review portions of the notes to the Statement of Financial Condition?
A I know when we were developing properties and Eric was part of the development team I would ask whoever it was that would have knowledge of enhancing the information on these footnotes, so whether it was Eric or Sarah Malone, or somebody else, I would ask.

Q So it would be common for you to reach out to Eric Trump to get information for purposes of valuing assets in the Statement of Financial Condition where Eric Trump was involved in the property; correct?
A Well, footnotes, not so much, but for this one, yes.
MR. AMER: I move to admit Plaintiff's
Exhibit 3399, your Honor.
THE COURT: Granted. It's in.
(Plaintiff's Exhibit 3399 was admitted in evidence.)
Q I'm going to switch topics now, Mr. McConney. When you gave testimony last month, you mentioned that you had received a severance package of \(\$ 500,000\). And as of when you testified, which was October 5th, you had been paid 375,000 of that amount, with a final payment of 125,000 still to go. Is that final payment still outstanding?

A Yes, it is.
Q And I want to put up on the screen Plaintiff's Exhibit 1751 in evidence.
(Whereupon, the exhibit was displayed on the screen.)
Q This is Mr. Weisselberg's severance agreement. And I want to show you a portion of his agreement and ask you if your severance agreement contains the same or similar provision. We'll put it up on the screen. It's page two of nine.
J. McConney - by Defense - Cross (Mr. Amer)

Page 5076
(Whereupon, the exhibit was displayed on the screen.)
Q And if you look at page -- I'm sorry, two of eight. And I just want to ask you about paragraph three, "Employee promises", where it says "In exchange for the benefits provided in paragraph two, employee promises." And then paragraph B says, "Not to verbally, or in writing, disparage, criticize or denigrate the company or any of its current or former entities, officers, directors, managers, employees, owners or representatives."

Does your severance agreement contain the same or similar language, Mr. McConney?

A I would have to go back and look. I've signed my severance agreement maybe almost a year ago. So I don't want to say yes or no.

Q You had testified last month that you had very little to do with the Statement of Financial Condition after the hand off to Patrick Birney. Do you recall that?
A Yes.
Q Was it the case, Mr. McConney, that you participated in a virtual meeting with Patrick Birney, Ray Flores, Eric Trump, Donald Trump, Jr. and Allen Garten in October of 2021 concerning the 2021 Statement of Financial Condition?

A I don't remember having a virtual meeting. Are you talking like a Zoom meeting or a telephone call?

1 Q A Zoom meeting or an equivalent of a Zoom meeting.
2 A Yeah, that doesn't sound familiar. It's possible. I just don't remember it.

Q I would like to show you some of Mr. Birney's trial testimony to see if this refreshes your recollection. This is the transcript at 1389, starting on line 21.
(Whereupon, the exhibit was displayed on the screen.)
"QUESTION: Mr. Birney, we are going to switch topics to did there come a point in 2021 when you participated in a virtual meeting about the 2021 Statement of Financial Condition?
"ANSWER: Yes.
"QUESTION: Did that meeting occur over a service called Google Meet?
"ANSWER: Probably."
I'll skip the discussion of what Google Meet is and go down.
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q Question, line 13:
"QUESTION: Sure. Specifically a meeting over Google Meet about the 2021 Statement of Financial Condition?
"ANSWER: There were multiple meetings in 2021 as I was remote.
J. McConney - by Defense - Cross (Mr. Amer)

Page 5078
"QUESTION: Were there any meetings about the 2021 Statement of Financial Condition in which Donald Trump, Jr. and Eric Trump participated?
"ANSWER: Yes.
"QUESTION: So about -- speaking about that meeting, how many other participants were there other than those two people?
"ANSWER: Myself, Alan Garten, Ray Flores, Jeff McConney."

And then he asked, "Allen Weisselberg was not in the meeting?
"ANSWER: I don't think Allen Weisselberg was in that meeting."

Does that refresh your recollection that in the fall of 2021 you participated with these other individuals in a Google Meet virtual meeting to discuss the 2021 Statement of Financial Condition.
A It does not jog my memory.
MR. AMER: Let's go ahead and mark Plaintiff's Exhibit 1361.
(Plaintiff's Exhibit 1361 was deemed marked for identification.)
(Whereupon, the exhibit was displayed on the screen.)
(The exhibit was handed to the witness.)

Q Mr. McConney, you are certainly aware that as of 2021, Mazars was no longer the accounting firm preparing the compilation, but that had been moved over to Whitley Penn; right?
A I know Mazars -- we switched from Mazars to Whitley Penn. It didn't seem that long ago, but yes.

Q And the first page of Exhibit 1361 has an e-mail to you from Steven McKinnell at Whitley Penn; correct?
A Yes, Patrick, myself, Camron Harris and Greg were partners at Whitley Penn.

MR. AMER: Okay. Your Honor I move to admit this into evidence.

THE COURT: Granted. It's in.
(Plaintiff's Exhibit 1361 was admitted in evidence.)
Q All of the handwriting on this document is yours; correct?
A Yes.
Q And if you turn to the third page of this document, which is the first e-mail in the sequence.
(Whereupon, the exhibit was displayed on the screen.)
Q This is an e-mail to you from Camron Harris at Whitley Penn on October 22nd, 2021; correct?

A Correct.
J. McConney - by Defense - Cross (Mr. Amer)

Page 5080
Q And it begins by saying, "Jeff, thank you for bringing to our attention the current stock activity of DWACW, the SPAC that is assumed to be raising money to purchase the Trump Media and Trump Technology Group."

So he's referencing an issue that you brought to Whitley Penn's attention; is that right?

A Yes.
Q And the question that was being raised was whether to include this in the 2021 statement; right?

A I believe my question, the reason I rose it, was, yes, does it have a value and does it need to be added to the SOFC.

Q And does this refresh your recollection that you were, in fact, involved in the preparation of the 2021 Statement of Financial Condition, notwithstanding the fact that this was after the hand off to Mr. Birney?
A So your statement that my few comments were in preparation of the statement, if you take a few comments and noting an item that probably should've been, or could've been added to the SOFC so it was properly - the asset was properly reflected? Yes. But to me participating would be a lot more involved than just these little items.
Q Well, we also just looked at Mr. Birney's testimony where he said you were in the meeting that took place in the fall of 2021, with other people, to discuss the Statement of 25 Financial Condition; correct?

\begin{tabular}{|c|c|c|}

McConney - by Defendant - Cross (Amer)
Page 5086

\section*{Hawthorn's office, yes?}

A You would have to ask Mark.
Q Well, you were somebody who mentioned that anybody could go see anybody else. Did you understand that you could go walk into Hawthorn's office to ask him a question if you needed to?

A Yes.
Q And was the same true with Mr. Flores, did you feel you could walk into Mr. Flores' office and ask him a question if you needed to?

A Yes.
Q Did Eric Trump follow the open-door policy while you were at the company?

A I had an open-door policy with Eric. I don't know if he limited it to anybody.

Q What about Donald Trump Jr., did you have an open door policy with him?

A Yes, I did.
Q And before Donald Trump left for DC in January of 2017, did you have -- enjoy an open-door policy with him?

A Yes.
Q And what has been the -- what was the situation after January 2021 after Donald Trump was no longer President? Did he come back to Trump Tower and occupy an office -- his office there?

McConney - by Defendant - Cross (Amer)
Page 5088
A I won't say it was because it was a commercial enterprise. More so probably because of the volume of work they had to take care of. The number of employees they had to prepare payroll for and they also took care of the Trump International Golf Club in Florida. So they had two large entities that they oversaw.

Q Well, with respect to Mar-a-Lago, you mentioned payroll, they had payroll and a large staff because they were being operated as a commercial business, right?

A Right.
Q Now, we did see that you had some involvement reviewing the 2021 Statement of Financial Condition based on the document we had reviewed just before the lunch break, correct?

A Right. That was when Whitley Penn took over the assignment and I was the contact person with Whitley Penn.

Q And so just to go back to my question, we can agree that you did have some involvement in the preparation of the 2021 Statement of Financial Condition, correct?

A Again, your definition of preparation, I had a little -- a little input into it.

Q You had the input that was reflected in the document we were looking at that had all of your handwritten notes on it, right?

A That's correct.

Q Do you recall that there was a change in the valuation method for the Golf Clubs from 2020 to 2021?

A I am not that familiar with the spreadsheet that was prepared for those years.

Q I didn't ask if you were familiar with the spreadsheet. I asked if you had a recollection that there was a change in valuation method for the Golf Clubs from 2020 to 2021?

A I don't remember that, no.
Q Okay. Well, let's go ahead and look at Plaintiff's
Exhibit 1352, which is the 2021 supporting data spreadsheet, to see if we can fresh your recollection. And let's go ahead and look at row 306. And just to go back up to orient us, this is on Briarcliff. Do you see that?

\section*{A Yes.}

Q And in row 306 there is a note that says: 6/30/21. "Upon advice and guidance of Marcus \& Millichap, golf course industry experts, a normal golf course with a negative EBITDA trades at 2-3 times gross revenue. We took an average of 3 times gross revenue and net fixed assets."

\section*{Do you see that?}

A I see the note, yes.
Q And if you look at the note for the prior year, which is in 308, it says "Upon advice and guidance of Marcus \& Millichap, golf course industry experts, we left the golf

McConney - by Defendant - Cross (Amer)
Page 5090
course value unchanged from 2019."
Do you see that these notes indicate there is a change in the method of valuation?

A Yes.
Q And does reading note 306 and the advice of Marcus \& Millichap about using a 2-3 times gross revenue multiplier, refresh your recollection about being aware of this change in the method for valuing the golf courses?

A No.
Q Were you familiar at this point in time with a method for valuing an ongoing business that used a gross revenue multiplier?

A Can you ask that again?
MR. AMER: Can I have a readback, Your Honor?
THE COURT: Read back, please.
(Whereupon, the record was read back by the court reporter.)
A Yes.
Q And was your understanding that you take the gross revenue and you multiply it by an appropriate gross revenue multiplier to generate a value for the asset that is the business you are looking at?

> A Yes.
> MR. AMER: If we could put up Plaintiff's
> Exhibit 2265 ?

We are marking it in evidence, so we need to -(Handing).
Q Mr. McConney, this document, the first page is an e-mail where the subject is Mar-a-Lago, October 15 financials. And it is from Ed Raymundo to Mr. Weisselberg and others at the Trump Organization. And it is dated November 21, 2015. Do you see that?
A Yes.
Q Now, Mr. Raymundo he was the director of finance in this separate accounting department that was down in Mar-a-Lago, correct?

A Correct.
Q And this attaches an income statement from Mar-a-Lago for 2014 to 2015, correct?

A Yes.
Q And this income statement would be one of the typical types of documents that these local accounting departments for these Trump clubs would prepare, correct?

A Yes.
Q And these numbers would they roll up into the corporate ledgers that you were responsible for?

A No.
Q You have seen these type of income statements before though, correct?

A Yes.

MR. AMER: Your Honor, I move to admit Plaintiff's Exhibit 2265.

THE COURT: Granted. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 2265 by the Court.)
Q If we look at the first page of the income statement, you will see that there is, on the right, this has an annual budget, correct?

A Yes.
Q And the annual budget for total income, would that be gross income?

A Each golf course at this point in time created different P\&Ls. Some had income items net of expenses. Some listed income on the top and expenses on the bottom. I am pretty sure this is gross income, but I am really not 100 percent sure.

Q If we look at it, it does list income in that top section and expenses blow that. So if you look at the total income figure above the word, "expenses," that would be gross income, right?

A Again, some properties netted on the income side, they netted, not all. Some departments had expenses there. Based on these expenses that are -- the expense categories listed, and the income categories listed, I am pretty sure

Page 5094
A Yes.
Q So you took the value that you got from the comps and adjusted it to account for items that existed at Mar-a-Lago that didn't exist with the comps, correct?

A There were major items that were added to the facility. I don't remember specifically if they were or were not on the comps. My guess is they were not with the comps.

Q Well, we can agree that the comps you used didn't have a grand ballroom or cabanas, right?

A The grand ballroom, definitely not. The cabanas maybe, maybe not.

Q Okay. At any rate you adjusted the value upward to account for -- to equate the property you were valuing, Mar-a-Lago, with the comps that you were using, correct?

A We tried, yes.
Q Now, you also testified about using a comp to value Trump Tower in 2015. And you discussed using the sale of the Crown Building. Do you recall that?

A Yes.
Q And am I correct that you did not do any upward or downward adjustment to account for any differences between Trump Tower and the Crown Building, right?

A That's correct.
MR. AMER: Let's pull up Plaintiff's Exhibit 731
in native. And let's go to row 48.

Q And this is the section that you discussed on your direct exam where you talked about using the Crown Building as the comp, right?

A Yes.
Q And based on the information on this spreadsheet you took the sale price, you divided it by the number of square feet, and you calculated a value per square foot for the comp, which is the Crown Building, right?

A That's correct.
Q And then you simply multiplied that value per square foot by the number of square feet in Trump Tower, correct?

A Correct.
Q And that's how you came up with the value, correct?
A Correct.
Q So this assumes there are no differences at all between the Crown Building and Trump Tower that would have necessitated some type of adjustment up or down to level the comp with Trump Tower, correct?

A We didn't make any adjustments, up or down.
Q Right. But my question is, then you are - the way you did it assumed that there was no difference between the two buildings that would have warranted making an adjustment up or down, correct?
A There is always a difference between buildings, there has to be size, location, whatever. But this was the way we

McConney - by Defendant - Cross (Amer)
Page 5096
valued it. It is what we thought was the best value that we came up with.

Q So -- Go ahead. Finish your answer.
A We didn't make the adjustments that you are suggesting.

Q So knowing that there is always a difference between buildings, you didn't take that into account, fair?

A Fair.
MR. AMER: Let's go ahead and pull up -- or go
to row 590.
Q And this is 100 Central Park South. Do you recall you discussed this with Mr. Suarez yesterday, right?

A Correct.
Q And line 597 is where there is a value for 18 unsold units. Do you see that?

A Yes.
Q And I want to understand your testimony correctly. Was it your testimony that all 18 unsold units were rent stabilized in this building?

A I don't think so, because I know there are some stabilized and some free market.

Q So some of these 18 unsold units are stabilized and some are free market; is that right?

A That's correct.
Q And they were all valued as though they could be sold

at the time.
Q At any rate, as you sit here today, you don't know one way or the other what condition those rent-stabilized apartments were in for Trump Park Avenue; is that correct?

A That's correct.
Q And you mentioned Trump Park Avenue -- Trump Central Park South, I think you called it the Barbizon Hotel. When did that get converted to residential condo?

A I believe somewhere around 1985, 1986, I think.
Q So almost 40 years ago, yes?
A Yes.
Q And so despite the fact that it has been almost 40 years, there are still rent-stabilized units in that building, correct?

A Yes.
Q And is it fair to say that you were consistent in how you valued rent-stabilized apartments across both of these buildings, in that you purposely valued them as if the stabilized units could be sold without regard to rent stabilization restrictions, correct?
A Right.
MR. AMER: Let's go ahead and put up Defendant's 1042 in evidence.
Q Which is one of the rent-rolls you were shown. Do you recall seeing this rent-roll that you were forwarding to

McConney - by Defendant - Cross (Amer)
Page 5098
to be fixed up because they wouldn't have been renovated during the period of the stabilized tenancy?

A Right. These apartments haven't been renovated for years.

Q So it is deducting from the value of the sale of the unit what Trump Organization would need to put into the unit to fix it up before it could be sold once it becomes a free market apartment, correct?

A Yes.
Q You didn't do that for any of the stabilized units at Trump Park Avenue, did you?

A No, I did not.
Q So the effect of not deducting the cost of fixing up the stabilized units when they became vacant for Trump Park Avenue would be to inflate the value of those apartments with respect to valuing them as free market apartments, correct?

A Unless there was some work done. We purchased the Delmonico, I think it is the Delmonico Hotel, more recently than the Barbizon. The Barbizon Hotel was Trump Park East. They may have done some construction work when they were renovating the other apartments, I don't know if they did or didn't. But nobody told me we had to expend money to fix these stabilized apartments, hotel units, whatever.

Q Did you ask somebody?
A I am sure Allen Weisselberg would have said something

A Can you just scroll to where the rent-roll begins, please?

Q Sure. And maybe we can get you a copy of it.
A Yes, that looks familiar. (Handing)
Q Am I correct that the purpose in sending the -- this rent-roll to Mazars, was to allow Mazars to prepare tax returns for the building?

A It was probably one of the purposes. I don't know of the exact purpose why they would ask for it.

Q Can we agree that it was not sent for any purpose relating to the preparation of the Statement of Financial Conditions?

A I can't say that one way or the other. I don't remember.

Q You are the one who sent it, right?
A Yeah, I sent it in 2012, and I have sent a few e-mails since then.

What this -- it happens to be the same date as the June of 2012 Statement of Financial Condition. I am not going to tell you one way or the other why I sent this or why they asked for it.

MR. AMER: Can we go back to the first page?
Q Nothing in the subject line indicates that it has

1 A If you show me the finalized spreadsheet, I could probably answer it better. Um --

Q Let's start with your recollection.
A My recollection was that if we didn't convince Donald Bender that the four percent was right, it would have been changed to what Donald Bender suggested.

Q What was Donald Bender suggesting, if you remember?
A That I don't remember. Again, that's why I would like to see the spreadsheet, the final spreadsheet.

Q And to the extent you're leaving a voicemail message for Mr. Flores to help convince Mr. Bender to accept the four percent cap rate, you are involving yourself in the preparation of the 2021 Statement of Financial Condition; correct?

A If your definition of involving myself, a phone call, I wouldn't consider that involving myself. It's having a conversation with Ray.

Q You intervened to leave a message for Mr. Flores to assist in getting Mr. Bender to accept the four percent cap rate; fair?

A Intervened? I asked Ray for backup to come up with the backup for -- to justify the four percent cap rate we used.

Q Mr. Birney could have left a voicemail message, but he didn't. You did; right?

A I don't know what Patrick Birney was doing at the time. He may have been busy, he may have been out of country, so I
J. McConney - by Defense - Cross (Mr. Amer)

Page 5106
don't know.
Q I may have misspoken, by the way. This relates to the 2020 Statement of Financial Condition, right, not the 2021. I think I misspoke.

A Yes, it relates to the 2020 statement.
Q Regardless of whether you knew what Mr. Birney was doing or not, you are the one who left the message for Ray, not him; correct?

A That's correct.
MR. AMER: Let's go ahead and put up Plaintiff's Exhibit 857, native.
(Whereupon, the exhibit was displayed on the screen.)

MR. AMER: Let's go to row 86. I think you have to go to the left.
Q So this is Niketown. This is the 2020 final supporting spreadsheet, because it has "PBC" on the upper left; correct?

A Yes.
Q And this has both the 2019 and the 2020 values; correct?

A Correct.
Q And you'll see for 2019 it's -- the method is NOI divided by cap rate to get the value; correct?

A For 2019, yes.
Q And that value is \(\$ 445\) million; right?
come up with a 20 -year discounted cash flow in order to justify the value that would be used for 2020 ?

A I will state that the value was reduced. I don't know the sequence of events, whether Ray, on his own, came up with the 20-year cash flow, because he thought he couldn't justify the four percent. Or Bender was saying no way in heck I'm going to it take it, come up with a different method.

I wasn't part of that conversation, that I remember, but I will state that there is a reduction in the value to \(\$ 252\) million and change.

Q But there's also a change in the methodology; right? There is no longer the NOI divided by cap rate. There's, instead, a discounted cash flow that's being used as the basis; correct?

A So. There are many methods to value a property.
A Yes.
Q And there's an entirely different method used for 2020 that doesn't use a cap rate. It just says, in row 106, "Value per 20-year discounted cash flow from Ray Flores." Do you see that?
A Yes.
Q And the value drops to 252 million and change; right?
A Yes.
Q So, does it appear from this that Mr. Bender did not accept the four percent cap rate and instead Mr. Flores had to

3 & Will there be any redirect. & 3 \\
4 & MR. SUAREZ: We have no further questions, your & 4 \\
5 & Honor. & 5 \\
6 & THE COURT: Okay. Then we are through with this & 6 \\
7 & witness. & 7 \\
8 & Thank you, Mr. McConney. You are free to go. & 8 \\
9 & We would like to do a little scheduling discussion, & 9 \\
10 & including I know -- wondering what's going to happen a week & 10 \\
11 & from this Friday. So next Friday. I'll turn the microphone & 11 \\
12 & over to Allison. & 12 \\
13 & MR. ROBERT: As things stand now, that will & 13 \\
14 & probably the spillover for Unell, but we'll have a better & 14 \\
15 & sense of that on Monday once we get through the witnesses & 15 \\
16 & Monday, Tuesday and Wednesday. & 16 \\
17 & You want to start with Monday? You said next & 17 \\
18 & Friday. & 18 \\
19 & THE COURT: That's what I'm asking you about. & 19 \\
20 & MR. ROBERT: Next Friday, I think, is still going & 20 \\
21 & to be the spillover from Unell. Based on how quickly we are & 21 \\
22 & getting through Monday, Tuesday and Wednesday, I'll then & 22 \\
23 & know if we have somebody else on Friday, depending on when & 23 \\
24 & Unell is going to start. & 24 \\
25 & Right now, as things stand, we have booked for & 25
\end{tabular}
\begin{tabular}{|cc} 
Proceedings \\
1 & Monday, Tuesday Wednesday and Thursday. \\
2 & THE COURT: Can you have a backup ready in case \\
3 & there is no spillover? \\
4 & MR. ROBERT: We will by the time -- we are talking \\
5 & to witnesses about moving things along, but I don't know \\
6 & yet, based on how things are going to go Monday, Tuesday and \\
7 & Wednesday. I could report back Monday morning at that point \\
8 & as to where we are going to be by Friday. \\
9 & THE COURT: Okay. \\
10 & MR. ROBERT: It's easy. \\
11 & MR. WALLACE: Do you have a sense of how long \\
12 & direct for Hawthorn is expected to take? \\
13 & MR. ROBERT: I don't. I would expect it to be \\
14 & several hours. Hopefully I could get it done by the lunch \\
15 & break. I just don't know. \\
16 & Do you have any sense of the cross of him? \\
17 & MR. WALLACE: Depends on what we hear, but I \\
18 & imagine it would be shorter than that. If that means three \\
19 & hours, I don't imagine it would be longer than an hour. \\
20 & MR. ROBERT: Just so we are clear, depending on \\
21 & what happens on Monday, we may have to break in terms of \\
22 & stopping a witness in the middle, because Tuesday we have \\
23 & the Deutsche Bank people coming in pursuant to our \\
24 & subpoenas, so with the Court's permission, since \\
25 & Mr. Hawthorn and Mr. Birney are employees of ours, we'll
\end{tabular}
then accommodate the people coming in from out of town.
THE COURT: It's okay with me.
MR. WALLACE: They accommodated that for us to do it with Mr. Haigh, so I don't see -- it's actually an appropriate time for the goose-gander rule, I think.

MR. ROBERT: In the Thanksgiving spirit, we accept that.

THE COURT: Well, everybody, that's is it. Have a great --

MR. ROBERT: Thank you, your Honor.
THE COURT: -- couple of days off. Eat well, drink well, be merry. So long. 10:00 Monday.

MR. ROBERT: Yes, sir.
(Whereupon, the case on trial was adjourned to Monday, November 27, 2023, at 10:00 a.m.)

    Senior Court Reporters

COURT OFFICER: All rise.
Part 37 is now in session.
The Honorable Judge Arthur Engoron presiding. Make sure all cell phones are on silent. Laptops and cell phones will be permitted, but only to members of the press. There is absolutely no recording or photography of any kind allowed in the courtroom.

Now be seated and come to order.
THE COURT: Defendants would you like to call your next witness?

MR. ROBERT: Yes, Your Honor. The defendants call Mark Hawthorn.
(Whereupon, the witness took the stand.)
COURT OFFICER: Please raise your right hand.
MARK HAWTHORN, after having first been duly sworn was examined and testified as follows:

COURT OFFICER: Please have a seat.
State your full name and home or business address for the record.

THE WITNESS: My name is Mark Hawthorn, and my business address is 725 Fifth Avenue, New York.

THE COURT: Zip code?
THE WITNESS: 10022.
THE COURT: We probably heard that before.

Page 5119
Mr. Robert, would you like to proceed?
MR. ROBERT: Thank you. Good morning, Your
Honor.
DIRECT EXAMINATION BY MR. ROBERT:

Q Good morning, Mr. Hawthorn.
A Good morning.
Q I know you testified a few weeks ago. But I, just to put things context, I want to go briefly through your educational background and professional history. Okay, sir?

A Okay.
Q Please tell us about your educational background from college on.
A So, I attended the University of Florida and I obtained a Bachelor's degree and a Master's degree in accounting in the year 2000.

Subsequent to graduation I had my first employment at Arthur Anderson, which is a public accounting firm in Fort
Lauderdale, Florida. I worked at Arthur Anderson from 2000 to
2002. From 2002 to --

Q I'll break it down.
Prior to your work at Arthur Anderson, did you obtain any professional certification?
A Yes. I obtained a CPA license in the state of Florida.

Q And when did you obtain that license, sir?
A I obtained that license in 2000.
Q Okay. So now talking about your time at Arthur Anderson, which I believe you said was 2000 to 2002, sir?

A Correct.
Q What did you do at Arthur Anderson during that time?
A I was in the audit practice, so I worked on audits of both public and private companies as a staff auditor; with increasing responsibility to a senior auditor overseeing audit engagements for the firm.

Q And in its most basic sense, what is an audit, sir?
A An audit is a -- when a company requests that a firm, such as an accounting firm, comes in and does work and procedures to check the books and records of the company; and to issue -- potentially issue audited financial statements of the company.

Q When an accounting firm reviews -- \(I\) know review is a term of art, I will not use that word. When an accounting firm analyzes financial records of a client of theirs, are there different levels of review?

A Yes.
Q What are those different levels?
A Generally speaking there is a compilation; there is a review; there is an audit; and there is maybe something else called agreed-upon procedures.

Hawthom - by Defendant - Direct (Robert)
Page 5121
Q Okay. Taking - leaving the agreed-upon procedures out for a moment. Very briefly, can you explain those three things?

A Sure. So, in terms of the level of work that an accounting firm would undergo, the compilation is the lowest level of work and assurance. So a report that is issued with a compilation opinion states that.

Whereas, a review would be additional procedures that are done.

And an audit would be the highest level of assurance that there is substantive testing and other procedures done by the accounting firm with respect to the financial statements.

Q And when you discussed your experience at Arthur Anderson, was that solely in the audit, meaning one of those three, or did that encompass more than just audits?

A My role encompassed everything, because we had clients that had different needs. So I would have a client that has a need to issue a compilation report or I might have a client, same client, have a need to issue an audit report.

Generally speaking, an audit report is required for publicly traded companies that file financial statements with the SEC or have public debt.

Whereas a compilation would be more for another purpose. If, for example, a company needed to provide numbers to a lender or something like that, generally speaking.

Q And, sir, when you just testified about your work at Arthur Anderson, you said your role kind of expanded during those two years. What did you mean by that?

A I started out as a staff person, so I was on client engagements in a staff capacity doing work at the direction of an audit senior, an audit manager. And after about a year was promoted to an audit senior, where you are doing more of the planning, you are doing more of the client interaction and different levels of responsibility in a supervisory capacity over an audit staff, if that makes sense.

Q It does.
What was the role you had at the time you left Arthur Anderson in 2002?

A I was an audit senior.
Q Where did you go from Arthur Anderson, sir?
A In 2002 I went to Ernst \& Young. It effectively took over the practice of Arthur Anderson in Fort Lauderdale at the time. So I was in the same office with the same clients. It was just that the Ernst \& Young firm took over that office from Arthur Anderson at the time in 2002.

Q How long were you there with Ernst \& Young?
A Ernst \& Young, I was there for two years from 2002 to 2004. And I started as an audit senior, and continued in that role as a - an experienced audit senior when I left in 2004.

Q And did your responsibilities change in any way

\section*{Hawthorn - by Defendant - Direct (Robert)}

Page 5123
during those two years from 2002 to 2004?
A They did. I had increasing levels of responsibility as I became more senior to the firm and more senior on the client engagements that I was on. So I had more in supervisory responsibilities, I had more interactions with the client on more technical accounting matters, as I have gotten more, at the time skilled in certain transactions and understanding accounting rules and financial reporting disclosure.

Q Where did you go after Ernst \& Young?
A I left Ernst \& Young in June of 2004, and I joined a firm called Kerzner International, which is a company, not an audit firm. So Kerzner International at the time, based in Plantation, Florida, was the owner and operator of luxury resort hotels. And I served as my first role as the manager of financial reporting.

Q And what made you decide to go to Kerzner International in 2004?

A It was a unique opportunity to work in private industry, which I had an affinity to do. And it was a good circumstance for me because the individual they were looking for had my -- I believed I fit the background for what they were looking for, meaning some level of public accounting experience, and an understanding also of the hospitality industry.

At Ernst \& Young I had worked on some hospitality
clients as well, so it gave me an opportunity to expand my career and work at a private company in a capacity where I had the right skill set.

Q And from what years did you work at Kerzner International, sir?

A I worked at Kerzner International from 2004 to 2016.
Q And can you describe for the Court how your role, if in any way, changed at that time period in Kerzner?

A Over the course of my employment at Kerzner I again had increasing levels of responsibility. So I started as a manager of financial reporting. At the time in 2004 to 2006 the company was a public company. So I was in charge of overseeing the financial statements that were filed with the SEC.

In 2006 the company went private on private transaction. And I continued in a role of financial reporting but more so as a private company where you report to the ownership interests of the company versus public company reporting.

And then as the -- my role expanded in 2000 -- let's say 12 and thereafter, I got involved more also in treasury. Became appointed as the vice president of treasury, where I still held financial reporting oversight and responsibilities because of my knowledge of that area.

But also got involved working with the company's

Page 5125
lenders; working with the company's other stakeholders in terms of financial matters. Not only historical financial matters, which is what the financial statements oversee or tell, but also prospective financial matters like, you know, how the company is capitalized, how the company is working with its lenders on debt arrangements and things like that.

Q You used a phrase, "vice president of treasury;" what exactly does that mean or did it mean?

A That meant my role was expanded to not just be with financial reporting, but also work with lenders and also oversee the cash flow of the company. So in treasury you are also dealing with banks; you are dealing with lenders; you are dealing with cash flow forecasting for the operations of the company. Not necessarily just financial reporting, which is a more historical-type role where you are issuing financials of what happened in the past. But my role also expanded to be more operational in terms of how the company is looking forward prospectively and doing its business.

Q You testified that you dealt with lenders and stakeholders, what did you mean by stakeholders?

A Board members of the company. So even though it is a private company, the board was comprised of certain individuals appointed to direct the operations of the company. So, we would also, in my role, provide to the board of the company, like, quarterly updates. So, I would help provide board
packages, so to speak, that gave, you know, information on quarterly board meetings to the ownership of the company and directors of the company.

Q When you testified a little earlier, you talked about the "public accounting background," what do you mean by the term "public accounting"?

A Public accounting is generally referred to, again, a firm like Arthur Anderson, Ernst \& Young that is engaged in the audits or other work of companies that are public registrants. Again, so a company that might have stock traded on a stock exchange or public debt. So, generally speaking, that's what public accounting means. It deals with companies that have those type of more stringent requirements than a private enterprise that wouldn't necessarily have those thresholds of reporting requirements.

THE COURT: Mr. Robert, I am not sure everyone can hear you as well as I can. Raise that and raise your voice.

MR. ROBERT: Thank you, Your Honor. First time I am accused of that.

THE COURT: If you switch places with him you are fine.
Q Mr. Hawthorn, you are familiar with a term called GAAP, right?

A Yes.

Page 5127
Q What is GAAP?
A GAAP is an acronym for Generally Accepted Accounting Principles.

Q And what is your general understanding of what GAAP is?

A GAAP is effectively the rules and guidelines around accounting practice in companies that are, you know, recording books and records and how transactions are recorded and reported.

Q Okay. I now want to take you past 2016, where did you go after Kerzner in 2016?

A So in February of 2016 I was hired as the Chief Accounting Officer of Trump Hotels based in New York.

Q And what is the role -- what was the role of Chief Accounting Officer at the Trump Hotels in New York?

A So my role when I started was reporting to the CEO of Trump Hotels, a gentleman named Eric Danziger at the time. My role encompassed overseeing all of the financial and accounting aspects of the hotel division of the Trump Organization.

Q And how, if in any way, did your title and/or role change since that time in 2016 ?

A In 2016 while my title was effectively Chief Accounting Officer, I was the highest ranking finance and accounting executive in the hotel division. So, in January of 2020 my title was effectively updated to Chief Financial

Officer of Trump Hotels. Although I continued to still report to the CEO of Trump Hotels and was effectively doing the same job.

Q Did the scope of your job then change at all from 2016 to '20, or just your title?

A The title. The scope was effectively the same.
Q Okay. And what, if anything -- withdrawn.
Since 2020, what position have you held with the company?

A So in May of 2022, the CEO of Trump Hotels, Mr. Eric Danziger, left the company. So the company promoted me to Chief Operating Officer of Trump Hotels. I still have continuing responsibility over finance and accounting, but I now oversee the operational aspects of the hotel portfolio as the highest executive level in the hotel division. Not just for finance and accounting but also for operations.

Q And you had mentioned you had report -- withdrawn.
When Mr. Danziger -- was he the CEO of the hotel group you said?

A Yes.
Q At that point he was your direct report?
A Yes.
Q Since he left the company, who is your direct report?
A My direct report is Eric Trump.
Q Okay. And that's the same today, correct?

Page 5129
A Correct.
Q And is there a CEO of the hotel division?
A No, there is no one with that title. But I , as the Chief Operating Officer or COO, I am at the highest executive level of the hotel division of the company.

Q And I think you described it a few moments ago, but just to be clear, what exactly are the responsibilities of the Chief Operating Officer of the hotel division? Is it okay if I call it the hotel division?

A That's accurate. It is not just finance and accounting but it is everything related to the hotel division operations, including sales and marketing; including operational aspects of how to operate a hotel; how we set rates for room rates; and how we employ, employees over across the hotel portfolio. So not just financing accountant, but all operational aspects.

Q I referred to the hotel division. What, if any, other divisions does the Trump Organization have?

A So broadly speaking there is commercial real estate in the organization. Then there is hospitality-related assets like hotels. And then similar to that there is a golf division. So there is private and public golf courses in the company.

Q And do any of the golf courses fall within your bucket?

A There is some overlap because certain of the hotels are resort hotels, meaning that they have golf courses on the property. And so there is some overlap where the golf course is a component of the resort hotel, and its financials roll up into the reporting of that hotel resort.

Q And would Doral be one of those?
A Doral is a good example.
Q Okay. Going to the hotel division specifically, if you could explain how the accounting team in the hotel division works?

A I would describe our structure as very decentralized, meaning that each hotel has its own general manager who oversees the entire property, and has its own finance department that does the day-to-day finance of the hotel.

So, for example, if you mention Doral, Doral has its own general manager. Doral has its own director of finance. Each hotel has its own departments like that to do the day-to-day accounting and finance work and day-to-day operations; under the auspices and the direction of the corporate office where I reside, but obviously we entrust the teams at the properties to handle the day-to-day of the operations.

Q So looking at it from an organizational chart, for the purpose if you are sitting at the role of the COO of the hotel division, who is it in the hotels that reports to you?

A All of the general managers of the hotels. So the leaders of the actual hotel properties.

Q And when you want financial information about these individual hotels, how do you go about getting it?

A Each individual hotel prepares its own financial information; maintains its own books and records or general ledger, is a common term for books and records. So at the property level those are all maintained. We have a mechanism at the corporate office where we have a reporting timeline where the hotels will report to us in a very standardized way. There are monthly financial reports.

And our other applicable reports that we will review, and discuss and review these with the properties, to get a better understanding and be, kind of, on top of the operation and understanding what is happening in the business.

Q I know you are familiar with the name Allen Weisselberg, correct?

A Yes.
Q Where was Allen Weisselberg within the corporate structure?

A Allen Weisselberg was the Chief Financial Officer of the Trump Organization.

Q And what, if anywhere -- withdrawn.
How, if in any way, did your role change after Mr. Weisselberg left the company?

A After Mr. Weisselberg left the company I have been called upon from time to time as needed to assist with how the company is operating generally in other divisions, so not just the hotel division. And I have been called upon to, kind of, ask how we could replicate certain practices and procedures that we do in the hotel division across the company.

Q And if you could add a little more detail to that?
A Sure. I mean, I think the hotel division, in my humble opinion, because I have -- I am overseeing it, we have a good set of procedures and controls and ways we go about doing the day-to-day business in the operations. So, for example, we have a standardized chart of accounts. I know it sounds kind of boring, but if every hotel has the same general chart of accounts, it is easy to have consistency and roll up across the company.

And do you want me to keep explaining?
Q Let me break it down a little.
A Okay.
Q Did there come a time that someone within the Trump Organization asked you to assist in these other projects after Mr. Weisselberg left?

A Yes. I think Eric Trump has asked me -- well, I know Eric Trump has asked me to assist in other matters where I can be of assistance to the company.

Q Okay. And just so that we are clear, that assistance

\section*{Hawthom - by Defendant - Direct (Robert)}

Page 5133

\section*{is in what form?}

A It is helping to utilize certain of the
characteristics of the hotel division and other ways to create, you know, more efficiencies, better procedures and practices across the company as a whole.

Q You talked about uniformity, and I think you used a phrase "roll up" a couple of minutes ago. What did you discover when you were asked to help -- I'll use the word "modernize" the other divisions?

A So as an example, I think as I was explaining before, the hotel division has the benefit of already an existing structure where every hotel is accounted for in the same way. As I was asked to, kind of, assist in other areas of the business, for example in the golf division, which is similar to the hospitality division hotels, the golf division at the time of, let's say, summer of 2021, didn't have that same uniformity. As the golf division grew over time, golf courses were acquired and the property level comptrollers entrusted to oversee the books and records, either continued to use the same chart of accounts that they had on a previous ownership, or had discretion in how they could book transactions in a chart of accounts that made sense for their property.

So as an example, one of the projects that I helped to oversee over the last year and a half with some team members from my team, is to help standardize the chart of accounts for
golf, so that you could consistently compare across every golf course the operations, the performance and understand, if everything is booked the same way and the same accounts, you can have consistency. That's an example.

Q You used the phrase, "chart of accounts," what do you mean by that?

A The chart of accounts is the, for lack of a better term, the books and records of the company, where all of the debits and credits go when you book journal entries. So there is typically a number assigned to a certain general ledger account. A description assigned to a certain general ledger account that comprises the assets, liabilities and equity of the books and records of the trial balance. And so it is much more efficient as a corporate oversight to evaluate the performance of your portfolio if everyone is on the same chart.

Now, that's not to say that each entity had anything wrong with it. It is just that each entity maybe booked things in a different account than a different entity. So if you are trying to cross compare certain things, it may not be as noticeable because they are not on an apples to apples basis. So this is kind of inherent, you know, efficiency in the organization and the golf division similar to what we had in the hotel division as an example.

Q Has there been any new accounting software that has been used as a result of your involvement in these other

\section*{divisions?}

A So, in addition to the chart of accounts project at golf, which is utilizing the same software which is golf specific, there is an undertaking ongoing now at the Trump Organization corporate accounting level to input new general ledger accounting software, so to be more modern, to be more like the hotel division. Meaning in a way that today in 2023 there is software packages available that helps people do their jobs a little bit easier, more consistent and have more control, standardization.

So we have a -- I am assisting with a project at the corporate office accounting level to put in a new system that will help in this effort to improve the efficiency and the reporting and the technical capabilities of the -- the other divisions of the company, like the commercial real estate and the corporate office and that sort of thing.

Q When you talk about the corporate office, what are you referring to?

A So, the corporate office resides generally at 725 Fifth Avenue in New York, which has a back office accounting function. There is a team that oversees those assets. Whereas I oversee the hospitality hotel assets.

Q And what is the difference between the corporate accounting level you used -- you phrased, as opposed to how things work at the hotels or golf courses?

A Maybe to put it in the appropriate context, that was kind of the corporate office's, kind of, generally referred to the prior regime of Jeff McConney and Allen Weisselberg. Whereas now we have other individuals in certain roles overseeing the commercial assets, the real estate assets of the portfolio.

Q And the commercial assets are no longer governed by the corporate accounting department, or are they?

A They are.
Q Is there a distinction between who is running -- who is in the corporate accounting department versus who is at the golf courses and hotels? If so, what is that?

A There is. So we have, again, myself in hotels. We have an individual in golf. We have individuals in the corporate accounting function today.

You know, for example, I think you may know Donna Kidder. She continues to be in the capacity of an assistant comptroller. We have a director of finance now that is running the oversight of that department, that runs that day-to-day.

Q What, if any, involvement did you have in the last few years with the check issuing system at the Trump Organization?

A Can you repeat the question?
Q Sure. What, if any, involvement have you had in the last few years with the check issuing system of the Trump

Q What were the circumstances surrounding that, sir?
A So, just for perspective and background, right, the way that the corporate office functioned, had previously worked, is that there was only -- if you are only paying with check and you only have three signers who can sign checks, you are very limited on how you can make disbursements. And the three signers that were always entrusted with overseeing the bank accounts were Allen Weisselberg, Donald Trump Jr. and Eric Trump. So, in practice, Allen Weisselberg in his role, to my understanding, would be the one that would review check disbursements and sign them so that they would go out, because that was his role.

I guess at the time of summer of 2021 Allen Weisselberg was no longer in the role of Chief Financial Officer. He was removed from those duties. So, when the operation keeps needing to run, checks need to be signed. So now you only have two signers who can sign checks, Donald J. Trump Jr. and Eric Trump. So I recall walking into Eric Trump's office and he called me in to assist, and he had a stack of checks to sign that was very high.

And he said: Well, what do I do with all of these? Because typically Eric would never sign checks. It would be Allen. Allen would sign all of the checks and Eric would work on the operation. But if you need to pay vendors, who is going to sign the check? It is really Eric or Don.

Hawthom - by Defendant - Direct (Robert)
Page 5137

\section*{Organization?}

A By check issuing system you are referring to disbursements?

Q Yes, disbursements, paying bills.
A Sure. So as an example of, kind of, how the company used to do things versus how it does it now, the company under the prior regime, you know, ran as it did as a family run enterprise using very basic functions. For example, to pay bills and vendors everything was always paid via paper check. That's -- that worked in the 1980s and it still works today. But there is other ways to get vendors paid more quickly, more timely, more accurately. So, I was asked to assist in, kind of, helping the corporate office, kind of, maybe update modernize the way things are done, because we do things in the hotel division that is more, let's say, in the way companies operate today.

Q Did there come a point in time someone at the Trump Organization specifically asked you to assist with this disbursement issue?

A Yes.
Q And who was that person?
A Eric Trump.
Q And what were the circumstances surrounding -- first of all, when was that, if you recall?

A It was probably in the summer of 2021.

Hawthorn - by Defendant - Direct (Robert)
Page 5139
So Eric came to me and he said: Well, Mark, how do you do this in the hotel division?

I said: Well, we don't do it like this. We pay through ACH. We pay through virtual means, electronic means. We have systems and processes that are available and tools that are available to the company to modernize, kind of, the functionality. So that's how I got involved in that project.

So commensurate with, kind of, the upgrade of the general ledger package of the Trump Organization at large and the corporate office, my role has helped assist in replicating some of the hotel division efficiencies to the organization so that we are able to pay vendors in a more efficient way. Saves a lot of time and resources when you are not needing to put a stamp on envelopes and trace and track down outstanding checks. So, kind of one of the initiatives I have helped with. And Eric Trump, I know, is proud of being as paperless as we can in disbursements.

Q You have heard of something during the course of this trial called a Statement of Financial Condition, correct, sir?

A Yes.
Q And did you have any involvement in the preparation of President Trump's Statement of Financial Condition?

A I did not.
Q Did there come a time that you became aware of a document called President Trump's Statement of Financial

\section*{Condition?}

A Yes.
Q And when was that approximately?
A In connection with one of the hotel audits that I was working on. There was a request from one of those auditors to get some more information about the parent company of the hotel. And I was doing some diligence to try to provide the best available information. In doing so, I was aware that there was this document that existed. And I helped to facilitate a meeting with the accounting team in the hotel -that was doing the audit of the hotel, and the accounting team that was familiar with the statement, so that they could discuss it and understand whatever questions they had.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q When you talk about the accounting team who was familiar, who are you referring to?
A At the time that was Whitley Penn.
Q So when was this --was this meeting virtual, in person or something else, telephone?
A Um, so this was a meeting that I helped to coordinate. It was effectively a video conference on the Google Meet platform that was, I think, in November of 2021, if I'm correct.
That helped to facilitate the Whitley Penn accounting team. The other team involved was an audit firm called Johnston Carmichael. They are one of the audit firms that we use for the Scotland entities. So we have a couple of assets in Scotland. That was the team that needed some information about the parent. And so I helped to facilitate that virtual meeting.

Q Other than your participation in facilitating this virtual meeting in 2021, do you recall having any other knowledge or involvement with the President Trump Statement of Financial Condition?
A No.
Q Are you aware of whether The Trump Organization still prepares a Statement of Financial Condition for President Trump?

A It is not prepared, to my knowledge.
Q And what, if anything, has replaced that now at The Trump Organization, if you are aware of it?

A There is not a roll up financial statement of the
company. It's not required by any lender currently, and/or any other constituency.

Q Okay.
I want to switch topics for a minute and talk to you about Mazars. Are you familiar with a company known as Mazars?

A Yes.
Q And what is Mazars?
A Mazars is an accounting firm. It was the main accounting firm of The Trump Organization when I started in 2016, and I guess prior to that they had a long standing relationship with The Trump Organization to be the, um, you know, financial, um, statement preparers and auditors, as well as the tax preparers for the company.

Q And who was the main point of contact that you dealt with at Mazars while they were the outside accountants to The Trump Organization?
A The main audit partner was Donald Bender.
Q How often would you be in contact with Mr. Bender?
A I would be in contact with him frequently as it related to the audits and compilations of the hotel assets that we were entrusted, to insure that financial reports were issued for those entities.
Q So with regard to your interaction with Mr. Bender, what services were you, on behalf of the hotel group, if you will, seeking from Mazars and Mr. Bender?

Hawthom - by Defense - Direct (Mr. Robert)
Page 5143
A It would be compilation services and audit services.
Q What about tax services or tax advice?
A Limited for me. My role is primarily related to financial reporting of individual entities in the hospitality portfolio.

Q What do you mean by "compilation services"?
A A "compilation" is effectively the assistance of the accounting firm to put together the annual financial statements of the entity that's being asked to be done on, where the accounting firm would put together the balance sheet, income statement, um, statement of cash flows, in a summarized annualized report.

Q And would they do this for all of the hotel properties?
A They would do it for hotel properties that required to have a compilation statement.

Q And who, if anyone, would be making this requirement?
A It was required by certain lenders.
Q And do the extent that those properties fell within your division or your wheelhouse, you would have had involvement with Mr. Bender with those; correct?
A Correct.
Q And you talked about audit services, too. What were you referring to there?

A Audit services was -- are engagements that Mazars was entered into an engagement with the company to do an actual
financial audit of an entity. So we had a property, a hotel
property that required an audit from its, um -- under the terms of its lease agreement, and also under the terms of its debt.
So one property under those requirements needed to have an audit issued versus a compilation.

Q If you, on behalf of your division, had accounting questions, who, if anyone, would you turn to outside of The Trump Organization?

A We would turn to Mazars.
Q And who, if anyone, would you turn to within The Trump Organization during that time period that Mazars was the outside accountant?

A It would be myself.
Q Other than consulting with yourself, is it fair to say that Mazars would have been the only other entity you had contacted with?

A Correct.
Q Primarily that would have been Mr. Bender?
A Correct. I could still hold a CPA license. I'm not a practicing CPA. You know, I'm -- I worked work for a private company, so while I still keep up with accounting rules and regulations and changes, relied heavily on Mazars to understand what the current pronouncements are in accounting so that when we are issuing -- when they are issuing financial statements, that we make sure that we are properly disclosing required
M. Hawthorn - by Defense - Direct (Mr. Robert)

Page 5145
disclosures that were ensuring that we are properly recording entries appropriately and in accordance with the latest standards.
Q How did you communicate with Mazars?
A Telephone, e-mail, um, frequent communication as needed.
Q In-person meetings as well?
A In-person, of course.
Q What kind of information did you give Mazars about the hotels in your division?

A We would give them the information that they would require to put together the compilation or for their audit, which would be the underlying financial statements of the entity, and any supporting backup, or schedules, or detail that they required so that they could conduct audit testing.

Q Do you recall ever an instance where Mazars asked you for something and you didn't provide it to them?

A No.
Q At some point in time, Mazars was no longer the outside accountants for The Trump Organization; correct?
A Correct.
Q Do you remember approximately when that was?
A Um, I don't recall exactly, but it would have been 2020 or 2021, around there.
Q And who comes in to be the new outside accountants for

Page 5146

\section*{The Trump Organization?}

A A firm called Whitley Penn.
Q And what, if any involvement, did you have in the selection of Whitley Penn to be the new external accountants for The Trump Organization?

A I had some involvement because the audits and compilations under my responsibility, I, you know, took great pride in to make sure were accurate. We wanted to make sure we had a good firm that had the capability to do the work. So the initial meetings, I was part of it with respect to the hospitality properties that we needed to have certain work performed, such as these audits and compilations.

Q Were you involved in the selection of the Whitley Penn firm, or after they were selected, for lack of a better word, to help get them up to speed, or both?

A A little bit of both. My input was valued based on my kind of interactions with Whitley Penn at the onset, and the questions that I would ask if they were capable of handling the work. Um, and then I was one of the probably primary liaisons with the audit partners at Whitley Penn, especially with respect of the hospitality properties.

Q And the primary point of contact at Whitley Penn was, and is?

A On the audit, same gentleman named Camron Harris.
Q You talked about on the audit side. What do you mean
. Hawthom - by Defense - Direct (Mr. Robert)
Page 5147

\section*{by that?}

A Whitley Penn was taking over the kind of the role of Mazars previously. Whitley Penn also has a tax division. So the company relies on Whitley Penn, and its tax division of its firm to help with the tax preparation of tax filings of all the entities that require them. So there's another audit partner and another component of that practice that oversees, let's say, tax compliance work versus audit and financial accounting work.

Q So when we refer to an audit partner -- I know this confused me for the longest time -- it doesn't necessarily just mean an audit; correct?

A Correct. It means attestation services is a fancy word for it.

Q My question is, what is an attestation service?
A It's work that is engaged with a firm and a client, to whatever extent they both agree, that the client has engaged the firm to do work to substantiate the books and records of the company. If it's an audit, to understand the policies and practices of the company.

So effectively, the value of an audit firm to any company, right, is that they want to evidence to an outside party that someone else has looked at these numbers or looked at these books and records and has done procedures to understand them, and the issuance of the final report is also being represented by this firm.

1 Q With regard to your division, how, if in any way, is Whitley Penn tasked with anything different than Mazars?

A It's a similar -- it's similar generally. They are tasked in my division to be the firm that, again, prepares the compilation statements, that does the audit work for the entities that need audits.

And then while I'm not a tax person, I still have some involvement with their tax division when it comes to the hospitality assets and certain information that they might require.

Q You mentioned a little while ago that when the process of, I guess, on boarding a new accounting firm -- do you know what I mean when I say "on boarding"?

\section*{A Yes.}

Q That you were involved not just as it related to your division, but more generally, can you explain a little bit more about that?

A Um, again, I had some input based on my background as a former accounting firm personnel and auditor myself to, to, um, meet with Whitley Penn during the selection process if we wanted them to be our firm. So I, you know, got a chance to meet with them in person, on the phone, um, kind of understand their qualifications, their staffing levels, that they could handle the work. So I was probably just another helpful resource to, um, vouch that we believed that they had the capability to, you

Q You testified a few moments ago that generally speaking the scope of work between Whitley Penn and Mazars was basically the same; fair?
A Yes.
Q What kind of -- and I'm going to take you back to the period 2011. What kind of reporting did Mazars do for The Trump Organization?

MR. AMER: Objection. Foundation. The witness said he didn't start to be employed until, I think, 2016.

MR. ROBERT: The witness is now the COO of the hotel division.
Q When you first joined the company in 2016, what, if anything, did you come to learn about how things had been done previously to help do you your job, if anything.
A I had to understand how the books and records were prepared prior to my joining the company. I also had to review various agreements, contracts and financial statements going back many years to understand how these assets performed previously and what the reporting requirements, um, you know, are of these entities.

Q Did you review financial statements that had been prepared by Mazars for The Trump Organization from 2011 forward?

A I did.
Q And what did you come to learn from those?
A That every year, as required, these financial

\section*{M. Hawthorn - by Defense - Direct (Mr. Robert)}

Page 5149
know, be our accounting firm.
Q Switching topics slightly, if I use the phrase
"financial reporting", what does that mean to someone with your background?

A "Financial reporting" is very generally just the um, financial summary of an entity. Um, reporting could be very simply internal reporting from management to review operational performance and make decisions. It's a very broad term. Financial reporting can go from very, you know, like I said, very internal books and records to external reporting, which is a more formal report that's issued on an annual basis, or quarterly basis, required for any purpose.

Generally speaking, financial reporting, between, if it's internal, sometimes referred to as management reporting, it's very much customary based on the industry that you are in. So, like, for example, in the hospitality industry, the hospitality accounts, we refer to the Uniform System for Accounts for the Lodging Industry, USALI. So anyone in hotel accounting would know that term because it's an internal management financial reporting guidelines and structure, so that we, as a hotel company, are booking things and recording things similar to other hospitality companies; that's not necessarily GAAP required, right? Whereas GAAP and other more stringent financial metrics are applicable to external reporting audits, compilations, things like that.
. Hawthom - by Defense - Direct (Mr. Robert)
Page 5151
statements were issued; that they were submitted to lenders as required, and that they were completed as needed.

Q So going back, let's say, to 2011, how many of these different financial reports did Mazars do that you had looked at?

A Hard to say. Probably over a hundred. Mazars, maybe 50, something like that.

Q And what ran the scope of what kind of reports these were?

A Compilations, reviews, audits. They did a lot of work for the company in terms of issuing entity-level financial statements.
Q In addition to you reviewing these records back in 2016 when you joined the company, did you have an opportunity to look at them, again, before you testified here today?
A I did.
Q And did you prepare a chart outlining all of the
various reports that Mazars and Whitley Penn have done for The Trump Organization since 2011?

A I did.
MR. ROBERT: Your Honor, I would like to put on the screen D-1054, which is a demonstrative exhibit that was prepared by Mr. Hawthorn.
(Whereupon, the exhibit was displayed on the screen.)

MR. ROBERT: We have a copy to hand up, please. (The witness was handed the exhibit.)
Q Mr. Hawthorn, what is this document?
A So this is a summary document that illustrates, for the years 2011 to 2022, all of the financial statements that were issued by various accounting firms on behalf of the company for various entities. The chart is simply showing that from 2011 to 2022, across numerous United States based properties, that there have been 82 financial statements, annual financial statements issued for these entities. It indicates in the box whether it was a compilation, an audit or a review.

And then also on the lower part of the chart it also includes other accounting firms. I think I mentioned the Scotland property in the past that had an audit firm named JCCA, an Ireland audit done by a firm called BDO, both are internationally recognized accounting firms in those areas.

So those areas also required audited financial statements for years presented. So it provides a snapshot for all of the work that the accounting firms and the company at large has done over the last ten years to issue compliant financial statements.
Q Sir, to Mr. Amer's point, from 2011 to 2015, you did not work at The Trump Organization; correct?

A Correct.
Q And the preparation of these reports in 2011 to 2015,

1 this entity, so the entity, Trump Endeavor 12, has a loan outstanding with, at the time, Deutsche Bank. Under the terms of the loan agreement, the lender requires annual compilation financial statements of the borrower. So that's why these were prepared from 2016 onward.

Q And do you recall Mazars asking you for any information, with regard to this compilation, that you didn't provide to them?

A Say that again.
Q Do you recall ever being asked by Mazars to provide you information to prepare this compilation that you didn't provide to Mazars?

A No. We provided them everything they asked for.
Q Going to the second item on 2016, what, if any, involvement did you have in the compilation for the 401 North Wabash, LLC entity?

A So similar to the above, so 401 North Wabash, LLC that is the legal entity of the ownership of the commercial space and unsold units at the Trump Chicago. Again, that entity has, at that time, debt outstanding with Deutsche Bank under the loan agreement.

The loan agreement requires that the borrower provides entity-level compilation financial statements to the lender. So from all those years presented, those were provided.

Q And I know I pronounced it wrong. I didn't say
. Hawthom - by Defense - Direct (Mr. Robert)
Page 5155
"triplex", but I was close enough. So it's 401 North Wabash? THE COURT: Wabash.
MR. ROBERT: I'll call it the Chicago property?
A That's the address of the Chicago property.
Q Mr. Hawthorn, moving to the third item, Trump Old Post Office, LLC, what, if any, involvement did you have in the audit that was performed by Mazars in 2016 ?

A So I was involved in that similar to the above. The procedures were more detailed than a compilation, because it's an audit. So the entity, Trump Old Post Office, LLC, again, at the time had a loan outstanding. The loan required that the borrower provide audited financial statements.

In the other cases they were compilation financial statements. So just following the terms of the loan, Trump Old Post Office, LLC's requirement was for an audit.

So in a similar fashion, I oversaw and was a liaison for Mazars to get them the information they needed for completing those audits. There's also another line that says "compilation." So that was an entity where we had both an audit and a compilation done for a certain period of time. Um, that was also required as a result of the loan instrument requiring certain testing at a different date than the audit date. So, therefore, in a certain period of time, as you see from 2019 to 2021, a compilation was also performed.

MR. ROBERT: Don't worry, Judge. Im not going to

Page 5157

\section*{2016?}

A Yes.
Q What, if any, involvement did you have in an audit?
A I did not have involvement in that one.
5 Q Same question for TIHT Commercial?
6 A I did not have direct involvement.
7 Q Trump Plaza, LLC?
8 A I did not have any involvement.
\(9 \quad\) Q Trump Tower Commercial?
10 A I did not have direct involvement.
11 Q Why is it, sir, that with regard to 40 Wall Street,
12 TIHT Commercial, LLC, Trump Plaza, LLC, or Trump Tower

18 Q And 10 Wall TiHT Cosi the assets meaning 40 Wall, TIHT Commercial, Trump Plaza, Trump Tower Commercial, your answer would be the same for -- from 2011
20 -- well, from 2016 to 2022, those were not under your 21 supervision; fair enough?

A Correct.
Q Okay. Moving down in 2016, what is JCCA?
A That's an abbreviation for a firm called Johnston
25 Carmichael. That is an audit firm of Scotland entities.

Q And, again, fair to say that starting in 2016, that's when you became involved in those?
A Correct.
Q And what, if any, involvement did you have -withdrawn.

\section*{What is SLC Turnberry, Ltd?}

A That is the legal entity that is the ownership entity of the hotel property named Trump Turnberry in Scotland.
Q What, if any, involvement did you have in the 2016 audit of the SLC Turnberry, Ltd. property, sir?

A Similar to Trump Old Post Office, LLC, my involvement was to oversee the relationship with the audit firm and make sure they got all the information they needed so the report could be issued.
Q What, if any, difference was there the way you had to deal with audits of international properties versus domestic properties?

A There's some difference because accounting standards are different in the UK and Ireland as opposed to the US. But generally speaking, it's the similar broad based responsibilities.

Q And what, if any, involvement did you have in the 2016 audit of -- withdrawn.

What is Trump International Golf Club Scotland, Ltd?
A That is the legal entity name of the golf course and
M. Hawthom - by Defense - Direct (Mr. Robert)

Page 5159
small hotel in Aberdeen, Scotland.
Q What, if any, involvement did you have in the audit of that property in 2016?
A I had the same involvement as Turnberry. I interacted with the audit firm, as necessary, to assist with the issuance of those financials.

Q Continuing to move down, who is BDO?
A BDO is another accounting firm. It's an international accounting firm, in this case, based out of Ireland. So they oversaw the audits of our Ireland properties.

Q Sir, what is TIGL Ireland Enterprises, Ltd?
A That is the legal entity of that property. So both those entities are two legal entities that comprise the ownership and operation of Trump Doonbeg, which is another property in Ireland.

Q What is the difference between TIGL Ireland Enterprises Ltd. and TIGL Management?

A They just oversee different functions of the resort. One oversees the hotel accommodation. One oversees the golf course component. Just generally speaking, it required two legal entities for its set up.

Q What, if any, involvement did you have in the audit of TIGL Ireland Enterprise, Ltd. audit, 2016 ?

A Same as Scotland. Oversight, ensuring that the audit firm got what they needed to do the audits.

Page 5161
a compilation for the DSCR testing period.
MR. ROBERT: Your Honor, I'm going to try to finish this chart very quickly, but to do that I would like to move D-1054, rather than demonstrative, into evidence, otherwise I have to ask him a question about each line item to get the testimony out. And I want to make it simpler, so I could refer to the document as a whole.

MR. AMER: My initial question is, why aren't we marking this as demonstrative instead of an exhibit.

MR. ROBERT: It should be an exhibit.
MR. AMER: It's got D-1054. Why don't we mark it as demonstrative?

MR. ROBERT: Let's introduce this in evidence as D-1054, a document created by Mr. Hawthorn. I'm fine with that. It would make this go much faster.

MR. AMER: I thought we weren't introducing into evidence demonstratives.

MR. ROBERT: No, I'm changing my mind, because it will take me at least a half hour to go through each item with Mr. Hawthorn. This is much easier.

THE COURT: I don't think demonstratives just go in as ordinary evidence.

MR. ROBERT: So I'll withdraw the request to put it in as a demonstrative and enter it as a piece of evidence. It's a document created by Mr. Hawthorn based on his review
of documents in explaining what was done for each property.
If the Court and Attorney General don't want it to come in evidence that way, I'll go through each year and ask him was there an audit, what involvement did you have. I'm happy to do it. That's fine.

MR. AMER: I think the problem is the best evidence rule. If you are going to put in evidence about each of these audits, then you should put in the audit or compilation. You shouldn't just put in a chart that summarizes something that isn't already in evidence.

MR. ROBERT: It's not --
MR. AMER: It's a problem, I think.
MR. ROBERT: I'm not attempting to get into the bona fides of what was there, just that these were done and he was involved in getting them done. I'm not suggesting and I don't want to get into having to put in 116 financial statements.

MR. AMER: Well, so this document we saw for the first time last night, and I don't think it was created prior to that or shortly before that. And it purports to summarize a lot of evidence, but that evidence has not been introduced into -- as exhibits in this case. So it's just not proper to use a summary chart in this fashion.

MR. ROBERT: I'm happy to do it the long way, Judge.
M. Hawthom - by Defense - Direct (Mr. Robert)

Page 5163
THE COURT: Do it the long way. MR. ROBERT: Okay.
THE COURT: If that's what plaintiff wants. MR. ROBERT: That's fine.
Q Drawing your attention to 2017, Mr. Hawthorn --
A Yes.
Q -- were you involved in a compilation involving Trump Endeavor 12, LLC?
A Yes.
Q What was your role with regard to that compilation?
MR. AMER: Different objection, and I am going to have to involve you with the relevance fray, your Honor. I don't see how any of this is relevant.

We are not challenging the audits or compilations that were submitted to any lender by the borrowing entity. This case is all about Donald J. Trump's financial disclosure under the guaranties in the form of his Statement of Financial Condition.

As far as I'm aware, this chart doesn't include any entry relating to the compilation that was the Statement of Financial Condition for Mr. Trump under the guaranty. So I just don't see how it's relevant.

MR. ROBERT: So, first of all, your Honor, this is the first time I'm hearing that the government is not making a claim against any of the guarantor's of the loan, so if
that's news --
MR. AMER: That's not what I said. For disclosure of their compilation or "their" being the borrower's compilation or audit financials.

MR. ROBERT: But the named defendants in the case include, in particular, Trump Endeavor 12, 401 North Wabash --

THE COURT: Wabash.
MR. ROBERT: Wabash, and Trump Old Post Office,
LLC. So their conduct is clearly an issue, unless you want to withdraw the claims against those corporate or business entities.

What we are demonstrating through this is that these entities prepared financial information. This financial information was prepared either by Mazars or Whitley Penn, or by the international accountants. Mr. Hawthom was involved in this, and there was no issue with these. I don't see any issue with that at all.
(Continued on the next page.)

MR. AMER: It is irrelevant to the case. We are not challenging the financial statements that were prepared and submitted by the borrowing entities on their own behalf. We are challenging the Statements of Financial Condition by the guarantor.

MR. ROBERT: Then what is your claim against the individual defendants if it is not for the financial -- if it is not for them entering into the loan agreements?

I am sorry, Judge.
THE COURT: Overruled. I believe they are relevant. And we will save time just letting him go the long way.

MR. ROBERT: Could I have the last question read back, please?

THE COURT: Read back the last question, which is a ways back.

MR. ROBERT: That's why I forgot it.
(Whereupon, the record was read back by the court reporter.)
A Same as my role in the previous year, seeing that the information was provided to the accounting firm so that they could issue the report.

Q And were you involved in an audit of Trump Old Post Office in 2017?

A Yes.

Q And what, if any, involvement did you have with that -- withdrawn.

What was your role with regard to that?
A Same role as in 2016: Overseeing the audit, that the audit firm got the information they required to issue their report.

Q Were you -- what, if any, involvement did you have with -- just trying to read this, Your Honor -- withdrawn.

In 2017, were you involved in an audit involving SLC Turnberry Limited?

A Yes.
Q As well as an audit of Trump International Golf Club Scotland Limited in 2017?

A Yes.
Q And what was your involvement, sir?
A Overseeing the audit from the client's side to see that the audit firm got the information they needed to issue the report.

Q Was there an audit that was done for the Doonbeg properties in Ireland in 2017?

A Yes.
Q And how many audits were there?
A Two.
Q What was your involvement with those?
A Overseeing the audit engagement process to ensure the
audit firm got the information they needed to issue their report.

Q Turning to 2018. Mr. Hawthorn, was there a compilation prepared by Mazars for Trump Endeavor 12 LLC?

A Yes.
Q What, if any, involvement did you have with that?
A Overseeing that to see that the audit firm got the information they required to issue their report.

Q And sir, was there a compilation report in 2018 prepared by Mazars for 401 North Wabash LLC?

A Yes.
THE COURT: Better, but still not there.
MR. ROBERT: What is the right pronunciation?
MR. KISE: He may need to listen to Johnny Cash on the weekends to learn about Wabash.

THE WITNESS: I would pronounce it Wabash. (wah-bash)

MR. AMER: Just to be clear, I am not against Mr. Robert collapsing these questions into a single question to deal with multiple years or multiple entities. So, that wasn't -- I don't know that the long way means he has to ask a separate question for each year.

THE COURT: Let me just try what I would do here. I would just let it in as a demonstrative, as demonstrative evidence after asking him whether his answer

1 would be the same. You say it is irrelevant, so let's just let it in and move.

MR. AMER: We are fine with that. That wasn't my issue.

MR. ROBERT: If it is solely in for
demonstrative purposes, there is nothing in the record that what is contained in here is exactly what he prepared and he was involved in the audits. If we are saying I can ask a generalized question and it goes in for -- that's why I sought to introduce this as a piece of evidence as opposed to as for demonstrative.

THE COURT: I changed my mind. Let's do it your way. As long as plaintiff agrees and we can agree on some language that he would testify that he was aware -- I am not sure of the right word, of the -- all of the audits, compilations and anything else in here actually occurred.

MR. AMER: That's fine with me. My only point was Mr. Robert could ask a question for the years 2018 to 2021, were you involved in preparing the compilation for Trump Endeavor 12 LLC. And we would deal with all of those years in one question, instead of having to ask the same question for each year separately.

MR. KISE: Perhaps Mr. Amer would want to do the direct and cross today and move it along to feel better?

MR. AMER: I am just trying to be helpful,

Page 5169

\section*{Mr. Kise.}

MR. KISE: I know you are. I just couldn't resist.

THE COURT: I think I can just do this myself.
Mr. Hawthorn, this is a chart that you prepared, correct?

THE WITNESS: Yes, sir.
THE COURT: And submitted it last night, apparently, to the plaintiffs. Or maybe you don't know that.

MR. ROBERT: I can attest that that's right.
THE COURT: Okay. And this list, I see, reviews audits and compilations of the entities listed on the left, for the years listed on the right; is that correct?

\section*{THE WITNESS: Yes.}

THE COURT: And if you can summarize, what was your involvement in or knowledge of these various reports, I'll call them?

THE WITNESS: So my knowledge is that there is an individual report for each one of those entries. So there is \(\mathbf{1 1 6}\) sets of financial statements that are available to cite and to see for these demarcations here. THE COURT: And --
THE WITNESS: Personally, I was involved from my 2016 joining the company, thereafter. When I joined the
company in 2016 my role required me to understand the history of these entities and therefore I was able to cite and see and review the years prior to my joining the company.

THE COURT: And I am not asking if you read every line, but did you actually see either hard copy or digital copy each one of these 116 "reports," I'll call it?

THE WITNESS: Yes.
THE COURT: All right. It is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1054 by the Court.)

THE COURT: And I want to compliment the witness. He is the first one to really be able to stare at me and still have his voice picked up by the microphone. You are very good at that. It is a skill.

All right. It is in evidence for the limited purposes. But if there is any further objection I'll reconsider.

MR. AMER: That's fine, Your Honor, for the limited purposes.

THE COURT: Okay.
Q So with regard to Trump Endeavor 12 and 401 North 25

Hawthorn - by Defendant - Direct (Robert)
Page 5171
of loans that were procured, correct?
A Correct.
Q And what is your familiarity, if any, with the Chicago and Doral loans?

A I am familiar that those entities named are the borrowers under those loans. I am familiar in my role of overseeing the hotel division -- I am familiar with the loan instrument. I had to read it. I had to understand it as part of my job function.

Q And those two properties fall within your purview of your division, correct?

A Correct, they are hotel properties.
Q So I want to talk to you about the Chicago loan. Okay, sir?

A Yes, sir.
Q And when was the Chicago loan taken out, approximately?

A My understanding is that the Chicago loan was taken out in June of 2014 with an original principal balance of \(\$ 69\) million.

Q And pursuant to the loan documents back in June of 2014, was there a guaranty that was attached to it?

A Yes, I believe there was.
Q And what, if anything, do you know about that guaranty in terms of a net worth requirement?

MR. ROBERT: He testified that he has reviewed the loan documents. He knows the loan documents. He is familiar with them because this is now one of his properties that he is overseeing and in charge of, so he knows what happened to the loan. And eventually we are going to get into what happened from 2016 on. And the loan documents are in evidence already.

MR. AMER: Your Honor --
THE COURT: Wouldn't this be hearsay?
MR. ROBERT: No.
THE COURT: Anyway, Mr. Amer?
MR. AMER: I think if we have lengthier discussion on this line of questioning that probably requires us to excuse the witness, Your Honor.

THE COURT: Okay. I'll ask you to step in the back.
(Whereupon the witness stepped down from the stand and exited the courtroom.)

THE COURT: Go ahead, Mr. Amer.
MR. AMER: I haven't heard any foundation that would explain why this fact witness would have all of this knowledge about the loan servicing, which I understand was done through corporate accounting, which he didn't work in. And \(I\) am concerned that what is happening here is that we are turning a fact witness into an expert witness
on the loans and what happened with the loans over the life of the loans. And there is no evidence in the record that this witness in his role that was circumscribed to the hotel division, would have had that type of responsibility or involvement in how the loans operated. So, and I think to turn this witness from a fact witness into an expert witness on the loans, is improper. He wasn't designated as an expert and it is, you know, not anything that was ever disclosed to us in the form of an expert report. So he shouldn't be allowed to become an expert in these loans.

THE COURT: Well, Mr. Amer, I have a different take. I don't think he needs to be an expert to say a loan was paid off. But he wasn't there. So, to me it is hearsay.

MR. ROBERT: Your Honor, this witness is going to be laying out certain facts. And we will have expert testimony from Mr. Unell later in the week, which is the banking expert that would be akin to an expert. But Mr. Hawthorn clearly would know what was paid and when it was paid, as his role, he was the CFO and now the COO of the hotel division. This loan was operational before it was paid off during his time as CFO and then COO. So he certainly would know what the term of the loan was, when payments were made to the loan; and what the implications
of those payments were for the Trump Organization and for the guarantor. That is certainly something he would know.

THE COURT: And when was this paid off?
MR. ROBERT: Well, the original loan of 69 million was reduced to 45 million in 2014. And then the loan was paid off in October of '23, just a couple of weeks ago.

THE COURT: Well, how does he know what happened in 2014 ?

MR. ROBERT: He is going to know that from the fact that he has reviewed the documents. And there is also an e-mail that I am about to introduce, which is between Emily Schroeder of Deutsche Bank and Jeff McConney, that confirms that this payment was made in December of -- in 2014.

MR. AMER: That's the point. Right? They had Mr. McConney on the stand. He was in corporate accounting. He had a role to play with the loan. I haven't heard anything about this witness's job description that would suggest that he had anything other than a passing knowledge of the fact that these loans existed. But not that he had any responsibility for maintaining the loans or interacting with the bank personnel about these loans. So I think this is just having this witness review a bunch of documents so that he

1 can testify about loans that he didn't have any responsibility for.

THE COURT: Mr. Kise? You are standing so you are either leaving or you want to say something.

MR. KISE: I am happy to go back to Florida, I'll tell you that. Do I need to speak? That's the next question, before I violate your first principle.

THE COURT: Well, I want to split the baby. What happened in 2014 he wouldn't know if he says it was paid off later.

But let me ask plaintiffs a direct question. Is there some doubt that this stuff happened? If yes, yes. But if not, why should we fight about it?

MR. AMER: Because they are not getting it in through a witness who has any actual knowledge about what happened. If they want to put it in through a different witness, if they want to call Mr. Garten or somebody else who had a role. We can do this on a foundational basis. If you want to just see if they can lay the proper foundation based on questions about his role and responsibility, we could do it that way.

MR. ROBERT: First --
THE COURT: You are not answering my question. Is the -- do you doubt what he is saying, what he is going to say, that the loan was reduced and then paid off?

Hawthom - by Defendant - Direct (Robert)
MR. AMER: I think there are some things in the exhibits that we have seen that we are disputing. Particularly whether there was a continuing requirement for the guarantor to submit a certification, at least in the documents we have seen, that they sent us last night. There is going to be a dispute over that.

MR. ROBERT: Whether --
THE COURT: That can't be done in cross examination?

MR. AMER: If the testimony is going to come in on that, it should come in through a witness who actually knows about it, not a witness who has just read a bunch of documents to, you know, come to testify today about it for the first time.

THE COURT: Well then the cross-examining could be: How do you know? Oh, you don't really know.

MR. AMER: Well, then --
THE COURT: I am not telling you how to run your show, but.

MR. AMER: I understand that. But there is a need for foundation. And that's a common objection, and there is a reason for it, Your Honor.

THE COURT: Okay. Mr. Robert, can you deal with the objection?

MR. ROBERT: Your Honor, I can lay a foundation
through the witness. In his role as the CFO and COO he reviews loan documents; he is intimately involved; has intimate knowledge of the provisions of the loans.

I was trying to be simple because Ms. Schroeder, who is testifying tomorrow, it is her e-mail, he can get it in through her. But it makes more sense to do it this way.

I'll do whatever the Court wants.
THE COURT: Lay a foundation.
MR. ROBERT: Okay, fine.
THE COURT: Let's get the witness back. MR. ROBERT: Thank you, Judge.
(Whereupon the witness resumed the stand.)
THE COURT: Welcome back.
Okay. Next question.
Q Mr. Hawthorn, in your combined role as CFO of the hotel group and now COO of the hotel group what, if any, involvement do you have in overseeing the Chicago loan?

A So, I oversee the compliance of the loan in terms of the property level obligations. So, that includes the oversight of the compilation report that was submitted, oversight of the DSCR test that needs to be or had to be submitted; and also to ensure that the interest is paid on time. Because the borrower pays monthly interest to ensure that the loan is compliant with its terms.

Hawthorn - by Defendant - Direct (Robert)
Page 5179
Q What is a DSCR test?
A So that is the debt service coverage ratio test. It is a very common ratio that lenders put into loan agreements to help provide evidence that the borrower has sufficient cash flow or net operating income, sometimes is what it is called, to service the loan.

Q And what, if anything, do you need to know about the loan documents themselves to be able to understand how to prepare a DSCR?

A You need to understand definitions in the loan agreement, defined terms, how things are calculated. You need to understand provisions in the loan regarding financial reporting, and other compliance matters. As well as just the loan generally to understand how you can be compliant with your obligation as a borrower.

Q Is one of the issues of the DSCR how much of the principal amount is still due to the bank?

MR. AMER: Objection, leading.
THE COURT: Sustained.
Q What are some of the factors that you must look at to determine whether the DSCR is satisfied?

A The DSCR is a periodic test. It is an annual test derived from the income statement of the loan. The revenues and expenses, which derives the net operating income, which is your numerator. And then the interest expense is the
denominator.
Q Are you familiar in these loans of a concept known as a step down?

A Yes.
Q What is a step down?
A A step down is a concept relating to the guaranty of the loan, and the percentage of which the loan is guaranteed.

Q And what are the factors that go into the, in particular, the Doral loan -- withdrawn.

What are the factors specific with the Chicago loan that you need to understand to understand the step down percentage?

A The step down percentage is effectively dependent on the DSCR and/or another term called the loan-to-value or the LTV, another acronym.

Q And this may sound very simplistic, sir, but the loan-to-value, by definition you have to know how much of the principal loan is still outstanding, correct? MR. AMER: Objection, leading. THE COURT: Sustained.
Q What are the factors you need to consider in determining the LTV, sir?

A You need to know the principal of the loan. And we don't determine the value, the bank would determine the value.

Q Those are the two factors necessary to determine the

Page 5181
LTV, correct?
A Correct.
Q So I am going to ask you again, sir, what, if anything, happened in December of 2014 with regard to the principal of this loan?

A So the principal was paid down.
MR. AMER: Objection, foundation grounds. THE COURT: Sustained.
Q Were you -- did there come a time that you became aware of what the principal amount of the loan was?

A Yes.
Q And what is the -- what was the principal amount of the loan prior to October of 2023?

MR. AMER: Objection. Can we find out how he
became aware as part of the foundation?
THE COURT: Yes. Sustained.
Q Did you become aware of this, sir?
A It is in the financial statements that I prepare with the accounting firm.

Q So, again, sir, in December of 2014, was there -what, if anything, happened with regard to the principal balance of this loan?

A It was \(\$ 45\) million. It was reduced from 69 million to 45 million.

MR. ROBERT: I am going to show the witness a
document that has been marked as D-1055 for identification.

THE COURT: And six-minute warning. MR. ROBERT: Thank you. (Handing)
Q I ask the witness to take a look at the document for a moment.

Putting the document to the side for a minute, going back to the notion of a step down percentage; what is the significance of that?

A It is the percentage of the loan principal that is guaranteed by the guarantor.

Q And what, if anything, under the terms of this loan happened to the guaranty in December of 2014 ? MR. AMER: Objection, foundation. THE COURT: Sustained.
Q Mr. Hawthorn, are there provisions in this loan that speak of what happens to the guaranty as the principal amount is reduced?

A Yes.
Q And what factors under the terms of the loan are looked at in determining what happens to the guaranty?

A The principal, the DSCR and/or the LTV.
Q Is there some sort of formula that is then used?
A Yes.

A The loan-to-value is the bank appraised value over the principal. The DSCR is the net operating income over the interest expense.

Q And did there come a time in 2014 that the guaranty was changed on the Chicago loan?

MR. AMER: Objection, foundation.
THE COURT: Sustained.
Q What, if anything, are you aware of with regard to the guaranty in or around December of 2014 as relates to the Chicago loan?

MR. AMER: Objection, foundation.
THE COURT: What, if anything, are you aware of? Sustained.
Q Was there -- withdrawn.
As a result of the payment of the \(\$ 15\) million in December of 2014, what, if anything -- what, if any effect, did that have on the guaranty?

MR. AMER: Objection, foundation.
THE COURT: To the -- the actual payment? Is that?

MR. AMER: To the affect on the guaranty of a payment made two years before he started working for the company.

THE COURT: If he knows the payment was made as
\begin{tabular}{|cc|r}
\hline Hawthom - by Defendant - Direct (Robert) & Page 5184 & Hawt \\
1 & an accountant, well, I suppose -- & 1 \\
2 & MR. ROBERT: He is also the one doing the DSCR & 2 \\
3 & test every month and looking at the loan-to-value ratio, & 3 \\
4 & so he clearly knows this. & 4 \\
5 & MR. KISE: Yes, Your Honor. All of this & 5 \\
6 & foundation stuff seems to be dancing on the head of a pin. & 6 \\
7 & Corporations only speak through appropriate individuals. & 7 \\
8 & So if someone leaves the company, and a new person comes & 8 \\
9 & in, and that new person has to learn what happened before & 9 \\
10 & they got there, that doesn't mean everything that they now & 10 \\
11 & know can't be -- they can't testify to. I mean, what if & 11 \\
12 & the other person is dead? What if the other person who & 12 \\
13 & left is no longer employed? So it is kind of, I don't & 13 \\
14 & want to use the word, silly, but it is almost silly that a & 14 \\
15 & person who is now the de facto CFO/COO that is in the role & 15 \\
16 & in the company that would have to have this broad & 16 \\
17 & understanding of what took place historically, can't & 17 \\
18 & testify. & 18 \\
19 & This man testified as the corporate & 19 \\
20 & representative in their own deposition. He was the & 20 \\
21 & designee. So I don't really understand all of this & 21 \\
22 & foundational stuff. Just because someone in a corporation & 22 \\
23 & wasn't there -- there were things that happened in the & 23 \\
24 & corporation in the 1980s and 1990s, but as the person now & 24 \\
25 & responsible for that, he would have to know that. And & 25
\end{tabular}
company at the time. Any CFO or COO that takes over in a role is going to have that limitation that they weren't there prior to when they arrived. That doesn't mean they can't testify with competence and knowledge about matters within the ambit of their responsibilities.

THE COURT: I'll pick up on something you said. What he learned. That's why plaintiff is entitled to ask how did he learn it.

MR. KISE: How did he learn it, that's fair, and they can ask that. How did he learn it. If they want to question the --

THE COURT: Well --
MR. KISE: -- the limits of that, that's fine.
THE COURT: It is not just the cross examination point. It is a foundation point.

MR. KISE: How did he learn? He reviewed the documents.

MR. AMER: So.
MR. ROBERT: I think as the CFO --
MR. AMER: Excuse me. Excuse me. We are at a point where I think the witness needs to be excused again, or you want to take a break?

THE COURT: We will break for lunch and order the witness not to discuss the case or his testimony during the break.
\begin{tabular}{|c|c|c|}
\hline & by Defendant - Direct (Robert) Page 5185 & Haw \\
\hline 1 & they can't be precluded from testifying because they & 1 \\
\hline 2 & weren't actually present at the time, as long as they have & 2 \\
\hline 3 & a sufficient basis of knowledge in their current role in & 3 \\
\hline 4 & the company to testify about it. & 4 \\
\hline 5 & And as Your Honor pointed out correctly, if they & 5 \\
\hline 6 & want to explore the limits of that knowledge on cross & 6 \\
\hline 7 & examination, then they can explore the limits of that & 7 \\
\hline 8 & knowledge on cross examination. But to say that the & 8 \\
\hline 9 & person in that role now can't testify because he wasn't & 9 \\
\hline 10 & actually there, doesn't make any legal sense. & 10 \\
\hline 11 & THE COURT: I think this is an interesting & 11 \\
\hline 12 & philosophical issue. I tend to take a somewhat hard line & 12 \\
\hline 13 & view on -- I think I have said this before -- witnesses, & 13 \\
\hline 14 & either you are a fact witness or an expert witness. If & 14 \\
\hline 15 & you are a fact witness, how do you know. Did you see it? & 15 \\
\hline 16 & Did you hear it? & 16 \\
\hline 17 & MR. KISE: Did you learn it though? He is not & 17 \\
\hline 18 & an expert witness. He is not an expert witness because he & 18 \\
\hline 19 & is testifying about factual matters that took place before & 19 \\
\hline 20 & he joined the company. He is a fact witness for the & 20 \\
\hline 21 & company. And if he learned it through reviewing & 21 \\
\hline 22 & documents, reviewing things in his role that would & 22 \\
\hline 23 & naturally encompass these issues, then there is just & 23 \\
\hline 24 & really no reason to preclude his testimony based on & 24 \\
\hline 25 & foundation simply because he wasn't physically at the & 25 \\
\hline
\end{tabular}

\section*{Page 5189}
payment made in 2014 before he was working there. And I believe the witness has said that his foundation for that is the preparation of financial statements in 2016 and later. And I just don't understand how preparing a financial statement would give him any knowledge of what the effect of the payment was on the guaranty two years earlier.

So those are my two points, your Honor.
THE COURT: Well, here's what I plan to do. I'll just repeat, you are either a fact witness or you are an expert witness. He's not an expert. He's a fact witness, so what did he see? What did he hear?

I'll see to Mr. Amer's point, and we'll ask the foundation of his knowledge, if there's a question that is not obvious that he would know. If he says, as I expect may be, well, I saw a document. I saw a receipt. You know, I saw it on the screen. Um, I'll let him say that, but I'm the Judge, and whether the document -- the record is reliable, and whether I believe he actually saw it. And that will be enough foundation for him to say it, but I'll decide what it means in the long run.

Mr. Amer, is that -- and Mr. Robert, any comments?
MR. ROBERT: I don't have a problem with that at all.

MR. AMER: I think --
THE COURT: You don't have a problem?
THE COURT OFFICER: All rise. Part 37 is back in 1 session. Please be seated and come to order.

THE COURT: I have to ask the witness to go in the back for just another minute or two. I hope it's not so bad back there. I spend half my day back there.

Where is your buddy.
MR. ROBERT: He went back to Florida, maybe.
THE COURT: Here's what I'm going to do. As I often do, or sometimes do, I'll telegraph what I plan to do, and you can argue strenuously if you really feel strongly.

MR. AMER: I did want a quick opportunity to respond to Mr. Kise.

There were two things that Mr. Kise said that I think need a response. One is, he referred to this witness as the "de facto CFO" of the company. And I want to make clear that I don't believe that is supported by the testimony. I think he said his role was in the hotel division, and, in fact, the corporate accounting department has a new director of finance, whose name remains undisclosed, but we'll get to that.

But the other thing that he said in terms of foundation, I think is also unsupported. The witness - and this is really the crux of it. I think we are entitled to the foundation for how this witness knows what happened to the guaranty, the effect on the guaranty, based on some

MR. ROBERT: No, sir. It's fair game.
THE COURT: Mr. Amer?
MR. WALLACE: I think if he is going to rely on a document or a function that he performed, then the dots need to be connected. He can't just say he relies on a document if the document actually doesn't shed light on what it is he is about to testify to.

MR. ROBERT: So two things, your Honor. Well --
THE COURT: Maybe you should quit while you are ahead.

MR. ROBERT: Sounds like a good idea. That's why I'm stopping.

THE COURT: Which is another way of saying, rule number one.

All right. Let's get the witness again.
MR. ROBERT: Yes, sir.
(Whereupon, the witness stepped into the witness stand.)

MR. ROBERT: May I proceed?
THE COURT: Please.
Q Mr. Hawthorn, how did you come to the knowledge that in December of 2014, a \(\$ 15\) million payment was made toward principal on the Chicago loan?
A The balance of 45 million is stated in the financial statements for that year that I've reviewed.

Hawthom - by Defense - Direct (Mr. Robert)
Page 5191
Q And why -- what exactly do you review in the financial statements that led you to see that?
A The balance sheet.
Q Is the balance sheet something that you review every year?
A Yes.
Q And you started that practice in 2016 ?
A Yes.
Q And when you assumed your role in 2016, had you looked at the balance sheet for prior years?
A Yes.
Q How many years back did you look at those, if you remember?
A As far back as I needed to to understand the history of the entity.
Q Would that certainly include 2014 and 2015?
A Yes.
Q And sir, so the testimony is clear, it is from that review that you know that the \(\$ 15\) million payment was made; correct?
A Correct.
Q Okay.
I'm going to draw -- and, sir, in addition to knowing that the payment was made, how, if in any way in your preparation of the financials, are you concerned about what
\begin{tabular}{|c|c|}
\hline & - Direct (Mr. Robert) Page 5192 \\
\hline \multicolumn{2}{|r|}{effect the guaranty has on that loan?} \\
\hline 2 & MR. AMER: Objection. Leading \\

\hline \multicolumn{2}{|r|}{(Whereupon, the requested question was read back by} \\
\hline \multicolumn{2}{|l|}{5 the court reporter.)} \\
\hline 6 & THE COURT: Well, it's convoluted, but if you could \\
\hline \multicolumn{2}{|l|}{7 answer, I'll allow it.} \\
\hline \multicolumn{2}{|l|}{8 A I understand that the guaranty is linked to the} \\
\hline \multicolumn{2}{|l|}{9 stepdown percentage in the loan agreement.} \\
\hline \multicolumn{2}{|l|}{10 Q And why would that matter to you in your role as CFO} \\
\hline \multicolumn{2}{|l|}{11 and COO of the hotel group, with regard to this loan?} \\
\hline \multicolumn{2}{|l|}{12 A Because I oversee the hotel portfolio and I oversee all} \\
\hline \multicolumn{2}{|l|}{13 aspects relating to hotel assets.} \\
\hline \multicolumn{2}{|l|}{14 Q But more specific than that, is there a financial} \\
\hline \multicolumn{2}{|l|}{15 reason in your role as to why you would want to know whether the 16 guaranty was in effect or not?} \\
\hline \multicolumn{2}{|l|}{17 MR. AMER: Objection. Leading.} \\
\hline \multicolumn{2}{|l|}{} \\
\hline \multicolumn{2}{|l|}{\multirow[t]{2}{*}{19 What do you want to understand with regard to the loans 20 that are -- withdrawn.}} \\
\hline & \\
\hline \multicolumn{2}{|l|}{21 Part of your role is to oversee the loans for the} \\
\hline \multicolumn{2}{|l|}{22 properties in your division; correct?} \\
\hline \multicolumn{2}{|l|}{23 A Yes.} \\
\hline \multirow[t]{2}{*}{} & Q And what are the factors that you look at when \\
\hline & \\
\hline
\end{tabular}
M. Hawthorn - by Defense - Direct (Mr. Robert)

Page 5193
What do you want to know about those loans?
A I want to know everything about them so I could understand them to do my job.

Q I can't ask you a leading question, so what would that include?
A That would include terms and conditions of the loan, it would include the principal balance, it would include interest rates, it would include any guarantee provisions and anything contained therein that we, as a company, need to be compliant with.

Q Now, you just focused on the guarantee provisions. Why would you want to know about the guarantee provisions?

A To have an understanding of the loan and the obligations of borrower.

Q The examples that you just gave, did you do that process with regard to the Chicago loan?

A I did.
Q And did you do that process when you took over your role in 2016?

A I did.
Q And could you do this every subsequent year with regard to this loan?

A Yes.
Q And sir, after this payment was made in December of 2014, what was your understanding as to the effect of the

\section*{guaranty?}

A My understanding is that in connection with the principal reduction, that the stepdown percentage, effectively the guaranty percentage, was reduced to zero.

Q And do you know if The Trump Organization received confirmation from anyone about that fact?

MR. AMER: Objection. Lack of foundation. We are talking about 2014 now, right?
MR. ROBERT: Right. So Im asking him if he knows in or around 2014, or '15, whether The Trump Organization had confirmation of that from anyone other than you. MR. AMER: Lack of foundation.
THE COURT: I think that is a foundational question.

MR. ROBERT: Yeah.
THE COURT: Overruled.
A So I reviewed correspondence with the lender and the company's representatives about the matter.

Q And in front of you has been presented Defendant's Exhibit 1055. Is this one of the documents that you reviewed?

A Yes.
Q What is this document?
A This is an e-mail from Deutsche Bank to Jeff McConney in 2015.

Q Let's go to the bottom of it and work our way up.

Page 5195
(Whereupon, the exhibit was displayed on the screen.)
Q What do you see occurring on January 21st, 2015, at 12:12 p.m?

MR. AMER: I'm going to object, your Honor. This is a witness just reading a document that was sent before he worked for the company. How is this appropriate?

THE COURT: Sustained.
MR. ROBERT: Your Honor, if I may, first of all, I spent hours listening to having the Attorney General have people read from e-mails.

Secondarily, this is one of the documents --
THE COURT: But, well, a lot of those e-mails they sent, they received, they were there at the time, had independent confirmation.

MR. ROBERT: Your Honor, this witness said this was one of the e-mails he reviewed in coming to his assessment. I think the e-mail comes into evidence because it's a corporate record, but nonetheless, I'll introduce it subject to connection, because Ms. Schroeder is going to be here tomorrow or Wednesday -- I'm not sure what day she is testifying -- and say she sent this e-mail exchange to Mr. McConney. The e-mail is coming in whether we do it today, tomorrow or subject to connection, but it's coming in.
M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5196

Page 5197
Schroeder, inquiring that the loan is now paid down to 45 million and that the DJT guaranty is gone.

Q And do you see a response to that e-mail on the earlier page?
(Whereupon, the exhibit was displayed on the screen.)

Q
A I do.
Q And what is Ms. Schroeder's response?
A Her response is "confirmed."
Q Let's go in between, Mr. Hawthorn. It starts at the bottom of the page.

A Her response is, "I'm pretty sure you are correct. I just want to take a quick look at the docs and will get back to you to it confirm."
Q Does Mr. McConney respond to that on January 21st about an hour and change later?
A He does. He says, "Thanks, Emily."
Q And does Ms. Schroeder respond to him a half hour later?

A She does.
Q What did she say?
A She says, "Confirmed, Jeff. Once the loan is at 45 million or below, the LTV versus the apprised value of 133 million is 34 percent, which is below the 35 percent threshold

THE COURT: Why should it come in with this witness?

MR. ROBERT: Because he claims that this is one of the documents that he used to confirm his knowledge that Deutsche Bank agreed with his assessment that the guaranty was no longer in existence once there was the pay down.

THE COURT: That satisfied Engoron's two prong test.

Overruled. I'm changing my mind, overruled.
MR. ROBERT: So we then have 1055 in evidence, correct, sir?

THE COURT: I'm sorry?
MR. ROBERT: D-1055 is in evidence, correct?
THE COURT: You didn't move it into evidence before. You were just asking him to --

MR. ROBERT: Okay. I'll refer and just go through the questions and move it in afterwards, subject to connection, if you want, for tomorrow.

THE COURT: Let's do that.
MR. ROBERT: If I could have the question read back, please.

THE COURT: Please.
(Whereupon, the requested question was read back by the court reporter.)
A I see an e-mail inquiry to Jeffrey McConney, to Emily
for the required guaranty. Thus, Mr. Trump's guaranty burns down to zero percent."

MR. ROBERT: Your Honor, I move Defendant's Exhibit 1055 into evidence.

MR. AMER: No objection.
THE COURT: It's in.
(Defendant's Exhibit 1055 was admitted in evidence.)
Q Mr. Hawthorn, what obligations, if any, did you understand The Trump Organization had from 2015 through August of 2020 with regard to this loan?

A Um, I'm familiar with the borrower's reporting requirements, which included the issuance and the delivery of the compilation financial statements, as well as the DSCR test on an annual basis, accompanied with a compliance certificate certifying that the amounts presented to the lender were accurate.

Q And these were presented every year, sir?
A Yes, sir.
MR. ROBERT: I'm not going to take him through each year, Judge.

If we could slow the witness and the Court Defendant's Exhibit 1047, please, and cull it up on the screen.
(Whereupon, the exhibit was displayed on the
M. Hawthom - by Defense - Direct (Mr. Robert)

Page 5199
screen.)
MR. ROBERT: We also have a copy for the Attorney General.
(The witness was handed the exhibit.)
Q Mr. Hawthorn, you've been handed a document identified as Defendant's Exhibit 1047. What is this document?

A This document is correspondence that I prepared and submitted to Deutsche Bank in connection with the annual compliance testing.

Q Who is Joshua Frank, sir?
A Joshua Frank is a representative of Deutsche Bank. He was my primary contact at the bank when dealing with any matters relating to this loan.

Q And what do we find on the page identified as 1047-2, and 3 , and 4?

A So attached to my cover letter, which is dash one, dash two is the annual compliance certificate of 401 North Wabash Venture, LLC for the 2018 year.
Q And the rest of the document D1047-five through D-1047-12?

A Those are the accompanying financial statements, the actual issued compilation statements of the entity for the year 2018.

Q And this is the package that you sent to Mr. Frank on April 30th, 2019?

\section*{A Correct.}

MR. ROBERT: Your Honor, I move Defendant's Exhibit 1047 into evidence.

\section*{MR. AMER: No objection.}

THE COURT: Granted. It's in.
Q Drawing your attention to page two of that, which would be 1047-2, 3 and 4, what, if any, involvement did you have in the preparation of the compliance certificate?

A I prepared it.
Q And what did you do to prepare that certificate, sir, specifically?

A I had to review the 2018 issued financial statements and the numbers therein. I had to also compute the DSCR for the period. And then I had to list out those amounts on this certificate for visibility, and the computation of the DSCR for that period.
(Whereupon, the exhibit was displayed on the screen.)
Q And what are we looking at on the top of D-1047? It's actually the bottom of D-1047-2 onto the top of page three. What are we looking at this there?

A Section two is a confirmation of the debt service coverage ratios, the DSCR, and its components for that fiscal year.

Q What are those components, sir?

\section*{M. Hawthorn - by Defense - Direct (Mr. Robert)}

Page 5201

A Those components are the operating income and operating contributions over less operating expenses, and that amount divided by the debt service expense for the period, coming to a calculation of 2.384 for this period.
Q What, if any, significance is there to the \(2.38 ?\)
A The 2.38 is compared to the threshold required in the loan agreement. If you see in section two, it says that they are required to maintain a DSCR of 1.25 . So it's exceeding that. And therefore, the ratio in this particular year is complied with.

Q I'm then going to draw your attention to D1047-4.
A Okay.
Q Who signed this document?
A This was signed by Donald Trump, Jr., as president of the 401 North Wabash Venture, LLC entity.

Q What, if any, involvement did you have in Mr. Trump executing this agreement, referring to Mr. Donald Trump, Jr?

A I provided Donald Trump, Jr. this packet, noting that it was complete, that the team, led by myself, prepared it; that it was ready to be submitted so that he may sign the certificate so it could be submitted.

Q And this was a conversation you would have had with him; correct?

A Yes. Probably also documented in an e-mail.
Q Okay. And what are we looking at at D-1047-5 through
\(12 ?\)
A These are the compilation financial statements of this entity for this fiscal year.
\(Q\) And these were required under the terms of the loan?
A Correct.
Q Okay. Thank you, sir.
I'm now going to ask the witness to look at what was has been marked as Defendant's Exhibit 1051, and ask that it be handed to the witness, the Court and Attorney General.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Mr. Hawthorn, you've been handed what's been marked as Defendant's Exhibit 1051 for identification. Do you recognize this document?

A Yes.
Q Mr. Hawthorn, what is this document?
A This is an e-mail from myself to Joshua Frank at Deutsche Bank, with the same information that was shown previously, but for this time it's the 2019 year.
\(Q\) And for saving time, attached to this is your cover letter; correct?

A Correct.
Q And what is on pages three through five?
A It's the compliance certificate for the 2019 year.

Page 5203

\section*{down and not able to conduct business. So that year was a year} where, on its face, we would not have met the DSCR requirement, because the net operating income would not have exceeded the interest expense for the period, although, the borrower continued to make its monthly interest payments and was not in default of any obligation. It was still able to make the payments.

The calculation in and of itself was not meeting the threshold because of a low economic environment, and people not able to stay at the hotel.
Q What, if anything, happened with regard to this loan as a result of that?

A What happened is if in this period you do not meet the DSCR, the lender, at any time during the loan, has the opportunity to do its own fair value assessment, doing an appraisal of the loan to determine the loan to value. So the fact that this DSCR was not met, it allows them the opportunity to do that.

There's also, I guess, three prongs by which a DSCR can -- if it's failed on its face, can be effectively remedied. One is, the lender would commission an appraisal as I described.

The other is the lender could have the borrower post collateral of a certain amount to satisfy the lender.

And the third is that the borrower can pay down the loan to a certain amount to satisfy the lender per the terms of
M. Hawthorn - by Defense - Direct (Mr. Robert)

Page 5205
the agreement.
MR. AMER: Your Honor, I'm going to move to strike the answer. The question was what, if anything, happened with regard to this loan as a result of that, "that" meaning COVID. I don't think the answer responded to that.

MR. ROBERT: He's -- I'm sorry, your Honor.
THE COURT: Granted. The question was a lot simpler than the answer.

THE WITNESS: Sorry.
THE COURT: These things happen.
Q With regard to this particular loan, did The Trump Organization receive notice from Deutsche Bank?

\section*{A Yes.}

Q And what did Deutsche Bank -- what was your
understanding as to what the Trump Organization -- withdrawn.
Did The Trump Organization DSCR fall below the acceptable limit?

A Correct.
Q What, if any, options did the Trump Organization have at that time with regard to this loan?
A They could either post collateral, pay down the loan, or reinstate the stepdown percentage to an acceptable level, which would have been ten percent at that point in time.

Q And what does that mean in practical terms for The Trump Organization if they were going to increase the stepdown
at that point?
A So the stepdown percentage being the amount of loan
that's guaranteed, it basically means that the loan would then be guaranteed no longer at zero percent, but it would be guaranteed at ten percent. So in August of 2020, the loan would then be guaranteed as 4.5 million.

In addition, the net worth requirement, which before was zero of the guarantor, now goes to ten percent of 2.5 billion, the original amount, therefore, the net worth requirement is 250 million.

Q Did The Trump Organization take Deutsche Bank up on the offer to increase the stepdown basis to zero -- to ten percent?

A Yes.
Q And at the same time did Trump Organization agree to have a minimum net worth of \(\$ 250\) million?
A Yes.
MR. ROBERT: Your Honor, I would like to show the witness Defendant's Exhibit 1050.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Hawthorn, what do you recognize this document to be?
A This is correspondence from Deutsche Bank to the attention of the entity 401 North Wabash Venture.
Q And do you recognize the signatures on page three of
. Hawthom - by Defense - Direct (Mr. Robert)
Page 5207
this letter?
A Yes.
Q Whose signatures are those?
A Donald Trump, Jr. and Eric Trump.
Q Could these signatures indicate this is the official
acceptance of that proposal with the increase of the stepdown basis that you just referenced?

A Yes.
MR. ROBERT: Your Honor, I move Defendant's Exhibit 1050 into evidence.

MR. AMER: For notice purposes or for more than notice purposes.

MR. ROBERT: For the fact that the Trump Organization did, in fact, agree to increase the stepdown percentage, which had been zero, to 10 percent.

THE COURT: If that's all he wants it admitted for, I'm fine with that.

Mr. Amer, do you agree?
MR. AMER: That's fine.
THE COURT: It's in for that purpose.
MR. ROBERT: Well, to be clear, it would be everything contained in the paragraph that says, "This will also confirm that" because that's what The Trump Organization is confirming.

THE COURT: Well, they are saying "we confirm it."

Page 5209

MR. ROBERT: And then The Trump Organization, signed by Eric Trump and Donald Trump, Jr. on behalf of the corporate entity, are agreeing to that term.

THE COURT: Okay.
MR. AMER: Just so we are clear, it's coming in for the acknowledgment and agreement that appears on the final page that's signed by the Trump employees; is that right?

MR. ROBERT: Can I just read what you just said. I'm going to read it from there.
(Whereupon, there is a brief pause in the testimony.)

MR. ROBERT: Yeah, that The Trump Organization is agreeing to what Deutsche Bank offered them, yes.

THE COURT: Okay. That's what it's in for.
Q What, if any, impact did this have, then, on the loan, sir?

A So this increased the stepdown percentage or the guaranty percentage from zero to 10 percent.
Q And again, as to the net worth?
A The net worth was now 250 million.
Q What, if anything, happened with regard to this loan a year or so later in July of 2021?

A Performance since rebounded after the pandemic subsided. Hotel guests were able to come to the hotel again. So in the subsequent reporting, the DSCR test, because revenues
were able to rebound, the DSCR test was, um, met on the face
Q And what, if any, impact did that have on the loan and revival of the guaranty you just spoke of?

\section*{A At that point in time, then the company had the option} to take the stepdown percentage back down to zero and remove the guaranty entirely again.

Q What, if anything, did The Trump Organization do with that?

MR. AMER: I'm sorry. Again, I'll move to strike the answer, because I think the question was what impact did it have on the guaranty, and answer was the company had the option to do something. But that doesn't respond to what actually happened.

MR. ROBERT: I think it does, because he's explaining, as a result of what they do with the guaranty that affects the company's interest rate.

THE COURT: I understand Mr. Amer's point.
MR. ROBERT: Let me see the question and I'll ask it again. Can I scroll this up?
(Whereupon, there is a brief pause in the testimony.)
Q Let's break it down.
What, if any, impact did this development in the change of the DSCR have in July of 2021 as to the loan itself? Not the guaranty, just the loan.

1 A The interest rate increased.
2 Q And what, if any, impact did this new DSCR in July of 2021 have on the guaranty?

A The guaranty went away again.
Q And did The Trump Organization, in fact, allow the guaranty to go away in July of 2021?

A Yes.
MR. AMER: Objection. Leading.
THE COURT: Sustained. Leading.
Q And what, if any, impact was -- what, if any, impact was there on the guaranty in July of 2021 as a result of the DSCR now being above the limit?

A The guaranty went away.
Q And what, if any, impact did the guaranty going away
have on the loan itself?
A No guaranty means no net worth requirement of the guarantor.
Q And what, if any, impact did it have on the interest rate?

A It increased the interest rate 25 basis points.
Q Now, I would like to show the witness what's been marked as Defendant's Exhibit 1046?
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)

Q Mr. Hawthorn, I've shown you what has been marked as Defendant's Exhibit D-1046 for identification.

What do you recognize this document to be?
A This is an e-mail correspondence from myself to Julie Brand, who, at the time, was the director of finance for the Trump Chicago Hotel.

MR. ROBERT: Your Honor, I move Defendant's
Exhibit 1046 into evidence.
MR. AMER: No objection.
THE COURT: Granted. It's in.
(Defendant's Exhibit 1046 was admitted in evidence.)
Q Mr. Hawthorn, if you could please read what you are telling -- withdrawn.

Who is Ms. Brand again?
A She, at the time, was the director of finance for the Trump Chicago Hotel.

Q And what, if any, role would the director of finance have with regard to this loan?

A At the property level, the property is responsible for paying the interest, the monthly interest from available cash
flows at the property, so she would receive the monthly invoice of the loan every month.

Q And what did you exactly tell Ms. Brand in this e-mail, if you could read it to the Court, please.

Q And Mr. Hawthorn, to your understanding, why is it that the interest rate went up by 25 basis points at this time?

A Because the step down percentage was reduced from 10 percent to zero.

Q Is it your understanding from based on your review of the loan documents and your review of the various financial statements, that from the time the guaranty was voided in December of 14 through August of 2020, that the Trump Organization was required to send Statements of Financial Condition to the bank?

MR. AMER: Objection, leading.
THE COURT: Sustained, leading.
Q What, if any, obligations of the loan that had existed prior to December of 2014 were no longer in effect from 2014 to 2020, if any?

MR. AMER: Objection, foundation.
THE COURT: Can I ask for a readback.
(Whereupon, the record was read back by the court reporter.)

THE COURT: Overruled, based on the totality of
his prior testimony.
A There is no requirement to submit guarantor financials.

Q And sir, what, if anything, changed in August of 2020 with regard to the guarantor financials?

A I said, "Julie, FYI below, the good news for the company is that the results allow for the partial guaranty to go And then I say, "The not so good news for the hotel is that the margin on the LIBOR interest rate now goes up by 25 bext pin next month's invoice, and expect the monthly interest to be (Continued on the next page.)

A Because the step down percentage went back up to 10 percent, the requirement was reinstated to submit guarantor financials.

Q And then with regard to that what, if anything, happened in July of 2021?

A Because the step down percentage went back down to zero percent, there is no longer a requirement to submit guarantor financials.

Q And, sir, was this loan paid in full?
A Yes.
Q And when was this loan paid in full?
A October of 2023.
Q And, sir, what, if any, requirement was there with regard to presenting the bank with a Statement of Financial Condition for this loan from July of 2021 to the time the loan was repaid in August of 2023?

A None.
MR. ROBERT: Your Honor, I would like to show the witness what has been marked as DD-2, this time truly a demonstrative piece of evidence. If we can show it to the witness, the Court, and put it up on the screen, please?

Do we have copies of it? Sorry, I am still old school with the paper.
(Handing)

Q Mr. Hawthorn, you have been handed what has been marked as a demonstrative exhibit marked as DD-2; do you recognize this document?

A Yes.
Q What is this document?
A This is a timeline of the loan and key events from June 2014 through October 2023.

Q Did you prepare this document?
A I assisted with the preparation of it.
Q And does this document reflect the testimony you just gave about when the SOFC was required by Deutsche Bank and when it wasn't?

A Yes.
Q So according to this demonstrative piece of evidence from December of 2014 through August of 2020, the SOFC was not required, correct?

MR. AMER: Can we have some clarity on what Statement of Financial Condition this is relating to? Because we have this SFCs of the borrower entities; there is also the guarantor SFC; so it is unclear what this is.

MR. ROBERT: I think it is a disingenuous objection because this case is about the SOFC. But so the record is clear, this is evidencing President Trump's Statement of Financial Condition, which is the guarantor's Statement of Financial Condition, which is the basis of

Hawthom - by Defendant - Direct (Robert) Page 5216
the lawsuit that the Attorney General brought. That's what this is referencing.

THE COURT: Well, now we know. So okay. MR. AMER: Thank you.
MR. ROBERT: If I could have the last question read back, please?

THE COURT: Please read back.
(Whereupon, the record was read back by the court reporter.)
A Correct.
Q And sir, based on this demonstrative, the SOFC was also not required from July of 2021 through August of 2023, correct?

\section*{A Correct.}

Q Okay. I want to now draw your attention to the Doral loan. Okay, sir?

A Okay.
Q What, if any, involvement did you have in your role as CFO/COO of the hotel unit with regard to the Doral loan?

A So in my role I am responsible for the oversight of the hotel portfolio, including Doral, including the understanding of the loan agreement, under which Doral is a borrower, and understanding its terms.

I was also responsible for the preparation of the annual financial statements, along with the accounting firm, to

Hawthom - by Defendant - Direct (Robert)
Page 5217
be submitted to the borrower.
And just like the Chicago loan, there is also a DSCR annual test.

And also a step down percentage test.
So very similar document, very similar
responsibilities on my part in my role to understand the document and to ensure our compliance with it.

Q And in your role of overseeing these various financial statements and documents for the -- for Doral, did you become familiar with the loan itself and the amount of the loan?

\section*{A Yes.}

Q And in that course of your work, did you also become familiar with the terms and conditions of that loan?

A Yes.
Q And why would your knowledge of the terms and conditions of that loan be important to do your job as CFO/COO of the hotels?

A Again to understand the obligations of that particular property, which falls under my responsibility.

Q Are you aware, sir, that there was a loan taken out with Deutsche Bank for Doral?

A Yes.
Q And do you know approximately when that loan was?
A I believe it was in 2012.

Q And do you know the principal amount of that loan, sir?

A 125 million.
Q And, sir, do you have an understanding as to whether there was guaranty associated with that loan?

A Yes.
Q And do you have an understanding as to what the terms of that guaranty were back in June of 2012 ?

A My understanding is it was a 100 percent guaranty.
Q And anything with regard to a net worth requirement?
A My understanding is that the original loan at the onset had a \(\$ 2.5\) billion net worth provision.

Q What, if anything, happened with regard to this loan in August of 2013?

A I understand that the loan had an amendment.
Q And what was the import of that amendment?
A The import of the amendment was to bring it to the concept of the step down percentage, similar to Chicago, to allow for a partial guaranty of the loan.

Q And that was in August of 2013?
A Yes.
Q And without going through everything, it is similar in concept to what we just talked about with regard to Chicago?

A Yes.
Q And sir, what, if anything, happened with regard to

\section*{this loan in August of 2015?}

A My understanding is that the step down percentage was elected to be 10 percent. And that meant that the guarantors guaranty is 10 percent of the loan balance. So effectively the guarantor is guaranteeing 12.5 million of the loan at that point in time, no longer 100 percent of the loan. And at the same time because it is a 10 percent step down percentage, the net worth requirement of the guarantor is 250 million at that point in time.

Q And did that net worth requirement from August of 2015 of \(\$ 250\) million change from then to the time the loan was changed?

A It did not. It remained the same.
Q When was this loan paid in full, sir?
A The loan was repaid in May of 2022.
Q Going back to the period of August of 2015 and the step down basis, what, if any, option was given to the Trump Organization to exercise the step down basis?

A The company had the option to elect the step down percentage to go all the way to zero percent because the LTV was satisfied to allow that to occur. The company, however, elected to keep the step down percentage at 10 percent at that point in time.

Q Which then led to the \(\$ 250\) million net worth requirement and the 12 and a half million dollar guaranty
limit, correct?
A Correct.
Q And, sir, during the course of this loan what, if any, requirements of reporting did the Trump Organization have, or particularly Trump Endeavor 12?

A Trump Endeavor 12 had compilation financial statements that were prepared annually every year, issued by Mazars and then Whitley Penn. Those financial statements were submitted to the borrower and also submitted along with a compliance certificate and a DSCR calculation every year, just like the Chicago loan we looked at previously.

THE COURT: Was the question what they did or what they were obligated to do?

MR. ROBERT: First it is what they are obligated
to do. And now I am going to show documents that showed what they did that were consistent.

THE COURT: He didn't answer what they were obligated to do. He answered what they did.
Q The answer you just gave, what they were supposed to do, did the Trump Organization, in fact, do that?

A Yes.
MR. ROBERT: Just give me a second. I want to
limit this to one year to make it faster.
Q And these financials were required to be provided once a year, correct, sir?

Hawthom - by Defendant - Direct (Robert)
Page 5221
A Correct.
Q I would like to show the witness Exhibit D-1048. (Handing)

MR. ROBERT: And Ill make the second year very fast Judge, don't worry.

THE COURT: You read my mind. MR. ROBERT: I try.
Q Mr. Hawthorn, I have handed you what has been marked as Exhibit 1048 for identification. Do you recognize this document?

A Yes.
Q What do you recognize this document to be?
A This is my correspondence to Joshua Frank at Deutsche Bank relating to Trump Endeavor 12 LLC.

Q What is attached to the letter?
A Annual compliance certificates for the year 2018, along with a calculation of the DSCR, along with the annual financial statements of the entity.

Q And the -- what, if any, role did you have in the preparation of the compliance certificate?

A I prepared it.
Q And the same steps that you testified about earlier for the Chicago loan would apply to the Trump Endeavor 12 loan?

A Correct.
Q And the signatory on page D1048-4 is whose?

A Donald Trump Jr.
Q And the process that you articulated earlier with how you would present this to Mr. Trump Jr. for his execution with regard to the Chicago property, would be the same as for this?

A Correct.
MR. ROBERT: Your Honor, I move Defendant's
Exhibit 1048 into evidence.
MR. AMER: No objection.
THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1048 by the Court.)

MR. ROBERT: I would like to show the witness what has been marked as Defendant's Exhibit 1052. (Handing)
Q Mr. Hawthorn, what do you recognize Defendant's Exhibit 1052 for identification to be?
A This is my correspondence to Deutsche Bank in a similar fashion; but this time it is for the year 2019.
Q And this, again, has your letter attached as well as the compliance certificate and the financial statement prepared by Mazars, correct?

A Correct.
MR. ROBERT: I move Defendant's Exhibit 1052 into evidence.

Hawthorn - by Defendant - Direct (Robert)
Page 5223
MR. AMER: No objection.
THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1052 by the Court.)
Q And the same questions I asked you, sir. What was your involvement in the preparation of the compliance certificate?

A I prepared it.
Q And in the same manner as you earlier testified?
A Yes.
Q And this is signed by Donald Trump Jr. on behalf of Trump Endeavor 12?

A Yes.
Q And the manner in which you present -- withdrawn. Did you present this to him for signature?
A Yes, I did.
Q And the manner in which you presented it to him for signature is the same as you testified to earlier?

A Yes.
MR. ROBERT: I would now like to show the
witness what has been marked for demonstrative purposes Defendant's Exhibit DD-3.
Q And sir, while that is being handed up. When was the Trump National Doral loan paid in full?

Page 5225

\section*{that loan in terms of reporting?}

A Annual financial statements to be submitted with a compliance certificate similar to these other two loans; as well as a DSCR calculation similar to these other two loans.

Q And sir, is that, in fact, what happened with regard to this particular loan?

A Yes.
Q Now, a little earlier you testified that this property had two certifications each year, correct?

\section*{A Yes.}

Q I am going to take you through each one separately,
but I am going to start with the one in May of 2019.
MR. ROBERT: If we could show the witness

\section*{defense exhibit 1049?}

And this time, Judge, I am only going to use one
year's worth.
(Handing)
Q Sir, this would be consistent with each year of the loan, correct?

A Yes.
Q Okay.
Sir, you have been handed what has been marked as Defendant's Exhibit 1049 for identification. What do you recognize this document to be?

A This is my correspondence to Joshua Frank and

Deutsche Bank relating to the Trump Old Post Office LLC loan.
And this is for the year -- this is for the 12 months ending
January 31, 2019.
Q And sir, there is a compliance certificate attached to it?

A Yes.
Q And what, if any, involvement did you have in the preparation of the compliance certificate?

A I prepared it.
Q Using the same methods that you talked about earlier?
A Yes.
Q And this is signed by Donald Trump Jr. on behalf of Trump Old Post Office LLC?

A Yes.
Q Did you present this to Mr. Trump Jr. for signature?
A Yes.
Q Is the manner in which you did that the same as you testified to earlier on the other documents?

A Yes.
Q What is the final document from Mazars attached to this?

A This is the compilation financial statement for the entity for the year ended -- for the 12 months ended January 31, 2019.

MR. SUAREZ: Your Honor, I move Defendant's

Exhibit 1049 into evidence.
MR. AMER: No objection.
THE COURT: Granted, it is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 1049 by the Court.)
Q Mr. Hawthorn, in a moment I am going to show you an e-mail -- hold this -- hold this to the side for a moment.

MR. ROBERT: I would like to show the witness
Exhibit PX-497. We have copies of it.
Yes, Andy, I am actually using one of yours.
(Handing)
Q Mr. Hawthorn, do you recognize the document that has been identified for identification as PX-497?

A Yes.
Q And what is this document, sir?
A This is my correspondence to Deutsche Bank for the Trump Old Post Office LLC loan, and its reporting requirements for the year ended August 31, 2019.

MR. ROBERT: I move Plaintiffs Exhibit 497 into
evidence. I don't think it has already been introduced.
MR. AMER: No objection.
THE COURT: Granted, it is in evidence.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 497 by the

Page 5229
A In clarification with the lender, that I did personally and with other representatives, we confirmed that the DSCR testing period for this loan was on a 12 -month ended January 31, period. And therefore the DSCR was not computed off of the annual financial statements which were on an August 31, 2019, year. So we had to do two sets of financial statements for compliance purposes, the audited financial statements which were satisfying that requirement, the entities on a fiscal year ending August. Then the DSCR was required to be due on a 12 -month January period. And again, only a compilation was required.

Q And sir, how would you describe the difference, and I know when we started the exam you gave us the difference between an audit, a review and compilation, but specifically, aside from you explaining that the dates are different, how did this audit of Trump Old Post Office LLC differ from the compilation that is provided carlier in the year?

A Well, you can see in the audit itself it has a full set of footnotes. The work done by Mazars and the audit opinion indicates it was an audit. So it was much more detailed procedures for an audit. There was substantive testing done of the entity. Whereas, a compilation is less testing, more putting the numbers together in a document.

Q I am going to switch gears now. You can put that aside. Thank you, Mr. Hawthorn. And talk to you about the
monitor who has been put in place in the Trump Organization. What, if any, involvement have you had with the monitor?

A I have had significant involvement with Judge Barbara Jones, who is the appointed monitor that we work with regularly.

Q When did you first come into contact with Judge Jones?

A In November of 2022.
Q And what were the circumstances surrounding that first meeting with her?

A She came to our offices with certain of her staff members and therefore -

Q Let's break it down. Who was it that came with her, if you remember?

A Members of her team. She is with a firm called Bracewell, so there were representatives from Bracewell on her team. And then on our side it was myself, it was Alan Garten and I believe certain of our attorneys were present as well.
\(Q\) And what was discussed at that first meeting?
MR. AMER: I am going to object, Your Honor, to hearsay, to the extent that it is going to include what Judge Jones or any of her colleagues said to the Trump Organization individuals.

MR. ROBERT: This is as good a time as any. We are going to add Barbara Jones and Tom Kokakis to the
witness list. I ask if we need a subpoena issued by the Court or can just serve them with a subpoena, because their testimony is crucial to the equitable relief you are seeking. So we might as well clear that up as well.

MR. AMER: It doesn't relate to my objection.
MR. ROBERT: I'll rephrase the question.
But you raise a good point. We will need her testimony. So we can handle that in the break, talk to the Court about that.

MR. AMER: Again, I think the witness can say what the Trump Organization employees told Judge Jones and her staff, but I don't think it is appropriate to have this witness relay what they were told, because that's hearsay.

THE COURT: You want to make sure that I am not arguing for you before you argue I see.

MR. KISE: Right.
THE COURT: I think -- I am surprised at the objection. But why don't we see what the specific questions are.

MR. AMER: I think the question I objected to was: Tell us what was discussed. So it raises the issue, Your Honor.

THE COURT: I don't think what was discussed would be hearsay. What was discussed.

Hawthom - by Defendant - Direct (Robert)
You were there, right? Overruled.
What was discussed? The topics, not the statements which we can then address.

MR. AMER: As long as it is limited to the topics I don't have any problem.

MR. ROBERT: Does the Attorney General have any objection to us calling Judge Jones or her colleagues to testify?

MR. AMER: I am not going to be able to answer that right now. I have to discuss it with my colleagues.

THE COURT: Okay. So what was discussed generally, not did Judge Jones say.
A So, the November 2022 meeting was an introductory meeting. Judge Jones and her team were interested in learning about the company, its structure, its organization, and its key executives in place running the company, and how it runs today. So that was an introductory meeting that set in motion a very cooperative, transparent, regular partnership where myself, as one of the individuals on behalf of the company, meets regularly with Judge Jones and her team members.

At the onset of the meeting it was clear that it would take some time for the monitor and their representatives to fully understand the depth and the complexity of the organization. So they did ask a lot of questions to understand
we respond to them timely and get them what they need. So, ongoing it has been very detailed. It has been very thorough. And you know, any and all questions that they ask we have been transparent and open and happy to assist them in whatever information they need.

Q So you --
MR. AMER: My only objection is to the phrase, mutual, good mutual understanding. I think that implies that it went both ways. He can certainly testify as to his understanding. But I don't think it is appropriate for him to testify about what Judge Jones and her staff had an understanding of.

THE COURT: He wouldn't know what was in their mind.

As long as I have you, Mr. Amer, I am assuming that Ms. Jones was there to ask questions and listen, not just say things. And anything she said was probably not going to be introduced to prove the truth of its contents here, so, that's why I found that a strange objection.

MR. ROBERT: I would respectfully disagree.
MR. AMER: Since I don't know what this witness will say about what Judge Jones may have said at the meeting, it is hard to know in advance whether it is just for notice purposes or not.

But, in terms of my prior objection on good

Hawthom - by Defendant - Direct (Robert)
Page 5233
the entity's structure, who does what in the organization, how process flows work. So it was definitely a significant undertaking on our side to make sure we were being fully compliant, answering all of their questions diligently, responding to inquiries and so forth.

Q What was the matter -- withdrawn.
Were requests for information made of you and the Trump Organization?

A Yes.
Q And how did you provide that information to the monitor -- withdrawn.

Did the monitor request it be sent to her or to others?

A As an administrative matter the monitor and their -her designees set up a data room that allowed for information that they requested to be provided to them in the format that they requested. The onset of the monitorship obviously was a lot of questions, again, to get an understanding of the company which is, you know, has a lot of entities and a lot of business components to it, and a lot of operating businesses.

So, as they, meaning the monitor and their designees, asked questions, we would provide the information they requested. There would be a lot of follow-up questions. And through the course of since November 2022, we have gotten into a pretty good mutual understanding of what they require and how
mutual understanding?
THE COURT: Yes, sustained. I'll note for the record that the witness wouldn't know what was really in Judge Jones' mind. He might have heard hearsay, you people have been great.

MR. ROBERT: On that point, yes, there was conversations. Judge Jones made observations and comments which I think are plainly relevant.

I'll serve this as an opportunity to give notice under our order that we intend to call Judge Jones and Tom Kokakis in our case in our defense. We will work out the scheduling with the Attorney General and the Court.
Q But in addition to that, are you aware of any request the monitor made of the Trump Organization that was not complied with?

A No.
Q Are you aware of whether the monitor found anything wrong in all of the months she has been looking at Trump Organization records?

A No.
Q Have you been advised that she uncovered any fraud at the Trump Organization?

A No.
Q Are you advised as to whether she uncovered anything improper?

\section*{CROSS-EXAMINATION \\ BY MR. AMER:}

Q Good afternoon, Mr. Hawthorn.
A Good afternoon.
Q I want to go through a number of comments you made during your direct to seek some clarification. You talked about compilation being the lowest level of assurance; do you recall that?

\section*{A Yes.}
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)
the numbers, maybe do some analytical procedures to see how it all looks, and ask some questions. But it would definitely be less substantive procedures than an audit.

Q Just to go back to my question, which was specific to testing in a compilation, there's no substantive testing of the figures; yes?

A Generally speaking, yes.
Q I'm correct, yes?
A There's what I would call analytical procedures, but no testing of underlying documents.

Q And you indicated that for the entities that you were responsible for, they had both compilations and audits; correct?

A Correct.
Q And am I correct that there was no reason why The Trump Organization could not have retained Mazars to do an audit of
Donald J. Trump's financial statements as opposed to just a compilation; right?

A I don't know.
Q You don't know of any reason why they couldn't have hired Mazars to do an audit; right?

A I don't know. It's not -- that wouldn't be my area, being in the hospitality division. So if you are asking a hypothetical --

Q No, I'm asking, as you sit here today, you were aware of no reason why The Trump Organization could not have retained

A Correct.
Q And you oversee the hotel brand operations and are the most senior executive person within the hotel division; correct? A Yes.
Q And am I correct that your responsibilities as Chief
Operating Officer of Trump Hotels is limited to the owned and managed hotels of the portfolio of the hotel division?
A No.
Q Can we go ahead and put up Mr. Hawthorn's trial testimony from last month? It's at lines 14 -- page 1417, starts at line 17 ?
(Whereupon, the exhibit was displayed on the screen.)

MR. AMER: Sixteen.
Q "So are you the most senior executive person within the hotel's division at The Trump Organization?
"ANSWER: Yes.
"QUESTION: And can you just explain to us how the hotel's division fits within the overall corporate structure of The Trump Organization?
"ANSWER: Everything related to the hotel
azars to do an audit instead of a compilation; is that fair?
A And I think I previously testified there is no requirement for an audit. So if the company -- if any private company doesn't have a requirement for an audit for some constituency like a lender or a government agency, there's really no need for an audit.
Q Despite the fact --
THE COURT: You are not answering the question. Am
I correct, Mr. Amer? You agree?
MR. AMER: Correct. I agree.
THE COURT: But you are asking it in the negative.
Why don't you ask it in the positive.
Is there any reason -- and Mr. Amer, if you want to ask a different question, or whatever, is there any reason The Trump Organization could not have asked for an audit?

THE WITNESS: I would just say, other than time and resources and the cost of it, no.

THE COURT: Did I ask it in the negative? Sorry.
Let me rephrase it. We are going to get the same answer. MR. AMER: It's harder than it looks.
A The same answer, I think.
THE COURT: Could The Trump Organization have asked for an audit if they were willing to pay for it? THE WITNESS: Yes. THE COURT: Okay. See, it's not so hard, Mr. Amer.
properties that we own and/or manage. So the organization, as you may be familiar, owns commercial real estate, operates golf courses and has other holdings. So the hotel division operates specifically to the owned and managed hotels in the hotel portfolio."

So in terms of what's within the hotel's division, that is just the owned and managed hotel portfolio; is that right?
A Yes.
Q And --
THE COURT: If you want another few minutes, fine, or we could break now. It's up to you.

MR. AMER: We could break now. That's fine.
THE COURT: You're hungry. Okay. 2:15 as usual.
And I'll direct the witness not to discuss the case, or his testimony, of course. You've heard that several times.
(Whereupon, the case on trial was adjourned until 2:15 for the luncheon recess.)

AFTERNOON SESSION
THE COURT OFFICER: All rise. Part 37 is back in session. The Honorable Judge Arthur Engoron presiding. Please be seated and come to order.

Proceedings
Page 5243
THE COURT: Im going to ask Mr. Amer to hold his horses for a few moments, but he could stand at the podium.

I have considered defendant's late request to add Judge Barbara Jones and attorney Tom Kokakis of her staff to the witness list. I hereby preclude their testimony. Besides being untimely, defendant's request is inappropriate as Judge Jones and her staff are arms of the court, and you cannot question the Court in this matter.

The independent monitor order stated that they are to report back to the Court via their reports, and the reports speak for themselves. I also do not want to create the possibility of any conflicts of interest of any kind. The last thing this case needs is to have Judge Jones need to step aside.

Finally, I am not aware of a single instance in which a litigant asked to examine an independent monitor, or anything like an independent monitor, and I spent part of the lunch break researching the issue. I couldn't find any examples. And for sure I'm not aware of any court granting or allowing this.

But I'll hear from the defendants if they have authority for their request.

MR. KISE: We don't at this time, your Honor, but to the extent that we research the issue and decide to raise it, then we'll return to it.

Page 5245
Q And is the partial point the responsibility that you were asked to assist in in standardizing the accounting methodology across various divisions?

A That's a good example.
Q What else, aside from that standardization project, do you consider to be responsibility that Mr. Weisselberg had that you now have?

A I would say just helpful guidance and accounting knowledge to any arms of the business that are needing of assistance.

Q Were you ever asked to provide helpful guidance and accounting knowledge with respect to the preparation of Donald J. Trump's Statement of Financial Condition?

\section*{A No.}

MR. AMER: I would like to show you some trial testimony from Donald Trump, Jr., just so we could further clarify your role. It's page 3987 starting at line 13 , continuing onto the next page, line two.
(Whereupon, the exhibit was displayed on the screen.)

MR. AMER: So if we could get the rest of the answer on the page on the screen.
(Whereupon, the exhibit was displayed on the screen.)
Q This is Donald Trump, Jr.'s trial testimony during his
M. Hawthorn - by Defense - Cross (Mr. Amer)

MR. ROBERT: Will there be a formal order or will you so order the transcript?

THE COURT: I would ask that you just so order the transcript.

And yes, Mr. Kise, I would grant your request. If you find some authority for the proposition, of course I'll hear it.

MR. KISE: Thank you.
THE COURT: Okay. Let's get the witness back on the witness stand.
(Whereupon, the witness stepped into the witness stand.)

THE COURT: Mr. Amer, please continue.
MR. AMER: Thank you, your Honor.
Q We were discussing your role and responsibilities at The Trump Organization. And I want to ask you a few more questions to clarify what that role is.

Have you ever worked in the corporate accounting department at Trump Tower, which is the department that Mr. Weisselberg and Mr. McConney worked in?

A No.
Q Did you take over Mr. Weisselberg's responsibilities that he had when he was CFO of the corporate accounting department after he left the organization?

A Partially.
direct examination by Mr. Robert:
"QUESTION: So when you testified a week ago, you mentioned that Mark Hawthorn was the CFO of The Trump Organization. Is that actually his official title?
"ANSWER: I think he's still chief financial officer. He, he's assumed that role, I guess I just said, sort of. So he is the, you know, the finance guy within Trump, Trump world now and has taken on all those decisional responsibilities. He is an actual CPA and does that. So it may not -- again, we are not as -- not as big on title, but he's functioning in that capacity, correct."

Are you functioning in the capacity as the chief financial officer of The Trump Organization?
A No.
Q I think you mentioned that others are -- well, first of all, do you oversee the corporate accounting department?
A No.
Q I think you mentioned that others are overseeing the corporate accounting department in the wake of Mr. McConney and Mr. Weisselberg leaving the company; correct?
A Yes.
Q And you mentioned Donna Kidder. Is she the assistant controller now?
A Yes.
Q You also mentioned that there is now a director of

\section*{. Hawthom - by Defense - Cross (Mr. Amer)}

Page 5247
finance; is that right?
A Yes.
Q And what is that person's name?
A His name is Michael love chuck.
Q And when did he assume the position of director of finance?

A He's been a director of finance at the company for over 20 years. He served as the director of finance for the Trump International Hotel and Tower in New York, a hotel property.

Subsequently to that, he took on the same role for the Trump International SoHo Hotel and the Trump International Washington, D.C. Hotel when that hotel was sold in May of 2022.

He did not leave the company. He was able to use the skills and expertise in the corporate accounting function as the director of finance.
Q Is it your testimony that he is now functioning in the capacity as the chief financial officer of The Trump Organization?

A No.
Q Is there anyone else other than Ms. Kidder and Mr. Love chuck, who is overseeing the corporate accounting department?

A ^ Splg Mr. Love chuck would be the highest individual of financial expertise in that area.

Q I'm just trying to find out if there are any other people?

Page 5248
A There's a team, yes.
Q Who are they?
A They are the accounting staff for that team.
Q The same staff that was there before Mr. Weisselberg left?
A Some yes, some are now.
Q Has any individual in the corporate accounting department taken over in the capacity as the chief financial officer of The Trump Organization?

A No.
Q And to the extent --
MR. AMER: Can we put up Mr. Trump's testimony we were just looking at.
(Whereupon, the exhibit was displayed on the screen.)
Q And to the extent that Donald Trump, Jr.'s testimony could be read to suggest that you are functioning in the capacity of CFO of The Trump Organization, that would be incorrect?
A There is no CFO of The Trump Organization.
Q And to the extent that his testimony could be read to mean that you have taken on all of the decisional
responsibilities that Mr. Weisselberg had, his testimony would be inaccurate; correct?

MR. ROBERT: Objection.
M. Hawthorn - by Defense - Cross (Mr. Amer)

Page 5249
THE COURT: What's the objection?
MR. ROBERT: He's saying to the extent his testimony could be interpreted that way. It's either the testimony is or it isn't. This witness is not there to extrapolate how one could interpret Mr. Trump, Jr.'s testimony.

MR. AMER: I'll withdraw --
THE COURT: Rephrase.
MR. AMER: -- and rephrase.
Q When Mr. Trump testified that you have taken on all those decisional responsibilities of the CFO of The Trump Organization, he was wrong; correct?

A I think the word "all" makes it incorrect.
Q And we spoke about the project to standardize across the various divisions how the general ledgers are kept; correct? A Yes.
Q Was that a project that you undertook with an outside consulting firm named Ankura?
A No.
Q Were you involved in a project related to updating the accounting processes with Ankura?
A The company engaged Ankura to assist with an evaluation of the finance function so that areas of improvement could be identified.

Q And that was something that you worked with Ankura on;

\section*{correct?}

A Yes.
Q Were you ever asked by anyone within The Trump
Organization to assist with respect to any other engagement with Ankura?

\section*{A No.}

MR. AMER: Let's go ahead and put up D-1054.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Do you recall you testified about this chart?
A Yes.
Q Correct? And I believe you said you prepared this chart; is that right?
A Yes.
Q And with respect to the statements that predate your arrival at The Trump Organization in 2016, am I correct that your knowledge of those prior statements was based on your review of those statements upon your arrival?
A Upon or thereafter.
Q Well, how far after?
A In the process of being subpoenaed for information, I was part of the team that helps provide all of these documents, as requested. And as a process of understanding and going through the history of how these documents were prepared and

\section*{Hawthom - by Defense - Cross (Mr. Amer)}

Page 5251
issued, I've seen all these documents. So we have an electronic folder of keeping record of all of these individual statements.

Q Let me just clarify, because I want to zero in on when you reviewed the statements from 2011 to 2015, did you review those upon arriving at the organization in 2016 in order to be able to perform your job functions?

A Certainly, yes, the ones related to the hotel division that I was getting up to speed on. Certainly the other ones relating to the commercial aspect, I didn't learn about until much later.
Q So specifically let's identify those. The ones that relate to commercial properties, that wouldn't have been -- that aren't within the auspices of the hotel division, that's 40 Wall Street, TIH Commercial, LLC, Trump Plaza and Trump Tower Commercial; correct?

\section*{A Correct.}

Q And is it the case, then, that the statements for those entities from 2011 all the way through 2022 were not statements you - that you reviewed until you prepared to testify here at this trial; is that right?

A Not exactly.
Q What is incorrect about that?
A In my role as being the liaison for the monitor, I'm now copied on all correspondence of any financial documents submitted to lenders. So in addition to all these annual

M. Hawthorn - by Defense - Cross (Mr. Amer)

Page 5253
A Correct.

Q You testified on direct that you were not aware of any instance with respect to the preparation of the statements on this chart where Mazars asked for information and didn't receive it; is that right?
A Correct.
Q Okay.
But with respect to the four commercial properties, since you weren't involved in the preparation of those statements, is it fair to say you wouldn't know what Mazars asked for or what was provided in response to those requests; right?

A Yes, I was thinking about the hotel statements.
Q So your response to Mr. Robert's question with respect to not knowing of any instance where Mazars asked for something and didn't get it in return, it excluded the four commercial property statements; right?
A That's fair.
Q And similarly, you had zero involvement in preparing Donald J. Trump's Statement of Financial Condition; correct?

A Correct.
Q And so you would have no knowledge of any requests that Mazars made during the course of the preparation of those statements; right?

A Correct.

\section*{Hawthom - by Defense - Cross (Mr. Amer)}

Page 5255

\section*{A The e-mail does not say that.}

MR. AMER: And if we look at demonstrative DD2.
(Whereupon, the exhibit was displayed on the screen.)
Q This is a document I believe you testified you assisted in preparing; correct?

A Yes.
Q Were there others involved in its preparation?
A In-house counsel and myself. I drew it on a piece of paper out of my mind, and they helped put it into a nice format.

Q Other than formatting, is the entirety of the contents of this document something you prepared?
A Um, most of it.
Q Well, which part isn't?
A The dates, the key terms, just the timeline, right. I could go back to the loan documents, understand the timeline of the loan to help simplify for the explanation of the history of this particular instrument.

Q Well, how about what's in red? Is that yours?
A Yes.
Q Okay. And what was the basis for your concluding that the Donald J. Trump Statement of Financial Condition was not required between December 2014 and August 2020?
A My understanding of the loan documents.
Q And was that also the basis for your understanding that
\begin{tabular}{|c|c|}
\hline M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5256 & M. Hawthom - by Defense - Cross (Mr. Amer) Page 5258 \\
\hline 1 -- was that also the basis for your stating that Donald J. & 1 screen.) \\
\hline 2 Trump's Statement of Financial Condition was not required & 2 MR. AMER: Actually, if we could just flip throug \\
\hline 3 between July 2021 and October 2023? & 3 until we get to the Chicago one. \\
\hline 4 A Yes, the loan document & 4 (Whereupon, the exhibit displayed on the screen was \\
\hline 5 MR. AMER: Let's go ahead and look at a document & 5 scrolled through.) \\
\hline 6 that we've & 6 (The witness was handed the exhibit.) \\
\hline 7 & MR. AMER: Go back to five. \\
\hline 8 screen.) & 8 Q Do you see, on page five, there is a compliance \\
\hline 9 MR. & 9 certificate. And that's on the Chicago loan? \\
\hline 10 (The witness was handed the exhibit.) & 10 A Yes. \\
\hline 11 Q This is an e-mail from Joshua Frank at Deutsche Bank & 11 Q We could go back. You saw that it was in respect to \\
\hline 12 that has & 12 the three loans, that included Chicago; right? \\
\hline \[
13
\] & 13 A Mm-hmm. \\
\hline 14 (Whereupon, the exhib & 14 Q Had you seen this document before preparing the chart? \\
\hline 15 screen & 15 A No. \\
\hline 16 Q You' & 16 Q And so this is a 2018 compliance certificate attaching \\
\hline 17 certificate. Do you see that? & 17 the 2018 Statement of Financial Condition. Do you see that? \\
\hline 18 A & 18 A \\
\hline 19 Q And & 19 Q And it's your understanding that this was submitted \\

Hawthom - by Defendant - Cross (Amer)
Page 5265
J. Trump's Statement of Financial Condition?

A Yes.
Q And your view is that no such obligation existed; is that right?

A Yes.
Q And your view is based on the loan documentation that is the same documentation that Deutsche Bank is looking at when they write this e-mail, correct?

\section*{A Yes.}

THE COURT: Well, he wouldn't necessarily know
what Deutsche Bank was looking at. But I understand.
Q It is the same loan documentation that Deutsche Bank had in its files. Right?

THE COURT: He doesn't know what they looked at. But you could -- we will take the question to mean, did they have the same information that the witness looked at. And his answer is yes.

THE WITNESS: I believe so, yes.
MR. AMER: Your Honor, I move to admit Plaintiffs Exhibit 563.

THE COURT: Granted, it is in.
MR. ROBERT: Same objection.
THE COURT: Overruled.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 563 by the

Court reporter.)
Q Let's go ahead and look at Plaintiffs Exhibit 562. THE COURT: Mr. Kise?
MR. KISE: Your Honor, this e-mail that he is moving into evidence, the one between Candela and Rosen, I mean, it is one thing to question him about it for impeachment, but to move it into evidence substantively without any foundation, that's quite a different matter altogether. What is the foundation? This isn't between either of the recipients -- the recipient or the sender. And it is being offered to prove what, the truth of the matter asserted? It is a hearsay document.

THE COURT: The credibility of the witness. MR. KISE: That's impeachment.
THE COURT: The correctness of the witness.
MR. KISE: That's impeachment, not substantive evidence. I don't see how this comes in as substantive evidence. It is hearsay.

MR. AMER: We can limit it for purposes of notice, Your Honor, to Adam Rosen of the Trump Organization.

THE COURT: Admitted as evidence of notice?
MR. AMER: Notice of the contents -- notice of the contents of the letter, the e-mail which is Deutsche Bank's position. Notice to Adam Rosen of Deutsche Bank's
position that they were not accepting the proposal.
THE COURT: Sounds good to me. Seems to be an important part of this case.

MR. KISE: Notice of Deutsche Bank's position? THE COURT: Right.
MR. KISE: Same objection.
Q This is another e-mail from Mr. Candela to Mr. Rosen. This one dated a month later in October of 2022. This is still during the period of time where you have written in red that there was no obligation to submit a compliance certificate, correct?

A Yes.
Q Have you seen this e-mail before?
A No.
Q And in the second paragraph, which I'll just read to you, Mr. Candela writes to Mr. Rosen at the Trump Organization:

Having considered the request, Deutsche Bank is willing to agree to extend the guarantor's time by which to deliver the three financial reports specified above by from October 28 to December 31 on the condition that:

And then little (ii): The guarantor timely delivers his annual certificate of compliance required by section 11 (i)(D) of the guaranty by the due date of October 28. Do you see that?
A Yes.

Page 5269

Q Were you aware when you were preparing your chart indicating there was no obligation for the guarantor to provide a Statement of Financial Condition, that the bank's view was that the extension -- that an extension would be granted to December 31 on the condition that the guarantor timely delivers his annual certificate of compliance?

A I am sorry, that was a long question, you lost me. THE COURT: Do you want a readback? MR. AMER: If I could get a readback. THE COURT: Read back, please. (Whereupon, the record was read back by the court reporter.)
A I was probably not aware, no.
Q Would you agree that the bank's position as set forth in this e-mail is inconsistent with your view that there was no obligation to provide a Statement of Financial Condition for the guarantor in this time period?

\section*{A Correct.}

Q And if you look further down in this e-mail,
Mr. Candela writes: For your awareness and in considering the request and proposing the agreement described above, Deutsche Bank considered various factors, including but not limited to the following:

And then I want to mention the second bullet, which says:

By operation of the guaranty, because the loan-to-value ratio produced by last year's appraisal was less than 35 percent, the step-down percentage of the guaranty is currently zero percent.

Do you understand that to be a confirmation that the guaranty has burned off?

A Correct.
Q And so notwithstanding the fact that the guaranty has burned off, Deutsche Bank is still insisting that the guarantor must deliver Donald J. Trump's Statement of Financial Condition as part of a certificate of compliance, correct?

A That's what this e-mail says.
Q And the next bullet says:
Also by operation of the guaranty, because the step-down percentage of the guaranty is currently zero percent, the guarantor is not currently subject to a minimum net worth requirement.

Do you see that?
A Yes.
Q And can we agree that notwithstanding the fact that there is no minimum net worth requirement, Deutsche Bank is still insisting that Donald J. Trump submit a certificate of compliance with his Statement of Financial Condition?

A Yes.
Q So, would you agree that Deutsche Bank views the
guarantor as being under an obligation to submit a certificate of compliance with Donald J. Trump's Statement of Financial Condition, notwithstanding the fact that the guaranty has burned down to zero and there is no net worth requirement?

A I don't know if this is the only e-mail related to the exchange, so I don't know if this was the final conclusion. Again, there is likely responses from Mr. Rosen that iterate our position as a company, so I can't say if this was the final determination or not. This is just one e-mail.

Q Well, can we agree that based on this e-mail that is what the bank's position is?

A As of the date of this e-mail and as of the time of this e-mail, yes.

MR. AMER: Your Honor, I move to admit Plaintiff's Exhibit 562 for notice purpose.

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 562 by the Court.)
Q I want to show you Defendant's Exhibit 1047 which you were asked about on direct.

I believe Mr. Hawthorn, your testimony was that you prepared this compliance certificate, right?

A Yes.
Q And I think you said that in order to prepare this

\section*{Hawthorn - by Defendant - Cross (Amer)}

Page 5271
you had to review the borrowing entity's compilation statement and the numbers in that statement; is that right?

A Yes.
Q And is that what you believe you were required to do as the person preparing this compliance certificate?

A Yes.
Q And am I correct that you were never asked by anyone to prepare the compliance certificate for any year for the guarantor on the loans?

A Correct.
MR. AMER: Let's go ahead and pull up demonstrative DD-3.
Q And this is a chart you prepared relating to the Doral loan?

A Yes.
(Handing)
Q Did you receive any assistance preparing this, other than assistance in formatting?
A Mostly my work.
Q Well, you say "mostly," is there work that isn't yours?

A Um, no. Again, it was probably in consultation with in-house counsel.

Q And am I correct that you are not suggesting on this chart that there was ever a point in the life of this loan
\begin{tabular}{|rc|r}
\hline Hawthorn - by Defendant - Cross (Amer) & Page 5272 & Haw \\
1 & where the guarantor ceased to have an obligation to submit a & 1 \\

24 & Q And the decision states on August 3, 2023 Judge Jones & 24 \\
25 & reported as follows: & 25 \\
\hline
\end{tabular}

\section*{Hawthom - by Defendant - Cross (Amer) \\ Page 5273}

Since my appointment, I have reviewed material, financial and accounting information submitted by the Trump Organization. As part of my review, I have made preliminary observations regarding certain current financial disclosures with respect to the Trump Organization's reporting of financial information.

Specifically, I have observed that information regarding certain are material liabilities provided to lenders -- such as intercompany loans between or among Trust entities and Donald J. Trump, certain of the Trust's contingent liabilities, as well as refundable golf club membership deposits -- has been incomplete.

Were you aware that Judge Jones had issued a report indicating that an aspect of the organization's reporting of financial information has been incomplete?

A Yes, we are aware of this letter.
Q I was asking more if you were aware of the specific statement conclusion that Judge Jones reached that certain reporting had been incomplete?

\section*{A Yes.}

Q She goes on to -- Judge Jones goes on to say the Trust has also not consistently provided all required annual and quarterly certifications attesting to the accuracy of certain financial statements.

Were you aware that Judge Jones reported that?

1 A Yes
Q And she -- and Judge Jones finally states:
In addition, annual audited financial statements for certain entities prepared by an external accounting firm list depreciation expenses. However, interim internally prepared financial statements provided to third parties for these same entities inconsistently report depreciation expenses.

Were you aware that Judge Jones had identified such inconsistencies?

A Yes.
MR. AMER: That's all I have, Your Honor. THE COURT: Any redirect?
MR. ROBERT: We have some, but we will need to print a few documents we would need to use. I ask if we can take our afternoon break a few minutes earlier and then resume

THE COURT: Okay. All right, 3:25.
MR. ROBERT: Thank you, sir.
(Pause in the proceedings.)
COURT OFFICER: All rise. Part 37 is back in session. Please be seated and come to order.

THE COURT: Can we discuss scheduling, particularly Friday of this week and next week, the following week.

I'll ask defendants in the first instance what

\section*{Hawthorn - by Defendant - Cross (Amer)}

Page 5275
they are intending.
MR. KISE: I think, Judge, the witnesses
identified for this week will take us through Friday, the ones that we already have, the Deutsche Bank witnesses.

THE COURT: Let's go over who they are so we are sure we are on the same page.

MR. KISE: Williams, Sullivan, Pereless. Well, Mr. Birney will probably spill over until tomorrow, some tomorrow. And then we have, I think, Williams, Sullivan, Pereless, Bravlik and then Unell, who is the banking expert.

We will start -- we may not be done with
Ms. Bravlik until Thursday morning, so I think, you know, the plan anyway, is that Unell will take us through Friday.

THE COURT: I'll turn the microphone over to my person who sits alongside of me.

MS. GREENFIELD: Just in case, can we have another witness for Friday? Who were you planning to call next Monday? Can they be available just in case we finish that witness early?

MR. KISE: So Mr. Chin is in another trial on Friday, who is called for Monday.

MS. GREENFIELD: Who do we have for Monday? MR. KISE: Monday is Fred Chin.
\begin{tabular}{|cc|c}
\hline Hawthom - by Defendant - Cross (Amer) & Page 5276 & Hawt \\
1 & THE COURT: And you expect that to be an entire & 1 \\
2 & day. & 2 \\
3 & MR. KISE: That one, yes, he will be. And then & 3 \\
4 & Moens, Schubin, on Tuesday. & 4 \\
5 & MS. GREENFIELD: I am sorry, can you spell & 5 \\
6 & those? & 6 \\
7 & MR. KISE: M-O-E-N-S, Lawrence Moens. & 7 \\
8 & And then John Schubin S-C-H-U-B-I-N. & 8 \\
9 & And then he will continue over a little bit on & 9 \\
10 & Wednesday. And then we will have Eric Trump on Wednesday & 10 \\
11 & the 6th, either late morning or early afternoon. And then & 11 \\
12 & Elie Bartov B-A-R-T-O-V will be the Thursday and over into & 12 \\
13 & Friday. & 13 \\
14 & MS. GREENFIELD: Okay. And then who else? & 14 \\
15 & MR. KISE: And then the Monday will be President & 15 \\
16 & Trump, the 11 th, at least that's the plan. I don't have & 16 \\
17 & final confirmation that's his schedule, but I think we can & 17 \\
18 & make that work. & 18 \\
19 & THE COURT: And that's your final witness? & 19 \\
20 & MR. KISE: Right. So there may be, kind of like & 20 \\
21 & we had with the plaintiffs case, there may be a little & 21 \\
22 & gap between when Bartov is done and Trump takes the stand, & 22 \\
23 & because I don't know that we can get him here on the 8th. & 23 \\
24 & Fridays and Saturdays tend to be pretty challenging. & 24 \\
25 & THE COURT: Okay. & 25 \\
& & \\
\hline
\end{tabular}

\section*{REDIRECT EXAMINATION \\ BY MR. ROBERT:}

Q Mr. Hawthorn, when Mr. Amer was questioning you he asked you some questions regarding the analytical procedures used for a compilation report; do you remember that?

A Yes.
Q And you testified that there was no testing involved, correct?

A Yes.
Q What, if in any way, does GAAP affect the procedures to follow for a compilation?

A GAAP is still to be followed and also complied with.
Q You were also asked a series of questions about the loan for Chicago; do you remember that?

A Yes.
Q And Mr. Amer showed you some e-mails that set forth Deutsche Bank's position; do you remember that?

A Yes.
Q After that exchange of e-mails in October of 2022, did the Trump Organization ever submit a Statement of Financial Condition to Deutsche Bank?

A No.
Q And did the bank ever send a default notice to the Trump Organization after October of 2022?

A No.

Q And ultimately that loan was paid off, correct?
A Correct.
Q Mr. Amer also was questioning you about portions of Justice Engoron's summary judgment decision; do you remember that?

A Yes.
Q And specifically he was asking you questions related to Justice Engoron quoting from Barbara Jones' August 3, 2023 letter; do you remember that?

\section*{A Yes.}

MR. ROBERT: I would like to present to the witness Defendant's Exhibit 1057 for identification. (Handing)
Q Mr. Hawthorn, what do you recognize this document to be?

A This is a letter from Judge Jones on Bracewell letterhead updating the Court on the status of the monitorship.

MR. ROBERT: Your Honor, I'll represent that this is filed on the public docket as NYSCEF 647. And I ask that this document be introduced into evidence as
Defense Exhibit 1057.
MR. AMER: No objection.
THE COURT: Granted. It is in.
(Whereupon, the document referred to was deemed
marked for evidence as Defendant's Exhibit 1057 by

Hawthom - by Defendant - Redirect (Robert)
Page 5281

\section*{the Court.)}

Q Mr. Hawthorn, I am going to draw your attention to page two of this letter.

MR. ROBERT: If you could put it up on the
screen, Nate, as well?
Q And I start by drawing your attention to the first paragraph. Do you see that, sir?

A Yes.
Q Let's go through the first paragraph. What does the first sentence says?

A As noted above, since my appointment I have reviewed material, financial and accounting information submitted by the Trump Organization.

Q Continue, sir.
A As part of my review I have made preliminary observations regarding certain -- certain financial disclosures with respect to the Trump's organizations reporting of financial information.

Q Continue.
A Specifically, I have observed that information regarding certain material liabilities provided to lenders -such as intercompany loans between or among Trust entities and Donald J. Trump, certain of the Trust's contingent liabilities, as well as refundable golf club membership deposits -- has been incomplete.

Q Do you have an understanding of what Judge Jones is saying in that last sentence?

A Ido.
Q What is that?
A During the course of the monitorship, as I mentioned, we had a lot of discourse between the monitor of what they observed and what our response to those observations were. So, ten months into the monitorship we were advised by the monitor's representatives that they would be advising the Court of some updates. They provided to us in a meeting certain of those matters for discussion, with which we provided responses.

Specifically to the matters that are raised here, that's what this is talking about.

Q And, sir, was the information incomplete?
A It is our view that it was not because of our response to the information. Specifically, for each point noted here, the observation of information regarding certain material provided to lenders, as you know the company no longer prepares a Statement of Financial Condition. It is not required by any lender. The company simply prepares a statement of assets, material assets and material liabilities to lenders. So one of the lenders, for example, today, that has the Doral loan, receives that information.

Obviously because it is being provided to a lender it is provided to the monitor. And the monitor had some questions

Hawthorn - by Defendant - Redirect (Robert)
Page 5283
about it. One of the questions arose relating to one of our Scotland entities. So if you remember, we have a hotel in Scotland, Trump Turnberry. We also have Trump Aberdeen. In connection with the monitor's also review of those financial statements, because they review all of the financial statements, they identified to us and had questions about what was disclosed in those financial statements about an intercompany loan to the Trust.

Our response was, yes, that exists because the company upon purchasing the Trump Turnberry asset in 2014 effectively loaned money to the Scotland entity, was set up as a shareholder loan, and therefore that entity owes back money to the Trust, to the parent entity.

This is what is referred to as an intercompany loan. It is not a loan to a third party. It is not a loan that is callable accept by the owner of the loan, which is the same party.

So, the monitor's observation to us was, your statement of liabilities doesn't include this loan. Why does it not?

And our response was, well, if you are going to put the loan as a liability, you also have to put the asset, the receivable as well, because the Trust is owed that money from itself, effectively.

They asked why was that information not included if
you are submitting this to lenders. And our response is, it is not something a lender would be concerned about because it is not to a third party, it is to yourself. So in our view the statement that we provided and continue to provide, is completely accurate and completely transparent.

However, they had -- even though no lender had asked us to make a change about it, the monitor said, would you take our question under advisement and perhaps going forward you could make a footnote on the schedule identifying that this is an intercompany loan. So that's what this item is related to. It is simply a loan within the Trust, not owed to a third party.

So for someone to say it is incomplete, we actually disagree with that because it is not something a lender would be interested in. It is not an obligation outside of yourself. If you are going to put a loan, you also have to put the receivable. We didn't think it made sense to gross up assets and liabilities. Rather, just if you want us to disclose it as a footnote, we will. So prospectively we have done that. We have made that revision.
(Whereupon, the following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

Q We now go on Mr. Hawthorn, to the last sentence of this paragraph. Can you read that?
A Sorry, the other comment in the sentence says "that certain contingent liabilities, as well as refundable golf club membership deposits has been incomplete. We were also aware that the statement of material liabilities" --

MR. AMER: I'm sorry, your Honor, I don't think this responds to the question. I'm not sure.

MR. ROBERT: I told him to finish the sentence.
MR. AMER: I thought you asked him to read the next sentence.

MR. ROBERT: I apologize if I said the next sentence.
A There's two items noted in that sentence I want to make sure I address it for completeness. The monitor asked us why certain membership deposits at golf clubs would not be reflected in the statement of material liabilities. The only reason that the monitor observed these particular liabilities is that they inquired of us for any and all financial reporting.

So when I made a statement before about a mutual understanding, it was a mutual understanding about materiality. At the onset of the monitorship, we were being as diligent and forthright as we could, disclosing everything we possibly could. The order said provide sales tax returns, financial information to any party, and so we did that. Included in some

1 of those submissions in January and February of 2023, included certain balance sheet information and income statement information of our golf courses to, um, leasing companies for golf course maintenance equipment. Certainly not material things in the scope of the company at large, but because it was going to a leasing company, we wanted to make sure the monitor saw that. Included on those balance sheets for those individual, um, golf clubs includes a liability for refundable membership deposits.

Most of those deposits come about when The Trump Organization acquired a club in the past, and the policy of the club was that those membership deposits for people who joined the club were refundable. So therefore it's a liability on your balance sheet.

Um, the reality is prospectively, and now, the company doesn't have that policy. It doesn't have refundable membership deposits. If someone wants to join the club, they have to pay the cost to join the club now, and those deposits are generally non-refundable.

Now, the monitor identified, well, okay certain of these golf clubs that you are giving to a golf course maintenance leasing company shows these liabilities, why wouldn't you have that on the statement of material assets and liabilities to the main lender, and why would it not be disclosed.

\section*{Hawthom - by Defense - Redirect (Mr. Robert)}

Page 5287
And our response is, they are not included on there because if you included those liabilities, there's actually a greater asset value associated with them. If those members leave, a new member would have to join. You know, for a new member to join, those members leave, and you would get a much greater value from the new membership coming in. So from our perspective and our disclosure to the monitor, by not including those liabilities, we are actually being conservative, otherwise we will have to put a much larger asset value offsetting those liabilities, if that makes sense.

THE COURT: I follow that. What if they couldn't find somebody to become a new member?

THE WITNESS: That's a possibility. But, um, in our experience, membership changes very frequently. Certain clubs, there are waiting lists to join membership. So in most instances people are waiting to join, for old members to leave for new members to come in.

Nonetheless, the statement of assets and liabilities has a footnote that literally says, um, certain contingent liabilities may be excluded. And, again, the unfortunate thing about this disclosure doesn't mention anything about materiality. In my experience, as an auditor and public accounting, like none of these items are material to the organization's financial representation as a whole, if you are talking about these types of liabilities.

THE COURT: How much was the average membership back then?

THE WITNESS: Um, it's hard to say. It varies by club.

THE COURT: Several hundred thousand dollars? THE WITNESS: Sure.
THE COURT: Where are we drawing the line on materiality?

THE WITNESS: We are talking about billions of dollars of asset value, and liability value of much less than that.

THE COURT: All right. Just continue.
Q Fair to say, Mr. Hawthorn, that you respectfully disagree with the statement that it's incomplete?

A We explained to the monitor, we don't think it's incomplete. We think it's accurate. In working with the monitor in good faith, we understood their requests. We understood that even though the lender asked for us to include this or has a concern with this, we would take their advice and prospectively take the footnote and make it clear.
Q Let's go down to the last sentence in this paragraph. If you could read that.
A "The trust also has not consistently provided all required annual and quarterly certifications attesting to the accuracy of certain financial statements."

\section*{M. Hawthorn - by Defense - Redirect (Mr. Robert)}

Page 5289

Q What is your view as to that statement, sir?
A Again, all of the multitude of financial statements, quarterly compliance, annual compliance certificates that the monitor reviewed, they identified that for a handful of them, and those would relate to the commercial properties we talked about earlier, like Trump Plaza, Trump International Commercial, that historically, if you look at the actual loan document, which was written many years ago, the financial reporting section says the submission of these financials should also be accompanied by a certification signed, right. And if you look going back to the inception of these loans, every time it was submitted by the company, there was no manual signature on the paper that it was scanned and delivered to the lender.

Our response was, well, we understand that that's not technically what the loan document says, but the bank has never asked us to sign it over many years, so the practice has always just continued. Um, and frankly when you submit something on its face to a lender, you are already de facto, you know, disclaiming the accuracy of it saying these are the statements that you need. However, we said, "No problem. Going forward, if you would like to add a signature line and someone to physically sign the statement, we will do that." And we did that going forward.

So, again, I get to say that something relating to a statement --

THE COURT REPORTER: Im sorry, something relating --
A To say that something is incomplete is very broad and general, but I think the specificity of it, again, in my experience, this is nothing adversely material. This is nothing misleading. This is nothing with an intent to defraud. These are all observations that we discussed with the monitor when they were advising of us these points.

Q I move to the next paragraph, Mr. Hawthorn.
MR. ROBERT: If we could bring that up on the screen.
(Whereupon, the exhibit was displayed on the screen.)
A So this says, "In addition, annual audited financial statements for certain entities, prepared by an external accounting firm, list depreciation expenses. However, interim internally prepared financial statements provided to third parties for these same entities inconsistently report depreciation expenses."

Again, this arose from the same disclosure of financial information sent to a golf course maintenance lender, back in January and February, that even if we were to do it today, it may not even meet the materiality threshold. But nonetheless, those statements, if you are signing up to lease golf course maintenance equipment like mowers and blowers and things like
. Hawthom - by Defense - Redirect (Mr. Robert)
Page 5291
that, the leasing company wants to understand that you have available cash flow and available financial wherewithal when you submit your financial statements.

They don't require audited financial statements, which would be in accordance with GAAP and have noncash charges, such as depreciation expense. So we simply provide internally prepared management financial expense, revenue, expected net operating income. On those statements, what they observed, and what we agreed with, is that the depreciation line was blank and it was zero.

And our response was, at the time these were needed to be prepared, depreciation expense was not yet finalized. Depreciation expense for these entities is usually done on an annual basis at the end of the period, because these entities don't have audited financial statements. They only are needed for tax returns and other purposes for filing taxes, and therefore the accounting firm, Whitley Penn, Mazars, previously, would do that calculation on behalf of the company at the end of the year.

So our point was, yes, we agree with that statement, and, again, our response was, number one, it's okay, because it's an internal statement. It's not intended to be an audited statement.

And number two, the receiving party doesn't really care about depreciation because it's a noncash charge. It doesn't
impact a lender's analysis if you have cash flow to service a lease.

So we did have an internal conference call with the monitor in August, or probably in July of 2023 as they reviewed these points with us. They were, again, cordial, they were explaining to us. We explained our responses very clearly. Um, they did give us a draft of this before it went out. We did strongly disagree with their draft because of the way it was worded. It's very, you know, it's very vague and doesn't give materiality. So I think to someone reading it without the context might assume certain conclusions. But, again, with me providing some specificity over these things being not adversely material to the company, and our responses to them being, you know, what we believed to be accurate, I just wanted to clarify that point.

Q For this last paragraph we just read are you telling us that those third parties are literally the golf course maintenance contracts for the plow and the lawn mower?

A Correct.
Q Let's go to the next paragraph, Mr. Hawthorn.
(Whereupon, the exhibit was displayed on the screen.)
Q If you could read that, please.
A "The defendants maintain that its practices related to these items are adequate. However, in the interest of
M. Hawthorn - by Defense - Redirect (Mr. Robert)

Page 5293
cooperation and transparency, defendants have agreed to address, in future disclosures to lenders, the items I have identified, and otherwise adjust their practices based upon my observations. The Trump Organization will continue to inform the monitor regarding the form and substance of these disclosures."

Q And is this paragraph consistent with the conversations that you had with the monitor at or around the time of this letter?
A It is consistent. Again, these are observations that they identified to us. We provided our responses that we believed everything was adequate, correct, materially correct.
But also in good faith working with the monitor, we are happy to amend certain things to satisfy their observations. Even if lenders didn't ask us, we'll go ahead and do that.

Q Mr. Hawthorn, I'm going to draw your attention to the last paragraph and ask you to read the first sentence?
(Whereupon, the exhibit was displayed on the screen.)
A "Based upon the foregoing, and having carefully reviewed the information provided to me, it appears that the
defendants continue to cooperate with me and the requirements of the Court's orders."
Q Sir, at any time did the monitor accuse The Trump Organization of disseminating false and misleading information? A No.

MR. ROBERT: I have no further questions, your Honor. Thank you.

\section*{THE COURT: Any recross?}

MR. AMER: Just a few questions. Can I do it from here?

THE COURT: Sure.

\section*{RECROSS EXAMINATION}

\section*{BY MR. AMER:}

Q Mr. Hawthorn, am I correct that you had no role or responsibility with respect to golf courses that were just golf courses?

A Now I do, in some capacity, but not previously, because the golf courses are part of the chart of accounts conversion project, for example.

Q And prior to that point in time when you would have had some responsibility for just the golf courses, you wouldn't have had any involvement in the membership deposit - the refundable deposit membership liabilities?

A I would have with respect to the hotels that have that component. So, for example, Doral has that component.

Q My question was golf courses that are just golf courses.

A Oh, correct.
Q And all of the explanations that you've given on redirect were all things that you told to Judge Jones her staff;

Proceedings
Page 5295
correct?
A Yes.
Q And those were all things that you told Judge Jones and her staff before she finalized the letter that was then quoted by the Judge in his decision; correct?

A Yes.
MR. AMER: That's all I have, your Honor. THE COURT: Any re-redirect?
MR. ROBERT: Nothing further, your Honor, except I would renew our request, and we'll brief it for you, about our ability to call Judge Jones, because I think the Attorney General just reopened the door asking about the conversations and what she was aware of at the time the letter was written.

Apparently the Attorney General is not accepting the language in that letter to not be critical of The Trump Organization, notwithstanding the language at the end that says that "they cooperated with me and the requirements of this Court's orders." So clearly the government is of the view that somehow this letter says what it doesn't say.

So, therefore, we would renew our application to have Judge Jones testify to either explain what she meant by this, because right now there is clearly a disputed issue between us and the government as to what it means.

THE COURT: Do you want to call -- let them call

\section*{Judge Jones?}

MR. AMER: No. And we think your Honor is correct, that the case law does not permit it. I would also say that the point of sharing the portion of the decision that discusses Judge Jones's observations was to contrast that with what this witness characterized as the relationship between The Organization and Judge Jones and her staff, which I think is inconsistent -- we would submit is inconsistent with what the Judge's observations were in her August 3rd letter.

MR. ROBERT: We would respectfully disagree, because it was this Court that used the words "fraud" and "misleading information" accusing The Trump Organization of engaging in that. Those words appear nowhere in Judge Jones' report. They appear nowhere in the earlier reports submitted to Court. It was never a word or a concept that was ever a disseminated to this witness, or anyone else involved in the monitorship process, whether by Judge Jones, the accountants she retained, or anyone else.
Notwithstanding the hundreds of thousands of dollars that have been paid to the monitor and the accountant, which is evidence of their due diligence of combing through voluminous financial records, and there has been no evidence of any false or misleading information.

THE COURT: Well, go ahead.

MR. KISE: Your Honor, and again, we'll brief this, but just as an aside, in Bankruptcy Court, monitors are called examiners, they routinely testify. In SEC receivership proceedings, the examiner or the receiver routinely testifies, they're fiduciaries.

THE COURT: That's receiver, not monitor; right?
MR. KISE: But it's the same concept. It's the exact same concept. The fact that they are arms of the court and have fiduciary responsibilities does not in any shape, form or fashion preclude them from testifying.

Additionally, a monitor can't communicate through a report, because the report by itself is hearsay. The report, itself, is hearsay. You can't take a report and use that as truth of the matter asserted. The report, itself, is hearsay.

As you could see the challenges that arise from doing that, without the monitor here to testify, I mean, they obviously have a very different view of what that letter says than we do. They have opened the door by asking this witness direct questions. I mean, they were cute. They took your quoting of the letter, but it's the same principle. So they -- what the monitor thinks is clearly and squarely at issue with respect to equitable relief that this Court is considering.

If the monitor is going to come in here, which I'm
virtually certain she will, and say what it doesn't say in that letter; there is no fraud. There's no -- hasn't been any indicia of fraud. There hasn't been any ongoing indicia of inappropriate activity. We are talking about, as this witness just testified, minor accounting discrepancies, all of which occur in a major corporation all the time.

So we need the monitor here to be able to, at least present live testimony that can be considered, not hearsay, in the record, as to whether or not there needs to be some equitable relief to address things that we think do not exist. We think she will say they don't exist, but the government is clearly pounding the table saying, "No, no, no. This is a fraudulent enterprise. We have to shut it down and put them out of business." When you have a monitor that's been in place for now 14 or 15 months and hasn't uncovered any evidence of that, has a cooperative relationship with the company, and clearly has confidence that what the company is doing now is fine.

The idea that the government could even assert that somehow we need to put these people out of business and shut them down seems a nonstarter. It's almost as much as a nonstarter as the whole certification roundabout we went through, even when the guaranty is zero and there is no net worth requirement, somehow or other there is harm if there's a problem with the certification.

But, in any event, I don't see how monitor testimony is not squarely and highly relevant here. And there is nothing to preclude the monitor from testifying simply because she's got fiduciary obligations to the Court. She is an independent monitor, just like in a Bankruptcy Court, an independent examiner; just like in an SEC proceeding, they are all the same.

THE COURT: Well, Mr. Kise, I won't even ask you, I'll just suggest that every time you want to speak about a particular issue that maybe you don't have to argue the whole case.

MR. KISE: I feel like I have to, because we don't seem to be getting anywhere. We don't seem to be communicating at all. We have evidence that comes in after -- witness after witness after witness, there's no problem. There's no -- even today with the certifications, okay. So even assuming they are right, there is a problem with the certification, how does that go to equitable relief when this is no guaranty. It's zero.

The document that they put into evidence says that the guaranty was zero or 10 percent. Has there ever been any allegation that the net worth of Donald Trump was below \(\$ 250\) million? No. So all we are doing is having this sort of circuitous discussion about them jumping up and down saying, "There's fraud. There's fraud. There's fraud."
he should be in his little anteroom in the Judge's chambers, and I told Ms. Hernandez to watch the proceedings so she knows when to come in.

MR. WALLACE: Ms. Hernandez is a lawyer on the defendant's team, and if she's watching the case, that is different than a fact witness.

THE COURT: All right. So we are good on that.
MR. WALLACE: Thank you for the clarification.
THE COURT: Quick front bar.
(Whereupon, there is a discussion held off the record, at the bench, among the Court and all Counsel.)

THE COURT OFFICER: Is the court ready for the witness?

THE COURT: We're ready.
THE COURT OFFICER: Witness entering.
MS. HERNANDEZ: Good afternoon, your Honor.
THE COURT: Good afternoon.
(Whereupon, the witness stepped into the witness stand.)

THE COURT OFFICER: Please raise your right hand. (The witness complied.)
THE COURT OFFICER: Do you solemnly swear or affirm that any testimony you give will be the truth, the whole truth and nothing but the truth?

THE WITNESS: I do.

P. Bimey - by Defense - Direct (Ms. Hemandez)

Page 5303
PATRICK BIRNE Y, called by and on behalf of the Defendant, having been first duly sworn, was examined and testified as follows:

THE COURT OFFICER: Please have a seat. State your
full name and home or business address for the record.
THE WITNESS: Patrick Birney, 725 Fifth Avenue,
New York, New York 10022.
THE COURT: Okay. Please proceed.
MS. HERNANDEZ: Thank you, your Honor.

\section*{DIRECT EXAMINATION}

BY MS. HERNANDEZ:
Q Mr. Birney, what is your educational background after high school?

A I earned a degree in economics from the University of Michigan.

Q Where did you work after college?
A AON Risk Solutions.
Q What was your position at AON?
A Account specialist.
Q What were your responsibilities as an accountant specialist?

A I worked on an account management and sales team. Um, I had a lot of clients who I worked on their renewals for schedules of insurance, renewal exposures, auto ID cards, invoicing, et cetera.
\begin{tabular}{|r|l|l|}
\hline P. Birney - by Defense - Direct (Ms. Hemandez) Page 5304 \\
1 & Q & And where did you work after you left AON? \\
2 & A & The Trump Organization. \\
3 & Q & What was your title when you began at The Trump \\
4 & Organization? \\
5 & A & Senior financial analyst. \\
6 & Q & What were your responsibilities as a senior financial \\
7 & analyst? \\
8 & A & Um, I worked on the insurance renewals and the, um, \\
9 & golf course financials and operations. \\
10 & Q And what year did you start working at The Trump \\
11 & Organization? \\
12 & A & 2015. \\
13 & Q & So after senior financial analyst, what was the next \\
14 & position you held at The Trump Organization? \\
15 & A & Associate. \\
16 & Q & And what were your responsibilities as an associate? \\
17 & A & Similar responsibilities, worked on insurance and the \\
18 & golf course financials. I worked on other projects. I did a \\
19 & lot. & \\
20 & Q & And what position did you hold after associate? \\
21 & A & Assistant vice president of financial operations. \\
22 & Q & And what were your responsibilities as an assistant \\
23 & vice president? \\
24 & A & Similar, similar responsibilities; insurance, golf \\
25 & courses. I do a lot of things for the company.
\end{tabular}
P. Birney - by Defense - Direct (Ms. Hemandez)

Page 5305
1 Q And what position did you hold after assistant vice president?

A Vice president financial operations.
Q And what are your responsibilities as vice president?
5 A Same thing.
6 Q And when did you get that title?
7 A About a year ago.
8 Q Is that your current title at The Trump Organization?
9 A Yes.
10 Q When did you become involved in the preparation of
President Trump's Statement of Financial Condition?
A 2016.
Q Why did you become involved?
A Um, because Jeff McConney told me I'm going to work on something.

Q And what years were you involved in working on the Statements of Financial Condition?

A 2016 through 2021.
Q And in the first year that you were working on it in 2016, what did Jeff McConney explain to you about the process to prepare the Statements of Financial Condition?

A I think he told me that I was going to work on something, um, and he e-mailed me the supporting data spreadsheet for the Statement of Financial Condition. Um, I don't know how much detail he gave in the initial briefing, um,
P. Bimey - by Defense - Direct (Ms. Hernandez)

Page 5306
but I went to him for any question that I had at that point.
Q So throughout the preparation of the 2016 statement,
what was the interface between you and Mr. McConney as you got used to this new role?

A I worked with Jeff a lot in 2016. Any question that I had, anything I had to gather, I went to him.

Q And what was your role in preparing these Statements of Financial Condition?

A I gathered information and inputted it into multiple spreadsheets.
Q What spreadsheets were those?
A The, um, supporting data spreadsheet. Um, there was a loan spreadsheet, um, escrow spreadsheet, a cash spreadsheet. I think there was a fifth spreadsheet, um, and then any of the
backup information that -- that was used for those spreadsheets.
Q Okay.
And you mentioned the support data spreadsheet, what was your intention in maintaining and updating that support data spreadsheet?

A Can you repeat the question, please.
Q Sure. What was your intention when you were maintaining and updating the support data spreadsheet for the Statement of Financial Condition?

A So every new year, um, I would just copy and paste the spreadsheet from the year before so that it would have one year

Page 5307
was the previous year and one year was the current year. And then I would update those numbers and that information for the current year.

Q And who did you intend to look at the supporting data spreadsheet?

A Anybody who worked on the spreadsheet. Um, Jeff
McConney, Allen Weisselberg, ultimately, the accounting firm.
Q And what did you expect them to learn by looking through the spreadsheet?

A How assets were valued.
Q And did you intend to be accurate when maintaining and updating the spreadsheet?

A Yes.
(Continued on the next page.)

Page 5309

\section*{would be sent to Mazars.}

Mazars would call with questions, reach out to us with questions. There was back and forth in that final month, generally.

Q Thank you. And who at Mazars would you normally speak to about the statement?

A Donald Bender and Jenn Safron.
Q So you mentioned follow-up questions Mazars would ask. Did they ever ask you about appraisals that were not utilized in the Statement of Financial Condition?

A Not that I can recall.
Q And did they ever ask you to change the methodology that a property was valued by?

A Not that I can recall.
MS. HERNANDEZ: Okay. So \(I\) am going to pull up what has already been admitted into evidence as PX758.
Q Do you recognize this document, Mr. Birney?
A Yes.
Q What is it?
A It is a version of the Statement of Financial Condition supporting data spreadsheet for 2017.

Q And does this appear to be the final version for 2017?

A I don't know that.
Q Do you see in column E? What would those numbers
indicate there?
A I believe those numbers are from Mazars.
Q So would this appear to be the spreadsheet that Mazars checked for 2017?

MR. HAREN: Objection as to "checked."
THE COURT: I am sorry.
MR. HAREN: Objection as to the word "checked."
THE COURT: Do you have a different word?
MR. HAREN: I think she is trying to establish whether this was or was not the final version and whether the numbers on the spreadsheet indicate that Mazars processed -- processed it in some way.

But whether Mazars did some kind of process that resulted in those numbers is not the same as Mazars checking the numbers, so.

MS. HERNANDEZ: I am happy to change it to processed.
Q Does this appear to be the spreadsheet that Mazars processed?

A It appears to be a spreadsheet that -- a spreadsheet that Mazars processed.

Q Okay. And so I am going to take you to row 30 of the spreadsheet.

Can you tell me a little bit about Trump Tower?
A As it relates to the spreadsheet?

Birney - by Defendant - Direct (Hemandez)
Page 5311
Q Sure. Just in general, a little bit about the property.

A Sure. Trump Tower is a commercial and residential real estate asset. It is a condominium for residential, and then it also has office space and retail space.

Q And how was Trump Tower valued in 2017?
THE WITNESS: Can you scroll down slightly, please?
(The image on the screen was scrolled)
A It was valued by dividing net operating income into a cap rate.

Q And how would you have gathered the information used to value Trump Tower in \(2017 ?\)

THE WITNESS: Can you scroll up just slightly, please?
(The document on the screen was scrolled.)
A I would have asked Jeff McConney for the
December 2016 financial statement for Trump Tower. And then I probably would have asked Jeff for everything else that is here, unless it was already in the backup from the previous year's SOFC backup.

Q Would you look at the previous year's SOFC in compiling a new year's information?

MR. WALLACE: Objection to the aspect of
"would," as opposed to whether the witness did something.

THE COURT OFFICER: All rise. Part 37 is now in session. The Honorable Judge Arthur Engoron presiding. Make sure all cell phones are on silent. Laptops and cell phones will be permitted, but only to members of the press. There's absolutely no recording or photography of any kind allowed in the courtroom. Now be seated and come to order. \\
THE COURT: Good moming everyone. So, defendants, I understand that you have a new witness and that Mr. Birney will be back to finish at a later time. Okay. \\
Would you like to call your new witness? \\
MR. SUAREZ: Good morning, your Honor. The defense calls Dave Williams of Deutsche Bank. And also in the courtroom today I would like to point out to the Court that Deutsche Bank's Counsel, David Zensky, is also here. \\
THE COURT: Okay. Thank you. Let's get the next witness. \\
THE COURT OFFICER: Witness entering. \\
(Whereupon, the witness stepped into the witness stand.) \\
THE COURT OFFICER: Raise your right hand. \\
(The witness complied.) \\
THE COURT OFFICER: Do you solemnly swear or affimm that any testimony you give will be the truth, the whole truth and nothing but the truth? \\
THE WITNESS: I do.

D. Williams - by Defense - Direct (Mr. Suarez) \\
1 DAVID COSBY WILLIAMS, called by and on behalf of the Defendant, having been first duly sworn, was examined and testified as follows: \\
THE COURT OFFICER: Please have a seat. Please state your full name and home or business address for the record. \\
THE WITNESS: David Cosby Williams, 890 Hammocks Way, Edisto Island, South Carolina. \\
DIRECT EXAMINATION \\
BY MR. SUAREZ: \\
Q Mr. Williams, good morning. \\
A Good morning. \\
Q I'm JESUS Suarez. I represent certain of the defendants in this case. \\
Briefly, Mr. Williams, what is your educational background? \\
A I have an undergraduate degree in political science and \\
a master's of business administration. \\
THE COURT: Did you take public speaking at all? \\
You have to speak much louder right into the mic. As close as possible. \\
THE WITNESS: I got you. \\
Q Are you employed at Deutsche Bank? \\
A Yes. \\
Q How long have you been employed at Deutsche Bank?
\end{tabular} \\
\hline
\end{tabular}

2 Q In what capacities have you been employed at Deutsche Bank?

A As a senior lender and team leader.
Q Do you currently work in the Private Wealth Management Group at Deutsche Bank?

A Yes, Wealth Management.
Q How long have you worked in that division?
A Seventeen years.
Q And what have your titles been since you joined that division?
A Senior lender and team leader, also a managing director.

Q What is the role of a senior lender in the Private Wealth Management Division?
A So, we underwrite structured loans, credit requests for high net worth individuals.

Q Can you describe the underwriting process for high net worth individuals, in general terms.

A Sure. Um, typically I would consider myself to be a product specialist, my product being credit. Um, generally speaking, um, credit specialist or profit specialist is called in when a credit opportunity is identified.

Um, we speak with client or clients representatives in their office about the credit requests. We gather information,

A For structured lending products, it's generally anyone that, um, has a net worth in excess of a hundred million and investable assets of at least 10 million.

Q Were you involved in loans made by Deutsche Bank to entities sponsored by President Donald J. Trump?
A Yes, I was involved.
Q What was your involvement in those loan transactions?
A So I did not get involved until, I believe, 2014, um,
as a reviewer and supporter of what ended up being the last loan that we made to Mr. Trump.
Q Was Mr. Trump qualified by the bank -- there are a lot of folks named Trump in this case. I'll refer to him as President Trump just as an honorary.

Was President Trump qualified as an ultrahigh net worth individual by the Private Wealth Management Division by Deutsche Bank?
A Yes.
Q How is net worth typically calculated by the Wealth Management Division at Deutsche Bank to determine whether someone is an ultrahigh net worth individual?
A Um, to determine that, typically it's on the basis of the, um, financial information that the client provides.

Q And what is the significance from a lender's perspective of a hundred million dollar net worth?

A Um, I would say that would demonstrate that they have
D. Williams - by Defense - Direct (Mr. Suarez)

Page 5325
um, we prepare our due diligence, um, we underwrite the loan, submit for internal credit approval, work with typically outside legal counsel to document the loan, and then we coordinate with client's counsel to close the loan, fund the loan, and then we monitor the loan for -- during its lifetime, so to speak.

Q What is a high net worth individual from the
perspective of Deutsche Bank's Wealth Management Division?
A Generally, I would say that anyone that has a net worth in excess of 25 or \(\$ 50\) million.
Q Are you familiar with the term "ultrahigh net worth"? A Yes.
Q What is an ultrahigh net worth individual from the perspective of Deutsche Bank's Wealth Management Division?

A Generally, someone that has a net worth in excess of 100 million.
Q How does someone become a client of the Wealth Management Division of Deutsche Bank?

A Sometimes the client could be referred to the bank, um, by, um, an attorney or accountant or other professional. Often times a client, um, is sourced by what we refer to as a relationship manager or a banker within Deutsche Bank who, um, makes introduction, and then, um, provided that the client meets our, um, target market profile, um, that individual is then, um, put through our KYC process.
Q What is a "target market profile"?

Williams - by Defense - Direct (Mr. Suarez)
Page 5327
the financial wherewithal to provide financial support to a credit transaction.

Q In underwriting a loan, is it possible for the bank to calculate an individual's net worth to mathematical certainty?

MR. WALLACE: Objection. Leading.
THE COURT: Okay. I think the question is sort of harmless, but --

MR. SUAREZ: Your Honor, I understand that I'm allowed to ask, with your Honor's permission, certain leading questions just to get the frame of reference going. I'm not suggesting an answer, and he's free to elaborate. It's not a yes or no question.

THE COURT: I think they are called preliminary questions that are leading, but accessible or introductory questions. I didn't think this was one of those. And I think this is all about nothing, but can you rephrase it somehow so that it's more of a general ask than, "isn't this the case?"
Q What, if anything, does the underwriting process endeavor to do to calculate an individual's assets to a mathematical certainty?
A Um, I don't believe that's possible.
Q Why not?
A I think an individual's net worth is, as it's reported, is largely subjective or is subject to the use of estimates.
D. Williams - by Defense - Direct (Mr. Suarez) Page 5328

1 Q What, if anything, do you do as a lender to make sure that the bank's view of asset values is appropriate in light of a client's self-reported asset values?

A So as part of our due diligence and underwriting process, we subject clients' reported information through or to some adjustments to account for that.

Q How does the bank view adjustments that it makes to a client's stated asset values in the underwriting process?

A I'm sorry, can you repeat that.
Q Sure. How does the bank react to differences in the adjusted values of -- reached by the bank as opposed to those reported by the client?

A Again, it's part of our underwriting process. Um, it's a process that we apply to every client, um, regardless of what's reported.

Q Is a difference of opinion in asset values between the client and the bank a disqualifying factor to extend credit?

A No.
Q Why not?
A I think, again, it's -- it's a difference of opinion.
Um, I think we expect, um, a clients provided information to be, um, accurate. At the same time, um, it's not an industry standard that these financial statements are audited. Um, they are largely relying on the use of estimates. Um, that said, we account for that and make some adjustments as a conservative

\section*{D. Williams - by Defense - Direct (Mr. Suarez)}

Page 5329

\section*{measure.}

Q What does it mean to "make adjustments as a conservative measure"?
A Well, again, I would say it's a factor of, um, the type of financial information that is, um, typically provided by, um, high net worth and ultrahigh net worth individuals. Um, again, we -- you go into it with the expectation or understanding that, um, there is a use of estimates, um, in the preparation of the financial statements.

MR. SUAREZ: Could we please pull up pre-marked Exhibit D-66 for identification.
(Whereupon, the exhibit was displayed on the screen.)
Q Mr. Williams, do you recognize this document?
MR. SUAREZ: We'll give you a hard copy right now. (The witness was handed the exhibit.)
A Yes.
Q What is this document?
A Credit Risk Management Credit Guidelines for Private
Wealth Management Americas, dated June of 2012.
MR. SUAREZ: If you could please turn to page 17 of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Which is page 17 of the exhibit, page 16 of the actual
document.
A Okay.
Q And if I could direct your attention to the section that says "2.9 Commercial Real Estate." Are you familiar with this section?

A Yes.
Q Do you see where it says, "The commercial real estate lending team within PWM are considered commercial properties as collateral for borrowers short-term bridge financing needs, as well as longer term financing for up to ten years."

A Yes.
Q And then, "In both cases, loans will have recourse to one or more guarantors."

A Yes.
Q And then it goes onto list a client's eligibility criteria. And then it says, "Typical borrowers will have a net worth of over \(\$ 50\) million."

A Yes, I see that.
Q Did President Trump meet this criteria in connection with the loans obtained from Deutsche Bank?
A Yes.
Q And then it says, "Borrowers must have a proven successful track records" -- excuse me. "Borrowers must have proven successful track records in the US commercial real estate markets." Do you see that?

A Yes.
Q Did President Trump satisfy that criterion in connection with the loans obtained from Deutsche Bank? MR. WALLACE: Objection. Leading. THE COURT: I feel like I have to sustain that. It's leading.
Q What, if any, view did Deutsche Bank have as to whether President Trump satisfied that criteria?

A He met this criteria.
Q Going on, there is a section that says "PWM commercial real estate lending may offer: Interim loan facilities for up to five years for the purpose of acquisition or repositioning a particular property." Do you see that?

A Yes.
Q Were the loans offered by the Wealth Management Division and guaranteed by President Trump consistent with that criteria?

A Yes.
Q Then it goes onto say "Long term loan facilities for stabilized properties of up to eight years designed to give borrowers some flexibility when compared to traditional conduit financing."

What does it mean "to give borrowers some flexibility when compared to traditional conduit financing"?
A So "conduit financing" is nonrecourse financing. By
\begin{tabular}{|c|c|}
\hline D. Williams - by Defense - Direct (Mr. Suarez) Page 5332 & D. Williams - by Defense - Direct (Mr. Suarez) Page 5334 \\

\hline
\end{tabular}

A Yes.
Q What is a payment default?
(Whereupon, the exhibit displayed on the screen was taken down.)
A It's when a client or a borrower fails to make a timely payment on a loan.

Q Are you familiar with a covenant default?
A Yes.
Q What is a covenant default?
A When a borrower or client fails to adhere to
requirements of a particular financial or reporting covenant.
Q What, if anything -- withdrawn.
How, if at all, does the bank react differently to a payment of default as opposed to a covenant default?
A Generally speaking, a payment default is a more material default than a covenant default.
Q Why is that?
A It speaks definitively to the repayment of the loan. (Continued on the next page.)

Q Is the repayment of a loan the bank's primary consideration when underwriting the loan?

MR. WALLACE: Objection, leading.
THE COURT: Sustained.
Q Why is the bank concerned with a repayment on its loans?

A When we make a loan I would say that's a key or perhaps the primary consideration, is how we are anticipating or expecting to be repaid in full.

Q And how does that affect the bank's reaction to a payment default as opposed to a covenant default; if at all?

A A covenant default would occur if the client or borrower failed to adhere to a particular covenant. Covenants are generally set at the loan's origination as guardrails; an opportunity to come back to the table, so to speak, with the client in the event a covenant default is triggered.

A payment default alternatively speaks, again, definitively to client's ability to repay the loan.

Q Can you describe what you mean by a guardrail that permits the bank to come back to the table?

A I can provide an example.
Q Sure.
A We may require a guarantor to maintain a minimum level of stated net worth. If throughout the life of the loan the guarantor fails to adhere to that minimal requirement, it
gives us an opportunity to discuss that with the client, better understand what may have triggered that default, and then determine a course of action going forward.

Q What, if any, payment default on a credit facility guaranteed by President Trump are you familiar with?

A I am not aware of any payment defaults.
Q What, if any, covenant default are you aware of with respect to a credit facility guaranteed by President Trump?

A I am not aware of any covenant defaults.
MR. SUAREZ: Let's please pull up Plaintiff's
Exhibit 293, previously in evidence.
(Handing)
MR. SUAREZ: Can you please turn to page five of this document? Which is page five of the exhibit, page four of the document. And focus on the section in the bottom of the page labeled "liquidity."
Q Do you see where it says on December 20, 2011, a structured lending team of Dave Williams and Emily Schroder visited the offices of the guarantor and reviewed bank and brokerage statements that confirmed 178 million in cash balances and 51.8 million marketable securities; totaling 229 million held in the name of the guarantor. In addition, they also reviewed statements for operating companies that were wholly owned by the guarantor, which evidenced another 29 million cash and marketable securities?

Williams - by Defendant - Direct ( Suarez)

A Yes.
Q What role, if any, did you have in connection with
loans guaranteed by President Trump in 2011?
A So I was not otherwise involved, but I was here in
Manhattan on that date. Our manager at the time, Tom Sullivan, was otherwise unavailable, so he asked me to accompany Ms. Schroder on that visit to the client's offices.

Q And did -- did you, in fact, visit the offices of President Trump on that day?

A Yes.
Q How long did you spend at the office?
A I would say 90 minutes.
Q Who did you meet with at the office?
A The one person I recall was Allen Weisselberg.
Q What documents did you review?
A The bank and brokerage statements referenced in the exhibit, as well as Mr. Trump's personal tax returns.

Q Why did you endeavor to verify the bank and brokerage accounts containing cash?

A So that goes back to the credit policy that we previously discussed with respect to verification of any material facts. Client had reported certain amount of liquidity on his financial statements, and this was simply part of the process of verifying the amounts of those accounts.

MR. SUAREZ: If we could turn to the next page.

Q What importance, if any, did the underwriting of the guarantor place on a 50 percent discount in his stated liquidity?

MR. WALLACE: Objection, both on foundation and he said he wasn't involved in the underwriting, and clarity.

THE COURT: I don't see the relevance here, but go ahead, Mr. Suarez.

MR. SUAREZ: He said he was involved in the visit to confirm the cash. And that he is an underwriter familiar with Deutsche Bank's Private Wealth Management Group, now the Wealth Management Division's underwriting guidelines.

THE COURT: I'll overruled myself. I understand. All right. Let's just get an answer.

Do you need a readback?
THE WITNESS: Please.
THE COURT: Read it back, please.
(Whereupon, the record was read back by the court reporter.)

THE COURT: The question was, "did the underwriter," right?

MR. SUAREZ: Correct.
THE COURT: He wasn't the underwriter, correct?
MR. SUAREZ: It is the underwriting of the
guaranty by the underwriter. I'll try to rephrase it.
Q What, if any, importance was placed by the underwriter on the fact that the guarantor's stated liquidity was adjusted by 50 percent?

MR. WALLACE: I am going to object again. He is being asked -- it is just not clear to me if he is being asked what another person who was the underwriter placed on the importance of the question. It is just unclear to me what the witness is being asked.

THE COURT: Let's try to get to the heart of the matter.

Were you the underwriter on this loan?
THE WITNESS: No, sir.
THE COURT: Would you know what the underwriter thought about this adjustment?

THE WITNESS: Not necessarily.
THE COURT: Objection sustained.
Q In your experience as an underwriter with the Wealth Management Division, what, if any, reaction would you have to a guarantor's stated liquidity being reduced by 50 percent?

A So, I think it is atypical, but not entirely unusual, just depends on the circumstances.

Q What, if anything, does the adjustment of the stated liquidity, in your experience as an underwriter at Deutsche Bank -- withdrawn.
\begin{tabular}{|c|c|}

\end{tabular}

Williams - by Defendant - Direct ( Suarez)
Page 5345

\footnotetext{
A Ultimately it was Trump Endeavor.
Q That's Trump Endeavor 12 LLC?
A Yes.
Q Is that a loan that the Wealth Management division made to that entity for the purposes of acquiring a golf course in Doral?

A Yes.
Q May we refer to that as the Doral loan?
A Fine by me.
Q Okay.
MR. SUAREZ: If we turn to Plaintiffs Exhibit 290.

Q Do you see there it says: Borrower, Trump Endeavor 12 LLC?

A Yes.
MR. SUAREZ: And then if we scroll down.
Q Do you see where it says: The collateral property consists of a 622-acre golf course and spa that includes four tournament class golf courses; and goes on to list additional characteristics of the golf course?

A Yes.
Q And the resort?
A Yes.
Q Is that consistent with your understanding of the Trump Doral loan?
}

1 A Yes

Q Are you familiar with the concept of a step-down?
A Yes.
Q What is a step-down?
A I believe in the context you are referring to, it pertains to a step-down of a personal guaranty.

MR. SUAREZ: Can we please turn to Plaintiff's
Exhibit 291?
(Handing)
Q Mr. Williams, are you familiar with a borrower 401 North Wabash Venture LLC?

A Yes.
Q How are you familiar with that borrower?
A It was one of three loans that we ultimately extended to Mr. Trump.

Q If I refer to this loan as the Trump Chicago loan or the Chicago loan, will you understand what I am referring to?

A Yes.
Q Was there a step-down in the Trump Chicago loan?
A I believe so, yes.
Q Was there a step-down in the Doral loan? MR. WALLACE: Objection, leading.
THE COURT: Sustained. It does suggest the
answer and it is a yes or no question.
Q What, if anything, are you aware of concerning the

Page 5347
existence of a step-down in the Trump Doral loan?
A I believe that loan had a step-down provision as well.

Q Are step-down provisions consistent with the Wealth Management Group's approved business strategies?

MR. WALLACE: Objection, leading.
Q How, if at all, are step-down's consistent with Deutsche Bank's Wealth Management Group's approved business strategies?

A They are considered from time to time.
Q On what basis are step-down provisions approved by the Wealth Management Group?

A Typically it depends on the strength of the collateral, specifically the loan-to-value. If the loan-to-value is lower we might be inclined to consider a step-down or perhaps no personal guaranty.

Q Why is that?
A If the loan-to-value against the collateral is lower, then arguably there is less reliance on the personal guaranty.

Q And what, if anything, does the loan-to-value of the collateral affect the bank's consideration on whether to agree to a step-down on the guaranty?

A Can you rephrase the question?
Q How, if at all, is the bank's decision to agree to a step-down impacted by the quality of the collateral?

A So, again, the lower the loan-to-value, the more inclined we might be willing to consider a partial guaranty or perhaps no guaranty.

Q Why is that the case?
A Again, because there is arguably less reliance on the personal guaranty, more on the collateral. Is the collateral sufficiently strong enough to support the loan perhaps, without the addition of the personal guaranty.

Q And how, if at all, does the likelihood of repayment affect the bank's decision to agree to a step-down on a guaranty?

A That can also be a factor, as determined by, typically, debt service coverage of a particular property type or collateral.

Q And how, if at all, is that consistent with the Wealth Management Group's approved business strategies?

A It is consistent.
MR. SUAREZ: We can bring up PX-290, which is
already in evidence. And turn to page four of 20. And
zoom in on the section that says "guaranty."
Q Do you see where it says: Donald Trump shall continue to personally guarantee a percentage of principal, interest and operating shortfalls. However, the percentage of such guaranty shall be maintained in accordance with the defined LTV range as indicated in the table below?

Page 5349
Williams - by Defendant - Direct ( Suarez)

A I see that.
Q Is that consistent with your understanding of a step-down?

A Yes check
Q It says: Any reduction in such guaranty levels will be considered permanent, unless the guarantor elects to increase the guaranty level for purposes of curing any shortfalls in accordance with the max LTV requirement. Do you see that?
A Yes.
Q Is that consistent with your understanding of a step-down?

A Yes.
Q From a lending perspective, why, if at all, are step-downs an appropriate business term?

A So I think previously we discussed flexibility of wealth management lending relative to conduit financing, which requires no personal guaranty. So I would consider this as sort of a hybrid between conduit financing, which requires no personal guaranty, and wealth management lending, which generally requires a personal guaranty.

Q How does a reduction in the guaranty level affect, if at all, the minimum net worth covenant on the Doral loan?

A It doesn't affect it.
MR. SUAREZ: Can we please turn to page five of

20? We can zoom in here on required net worth.
Q It says: Guarantor shall maintain a net worth of not less than the product of \(\mathrm{X}, \$ 2.5\) billion, times Y , the applicable guaranty level.

Are you familiar with the Trump Chicago loan had a different provision here on the required net worth?

A Yes, now that you are showing that to me, I am reminded of that.

Q And that's, to be clear, that's the Trump Chicago loan term?

MR. SUAREZ: No. I am sorry. Let me rephrase that.
Q Do you see on the left it says: At all times during the term of the loan --

MR. SUAREZ: And it might be helpful if we scroll up to the top of page two where it says "facility details." Page two of the exhibit.
Q And this was a reference to the Trump Doral, correct?
A Yes. At this time or this memo pertains to the Trump Doral facility, which, I believe at this time was the only credit facility we had in place.

Q And the terms were revised, correct?
A Yes, that appears to be the case.
Q Okay.
MR. WALLACE: I would like to note a foundation
objection, since I believe this document dates prior to the time that the witness said he was working on the loans for the Trump Organization, which is 2014.

THE COURT: Couldn't he know if they were revised later?

MR. WALLACE: I am not suggesting that he might not. I am asking if there is a foundation to establish his familiarity with the information contained in the document.

THE COURT: Okay. Let's get a foundation.
Q Have you become familiar with the terms of the Trump Doral loan?

A Yes.
Q How have you become familiar with the terms of the Trump Doral loan?

A So, once I got involved in the day-to-day of this relationship in, again as I recall, it was in 2014, it was my responsibility to become familiar with the terms of the entire relationship and the history.

MR. SUAREZ: And on that basis I would ask about changes to the loan part of his involvement?

THE COURT: Well, I guess there might be one more foundation question.

Are you familiar with the history of the loan?
MR. SUAREZ: I believe he just said he was.

Q Is the change in the required net worth covenant consistent with Deutsche Bank's approved business strategies? MR. WALLACE: Objection. Leading. THE COURT: Sustained.
Q What, if anything, is consistent with the change in the required net worth covenant with Deutsche Bank's approved business strategies?

A I go back to my earlier answer when I said net worth is typically not a consideration for a step-down. Um, it appears that at some point, the date of this memo, um, it was determined that that was an appropriate change to make.

MR. SUAREZ: If we could pull up Plaintiff's Exhibit 2960.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: Previously admitted into evidence.
Q If you could take a look at page four of this document, the signature sections. Do you identify the signature above where it says "Dave Williams"?
A Ido.
Q Is that your signature?
A Yes.
Q Are you familiar with this document?
A Yes.
Q And what, if anything, does it mean that this document
bears your signature?
A So in Wealth Management lending, we sign in support of any given or particular transaction.

MR. SUAREZ: If we could turn to page three of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q At the top it says "Guaranty type." Do you see there where it says "Based on the updated appraised of 366 million, the current LTV is 34 percent, which would drop Donald Trump's personal guarantee in full (this was documented at the loan's origination). However, Trump has requested to maintain a ten percent guarantee on the combined loan amount of both tranches resulting in the facility being priced at L plus 1.75 percent. Retaining a ten percent guaranty level clearly strengthens the credit."
A I see that, yes.
Q What does that mean?
A So based on an appraisal updated appraisal of the collateral property received at this time, the LTV was 34 percent, which brought it below the maximum LTV of 35 percent that would have -- above which would have required his guarantee, personal guaranty. There was some optionality to that, um, wherein if he decided to retain or offer to continue to maintain his personal guaranty, pricing would have been

Page 5355
reduced by, I think it was about ten basis points, .10 percent.
Q And what, if anything, does the report show about how the bank's proved exposure on this loan accorded with the banks approved business strategy?

A I'm not sure that it does.
Q Is anything in this report inconsistent with -- let me rephrase that.

What, if anything, is inconsistent with the bank making its own analysis with respect to an approved business strategy of the bank?
A I mean, when I think of a business strategy, I'm not necessarily thinking about, um, the guaranteed level on a loan. I'm thinking more about the individual's broader relationship with the bank.

Q And what does it mean that the guarantor is requesting to maintain ten percent of the guarantee level?

A So, again, as I recall, it was some optionality to the personal guaranty where if we retain some percentage of guarantee, the pricing -- the credit facility was reduced somewhat.

MR. SUAREZ: If we could turn to page two of this report, the section where it says "interest rate."
(Whereupon, the exhibit was displayed on the screen.)
Q Does this section, which says, "L plus 1.75 percent or
\begin{tabular}{|c|c|}

\hline 20 (Whereupon, the exhibit was displayed on the & 20 had made at this point -- by this point on the Doral loan, the \\
\hline 21 screen.) & 21 Trump Endeavor loan. \\
\hline 22 MR. SUAREZ: Actually, let's start at page fiver & 22 Q And how, if at all, would providing a step-down on the \\
\hline 23 (Whereupon, the exhibit was displayed on the & 23 guaranty be consistent with the bank's approved business \\
\hline 24 screen.) & 24 strategy? \\
\hline 25 Q Do you see at the top where it says Loan B, 401 North & 25 A So, again, it's consistent in certain cases. \\
\hline
\end{tabular}
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize your signature on this page?
A Yes.
Q What does your signature on this page mean?
A That I signed in support of this particular credit memo.

MR. SUAREZ: Your Honor, I'm at a good place in my outline to take our break.

THE COURT: Okay. We'll tack on another two minutes and see you all at 11:35.
(Whereupon, a 15-minute break was agreed upon and taken by all parties.)

THE COURT OFFICER: All rise. Part 37 is back in session. Please be seated and come to order.

THE COURT: Okay. Do we have our witness?
THE COURT OFFICER: Witness entering.
(Whereupon, the witness stepped into the witness stand.)

THE COURT: At the start of the break I forgot to admonish the witness not to talk to anybody about his testimony, or this case, or anything related. I trust and assume he didn't, so let's just proceed with the direct examination.
Q Mr. Williams, if we could please go back to Plaintiff's

\section*{D. Williams - by Defense - Direct (Mr. Suarez) \\ Page 5361}
broader non-credit relationship with a client.
Q Was the guaranty on the Chicago loan ever terminated? A Yes.

MR. SUAREZ: Can we take a look at Plaintiff's Exhibit 298.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: At page four.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see the section that where it says "Guaranty"?
A Yes.
Q See where it says "Guaranty NA, Donald Trump's personal guaranty has been eliminated due to the fact that the facility LTV is below the 35 percent threshold." Then it says, "based on the latest appraisal completed, the hotel collateral was valued at 133 million, which results in a 34 percent LTV?

A Yes.
Q How, if at all, was the termination of the guarantee on the Chicago loan consistent with the bank's approved business strategy?
A It was consistent with the strategy that was originally set out when the loans were originated.

MR. SUAREZ: If we turn to page seven of this document.

Williams - by Defense - Direct (Mr. Suarez)
Page 5363

\section*{Exhibit 294.}
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: If we could turn to the second page.
(Whereupon, the exhibit was displayed on the screen.)
Q "Assets under management." Do you see where the credit report states that "Donald J. Trump had 40.4 million in cash deposits"?

A Yes.
Q How, if at all, does that accord with the bank's approved business strategy?

A It's consistent in that, again, when we were making a loan, we looked to establish a broader non-credit relationship with the client.

MR. SUAREZ: If we could turn to page seven of the loan.
(Whereupon, the exhibit was displayed on the screen.)
Q What is the effect, if any, of the termination of the Doral guaranty on the minimum liquidity covenant?

A This appears to be in the document referring to the Chicago loan on page five.

Q I'm sorry. That's correct.
MR. SUAREZ: If we could go back to page four.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see where it says, "The DSC covenant shall be increased to correspond with the defined step-downs in the guaranty levels as indicated in the chart below." What does that mean?
A So it looks like we were just adjusting this covenant so that it was consistent with, um -- it was just adjusted to correspond with adjusted guaranty levels.
Q What is the effect of the termination of the guaranty level on the DSC covenant?
A Can you repeat the question.
Q Sure. What, if any, effect on the DSC covenant results from the termination of the guaranty on the Doral loan?
A So it looks like anytime the debt service coverage was in excess of 1.25 times, the guaranty level reduced to zero, if that's what you are asking.
Q Yes.
MR. SUAREZ: If you could turn to page ten.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: To the section that says
"recommendation."
(Whereupon, the exhibit was displayed on the
screen.)

Q Do you see where it says, "Approval of (i) the annual review for Facility A (Doral), (ii), the modification increase to Facility B (Trump Chicago Hotel)", and then it says (ii) again, "the origination of Facility C (Trump Old Post Office) are being recommended based on"?
A Yes, I see that.
Q And then it says, "financial strength of the guarantor.
The financial profile of the guarantor includes, on an adjusted
basis, a net worth of 2.6 billion with 154.5 million in unencumbered liquidity."
A Yes, I see that.
Q What does "on an adjusted basis" mean?
A That refers to our credit underwriting and due diligence process in which we make adjustments to client's financial statements and stated net worth.
Q How, if anything, does the adjusted basis -- withdrawn.
How, if at all, does the adjusted basis reflect the bank's own analysis of the guarantor's financial strength?
A Um, it reflects our analysis.
Q And then in operating experience it says, "DJT's extensive experience in operating private golf country clubs. His current portfolio includes 13 such clubs, with a reported value of 1.66 billion, and DB adjusted value of 680.6 million"?

A Yes.
Q What does "DB adjusted value" mean?

A So that's the value that's reflective of any adjustments that we might have made to the value of those certain assets.
Q And how, if at all, was a difference of almost \(\$ 1\) billion between the reported value and the DB adjusted value, impact the underwriting?
A So it's part of the underwriting process, as I mentioned earlier. It's a conservative measure to make these adjustments. You might even say it's a stress test to ensure that even after these adjustments, the guarantor exhibits a certain level of financial strength that can support the loan.
Q And how, if at all, did you react to the reduction by almost \(\$ 1\) billion of the reported value of the guarantor's club portfolio from the DB adjusted value of 680 million?
A I don't recall having any particular reaction. I would say that was not an unusual adjustment.
Q Then it says, "DB relationship." It says, "DJT continues to develop his relationship with DB as Facility B will be the fourth credit facility we have originated with him or his family (three with DJT, one with DJT, Jr.) DJT has transferred 40 million in liquidity to DB , and has indicated he is interested in continued -- to grow his noncredit relationship with the firm." Do you see that?

A I see that, yes.
Q What does "noncredit relationship with the firm" mean?

Williams - by Defense - Direct (Mr. Suarez)
Page 5367
A By its definition, it's anything that is not credit related. So in this case it's referring to deposits or other liquid assets that are held at Deutsche Bank.

MR. WALLACE: I apologize, your Honor. When that got read into the record, it was read Facility B instead of Facility C.

MR. SUAREZ: I think I said "Facility C." If I misspoke. I apologize.

MR. WALLACE: I just wanted to correct it.
THE COURT: It's corrected for the record.
Q How is Facility \(C\) a continued development of the relationship with Deutsche Bank?

A So, as it stated. It happened to be the fourth credit facility we were originating with Mr. Trump, or his family.

Q How, if at all, does the fact that Facility \(C\) was the fourth credit facility originated with President Trump or his family support the recommendations contained in this credit report?

A I think it was indicative of the growing or expansive nature of the overall relationship and our comfort with it.

Q Then going down to Facility A, it says, "Equity injection of the guarantor: While the initial equity injection of the guarantor was estimated at 50 million, we have been told that the estimate has been increased to anywhere from 150 million to 160 million, with approximately \(\mathbf{3 0}\) million already
\begin{tabular}{|c|c|}
\hline Page 5368 & Williams - by Defendant - Direct ( Suarez) Page 5370 \\
\hline 1 invested." & 1 this screen? \\
\hline 2 A I see that, yes. & 2 MR. SUAREZ: Sure. If you notice there is page \\
\hline \(3 \quad Q\) How did that support the recommendation with respect to & 3 ten which has the recommendations and then -- \\
\hline 4 Facility A, if at all? & 4 THE COURT: I think he means the screen right in \\
\hline 5 A So as noted, this was an annual review of Facility A. & 5 front of him \\
\hline 6 It had already been on-the-books, so to speak, for a number of & 6 THE WITNESS: Yes, there is nothing on it. \\
\hline 7 years, and this statement is indicative of the amount of equity & 7 MR. SUAREZ: It looks like we lost the cable \\
\hline 8 Mr . Trump put into the project, the Doral project, with which we & 8 then. We might need technical help. \\
\hline 9 would take some comfort, because that reduces -- would reduce & 9 THE COURT: A technician, technician. \\
\hline 10 the amount of the loan facility that he would need. Said & 10 Tommy, is there any way to see if -- \\
\hline 11 another way, he is putting more of his own money in and less of & 11 (Pause) \\
\hline 12 ours. & 12 THE COURT: Thank you. \\
\hline 13 (Continued on the next page.) & 13 Q If you notice, the pagination on the credit report \\
\hline 14 & 14 jumps around. Page ten has the recommendations; and then page \\
\hline 15 & 1511 has the signatures; and then page 12, the recommendations \\
\hline 16 & 16 appear to continue up top there. \\
\hline 17 & 17 And it says: Facility A and B leverage levels \\
\hline 18 & 18 required for step-down of the guaranty. \\
\hline 19 & 19 It says: The LTV levels required for decrease in the \\
\hline 20 & 20 guaranty levels are low enough to ensure that the loan is more \\
\hline 21 & 21 than adequately collateralized. \\
\hline 22 & 22 What does that mean? \\
\hline 23 & 23 A So it is a -- like a restatement or reminder, again \\
\hline 24 & 24 this is all part of the annual review of these two facilities \\
\hline 25 & 25 that have been on the books, I believe, for some time at this \\
\hline Williams - by Defendant - Direct ( Suarez) Page 5369 & Williams - by Defendant - Direct ( Suarez) Page 5371 \\
\hline \(1 \quad \mathrm{Q}\) And why does the fact that the guarantor is putting & 1 point, that the loan-to-value levels on the properties \\
\hline 2 more of his own money in provide the bank a level of comfort? & 2 corresponded with the decrease in the guaranty, such that as \\
\hline 3 A He has more at stake in that particular asset and & 3 the loan-to-value of the collateral for each of these \\
\hline 4 transaction. & 4 corresponding properties decreased, the guaranty would decrease \\
\hline \(5 \quad\) Q You see it goes on to say: Inspected enhanced value & 5 with that. \\
\hline 6 due to Capex? & \(6 \quad\) Q And moving on to Facility B. It says: Property \\
\hline 7 And it says: The resort is a world class location & 7 produces sufficient cash flow to support the requested increase \\
\hline 8 that has been home to a PGA event every year since the resort & 8 in debt at a 1.74X (P\&I) and 2.45X (I/O) coverage ratio. \\
\hline 9 opened in 1962. As DJT expects to invest approximately & 9 How, if at all, is that meaningful to the \\
\hline 10 150-160 million in capital improvements, it is expected that & 10 underwriting decisions in connection with this facility? \\
\hline 11 the value of our collateral will increase significantly over & 11 A So that's one of the underwriting considerations with \\
\hline 12 the term of the facility? & 12 respect to our due diligence for the collateral property, is \\
\hline 13 A I see that, yes. & 13 its ability to generate sufficient cash flow to cover the \\
\hline 14 Q How did that impact the recommendation contained in & 14 repayment of the loan, both on an amortizing or principal and \\
\hline 15 this credit report with respect to Facility A? & 15 interest basis, as well as an interest only basis. I believe \\
\hline 16 A So in conjunction with the capital improvements that & 16 this loan was scheduled for repayment on an interest only \\
\hline 17 Mr. Trump was putting in personally through his own financial & 17 basis. \\
\hline 18 resources, as a result of those the anticipation was that we & 18 Q And how, if at all, is the cash flow generated by the \\
\hline 19 would expect to -- could reasonably expect to see some & 19 collateral meaningful to the bank's underwriting of a facility? \\
\hline 20 increased value in the property over time. Particularly since & 20 A It is very meaningful. \\

\hline 24 document? & 24 A It is definitely also a meaningful consideration. \\
\hline 25 THE WITNESS: Would it be possible to see it on & 25 Q In Facility B it goes on to say: Quality of the \\
\hline
\end{tabular}

A So it was also a consideration in so far as -- As the loan amount is paid down, the loan-to-value decreases, therefore, increasing our comfort with the credit.

Q And for Facility C, that was the Old Post Office loan, correct?

A Yes, that's correct.
Q It says: Equity injection of the guarantor. While the initial equity injection of the guarantor was established (sic.) at 42M -

THE COURT: Not established.
MR. SUAREZ: Estimated.
THE COURT: Right.
MR. SUAREZ: Thank you. I am sorry.
Q -- at \$42 million, we have been told that the estimate has been increased to anywhere from 150-160 million with approximately 30 million already invested.

Do you see that?
A I see that, yes.
Q How was that relevant to the credit decisions reflected in this memorandum?

A So, similar to, I believe it was the Doral loan, Mr. Trump as the guarantor/principal owner, was putting in or investing a significant amount of his own equity and liquidity into the project, which gives us an increased level of comfort given that he has more at stake in this particular transaction.

And it would also conceivably reduce our loan amount because he is not borrowing that amount, he is putting that amount in from his own proceeds.

Q And how does that equity injection by the guarantor, if at all, impact the risk to the bank on that specific credit facility?

A It arguably reduces our risk if he has got more invested in his own money. He is certainly less inclined to see the project fail.

MR. SUAREZ: If we can turn to page \(14 ?\)
Q Are you familiar with the chart which appears here at the center of page \(14 ?\)

A Yes.
Q What does this chart represent?
A It is illustrative of Mr. Trump's reported financial statements, as well as some adjustments that we made as part of our standard underwriting and due diligence process.

Q For the year ending June 30, 2013, for the last two columns from the right side of the page, what does the column: DJT June 30, 2013 client reported, represent?

A That represents information that was provided with his June 30, 2013 financial statement, personal financial statement.

Q And what does the column: DJT June 30, 2013 (DB adjusted) represent?

A The same financial statement after we apply our standard adjustments, or they are also referred to as "haircuts" to the assets and liabilities.

Q And what, if anything, does that column with the DB adjusted values reflect of Deutsche Bank's own analysis of the financial statement?

A Again, it is -- it is after we have made what I would say are generally our standard adjustments that we apply to really any given high-net-worth individual or ultra-high-net-worth individual's provided financial statements.

Q Now, if we start with liquidity, it says that the guarantor reports liquidity of 339 million as of June 30, 2013 consisting of 150 million in Mr. Trump's name personally and 154 million held in various entities.

THE COURT: I think you misstated the number
there. Didn't you say 150 instead of 185 ?
MR. SUAREZ: Consisting of - I can start again if I was unclear. I don't have the realtime, so I can't --

THE COURT: I don't either, but I am pretty sure you said 150 instead of 185.

I am correct I am told.
MR. SUAREZ: All right. I'll withdraw that.
Q In the section that says liquidity, it says: The
understanding is they were consulted in particular with respect to these four, as they were referred to, trophy properties and the valuation of those properties.

Q And how, if at all, were the values reported by the guarantor adjusted by the DB Valuation Services Group?

A Based on the memo I am reminded that in one particular case there was a recent appraisal that we were privy to that resulted in an adjustment. That's one particular example of where or how an adjustment was made.

Q Was that a standard adjustment?
A I think if information was available that could augment our analysis and adjustment of a particular property, then yeah, I would say that that was typical.

Q What judgment, if any, did the underwriters use to adjust the basis of value for client reported assets?

A So I think it was -- the underwriters were particularly relying on the Valuation Services Group, given this is their level of expertise -- rather, their area of expertise.

Q Why was the DB Valuation Services Group's area of expertise relevant to the underwriting of these loan facilities?

MR. WALLACE: Can I just note a foundation objection? I also think this memo is from before the witness was working on the loans. So, it is unclear, he

Williams - by Defendant - Direct ( Suarez)
Page 5379
is talking about the actual preparation of this memo or general bank procedures?

THE COURT: Is that either/or? We can ask one way or ask it the other way?

MR. WALLACE: I think that the question should just be clear as to whether they are asking about the preparation of this memo and whether the witness had involvement in it; or if he is being asked about general bank practices with this; as the foundation for the question.

MR. SUAREZ: The witness signed this memo.
THE COURT: He signed it?
MR. KISE: Yes.
THE COURT: Okay. I think that resolves that.
MR. GABER: I believe he said this portion here on trophy properties predated his involvement. He was not involved in this. Perhaps we can seek clarification as to whether he was involved in this part of the underwriting and adjustment?

THE COURT: How could he sign it if he -- if it predated him? What am I missing? Let's hear it from the witness, the horse's mouth.

THE WITNESS: In this particular instance I signed off on this particular memo. However, this analysis was done, I believe -- was certainly at a time
\begin{tabular}{|l|l|}
\hline Williams - by Defendant - Direct ( Suarez) Page 5380 \\
1 & that predated my involvement. I believe it was either \\
2 & with the origination of the original credit request or the \\
3 & second credit request, which both predated my involvement. \\
4 & Q And what, if anything, would you have done to become \\
5 & familiar with this analysis before you signed the credit memo? \\
6 & A \\
7 & I would have read those details. \\
8 & by the DB Valuation Services Group have impacted your decision \\
9 & to support the credit recommendations contained in this memo? \\
10 & A I am certain they gave me additional comfort. \\
11 & Q And what, if any, reaction did you have to the fact \\
12 & that the net equity reported by the guarantor and the DB \\
13 & adjusted net equity had a difference of almost \$1.4 billion? \\
14 & A No reaction. I would have felt that was within \\
15 & reasonably expected adjustments. \\
16 & Q And why would that be a reasonably expected \\
17 & adjustment? \\
18 & A I think absent these details and the support of the \\
19 & Valuation Services Group, we may have haircut these assets as \\
20 & much as 50 percent or more. \\
21 & Q And in this case the adjustment to the equity -- let \\
22 & me withdraw that. \\
23 & How, if at all, does the DB adjusted net equity \\
24 & reflect the analysis performed by the DB Valuation Services \\
25 & Group?
\end{tabular}

Page 5381

A It is fully reflective of the input we received from DB Valuation Services Group.

Q And how, if at all, was the input you received from the DB Valuation Services Group specific to each of the properties identified in the credit memo?

A So my understanding is the underwriting team or individual who conducted this analysis, wrote this part of the credit memo, relied a fair amount on the feedback they received from the Valuation Services Group.

Q And how, if at all, was the Valuation Services Group qualified to provide that information to the underwriters in connection with this credit memo?

A So as stated, this group sat within the investment bank, specifically as part of the commercial real estate division within the investment bank, so this is their area of expertise. That is, being familiar with large commercial real estate properties. And in particular there may have been some familiarity with these four trophy properties as they are referred to, given that our investment bank had some prior relationship with Mr. Trump.

Q And why would -- withdrawn.
Why did the underwriting team request input from DB Valuation Services Group instead of accepting the values submitted by the applicant in this case?

A So, again, there is a reasonable expectation that
the -- there is a use of estimates in the client's provided financial statements. These particular assets represented a fair amount or might even say a significant amount of his stated net worth. Looking back to the credit policy, I believe it said we are expected to conduct some due diligence and verify the information provided to the extent that is possible. Again, given the Valuation Services Group's familiarity with these properties and perhaps even with the client, it only made sense that we availed ourselves to the Valuation Services Group to get their opinion and feedback as we are doing our due diligence and underwriting.

MR. SUAREZ: If we could go back to page \(14 ?\)
Go back to the last two columns on the right that we were discussing earlier.
Q Do you see that the June 30, 2013 client-reported net worth was \(\$ 4.9\) billion approximately?

A Yes.
Q And the DB adjusted net worth was \(\$ 2.6\) billion approximately?

A Yes.
Q What is the difference between the DB adjusted net worth and the client reported net worth for the year ending June 30, 2013?

A Our adjustment was approximately 50 percent of the client's reported net worth.

Q And how, if at all, did that adjustment reflect Deutsche Bank's own analysis of the guarantor's financial condition?

A It fully reflected our analysis.
Q And the \(\$ 2,645,000,000\) number that appears on this page, how is that number consistent with the figure at page ten which states: For all facilities, financial strength of the guarantor; the financial profile of the guarantor includes, on an adjusted basis, a net worth of 2.6 billion with 154.5 million in unencumbered liquidity?

\section*{A It is consistent.}
(Whereupon the proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

1 Q And what reaction, if any, did you have to the magnitude of the reduction between the guarantor's reported net worth and Deutsche Bank's own adjusted value?

A My reaction was probably pretty measured, considering it's not unusual or atypical for any client's provided financial statements to be adjusted to this level, or to this extent.

Q And what, if anything, concerning the basis for the decision to make that adjustment is reflected by this credit memorandum?

A Can you repeat the question?
Q Sure.
What, if anything, is reflected in this credit
memorandum concerning the basis for Deutsche Bank's decision to make the adjustment in the reported net worth?

A I'm not sure I understand the question.
MR. SUAREZ: I'll withdraw it.
If we could turn to page 16 of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see the section that says "Net cash flow"?
(Whereupon, the exhibit was displayed on the screen.)
Q And it says, "The guarantor demonstrates a diversified stream of cash flows which are generally recurring by nature"?

A Yes, I see that.
D. Williams - by Defense - Direct (Mr. Suarez)

Page 5385
Q Why is the guarantor's net cash flow a factor evaluated in this credit memorandum?
A It would also be looked to as a potential source of repayment for the loan.

Q And what, if any, adjustments does Deutsche Bank make to the client's reported net cash flow?

A So, in our analysis, one potential adjustment could be whether or not a source of cash flow is recurring or nonrecurring.

Q And in this analysis --
MR. SUAREZ: If we could zoom back into the page, the chart below.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see the second column says "DB adjusted fiscal year June 30, 2013"?

A Yes.
Q And "Client reported fiscal year June 30, 2013"?
A Yes.
Q What was the client reported fiscal year June 30, 2013 net cash flow?

A Approximately 150 million.
Q And what was the DB adjusted net cash flow for the fiscal year ending June 30, 2013?
A A negative, approximately, 26 million. year to year positive to negative.
Q Is the bank capable of reaching it's own judgment based on the evaluation it makes of the guarantor's financial condition?

A Certainly, yes.
Q And how was the evaluation of the credit facilities in this memorandum, if at all, consistent with the bank's approved business strategies?
A It's consistent.
Q With respect to the Trump Chicago loan made to 401 North Wabash Venture, LLC, at page 294 -- I'm sorry, Plaintiff's Exhibit 294, page six?
(Whereupon, the exhibit was displayed on the screen.)
Q What is the effect of the LTV on the loan dropping to 35 percent and below?

A It would have the effect of eliminating Mr. Trump's personal guaranty.
Q And was the guaranty on the Trump Chicago loan eliminated?

MR. WALLACE: Objection. Asked and answered. THE COURT: Déjà vu all over again.
\begin{tabular}{|cc|}
\hline D. Williams - by Defense - Direct (Mr. Suarez) \\
1 & MR. SUAREZ: I'm sorry. \\
2 & THE COURT: He said, "Asked and answered." He \\
3 & objected, "Asked and answered", and I said, "Déjà vu all \\
4 & over again." \\
5 & I can't remember whether this was the exact same \\
6 & document or different, but it's the same point; right? \\
7 & MR. SUAREZ: Ill make a connection to the question \\
8 & and then I'll move on. \\
9 & A So ultimately, yes, the personal guaranty was reduced \\
10 & to zero on the Chicago loan. \\
11 & Q And moving onto page seven of this document for the \\
12 & minimum liquidity covenant. \\
13 & (Whereupon, the exhibit was displayed on the \\
14 & screen.) \\
15 & Q What was the effect of reducing the guaranty level to \\
16 & zero on the Trump Chicago loan? \\
17 & A Mr. Trump would have no longer been required to \\
18 & maintain any unencumbered liquidity, um, even, um, that he held \\
19 & at Deutsche Bank. \\
20 & Q What was the effect of the guaranty level, the \\
21 & reduction of the guaranty level to zero, if anything, with \\
22 & respect to the net worth covenant? \\
23 & A Once the guaranty reduced to zero, the net worth \\
24 & covenant was reduced to zero. Or said another way, it was \\
25 & eliminated or deleted.
\end{tabular}
D. Williams - by Defense - Direct (Mr. Suarez)

Page 5389
MR. SUAREZ: Okay. We could take this down. (Whereupon, the exhibit displayed on the screen was taken down.)
Q What responsibilities does a lending officer have for determining the interest rate that is included in a credit facility?

A It's one of the considerations that a lending officer makes, or takes into consideration when making a loan.

Q And what obligation, if any, does a lending officer
have to ensure that the approved exposures with respect to a credit facility are in accordance with the approved business strategies of the bank?
A A lending officer has some responsibility in that regard.

MR. SUAREZ: If we could please pull up Defendant's Exhibit 205, previously admitted.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Are you familiar with the pricing grid that appears on Defendant's Exhibit 205?

A Yes.
Q What does this pricing grid reflect?
A It reflects recommended pricing for various locations
where Deutsche Bank does business, including the Americas, and
then across several different, what we refer to as product
types, which are driven by the collateral type securing the loan.

Q Who is responsible for maintaining the pricing grid?
A That is the responsibility of what we refer to as the business, which is the client facing group, as well as, and more specifically, the lending group, um, drives the pricing ranges that are shown here on this grid.

Q How does the pricing grid affect pricing, if at all?
A When the lending group is making or considering making a loan secured by a particular type of asset, or maybe even unsecured as the grid shows to the far right, a lender is supposed to take into consideration these ranges when considering pricing.

Q Is a lender allowed to deviate from the range provided on this grid?
A Yes.
Q In what circumstances can a lender deviate from the ranges provided on this grid?

A So if the recommended pricing falls particularly below what's recommended here, some additional levels of approval would be required.

Q How does competition in the marketplace drive, if at all, the decision to deviate from this grid?

A It can be a factor.

Page 5391
Q How can it be a factor?
A If while we are underwriting or performing our due diligence and we are recommending or suggesting pricing that falls within this grid, at some point we'll propose that to the client, or prospective client, and the feedback we might receive from the client is that maybe his existing loans with another institution are priced below what we are proposing; that would be one example, the feedback that we would receive that would indicate perhaps our pricing is above what's considered market.

Q Would that be a basis to deviate downwards from the pricing grid?

A Yes, perhaps.
Q Are you aware of any circumstances where there was an upward deviation from the pricing grid?
A It can happen, yes.
Q Can you think of any time since you've been at Deutsche Bank where an upward deviation from the pricing grid has been imposed?
A Yes.
Q How frequently?
A It happens from time to time.
Q Are there any criteria that affect the range provided in the pricing grid?

A Yeah, so in addition to competitive forces, um, a client's relationship with the bank, noncredit relationship, for
\begin{tabular}{|l|l|l}
\hline D. Williams - by Defense - Direct (Mr. Suarez) Page 5392 \\
1 & example, investable assets could be a factor, as well as our \\
2 & internal risk rating of a client. \\
3 & Q \(\quad\) How, if at all, does the collateral type affect where \\
4 & in the range a loan is priced? \\
5 & A \(\quad\) So it's definitely a factor, as illustrated here by the \\
6 & grid, given that the grid shows a number of different collateral \\
7 & types, and within each of those collateral types is a range. \\
8 & Q \(\quad\) Where on this grid did the Trump Doral loan fall? \\
9 & A So they were all commercial real estate secured \\
10 & transactions, which would fall under that column on the pricing \\
11 & grid with the recommended pricing of between two percent and \\
12 & two-and-a-half percent. \\
13 & Q And when you say they were all, to move things along, \\
14 & would that mean the Trump Chicago, Trump OPO and Trump Doral \\
15 & loans? \\
16 & A Yes, all three loans were commercial real estate \\
17 & secured. \\
18 & Q Would the financial wherewithal of the guarantor play a \\
19 & role in determining where on the range identified in this \\
20 & pricing grid a loan would fall? \\
21 & A Yes. That's a determinant in the risk rating, the \\
22 & internal risk rating that we arrive at. \\
23 & Q And how would the financial wherewithal of the \\
24 & guarantor affect the point within this range where a loan would \\
25 & be priced?
\end{tabular}
D. Williams - by Defense - Direct (Mr. Suarez)

Page 5393
1 A So, I guess to begin, if we were even at this point in our analysis, um, the presumption is that the client meets our target market minimum requirements for investable assets, stated net worth. Beyond that, if the client exhibits a certain amount of financial strength, well above or in excess of those minimum requirements, that could be a factor.

Q How would you determine circumstances in which the financial strength of the guarantor would merit pricing at the low end of the range?

A So, again, it would be a factor of risk rating, strength of the collateral, strength of the guarantor as reflected in the risk rating, also external market factors, competitive factors.

Q And what, if anything, about President Trump's financial condition supported pricing at the lower end of the range?
A He reported both a net worth and investable assets that were well in excess of our minimum requirements.
Q What were the minimum requirements?
A For commercial real estate it's a hundred million net worth, 10 million of investable assets.

Q Did President Trump qualify for this pricing range with a net worth as adjusted by Deutsche Bank of approximately \(\$ 2.6\) billion?

MR. WALLACE: Objection. Leading.

Page 5395
THE COURT: Sustained.
Q How, if at all, did Deutsche Bank's decision to price the loans we previously discussed reflect the bank's own adjusted net worth value of 2.5 billion for the guarantor?
A It was a consideration or a factor.
Q How, if at all, was an adjusted net worth of 2.5 billion -- withdrawn.

How, if at all, was a net worth of approximately 2.5 billion on an adjusted basis for President Trump used to qualify him for this pricing grid?
A Well, again, if we are even considering the loan, a client has to meet our stated minimums. When I say "has to meet", that's the target.

Some exceptions could be made if the client does not meet those minimums, but certainly in this case, even on adjusted basis, Mr. Trump met those minimums.
Q If Mr. Trump's adjusted basis net worth was 2 billion, would he have met these minimums?

MR. WALLACE: Objection. Calls for speculation. THE COURT: Overruled. THE WITNESS: I'm sorry?
THE COURT: That was overruled. Please answer.
A Yes. Even if his net worth was \(\$ 2\) billion, he would have met our minimum requirements.
Q If his net worth was in excess of a billion dollars on
an adjusted basis, would he have met these minimum requirements?
A Yes.
Q If his net worth was in excess of 500 million on an
adjusted basis, would he have met these minimum requirements?
A Yes.
Q If his net worth was in excess of a hundred million,
would he have met these minimum requirements?
A Yes.
Q In fact, if he had, on an adjusted basis, at least
\(\$ 100\) million in cash, in marketable securities, would he have met these requirements?
A Yes.
THE COURT: Mr. Wallace, I consider those hypotheticals, not speculations, and I believe that the hypotheticals are admissible. MR. WALLACE: Noted, your Honor.
Q What is the bank's goal in pricing a credit facility?
A Well, I think it is our -- our, more or less, our sole determinant. If we are going to make a loan, it's up to us to decide if we are going to make a loan based on a certain pricing or not.
Q What, if anything, to your knowledge, concerning President Trump's financial condition, would have qualified him to stay within that range of 2.0 to 2.5 percent for commercial real estate in the Americas?

COURT OFFICER: All rise. Part 37 is back in session, the Honorable Judge Arthur Engoron presiding. Please be seated and come to order.

THE COURT: Let's get the witness here.
MR. ROBERT: Some housekeeping issues, scheduling issues we want to bring to the Court's attention.

THE COURT: Ill turn the microphone over to the person who sits alongside me, scheduling expert.

MR. ROBERT: So I guess I am happy to report that Mr. Suarez, although I am not going to speak for him, has no more direct of the witness right now and is going to turn him over for cross.

MR. SUAREZ: That's correct.
MR. ROBERT: In light of that we don't anticipate calling Mr. Sullivan. We reserve our rights to do so, but don't plan to do so at this point.

We spoke with Mr. Wallace, who says that their cross examination of Mr. Williams is probably about a half hour or so, give or take.

We plan to call Emily Pereless. Her examination by Mr. Suarez should take the balance of the afternoon.

We then have Rosemary Vrablic, who is in New Rochelle. We spoke to the Attorney General, there doesn't seem to be a way she would be testifying this afternoon witness, don't discuss the case, don't discuss your testimony or anything related during the lunch break.

THE WITNESS: Understood, your Honor.
(Whereupon, the case on trial was adjourned until 2:15 for the luncheon recess.)
anyway. We would like to tell her 10:00 tomorrow morning, even though we may not be done with Pereless at that point. And then Ms. Vrablic may take the better part of the day.

But to the extent there is any leftover time tomorrow, at this point we would anticipate either filling that with Patrick Birney or potentially Jack Weisselberg. And then followed by Mr. Unell, who will start Thursday morning, who is our next expert.

MS. GREENFIELD: And you still think Unell is going to take Thursday and Friday?

MR. ROBERT: Yeah at this point, yes, probably. Probably.

MS. GREENFIELD: What is your direct approximately?

MR. SUAREZ: I would anticipate that the Unell direct would take the balance of an entire day.

MS. GREENFIELD: Entire day.
And cross obviously.
MR. WALLACE: I am very curious what he says that day. But if he is finished on Thursday, we will be able to finish Friday, even though it is a half day.

MS. GREENFIELD: Next week is unchanged from what you said yesterday?

MR. ROBERT: For Monday definitely with Chin,

Page 5399
and then Moens and Shubin.
And then Wednesday I think is tentatively Eric Trump, but we will let you know.

And Friday we will argue, I think, the motions in limine with the Court.

MS. GREENFIELD: You skipped Thursday. That's Bartov still?

MR. ROBERT: Bartov is Thursday, yes.
And this Friday motions in limine as to Shubin, correct?

MS. GREENFIELD: Okay.
MR. ROBERT: All right. Thank you. THE COURT: Witness.
(Whereupon, the witness resumed the stand.)
THE COURT: I'll remind the witness, as usual, that he is still under oath.

And let's start the cross examination.
CROSS-EXAMINATION
BY MR. GABER:
Q Good afternoon, Mr. Williams. My name is Sherief Gaber. We met briefly at your deposition. It is good to see you again.

So I wanted to start with, hopefully get you through this quickly, I am going to pull up and hand you a copy of what has been marked as PX-498.
\begin{tabular}{|r|c|}
\hline Williams - by Defendant - Cross (Gaber) \\
\(\mathbf{1}\) & (Handing) \\
2 & Q And if you could just take a look at this document, \\
3 & Mr. Williams, and tell me if you are familiar with it? \\
4 & A \\
5 & Yes. \\
6 & Q \\
7 & Can you describe what this document is? \\
7 & annual review of the entire Trump credit relationship. \\
8 & Q And if we look to page nine of the exhibit, it is \\
9 & correct that this bears your signature if we go down to the \\
10 & signature block there? \\
11 & A \(\quad\) Yes, it appears to be. \\
12 & Q And I think Mr. Suarez asked you this, but can you \\
13 & tell me what your signature on this indicates? \\
14 & A It indicates that I sign in support of the credit \\
15 & transaction, or in this case the annual review. \\
16 & Q And you are phrasing that "signed in support," \\
17 & that's because you didn't have credit approval authority; is \\
18 & that correct? \\
19 & A \(\quad\) Correct. \\
20 & Q And it was Credit Risk Management that had credit \\
21 & approval authority at Deutsche Bank? \\
22 & A \(\quad\) Yes, correct. \\
23 & Q In the Private Wealth Division? \\
24 & And who are the Credit Risk Management officers who \\
25 & signed and ultimately approved this review?
\end{tabular}

Williams - by Defendant - Cross (Gaber)
Page 5401

\section*{A Gaston Allegre and Jim Baldino.}

MR. GABER: I ask that PX-498 be admitted into evidence.

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 498 by the Court.)
Q If I can now direct you, Mr. Williams, to page two of this document. And we will pull it up on the screen as well.

Under that last block where it says "Recommendation." It says: Approval of the annual review for Facility A (Doral); Facility B (Chicago) and Facility C (OPO). And for all facilities you will note the first item there says:

Financial strength of the guarantor. The financial profile of the guarantor includes a stated net worth of 6.12 billion which remains above the 2.5 billion minimum requirement, even on an adjusted basis. The guarantor maintains a strong unencumbered liquidity position of 76.2 million, a marginal increase from the previous year.

The \(\$ 6.12\) billion number here, that came from the Statement of Financial Condition of Donald J. Trump, correct?

A I believe so, yes.
Q And the 76.2 million dollars liquidity position, that also came from the Statement of Financial Condition?

A It doesn't specify as such here. I would assume so.

Q You have no reason to believe that these numbers came from other than Donald J. Trump's personal financial statement?

A No. I just qualify my response that it doesn't appear it is subject to any bank adjustments.

Q Okay.
THE COURT: Mr. Gaber, just speak up. Sometimes
you are a little muffled somehow.
MR. GABER: I'll do my best to get into the microphone.
Q Mr. Williams, can we take a look at page 11 of this document quickly, maybe to clarify it a bit before you refresh your recollection.

It says here under "liquidity": The guarantor reports liquidity of \(\$ 76.2\) million as of \(6 / 30 / 18\), consisting of funds in Mr. Trump's name, et cetera.

And then it says: The client reported balances marginally increased from the prior year. In the earlier years, as Mr. Suarez had showed you, there was a description of you and/or others from Deutsche Bank going to Trump Tower to personally verify bank statements and other records to support that liquidity number. I'll represent that after -- I mean, Ill say, this memo doesn't mention your going to Trump Tower to check liquidity. That's because you didn't go in this year to check liquidity; is that correct?

A That's correct.

Q So these are client reported numbers only?
A That appears to be a correct statement, yes.
Q Okay. And so I'll represent that after 2014 all of the credit reports make no mention of anyone going to Trump Tower. So if that's the case, would I similarly be able to expect, if it is not mentioned in the memo that no one went to personally check?

MR. SUAREZ: We object to the representation as creating an evidentiary record. If the government wants to create an evidentiary record of what those subsequent years say or don't say, they should move the exhibits in. I don't see a basis to represent what they say or don't say. It is almost as if the government is introducing its own evidence without actually moving it in.

MR. GABER: I think it is a simple hypothetical.
THE COURT: I didn't think it was hypothetical.
I thought it was: You represented that they did not include mention of a visit.

MR. GABER: I can rephrase it as a hypothetical. THE COURT: Okay.
Q If a credit memo is silent on whether or not someone went to personally verify financials at Trump Tower, is it fair to assume that no one went?

A I think that's a fair assumption.
Q Thanks.

President Trump. I think you described this DSCR breach as a DSCR covenant default or breach. Is there a difference in your mind between the DSCR breach and covenant default?

A It depends on the nature of the breach. In this case the breach was considered also in conjunction with the loan-to-value of the property. And ultimately was determined that the loan-to-value cleared the debt service coverage breach.

Q Okay. And I will just ask that you recall that even though the loan-to-value came in below 35 percent, the Trump Org had, in fact, elected to maintain a 10 percent guaranty in order to keep a more favorable interest rate?

A I recall that he did that on at least one loan, yes.
Q It might refresh your recollection if we can take a quick look at page six of this document.

Under guaranty type, if you just take a look at that paragraph. The last sentence just says, or the last two sentences: As outlined below, the guaranty level at or below a 35 percent LTV was originally contemplated to be zero percent, at which time pricing was scheduled to increase to \(L\) plus two percent. Retaining a 10 percent guaranty level, clearly strengthens the credit.

Does that refresh your recollection that they maintained the guaranty in order to keep a more favorable pricing on the loan?

Williams - by Defendant - Cross (Gaber)
Page 5405
figure for that year, equals the 1.19 times calculation.
Q Okay. And what is the affect of a breach of the DSCR covenant?

A So, it would have had an impact on the step-down percentage of the guaranty.

Q Can you elaborate what sort of impact it could have on the step-down percentage?

A So the chart there in the middle of the page outlines what occurs if and when a debt service coverage ratio exceeds -- meets or exceeds various multiples.
Q And so can you just explain then what it means that -- that the appraisal, the resulting LTV of the appraisal clears the DSCR breach? What does it mean that the appraisal or LTV clears the DSCR breach?

A So, depending on the results of the calculation, it looks like you compare that to various levels of debt service coverage relative to the percentage of guaranty that is required.

Q And so if the loan-to-value ratio had been above 35 percent, it could have increased the guaranty to 10 percent from zero?

A That appears to be correct, yes.
Q Okay. And I just want to clarify briefly, when you were speaking with Mr. Suarez you said that you were not aware of any covenant defaults in any of the loans guaranteed by

Williams - by Defendant - Cross (Gaber)
Page 5407
A Yes.
MR. GABER: Okay. So can we move back to page
five? Move on to the Wabash property.
Q So, that paragraph starting Facility B: Facility B's DSCR breach was identified in a letter prepared by internal legal and sent to the borrower June 5, 2019. The letter noted the breach and DBTCA's intention to conduct an appraisal in order to test the loan-to-value in accordance with the loan agreement.

And then the next paragraph says: Appraisal detail is noted in the sections that follow, but the results LTV (26.9 percent) clears the DSCR breach and does not trigger any guaranty level changes called for in the below chart.

Can you explain what is meant by "guaranty level change"?

A So, similar to the Doral or Endeavor loan, the guaranty, Mr. Trump's personal guaranty step-down, depending on the loan-to-value of the collateral.

Q And if -- are there situations in which DSCR breach could trigger a level change upwards?

MR. KISE: Objection, calls for a legal conclusion.

THE COURT: Overruled. I don't think that's a legal question. I think that's an accounting question. \(Q\) Do you need a readback?

Page 5409

A No, I think I understand.
If based on the results of an appraisal the
loan-to-value increased into a level which would have required the guaranty, then yes, I suppose that's possible that the guaranty could have been added back.

Q So, the --
MR. KISE: Objection, Your Honor. I move to strike that answer because that's speculation. He said "I suppose that's possible." That's not an answer, that's
just a guess. Does he know or does he not?
THE COURT: Okay. How certain or uncertain are you?

THE WITNESS: I would say actually \(I\) am not certain, because I do recall earlier in my testimony some discussion of once the guaranty comes off, it stays off. Q Maybe we can come back to that.

So in any case, this is indicating that the Chicago loan also had a DSCR breach in 2019 ?

A Yes.
Q Okay. So then moving onto OPO DSC covenant further down the page here:

Facility C's DSCR breach was identified in a letter prepared by internal legal and sent to the borrower June 21, 2019. It says: The letter noted the breach but noted DBTCA takes no position as to whether the operating contribution made
dated June 5, 2019. This one is addressed to 401 North Wabash Venture LLC. So, Mr. Williams is this the letter that was referenced -- or the notice that was referenced in the credit memo we were just looking at regarding the DSCR breaches?

A It appears to be, yes.
Q Okay. I would ask that this be admitted into evidence.

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 520 by the Court.)
Q And so this letter informs the Trump Organization of the DSCR breach, correct?

A Yes.
Q Okay. I am going to ask you to take a look at the bottom of the page, at the cc, at the carbon copies. So this is cced to Donald J. Trump as guarantor. That's being sent to Donald J. Trump as guarantor because a DSCR breach could trigger some obligations under the guaranty, correct?

A I think there was an obligation to copy him according to the loan documents.

Q But that's because -- I mean, beyond the notice, the DSCR breach could potentially implicate the guaranty that he signed --

MR. SUAREZ: Objection, calls for a legal
by the borrower cures the breach. However, the letter did identify DBTCA's intention, at its own expense, to conduct an appraisal of the subject property to test the LTV as permitted under the loan agreement.

So this is indicating that the OPO loan also had a DSCR breach in June of 2019, correct?

A Yes.
Q Okay. Do you understand what it means when it says "operating contribution" here? DBTCA takes no position as to whether the operating contribution made by the borrower cures the breach?

\section*{A Yes.}

Q Can you explain your understanding of that term?
A The borrower or perhaps the guarantor made a contribution to the borrower here, as noted, in the amount of 6.425 million, that in some ways could have been considered with the net operating income in determining the debt service coverage ratio.

Q Okay. I am going to now hand you PX -- a document marked as PX-520 for identification.
(Handing)
Q So there is a cover e-mail here and then the attachment. If you can just flip through -- well, flip to the second page here.

So, Mr. Williams, this is several copies of a letter
conclusion.
THE COURT: I think we spent a good part of the morning asking this witness what various contract provisions meant. Overruled.
A So, I suppose the letter was sent to him in copy because of the nature of his guaranty.

Q Thank you. I am going to now hand you an Exhibit that's been marked PX-521.

So like the last one, this is a cover e-mail, and then several copies of a letter dated June 5, 2019. These letters are addressed to Trump Endeavor 12 LLC.

So Mr. Williams, does this appear to be the letter referenced in the credit report we were just looking at regarding the DSCR breach at the Doral property?

A Yes.
Q And this one also carbon copies Donald J. Trump as guarantor, yes?

A Yes.
MR. GABER: I would ask this be admitted into evidence.

MR. SUAREZ: Your Honor, again, our objection to testifying or eliciting testimony about this, and I understand he is a current bank employee, but he wasn't copied on the letter; and it is referring to agreements that aren't before him today. And he is being asked to
\begin{tabular}{|rc|r}
\hline Williams - by Defendant - Cross (Gaber) & Page 5412 & Willia \\
1 & give answers about what rights or responsibilities would & 1 \\
2 & be triggered under certain legal documents that also & 2 \\
3 & aren't before him. So on that basis, we would object to & 3 \\
4 & the admission of this document. & 4 \\
5 & MR. GABER: He gave foundation. He said that & 5 \\
6 & this is the letter that was referenced in the credit & 6 \\
7 & report that he prepared and signed. & 7 \\
8 & THE COURT: So he is obviously aware of it. & 8 \\
9 & Overruled. & 9 \\
10 & (Whereupon, the document referred to was deemed & 10 \\
11 & marked for evidence as Plaintiffs Exhibit 521 by the & 11 \\
12 & Court.) & 12 \\
13 & Q So I am going to hand you, Mr. Williams, what has & 13 \\
14 & been marked as PX-522. & 14 \\
15 & This is the same as the previous two exhibits. & 15 \\
16 & In this case the mailing receipts are at the & 16 \\
17 & beginning of the exhibit. The letters begin on page six of the & 17 \\
18 & document, if that's helpful. & 18 \\
19 & Again, this letter is dated June 21, 2019. This one & 19 \\
20 & is addressed to Trump Old Post Office LLC. Is this the notice & 20 \\
21 & of DSCR breach for the Old Post Office loan that is referenced & 21 \\
22 & in the credit report we were just looking at? & 22 \\
23 & A It appears to be, yes. & 23 \\
24 & Q And this letter, likewise, is copied to Donald J. & 24 \\
25 & Trump as guarantor? & 25 \\
\hline
\end{tabular}

Williams - by Defendant - Cross (Gaber)
Page 5413

\section*{A Yes.}

MR. GABER: I ask that this letter or this exhibit PX-522 be admitted into evidence.

MR. KISE: Your Honor, one additional objection. I know you are going to overrule the other objection, but I'll make the same objection that Mr. Suarez made.

But, what is the relevance of these DSCR breach letters? I mean, it is not an issue in the case. And by the very documents that Mr. Gaber has put up, it was cured automatically by the loan-to-value ratio being acceptable. So the breach itself was cured by the very documents. So I am not sure what is the point of all of this.

THE COURT: Well --
MR. KISE: Is it academic?
THE COURT: That a breach was cured doesn't mean there wasn't a breach.

MR. KISE: What does that have to do with their case is the question. Not that there was a breach, what does that have to do with the underlying case is the question, respectfully.

THE COURT: I think it went to credibility of the witness somewhat. Maybe I missed something there.

But anyway, Mr. Wallace, let's give the official explanation.

MR. WALLACE: Ill try to avoid going too deep
in this with the witness on the stand.
The defendants have made representations relevant to their defenses that these loans were performing, never had any problems, were paid off. I think this is just going to the performance and the life of the loans, which they have tracked through many different iterations, including with this witness, when various guaranties are written down. I think this is part and parcel of what happened over the course of these loans, which defendants have introduced as relevant to their defense.

MR. KISE: So we are debating whether or not something was self-cured within the documents? Again, I don't see the relevance to the cause of action.

MR. WALLACE: We are presenting facts and we can debate at the end of the case when we make closing statements and put in our briefs.

MR. KISE: I guess I shouldn't object because these facts are helpful, but what are we wasting time for because they don't seem to have relevance. If there is an internal mechanism within the documents where there is some default and it is automatically cured by some other provision in the documents, then the net effect of all of it is zero, none. There is no -- just like it said in the Exhibit PX-498, it says that the breach was cured,
whatever DSCR breach may or may not have occurred, was cured by the low loan-to-value ratio. So again, I just don't see the relevance of this to any fact at actual issue in the case. It doesn't go to the Statements of Financial Condition. It doesn't have anything to do with the Statements of Financial Condition. Yes, it has something loosely to do with the loans, but there is not a problem with the loans based on the PX-498.

MR. WALLACE: How about I try to shorten the back and forth on this. The defendants opened the door by asking the witness to testify that, no, there were no covenant breaches. We are exploring that testimony now.

THE COURT: Overruled.
MR. KISE: If that's the reason, okay.
MR. GABER: Judge, can I get a ruling on admission into evidence of this document?

THE COURT: It is in evidence.
MR. GABER: Thank you, Judge.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 522 by the Court.)
Q Mr. Williams, can I now hand you an exhibit that has been marked as Plaintiff's PX-519? (Handing)
Q So there is a cover e-mail here from Gaston Allegre
\begin{tabular}{|rl|}
\hline Williams - by Defendant - Cross (Gaber) Page 5416 \\
1 & to James Baldino: Please find attached the annual report for \\
2 & the cc which we need to sign off by tomorrow, month end. The \\
3 & credit report sets out current position of the customer and \\
4 & requires your approval, by e-mail would be fine. And then the \\
5 & attachment. \\
6 & If you can take a look at that attachment and tell me \\
7 & if you recognize it. \\
8 & A Yes. \\
9 & (The following proceedings were stenographically \\
10 & recorded by Senior Court Reporter Michael Ranita.) \\
11
\end{tabular}

Q And this is dated June 30th, 2020; right?
A It appears to be July.
Q July. Excuse me.
A Of 2020 .
Q The dates all run together sometimes in this room.
So, Mr. Williams, this was produced by Deutsche Bank as the final version of the credit memo for 2020. I'll represent to you that this document doesn't have the signature block that we've seen in previous memos. Is it consistent with your experience of Deutsche Bank during 2020 that documents could be approved without physical signature?
A Yes.
Q Is that because people were working remotely or in different conditions due to the pandemic?
A I think that was a factor, yes.
Q So -- but you've got no reason to believe this version isn't the final version of the credit report for \(2020 ?\)
A No reason to believe it's not the final version, no. MR. GABER: I would ask that this document be admitted in evidence. THE COURT: Granted. It's in. (Plaintiff's Exhibit 519 was admitted in evidence.)

Q So, Mr. Williams, if I could direct your attention to page four of the document. The bottom block there under Recommendations.
(Whereupon, the exhibit was displayed on the screen.)
Q It stays, "Approval of the annual review for Facility A, Doral; Facility B, Chicago and Facility C, OPO," and then under "all facilities", like we saw the on the last one, "Financial strength of the guarantor. The financial profile of the guarantor includes a stated net worth of 6.1 billion, which remains above the \(\$ 2.5\) billion minimum requirement even on an adjusted basis, the guarantor maintains a strong stated unencumbered liquidity position of 87 million, an increase of about 10 million from the previous year."

And Mr. Williams, am I correct that that \(\$ 6.1\) billion came from Donald J. Trump's Statement of Financial Condition?

A Yes. I believe that's what is meant by "stated net worth."
Q Okay.
And the unencumbered liquidity position of \(\$ 87\) million, that also came from financial statements and documentation from the guarantor?
A I believe that's correct, yes.
Q Okay.
And so on page three, Mr. Williams, if I could direct

\section*{Williams - by Defense - Cross (Mr. Gaber)}

Page 5419

\section*{your attention there.}
(Whereupon, the exhibit was displayed on the screen.)
Q That "Relationship facility, highlights, changes since last review", that paragraph. The first bullet point there for Doral, "The Doral resort in Florida recently concluded it's fourth year as a full-service operation following its redevelopment. The property continues to produce positive numbers. The most recent appraisal resulted in a 34.7 percent loan-to-value which was deemed acceptable and resulted in no other changes. The guarantor continues to maintain a ten percent guaranty level."

So that's indicating that there's no change in status from the previous year, and the guarantor decided to continue to maintain that ten percent guaranty as an optional level for the financial benefit; correct?

A I believe that's an accurate statement, yes.
Q So, the second bullet point there, "The Old Post Office completed it's third full year of operation in 2019 and the loan remains in the post development period, see below. And updated appraisal was obtained last year. While the hotel reported negative operating income and a DSCR below the required 1.25 x , a supporting \(\$ 8.6\) million operating contribution to the hotel was made by DJT Holdings, LLC."

So that means for 2020 there was another DSCR breach
\begin{tabular}{|l}
\hline D. Williams - by Defense - Cross (Mr. Gaber) \\
1 \\
for the OPO loan; correct? \\
2
\end{tabular} A That sounds correct, yes.
D. Williams - by Defense - Cross (Mr. Gaber)

Page 5421
Quickly, before we move to the next point, the next bullet point says "The guarantor's personal net worth has decreased about \(\$ 500\) million year-over-year due to small fluctuations in real estate, equity, liquidity and the values of some his joint real estate -- some of his real estate joint ventures", excuse me.

So is it fair to conclude from this bullet point that Deutsche Bank is still tracking the net worth of Donald J. Trump as guarantor over the life of these loans at this point?

A I believe that's correct, though I will add 500 M would indicate -

Q 500,000?
A Yes, 500,000.
Q I'm still learning the nomenclature.
Mr. Williams, I'm going to hand you, now, a document that's been marked as Plaintiff's Exhibit 561 for identification.
(The witness was handed the exhibit.)
(Whereupon, the exhibit was displayed on the
screen.)
Q If you could just take a look at this and let me know if you are familiar with this document?

A Yes, this is familiar.
Q Can you tell me what this document is?
A It's a credit report and end review for the Trump
credit relationship dated July 30th, 2021.
Q And Mr. Williams, you had a role in preparing this report; correct?

A I think my role was predominantly as a reviewer for this credit report.

Q Okay.
Mr. Williams, I also say that Deutsche Bank produced this as a final version of the 2021 credit report. This one doesn't have a signature block on it.

Is it consistent with your experience of how things continued to operate after 2020 at Deutsche Bank, that you aren't requiring physical signatures for approval of some credit reports?
A Correct. I would say, um, the majority if not all credit reports.

Q And you are welcome to review this, but do you have any reason to believe this isn't the final version of the 2021 credit report?

A I don't have any reason to believe it's not the final version.

Q So Mr. Williams, can I direct your attention to page four of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Under "Recommendation."

Williams - by Defense - Cross (Mr. Gaber)
Page 5423
MR. GABER: First, I ask that this be admitted into evidence.

THE COURT: Granted. It's in.
(Plaintiff's Exhibit 561 was deemed marked and admitted in evidence.)
Q Again, we see the language, "Approval of the annual review for Facility A, Doral; Facility B, Chicago and Facility C OPO" under all facilities. The first bullet point is "Financial strength of the guarantor."

Here, again, it says there is a stated net worth of \(\$ 4.7\) billion. That number came from the Statement of Financial Condition of Donald J. Trump; correct?

A That's the implication of stated net worth, yes. Q Thank you.

And then further down it says, "The guarantor maintains a strong stated unencumbered liquidity position of \(\$ 92\) million." Again, it says, "Stated."

So is it the case that that number comes from information provided by the guarantor?

A Yes.
Q Thank you.
Okay. So I'm going to move on to page two of this document, Mr. Williams.
(Whereupon, the exhibit was displayed on the screen.)

\section*{D. Williams - by Defense - Cross (Mr. Gaber)} highlights, changes since last review", the first bullet point says, "All required monthly loan payments have been made in a timely manner."

So you would expect a borrower would make all of their loan payments in a timely manner?

A Yes.
Q Okay.
The next bullet point -- sorry, not the next one. The fourth bullet point says, "Metrics surrounding the performance of the collateral properties are discussed below. The financial performance of each property resulted in DSCR levels deemed to be below the required thresholds, resulting in updated appraisals being required at all three properties, the specifics of which are discussed herein."

So am I to understand from this that in 2021, in addition to the breaches that we had seen in prior years of the DSCR covenant, each of these three loans breached the DSCR covenants in 2021?
A Yes. That appears to be the case.
Q Okay.
And then in this case, updated appraisals were commissioned to test the loan-to-value to those properties?

A Correct, because there was this built-in mechanism in which we would order updated appraisals should the debt service

\section*{D. Williams - by Defense - Cross (Mr. Gaber)}

Page 5425
coverage levels drop below the requirements.
Q And the appraisals, I think in this year, cleared the DSCR breaches; is that correct?
A Um, I would have to review this document a little further to confirm that. It doesn't state that specifically here.
Q Do you remember if they do or not?
A I believe so, yes.
Q Okay. That's fine. Thank you.
Can I ask you to now look at the same page here, last bullet point there
"Protocol surrounding the relationship remains supervised by the covered client policy, business Risk Management, RM, and the ASC Group. A variety of precautionary measures are in place to maintain confidentiality and any business decisions surrounding the relationship are handled by the Reputational Risk Committee and senior bank management given the guarantor's status as former President of the United States. This population would also be responsible for advising of any additional measures to be taken as a result of any criminal charges regarding guarantor's company and related business entities."

Can you explain the protocols here described in this paragraph?
A So as described here is a variety of precautionary

1 measures that were put in place around the time Mr. Trump was 2 elected to office of the presidency in order to maintain confidentiality.

Q Now, moving -- sorry, I'm jumping around in the section here, but moving to the second bullet point, it says, "Delivery of all required reporting concerning the collateral properties and guarantor have been supplied in a timely manner. However, additional clarifications that have been requested from the client related to legal cases the client is facing have gone unanswered, and at present the client is tagged as an orderly exit."

What does it mean that "the client was tagged as an orderly exit"?
A So the decision was made internally by senior levels of bank management to exit the client's relationship on an orderly basis.

Q To the extent it says "There are additional clarifications that had been requested", were you involved in that process of trying to obtain updated information from the client?
A No, I was not.
Q Okay.
Can you tell me what it means to have "an orderly exit" in terms of the bank's policy or practice?
A So I would describe that in a context of a credit

Williams - by Defense - Cross (Mr. Gaber)
Page 5427
facility. As the loan matures, we would be opting not to renew or extend that credit facility, and we would advice the client with some advanced notice of that.

Q A single facility or all facilities related to that client?

A So in this case it says the client is to act as an orderly exit, so that would apply to all credit facilities as they matured.
Q Okay. Thank you?
MR. GABER: We could take that down.
(Whereupon, the exhibit displayed on the screen was taken down.)
Q Mr. Williams, you testified in speaking with Mr. Suarez that you would expect a client would provide you with truthful and accurate information; is that correct?
A Yes.
Q Okay.
Not just in a financial statement, but in all documents and information that a client submits to the bank; correct?

A Yes.
Q And as a lending officer, you have a regulatory obligation to make a report in circumstances where you believe counterparty has engaged in fraudulent conduct; correct?
A Um, there are internal procedures, steps that we would take if we ever determined that that was the case.
\begin{tabular}{|c|c|}
\hline D. Williams - by Defense - Cross (Mr. Gaber) Page 5428 & D. Williams - by Defense - Cross (Mr. Gaber) Page 5430 \\
\hline 1 Q Can you describe your understanding of those 2 procedures? & 1 (Whereupon, the exhibit was displayed on the 2 screen.) \\

Page 5441
amendment to the term loan agreement with Trump Endeavor 12 as borrower and Deutsche Bank Trust Company Americas as lender? A Yes.

MR. SUAREZ: Could you turn to page six of the exhibit? And if we could focus in on the section that says: If borrower is not in compliance.
Q And if you could please read the section that says: If borrower is not in compliance on such DSCR test date.

A If borrower is not in compliance on such DSCR test date with the applicable required debt service coverage ratio and the step-down percentage is 40 percent, 20 percent or 10 percent, such failure shall not constitute an event of default, but rather lender shall only have the right to conduct an appraisal at borrower's expense, in order to test the loan-to-value ratio in accordance with section 4.6(B).

Q Is this section of the loan agreement consistent with what actually happened?

A I believe so, yes.
Q To the best of your knowledge, was an event of default ever declared by Deutsche Bank on the loans made to the Trump Organization?

A No.
MR. SUAREZ: I have no further questions, Your

\section*{Honor?}

THE COURT: Any cross?

MR. WALLACE: No.
THE COURT: Okay. The witness is excused.
Thank you.
(Whereupon the witness exited the courtroom).
THE COURT: Defendants' next witness.
MR. KISE: Before we call the next witness, just briefly. I am just going to renew, based on the testimony we just heard today, renew our motion for directed verdict. The evidence before the defense began was clear, there is no -- the government had not introduced enough evidence of intent, materiality, reliance or damages for disgorgement with this witness. And I don't know how many more witnesses we need to call to confirm this. But this witness has again testified the bank conducted its own due diligence; the bank had no problem with a \(\$ 2\) billion difference, a \(\$ 3\) billion difference; large changes to net worth were not unusual. They didn't say there was any issue between what the bank viewed and the client reported numbers.

So, there has been no demonstration of any materiality issue here at all. There is no reliance. The bank made, just as this witness testified, just like Mr. Haigh testified, the bank made decisions based on its own analysis. There is no damage or disgorgement possible because there was no change in position by the bank based

\section*{Williams - by Defendant - Redirect (Suarez)}

Page 5443 on what President Trump submitted.

Again, as this witness testified, as I said in my opening, President Trump was overqualified for the loan. To be a private wealth customer, as you heard this witness testify, \(\$ 10\) million in liquidity, \(\$ 100\) million in net worth. At no time were either of those thresholds ever in danger of breach. In most years President Trump's liquidity exceeded \(\$ 100\) million, perhaps not every year, but most years. So there could be no ill gotten gain.

Even the DSCR breach that we went round and round about is yet another red herring by the government. Number one, it was self cured. But number two is, as you just heard the witness testify and as evinced by the documentary evidence, the loan documents which govern this relationship, it is not an event of default. It simply gives rise to rights under the agreement for the lender to take certain actions. So, there is no establishment of intent, no establishment of materiality, no reliance, no ill gotten gain.

This is now the second bank witness who signed off on these loans to testify that there was no problem at any point with these loans and these wide disparities which the Attorney General labels as fraud. The bank, who is in the relationship, whose job it is to make these determinations, it is not the Attorney General's job to
\begin{tabular}{|rc|c}
\hline Williams - by Defendant - Redirect (Suarez) \(\quad\) Page 5444 & William \\
1 & make these determinations post hoc, and say ten years & 1 \\
2 & later, insert herself into a commercial transaction that & 2 \\
3 & was successfully consummated. & 3 \\
4 & So, they haven't met any of the requisite & 4 \\
5 & elements. And so we would, again, renew our motion for & 5 \\
6 & directed verdict. & 6 \\
7 & Thank you, Judge. & 7 \\
8 & THE COURT: Plaintiff, would you like to & 8 \\
9 & respond? & 9 \\
10 & MR. WALLACE: No. This is not -- I don't know & 10 \\
11 & what the point of this motion is. The witness did not say & 11 \\
12 & that none of this matters. The witness said that actually & 12 \\
13 & they expect their clients to tell them the truth and not & 13 \\
14 & lie and not submit fraudulent statements. The idea that & 14 \\
15 & this witness somehow exonerates defense -- & 15 \\
16 & I'll also note that to the extent we are talking & 16 \\
17 & about claims two through seven, they do not involve fraud & 17 \\
18 & directed at Deutsche Bank. They involve fraud directed at & 18 \\
19 & creating false financial records, false financial & 19 \\
20 & statements and insurance fraud. So, testimony from a & 20 \\
21 & Deutsche Bank witness would not be a basis for directing a & 21 \\
22 & verdict under any circumstances. & 22 \\
23 & I think the idea that you can't lie to a bank, & 23 \\
24 & is pretty well established. And that we do not -- there & 24 \\
25 & is no failure of proof in any event. & 25 \\
& & \\
\hline
\end{tabular}

Page 5445

\section*{THE COURT: Very quick reply. MR. KISE: Just briefly, Your Honor.}

The question of whether or not the bank was lied to is not an abstract question. It is a question of whether the bank itself determined that the information submitted was satisfactory. None of us here, including respectfully, Your Honor, are here to supplant your own judgment, insert your own judgment as to what is accurate and what isn't for the parties to the transaction. This is not a situation where you have a complainant who is saying, I was defrauded, that there is an issue here. This is a highly sophisticated international financial institution which conducted significant due diligence. It is fully satisfied with the deal it struck. You have not heard anyone say to the contrary. We are just basically guessing and the Attorney General is substituting her own judgment for the parties'. There cannot be materiality if the party to the transaction, whose role it is to determine what is material to them and what isn't, this witness and Mr. Haigh have testified that the fluctuations in the numbers are not unusual. They are anticipated. Because, as you heard Dr. Laposa testify, as you heard me say, I am sure more times than you care to hear, this is a subjective exercise. There isn't a right answer. There isn't an, ah-ha, you picked the wrong number. The
question is, in the course of a sophisticated commercial transaction, was a bank like Deutsche Bank, conducting their own due diligence, satisfied with the information they received. Answer: yes, based on the evidence of record.

And so we can't just make up what we think should have happened. The Attorney General isn't free to just say, well, I don't care what that evidence says. I don't care what the bank thinks. I am here to be the protector. That's not our Capitalist system. That is not a free market system that we have in the United States of America, where an Attorney General --

MR. WALLACE: Your Honor, we have a witness waiting.

MR. KISE: I am just going to make my record.
MR. WALLACE: You made this record 100 times.
MR. KISE: I haven't made it 100 times.
MR. WALLACE: You made it at least 100 times.
MR. KISE: This is the third time. You are making it longer.

If everyone is of the view that evidence doesn't matter, fine. I guess I am wasting my time. I guess I am wasting my time and wasting my breath. Clearly the Attorney General thinks that actual witnesses who are actually involved in the transaction who signed the
documents, none of that matters. We have heard witness after witness come in and say that, and no one cares. If that is where we are, then I don't know what country we have landed in here in the State of New York.

But all I say is, I renew our motion for directed verdict. Thank you.

THE COURT: Mr. Wallace, would you like a surreply or a witness?

MR. WALLACE: I will just rest on the extensive record, on the summary judgment decision, and the entire proceedings on this case. And ask that we actually bring in the witness who will testify as to the facts.

THE COURT: And I am not prepared to give a whole speech on this. I would just basically point out that the mere fact that the lenders were happy, doesn't mean that the statute wasn't violated. It doesn't mean other statutes weren't violated.

I'll take it under advisement.
Let's get the witness.
COURT OFFICER: Witness entering.
(Whereupon the witness entered the courtroom and took the stand.)

COURT OFFICER: Raise your right hand for me. EMILY PERELESS, after having
first been duly sworn was examined and testified as

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5460

MR. SUAREZ: And if you could turn to page six of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Is that your signature?
A Yes.
Q What does the fact that this document contains your signature mean?

A That I was part of the group that compiled it.
MR. SUAREZ: And if we turn to page seven in the bottom paragraph of page seven?
(Whereupon, the exhibit was displayed on the screen.)
Q It says "Liquidity. On October 19, 2012, Tom Sullivan and Emily Schroeder visited the offices of the guarantor and reviewed bank and brokerage statements that confirmed 146.3 million in cash balances and marketable securities representing 86 percent of the client reported amount, and of which 118.4 million was held in the name of the guarantor and 27.9 million" -- excuse me, " 27.9 is held in operating accounts of entities that are wholly-owned by the guarantor. The client reported balance has decreased by 89.2 million from the prior year primarily due to the client's investment in property development, retirement of debt and asset acquisition."

What was the purpose of analyzing the client's

Page 5461
liquidity in this credit report?
A I don't recall, specifically.
Q Does the credit report accurately reflect the work that
you did to verify the client's -- excuse me, the guarantor's stated liquidity?

A To my knowledge, yes.
MR. SUAREZ: If we could turn to Plaintiff's Exhibit 290.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
MR. SUAREZ: Which is already in evidence.
\(Q\) Do you recognize this document?
A Yes.
Q Do you see the date of this document is July 24, 2013?
A Yes.
Q And are you the lender that's identified in the upper -- the box in the upper right-hand corner of this page?

A Yes.
Q What role did you have, if any, in preparing this credit report?
A Analyzing compiling the information provided.
Q And in doing so, did you comply with the bank's
policies and procedures?
MR. WALLACE: Objection leading.
E. Pereless - by Defense - Direct (Mr. Suarez)

Page 5462

THE COURT: Sustained.
Q Was your role in preparing this credit report
consistent with the bank's policies and procedures? MR. WALLACE: Objection. Leading. THE COURT: Sustained.
Q What, if any, inconsistencies were there in the preparation of this credit report with respect to the bank's internal policies and procedures?
A I do not recall.
Q If you see page six of this document, do you see your signature on the bottom left-hand corner of this page?
A Yes.
Q What does your signature mean on this document?
A That I was part of the group that compiled the report.
Q And what role would you have had in preparing the text contained in this report, if any?
A I probably did the first draft of it.
Q And does the report, to your knowledge, accurately
reflect the work that was done in evaluating the guarantor's financial strength?
A I do not recall.
MR. SUAREZ: If we could turn to Plaintiff's Exhibit 294.
(Whereupon, the exhibit was displayed on the screen.)
E. Pereless - by Defense - Direct (Mr. Suarez)

Page 5463
(The witness was handed the exhibit.)
Q Do you recognize this document?
A Yes.
Q What is the date of this document?
A May 2nd, 2014.
Q And what role did you have in preparing this document, if any?

A I analyzed and compiled the information provided.
Q What do you mean by "analyzed"?
A I mean, to review and -- review and, and compile it inside the memo.

Q What role did you have as a lender in connection with the credit decisions memorialized by this credit report?
A We did not make credit decisions. Credit decisions were made by Credit Risk Management.

Q What role did you have in supporting, or not
supporting, decisions made by the bank in connection with this credit report, if any?

A I do not recall.
Q Do you see on page 11 of the this document.
(Whereupon, the exhibit was displayed on the screen.)
Q On the left-hand corner in the middle of the page, do you recognize your signature?
25 A Yes.

1 Q Why would your signature appear on this document?
2 A Because I was part of the group that compiled the memo.

\section*{refresh her recollection as to what --}

MR. WALLACE: I believe her testimony was March 2015.

THE COURT: Okay. Thank you. I stand corrected. So she wasn't there. We all agree?

MR. SUAREZ: No, she wasn't there, I will withdraw this document.

May I have a moment to confer with my colleagues?
THE COURT: Of course.
(Whereupon, there is a brief pause in the testimony.)

MR. SUAREZ: If we could pull up the document previously marked as Defendant's Exhibit 66.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Do you recognize this document?
A Ido.
Q What is this document?
A It appears to be the Credit Risk Management Credit Guidelines, Private Wealth Management Americas.

Q And how -- are you familiar with this document?
A I'm not.
Q Were you familiar with this document at the time that you worked at Deutsche Bank?
E. Pereless - by Defense - Direct (Mr. Suarez)

Page 5466
1 A I was not.

2
3

Pereless - by Defense - Direct (Mr. Suarez)
Page 5467

Q Earlier we looked at Plaintiff's Exhibit 293.
(Whereupon, the exhibit was displayed on the screen.)
Q And we identified your -- that that was you as a lender on the upper right-hand corner.
A Mm-hmm.
Q Can you walk me through the mechanics of how this document would have been created?
A We would have been provided with financial statements regarding whatever the collateral is, and the sponsor, or the guarantor, and it would have been analyzed and presented in the memo form.

Q What role would you have had in that process?
A I would have taken the information and probably filled out some of the boxes and worked with the senior person to put together the terms and put them in the memo.
Q And in preparing the memo, would you have any reason to be inaccurate?
A Not that I recall.
Q How is the information -- withdrawn.
How would you receive the information that went into this memorandum?
A I do not recall specifically.
Q What interaction, if any, would you have with the individuals identified as relationship manager?

Q How is it that you recognize this document?
A Because I saw this in a deposition.
Q Prior to being shown this document in a deposition, had
you done anything to make yourself familiar with the contents of this document?
A No.
MR. SUAREZ: Okay. If we could pull up Plaintiffs Exhibit 378.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
MR. SUAREZ: I'm sorry, defendant's 378.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Do you recognize this document?
A The same thing, only from the deposition.
Q When you joined Deutsche Bank, what, if any, training did you receive on its policies and procedures?
A I do not recall.
Q While you were employed at Deutsche Bank, what, if any, continuing education did you receive concerning its internal policies and procedures?
A I do not recall.

1 A I don't recall specifically.
2 Q Who is Rosemary Vrablic?
3 A She is a banker. She was a banker.
4 Q What role did Rosemary Vrablic have in connection with 5 the credit facility identified by this credit report?
6 A She was the banker for the client.
7 Q Who is the client?
8 A Donald Trump.
9 Q Is that the beneficial owner that you pointed to up
10 there, Donald J. Trump?
11 A Yes. inue, I will note our objection at this point. This testimony is cumulative. This is the third witness that's

Page 5469
been asked about these documents. There's no new information coming in. We are getting the same questions that we've gotten from Mr. Haigh and from Mr. Williams. So if it could be truncated to new information, I think that would be appropriate.

MR. KISE: We are certainly going to do that. And I appreciate Mr. Wallace recognizing that yet another bank employee is coming in and being asked the same questions, so back to my directed verdict motion. We'll leave it there.

Thank you, Judge.
THE COURT: All right. 10:00 tomorrow, everyone. Ill direct the witness not to discuss the testimony or the case overnight, because you'll be a witness tomorrow.

THE WITNESS: Okay.
(Whereupon, the case on trial was adjourned to Wednesday, November 29, 2023, at 10:00 a.m.)

Senior Court Reporters

COURT OFFICER: All rise.
Part 37 is now in session. The Honorable Judge Arthur Engoron presiding.

Make sure all cell phones are on silent. Laptops and cell phones will be permitted, but only to members of the press. There is absolutely no recording or photography of any kind allowed in the courtroom.

Now please be seated and come to order.
THE COURT: Good morning, everyone.
And we are going to continue with Ms. Pereless, correct?

MR. KISE: Well Judge, three in a row now. As I told you yesterday on the break, we might be able to truncate it. So I think at this point to avoid cumulative testimony and prolong the proceedings, we are going to forego asking Ms. Pereless anymore questions. I don't know if the government has any questions. But, given that they said it was very cumulative, I am not sure they do. But we don't have -- in the interest of moving things along, we are prepared to proceed with Ms. Vrablic.

THE COURT: Well, we have a mutual interest. Okay. Plaintiff, would you like to?
MR. WALLACE: If Ms. Pereless is here we might have five to ten minutes of questions for her and we could get those out of the way.

Page 5473

\section*{THE COURT: Let's do it.}

MR. ROBERT: Your Honor, while we are waiting for the witness, to try to streamline things more.

I have Jack Weisselberg ready to come in this afternoon. In going through things last night, he was coming in as a custodian to introduce the Trump Tower loan agreement. So if the Attorney General would stipulate to these three documents, we don't need to bring Jack Weisselberg in this afternoon and can dispense with that as well.

MR. WALLACE: If you want to hand them to us we can take a look, and I think we can resolve it by the break.

MR. ROBERT: Sure. Just for the record, I am handing the Attorney General and I will hand up a copy to the Court Defendant's Exhibit 1058, which is the loan agreement between Trump Tower Commercial and Ladder Capital, dated August 30, 2012.

D-1059, which is the guaranty of property expenses for that loan.

And D-1060, which is the guaranty of recourse obligations.

I'll give one copy to the Attorney General and one to the Court. And if they could let us know during the first break so I can let Mr. Weisselberg and his

\hline 24 & And let's get to the cross exami & 24 Q You will see an e-mail from Mr. Phil Ribolow at \\
\hline 25 & & 25 Deutsche Bank to yourself, and the subject is CBRE Appraisal of \\
\hline \multicolumn{2}{|l|}{Pereless - by Defendant - Cross (Ladov)} & Pereless - by Defendant - Cross (Ladov) Page 5477 \\
\hline & CROSS-EXAMINATION & the Marriott Doral Golf Resort and Spa. \\
\hline & ADO & 2 Do you recall who Phil Ribolow is? \\
\hline & Q Good morning, & 3 A Yes. \\
\hline 4 & My name is Mark Ladov. I represent the People of the & 4 Q And who is he? \\
\hline & State of New York. We met briefly at your deposition a few & 5 A He worked in Evaluation Services Group. \\
\hline & months ago. It is good to see you again. & 6 Q And at the beginning of the e-mail it says: Dear \\
\hline & A You as well. & 7 Emily "At your request, 1) I am detailing the areas of \\
\hline & Q I want to ask a few minutes worth of questions to & 8 objection with the CBRE appraisal below. 2) Providing my \\
\hline & follow up on a couple of questions Mr. Suarez asked yesterday. & 9 estimate of value. And also 3) A guide to what range of value \\
\hline 10 & So you were shown a list of due diligence items on & 10 might be obtained if this property were to be appraised by a \\
\hline & oral loan. Actually I'll bring it up. It was marked as & 11 knowledgable appraiser who is well-versed in the South Florida \\
\hline & endant's Exhibit 185. And you will see on the second page, & 12 Golf Resort Market." \\
\hline & can look at it on the screen I think. On the second page of & 13 Does this refresh your recollection at all about \\
\hline & ue dilig & 14 what, if anything, you had done with regard to an appraisal on \\
\hline 15 & MR. LADOV: You know what, it is D-185 & 15 Doral? \\
\hline & rrected & 16 A No, just that we provided it to the Appraisal \\
\hline & Q Well, just to move things along I'll represent to you & 17 Services Group to review. \\
\hline & at one of the items on that list was an appraisal on Doral & 18 Q And do you recall why you would have done that? \\
\hline & sort. I know you testified yesterday that you did not have a & 19 A I think it was due diligence when we were looking to \\
\hline & cific recollection about that appraisal. But I wanted to & 20 do the \\
\hline & you through a couple of documents to see if we can refresh & \(21 \quad\) Q And so in the next sentence Mr. Ribolow writes: "The \\
\hline & ur recollection and ask some follow-up questions about & 22 objections have been written in the order presented within the \\
\hline & sche Bank's review of that appraisal and how it related to & 23 report. In the interest of saving busy readers some time, the \\
\hline & un & 24 areas of objection with the greatest impact are items number 1, \\
\hline & So I would like to ask to show you a -- a document & \(253,7,11,13,15\), and 16. \\
\hline
\end{tabular}

Page 5479
the range of 110 to \(\$ 115\) million.
And then he also says in that last paragraph: "a DB commissioned appraisal might conclude to a value somewhere in the range of 120 to \(\$ 130\) million. I could conceivably support that value if the analyses and assumptions were well-researched, market-oriented and appropriately supported.

MR. LADOV: And then actually scrolling down for
a second to look at Mr. Ribolow's signature.
Q It says that he is in CIB/Credit Risk Management. Do you have an understanding of what that refers to?

A I think CIB stood for Corporate Investment Bank, but I am not positive. And Credit Risk Management is Credit Risk Management.

Q Okay. And then scrolling back up to the first page of the document. And you forwarded this e-mail from Mr. Ribolow to Tom Sullivan. Correct?

A Yes.
Q And who was Tom Sullivan?
A Tom Sullivan was my boss.
Q And what was his role in the underwriting process for the Doral facility?

A He was the senior lender.
Q And then again, I think you mentioned this before, but at the very top Mr. Sullivan forwarded this conversation to Marcus Mitchell. Who is Marcus Mitchell?

\section*{down.}

Q There are about three pages worth of objections to the appraisal.

MR. LADOV: And then if you scroll all the way down to the end.
Q After about 16 paragraphs Mr. Ribolow writes to you that: Based on his objections and adjustments that he is, quote, "comfortable with concluding a value for the property in

And I am not going to go through the whole e-mail, but in paragraph one Mr. Ribolow objects that, quote -- that the, quote, "appraiser states that his value includes a buyer's assumption of the cash liability of the refundable memberships, but presents no data or analysis as to how much that liability

If you look down to paragraph three, he talks a bit about the land use analysis in the appraisal. And he objects that the, quote, "area surrounding the subject is a new area of

And then at the end of that paragraph he says that this is, quote, "hardly conducive to the appraiser's utilizing trophy hotel property return parameters to value Doral. Resorts located in industrial zones alongside airport flight paths rarely achieve premium pricing.

And then it goes on.
MR. LADOV: Actually, if we can just scroll

A He was the head of the group.
Q And which group was that?
A The structured lending group.
Q And so what was his role in regard to the Doral facility?

A He was a just a senior member of the group.
Q And do you have any recollection of what happened as a result of this analysis of the appraisal on Doral?

A I do not recall.
Q Okay. So I want to show you one other document which was previously marked as Plaintiffs Exhibit 1836.

And Ms. Pereless, do you recognize this document?
A Ido.
Q And what is it?
A It looks like it is a -- it is a credit memo. I am not totally sure what for.

Q Okay.
MR. LADOV: Your Honor, I ask to move this into evidence as well.

MR. KISE: Objection, foundation.
THE COURT: We don't know what it is yet.
Q Ms. Pereless, I will note it is dated February 6, 2012. And if you look down in that box, you are listed as one of the lenders. And on the far left side there is a box checked off that says, "other amendment." Do you have an
understanding of what that might refer to?
A Not specifically what this was. But it just would have been another amendment to the facility.

MR. LADOV: Okay. And if we can scroll down a
little bit just to look at the top line.
Q Actually, do you know what facility this document refers to looking at it now, based on the date and any of the other information there?

A I don't, because it doesn't say.
Q If I represented to you that this was for the Doral facility, would that sound correct?

A It would make sense. But it doesn't say what the property was.

Q And so if we look at the top line there where it says: Existing terms, Revised terms and Reason.

In the far left column it says: Existing terms. Facility amount \(\$ 125\) million secured note.

Under revised terms it says: Facility amount \(\$ 125\) million as evidenced by (i) a secured tranche A note in the principal amount of \(\$ 106\) million. And (ii) an unsecured tranche B note in the principal amount of \(\$ 19\) million.

Do you have any recollection of whether the Doral facility was split into two tranches like this?

A I don't recall.
Q Okay. And under reason it says that: The

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5494

1 Q Do you see where it says "The Chicago condos are selling like hotcakes"?

A Yes.
\(4 \quad\) Q What did you mean by that?
5 A The loan that we had done was secured by condos that were up for sale, and the condos were selling at a faster pace than we had expected.

Q And you go on to write "The condo loan was 53 million and is down to 23 million already."

Why is that something that you would have communicated to Richard Byrne?
A He was the real estate private banker or banker for Mr. Trump, and he would always want to know what the existing facilities were like and outstanding.

Q And then you go on to write, "Doral is looking quite nice... the entry has been redone and their website shows the rooms being renovated. Quite nice. We are going down the first week of March to visit."

Do you see that?
A Yes.
Q What did you mean by that?
A The - in keeping with the update, I was giving him an update of the renovations and construction that was being done at Doral. And my e-mail just gives him an outline of that. And that we were going to go down and make a site visit.

1 Q What was the meeting with Anshu Jain and President Trump about?

A It was to be introductory meeting for them to meet each other and to have lunch.

Q Was there a business agenda for the meeting?
A Nothing specific.
Q Why would the cochairman of Deutsche Bank want to meet with President Trump?

MR. WALLACE: Objection to the "would" again, as opposed to did.

THE COURT: Sustained.
Q Why did you want to set up a meeting between President Trump and Anshu Jain?

A It was requested, at the time, for me to do that.
Q Who made that request of you?
A Mr. Jain's office.
Q And why would Mr. Jain's office make that request of you?

A Periodically I would get calls from his office and other chairmans' offices to meet clients.

Q How, if at all, did the performance of the Chicago and Doral loans impact the decision to set up a meeting between President Trump and Mr. Jain?

A Um, it would have been a standard type of, um, meeting to be set up with a successful project like that.
\begin{tabular}{|c|c|c|}

R. Vrablic - by Defendant - Direct (Mr. Suarez)

Page 5497
MR. SUAREZ: Your Honor, I move Defendant's Exhibit 296 into evidence.

THE COURT: Granted. It's in.
(Defendant's Exhibit 296 was deemed marked and admitted in evidence.)

MR. SUAREZ: We'll move onto Defendant's Exhibit, pre-marked for identification, Exhibit D-297.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
THE WITNESS: Thank you.
Q Do you see at the top, Ms. Vrablic, that you were
copied on this e-mail on February 19, 2013?
A Yes.
Q What is this e-mail enclosing?
A From reading it, it looks as if it's a briefing for -on Mr. Trump.

Q Do you see where it says, "Subject: Briefing for Anshu"?
A Yes.
Q Why would Mr. Jain had been provided a briefing on Mr. Trump before the meeting?

A It was pretty standard for all meetings with the chairman that briefings like this would be done.

MR. SUAREZ: If we could please pull up pre-marked
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this document?
(The witness was handed the exhibit.)
A Yes.
Q What is this document?
A This would have been the briefing that would have been provided to Mr. Jain.
Q If you see on the bottom of this second page of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see where it says, "Mr. Trump's personal financial statement reflects a net worth in excess of 2.5 billion as adjusted by DB Lending with liquidity of 100 million plus, and limited liabilities. He is risk rated \(\mathrm{A}^{\prime \prime}\) ?

A Yes.
Q Why would that have been relevant to include in a briefing for your meeting with President Trump and Mr. Jain?

A Again, I think it was standard practice for the financial listing to be there.
Q And do you see in "Background" it says, "The Trump relationship with AWM began in 2011 when Donald Trump, Jr. was introduced to Rosemary Vrablic by Jared Kushner, husband of
R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5499

Ivanka Trump." And then it goes on to describe the relationship and it lists a small loan and deposit relationship was started with Donald, Jr., and we were introduced to the Trump family. Donald Trump opened up a deposit IA accounts with us in December 2011."

What is the import of President Trump opening a deposit and IA account with Deutsche Bank in December of 2011, if any?

A Just that he was a customer.
Q And then towards the end of that paragraph it says, "As can be seen on the below chart, we have in excess of 200 million in loans, 30 million in investable assets, and closed on an asset interest rate swap generating capital markets income." What does that mean?
A Just that it was a broad-based relationship of various products that were being used by the Trump family.
Q Was this consistent with the goal of developing a relationship with President Trump?

\section*{A Yes.}

Q And you see a chart that appears in the following, um, below the paragraph that we were just discussing?

What does the chart reference when it says "revenue"?
A It would be revenue to the bank.
Q Revenue to the bank.
And in year end 2011 it showed revenue of 13,447 ; is that correct?
R. Vrablic - by Defendant - Direct (Mr. Suarez)

Page 5500

1 A Yes.
2 Q How did the revenue change in year end 2012?
3 A Primarily, from the loan increase there would be
4 interest income plus the capital markets income.
5 Q What does pro forma 2013 mean?
6 A Based upon loans that had been closed in 2013, that 7 would be the projected revenue that would be generated by all of 8 the facilities.
9 Q What was the projected revenue in 2013 from the relationship with President Trump?

A Six million.
Q How did the relationship grow from 2011 to 2013?
A We had done three loans, Doral, Chicago and OPO, plus the depository and the capital markets business.
Q What does "loans AUM" mean?
A Assets under management.
Q And how do loans AUM affect the revenue generated by the bank?
A There is interest income earned on loans.
Q And how did the loans assets under management change from 2011 to 2012?
A As I said, we closed on Doral, um, Chicago, and then OPO would have been closed subsequently.
Q And what do deposits/IA AUM mean?
A They were deposits maintained at the bank, plus

Vrablic - by Defendant - Direct (Mr. Suarez)
Page 5501
investment management accounts.
Q How, if at all, is that a source of revenue for the bank?

A The bank is earning money or deposits, plus investment management fees.

Q Was it an objective of the bank to increase assets and deposits under management from President Trump?

A Yes.
Q Was the bank successful in doing that?
A Yes.
Q And then it says, "asterisk, top five relationships in terms of revenue for Rosemary Vrablic and her team." Do you see that?
A Yes.
Q What did that mean?
A In terms of my client base, he would have been a top five name in terms of profitability.
Q And then it -- the bottom, it says, "Going forward we expect to continue to grow the relationship in all asset categories."

Do you see that?
A Yes.
Q What, if anything, would that indicate about the bank's interest in further developing a relationship with President Trump?

A That we would have liked to have increased all the categories.

MR. SUAREZ: Your Honor, we move Defendant's
Exhibits 297 and 298 into evidence.
THE COURT: Granted. It's in, or they're in.
(Defendant's Exhibits 297 and 298 were deemed marked and admitted in evidence.)
Q If I could turn your attention to the "key asks." Do you see key ask number one, "Obtain more deposits and investment management assets."

What does that mean?
A To obtain more deposits and investment accounts.
Q What does it mean that it was a key ask?
A Usually the chairman would like to know things to ask the customers, and so that was one of the number one asks.

Q What was the second ask?
A That would be referrals from Mr. Trump.
Q Is that where it says "Strategically discuss leveraging Mr. Trump's personal and professional network within the real estate industry in New York for the benefit of DB and AWM"?

A Yes.
Q Why would that have been a key ask for the bank?
A The primary source of customers usually is referrals from existing customers.
25 Q And how could Mr. Trump, President Trump assist the
R. Vrablic - by Defendant - Direct (Mr. Suarez)

Page 5503

\section*{bank in developing referrals?}

A He would know other people who would be potentially
fitting in the high net worth category, or DB's real estate department.

Q What, if any, benefit did Deutsche Bank have to gain
from leveraging President Trump's personal and professional network?

A As I said, existing customers were the best source of additional customers.

Q Was this consistent with the bank's approved business strategies?

A Yes.
Q What, if anything, was communicated to President Trump concerning the bank's desire to continue doing business with him at the meeting with Mr. Jain?

A Just that we were -- again, the introduction to Mr. Jain, and to see if there was any other additional business to be done together.

Q How did Mr. Jain react to the meeting with President Trump?

> A The meeting went very well.

Q Why would you say it "went very well"?
A Well, they got along, um, and it was a very, very nice productive lunch.

Q As a result of the meeting, what, if any actions, were
taken to further the relationship with President Trump?
A I don't remember anything specifically.
Q Did Mr. Jain express that President Trump was under leveraged? MR. WALLACE: Objection. Leading. THE COURT: Sustained.
Q What, if any view, did Mr. Jain share concerning
Mr. Trump's leverage around the time of this meeting?
A Um, Mr. Jain, um, thought that, um, if Mr. Trump wanted to, that there could be additional leverage provided among his world.

MR. SUAREZ: If we could please pull up pre-marked for identification Defendant's Exhibit 299.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q What, if any, professional relationship did you maintain with Ms. Ivanka Trump prior it -- excuse me, while you were employed at Deutsche Bank?
A Ivanka was my main liaison on the deal at specific points in this transaction.

Q Who was Michele Fassiola?
A Michele Fassiola was my boss and head of Asset Wealth Management.

Q Do you recognize this e-mail?

Vrablic - by Defendant - Direct (Mr. Suarez)
Page 5505
A No.
Q Is that your e-mail address up top?
A Yes.
Q Were you employed by Deutsche Bank on August 7th, 2014?
A Yes.
Q Do you have any reason to doubt that you sent this e-mail to Ms. Trump?

A No.
Q Do you see where it says, "Ivanka hi! My direct boss, Michele Fassiola, he's Italian -- "Michele", I'm sorry, "Fassiola (he's Italian) would like to call you and your dad to thank you for being such great clients and for all the business we have been doing together. Your family is in the top ten revenue generating names of Asset and Wealth Management now, and he is thrilled with how it's grown."

Do you see that?
A Yes.
Q Is that statement accurate?
MR. WALLACE: Objection.
A Yes.
THE COURT: What's the grounds of the objection?
MR. WALLACE: Im not sure which aspect of the statement she's being asked about.

THE COURT: I assume it was the last sentence that was highlighted. "Thrilled" and "how it's grown."

\hline
\end{tabular}

Kushner saying that they were going to be bidding on the Doral Golf Course and were looking for financing.

Q How, if at all, did you participate in the negotiation of that loan?

A I would be the intermediary between the credit and lending department and the customer.

MR. SUAREZ: If we could pull up Defendant's
Exhibit 311 and start with page three of the document.
Q Do you recognize this e-mail?
A Yes.
Q What does subject "Eagle" mean?
A That was the code name given for the deal.
Q And who is Thomas Bowers?
A He was my boss at the time.
Q And then he writes: Didn't realize LTV is 83 percent. Realize strength of the guarantor, but this definitely needs to be shown to PDW and BP. Can you give me an e-mail that discusses opportunity for additional business, both related to the deal and otherwise? Important to have PDW and BP on board.

Why would an e-mail discussing opportunities for additional business be relevant to this transaction?

A The intent was to cross sell all of our customers, so the additional other business is also an important category.

Q And then if we scroll up to the e-mail on page two.

Page 5513
Do you recognize this as your response to Mr. Bowers e-mail?
A Yes.
Q And you write: Tom, it is 83 percent of purchase price of 150 mmm , what does mmm mean?

A 150 million.
Q The CBRE appraisal -- which was done for another bank -- that we will review -- is at 180 million, which could result in an LTV of 69 . We expect this report right after Christmas. The environmental was clean.

Why would the bank consider an appraisal prepared for another bank?

A You would have to talk to credit and lending on that.
Q And then you respond: The other business is significant deposit business. DJT has already moved in 20 million to us. He has another 200 million at a variety of other banks.

How is that relevant to this transaction?
A Again for cross selling purposes.
Q And then: Charlie Burrows is putting together the DBAG options to present to them in January. What is DBAG?
A That's the parent name of Deutsche Bank.
Q And what did it mean that Charlie Burrows was putting together other options to present for them?

A He provided products for cash management.

Q Was that another opportunity to cross sell to President Trump?

A Yes.
Q And then it says: Kevin Carey at RCM are also key for RCM since DJT has another \(\mathbf{6 0}\) million in treasuries and bonds.

Why was that relevant to this transaction?
A Another source of cross selling.
Q And then B says: Estate planning. DJT has done very
little. We will show them dynasty trusts as well as other capabilities.

Do you see that?
A Yes.
Q Why was that relevant to this transaction?
A Cross selling.
Q Why would the bank be interested in cross selling to President Trump?

MR. WALLACE: Objection, asked and answered.
THE COURT: They are trying to make money. Why
wouldn't they want to do more business with someone that they are already making money with?

MR. SUAREZ: I realize some of my questions sound a little obvious. I have to ask them this way because Your Honor wants me to not ask anything that is in the ballpark of a leading question. But I would be happy
\begin{tabular}{|cc} 
Vrablik - by Defendant - Direct (Suarez) \\
1 & to move this along if the Court would grant me a little \\
2 & leeway. \\
3 & THE COURT: How about we do this. I'll sustain \\
4 & the objection to this question because it has been asked \\
5 & and answered several times, and it is obvious. But I \\
6 & won't restrict you at all, ask whatever you want. \\
7 & Q Do you see where it says: New clients/referrals? \\
8 & A \(\quad\) Yes. \\
9 & Q Why, if at all, were new clients and referrals \\
10 & relevant to this transaction? \\
11 & A Again, we like referrals coming from existing \\
12 & customers. \\
13 & Q How, if at all, does that affect the bank's \\
14 & profitability? \\
15 & A They would buy and use some of our services which \\
16 & would generate profitability for the bank. \\
17 & Q And then it says: Given the circles this family \\
18 & travels in, we expect to be introduced to the wealthiest people \\
19 & on the planet. \\
20 & Was that consistent with -- withdrawn. \\
21 & How, if at all, was that consistent with the bank's \\
22 & objective to develop additional business through its \\
23 & relationship with President Trump? \\
24 & A To get, you know, referrals to become new clients. \\
25 & Q And how, if at all, was this consistent with your job
\end{tabular}
responsibilities at the bank at that time?
A It was consistent.
Q And then if we scroll to the top of the document, which I believe is another e-mail, you wrote to Mr. Bowers in response to an e-mail from him. It says: Tom, they are ecstatic with your performance, so I think we will get tremendous business from them. I think we can become the lead bank in short order.

What did this statement to Mr. Bowers mean?
A That the Trumps were happy with how the bank had performed and that we could become their lead bank.

Q Why -- let me rephrase that.
Would the bank - would it have been an objective of the bank to become their lead bank?

A Yes.
Q Why is that?
A In terms of private banking, if you are the
customer's lead bank you tend to get the first look at any type of transactions, products, things along that nature.

Q And how, if at all, would that impact the bank's ability to generate additional revenue from this relationship?

A If you did get a first look at different opportunities, you had the opportunity to turn down, do them. And again, that would generate more business, which would generate more revenues.

MR. SUAREZ: Your Honor, I move Defendant's Exhibit 311 into evidence.

THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 311 by the Court.)

MR. SUAREZ: If we could pull up premarked Defendant's Exhibit 312.
(Handing)
THE WITNESS: Thank you.
MR. SUAREZ: And if we could scroll down to the e-mail at the bottom of this page.
Q Do you see where it says: I would conclude first paragraph by saying, we recommend on the basis that it is a sound credit and even in the absence of a personal guaranty, but that the PG makes it a remarkably safe deal given the strength of the g-tor.

What does that mean?
A G-tor is guarantor.
Q And what was the import, if any, of Mr. Bowers concluding that it was a sound -- that he would recommend it on the basis of sound credit, even in the absence of a personal guarantee?

A I think Tom's intent would have been that the transaction itself was a very sound credit deal.
\begin{tabular}{|c|c|}

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5526
1 \(\quad\) Q And what were your impressions after visiting The Trump
R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5527

1 Q Do you see in the middle of page you forwarded an e-mail of Ms. Schroeder to Ivanka Trump on June 12, 2013 ?

A Yes.
4

Q And if I could direct your attention to paragraph two, labeled two. It says, "We had a great meeting today with Credit Risk, and they are very open to the extension and the burn off of your dad's guarantee. It was quite remarkable and a testament to you and your family in what you have achieved with us so quickly."

What is the reference to the "burn off of your dad's guarantee" referring to?
A There had been a request by Ivanka for her dad's full recourse guarantee to be either limited, or none, at some point.

Q And how does the bank evaluate those requests?
A The credit and underwriting team would do a full analysis and come up with a conclusion.

Q And what did you mean, "It was quite remarkable and a testament to you and your family in what you have achieved with us so quickly on our projects"?
A It was -- the request for something like that to be considered by the bank is somewhat unique, and so it was a testament to how fast they had progressed with all the properties.
Q Was it consistent with -- withdrawn.
Was the progression of the -- withdrawn.

Was the performance of the credit facilities consistent with the bank's expectations?
A Yes.
MR. SUAREZ: We move Defendant's Exhibit 325 into evidence.

THE COURT: Granted. It's in.
(Defendant's Exhibit 325 was deemed marked and admitted in evidence.)

MR. SUAREZ: I would next like to show the witness what's been marked for identification purposes as Defendant's Exhibit 326.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Do you recognize this document?
A Yes.
MR. SUAREZ: And if we scroll to the bottom of the page.
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q It appears to start with an e-mail from Ivanka Trump to you, and it says, "Hi Rosemary, I just wanted to give you the heads up that I sent the attached Trump Chicago investment memo to Dave Goodman. I think it would be a great loan for DB and appreciate all your support in trying to make it happen."

\section*{Vrablic - by Defendant - Direct (Mr. Suarez)}

Page 5529
What was Ms. Trump referring to?
A It was a financing opportunity on the Chicago property that she was sending to Dave Goodman.

Q Who is Dave Goodman?
A He was a real estate banker.
Q And what, if anything, ultimately happened with that financing opportunity?

A Um, the loan was done in PWM.
Q Why was the loan done in PWM?
A Mr. Trump was willing to personally guarantee it.
Q And did the bank receive the personal guaranty that it requested?

A Yes.
Q And at the top it says "Ivanka, I will reach out to Dave today and make sure he is aware of the expansive PWM relationship and how important you and your family's business have become to the bank."

Do you see that?
A Yes.
Q What was the purpose of reaching out to Dave Goodman with that information?
A Well, the -- Ivanka wanted to have, um, a potential deal, loan from both us and the real estate bank. And so it was important for him to see the full breadth of what was going on with the Trump family and the bank.
\begin{tabular}{|c|c|}
\hline R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5530 & R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5532 \\

\hline 4 Chicago revised terms." Do you see that? & 4 THE COURT: Granted. It's in. \\
\hline 5 A Yes. & 5 (Defendant's Exhibit 331 was deemed marked and \\
\hline 6 Q Is this the same transaction that you were discussing & 6 admitted in evidence.) \\
\hline 7 earlier with Dave Goodman? & 7 Q Do you see at the top where it says "No need" -- it's \\
\hline 8 A Yes. & 8 an e-mail from Tom Bowers to you. It says, "No need to get \\
\hline 9 Q And you write, "Balaji, you seem to ignore that we now & 9 adversarial at this stage. Balaji, I'm just reflecting MF's \\
\hline 10 have 36 percent LTV where we - where we were willing to go up & 10 desire to get an appropriate spread." \\
\hline 11 to 60 percent on the hotel and you have shortened her term on & 11 Do you see that? \\
\hline 12 the condos from five years to five years. The pricing is & 12 A Yes. \\
\hline 13 appropriate for the risk. I will ask for the additional AUMs." & 13 Q If the bank had not -- did not achieve an appropriate \\
\hline 14 What did you mean by that? & 14 spread, would it have closed on the transaction? \\
\hline 15 A I think this was just my response to the new terms and & 15 A No. \\
\hline 16 conditions that lending and credit risk wanted. & 16 Q Do you see where it says "this is a superb deal." \\
\hline 17 Q And then it says "This is the deal she wants and will & 17 A Yes. \\
\hline 18 take. If you are not comfortable, we need to pass." & 18 Q Was Mr. Bowers' assessment of the deal consistent with \\
\hline 19 Do you see that? & 19 the bank's approved business strategies? \\
\hline 20 A Yes. & 20 A I'm not sure I understand that. \\
\hline 21 Q And was the bank ultimately comfortable with making & 21 Q I'll withdraw it. Was there -- would you agree with \\
\hline 22 this deal? & 22 Mr. Bowers' assessment of the deal? \\
\hline 23 A Yes. & 23 MR. WALLACE: Objection. Again, the "would" versus \\
\hline 24 Q And in general terms, how does the negotiation between & 24 did, do. \\
\hline 25 the credit side -- let me withdraw that. & \begin{tabular}{l}
\[
25
\] \\
THE COURT: Sustained.
\end{tabular} \\
\hline
\end{tabular}

1 Q Did you agree at the time with Mr. Bowers' assessment of the deal?

A I thought it was a good deal, yes.
4 Q Was that from the perspective of the bank? 5 A Yes.

MR. SUAREZ: I would like to show the witness what has been pre-marked as Defendant's Exhibit 335.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
MR. SUAREZ: If we could turn to the e-mail dated October 15th, 2012, from you to Ivanka Trump. (Whereupon, the exhibit was displayed on the screen.) MR. SUAREZ: On the second page.
(Whereupon, the exhibit was displayed on the screen.)

MR. SUAREZ: I apologize, the e-mail dated October 15th, 2012.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you recognize this as an e-mail you sent to Ivanka Trump?

A Yes.
Q What is the subject matter of the e-mail?
R. Vrablic - by Defendant - Direct (Mr. Suarez)

Page 5535

A Pricing update.
Q Is the discussion you had with Ms. Trump consistent with your general practice in negotiating deal terms for the bank?
A Yes.
Q And then you go on to provide pricing on a loan, and at the bottom you write, "Please review this revised pricing offer. I hope this is acceptable to you. And we look forward to closing this on Halloween."

Do you see that?
A Yes.
Q Was this e-mail consistent with the manner in which you helped the bank and clients bridge loans, loan terms in your capacity at the bank?

\section*{A Yes.}

MR. SUAREZ: And then if we scroll up to the e-mail that you wrote Ms. Trump on October 15th.
(Whereupon, the exhibit was displayed on the screen.)
Q The subject matter regarding pricing update, it says, "I try to be fair and I think in this case both you and the bank are happy."

Do you see that?
A Yes.
Q What did you mean by that?
    he was technically my backup on this.
        Q Do you see this e-mail was sent on Friday,
    November 9th, 2012, to Ivanka Trump?
            A Yes.
        Q And with respect to Ms. Trump, you were copied on this
    e-mail. Do you see this?
        A Yes.
        Q You see where it says, "Hi Ivanka. I want to thank you
    and your dad for once again giving us the opportunities to meet
    your financing needs. The professionalism and efficiency of
    both organizations has made for a smooth and timely closing of
    this transaction. Your organization is great to work with.
    Thanks again for the confidence you have in us, and we are very
    appreciative of receiving this additional business. Have a
    great weekend."
            Was this e-mail sent in reference to the Chicago
    transaction that we've discussed?
            A I would think so.
            Q And was this e-mail consistent with your own opinions
    of that transaction?

A Yes.
MR. SUAREZ: Your Honor, I move Defendant's Exhibit 338 into evidence.

A Yes.
Q And you write: Hi. I just spoke with Ivanka Trump re your group taking a look at the above transaction. We have quite a robust and great relationship with the family in the private bank and can provide you with a good amount of background and exposure to senior management for your underwriting.

Do you know what you would have meant by "exposure to senior management"?

A Yes. It would have been the type of meetings with Michiel and/or Anshu Jain.

Q That would be Michiel Fassiola?
A That's correct.
Q And then you write: I know this is a highly competitive and time sensitive situation, so I am in the office tomorrow to discuss.

\section*{Do you know what you meant by that?}

A Well, after reading this they would have been another part of the bank potentially looking at this transaction, and I just would want to have been as helpful as I could.

Q Why would another part of the bank be looking at the transaction?

A There are different avenues within the bank that could potentially provide real estate financing. So, based upon this Ivanka would have reached out to Mr. Gustafson.

Meetings with credit on both your deals went well. Yeah.
Can we set some times later -- excuse me. Can we set some times late morning to go over each individually? Let me know.

With respect to Ms. Trump, what was this e-mail about?

A It probably would have been about OPO.
Q And what, if anything, do you recall about the discussions you had with Ms. Trump concerning credit meetings on that deal?

A I don't recall.
MR. SUAREZ: Scroll up to another part -- to a later part of the e-mail. I am sorry. Further up the exhibit on page one.
Q You write back to Ms. Trump: Ivanka, good morning. Tom and Emily have a few questions for Dave (they sent him an e-mail last night) and they will have a full term sheet for us -- maybe today if we are lucky -- or Monday the latest. Credit has given us the green light, so I see absolutely no issues.

What did you mean by "credit has given us the green light so I see absolutely no issues"?
A For a term sheet to be given out to a customer, credit had to approve the transaction. So they would have given us a green light to go forward.

Vrablik - by Defendant - Direct (Suarez)
Page 5543

Q And what, if any, interest would Private Wealth Management have had to obtain the business as opposed to another division of the bank?

A Well certainly from our profitability it would be better for it to be booked in the Private Wealth Management. But ultimately we would just want to see a happy customer. So if it was done in another part of the bank that would be fine as well.

MR. SUAREZ: Your Honor, I move Defendant's
Exhibit 779 into evidence.
THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 779 by the Court.)

MR. SUAREZ: I would like to show the witness
what has been marked as Defendant's Exhibit 342.
(Handing)
MR. SUAREZ: And if you could turn to the second page of the e-mail. At the bottom.
Q Do you recognize this as an e-mail that you sent on
November 26, 2013 to Ivanka Trump and Jared Kushner?
A Yes.
Q Do you see where it says: Subject Credit Meetings?
A Yes.
Q And you write: Hi. Hope you had a good flight.
\begin{tabular}{|c|c|c|}

\hline
\end{tabular}

Page 5551
2014?
A Yes.
Q And what would be the purpose of sending this information to Mr. Sullivan and Ms. Schroeder?

A This sort of information would be available to the private banking side of the organization. And so Tom and Emily probably would have put that in their credit write-up or annual review. But that would be something they would need for their report.

Q And how would this information, if at all, inform the bank's decision-making on how it wanted to develop a relationship with the Trump Organization?

A It would just be a fact of what was generated from the business.

MR. SUAREZ: Your Honor, we move Defendant's
Exhibit 343 into evidence.
THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed marked for evidence as Defendant's Exhibit 343 by the Court.)
Q What, if any, knowledge do you have concerning the performance of the OPO loan?

A When I was working at the bank it was current.
Q When, if at all, did you visit the OPO property?
A I was there for the first time to see it in its "as
is" condition before they did all of the work. There was another visit midway when the work was being done. And I believe there was a third for the ground breaking, something of that nature. And then I was there during the inauguration.

Q And what view, if any, do you have -- withdrawn.
What was your opinion at the time concerning the repositioning of the hotel project?

A Well, it was an empty shell, so it was neglected for a period of time. And it needed a wholesale redoing of the whole thing for it to become the vision that the Trumps had for it.

Q Was the performance of the OPO project consistent with your expectation for that project when the loan was originated?

A Yes. They took it from a shell to a fully operational hotel and event space.

MR. SUAREZ: I would like to turn your attention to what has been previously marked as Plaintiffs Exhibit 298.

\section*{(Handing)}

Q Do you see the date at the top right-hand corner of this document?
A Yes.
Q And were you employed at the bank on July 20, 2015?
A Yes.

Vrablik - by Defendant - Direct (Suarez)
Page 5553
Q Do you see at the bottom there below the date it says: Relationship manager Vrablic/Scalzi?

A Yes.
Q What does that mean?
A We were both involved from the relationship management side on this transaction.

Q And do you see: Lender Williams/Frank?
Does that mean anything to you?
A Yes.
Q What does that mean?
A The two lenders were Dave Williams and Josh Frank.
Q And what is the role of the lender in the client relationship?
A They would be responsible for the underwriting of the transaction and working with the credit risk to get it approved.

Q And if you look at: Group. The Trump Family in the box to the left. Do you know what that grouping refers to?

A I would assume all of the deals that were done for the Trump family.

Q And then it identifies: Borrowers A, Trump Endeavor 12 LLC. B, 401 North Wabash Venture LLC. C, Trump Old Post Office LLC.

Do you see that?
A Yes.

Page 5555
A It would generate more revenue and profitability for the bank.

Q Was that revenue captured in the prior analysis that we reviewed concerning revenue generated by the relationship with President Trump?

A I would think so.
Q Do you see where it says Associated Entities?
A Yes.
Q 86.49 million in cash deposits?
A Yes.
Q Were those additional deposits generated from your development of the relationship with President Trump?

A I would assume so.
Q Are you aware if those cash deposits were in excess of the cash deposits required of President Trump under the loan documents?

A That I don't know.
MR. SUAREZ: If you could turn to page six of
this document.
Q And see the section that says, Recommendation. At the bottom, under All Facilities, it says: DB relationship. In connection with the addition of Facility \(C\) DJT transferred 40 million in liquidity to DB. He has also indicated he is interested in continued to grow his non-credit relationship with the firm. The AWM banking team has been
introduced to each of DJT's three adult children and two have established relationships with the firm.

What role, if any, would you have been involved with in developing the relationship in this matter?

A I would have brought the banking teams to the customer to see if it was a good match for them to do business with them.

Q And then it says: In addition the \(C B\) and \(S\) real estate team has had a successful history with the family. Do you see that?
A Yes.
Q And what role, if any, would you have had to develop the relationship for the AW and banking team, as opposed to the CB and S real estate team?

A The CBS would be a separate division. The only thing, as I had written earlier on some of the memos, would be to provide them any information if they needed it from the private bank.

Q Were there other credit facilities that you worked with the Trump Organization in developing that didn't close?

A I am sorry, could you say that again?
Q Sure. Were you involved with proposing other credit facilities to the Trump Organization that ultimately did not close?

A Yes.

Q What were those facilities?
A The -- they had requested a loan for the Turnberry golf course in Scotland, which was declined by the bank.

Q Why was the Turnberry facility declined by the bank?
A The -- at that time he was President of the United States or going to become President of the United States and the bank's position was that they did not want to increase the exposure at that time.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

1 Q Are you aware as to why the bank did not want to increase his exposure to then president-elect Trump at that time?
A Yes.
Q What was that reason?
A At that time, because he was president-elect and/or candidate, at that time I don't recall which one, but the bank felt that the increased exposure, scrutiny, it was an unprecedented situation to have a customer who was going to become President of the United States. And the bank's position was that it was not appropriate to go up in exposure, given the circumstances.

MR. SUAREZ: And if we could turn back to Plaintiff's Exhibit D-298.
(Whereupon, the exhibit was displayed on the screen.)
Q This document, would you agree, Ms. Vrablic, is dated
February 27, 2012, -- or was prepared in advance of a meeting with Donald Trump on February 27, 2012 ?

A Yes.
Q And that was before President Trump entered the political arena?

A For president, yes.
Q And at that time, if we turn to the second page.
(Whereupon, the exhibit was displayed on the
R. Vrablic - by Defendant - Direct (Mr. Suarez)

Page 5559

\section*{screen.)}

Q One of the purposes of the meeting was "To continue to build out the existing AWM relationship of loans, deposits and investment management."

Do you see that?
A Yes.
Q And then in the background section it says, "Rosemary
Vrablic, WM" -- "WM" means Wealth Management -- "developed over
the last 12 months a very strong relationship with Donald Trump,
Donald Trump, Jr., Ivanka Trump, and Jared Kushner."
Do you see that?
A Yes.
Q Was that consistent with how the relationship ultimately played out with President Trump and his family until such time as he was elected president?

A Yes.
MR. SUAREZ: Your Honor, I know we are nearing the lunch break. I think if we could take the lunch break now, I would be in a position to greatly reduce the amount of time that I have left.

MR. KISE: I was going to suggest that we do that
because maybe --
THE COURT REPORTER: Im sory, because? I can't hear you.

THE COURT: Sure. We could do that. How much
longer do you have on direct? I know you don't know.
MR. KISE: I know, maybe if we have the time now to consult, maybe 30 minutes or so. No more than an hour. So we could substantially -- I think we could substantially --

THE COURT REPORTER: rm sorry, you just tumed the mic off.

MR. KISE: I think we can reduce it substantially based on what I've heard.

By the way, for the record, a hole-in-one might be an eagle, but it also can be an albatross. It could also be an albatross. I heard that before, there was a discussion when I was out of the courtroom.

THE COURT: I'm going to have to Google this. Okay. See you all at \(2: 15\). I'll direct the witness not to talk to anybody.
(Whereupon, the witness stepped down from the witness stand.)
(Whereupon, the case on trial was adjourned until 2:15 for the luncheon recess.)
\[
\underset{*}{\text { A F T ERNOON }} \underset{*}{ } \underset{*}{\text { SESSSION }}
\]

THE COURT OFFICER: All rise. Part 37 is back in session. The Honorable Judge Arthur Engoron presiding. Please be seated and come to order.

THE COURT: I believe the witness is on her way. MR. KISE: Judge, I'm going to take credit for four for four. We are going to keep this pretty short.

THE COURT OFFICER: Witness entering. THE COURT: Great.
(Whereupon, the witness stepped into the witness stand.)
Q Ms. Vrablic, good afternoon.
I would like to show you a document that's been previously admitted into evidence as Defendant's Exhibit 212?
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Are you aware, approximately, when the loan to Trump
Endeavor 12, LLC closed?
A Based upon this, I would say June 11th, 2012.
Q And that's The Trump Doral loan; right?
A Yes.
Q And that was the first loan Deutsche Bank made to an entity that was personally guaranteed by President Trump and the Wealth Management Division?

A Yes.
MR. SUAREZ: I would like to go back to Defendant's Exhibit 312.
(Whereupon, the exhibit was displayed on the

\section*{screen.)}
(The witness was handed the exhibit.)
Q And again, I direct your attention to the e-mail from
Marcus Mitchell to Thomas Bowers. Do you see that e-mail in -beginning in the second page of the exhibit?

A Yes.
Q What is the date of this e-mail?
A December 23rd, 2011.
Q Was this e-mail sent to Mr. Bowers before the Doral loan closed?

A Based upon the dates, yes.
Q Who is Mr. Bowers?
A He was my boss and head of Private Wealth Management domestic.

Q I would like to draw your attention to the middle of this paragraph, which says "The facility will be supported by a full and unconditional guarantee (the PG) provided by DJT." Do you see that?
A Yes.
Q And is that a reference to the guarantee that was ultimately provided by President Trump?

A Yes.
Q And then it says "Through our due diligence, we have concluded that DJT has an exceptionally strong financial profile consisting of a reported net worth of \(\$ 4.2\) billion, which we

Page 5563
have adjusted to \(\$ 2.4\) billion, including 230 million in unencumbered liquidity, an extensive real estate portfolio including one billion in adjusted net equity held in four wholly-owned low leveraged class A New York City properties, only 2 million in personal debt and 114 million in secured contingents."

Do you see that?
A Yes.
Q What basis, if any, do you have to disagree with the characterization of President Trump's financial condition in this e-mail?

A This would have been written by Marc Mitchell. I would have no reason to think differently.

Q Who is Marc Mitchell?
A He was the head of lending.
Q Was this information aware to the bank before it accepted a guarantee from President Trump?

MR. WALLACE: Objection. The formulation of the question.
Q I'm sorry. Was the bank aware of this information before it accepted a guarantee from President Trump?

A Yes.
Q And what does it mean, to your knowledge, the statement, "Through our due diligence, we have concluded that DJT has an exceptionally strong financial profile"?

Page 5565
well diversified across his interests in real estate, licensing, entertainment, golf clubs, speaking, and several other forms of miscellaneous revenues."

Do you see that?
A Yes.
Q And what basis, if any, do you have to disagree with
Mr. Mitchell's analysis of that?
A Again, I would not -- I would assume he did his work.
Q And then it says, "We are recommending the facility based on the strength of DJT's PG." Do you see that?
A Yes.
Q And would that have been the strength -- withdrawn. Would your -- the strength of the facility was
recommended based on the strength of Donald's PG reflected in this document; is that your understanding?

A I'm sorry. I don't follow that.
Q It says, "We are recommending the facility based on the strength of DJT's PG." Is that a personal guarantee?

A Yes.
Q And would that follow based on the analysis that the bank conducted of President Trump's financial condition?

A Yes.
Q And then if you keep going it says -MR. SUAREZ: Scroll down.
R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5566

1 (Whereupon, the exhibit displayed on the screen was

\section*{Page 5567}

A I would have no basis to disagree.

24 A I would have no basis to dispute it.
Q And then a few lines down, do you see it says, "Total real estate debt of 302 million resulting in approximately 18 percent leverage on RE portfolio."

Do you see that?
A Yes.
Q What basis, if any, do you have to dispute that the bank had that knowledge in its possession before accepting President Trump's guarantee?
A I would have no reason to dispute it.
Q And if we turn to page three of this document.
(Whereupon, the exhibit was displayed on the screen.)
Q Do you see at the top it says, "Reported 4.2 billion
and adjusted based on DB due diligence to 2.4 billion." And that's under the section "Net Worth", which appears just a little bit above.

\section*{Do you see that?}

A Yes.
Q And what, if any, basis do you have to dispute that the bank was -- that the bank had adjusted President Trump's net worth from 4.2 billion to 2.4 billion prior to accepting his guarantee?

Q And if this analysis was acceptable to Mr. Bowers would
it have been acceptable to you?
A Yes.
Q And then if we scroll up to page one, you see an e-mail on December 23rd, 2011, from Mr. Bowers to Marcus Mitchell, that you, Dominic Scalzi and Thomas Sullivan are copied on?
(Whereupon, the exhibit was displayed on the screen.)
Q And Mr. Bowers, you could see, is responding to
Mr. Mitchell, with a copy to you, and it says, "I would
conclude", first paragraph, "by saying we recommend on the basis
that it is a sound credit, and even in the absence of a personal guarantee, but that the PG makes it remarkably -- makes it a remarkably safe deal given the strength of the guarantor."

Then he goes on to write, "Mentioned that it is among the strongest personal balance sheets we have seen and totally unlike any of our major real estate developer clients in that we
observe an absence of personal debt, with huge asset base and diversified CF."

Do you see that?
A Yes.
Q What does "CF" mean?
A Cash flow.
Q And do you have any -- at the time, withdrawn.
Do you have any reason to disagree with Mr. Bowers assessment of President Trump's personal balance sheet?
R. Vrablic - by Defendant - Direct (Mr. Suarez)

Page 5569
MR. WALLACE: Im just going to raise an objection. We had, now, a series of questions about whether she has any reason to disagree. I don't know if that even generates admissible testimony. She has no basis to disagree with something that isn't her statement, so I'm going to object, I guess, on relevance grounds.

THE COURT: It's an unusual approach, do you have any reason to disagree with a certain statement. I mean, I didn't stop it. And --
Q Do you agree with Mr. Bowers' assessment?
THE COURT: Did she agree.
Q Did she agree.
A Yes.
Q And, in fact, at the top.
(Whereupon, the exhibit displayed on the screen was scrolled through.)
Q You responded to Mr. Bowers and said, "Also told MM to discuss that DJT's expertise in successfully running world-class assets like as demonstrated by his extensive hotel, condos, golf clubs -- sorry, clubs, golf courses, make this asset purchase and repositioning a realistic and high probable success story." Do you see that?
A Yes.
Q Was that, in fact, what happened?
A Yes.
\(1 \quad Q\) And was this information contained in this e-mail available to the bank before it accepted President Trump's guarantee?

A Yes.
MR. SUAREZ: I have no further questions.
THE COURT: Will there be any cross examination?
MR. WALLACE: A brief bit of cross examination.

\section*{CROSS EXAMINATION}

\section*{BY MR. WALLACE:}

Q Good afternoon, Ms. Vrablic. I'm Kevin Wallace from the Attorney General's Office. We met at your deposition.

MR. WALLACE: If we could put back up on the screen
Defendant's 312 , which we were just looking at, I believe, and if we could put next to it Defendant's Exhibit 313.
(Whereupon, the exhibit was displayed on the screen.)
Q Obviously you just discussed Defendant's 312 with Mr. Suarez. Do you recall that testimony? And you earlier, with him, discussed Defendant's Exhibit 313.

If I could just direct your attention on the first page. You had talked about the e-mail dated December 23rd, 2011, at 9:10, from Mr. Bowers to Mr. Mitchell, that had the language about, "we recommend this on the basis that it is a sound credit, and even in the absence of a personal guarantee..."
R. Vrablic - by Defendant - Cross (Mr. Wallace)

Page 5571

Do you remember that testimony?
A Yes.
Q I just want to focus on the next paragraph, which states, "Not to micromanage, but I have to escalate such risks to PDW, and we could miss a great franchise opportunity, of which this is undoubtedly one, by not highlighting deal strengths."

\section*{Who is PDW?}

A Pierre De-Weck was the global head of private banking at that time.
Q And why did Mr. Bowers have to escalate these risks to PDW -- to Mr. De-Weck, sorry?
A I don't know which risks Tom would have been mentioning or thinking at that time.

MR. WALLACE: If we could turn to page three of Defendant's 313.
(Whereupon, the exhibit was displayed on the screen.)
Q And if we look down here -- actually, if we go down a little lower, there is a message from Dan McAvoy to Pierre De-Weck, copies Mr. Bowers among others.

Am I to understand, then, that the e-mail in
Defendant's 312 is a team of people working on the presentation of what's going to be sent to Mr. De-Weck here in Defendant's

Page 5573
Mr. De-Weck is making it clear that the bank needs an ironclad guarantee in order to extend this facility; correct?

A Correct.
Q Do you know if the credit approval for this transaction
was on the basis of a guarantee, or just on the strength of the facility on its own?

A I don't recall which one, but in -- I would assume both would be important.

Q But in the basis here, the loan was, in fact, not recommended on the basis that it was a sound credit in the absence of a personal guarantee; correct?

MR. KISE: Objection. Is he asking her to read what's written there or is he asking her what her understanding is?

THE COURT: I'll ask for a clarification.
Q Based on the e-mail to Mr. De-Weck and his response, the loan was, in fact, not recommended on basis that it was a sound credit independent of a guarantee; is that correct?

A That's correct.
MR. WALLACE: Can we give the witness Plaintiffs Exhibit 1129.
(Whereupon, the exhibit was displayed on the screen.)
(The witness was handed the exhibit.)
Q Ms. Vrablic, you've been handed a document that's been
 particularly like giving recourse to their lenders, so they

Page 5575
usually prefer to have nonrecourse type of financing.
Q And these are your clients are the kinds of developers you are talking about?

A Yes.
Q Do you have a sense of why your clients don't like recourse?

A I think most clients done like recourse.
Q What is the reason for not liking recourse?
A At the end of the day their personal assets are also
basically standing behind the credit facility, so should a
project or a real estate project not work out, the bank could
sue each person individually as well.
Q And their individual assets beyond the project could be at risk?

A That's correct.
Q So why is recourse a requirement for private banking?
A Usually because we are financing an asset that requires a personal guaranty, meaning it's a transitional type of asset, or because we are the private bank, we deal with people and we prefer them to have recourse for their facilities.

Q Okay.
MR. WALLACE: If we could go down to the introductory note from Mr. Kushner. I believe it's on the next page, actually.
(Whereupon, the exhibit was displayed on the
screen.)
Q And Mr. Kushner is addressing the message to Don Trump, Jr. And he writes, "While Rosemary only lends with recourse, the flexibility rates and service you get is unparalleled, so I would recommend you consider this highly."

First of all, can I ask, do you agree with that statement from Mr. Kushner?
A Yes.
Q And so why was the flexibility that you offered unparalleled?
A The -- I think based upon because people would give recourse, that we do have the flexibility on terms and conditions where if somebody is doing a nonrecourse loan, they are really just looking at the property or the business themselves. So it does give -- gives us the flexibility to be creative on some conclusions, because the person is standing behind it.

Q I think you kind of touched on this a little bit in your last answer, but why is the rate also unparalleled?

A Usually because, again, they are putting something up that is a little bit different than a nonrecourse loan. You do have the guarantee and the assets of the individual behind it, so that, um, the rate usually does reflect that.

MR. WALLACE: If we go up to the response from Donald Trump, Jr.
R. Vrablic - by Defendant - Cross (Mr. Wallace)

Page 5577
(Whereupon, the exhibit was displayed on the screen.)
Q He writes to you, "I fully understand the recourse position and don't have an issue with that."

May I ask, did any of the Trump family members you dealt with -- let me withdraw that question and I'll restate the question.

In your experience, did all of the Trump family members that you dealt with understand the recourse position of your lending from the Private Wealth Group at Deutsche Bank?

A Yes.
Q And what Trump family members did you deal with?
A Um, Don, Jr. directly, in terms of his loan. And then I would work with Ivanka and Mr. Trump.

Q Donald Trump, Sr?
A Yes.
Q Did you ever have to explain to any of those individuals why recourse was necessary for a Private Wealth loan?

A No.
MR. WALLACE: We could take that document down.
(Whereupon, the exhibit displayed on the screen was taken down.)
Q Ms. Vrablic, I just want to make sure that I understand 25 your role in the origination process correctly.
\begin{tabular}{|c|c|c|}
\hline \[
\text { Page } 5578
\] & \multicolumn{2}{|l|}{Vrablik - by Defendant - Cross (Wallace) Page 5580} \\
\hline 1 At the time of origination of a loan, your role was & 1 & But I failed to move in Plaintiff's Exhibit \\
\hline 2 limited to recommending a transaction to lending; is that & 2 & 1129, so I ask that be moved into evidence. \\
\hline 3 correct? & 3 & MR. ROBERT: Exhibit what? \\
\hline 4 A Yes. & 4 & MR. WALLACE: 1129, the only one we introduced \\
\hline 5 Q And you had no role in trying to persuade the bank to & 5 & with this witness. \\
\hline 6 make a loan; is that fa & 6 & MR. ROBERT: It is in. \\
\hline 7 A I had my opinion, but I had no authority. & 7 & MR. WALLACE: I didn't think it was in. No \\
\hline 8 Q And you would stay involved in the deal and try to make & 8 & objection? \\
\hline 9 sure that it got done; is that fair? & 9 & MR. ROBERT: Objection, statute of limitations. \\
\hline 10 A Yes. & 10 & THE COURT: Overruled. \\
\hline 11 Q But if lending made a decision that they did not want & 11 & (Whereupon, the document referred to was deemed \\

\hline \(1 \quad\) Q I believe you testified during your investigative & 1 & now, if you work? \\
\hline 2 examination that the first time you saw his Statement of & 2 & THE WITNESS: I am retired. Happily. \\
\hline 3 Financial Condition was when you were preparing to testify in & 3 & THE COURT: Well, you won't have to face anymore \\
\hline 4 front of the Attorney General during the investigation that led & 4 & of these, I guess. \\
\hline 5 to this action; is that correct? & 5 & MR. SUAREZ: Your Honor, I failed to move in \\
\hline 6 A Correct. & 6 & Defendant's Exhibit 297. I would like to move that in. \\
\hline \(7 \quad \mathrm{Q}\) It is in general not your practice to look at the & 7 & MR. WALLACE: No objection. \\
\hline 8 annual financial updates of your clients; is that correct? & 8 & THE COURT: Granted, it is in evidence. \\
\hline 9 A That's correct. & 9 & (Whereupon, the document referred to was deemed \\
\hline 10 Q So during your time at Deutsche Bank, you were not & 10 & marked for evidence as Defendant's Exhibit 297 by the \\
\hline 11 specifically aware that Mr. Trump was required to assert the & 11 & Court.) \\
\hline 12 accuracy of his Statement of Financial Condition; is that & 12 & MR. SUAREZ: With that we have no further \\
\hline 13 correct? & 13 & questions. \\
\hline 14 A Well, I know customers had to do that. All customers & 14 & THE COURT: Anything else by anybody? \\
\hline 15 had to do that. & 15 & You are free to go. \\
\hline 16 Q Okay. And you have had an expectation that a & 16 & THE WITNESS: Thank you, sir. \\
\hline 17 borrower like Mr. Trump would represent their financial & 17 & (Whereupon the witness stepped down from the \\
\hline 18 position fairly to the bank; is that correct? & 18 & stand and exited the courtroom. \\
\hline 19 A That's correct. & 19 & THE COURT: Is Mr. Birney here? \\
\hline 20 Q And that they would not include false or misleading & 20 & MR. ROBERT: He should be coming in. \\
\hline 21 information in their presentations to the bank; is that & 21 & THE COURT: I meant in the building. \\
\hline 22 correct? & 22 & MR. ROBERT: He is, Your Honor. \\
\hline 23 A That's correct. & 23 & COURT OFFICER: Witness entering. \\
\hline 24 MR. WALLACE: I have no more questions, Your & 24 & (Whereupon the witness resumed the stand.) \\
\hline 25 Honor. & 25 & THE COURT: Okay. Let's continue with the \\
\hline
\end{tabular}

Q And what do the highlights indicate on this page?
A The highlights indicate figures that were used in the calculation of the 40 Wall supporting data spreadsheet valuation.

Q And how were these figured used?
A An average price per square feet was calculated. And then --

THE WITNESS: Can you pull up the spreadsheet?
MS. HERNANDEZ: Nate, can we pull them up side
by side, PX-758 and this document?
A The square footage was multiplied by the average square foot -- sorry, average price per square foot.

Q And is that what is reflected on the side of the exhibit on the left there in the adding?

A I don't understand the question. Sorry.
Q What is reflected on --
MS. HERNANDEZ: Could you scroll little bit to the right on PX-762? Yeah.
Q What is reflected on the adding tape there?
A That calculation is reflected in the average price per square foot.

Q And what is the second page of PX-762?
A It is where the square footage is coming from.
Q Where is the square footage coming from?
A The note says it is from the 40 Wall rent-roll.

Bimey - by Defendant - Direct (Hemandez)
Page 5583
the square footage to value this property?
A In 2017?
Q Sure.
A Are you able to show me the backup for that year?
Q Sure I can.
MS. HERNANDEZ: Can we pull up PX-762?
I think we have copies over there.
(Handing)
Q Mr. Birney, do you recognize this document?
A Yes.
Q And what is this document?
A It is the backup to the supporting data spreadsheet figures for 40 Wall Street.

Q And would you have sent this document to Mazars in connection with the Statement of Financial Condition?

A Probably.
Q And what is the first -- excuse me.
MS. HERNANDEZ: Your Honor, I would like to move
in Plaintiff's Exhibit 762 into evidence.
THE COURT: It is in. Granted.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 762 by the Court.)
Q What is the first page of this document, Mr. Birney?
A It is a list of recent downtown sales at this time.

Birney - by Defendant - Direct (Hemandez)
Page 5585
Q And that's in your -- is that in your handwriting? A Yes.

MS. HERNANDEZ: Okay. And so we are going to now move to the Vornado Partnership on row 781 of the 758 native.
Q Could you briefly describe the Vornado Partnership for us, Mr. Birney?

A Mr. Trump owns a 30 percent limited partnership interest in two office buildings in New York and San Francisco: One at 555 California Street and one at 1290 Sixth Avenue.

Q And how was the Vornado Partnership valued in 2017?
A In 2017?
Q Correct.
A Net operating income divided by cap rate, less debt, and then multiplied by 30 percent.

MS. HERNANDEZ: And Nate, can we pull up PX-764
side by side with this document?
(Handing)
Q Mr. Birney, do you recognize PX-764?
A Yes.
Q What is that document?
A It is the backup to the 555 California Street section of the supporting data spreadsheet.
\(Q\) And was that sent to Mazars?
A Yes.
\begin{tabular}{|c|c|c|}
\hline & y - by Defendant - Direct (Hemandez) Page 5586 & \\
\hline & MS. HERNANDEZ: Your Honor, I would like to move & \\
\hline 2 & Plaintiff's Exhibit 764 into evidence. & \\
\hline 3 & THE COURT: Granted, it is in. & \\
\hline 4 & (Whereupon, the document referred to was deemed & \\
\hline 5 & marked for evidence as Plaintiff's Exhibit 764 by the & \\
\hline 6 & Court.) & \\
\hline 7 & Q What does the star in the middle of the first page & \\
\hline 8 & indicate, Mr. Birney? & \\
\hline 9 & A It indicates that figure was used in the supporting & \\
\hline & data spreadsheet for the calculation of the valuation for 555 & \\
\hline & California Street. & \\
\hline 12 & Q And what figure is being indicated with the star? & \\
\hline 13 & A 62,482,000. & \\
\hline 14 & Q And what is that figure? & \\
\hline 15 & A The operating income in -- for the year ending & \\
\hline 16 & December 31, 2016. & \\
\hline 17 & Q And was -- was that used in the valuation for 555 & \\
\hline 18 & California Street in \(2017 ?\) & \\
\hline 19 & A Yes. & \\
\hline 20 & Q And looking to page three and four of PX-764, what -- & \\
\hline 21 & let's start with page three, what is page three of this & \\
\hline 22 & document? & \\
\hline 23 & A One of the sales that were used for the cap rate for & \\
\hline 24 & the valuation of 555 California Street. & \\
\hline 25 & \(Q\) And what is page four? & \\
\hline
\end{tabular}

\section*{Page 5587}

A The other sale that was used for the cap rate for the valuation of 555 California Street.

MS. HERNANDEZ: And so if we can look at the note on row 808 of PX-758?
Q What is being reflected by that note?
A Do you want me to just read the note?
Q You can read it or summarize what it is saying.
A 555 cap rate based on information provided by Brian Hegarty and Michael Papagianopoulos of Cushman \& Wakefield in San Francisco, which contained comps for Class A office buildings. Cap rates for these buildings were 3.7 percent and 3.9 percent for an average of 3.8 percent.

Q And that's reflected in the backup of the two pages we just looked at of PX-764? Right?

A Yes.
MS. HERNANDEZ: Nate, if you could replace
PX-764 with PX-765?
(Handing)
Q Mr. Birney, have you seen PX-765 before?
THE WITNESS: Can you scroll out on the spreadsheet a little bit, or up?
A Yes.
Q What is PX-765?
A The backup to the supporting data spreadsheet for 1290 Avenue of the Americas.

Q And was PX-765 sent to Mazars in connection with the Statement of Financial Condition?

A Yes.
MS. HERNANDEZ: Your Honor, I would like to move
Plaintiff's Exhibit 765 into evidence.
THE COURT: Granted, it is in. MS. HERNANDEZ: Thank you.
(Whereupon, the document referred to was deemed marked for evidence as Plaintiff's Exhibit 765 by the Court.)
Q So what do the stars and highlights indicate there on PX-765?

A They indicate those figures were used in the calculation of the net operating income.

Q And what -- where did this document come from?
A I think it came from Vornado.
Q Sorry, I didn't hear your answer.
A From Vornado.
Q And what is it?
A What is what?
Q What is this from Vornado?
A It is a cash flow report or an income statement for 1290 Avenue of the Americas 4/20/16.

Q And so why would you have sent this to Mazars?
A Because it was used in the valuation of 1290 Avenue

Page 5589
of the Americas in 2017.
MS. HERNANDEZ: okay. So, we are going to move
to the Las Vegas property now on the spreadsheet, which is row 821 .
Q How was the Las Vegas property in general valued in 2017?

A There were a few components. There was a value of the remaining unsold units. There was a development of fee. And there was distributable income that were added up for the ultimate value.

MS. HERNANDEZ: Okay. And then looking to PX-766.
(Handing)
Q Have you seen Plaintiff's Exhibit 766 before?
A Yes.
Q What is Plaintiff's Exhibit 766?
A It is the backup to the value of remaining unsold units that was used in the valuation of TIHT, Las Vegas in 2017.

Q And was this document sent to Mazars?
A Yes.
MS. HERNANDEZ: Your Honor, I would like to move
Plaintiff's Exhibit 766 in evidence.
THE COURT: Granted, it is in.
(Whereupon, the document referred to was deemed
\begin{tabular}{|cc|}
\hline Birney - by Defendant - Direct (Hemandez) & Page 5590 \\
1 & marked for evidence as Plaintiff's Exhibit \\
\(\mathbf{1}\) & \\
\hline
\end{tabular}
Court) Court.)
Q So what does the red box on that first page indicate?
A It reads: This work paper is based on the sales units as of October 1, 2017. Since the proceeds of the sales of each unit are used to pay down the outstanding loan, the client value as of this date is deemed to be un-- deemed to be reasonable.

Q And who would have written that note?
A I don't know who wrote that note.
Q Did you write that note?
A I did not write that note.
Q In your experience, would Mazars have added notes to the supporting data as they reviewed them?

A Can you repeat the question, please?
Q In your experience, would Mazars have added notes to the backup to the supporting data when reviewing them?

A It is possible.
Q Do you have any reason to think this wasn't a note by Mazars?

A To me it seems like it was a note from Mazars.
Q And why do you say that?
A Because it refers to the client value, and Trump was a client of Mazars.

Q So moving on from the note now. Why would you have

Page 5591
sent Mazars the remaining units and inventory for the Las Vegas property?

A Because it was used in the valuation of Las Vegas in 2017.

MS. HERNANDEZ: And going to page three of PX-766.
Q What is this e-mail chain?
A It is an e-mail chain that begins with me asking Jennifer Cook to send a current list of unsold units, including individual unit prices at that time.

Q Who is Jennifer Cook?
A The operations manager and sales executive of Trump International Realty and Trump Las Vegas.

Q Why did you have to ask Ms. Cook for this information?

A Because I didn't have it.
Q Why would you have had it?
A Because I would have asked Jeff if he had it. And Jeff would have probably said no, and reach out to Jennifer Cook, who does have it.

MS. HERNANDEZ: okay. So now we are going to
look at the triplex property, which is row 969.
Q Mr. Birney, can you describe how the triplex was valued in 2017?

A Can you scroll up, please?

MS. HERNANDEZ: Scroll up to where you see the year.

THE WITNESS: Just down a couple of rows, please. Up a couple of rows, please.
A Can you repeat the question?
Q Sure. How was the triplex valued in 2017 ?
A Square footage times price per square foot.
Q And how does the valuation in 2017 differ from the valuation in \(2016 ?\)

A It is a lot less.
Q Why is that?
A Because the inputs are different, specifically the square feet.

Q And why was the square footage different in 2017?
A Because there was an article written that said Mr. Trump's triplex is less than he is saying it is. And we looked into that and confirmed that it was actually 11,000 square feet.

THE COURT: Five minutes.
I am sorry. Go ahead.
A So we -- and so we updated the square footage on the supporting data spreadsheet.

Q Who looked into verify the accurate square footage?
A It was either Jeff McConney or Allen Weisselberg who, I think, asked Stephanie Lennig to look into the square footage
iimey - by Defendant - Direct (Hemandez)
Page 5593
of the condo owned by Mr. Trump. And there is a piece of paper used in the backup that verifies the square footage is 10,996 .

Q We will get to that, the backup.
Was that article and those conversations the first time you became aware that the square footage was 10,996 square feet?

MR. WALLACE: Objection, leading.
THE COURT: Sustained.
Q When was the first time you became aware of the 10,996 square footage being the right square footage?

A When Stephanie Lennig confirmed it.
(The following proceedings were stenographically recorded by Senior Court Reporter Michael Ranita.)

witness. I understand the defendants don't have a witness available, so.

THE COURT: So it doesn't matter. We get a break. Okay, class dismissed.

MR. ROBERT: I feel like it's a snow day. Thank you, your Honor.

THE COURT: See you all at 10:00 tomorrow. MR. ROBERT: Thank you, sir.
(Whereupon, the case on trial was adjourned to Thursday, November 30, 2023 at 10:00 a.m.)
